Oil Facilities. The Oil Installations Depôt, which is about 92 acres in extent, lies some 4 miles inland from the harbour front. The Oil Companies' storage tanks are situated within this area, with pipe line connection from the harbour for fuel oil, kerosine, and benzine imported in bulk. There is also a Measuring Tanks Depôt (about 19 acres in extent) at Bloemendahl, about three-quarters of a mile from the Harbour. Three reinforced concrete jetties, two for bunkering purposes and one for the discharge of oil tankers, have been provided. The Outer Bunkering Jetty can accommodate vessels of 500 feet in length with a draught of 27 feet; the Inner Bunkering Jetty is available for barges only. The Discharge Jetty can accommodate vessels of 500 feet in length with a draught of 27 feet. The capital expenditure on the oil scheme up to 30th September, 1937, was rs. 5,363,762.

The Coaling Depôt consists of 25 acres of land, reclaimed from the sea, with a frontage of 2,200 feet, from which 17 jetties project into the harbour for the landing, stacking, and shipping of coal. The total cost of this depôt was 158,500*l*.

The total cost of the Reclamation, Jetties and Quays amounts to 216,124*l*.

The Fishery Harbour is to the northward of Colombo harbour for the use of the fishermen as a beaching ground. The fishery harbour consists of a rubble breakwater running out from the shore in a curve for 800 feet, the sheltered part forming a natural beaching ground for fishing canoes. The cost was 11,507*l*.

The total expenditure on the Colombo harbour from 1873, when work in connection with the first breakwater was commenced, to 1913, when the Colombo Port Commission assumed control of the harbour, was rs. 44,790,267, or 2,986,018*l*., taking the value of the rupee at 1*s*. 4*d*.

Digitized by Google

In the period 1913 to 1937 a sum of rs. 61,800,025 or 4,120,002*l.*, has been spent on various development and maintenance works by the Colombo Port Commission and a sum of rs. 2,603,045 or 173,536*l.* by the Public Works Department, making a total of rs. 64,403,070 or 4,293,538*l.* In addition to the above expenditure a sum of rs. 1,202,406 or 80,160*l.* was charged to Loan Funds during the period 1923-1936, in connection with the dredging of the Colombo Harbour (including rock excavation). Prior to 1st October, 1922, this expenditure was met from Revenue, and is included in the sum of rs. 64,403,070 or 4,293,538*l.* mentioned above.

Since the Colombo Port Commission assumed control of the Port, many improvements have been carried out, and shore facilities much increased. The warehouse accommodation in 1913 was 291,600 sq. ft., and this has been increased to 568,786 sq. ft.; similarly the quayage for lighters has been increased from 4,645 lineal ft. to 19,709 lineal feet, including 15 coaling jetties and 3,105 lineal feet at the Lake to Harbour Canal Quay.

Dredging for deepening the harbour has been steadily carried out, and, of the 643 acres low water area of the harbour, 250 acres are now dredged to 36 feet and over.171 acres to between 36 and 33 feet, 68 acres to between 33 and 30 feet, and the remaining 154 acres have a depth of less than 30 feet; berthing accommodation exclusive of the Graving Dock Guide Pier and Oil Jetties being available for 35 vessels in the north-east monsoon and for 23, or, if packed berths are used, 38, vessels in the south-west monsoon, six of which berths are available for vessels of draughts up to 33 feet during the north-east monsoon and four during the south-west monsoon.

A scheme for the development of the Colombo Lake and its connection to the Harbour was completed in 1925 at a total cost of rs. 9,206,490. The total capital expenditure on the Lake Scheme up to September, 1937, was rs. 10,048,032. The connection to the Harbour was taken over by the Colombo Port Commission in 1922, and the areas on both sides developed for the landing of import cargoes.

The maintenance of the waterways and quay walls of the Colombo Lake up to and including the operation of the San Sebastian Canal Locks and pumping plant has also been taken over, and this will lead to further development of its resources. The portion of land bordering on the Beira Lake and running parallel to Parsons Road, taken over by the Colombo Port Commission, has been earmarked for barge repairing and barge construction purposes. Two firms have lots there. The development of these Barge Yards has relieved the congestion in the Harbour by affording facilities for the reception of a number of boats which had hitherto been moored in the Harbour. Land on the lakeside, by its propinquity to the Harbour and easy access thereto both by land and water, affords a valuable venue for commercial purposes.

The Chalmers' Granaries and Manning Market were transferred from the Board of Immigration Quarantine (at present known as Quarantine Department) and the Public Works Department respectively to the Colombo Port Commission for purposes of administration and maintenance with effect from 1st October, 1930. A sum of rs. 2,421,485 has been included in the Capital Expenditure of the Port in respect of the properties taken over.

Harbour Tugs.—Three large Government tugs, the "Goliath," "Hercules" and "Sinhabahu," are provided for the berthing of vessels in the harbour and rendering assistance to vessels in close proximity to the port. The "Hercules" and "Sinhabahu" are ocean-going tugs and are fitted with salvage appliances and machinery of over 2,000 horse power. They are available for rendering assistance within a large radius.

Ambulance Facilities.—An ambulance launch is available for the conveyance of sick and injured persons between ship and shore. The Colombo Municipal Council provides an adequate and efficient motor ambulance service for the Port.

Colombo Water Supply.

The Colombo Water supply is obtained from Labugama Reservoir which is situated in the Western Province, at a distance of 28¼ miles from the City.

The Reservoir was formed by impounding the water of the Wak-Oya, a tributary of the Kelani Ganga.

The Catchment area, which is 2,500 acres in extent, is free from any habitation or cultivation, all the land as far as the summit of the water shed having been reserved together with a strip two chains in depth along the adjacent water sheds.

The area of the reservoir at the present top water level is 205 acres. This lake, the scenery of which is very charming, is 373 feet above sea level and has a maximum depth of 72 feet.

The storage capacity of the reservoir is 1,900 million gallons.

Filtration works of the "Jewell Gravity" type are situated immediately below the Reservoir Dam.

The water has a very low alkalinity and is remarkably pure. It is conveyed to the two service Reservoirs in Colombo through three separate pipe lines; two of these are of cast iron each 20 inches in diameter, and the other of steel 30 inches in diameter.

The 20-inch supply main was duplicated between Wellampitiya and Elie House Reservoir (a distance of 4 miles) during the latter part of 1930.

The 30-inch supply main was duplicated between Wellampitiya and Maligakanda Reservoir (a distance of 2 miles) during 1932. It was further extended for a distance of 13¼ miles towards Labugama during 1933-37.

There are some 295½ miles of supply and distribution mains, varying in size from 30 to 3 inches in diameter. Water service is available to all premises within the City and also to shipping in Colombo Harbour.

A new 20-inch diameter main was laid during 1935 direct from Maligakanda Reservoir to the South-West Breakwater to meet the increased demand for the supply of water for shipping calling at the Port of Colombo.

During the past five years the water has been treated by chlorination in addition to filtration.

73 Deacon meters for the detection of waste have been fixed throughout the City.

The average daily consumption is now between 14 and 15 million gallons, or 46 gallons per head of resident population.

Railways.

The lines of railway, all of which are owned and worked by the Government, are distributed thus:—*Broad Gauge* (5ft. 6 in.), Colombo to Badulla (181¼ miles), Polgahawela to Kankesanturai (212¼ miles), Peradeniya Junction to Kandy and Matale (21¼ miles), Ragama Junction to Mahara Quarry (1¼ miles), Colombo to Matara (98¼ miles), Ragama to Puttalam (74¼ miles), Maho to Batticaloa (131¼ miles), Galoya Junction to Trincomalee (44¼ miles), Madawachi to Talaimannar Pier (66 miles), Kolonnawa Oil Line and Harbour Branch (3¼ miles). *Narrow Gauge* (2ft. 6 in.), Colombo Fort to Yatiyantota (49¼ miles), Avisawella to Opanaike (48¼ miles), Nanu Oya to Ragalla (19¼ miles). *Total Mileage* 951¼ miles. The total cost of construction up to

Digitized by Google

30th September, 1937, charged in account was rs. 228,015,601. The receipts for the 12 months ended 30th September, 1937, were rs. 16,304,611, and expenditure rs. *20,355,043. Deficit rs. 4,050,432.

By the completion of the Talaimannar extension the railway systems of India and Ceylon were brought within 20 miles of one another, the intervening distance being covered by steamers of the South Indian Railway Co., which ply between Dhanuskodi (the Indian Port) and Talaimannar (the Ceylon Port). The other extensions are for the better transport of planting produce (tea, rubber, coconuts, etc.).

Roads.

Ceylon is well provided with roads. The total mileage of roads and cart tracks amounts to approximately 16,600, and that of bridle paths to over 8,200, the administration and control of this road system vesting generally in the following authorities :—

	Mileage.	
Public Works Department ..	4,816	
District Road Committees ..	3,000	
Local Governing Authorities (Municipalities, Urban District Councils, etc.) ..	565	approximate
Village Committees	7,800	
Private Parties, Irrigation Department, etc.	420	

Over 7,000 miles are suitable for motor vehicular traffic, nearly 5,000 being metalled or trackmetalled and the remainder being gravelled.

Most of the metalled roads are maintained in good order and with but few exceptions may be considered passable for all classes of traffic. Gravelled roads can be considered as dry weather roads only ; in dry weather they are generally in fair order, but they cannot be relied upon to the extent of metalled roads.

The Public Works Department is the central road authority of the Island and is in charge of the " main roads " totalling, in 1937, 4,816 miles. Of these, 4,357 miles are metalled, 335 miles are gravelled, and 124 miles are natural tracks. Of the metalled roads, 4,134 miles or approximately 95% are either grouted or surface treated with tar, bitumen or other preparations. The whole cost of maintenance of the main roads is met by the Central Government, while assistance is also rendered to the other road authorities in the form of grants-in-aid. In 1937 the expenditure incurred by the Central Government on road maintenance (including grants-in-aid) amounted to rs. 4,128,868, the average cost of maintenance per mile for the Public Works Department roads working out at rs. 780.

Telephones.

The Government Telephone System comprises two exchanges at Colombo, viz., Central Exchange (2,796† subscribers) and Havelock Town Exchange (517 subscribers) in trunk communication with exchanges at Kandy (187 subscribers), Nuwara Eliya (122 subscribers), Galle (101 subscribers) and 216 smaller exchanges and call offices. There are, in addition, 73 licensed private systems of various sizes, several of which are connected by means of junction lines and subsidiary trunks with one another and the main trunk lines. The mileage of telephone wire in the Government system at the end of 1937 was estimated at 16,685 (aerial) and 37,900 (underground).

Telegraphs.

Nearly all parts of the island are served by the Government telegraph system, which has 315 offices working, inclusive of Railway offices open for postal telegrams. The system comprises 3,808* miles of line and 10,052 miles of wire. Ceylon is in direct telegraphic communication with India by a cable which starts from Talaimannar and crosses the Pambas Channel. It is also connected with Europe by direct cables from Colombo to Aden and with the Far East and Australia by direct cables to Penang.

There is a Government Radio Station in Colombo which is open always. This station keeps watch on 600 metres almost continuously and on 2,100 and 36 metres according to schedules.

The normal day range is 800 miles on the 600 metres wavelength. Ships fitted with shortwave equipment are worked all along the route between the United Kingdom and the Far East and Australia.

A wireless Broadcasting Service is provided on wavelengths of 428·5 metres and 48·7 metres. Music, general news, market prices, etc., are broadcast for about 8 hours daily.

The station caters for over 5,650 listeners in Ceylon.

Postal and Shipping Communications.

1. There is a regular fortnightly mail service between London and Colombo and Australia by the P. & O. steamers. There is also a regular fortnightly mail service by the Orient Line of steamers except from April to August when it is monthly. It has been made possible to fill this gap from April to August by the utilization of the A. & C.L. and S.S. & A. steamers. There are also fortnightly services by the P. & O. steamers line between London and Japan *via* Colombo.

2. The sea mail service between England and Colombo takes approximately 16 days at present.

3. An irregular Parcel Mail Service is maintained between Colombo and Hamburg by the direct German steamers of the Deutsch-Australische-Dampfschiffs-Gesellschaft A-G, Hamburg-Amerika Line, Hansa Line and Norddeutscher Lloyd.

4. A regular fortnightly Parcel Mail Service to Italy is maintained by utilizing the Orient Line steamers to London *via* Naples, except from April to August, when it is monthly.

5. The M.M. steamers maintain a fortnightly mail service between Colombo, Indo-China and Japan and between Colombo and France and countries served through France.

6. The mail service to Western Canada is *via* Hong Kong by all mail steamers to the Far East, except the M.M. Line.

7. The Nippon Yusen Kaisha Line of steamers maintains a fortnightly service between Colombo, Malaya, China, Indo-China, Japan and Philippine Islands. The Bibby Line between Liverpool and Rangoon *via* Colombo provides a regular fortnightly service to Rangoon.

8. The steamers of the Rotterdam Lloyd and the Stoomvart Maatchappij Nederland provide a regular fortnightly service each to the Dutch East Indies, Malaya and China.

9. The regular weekly mails are despatched by the P. & O., O.L., A. & C.L., and S.S. & A. steamers to Australia.

10. The India Natal Line, the Indian and African Line and Osaka Shosen Kaisha Line provide a regular monthly service each to South Eastern and South African Ports. A monthly service by the steamers of the Osaka Shosen Kaisha exists between Colombo and Argentine and Brazil *via* Durban and Cape Town. There is also a monthly service by steamers of the Osaka Shosen Kaisha between Colombo, Dar-es-Salaam, Mombassa and Zanzibar

* Includes provision for renewals.

† Includes call offices at sub-offices in Colombo.

* Mileage of Trunk and Junction lines is included in this figure.

Digitized by Google

and Indian African Line also provides a monthly Service to these ports.

11. The British Indian Steam Navigation Company maintains an irregular monthly service between Colombo and Mauritius and a regular bi-weekly service between Tuticorin and Colombo.

12. There is an irregular mail service between Ceylon and the Maldive Islands by buggalows.

Rates of Postage.

	Letters.	Post Cards.	Printed Matter.	Registered Newspapers.	Samples.	Registration Fee.
Within the Island and to India	Per 2 oz. 6 cents	Each 3 cents	Per 2oz. 2 cents	2 cents. for every copy not exceeding 8 ozs., 2 cents. for every additional 8 ozs.	—	15 cents
Empire Countries served by the "All-Up" service (*see* under air-mails also)	20 cents for every ½ oz. or part of that weight.	10 cents each	3 cents for every 2 oz or part thereof.	Same as printed matter.	First 4 oz. or part thereof 8 cents and every additional 2 oz. 4 cents.	20 cents
Empire Countries not served by the "All-Up" Service	9 cents for every oz. or part of that weight.	6 cents each				
To Foreign Countries	First oz. 20 cents, and 10 cents each additional oz. or part thereof.	12 cents	4 cents for every 2 oz. or part thereof.	ditto	First 4 oz. or part thereof 8 cents., and every additional 2 oz. 4 cents.	ditto

The rate of postage on periodicals registered as newspapers in the United Kingdom or a British Colony other than Ceylon, when posted in Ceylon for transmission by inland post, shall be 6 cents for 6 oz., with 3 cents for each additional 6 oz., up to a maximum of 2 lb.

"All-up" Air Services.

13. Letters and post cards from Ceylon to the under-mentioned countries are forwarded by air as the normal means of transmission. No air mail label or other special marking is required. The postage is 20 cents per ½ oz. for letters, up to a maximum weight of 4 lb., and 10 cents per post card.

"Surcharge" Air Services

To countries not served by the "All-up" Service a "Surcharge" Air Service is available at varying rates of postage. Full information as regards rates, etc., is furnished in an Air Mail leaflet obtainable free at any Post Office.

Trade and Customs.

The Customs Tariff of Ceylon is partly on a specific and partly on an *ad valorem* basis and includes provision for Empire Preference. Preference has been granted, since February 1st, 1933, to certain goods produced or manufactured in and consigned from any part of the British Empire.

In the case of Cinematograph Films (sound and silent), the general rate is 1 cent a foot, but a preferential rate of ¾ cent is levied on films which are wholly produced in an Empire Studio and are registered as British or Imperial Films.

In the case of cigarettes, duty is charged according to the proportion of Empire leaf content, and the wholesale market value in Ceylon.

The basic rate of duty is 15% *ad valorem*. In the case of goods to which Preference is accorded the general rate in many cases has been fixed at 25%, the Preferential rate being 15%. There are also lower rates of 5% and 10% and higher rates of 20% and 30% whilst in the case of a certain number of articles a specific duty is charged. A number of articles are admitted free.

The following are the main articles taxed at the various rates :—

2½% *ad valorem* :—Paper, plain, for writing and printing purposes, including plain envelopes and

Digitized by Google

writing pads other than compendiums, iron and steel sheets and circles for manufacturing drums for the export of local produce.

2½% *Preferential and* 12½% *General* :—Aluminium foil and lining for packing produce for export, and lead sheets, foil and lining for packing produce for export.

5% *ad valorem* :—Manures of all sorts, tea and other chests and fittings.

Free Preferential and 5% *General* :—Raw cotton.

Free Preferential and 10% *General* :—Pig lead.

5% *Preferential and* 15% *General* :—Cotton yarn and twist; dyes and dye stuffs; solder and soldering fluid; paper-millboard, strawboard, cardboard and box board; printing type and blocks; agricultural implements; book cover paper and marble paper; exercise books in paper covers; paper for lining tea chests; tissue paper; solder and soldering fluid.

10% *Preferential and* 20% *General* :—Electric accumulators and batteries (except splash-proof for motor vehicles and dry cell), alternators, control and switch gear, converters, motors, dynamos, transformers, generators and exciters; apples and grapes (fresh); silk and art silk yarn; iron and steel and certain other metal bars, wire, tubes and pipes, sheets (coated); rods, etc., not fabricated; cheese; iron and steel drums and tanks; fish tinned, potted or preserved; typewriters and parts; iron and steel, black or galvanized, chains, bolts and nuts, rivets and washers, nails other than wire nails; barbed wire; iron and steel wire cables and ropes and shoot runners; sewing machines and parts.

15% *Preferential and* 22½% *General* :—Motor lorries, vans, omnibuses, tractors, trailers and accessories thereof, and spare parts for motor vehicles, tram cars and component parts thereof.

15% *Preferential and* 25% *General* :—Silk and art silk (including any admixture thereof) and manufactures thereof.

20% *Preferential and* 27½% *General* :—Motor cars, motor cycles, motor scooters, and accessories thereof.

20% *Preferential and* 30% *General* :—Clocks and watches and parts thereof; Musical instruments and parts, including gramophones and records, etc.

30% *Preferential and* 40% *General* :—Playing cards.

25% *General* :—Betel leaves.

Rs. 15 *per cwt. or* 15% *Preferential and Rs.* 40 *per cwt. or* 35% *General* (whichever produces the higher duty) :—Soap, toilet, perfumed and medicated.

Rs. 4/50 *per cwt. or* 20% *Preferential and Rs.* 9 *per cwt. or* 40% *General* (whichever produces the higher duty) :—Soap, other (including household and laundry soap).

Wheat flour, including atta and sooji flour	cwt.	—	2·00

In the case of spirits a preference of Rs. 3/- per proof gallon has been granted in respect of gin—the general rate being Rs. 25/- per proof gallon, and the preferential rate Rs. 22/-.

On July 31, 1934, the Ceylon Importation of Textiles (Quotas) Order-in-Council 1934, was brought into force imposing restrictions on the importation of cotton piece goods and artificial silk piece goods manufactured in foreign countries.

DISTRIBUTION OF TRADE.

Imports.—During the year 1937, 22·18% of Ceylon's imports came from the United Kingdom, 44·10% from British Possessions and 33·72% from foreign countries.

The principal countries from which Ceylon's imports were obtained and the percentage supplied by each are shown below :—

1937.

British India	22·01%
Burma	13·88%
United Kingdom	22·18%
Japan	6·78%
Iran	3·43%
Siam	2·31%

Exports.—Ceylon's exports during the same period were 46·35% to the United Kingdom, 21·36% to British Possessions and 32·29% to foreign countries.

The principal exports were tea, rubber, and cocoanut products.

The total trade of the Island with the United Kingdom, British Possessions, and foreign countries is shown below :—

With the United Kingdom ..	35·45%
" British Possessions	31·44%
" Foreign Countries	33·11%

N. W. J. Gunesekere, Rs. 6,960.

Legal Draftsman's Department.

Legal Draftsman, J. M. Fonseka, Rs. 19,280.
Assistant Legal Draftsman, P. C. Villavarayan, 760*l.*
Second Assistant Legal Draftsman, H. L. Wendt, 760*l.*
Third Assistant Legal Draftsman, H. N. G. Fernando, Rs. 6,960.
Fourth Assistant Legal Draftsman, B. P. Peiris, Rs. 6,540.

Customs Department.

Principal Collector, H. E. Newnham, C.M.G., 1,750*l.*
Acting Deputy Collector, R. N. Bond, 1,000*l.*
Landing Surveyor, Colombo, W. D. Gunaratna, 840*l.*
Assistant Collector of Customs, M. M. Anthonisz, 600*l.*
Assistant Collector of Customs, E. D. Frugtniet, Rs. 7,600.
Assistant Collector of Customs, S. M. Leembrugger Rs. 6,600.
Accountant, A. A. Deane

Digitized by Google

WESTERN PROVINCE.

Assistant Collector of Customs, Kalutara, J. N. Arumugam (A.G.A.).
Assistant Collector of Customs, Negombo, T. Weeraratne (D.J.).

SOUTHERN PROVINCE.

Collector, W. J. L. Rogerson (G.A.).
Assistant Collector and Landing Surveyor, A. C. M. Hingley (A.G.A.).
Additional Assistant Collector, A. Kanapathipillai (acting).
Assistant Collector of Customs, Hambantota, W. Holmes (A.G.A.).
Master Attendant, Hambantota, W. Holmes, (A.G.A.).

NORTHERN PROVINCE.

Collector, R. B. Naish (G.A.).
Assistant Collector and Landing Surveyor, Jaffna, R. Chintamani (acting).
Assistant Collector and Landing Surveyor, Mannar, C. Sittampalam (A.G.A.).
Assistant Collector and Landing Surveyor, Mullaittivu, S. S. Navasahram (A.G.A.).
Master Attendant, Jaffna, R. B. Naish (G.A.).

EASTERN PROVINCE.

Collector, M. Prasad (G.A.).
Assistant Collector of Customs, Batticaloa, W. J. A. van Langenberg (A.G.A.).
Assistant Collector and Landing Surveyor, Trincomalee, C. J. D. Lanktree.
Master Attendant, Trincomalee, C. J. D. Lanktree.
Master Attendant, Batticaloa, M. Prasad (G.A.).

NORTH-WESTERN PROVINCE.

Assistant Collector of Customs, Puttalam, J. Light (A.G.A.).

Department of the Rubber Controller.

Rubber Controller, P. Saravanamuttu, 1,300*l.*
Deputy Rubber Controller, P. O. Fernando. 1,000*l.*

Tea Control Department.

Controller, P. Saravanamuttu, 1,300*l.* per annum.
Deputy Controller, L. J. de S. Seneviratne, 1,000*l.* per annum.

Colombo Port Commission.

Chairman, H. E. Newnham, C.M.G.
Secretary, Com. D. C. G. Neish, R.N. (Acting).
Assistant Secretary, A. Van Langenberg, Rs. 3,900.
Accountant, D. G. Singanayagam, 680*l.*
Assistant Accountant, E. K. de Vos, A.C.A., Rs. 5,700.
Master Attendant, Capt. E. C. Stubbs, R.N. (Retd.), 1,100*l.*
Deputy Master Attendant, Com. D. C. G. Neish, R.N., 680*l.*
Harbour Engineer, T. A. Owles, O.B.E., M.Inst.C.E., 1,550*l.*
Chief Assistant Harbour Engineer, C. S. Richards, B.A., M.Inst.C.E., 1,150*l.*
Assistant Harbour Engineers, C. I. Pocock, A.M.I.C.E., 660*l.*; J. A. Donald, A.M.I.C.E., 900*l.*
Junior Assistant Engineer, T. Sivaprakasapillai, B.Sc. (Engr.), A.C.G.I., A.M.I.C.E., Rs. 4,200.
Mechanical Superintendent, R. S. Shaw, M.I. Mar. E., A.M.I.Mech.E., 850*l.*

Excise Department.

Excise Commissioner, S. H. Wadia, 1,500*l.*
Deputy Commissioner, T. V. Saravanamuttu, Rs. 12,840.
Assistant Commissioner, Western Division, R. G. de Livera, 700*l.*
Assistant Commissioner, Central Division, J. S. Nicholas, Rs. 7,920.
Assistant Commissioner, Northern Division, D. A. de Kretser, Rs. 7,920.
Assistant Commissioner, Southern Division, C. W. Nicholas, Rs. 6,660.

Superintendents :—
E. J. Christoffelsz, Rs. 6,000.
J. R. S. Perera, Rs. 6,000.
N. S. Sanders, Rs. 6,000.
C. A. H. Keuneman, Rs. 6,000.
E. J. Sinnathamby, Rs. 6,000.
D. C. E. Abeysekera, Rs. 5,600.
R. Casie Chitty, Rs. 5,400.
S. Balasingham, Rs. 4,800.
D. V. Atapattu, Rs. 4,800.
A. L. Loos, Rs. 3,800.
T. B. Wadugodapitiya, Rs. 3,800.
E. V. W. Tennakoon, Rs. 3,800.

PUBLIC WORKS DEPARTMENT.

Headquarters, Colombo :—
Director of Public Works and Civil Aviation, H. K. de Kretser, M.Inst.C.E., M.Inst.M. & Cy.E., F.R.San.I., 1,600*l.* to 1,750*l.*
Deputy Director of Public Works, W. J. Price, M.Inst.C.E., 1,350*l.*
Assistant Director of Public Works, A. S. Barker, A.M.Inst.C.E., 1,050*l.* to 1,250*l.*
Second Assistant Director of Public Works, T. H. Leader, A.M.Inst.C.E., 1,000*l.* to 1,200*l.*
Engineering Assistant, S. Mahadeva, M.Inst.C.E., M.Inst.W.E., F.I.S.E. (Medallist), M.R.San.I., M.R.I.P.H., 1,000*l.* to 1,200*l.*
Chief Architect, T. N. Wynne Jones, F.R.I.B.A., M.I.Struct.E., 1,000*l.* to 1,200*l.*
Assistant Architect, H. F. Billimoria, B.Arch.(Hons.) Liverpool, A.R.I.B.A., Rs. 6,840 to Rs. 11,520.
Temporary Assistant Architect, H. T. S. D'Alwis, A.R.I.B.A., Rs. 4,200 to Rs. 11,520.
Quantity Surveyor, (vacant), 500*l.* to 960*l.*
Office Assistant, L. B. Emmanuel, I.S.O., 420*l.* to 600*l.*
Financial Assistant, Accountant and Stores Supervisor, P.W.D., S. Manickavasagar, 680*l.* to 920*l.*
Assistant Accountants, H. C. Christoffelsz, Rs. 4,000 to Rs. 8,000; T. S. C. Manathunga, Rs. 3,200 to Rs. 6,000.

Government Factory, Colombo :—
Factory Engineer, P. G. Macfarlane, M.Inst.J.E., A.M.I.Mech.E., 1,000*l.* to 1,200*l.*
Mechanical Engineer, G. C. Oram, A.M.I.Mech.E., A.M.I.E.E., 500*l.* to 960*l.*
Assistant Mechanical Engineers :—
T. Muttucumaroe, 500*l.* to 780*l.*
C. D. Beling, A.M.I.Mech.E., 500*l.* to 780*l.*
C. N. Caldera, Rs. 7,200 to Rs. 10,980.
J. G. Claessen, Rs. 7,200 to Rs. 10,980.
Provincial Engineers (1,000*l.* to 1,200*l.*), O. T. Nettelton, M.Inst.C.E., F.S.I.; A. J. R. Scharenguivel, A.M.Inst.C.E.; C. H. Bradley, M.C., A.M.Inst.C.E.; F. G. Stevens, A.M.Inst.C.E.; J. C. Cooper, A.M.Inst.C.E.; E. J. Peries; W. G. Scott; C. G. Schokman; P. M. Norris, A.M.Inst.C.E.

Local Division.

22 Assistant Engineers at Rs. 4,000 to Rs. 7,000. (New Entrants: Grade I, Rs. 4,200 to Rs. 6,360; Grade II, Rs. 4,000 to Rs. 5,800.)
2 Drawing Office Assistants at Rs. 4,000 to Rs. 7,000. (New Entrants: Rs. 4,000 to Rs. 5,800.)
20 Inspectors at Rs. 3,000 to Rs. 3,600. (New Entrants: Rs. 2,520 to Rs. 3,600.)
30 Sub-Inspectors at Rs. 1,200 to Rs. 2,300. (New Entrants: Rs. 1,200 to Rs. 2,276.)
2 Junior Assistant Mechanical Engineers at Rs. 1,200 to Rs. 6,400. (New Entrants: Rs. 1,200 to Rs. 5,800.)
3 Foremen, Grade I, at Rs. 1,700 to Rs. 6,400. (New Entrants: Rs. 1,700 to Rs. 5,800.)
1 Foreman, Grade II, at Rs. 1,700 to Rs. 4,200.
4 Assistant Foremen at Rs. 1,200 to Rs. 2,300. (New Entrants: Rs. 1,200 to Rs. 2,276.)
2 Minor Supervisors at Rs. 1,200 to Rs. 2,300. (New Entrants: Rs. 1,200 to Rs. 2,276.)

ELECTRICAL DEPARTMENT.

Management and Administration.

Chief Engineer and Manager, Major C. H. Brazel, 1,300*l.*
Deputy Chief Engineer and Manager (vacant).
Administrative Assistant, V. E. F. Arndt, C.C.S., Rs. 6,600.

Accounting.

Chief Accountant, K. Kanagaratnam, 920*l.*
3 Assistant Accountants, K. Rasanayakam, 720*l.*; C. R. Jansz, Rs. 6,800; T. Kandiah, Rs. 3,700.

Store and Workshop.

Muhandiram J. C. G. de Silva, Rs. 6,450.
1 Electrical Inspector, Rs. 1,500 to Rs. 3,300.

Technical Section.
Generation.

Chief Power Station Superintendent, (vacant).
Assistant Power Station Superintendent, H. Fenton Jones, 700*l.*

* On the scale of Rs. 7,200 to Rs. 12,900.

1 Assistant Electrical Engineer, Rs. 3,960 to Rs. 6,360.
1 Junior Assistant Electrical Engineer, Rs. 2,700 to Rs. 3,600.
3 Shift Engineers, Grade I, Rs. 3,000 to Rs. 3,600.
3 Shift Engineers, Grade II, Rs. 1,440 to Rs. 2,400.

Transmission.

Electrical Engineer, Grade II (500*l.* to 960*l.*), H. H. Jansen, 960*l.*
1 Assistant Electrical Engineer, Rs. 4,000 to Rs. 6,688.
2 Junior Assistant Electrical Engineers, Rs. 2,700 to Rs. 3,600.
1 Electrical Inspector, Rs. 1,500 to Rs. 3,300.

Maintenance of Colombo Distribution.

Electrical Engineer, Supply and Maintenance (Rs. 11,400 to Rs. 12,600), G. E. Misso, Rs. 12,600.
1 Assistant Electrical Engineer, Rs. 3,960 to Rs. 6,360.
1 Assistant Electrical Engineer, Rs. 4,000 to Rs. 7,000.
1 Assistant Electrical Engineer, Rs. 4,000 to Rs. 6,688.
1 Electrical Inspector, Rs. 1,500 to Rs. 3,300.
1 Electrical Inspector, Rs. 1,260 to Rs. 3,276.

Nuwara Eliya Electricity Supply.

1 Assistant Electrical Engineer, Rs. 4,000 to Rs. 6,688.
1 Electrical Inspector, Rs. 1,500 to Rs. 3,300.

Hydro-Electric Scheme.

1 Assistant Electrical Engineer, 300*l.* to 600*l.*, E. Upasena, 570*l.*

Supervision of Local Lighting Schemes.

Electrical Engineer, Grade II (500*l.* to 960*l.*), H. E. S. de Kretser, 630*l.*, A. J. H. Martin (acting).
1 Assistant Electrical Engineer, Rs. 3,960 to Rs. 6,360.
1 Assistant Electrical Engineer, Rs. 4,000 to Rs. 6,688.
1 Assistant Electrical Engineer, Rs. 4,000 to Rs. 7,000.
1 Junior Assistant Electrical Engineer, Rs. 2,700 to Rs. 3,600.
1 Electrical Inspector, Rs. 1,500 to Rs. 3,300.

Maintenance of Electrical Installation and New Works.

Electrical Engineer, Grade II (500*l.* to 960*l.*), P. C. Fernando, 960*l.*
2 Assistant Electrical Engineers, Rs. 4,000 to Rs. 7,000.
11 Electrical Inspectors, Rs. 1,500 to Rs. 3,300.

IRRIGATION DEPARTMENT.

Director of Irrigation (1,400*l.* to 1,550*l.*) (vacant), J. H. Wilson, M.C., Deputy Director of Irrigation (acting).
Deputy Director of Irrigation (1,050*l.* to 1,300*l.*). S. G. Taylor, A.M. Inst.C.E., Divisional Irrigation Engineer (acting).
Divisional Irrigation Engineer (900*l.* to 1,100*l.*; 2 posts, 900*l.* to 1,200*l.*):—
A. P. Weir, A.M.Inst.C.E., M.Inst.W.E.
W. A. Guthrie, B.Sc. (Engineering), F.R.S.A.
H. W. L. Poole, A.C.G.I., A.M.Inst.C.E.
W. J. Watson, A.M.Inst.C.E.
One vacancy.
Irrigation Engineers (500*l.* to 940*l.*):—
F. R. G. Webb, M.C., B.Sc. (Engineering), A.M.Inst.C.E., F.R.G.S.
J. Kitching, B.Sc., A.M.Inst.C.E.
W. A. R. Robertson, A.M.Inst., C.E., M.R.S.Inst.
W. T. I. Alagaratnam, A.C.E. (Madras), A.M. Inst.C.E., A.M.Inst.W.E.
M. C. Abraham, B.Sc. (Engineering), A.M. Inst.C.E.

M. B. Chablani, M.Sc. (Engineering), D.I.C., B.E., A.M.Inst.C.E., A.M.Inst.Struct.E., A.M. Inst.M. & Cy.E.
One vacancy.

Assistant Irrigation Engineers (Rs. 4,200 to Rs. 6,360; Rs. 4,000 to Rs. 6,400; and Rs. 2,700 to Rs. 3,600).
G. M. Dissanayake, A.M.Inst.Struct.E.
V. Maruthappu.
S. Jacob.
M. M. Ismail.
M. T. Ahamed Lebbe.
E. B. Anketell, B.Sc. (Engineering), A.M. Inst.Struct.E.
K. Padmanabha Pillai, B.E. (Madras).
9 Vacancies.

Laboratory Foreman, 1 at Rs. 2,640 to Rs. 4,440.
Senior Field Assistants, 22 at Rs. 2,640 to Rs. 4,440.
Field Assistants, 81 at Rs. 1,200 to Rs. 2,520.

Survey Department.

Surveyor-General, L. G. O. Woodhouse, 1,400*l.* to 1,550*l.* by 50*l.*
Deputy Surveyor-General, R. J. Johnston, F.S.I., F.R.G.S., 1,150*l.* to 1,300*l.*
Assistant Surveyor-General, I. F. Wilson, M.C., F.R.G.S., 920*l.* to 1,100*l.*
Office Assistant, M. V. Perera, Rs. 7,000. (Scale Rs. 5,400 to Rs. 7,800.)
Accountant, B. E. de Pinto, Rs. 5,800. (Scale, Rs. 4,000 to Rs. 8,000.)
Superintendent, Colombo Observatory, H. Jameson, D.Sc. (Durham), F.R.A.S., F.R.Met.S., F.Inst.P., 1,040*l.* (Scale 840*l.* to 1,040*l.*)
Assistant Superintendent Colombo Observatory, D. T. E. Dassanayake, B.Sc. (Lond.), Ph.D. (Lond.), D.I.C., F.R.Met.S., F.R.A.S., 780*l.* (Scale 450*l.* to 810*l.*)
Senior Technical Assistants, Colombo Observatory (2 at 300*l.* to 810*l.*), A. P. Kandasamy, B.Sc. (Lond.); D. J. Jayasinghe, B.Sc. (Lond.).
Junior Technical Assistants, Colombo Observatory (1 at Rs. 2,880 to Rs. 6,000), R. D. Kreltszheim, B.Sc. (Lond.), D.I.C. (in Meteorology), F.R.A.S., F.R.Met.S. (2 at Rs. 2,400 to Rs. 5,040), L. A. D. I. Ekanayake, B.Sc. (Lond.); M. Kidnapillai, B.A. (Cantab.), B.Sc. (Lond.).
Superintendents of Surveys (9 at 840*l.* to 1,040*l.*), G. B. King, B.Sc. (Eng.) (Lond.), A.C.G.I., F.R.G.S.; R. L. Brohier, F.R.G.S.; A. C. James; N. S. Perera; F. S. Tippet, M.A. (Oxon.); V. Rasaretnam; W. W. Williams, B.A. (Cantab.); H. A. S. Smith, M.A. (Oxon.); J. L. T. E. Dassenaike, B.Sc. (Lond.).
Assistant Superintendents of Surveys (13 at 450*l.* to 810*l.*, 8 at Rs. 3,960 to Rs. 9,720, 4 at 400*l.* to 736*l.*); E. A. Rajasingham, B.Sc. (Lond.); D. B. Ellepola, B.Sc. (Lond.); S. Karthigesu, B.Sc. (Lond.), F.R.G.S.; J. E. Jackson, B.A. (Cantab.); S. W. Atukorale; J. C. Chanmugam, B.Sc. (Lond.); W. P. Abhayaratna, B.Sc. (Lond.); J. R. Sinnatamby, B.Sc. (Lond.); F. H. Gunasekera, B.Sc. (Lond.); D. F. Abeyawardena, B.Sc. (Lond.); P. R. B. P. Caspersz, B.Sc. (Lond.); J. B. Rasaratnam, B.Sc. (Lond.); B. E. R. Pieries, B.Sc. (Lond.); D. C. Andries; P. U. Ratnatunga, B.Sc. (Lond.); H. A. Perera, B.Sc. (Lond.); C. T. Goonewardene, B.Sc. (Lond.); G. S. Jayasuriya, B.Sc. (Lond.); K. Ayaru; V. Nadaraja; K. Murugesan, B.Sc. (Lond.); C. Vanniasingam, B.Sc. (Lond.); L. A. H. Rajakarier, B.Sc. (Lond.); E. S. Wickramasinghe, B.Sc. (Lond.); S. Ambalaranar (3 vacancies).
Superintendent of the Instrument Department, G. H. Tabor, 700*l.* (Scale, 450*l.* to 700*l.*)
Probationers in Training (3), S. Ponnampalam, B.Sc. (Lond.); H. B. de Silva, B.Sc. (Lond.); H. Panabokka, B.Sc. (Lond.).
Surveyors:—
Grade I.—19 at Rs. 4,600 to Rs. 6,000.
Grade II.—48 at Rs. 2,880 to Rs. 4,440.
Grade III.—159 at Rs. 1,200 to Rs. 3,600, 36 at Rs. 1,080 to Rs. 3,000 (6 vacancies).

Land Commissioner's Office.

Land Commissioner, C. L. Wickremesinghe, 1,550*l.*
Assistant Land Commissioner, C. J. Oorloff, 700*l.*

Land Settlement Department.

Settlement Officer, H. E. Jansz, 1,450*l.*
Assistant Settlement Officers, C. F. Ingledow, 1,300*l.*; E. F. Marshall, 1,250*l.*; N. Moonesinghe, 920*l.*; C. B. P. Perera, 880*l.*; C. V. D. S. Corea, 880*l.*; V. S. M. de Mel, Rs. 5,800; Mudaliyar S. Vallipuram (acting), Rs. 4,900; M. W. F. Abeyakoon, 750*l.*; H. W. G. Wijeyekoon, Rs. 3,600; R. T. Ratnatunga, Rs. 3,600; H. R. van Dort, Rs. 3,600; S. L. de Silva, Rs. 3,600; R. W. Tennekoon, Rs. 3,600; N. W. Atukorala, Rs. 3,600.
Office Assistant, W. T. Jegasothy, Rs. 6,200.

Department of Salt and Minerology.

Salt Adviser, C. E. Foenander, Rs. 9,120.
Temporary Government Minerologist, D. N. Wadia, Rs. 12,000.
Inspector of Mines, A. S. Abeynaike, Rs. 2,700.

Department of Commerce and Industries.

Director of Commerce and Industries and Food Controller, J. C. W. Rock, 1,750*l.*
Deputy Director of Commerce and Industries, D. H. Balfour, 1,400*l.*
Technical Adviser on Industries, K. D. Guha, Rs. 8,400.
Assistant Director of Commerce and Industries, E. C. S. Paul, Rs. 5,100.
Ceylon Trade Commissioner in London, G. K. W. Perera, 1,000*l.*
Ceylon Trade Commissioner in India, M. H. Kantawala, 1,300*l.*
Commercial Assistant, N. U. Jayawardena, Rs. 3,840.
Statistical Assistant, K. Williams, Rs. 2,700.

Registrar-General's Department.

Registrar-General, E. R. de Silva, O.B.E., 1,015*l.* (acting).

Office Assistant to the Engineer, Way and Works, Rs. 4,400 to Rs. 6,000, D. R. Luther.
Signal Engineer, 840*l.* to 960*l.*, E. H. Targett, A.C.G.I., D.I.C.
District Engineers, 500*l.* to 960*l.*, P. N. Warren; W. A. Shaw, A.M.I.C.E.; A. M. Graham, B.Sc. Eng. St. Andrews; N. Basu, B.Sc. (Eng.) Edin., A.M.Inst.C.E., A.M.Inst.T.
Assistant District Engineers, Rs. 4,000 to Rs. 7,000., E. C. Wijesekera, B.Sc. (Eng.) Lond., A.M.Inst. C.E.; Rs. 4,200 to Rs. 6, 360, Kishen Singh, B.Sc. (Eng.) Edin.; E. Black, B.Sc. (Eng.) Lond., A.M.Inst.C.E., A.C.G.I.
Lands Officer, Rs. 4,800 to Rs. 6,600, E. E. Aldons.
Railway Storekeeper, 660*l.* to 810*l.*, G. E. de Silva.
Assistant Railway Storekeeper, 400*l.* to 550*l.*, E. V. Frank.

Archæological Department.

Archæological Commissioner, A. H. Longhurst.
Epigraphical Assistant, Dr. S. Paranavitana.

Ecclesiastical.

Church of England, The Rev. C. D. Horsley, Bishop-elect of Colombo.
Presbyterian Church:—
Rev. J. G. W. Hendrie, *St. Andrews, Colombo.*
Dutch Reformed Church:—Rev. W. C. Fleming, Rev. D. E. Joseph, Rev. N. B. Jansz, and Rev. R. V. Metzeling, *Wolvendaal Church, Colombo, and branch Churches at Bambalapitiya Wellewatte, Dehiwala, Regent Street, and Maligakanda.* Rev. A. Vandergert, *Galle and Matara.*
Roman Catholic Church:—Mons. J. M. Masson, Archbishop of Colombo.

Naval Officers in Ceylon.

Captains-in-Charge, Ceylon, Captain W. H. G. Fallowfield, R.N., *Commander J. T. B. Notley (Rtd.).
Staff Officer (Operations), Lt.-Comdr. L. K. Beauchamp, R.N.
Staff Officer (Intelligence), Captain J. M. Phillips, Royal Marines.
Base Accountant Officer, Pay-Commander C. J. B. Harris, R.N.
Secretary to Captain-in-Charge, Ceylon, Pay-Commander W. S. A. Stapley, R.N.
Admiralty Overseer, Eng. Commander C. W. Snell, R.N. (Rtd.).
**Surgeon Lieut.-Commander*, J. W. Caswell, M.D.
Surgeon Lieut.-Commanders (D.), T. G. A'C. Emberson, L.D.S., R.N., *Surgeon-Lieut. D. Simpson, M.B., Ch.B.
Torpedo Engineer Officers, Lieut. (E.) J. G. Cannoe, R.N., *Lieut. J. A. Price (Rtd.).
Warrant Officer, H. A. A. Coombs.
In Charge of Matara W/T. Station, Wt. Tel: G. E. Bassett, R.N.
Barrackmaster, R.N. Camp, Diyatalawa, Shipwright Lieut. F. S. Lawrence, R.N.

* For duty at Trincomalee.

Military Officers in Ceylon.

Officer Commanding Troops, Brigadier J. O. Thurburn, M.C.

Staff.

General Staff Officer, 3rd Grade, Captain A. R. Aslett, The King's Own Royal Regiment.

Attached to the Staff.

Officer Commanding Royal Artillery, Lieut.-Colonel G. L. Kaye, M.C., R.A.
Commander, Royal Engineers, Lieut.-Colonel R. H. F. Duckworth, M.C., R.E.
Major Instructor in Gunnery, Major N. A. Bramwell, R.A.

Services.

Officer Commanding, Royal Army Service Corps, Major B. L. Pearson, O.B.E., R.A.S.C.
Senior Medical Officer, Lieut.-Colonel O. J. O'B. O'Hanlon, M.B., F.R.C.S.I., R.A.M.C.
Dept. Asst. Director of Ordnance Services, Captain C. S. Robinson, R.A.O.C.
Command Paymaster, Major J. A. Bedford, R.A.P.C.

Ceylon Defence Force.

Commandant, Lt.-Col. R. S. M. White.
Staff Officer, Major E. L. Bols.
Adjutant C.G.A., Captain G. Fitz C. Barrett.
Adjutant C.M.R. and C.P.R.C., Captain J. A. Taylor, M.C.
Adjutant C.L.I. and C.C.B., Captain A. T. B. Whetham.
Staff Captain, Captain J. H. Smith.
Civil Master Armourer, Captain S. R. Spicer.

Foreign Consuls.

America—G. A. Armstrong (Consul de Carrière), J. Ordway (Vice-Consul de Carrière).
Argentine Republic—J. A. Clubb (Vice-Consul) (L.), J. Sands (acting).
Austria—German Consul, Colombo, in charge of interests in Ceylon.
Belgium—S. Stansby (L.), H. J. Moppett (acting).
Bolivia—F. A. W. Mitchell.
Brazil—T. C. Dyball (Vice-Consul).
China—Consul-General at Calcutta in charge.
Czecho-Slovakia—R. F. Edge (L), A. Brown (acting).
Denmark—H. L. Knudsen (acting).
Finland—J. Sebaux (Vice-Consul) (acting).
France—L. Morand (Consul de Carrière).
Germany—Baron L. von Plessen (Consul de Carrière).

Venezuela—C. D. Carolis.
Maldive Islands—H. I. Husein Hilmy Didi Effendi. (Maldivian Government Representative).

CYPRUS.

Situation and Topography.

The Island of Cyprus is situated in the eastern-most basin of the Mediterranean Sea, with Asia Minor to the north and Syria to the east, at distances of 60 and 41 miles respectively. It lies between 34° 33′ and 35° 41′ N. latitude, and between 32° 20′ and 34° 35′ E. longitude. Famagusta, with a harbour able to accommodate vessels up to 23 ft. draught, is 295 miles from Egypt, while the port of Larnaca on the southern coast is 258 miles from Port Said, and 1,117 miles from Valletta in Malta.

Its area is 3,572 square miles, equal to Kent, Sussex, and Middlesex combined. It is the third largest island in the Mediterranean, being only exceeded in size by Sicily and Sardinia. Its greatest length from west-south-west to east-north-east, between Cape Drepano and Cape St. Andrea, is about 140 miles, and its greatest breadth from north to south is about 60 miles.

The main topographical features of the island are the northern and southern mountain chains, and the great plain of the Messaoria extending between them across the island from the Bay of Morphou to that of Famagusta. The northern range, called the Carpas Mountains, and, towards their western extremity, the Kyrenia Mountains, forms a continuous chain near the northern shore from Cape St. Andrea to Cape Kormakiti, a distance of about 100 miles. The southern range, which is the more extensive and lofty of the two, occupies the western and south-western portions of the island, and trending thence eastwards along the south coast, terminates in the isolated peak called Santa Croce (or Stavrovouni), about 12 miles west of Larnaca. The highest summit of this range is Mount Troödos, 6,406 feet above the sea level, and on its south-eastern slopes are the summer quarters of the garrison, of the Governor, and some of the principal officials.

The rivers of Cyprus are nearly all mountain torrents, dry in summer. None are navigable. The principal are the Pedias and the Yalias.

History and Archæology.

The history of Cyprus is too long and eventful to be related here except in the briefest outline. Recent excavations have carried knowledge of prehistoric Cyprus back to the Neolithic Age, when the Island was already widely populated, and have shewn that in the Second Millenium B.C. it must have been an important centre of Aegæan civilization. Greek and Phœnician colonies were established at an early date, and from the fusion of foreign and indigenous elements arose a series of quasi independent kingdoms; these were the basis of the political life of the Island under the successive rulers down to Roman times. In the 6th century B.C. it passed under the rule of Egypt, but in 525 B.C. it joined Cambyses in his war against the Egyptians and so was absorbed in the Persian Empire. The whole island, with the exception of the Phœnician town of Amathos, took part in the Ionian revolt in 502 B.C., but the Persians recovered possession in about a year and at the battle of Salamis the fleet of Xerxes included 150 Cypriote ships. At the end of the 5th century the famous Evagoras of Salamis established his supremacy over the whole island and raised it for a brief period to a position of practical independence, but after his death it again came under the control of Persia. After the battle of the Issus, Cyprus hastened to join Alexander the Great and sent 120 ships to assist him in the siege of Tyre. At the division of Alexander's Empire, the possession of Cyprus was disputed by Syria and Egypt, but it eventually passed to the latter. In 58 B.C. it became a Roman province and was for a time joined to Cilicia, during which period it was administered by Cicero. Presented by Antony to Cleopatra, it reverted to Rome on her death, and remained a Roman province until the division of the Empire, when it was assigned to the Eastern Emperor. Its proximity to Syria exposed it to the assaults of the Saracens, and it changed hands more than once between the 7th and 10th centuries A.D. It was finally recovered for Byzantium by Nicephorus Phocas in 965, and remained attached to the Eastern Empire until 1184. In that year its Governor, Isaac Comnenus, revolted and declared himself Emperor of Cyprus. Isaac maintained his independence until 1191, when Cyprus was conquered by Richard I. of England in revenge for the ill-treatment of the crews of some English ships which had been wrecked on the island. Richard sold the island first to the Order of the Temple and later, when the Templars found the task of government beyond their powers, to Guy de Lusignan, King of Jerusalem. Cyprus was ruled by the Lusignan dynasty from 1192 until 1489, but during that period the Genoese Republic exercised a suzerainty over part of the kingdom, from 1373 until 1464, by holding possession of the principal port of Famagusta. From 1489 until 1571 Cyprus belonged to the Republic of Venice. In the latter year the Turks conquered the island, and retained possession of it until its cession to England in 1878 for administrative purposes. On the outbreak of war with Turkey in 1914 the island was annexed to the British Crown by Order in Council of the 5th of November, 1914. By Article 20 of the Treaty of Peace with Turkey signed at Lausanne on 24th July, 1923, Turkey recognised the annexation.

On the 1st of May, 1925, by Letters Patent passed under the Great Seal of the United Kingdom, the island was formally elevated to the status of a Colony and the High Commissioner assumed the title of Governor.

Historical Monuments and Museums.

Neolithic, Bronze Age, Phœnician, Hellenic, and Roman antiquities have been found in immense quantities all over Cyprus from time immemorial, and scientific explorations on a large scale have been conducted in recent years by Swedish and American Expeditions, and, on a smaller scale, by the Antiquities Department. But it is more the ambition

Digitized by Google

of the present administration of antiquities to place the numerous ancient sites and monuments in a condition rendering them accessible and of greater interest to the visitor than has hitherto been attempted. Paphos, Salamis, Soli, and many other places demand attention in order to preserve their ancient character, now threatened by the island becoming once more a centre of revived life and activity. Salamis possesses the remains of probably the largest market place ever built by the Romans, foreshadowing perhaps the famous "Emporium of the East" as Famagusta was called in the middle ages. A Roman temple of the largest size at Nea-Paphos lies in ruins which have never been explored (*vide* Hogarth's "Devia Cypria," 1899).

The Museum Nicosia, built as a memorial to Queen Victoria and much added to in recent years, contains a unique collection of Cypriot pottery, sculpture, gold and metal works of art, which was re-arranged during the years 1935–1937 in accordance with the most up-to-date methods of display. Separate smaller collections, of the mediæval architectural fragments, which are always coming to light, have been formed, and District Museums have recently been established in Larnaca, Famagusta and Paphos.

The superb Gothic cathedrals and churches of Nicosia and Famagusta, in their curious Eastern surroundings, attract numerous visitors. These buildings, of the finest type of French mediæval art, are singularly well preserved where they have been converted into mosques; in other cases they are interesting ruins. The conservation of this fine series of Monuments is now the care of the recently established Antiquities Department which has already done much to make them secure and more attractive to visitors.

The Venetian and Genoese Republics left few traces of their rule in the island beyond the imposing fortifications of the seaports of Famagusta, Kyrenia, Paphos and Limassol, all of which are scheduled as Ancient Monuments.

The number of Ancient Monuments in Cyprus now protected by the Antiquities Law of 1935 amounts to 178, of which 74 are Government's property. At several of the most important monuments there are resident Custodians and entrance fees are charged to visitors from outside Cyprus.

Climate.

The mean temperature, as recorded in the screen at Nicosia, for the last fifteen years is 66·3° F.; mean maximum, 78° F; mean minimum, 54·5° F.; Highest shade temperature during that time 111° F.; lowest 25° F.; Average rainfall for last ten years 18·14 inches. The year 1936 had a rainfall of 14·05 inches. Figures for rainfall refer to the whole Island. The rainy and cool season is from October to March. The climate is varied, hot and dry in the plains in summer, and damp on the sea-shore; the climate on the hills inland is bracing and healthy. In winter the temperature rarely falls below freezing point. Malarial fevers are prevalent during the hot months, and if the winter is mild, they occur throughout the year. Sanitary improvements and plantations of trees have, however, had a beneficial effect.

Population.

The population, excluding the military, in 1901 was 237,022; in 1911, 274,108; in 1921, 310,715; and in 1931, 347,808.

The Moslems, who are all Ottoman Turks, form about 18·46 per cent. of the population, the rest being nearly all Christians of the Independent Cypriote Church.

The Cypriote Church is a branch of and in communion with the Orthodox Eastern Church, but is "autocephalous" (*i.e.*, The Archbishop of Cyprus is not subordinate to any Patriarch). This position of independence it has retained undisputed since the 5th century when the Emperor Zeno finally decided against the claims of the Patriarch of Antioch to exercise authority over it.

Christianity was originally introduced into the island by St. Paul and St. Barnabas, the latter of whom, a Cypriote Jew by birth, was martyred at Salamis.

Towns.

The chief towns are Nicosia, the capital, 23,507 inhabitants; Larnaca, 11,725; Limassol, 15,066. The two latter are open roadsteads. At Famagusta, on the east, the harbour and quay space have been considerably enlarged. The inner harbour is dredged over an area of approximately 1,800 feet by 700 feet, to 24 feet at low water (ordinary spring tides), with a channel of approach 250 feet wide and 26 feet deep. The curtain wall, south of Othello's Tower, has been pierced with three arches, giving access from the town to the quay. The quay is faced with a concrete wall 1,770 feet long in 24 feet of water and has road and rail access. Further accommodation for sailing vessels and local craft has been provided by means of a steel jetty 325 feet long by 20 feet wide with a depth of 15 feet at low water. The port may be entered in safety both by night and day. The town of Famagusta is little more than a collection of ruins encircled by fortifications and the inhabitants are nearly all Moslems. The Christian suburb of Varosia is built on more modern lines. The combined population of Famagusta and Varosia is 8,771. The four towns already mentioned are the capitals of four of the six administrative provinces into which the island is divided—the other two capitals being Ktema, 4,467, the modern capital of Paphos, on the south-west, and Kyrenia, 2,049, where a small harbour has been constructed, in the district of the same name on the north coast, which has some trade with the opposite coast of Karamania. A harbour for small coasting vessels exists at Paphos, the site of the ancient capital of that district. This had become silted up and almost useless, but it has recently been dredged sufficiently to enable small sailing vessels to enter and lie in safety.

Industry, Trade and Customs.

Cyprus was in ancient times famous for its copper mines, and to-day the principal mineral product is cupreous pyrites which is mined on a large scale by the Cyprus Mines Corporation in the Evrykhou valley and near Lefka, with a crushing and concentrating plant at Morphou Bay where steamers call and load the ore. Cupreous pyrites is also produced at other localities, notably at Kalavaso in the south of the Island. Asbestos occurs on Mount Troodos where the Tunnel Asbestos Cement Company Ltd. has established quarries and mills for the production of fibre which is transported by aerial ropeway to the port of Limassol for shipment. Chrome iron ore is mined at Troodos by the Cyprus Chrome Co. Ltd.; it is transported by aerial ropeway to a crushing and concentrating plant near Kakopetria, the product being sent by road and rail to the port of Famagusta for shipment. Terra umbra (Turkey umber) is mined chiefly in the Larnaca district, and is carried by road to factories situated at Larnaca where burnt umber is prepared and exported.

Digitized by Google

Gypsum, of which there are extensive beds in Cyprus, is quarried for local requirements, and there is a small export trade in both crude gypsum and plaster of paris.

The main industry of the island is agriculture, the products chiefly consisting of cereals, carobs, olives, wines, spirits and vinegar, tobacco and cigarettes, linseed, flax, sumach, silk, silk cocoons, wool, straw, hides and skins, cotton, cotton seed, cheese, potatoes, onions, raisins, grapes, oranges, lemons, mandarines, peaches, apricots, cherries, plums, almonds, and hazel nuts; cattle, mules, donkeys, sheep, poultry and eggs are also exported.

Agriculture is dependent largely on irrigation, the water for which is obtained mainly from wells in the dry season and by flooding from streams during the rainy season. Agriculture has been greatly retarded by the deficient rainfall and the lack of water for irrigation. Drilling has revealed the presence of underground water which is being developed.

Special attention has been given in recent years to tobacco production. The itinerant Tobacco Instructors employed by the Government afford instruction to the peasant growers, and the efforts made have resulted in considerable improvement in the preparation of tobacco for the market.

A scheme for the improvement of cotton growing is being gradually put into force. The main object is to produce a grade of cotton readily marketable in the United Kingdom; an undertaking which necessitates, amongst other things, the control of cotton seed for sowing purposes and licensing of ginneries. The Cotton Law of 1937 was passed with a view to giving the Department of Agriculture wide powers for controlling the industry.

Cyprus wine, which has been famous from early times, has lately received a good deal of attention. It was formerly a domestic industry, and the wines produced consequently lacked uniformity in character and quality. Modern methods of manufacture have now been introduced and good light table wines are now on the market, owing mainly to the efforts of the Cyprus Wines and Spirits Co., Ltd., who have established modern wineries at Perapedhi, Mallia and Limassol. An effort is also being made to market Cyprus wines in the United Kingdom, and a Law has been enacted to prohibit the export to British Possessions of wines not coming up to the standards required. This, it is hoped, will secure recognition of the good wines produced in Cyprus and prevent the export of inferior wines, prejudicial to the marketing of the best Cyprus wines.

There has been steady expansion in the export of Cyprus oranges which, owing to their good quality, have found ready sale in the United Kingdom and continental markets, particularly those of the Scandinavian countries. The value of oranges exported in 1937 was 88,409*l.* compared with 34,498*l.* in 1933.

The improvement of agriculture is fostered by the Government Department of Agriculture and technical assistance and advice is rendered by the Veterinary, Entomological, Plant Pathological, Viticultural branches of the Department and by a field staff of itinerant Agricultural Officers.

A Central Experiment Farm has been established at Morphou and there is an Experimental Vineyard at Saittà, a Citrus Experimental Grove at Famagusta, a Deciduous Fruit Nursery at Trikoukkià and Nursery Gardens in suitable centres for the distribution of seeds and plants.

Considerable attention is given by the Government to animal husbandry. Cyprus is famous for its donkeys and mules. The Government maintains a stock farm at Athalassa and stud stables throughout the Island. Good breeds of cattle, horses and pigs are imported for the improvement of the local breeds. Good breeds of poultry are maintained by the Government for distribution. The export of poultry and eggs is increasing, and there is considerable room for expansion.

The heavy tariff now imposed by the Egyptian Government on fruits has adversely affected the fruit export trade to Egypt and exporters are now unable to look to that market as an assured outlet for fruits and vegetables. In addition the economic difficulties encountered in marketing Cyprus produce in Central Europe have forced merchants to seek markets further afield. Such markets demand a higher standard of grading and packing before trade can be established on a permanent footing and in order to extend and encourage this trade to more distant markets a new Law known as the Agricultural Produce (Export) Law, 1933, has been brought into operation. Under this Law a Produce Inspection Service has been organised and Regulations for the inspection of Citrus Fruits, Potatoes and onions before export are enforced. Regulations for the inspection of other produce before export are contemplated.

In past years much injury was done to the crops by locusts, but the work of locust destruction was vigorously prosecuted for many years with great success, chiefly on what is known as the "screen and pit" system. Screens topped with American cloth, over which the locusts cannot pass, were stretched across the country in front of the armies of young locusts on the march. The locusts were then gradually forced into pits dug at intervals transversely to the screens, from which, as the pits were topped with a zinc lining, they could not emerge. This system, as the locusts became more scattered, was discarded in favour of a system of collecting locust eggs and purchasing live locusts. Both the purchase and the spraying systems have been employed in recent years. The spraying system has latterly been replaced by the use of poisoned bran bait.

The forests of the island, which had been largely destroyed in the past, are recovering under the protection now afforded. Natural re-afforestation is very slow, partly in consequence of the depredations of goats, of which Cyprus, in proportion to its area, contains a large number, and partly in consequence of past denudation and subsequent soil erosion.

Sponge fishing is carried on along the coast by boats from the Greek and Italian Islands. Sponge fishers are issued a licence at a nominal fee and the Government takes a duty in kind of 20% in the case of harpoon boats and 25% in the case of machine boats of the catch.

Sea fishing is comparatively neglected by the local fishermen, who only use trammel nets and long line, but Italian and Greek trawlers work most of the year and fish is becoming more plentiful in the market than heretofore.

The chief imports are beans and peas, cement, coffee, edible oils, fertilizers, fish, flour, iron, leather, machinery, motor cars and chassis, petrol and petroleum, rice, sugar, textiles, timber and tobacco; the exports are chiefly animals, artificial teeth, carobs, cheese, citrus and other fruit, corn and grain, cotton, cuminseed, embroidery and needlework, onions, potatoes, raisins, tobacco, wines and spirits, wool and mining and quarry products, viz., asbestos, cupreous concentrates, cupreous pyrites, metallic residues, terra umbra and yellow ore.

The Customs import duties are mostly on a specific basis. The ad valorem duties vary from 7 to 40 per cent.

Digitized by Google

A preference is granted on most classes of imports from British sources.

The following is the percentage of trade with the United Kingdom, other parts of the British Empire and the principal foreign countries:—

	1937.
United Kingdom	29·80
Other parts of the British Empire	16·45
Roumania	9·41
Germany	6·92
Empire of Japan	2·35
Greece	3·73
Belgium	3·18
Egypt	4·06
Syria	2·01
United States of America	3·16
France	1·52
Czechoslovakia	1·46
Sweden	1·14
Yugoslavia	1·23
Denmark	1·22
Austria	1·08
Holland	1·38
Italy	2·99
Bulgaria	0·53
Hungary	0·74
Brazil	0·76
Turkey	0·80
Iraq	1·34
Switzerland	0·48
Luxembourg	0·45
Other Countries	1·81
Total	100·00

Currency and Banking.

Under an Order in Council, which came into operation on the 1st January, 1901, the following coins are legal tender currency:—Gold, the sovereign. Silver, 18, 9, 4½, 3 piastre pieces, limit of tender 540 piastres (nine equal to one shilling). Bronze, 1 piastre, half piastre, quarter piastre, limit of tender, 27 piastres (40 paras = 1 piastre). By a proclamation dated the 7th of January, 1935, bronze coins, with the exception of the quarter piastre piece, are in course of withdrawal from circulation and are being replaced by cupro-nickel coins of the same denominations. By proclamation of 28th April, 1928, a new silver 45-piastre piece is current and legal tender in the colony as from that date. Currency Notes were issued from time to time from September, 1914, as a war measure. Notes of the following denominations are in circulation:—5*l*., 1*l*., 10*s*. By an Order-in-Council of 1st November, 1928, the Treasurer as "Commissioner" of Currency was authorised to issue Currency Notes of the Government; such Notes are to be legal tender, and provision was made for the conversion of the Notes into sterling and vice versa, and for the establishment of a Note Security Fund.

The Ottoman Bank has branches at Nicosia, Larnaca, Limassol, Famagusta and Paphos, also at Troödos during summer season.

The Bank of Athens has branches at Limassol and Nicosia, with Correspondents at Larnaca, Famagusta and Paphos.

The Ionian Bank has a branch at Nicosia, agencies at Larnaca, Limassol, Famagusta and Paphos, and Correspondents at Kyrenia and Morphou.

The Bank of Cyprus, has its Head Office at Nicosia, agencies at Larnaca, Limassol, Famagusta, Paphos, Kyrenia and Morphou.

The Agricultural Bank of Cyprus, Limited, which operates under a Government Guarantee, was established in 1925, with Head Offices at Nicosia. It lends money to farmers through the medium of Co-operative Credit Societies or direct to individuals.

Other banks operating in Cyprus are Bank of Larnaca, Limited and Emniet Bank, Limited with Head Offices at Larnaca; Peoples Bank, Limassol, Limited. with Head Office at Limassol; Famagusta Bank, Limited, with Head Office at Famagusta; Popular Bank of Paphos, Limited, and Melissa Bank, Limited, with Head Offices at Paphos.

The Turkish weights and measures are in use. The oke = 2·8lbs. avoirdupois; and the donum = about ⅝ acre. A law relating to weights and measures was passed in 1890.

Means of Communication.

The Cyprus Government Railway of 2′ 6″ gauge extended originally from Famagusta Harbour to the Capital, Nicosia, and then to Morphou and up to the foot-hills of Troödos at Evrychou.

Owing to uneconomic results the Section from Kalonchorion to Evrychou was taken up and the remaining Section Nicosia to Kalonchorion closed to scheduled traffic.

There is no navigable waterway in the island. The main and secondary roads have recently been reconstructed and good roads exist between all important centres. Most villages are connected with these roads by cart roads. There are motor car services between the chief towns of each district. The Famagusta harbour was completed in 1906, and was enlarged in 1932–33 with assistance from the Colonial Development Fund. An extension to the pier at Larnaca with a sheltering arm at the sea end was completed in 1909. The ancient harbour at Paphos and the harbour at Kyrenia are of sufficient depth to admit of their use by the small coasting craft that trade between Egypt, Syria, Asia Minor and Cyprus. There are no Government telegraphs, other than those along the railway, but the Eastern Telegraph Company, Limited, maintain cables between Egypt and Cyprus and Palestine and Cyprus, and land lines connecting the six principal towns of the Island also at Pedoulas, Platres, Prodromos and Troödos during the summer season, June to September. The principal towns are connected by telephone.

A weekly mail service is maintained between Egypt and Cyprus by subsidised steamers of the Khedivial S.S. Company. Steamers of the "Adriatica" Navigation Company of Venezia call weekly from Italy en route for Palestine and Syria on the outward voyage, and from Syria and Palestine on the homeward voyage en route for Italy (Fast Line). Steamers of the same Company call fortnightly (*a*) from Italy *via* Greece, Egypt, Palestine, Syria and Mersina on the outward voyage en route for Rhodes, Greece and Italy; (*b*) from Italy *via* Greece en route for Mersina, Syria, Palestine, Egypt and Italy; and (*c*) from Italy *via* Egypt, Palestine, Syria, Mersina en route for Izmir and Italy. Steamers of the Hellenic Coast Line Company of Piræus call fortnightly from Greece direct en route for Syria and vice versa. Mails for Arabia, North-West India, Iraq and Iran are forwarded weekly to Jaffa for onward transmission by the Overland Mail Service Palestine-Iraq; and mails destined for countries served by the England-India-Malaya (Australia) or the England-South

Digitized by Google

Africa Air Mail services are despatched weekly to Palestine and Egypt, respectively, by the ordinary route for onward transmission by air.

The rates of postage are as follows:—

Within the Colony:—	*Letters.*
Not exceeding 1 oz.	¾ piastre.
For every additional 1 oz. or fraction thereof	½ piastre.
	Printed Papers.
For every 4 oz. or fraction thereof	½ piastre.
For every additional 2 oz. or fraction thereof	½ piastre.
For a single newspaper published locally and its supplement irrespective of weight	½ piastre.

The Parcels Post is established between Cyprus and the United Kingdom and the principal Colonies and foreign countries, as well as within the Colony.

Money Orders and British Postal Orders are also issued and paid in the Colony. "Cash on Delivery" parcels for delivery within the Colony are accepted and delivered at the principal post offices. A reciprocal service of "Cash on Delivery" of parcels has been established between Cyprus and the United Kingdom, Egypt and the Sudan.

Education: (*a*) *Elementary.*

A general system of grants-in-aid of elementary schools was established in 1882, and further regulated by various laws up to 1929, when Government assumed the chief responsibility for elementary education. In 1933 the Governor became the central authority for all matters connected with elementary education, including the appointment and discipline of teachers and control of books and curriculum. Teachers' salaries and gratuities on retirement are paid by the Government, but the provision and maintenance of schools is met from local rates, with assistance from Education Funds under Government control.

There are separate schools for each religious community, *i.e.*, Orthodox-Christian, about 81 per cent. of the population, Moslem, about 18 per cent., and smaller communities of Armenians, Maronites, Latin Catholics and Jews. For each community there is a Board of Education with advisory functions and control over the amounts to be raised by local rates.

Government elementary schools provide a six years' course from the age of 6. Education is free and voluntary. The following are the statistics of schools, teachers and pupils for the school year 1936–37:—

Orthodox-Christian.—Schools, 499 (boys' 49, girls' 48, mixed 402); pupils 37,525 (boys 21,641, girls 15,884); teachers 940 (masters 610, mistresses 330).

Moslem.—Schools, 211 (boys 26, girls 25, mixed 160); pupils 7,424 (boys 4,493, girls 2,931); teachers 255 (masters 212, mistresses 43).

Others.—Schools, 16 (boys' 4, girls' 2, mixed 10); pupils 1,308 (boys 554, girls 754); teachers 73 (masters 26, mistresses 47).

The total expenditure on education (primary and secondary) for the year 1936–7 was 193,357*l.*, of which 124,651*l.* was from Colonial Revenue.

(*b*) *Secondary.*

Under the Secondary Education Law, 1935, all Schools above the primary standard are required to be registered and open to inspection, and all teachers in them are licensed. There are about 50 such schools. Strict conditions, relating to management, finance, staff, curriculum and teaching conditions, are imposed on schools in receipt of grants from Government.

Among the most important schools are: for Moslems—a boys' Lycée and girls' High School in Nicosia, administered by a Governing Body constituted under the Law, and supported by Government and Evcaf grants and by fees; for Orthodox-Christians—6 Gymnasiums (classical): (1 for boys, 1 for girls, 4 mixed) and 2 High Schools for girls in the towns, and a Commercial Lyceum at Larnaca, all managed by local committees appointed under the Law; 5 high schools in the larger villages, managed by local elected committees; private commercial schools in Nicosia, Famagusta and Limassol, and a commercial school with private endowments at Lemythou; Latin (Catholic)—a boys' school in Nicosia and convents in Nicosia, Larnaca and Limassol; undenominational—the English School, Nicosia, administered by a Board of Management on behalf of the Governor and now re-organised with a largely English staff; and the 2 American Academies (for boys and girls at Larnaca, for girls at Nicosia) managed by the Reformed Presbyterian Mission. The Armenian elementary schools have secondary classes attached to them. There are also a considerable number of small private schools, mainly for teaching English, in towns and villages. Many of the boys' schools admit girls also.

The total enrolment in secondary schools is about 4,200.

A Government training college for elementary schoolmasters is to be opened at Morphou in 1937. There is no training college for elementary schoolmistresses.

British Occupation.

On the 4th June, 1878, a Convention was signed at Constantinople between the representatives of Her Britannic Majesty and the Sultan of Turkey, by which England engaged to join the Sultan in defending his Asiatic possessions against Russia in certain contingencies, and the Sultan, "in order to enable England to make necessary provision for executing her engagements," consented "to assign the Island of Cyprus, to be occupied and administered by England." On the 1st of July an Annex to this Convention was signed at Constantinople, in explanation of the conditions of the occupation.

On the 14th of August, 1878, a supplementary agreement was signed, giving to Her Britannic Majesty for the term of the occupation full powers for making laws and conventions for the government of the island in Her Majesty's name, and for the regulation of its commercial and consular relations and affairs, free from the Porte's control.

Digitized by Google

The island was annexed to and became part of His Majesty's dominions by an Order in Council of the 5th of November, 1914.

Government

Up to the 12th November, 1931, the Government was regulated by Letters Patent, bearing date 10th March, 1925, providing for the administration of the Colony by a Governor aided by an Executive and a Legislative Council. The Legislature consisted of the Governor, nine official Members and fifteen elected Members, three chosen by the Mohammedan and twelve by the non-Mohammedan voters. After the disturbances which occurred in the autumn of 1931 in various parts of the island those clauses of the Letters Patent, dated 10th March, 1925, which dealt with the constitution of the Legislative Council were revoked by Letters Patent dated the 12th November, 1931, power to legislate being vested in the Governor.

The island, for administrative purposes, is divided into six districts namely — Nicosia, Larnaca, Limassol, Famagusta, Kyrenia, and Paphos. In each the Government is represented by a Commissioner.

This division (which formed the basis of the original judicial system of the Colony under the Courts Order-in-Council of 1882, but was abandoned under the Order of 1927 in favour of three judicial divisions, each comprising two districts) was readopted by the new Courts Law, which came into operation on the 1st January, 1936. By this Law the Courts were reorganised in the light of the experience afforded by the working of the system in force under the Order of 1927, and the re-organisation may be described as a blend of that system with the system obtaining under the Order of 1882.

The new Law provides for:—

(1) A Supreme Court, consisting of a Chief Justice and two or more Puisne Judges, with appelate jurisdiction, both civil and criminal, over the decisions of all other Courts, and original jurisdiction as a Colonial Court of Admiralty under the Imperial Act of 1890 and in matrimonial causes, with powers in such causes similar to those of the High Court in England; when hearing appeals the Court is constituted by three or two judges, as the Chief Justice may determine; but in criminal appeals leave to appeal is granted or refused absolutely by a single Judge. A single judge exercises the original jurisdiction of the Court. In civil matters where the amount or value in dispute is 300*l.* or over an appeal lies from the Supreme Court to His Majesty in Council. The Supreme Court may also in its discretion grant leave to appeal to His Majesty in Council from any other judgment which involves a question of great general or public importance.

(2) Six Assize Courts, one for each district, with unlimited criminal jurisdiction and power to order compensation up to 300*l.* These Courts are constituted by a Judge of the Supreme Court sitting with a President of a District Court and a District Judge or with two District Judges. This bench of three is nominated by the Chief Justice whenever a sitting is to be held.

(3) Six District Courts, one for each district, consisting of a President and such District Judges and Magistrates (previously called Assistant District Judges) as the Chief Justice may from time to time direct. There are at present three Presidents (each in charge of two district Courts, namely Nicosia and Kyrenia, Famagusta and Larnaca, and Limassol and Paphos, respectively), nine District Judges, and six Magistrates. The District Courts exercise original civil and criminal jurisdiction, the extent of which depends upon the bench constituting the Court.

(I) In Civil matters (other than those within the original jurisdiction of the Supreme Court) a President and one or two District Judges sitting together have unlimited jurisdiction; a President or a District Judge sitting alone has jurisdiction up to 200*l.*, and a Magistrate up to 25*l.* (which the Governor may increase to 50*l.*). The jurisdiction of a member of the Court sitting alone to try an action on the *merits* is determined by the amount or value actually in dispute between the parties as disclosed at the settlement of issues or upon the pleadings. But any member of the Court can in any action, even though beyond his power to try, settle issues, or make an order not disposing of the action on the merits, or give judgment when the defendant fails to appear or admits the claim. A President has also power to hear appeals from decisions of Magistrates in actions where the amount in dispute does not exceed 25*l.* (or 50*l.* in case of a Magistrate whose jurisdiction has been increased to this amount).

(II) In criminal matters the jurisdiction *of* a District Court is exercised by its members *sitting* singly, and is of a summary character. A President has power to try any offence punishable with imprisonment up to three years or with fine up to 100*l.* or with both, and may order compensation up to 100*l.*; a District Judge has power to try any offence punishable with imprisonment up to one year or with fine up to 100*l.* or with both, and may order compensation up to 50*l.*; and a Magistrate has power to try any offence punishable with imprisonment up to six months or with fine up to 25*l.* or both, and may order compensation up to 25*l.* Subject to these limits of punishment which the members of the Court cannot exceed, a President or a District Judge may also try any offence punishable with imprisonment up to five years if the Attorney-General and the person accused consent; A District Judge may (with, in prosecutions conducted by a Law Officer or a Police Officer, his consent) also try certain offences punishable with imprisonment up to three years; and a Magistrate may (with the like consent in such prosecutions) try a few offences punishable up to three years. In addition, every member of a District Court has power to hold a preliminary enquiry into an offence not summarily triable and commit the accused person for trial by an Assize Court.

The jurisdiction above described may be exercised over Cypriots and non-Cypriots, but the Law expressly states that it does not confer any jurisdiction upon the Courts it establishes to hear any matrimonial cause where either party is a member of the Greek-Orthodox Church and the marriage was celebrated in accordance with its rites, or where either party is a member of the Mussulman faith and the marriage was contracted in accordance with the Sheri Law, or to hear any other matter which, under the principles of the Ottoman Law previously in force in the Colony was cognizable by an ecclesiastical tribunal, or which is within the jurisdiction of a Mussulman religious tribunal pursuant to any enactment in force for the time being.

The reconstituted Courts are to apply the local Laws and certain Ottoman Legislation specified in the new Courts Law, the common Law, and the rules of equity in force in England on 5th November, 1914 (the date of the Colony's annexation) in the absence of provision in the local Laws, and any Statutes of the Imperial Parliament applicable to the colonies in general or to Cyprus in particular save in so far as they may be validly modified or other provision made by local Law. The family Law of the various religious communities which had received legal recognition under Turkish rule is expressly saved.

Digitized by Google

They are also to apply the English Law and rules of evidence in force on the date of the annexation if there is no local provision in that respect. And their practice and procedure shall, in the absence of local provision, be that observed by the Courts in England.

As above stated, the jurisdiction conferred by the 1927 Order in Council on the Mussulman religious tribunals it created has been saved. There continue to be three such tribunals—one for Nicosia and Kyrenia, another for Famagusta and Larnaca, and the third for Limassol and Paphos—and their jurisdiction is, as before, over persons of the Mussulman faith in matters of marriage, divorce, maintenance in relation thereto, inheritance and succession, wills and their registration, and the registration of vakfiehs. But the Sheri tribunal of Appeal created by that Order has been abolished by an amending Law, which empowers the Supreme Court to hear appeals from those tribunals with, if it so wishes, the Fetva Emini (a Moslem religious dignitary) as assessor.

The strength of the police force is 24 officers and 702 men, while the Prison Service consists of 3 officers and 80 men. Both services consist of mixed Christians and Moslems.

Finances.

The principal sources of revenue in Cyprus are :—

1. Immovable Property Tax.
2. Animal Taxes.
3. An excise on tobacco.
4. Stamps, court fees, royalties, licences, &c., &c.
5. Salt monopoly.
6. Import duties.
7. Shipping and Wharfage dues.

All exemptions formerly enjoyed by foreigners have been abolished.

Grants in aid have been received from the British Government annually since 1897. From 1911-12 the grant was fixed at 50,000*l.* a year, and since 1928, it has been increased to the fixed rate of 92,800*l.* a year. A contribution of 10,000*l.* a year has from the latter date, been made by the Colony towards the cost of Imperial Defence.

1 *Assistant Registrar, First Grade*, 230*l.*-270*l.*
1 *Clerk, Third Grade.*

District Courts.—
3 *Presidents of District Courts*, C. E. L. Cox, W. H. E. Duprè, 750*l.* (one post vacant); Mr. Cox has also a personal duty allowance of 100*l.*
9 *District Judges*, M. Halid, M. Houloussi, M. Izzet, S. Stavrinides, M. R. Hussein, M.B.E., S. P. Mavromatis, E. Themistos, M. Dervish, M. C. Melissas, 500*l.*, Mr. M. Halid has also a personal allowance of 100*l.*
6 *Magistrates*, E. A. Jacovides, P. A. Anastassiades, G. Soteriades, M. Hifzi, J. G. Himonides, M. Fehmi, 300*l.*-350*l.*
3 *Registrars and Interpreters*, V. P. Mavromatis, N. Stylianakis, M. T. Hussein, 300*l.*-350*l.*, The first two have also an allowance of 50*l.* each as Deputy Sheriffs.
3 *Assistant Registrars, First Grade*, 230*l.*-270*l.*
3 *Assistant Registrars, Second Grade*, 180*l.*-220*l.*
8 *Clerks, Third Grade.*

Legal Department.

Attorney-General, L. L. N. Lloyd-Blood, M.C., 1,200*l.*
Solicitor-General, N. Paschalis, K.C., O.B.E., 850*l.* and 100*l.* personal allowance.
Crown Counsel, S. Pavlides, 400*l.*-600*l.* and 100*l.* personal allowance.
1 *Clerk, First Grade.*

Police Department.

Chief Commandant of Police and Inspector of Prisons, W. S. Gulloch, 900*l.*
Deputy Chief Commandant of Police, J. H. Ashmore, 560*l.*-700*l.*
Superintendents of Police :—
Major L. A. S. Northcote, E. B. Humfrey, A. M. Bell, R. C. Ross-Clunis, 400*l.*-600*l.*; M. Ch. Kareklas, M.B.E., C. Shellish, M.B.E., A. Faiz, 360*l.*-540*l.*; 50*l.* allowance to Major L. A. S. Northcote as Officer in charge of the Fire Brigade, Nicosia.
Bandmaster, E. W. T. Cox (300*l.*-350*l.*), and 50*l.*. duty allowance.
Inspectors of Police :—
2 *First Grade*, Mustafa Shevki Ahmet, Yannis Daniel (300*l.* by 10*l.*-350*l.*).
5 *Second Grade*, S. Pavlou, A. Izzet Hassan (230*l.*-270*l.*), 300*l.* personal; A. Jemal, H. Said Mulla Hussein, Salih Kara Mehmet, 230*l.*-270*l.*
5 *Sub-Inspectors* (150*l.*-174*l.*).
1 *Clerk, Second Grade.*
2 *Clerks, Fourth Grade.*

Prison Department.

Inspector of Prisons, W. S. Gulloch (paid as Chief Commandant of Police).
Resident Superintendent, Central Prison, H. L. D. Gee, 350*l.*-450*l.*, and free quarters.
Chief Warder, W. C. Hynam, 300*l.*, and free quarters.
Assistant Chief Warder, 120*l.*-180*l.* and 18*l.* allowance in lieu of quarters.
2 *Clerks, Third Grade.*

Medical Department.

Director of Medical Services, E. A. Neff, C.M.G., 1,000*l.*
1 *Clerk, First Grade.*
1 *Clerk, Second Grade.*
2 *Clerks, Third Grade.*
3 *Health Officers*, C. S. Markides, M. Theodoulou, P. E. Demetriades, 300*l.*-350*l.*
1 *Chief Sanitary Inspector*, M. Aziz, M.B.E., 300*l.*-350*l.*
6 *District Sanitary Inspectors*, 150*l.*-174*l.*
1 *Specialist (Surgeon)*, C. H. Cuff, O.B.E. (600*l.*-750*l.*) 1,000*l.* (personal).
7 *District Medical Officers*, G. M. Gibbon, C. E. Bevan (100*l.* Duty Allowance as Tuberculosis Officer), H. B. A. Macfie, R. A. Porter, G. E. J. Porter, W. P. Griffin, P. W. Dill-Russell, 500*l.*-700*l.*
Medical Officers :—
3 *Medical Officers, First Grade*, 350*l.*-450*l.*
18 *Medical Officers, Second Grade*, 250*l.*-350*l.*
3 *Compounders, First Grade.*
4 *Matrons*, Miss A. Barclay, Miss C. A. Wyeth, Mrs. H. Hunter, Miss F. M. E. Pepper, 150*l.*-174*l.*
7 *Nursing Sisters*, Miss J. Rudge, Miss M. Nicholls, Miss M. H. Sizer, Miss M. M. Milnes, Miss T. M. Price, Miss A. Hodgson, Miss Ph. Binns, 120*l.*-150*l.*
3 *Cypriot Nursing Sisters*, Miss T. Aziz, Miss N. Ch. Callipeti, Miss I. C. Schiza, 72*l.*-96*l.*
Chemist, H. Atkinson, 500*l.*-700*l.*
Pathologist, J. C. Tull, 400*l.*-600*l.*
Assistant to Chemist, 180*l.*-220*l.*
Dental Officer, 250*l.*-300*l.*
Medical Superintendent, Mental Hospital, S. Lysandrides, 300*l.*
School Medical Officer, Eyioub Mussa, 180*l.*
Anæsthetist, Miss C. M. Georghiadou, 120*l.*
Medical Officer, P. Haji Eftychion, 250*l.*
4 *Honorary Dentists*, V. Diamantides, 50*l.*, Y. Michaelides, 50*l.*, N. Savvides, 50*l.*, Miss S. M. Georghiadou, 50*l.*
3 *Honorary Oculists*, Ch. Kalavros, Ch. Tairos, Ch. Makrides, 50*l.*
6 *District Surgeons*, N. Argyrides, G. K. Avraamides, G. J. Himonides, C. M. Kontarinis, V. Skoufarides, E. M. Frangofinos, 50*l.*
Honorary Consulting Physicians, Nicosia General Hospital, M. Coureas, 200*l.*, M. P. Raouf, 50*l.*
Honorary Consulting Surgeon, Limassol Hospital, A. Gavrielides, 200*l.*
Honorary Laryngologist, Nicosia General Hospital, K. Pantazis, 50*l.*
Honorary Ear, Nose and Throat Specialist, Nicosia General Hospital, Thassos Ch. Gircotis (at present unpaid).
Honorary Physician, Sanatorium, T. K. Evangelides, 50*l.*
Radiologist, E. Dikeos, 50*l.*

Education Department.

Director of Education, J. R. Cullen, M.A., 1,000*l.*
Assistant Director of Education, R. N. Henry, M.A., 560*l.*-700*l.*
Chief Inspector of Schools, M. H. V. Fleming, 400*l.*-600*l.*
Inspector of Moslem Schools, 300*l.*-350*l.*
Inspector of Orthodox-Christian Schools, 300*l.*-350*l.*
1 *Assistant Inspector of Moslem Schools*, 180*l.*-220*l.*
2 *Assistant Inspectors of Orthodox-Christian Schools*, 180*l.*-220*l.*
3 *Clerks, Third Grade.*

English School, Nicosia.

Principal, G. Sims, 400*l.*-600*l.*
Senior Master, R. R. Campbell, 350*l.*-500*l.*
3 *Masters*, A. Morton, H. S. Richards, J. Winders, 250*l.*-400*l.*
Master (Physical Training), R. E. Brown, 200*l.*-300*l.*

Normal School, Morphou.

Principal, Dr. G. F. Sleight, 400*l.*-600*l.*
2 *Masters*, 180*l.*-220*l.*

Postal Department.

Postmaster-General, A. J. Shellish, 600*l*.-750*l*.
Assistant Postmaster-General, T. Cababé 400*l*.-600*l*.
5 *Clerks, Second Grade.*
8 *Clerks, Third Grade.*

Agricultural Department.

Director of Agriculture, J. McDonald, D.F.C., B.Sc. (Hons.), F.L.S., 1,000*l*.
Assistant Director of Agriculture, A. Pitcairn, C.D.A., 600*l*.-750*l*.
Chief Grader and Inspector of Produce, F. B. L. Butler, F.L.S., 400*l*.-600*l*.
Accountant, A. M. Pietroni, 300*l*.
1 *Clerk, 2nd Grade*, 230*l*.-270*l*.
2 *Clerks, 3rd Grade*, 180*l*.-220*l*.
Superintendent of Agriculture, B. J. Weston, M.A. (Cantab.), M.Sc. (Agric.) S. Africa, F.R.H.S., 400*l*.-600*l*.
3 *Assistant Agricultural Superintendents*, Ch. Pelaghias, A. Klokkaris, Osman Nouri, 300*l*.-350*l*., 360*l*. personal to Ch. Pelaghias and A. Klokkaris.
5 *Agricultural Officers*, 150*l*.-270*l*.
Viticulturist and Wine Expert, P. Antoniades, 300*l*.-350*l*., 360*l*. personal.
Entomologist, H. M. Morris, M.Sc., F.E.S., 600*l*.-750*l*.
Botanist and Plant Pathologist, L. J. S. Littlejohn, B.Sc. (Hons.), 400*l*.-750*l*.
Laboratory Assistant, 1st Grade, 150*l*.-174*l*.
Chief Veterinary Officer, R. J. Roe, M.R.C.V.S., D.V.S.M., 600*l*.-750*l*. and free quarters.
Veterinary Officer, (vacant), 400*l*.-600*l*.
Veterinary Inspector, A. Petri, 300*l*.-350*l*.
2 *Senior Stock Inspectors*, 150*l*.-270*l*.
Manager Stock Farm, J. P. Maule, M.A. (Cantab.), Diploma in Agriculture (Cantab.), A.I.C.T.A. (Trinidad), 400*l*.-750*l*.
Trade Development Officer, G. M. Pietroni, 350*l*.-450*l*.
Instructor Normal School, 250*l*.
Mechanic, 150*l*.-174*l*.
Superintendent River Control, A. W. Douglas, 300*l*.-350*l*.

Forest Department.

Conservator of Forests, R. R. Waterer, M.A. (Cantab.), Forestry Dip., 750*l*.-850*l*.
4 *Assistant Conservators of Forests, 1st Grade*, F. S. Danks, B.Sc., Dip. Agr. (Edin.), G. W. Chapman, B.A. (Cantab.), Forestry Dip., 400*l*.-600*l*. and 24*l*. forage allowance. Two vacancies.
2 *Assistant Conservators of Forests, 2nd Grade*, I. Sidki, B.Sc. Forestry (Edin.), Th. A. Couppis, B.A. (Oxon.), 300*l*.-350*l*.
Surveyor, P. A. C. Douglas, 300*l*.-350*l*.
4 *Forest Rangers*, 180*l*.-270*l*.
9 *Foresters*, 120*l*.-174*l*.
1 *Clerk, 2nd Grade*, 230*l*.-270*l*.

Railway Department.
General.

Superintendent, J. W. Bulman, A.M.I.L.E., 600*l*.-750*l*.
Accountant, R. N. Limonidas, 300*l*.-360*l*. and 50*l*. duty allowance.
Assistant Accountant, 230*l*.-270*l*.
Cashier, 230*l*.-270*l*.
Storekeeper, 150*l*.-174*l*.

Ways and Works.

Inspector of Ways and Works, 180*l*.-220*l*.

Locomotive.

Locomotive Clerk, 180*l*.-270*l*.
Head Boilermaker (180*l*.-220*l*.) 240*l*. personal and 25*l*. personal allowance.
Head Fitter (180*l*.-220*l*.) 240*l*. personal.

Traffic.

Traffic Assistant, 230*l*.-270*l*.
Station Superintendent and Inspector, 230*l*.-270*l*.
Railway Wharf Superintendent, 150*l*.-174*l*. and 18*l*. house allowance.

Public Works Department.

Director of Public Works, (vacant), 750*l*.-850*l*.
Superintending Engineer, A. L. Simpkins, A.C.G.I., A.M.I.C.E., A.M.I.M.E., 600*l*. by 25*l*. to 750*l*. by 25*l*. to 850*l*.
3 *Divisional Engineers*, J. J. Holland, B.Sc., B.E., A.M.I.C.E., M.I.M. & Cy.E.; P. M. Cran, O.B.E. (Mil.), B.Sc., M.I.C.E.; C. A. A. Watkins, 400*l*. by 20*l*. to 600*l*. by 25*l*. to 750*l*.
2 *Assistant Engineers*, A. H. P. McLaughlan, A.M.I.C.E., P.A.S.I.; L. F. Weldon, A.M.I.C.E., 350*l*. by 20*l*. to 450*l*. by 20*l*. to 600*l*.
Superintendent Royal Engineer Works, P. Ch. Phylactou, 300*l*.-350*l*.
4 *Chief Foremen* (1 vacant) (230*l*.-270*l*.), 1 at 300*l*. personal.
2 *Assistant Chief Foremen* (180*l*.-220*l*.).
Draughtsman and Recordkeeper, 150*l*.-174*l*.
Water Engineer, C. Raeburn, O.B.E., D.Sc., F.G.S., M.I.M.M., 1,100*l*. (Seconded from Nigeria).
Electrical and Mechanical Engineer (vacant), 600*l*. by 25*l*. to 750*l*.
Mechanical Foreman (vacant), 300*l*. by 10*l*. to 350*l*.
Assistant Mechanical Foreman, 180*l*.-220*l*.
2 *Inspectors of Water Supplies*, 230*l*.-270*l*., 1 at 300*l*. personal.
Accountant, J. A. Ellis, 400*l*.-600*l*.
3 *Pay Officers*, 180*l*.-270*l*.
Storekeeper, 150*l*.-174*l*., 220*l*. personal.
1 *Clerk, Second Grade.*
3 *Clerks, Third Grade.*

Antiquities Department.
General.

Director of Antiquities, A. H. S. Megaw, 600*l*.-750*l*.
1 *Antiquities Officer*, Th. Mogabgab, 250*l*.
1 *Clerk, Second Grade.*
1 *Clerk, Third Grade.*

Museum Branch.

Curator of Museum, P. Dikaios, 300*l*.-350*l*.-450*l*.
Assistant Curator of Museum, Miss J. du Plat Taylor, 200*l*.
Greek Translator and Interpreter, A. C. Indianos, 300*l*.-350*l*. and 75*l*. personal allowance.
2 *Honorary Curators of District Museums*, Loizos Philippou, Dr. N. G. Kyriazis.

Monuments Branch.

Superintendent of Works, J. E. Bowler, 300*l*. and 50*l*. personal allowance.

Ecclesiastical.

Greek Orthodox Church (vacant), Archbishop of Cyprus.
Church of England, The Rev. M. L. Maxwell.
Armenian Church, The Most Reverend Bedros Saradjian, Archbishop of the Armenians in Cyprus.
Latin Church (vacant) (Vicar-General, *Larnaca*).
Maronite Church, The Rev. J. Triantafyllides (Suffragan Bishop and Vicar-General) (acting).

FALKLAND ISLANDS.

Situation and Area.

The Falkland Islands ("Les Iles Malouines" of the French, "Islas Malvinas" of the Spaniards) are situated in the South Atlantic Ocean, between 51° and 53° S. lat., and between 57° and 62° W. long., about 480 miles N. E. of Cape Horn, and about 1,000 miles due south of Monte Video. They consist of East Falkland Island and West Falkland Island, which, with the adjacent islands, have an estimated area of 2,580 square miles and 2,038 square miles respectively.

There are two groups of dependencies (i) South Georgia with South Orkney and South Sandwich, the boundaries being the 50th parallel of south latitude and the 20th and 50th meridians of west longitude (ii) South Shetland and Graham Land bounded by the parallel of latitude 58° S., and the meridians of longitude 50° and 80° W.

The island of South Georgia lies about 800 miles to the east of the Falkland Islands, South Orkney and South Sandwich being about 450 miles to the south-west and south-east respectively of South Georgia. The northern point of South Shetland is about 500 miles to the south of the Falklands.

History.

The Falklands were discovered by Davis in 1592, and visited by Hawkins in 1594. In 1764 Bougainville planted a small colony of Acadians at Port Louis in East Falkland. The French settlement was taken over by Spain, ever jealous of interference by other nations in the southern seas, in 1766.

In the following year Captain Byron took possession of West Falkland, and left a small garrison at Port Egmont on Saunders Island, whence it was driven out by the Spaniards in 1770; this action on the part of Spain brought that country and Britain to the verge of war. The Spaniards restored the British garrison in 1771, but it was abandoned in 1774 and no further formal occupation was made until 1820, when the Republic of Buenos Aires established a settlement in the East Falkland which was destroyed by the Americans in 1831.

In 1833 occupation of the islands was resumed by the British Government. Until 1842, they were under the charge of the Naval officers engaged in making Admiralty surveys. In 1842, a Civil Administration was formed, the headquarters being at Port Louis until the following year when they were removed to Stanley, then known as Port William.

The colony received regular grants in aid from 1841 until 1880 and for a mail service until 1884-5, since which year the colony has been self supporting.

South Georgia and the South Sandwich group were discovered in 1775 by Captain James Cook, who took possession of them for Britain. South Shetland was discovered and taken possession of by Captain William Smith in 1819, and South Orkney by Captain G. Powell in 1821.

The dependencies were visited only by exploring expeditions, sealers, and whalers until the rise of the modern whaling industry in those regions.

General Description.

(*a*) Falkland Islands.

The Falkland Islands have a very deeply indented coast line and many good natural harbours. The surface is hilly, attaining its maximum elevation of 2,315 feet in Mount Adam, West Falkland.

The entire country is covered with wild moorland interrupted by outcrops of rock and the peculiar collections of angular boulders named "stone runs."

There is no cultivation except in the immediate vicinity of the settlements and shepherds' houses where vegetables and in a few places hay is grown. The soil is chiefly peat but considerable areas of sand also occur.

Communication is maintained by sea and horses, but there are no roads beyond the immediate vicinity of Stanley, the traveller being guided by natural landmarks. A commencement has been recently made to indicate recognized tracks with direction posts. Trees are completely absent.

The only town is Stanley in East Falkland, with a population of about 1,200. The houses are mostly iron and wood, built as they are required for occupation. It is difficult to rent a house but there are several boarding houses affording fair accommodation. Stanley is a port of register and had, on the 31st December, 1937, 26 vessels aggregating 32,589 tons.

The cost of mutton is 3*d.* per lb., of beef 4*d.*, fowls' eggs when procurable cost 2½*d.* to 3*d.* each, while penguin eggs in spring are sold at a price varying from 4*s.* to 8*s.* 6*d.* per hundred. Milk is priced at 1*s.* per quart. Most foodstuffs have to be imported.

Climate and Health.

In the Falklands the temperature is uniformly low, ranging from 40° to 65° in summer and from 30° to 50° in winter, with an annual mean of 42°.

The annual rainfall seldom exceeds 25 inches, and although snow falls frequently it does not as a rule lie long. In summer the atmosphere is very dry and evaporation rapid.

Digitized by Google

The Climate is very healthy though somewhat trying to people from the United Kingdom owing to the constant high winds in summer. Weather conditions are definitely more pleasant in winter than they are in the greater part of England. The conditions of living generally are of a reasonably good standard though limited resources and horizons render the country unsuitable for persons of a neurasthenic tendency. An adequate variety of diet is obtainable and the quality of the food is very fair. Good vegetables can be grown and fruit is procured from Monte Video. The birth rate in 1937 was 15·48 and the death rate 8·36 per 1,000 respectively.

(*b*) Dependencies.

The island of South Georgia is a mass of high mountains which are covered with deep snow where they are not too precipitous, while the valleys between are filled with glaciers which in many cases descend to the sea. There is a coastal fringe free from snow in summer and more or less clothed with vegetation, including tussac "grass." Land whaling stations have been established in five of the numerous bays.

The remaining dependencies are even more inhospitable, being nearly completely covered with snow and ice and almost entirely destitute of plant life. All the dependencies have a rigorous climate of Antarctic character.

A Land Station is equipped at Deception Island, in the South Shetland group, and another in the South Orkneys, but neither has operated within recent years.

Industries, Trade and Customs.

The inhabitants of the Falkland Islands are almost entirely occupied in sheep farming, the whole acreage of the colony being divided into large sheep runs. Wool is the principal product but tallow and hides are also exported. There were in 1937, 604,346 sheep, 10,076 cattle and 3,387 horses in the islands.

Seal oil is also produced for export by a company formed in 1928.

The whaling field of the dependencies, in which whaling by modern methods was first carried on in 1904, has become more productive than all those in the rest of the world combined; a small quantity of seal oil is also produced.

Dependencies exports during 1937 amounted to 406,646*l.*, 39 per cent. of which was consigned to U.K., 58 per cent. to Europe via Cape Verde Is. and Canary Is. Remainder to Argentine.

An expedition for research, mainly into whaling, for which the ships "Discovery II" and "William Scoresby" have been acquired, has been operating in the southern seas.

In the case of the Colony proper, exports amounted to 204,020*l.*, 92 per cent. to U.K., remainder to British Honduras, Chile, and Uruguay; in the case of the Dependencies 39 per cent. of total exports were shipped to the United Kingdom and 61 per cent. to other countries.

In the case of the Colony proper, 73 per cent. of the imports came from the United Kingdom, 3·6 per cent. from Argentine, 1·58 per cent. from Brazil, 8·4 per cent. from Chile, 8·3 per cent. from Uruguay, and 5·1 per cent. elsewhere; in the case of the Dependencies 10·1 per cent. came from the United Kingdom, 5·2 per cent. from Norway, 28 per cent. from Dutch West Indies, 1·6 per cent. from Holland, 2·8 per cent. from Cape Verde Is. and 3 per cent. from elsewhere. Remaining 49·3 per cent. represents oil brought to South Georgia for storage.

The Customs duties are all specific and are levied on spirits, wines, beer, tobacco and matches (import) and on wool, whale oil, seal oil and guano (export). They are non-preferential except that matches of British manufacture are admitted free, and that the import duty on tobacco and cigarettes produced and manufactured in any part of the British Empire is at nine-tenths of the ordinary rate.

Education.

There are two schools in Stanley. A Government school is maintained from public funds, which, whilst being elementary in character, makes provision for attendance at a Continuation Class for a two years' course of further education. There is also a Convent School managed by Roman Catholic Sisters; this school, however, is not subject to Government control, and receives no subsidy.

The Government contributes two-thirds of the cost of the board and lodging of children from the country districts attending school in Stanley.

Four travelling teachers are provided by the Government and two by the Falkland Islands Company. These teachers travel from Settlement to Settlement devoting a certain amount of time to each. The number of children receiving education in the Colony in 1937 was 387.

Currency and Banking.

The legal tender currency is British sterling, and local 5*l.*, 1*l.*, and 10*s.* notes. There are no private banks in the Colony. On 1st April, 1888, a Government Savings Bank was established, in which, on 30th September, 1937, the deposits were 185,418*l.*, belonging to 1,069 depositors.

The Falkland Islands Company, Limited.

This company was formed in 1851 to take over from Mr. Lafone, of Monte Video, the district in the East Falkland, now called Lafonia; this district abounded with wild cattle, said to be the descendants of the stock introduced by the Acadian settlers, the capture of which was the company's original object. This, however, was not found profitable, and the company have of late years been engaged in sheep farming on an extensive scale, in shipping, and in the importation of goods.

The company maintains a doctor and a school at Darwin, and contributes to the provision of a salary for a clergyman of the Church of England.

Means of Communication.

Communication between Stanley and the outside world is effected principally through Montevideo, to which port a service is maintained in accordance with actual requirements by the s.s. "Lafonia," a vessel of some 1,800 tons dead weight belonging to the Falkland Islands Company, Limited, and running on a mail contract for a period of five years from January, 1937. The Falkland Islands Company, Limited, also maintains the s.s. "Fitzroy," of some 600 tons dead weight. This vessel normally makes 12 to 15 voyages a year to Patagonia.

The distance from Stanley to Montevideo is rather more than 1,000 miles and the time taken on the voyage by the s.s. "Lafonia" averages four days. The average time occupied in the transit of mails to and from the United Kingdom, *via* Montevideo, is 26 days. Opportunities for the receipt and despatch of mails are available every four weeks.

Digitized by Google

Communication with South Georgia is maintained by the Falkland Islands Company's s.s. "Lafonia," which makes two voyages between Stanley and the Dependency during the year. The time occupied on the voyage in either direction averages three days.

The inter-insular service for mails and passengers is maintained by coasting steamers belonging to the Falkland Islands Company, Limited.

Letters.

To the United Kingdom, British Possessions, Egypt, and to places within the Colony 1*d.* per oz. or fraction of an oz.

To other countries: 2½*d.* per oz. and 1½*d.* for every additional oz. or fraction of an oz.

Parcels.

Two wireless stations for external traffic are maintained by the Government, one at Stanley and one at Cumberland Bay, Grytviken, in the Dependency of South Georgia. A smaller station at Fox Bay on the West Falkland is maintained also by the Government for inter-insular communication. Telegraphic charges are 1*s.* 3*d.* per word, ordinary messages to U.K. direct; 7½*d.* per word Government and deferred messages. The principal farm stations on East Falkland Island are connected by telephone with the Stanley exchange and those on West Falkland Island with the Government headquarters at Fox Bay.

Constitution.

The Government is administered by a Governor, aided by an Executive Council composed of five official members and 2 unofficial members, and a Legislative Council composed of four official and four unofficial members. The unofficial members of the Legislative Council are appointed by Warrant under the Royal Sign Manual and Signet for a term not exceeding five years.

Population.

		Falkland Islands. Males.	Females.	Total.
1921	census	1,189	905	2,094
1931	census	1,358	1,034	2,392
		Dependencies. Males.	Females.	Total.
1921	census	1,333	4	1,337
1931	census	708	1	709

The population of the Colony is almost exclusively British, and that of the Dependencies Scandinavian.

Year.	Finances. Revenue. £	Expenditure. £	Shipping Entered and Cleared. British Tonnage.	Total Tonnage.
1928	268,110	191,005	214,269	459,170

Vice-Consul for Belgium, Mons. Mallin.
French Consular Agent, A. Newing.

FIJI.

Situation and Area.

The Colony of Fiji comprises all islands, rocks, and reefs lying between latitude 15° and 22° S. and between longitude 177° W. and 175° E. It is distant from Sydney about 1,700 miles, and from Auckland 1,100 miles. The Tongan or Friendly Islands lie 180 miles to the south-east, and Samoa 500 miles to the north-east. The French colony of New Caledonia lies to the westward about 700 miles. The number of islands has been variously stated at from 200 to 250; but this includes mere uninhabited rocks and islets.

The dependency of Rotuma consists of all islands, rocks, and reefs between 12° and 15° S., and between 175° and 180° E.

The principal inhabited islands are Viti Levu, 4,053 square miles, Vanua Levu, 2,130 square miles, Taveuni, 217 square miles, Kandavu, 124 square miles, Koro, 58 square miles, Ngau, 45 square miles, and Ovalau, 43 square miles. The total area of the Colony (including Rotumah, 14 square miles) is 7,056 square miles (nearly equal to Wales).

Physical Features.

The more important islands are hilly and mountainous, rising more or less abruptly from the shore to a maximum height of 4,300 feet. The hills are generally of a grand and picturesque outline, being composed for the most part of old volcanic lavas. Upon the south-eastern or windward sides the islands are covered with dense forests. The lower lands are more lightly timbered, and were probably mostly under cultivation at a not distant period when the native population was much larger. On these flats the soil is almost everywhere deep, easily worked, and especially rich in humic acid. The northern and north-western sides of the larger island, or leeward sides, are characterised by a comparative absence of forest lands; and here hills or plains are covered with long reeds or grass, and dotted with clumps of Casuarina and Pandanus.

Gold is being mined at Yanawai, near the south coast of Vanualevu Island, and at Tavua in the northern portion of Vitilevu Island, and prospecting operations are in progress in both localities. At Yanawai the gold is associated with barytes, while at Tavua it occurs in altered andesites. 16,955 ounces of gold bullion and 1,184 ounces of silver were exported from the Colony during 1935. A small percentage of silver is found to be associated with the gold in all bullion exported. Copper ore carrying low gold values occurs in the Sambeto valley in the western portion of Vitilevu, but such deposits have not so far been proved to be payable.

The country is well watered. Frequent rains keep alive the sources of the thousands of small affluents feeding the main rivers. Of these rivers the Rewa stands first. It is navigable for boats, punts, or flat-bottomed steamers, for 40 or 50 miles from its mouth. Several large streams fall into it, the sources of which lie in the high mountains of the interior 3,000 or 4,000 feet above the level of the sea. Besides these, the Singatoka, the Nandi, and Mba rivers, with many others, drain the principal watersheds of Viti Levu. In Vanua Levu the rivers are not so large, though they are nearly as numerous. The Ndreketi river being first in size is navigable for craft of considerable size for a distance of 15 miles from its mouth. Almost every valley in the group has its stream or brook, from which the native occupants irrigate their plantations of "ndalo" or taro (*Calocasia esculenta*).

Fiji is as rich in harbours and roadsteads as it is in rivers. Each island is surrounded by a barrier reef, and, with few exceptions, is accessible through passages usually found opposite to the most considerable valley or river. Between this river and the shore ships lie safely at anchor, protected by an indestructible natural breakwater.

Rotuma.

The Island of Rotuma, situated in 12° 30′ S. lat., 177° 10′ E. long., was discovered by the *Pandora*, in 1793, when searching for the mutineers of the *Bounty*. Lying to the north-west from two to four miles from the shore, are three small islets, Hattana, Hoflua and Waya. Of these only the last named is inhabited, and it contains but one small village. In 1879 the three principal Rotuma chiefs offered the islands to Great Britain, and they were annexed 13th May, 1881. The population was found at the census of 1936 to number 2,740, of whom two-thirds are Methodists, and the remainder Roman Catholics. The principal island is seven miles long by three miles broad, and contains about 9,000 acres. The staple export is copra.

The natives differ entirely from Fijians in language and in polity. A European Resident Commissioner is the chief executive authority. He also presides over the Rotuma Court of Justice, styled "The Commissioner's Court." The Commissioner's judicial powers are similar to those of a Commissioner of the Supreme Court of Fiji and a District Commissioner of the Colony, but special provision is made for the hearing of indictable cases in Rotuma. There are also two Native Stipendiary Magistrates.

The island is divided into seven districts, over each of which is a chief appointed by the

Digitized by Google

Governor, and is administered by the Resident Commissioner with the assistance of a Council of Chiefs, held monthly. The Council, an advisory body, consists of the Resident Commissioner (Chairman), the seven District Chiefs, two Native Stipendiary Magistrates, the Native Medical Practitioner, and one representative from each district.

A Rotuma Regulation Board consisting of the Resident Commissioner, and between five and ten native Rotumans, makes regulations relating to the good government and well-being of the natives. All such regulations are subject to approval by the Legislative Council of Fiji.

Population.

The aboriginal population of Fiji belongs to the darker of the two great Polynesian families, but, living on the confines of the fairer race, its blood has received considerable admixture. It was estimated in 1859 at 200,000; and in 1871 at 140,000. By the epidemic of measles which occurred in 1875 it was reduced by more than one-fourth. A census was taken on the 26th April, 1936, and the population of the Colony was:—

Europeans	4,028
Half Castes	4,574
Fijians	97,651
Rotumans	2,816
Indians	85,002
Polynesians	737
Melanesians	1,616
Micronesians	126
Chinese	1,751
Others	78
Total	198,379

The estimated population on the 31st December, 1937, was 205,397.

The births among the native population in 1937 totalled 3,432, and the deaths 2,128. The birth rate was 34·46, and the death rate 21·37 per mil.

The Methodist and Roman Catholic missions gave the following as the number of their adherents at the end of the year 1937:—

Methodist	95,551
Roman Catholic	16,309
Total	111,860

History.

The islands were discovered by Tasman in 1643, and visited by Captain Cook in 1769. Captain Bligh, on his memorable voyage in the launch of the *Bounty*, sighted part of the group in 1789, and was chased by a canoe from the island of Waya, in the Yasawa group. Missionaries settled in Fiji in 1835, and, after a time, met with great success.

In 1859 Thakombau, the most powerful chief of Fiji, offered the sovereignty of the islands to Great Britain. The offer was declined by the Duke of Newcastle in 1862. About that time the demand for cotton, owing to the American civil war, led to an influx of Europeans into Fiji for the purpose of cotton cultivation. In June, 1871, certain Englishmen set up a Fijian Government, with the principal chief, Thakombau, as king. A constitution was agreed upon, and a Parliament elected. The Parliament and the Government before long drifted into mutual hostility, and the Ministry latterly governed without the aid of the Parliament.

The question of annexing Fiji had been agitated both in Australia and England since 1869 on many grounds, and in 1873, the Earl of Kimberley commissioned Commodore Goodenough, commanding the squadron on the station, and Mr. E. L. Layard, Her Majesty's Consul in Fiji, to investigate and report on the matter. These Commissioners, in 1874, reported an offer of the cession of the sovereignty of the islands from the chiefs, with the assent of the Europeans, but on certain terms which were not acceptable, and Sir Hercules Robinson, the Governor of New South Wales, was despatched to Fiji in 1874 to negotiate. This mission was completely successful, and the sovereignty of the islands was ceded to Her Majesty by Thakombau, the Chief of Mbau, Maafu, who was Chief of the so-called Lau Confederacy, which included not only the Lau Islands, but Taveuni and the greater part of Vanua Levu, and the other principal chiefs, in a deed of cession dated the 10th day of October, 1874. A charter was shortly afterwards issued by Her Majesty, erecting the islands into a separate Colony, and providing for their government.

Levuka, in the island of Ovalau, was at first selected as the European capital, but during the year 1882 the seat of government was transferred to Suva, on the south coast of the island of Viti Levu with a fine harbour. The white population of Suva and its suburbs is estimated at 1,900.

Climate.

The climate of Fiji is oceanic. The south-east trade-wind blows from May to November and during the remaining months the direction of the wind is variable. Between December and April when hot northerly winds blow from the Equator the temperature may occasionally rise as high as 96° and the humidity may reach saturation point. The total average annual rainfall varies in the well defined "wet" and "dry" zones from 60 to 140 inches and the temperature varies from a minimum of 60° to a maximum of 96°.

The highest temperature at Suva in 1937 was 94 degrees on January 15th, and the lowest 63 degrees on August 16th. The total rainfall was 106·63. The average annual rainfall is 110·70 inches. There is a great variety of temperature and climate to be found in the group. The rainfall extends over the whole year, but May to October is usually the driest period. Between November and April, the wet season, hurricanes and cyclonic storms occasionally occur, December to March being the months of greatest frequency.

Constitution.

The constitution is now regulated by Letters Patent of 2nd April, 1937. The Executive Council consists of the Governor, the Colonial Secretary, the Attorney-General, the Colonial Treasurer, the Secretary for Native Affairs, the Secretary for Indian Affairs, and two unofficial members nominated by the Governor.

Under the new Letters Patent, the Legislative Council consists of the Governor, 3 *ex-officio* members (Official), not more than 13 Nominated Official Members, 5 European Members (3 Elected and 2 Nominated), 5 Native Nominated Members and 5 Indian Members (3 Elected and 2 Nominated).

Administration.

A report upon the reorganization of the public services, their administration and the terms and conditions of service was brought into force in 1938.

Digitized by Google

Native Affairs.

The natives retain a large share of self-government. Their system of village and district councils has been recognised and improved, and supplemented by a triennial meeting of the high chiefs and representatives from each province, presided over by the Governor. There is a Native Regulation Board, constituted under "The Native Affairs Ordinance, 1876," which has power to make regulations with regard to the marriage and divorce of natives, succession to property, the jurisdiction and powers of native courts and magistrates in matters of civil and criminal procedure, and also in regard to other matters having reference to the good government and well-being of the native population. All such regulations have to receive the sanction of the Legislative Council.

Shipping.

Suva and Levuka are ports of Registry under the Merchant Shipping Act. On the 31st December, 1937, there were on the Register 2 steam vessels of a tonnage of 2,817 tons, and 11 motor vessels of a tonnage of 8,174 tons.

The number of local vessels trading within the Colony and holding Sea-going Certificates from the Marine Board during 1937 was :—

Owned by :	No.	Tons.
Europeans	43	1,693
Natives	14	214
Others	18	314
	75	2,221

The number of merchant vessels entered from overseas at the three ports of entry in the Colony during the year 1937 was 153, the total registered tonnage being 944,452; of these vessels 107 were British, tonnage 538,164; 27 American, 340,565 tons; 6 Swedish, 20,841 tons; 5 Panamanian, 9,681 tons; 5 French, 27,944 tons; 3 Norwegian, 7,257 tons.

Local Government.

On the 1st January, 1936, the Municipal Council of Suva was replaced by the Suva Town Board consisting of seven official members (one presiding), two European unofficial members, two Fijian unofficial members and two Indian unofficial members; all nominated by the Governor.

Levuka, the old capital of Fiji, is controlled by a Township Board of which the District Commissioner is Chairman and the District Medical Officer, the Inspector of Police, the District Engineer, Suva, and three others are members.

Education.

The Education Ordinance No. 1 of 1929 constituted the Department of Education and established the Board of Education. The Board consists of the Director of Education and eight other members nominated by the Governor. The Ordinance gives very wide powers to the Board to control all phases of education. The most important are the registering of schools and teachers, the allocating of grants-in-aid, the determining of the instruction to be given and to advise the Governor on establishing of education districts. Only two such districts, Suva and Levuka, have been established.

The Education Rating Ordinance No. 18 of 1934 authorises the levying of a special rate in these two districts to meet one-half the net cost incurred by the Government in maintaining Government schools within the limits of the districts.

There are two Grammar Schools for Europeans in Suva, one for boys and one for girls, with hostels attached, and a public school in Levuka, all under Government control. The roll number during 1937 at the Boys' Grammar School, Suva, was 161; at the Girls' Grammar School, Suva (where boys under 8 are taken) 236. The roll in 1937 for the Levuka Public School was 127 (boys and girls).

The Queen Victoria Memorial School at Nasinu, near Suva, is intended to provide for the higher education of natives, and is maintained from public revenue. The number of boys on the roll during 1937 was 80.

Schools for the primary education of Fijians may be conducted by the Methodist, Roman Catholic, Anglican, and Seventh Day Adventist Missions, by the Provincial Councils, by any other properly constituted authority or by the Government. Six Provincial Schools have been established by the Government at Lau, Taveuni, Londoni, Kandavu, Nandi and Sawani, in charge of European Headmasters.

At the end of 1937 there were 230 Government and assisted schools, 140 for Fijians, Rotumans, etc., and 66 for Indians, 9 receiving both Fijians and Indians, 15 for Europeans and half castes and 1 for Melanesians.

Returns were also received from 116 recognised schools. The total number of pupils in all schools was 24,974—1,480 Europeans, 16,443 Fijians, Rotumans and Melanesians, 6,936 Indians and 115 Chinese.

The estimated expenditure on education for 1938 is 59,044*l.*

Currency and Banking.

Legislation in 1933 and 1934 provided for the issue of Government currency notes and coin which follow the United Kingdom currency denominations.

The Fiji pound is linked to sterling by law at the fixed rate of £F111=£100 sterling.

The circulation at 31st December, 1937, was :—

Notes	£625,148
Coin	£81,760
	£706,908

The Bank of New South Wales has branches at Suva, Levuka and Lautoka, and four agencies; the Bank of New Zealand has a branch at Suva.

Under Ordinance I., of 1907, a Government Savings Bank was opened in 1908. At the end of 1937 there were 11,358 depositors and 350,601*l.* in deposits.

Industries, Trade and Customs.

The trade and commerce of the Colony up to 1935 depended for its existence on three staple industries, viz., (1) the cultivation, manufacture, and export of sugar; and (2) of copra (the dried kernel of the coconut); and (3) the growth and export of fruit, principally bananas. Considerable progress has been made in gold mining and in 1936, gold displaced bananas as the third principal export.

The principal exports at the date of the annexation of the Colony were copra, cotton (Sea Island), and maize, but the export of maize was soon displaced by that of sugar. Cotton continued to be the third export in point of value until the year 1882, after which it gradually subsided until the year 1888, when only 3½ tons were exported. The cotton industry is again receiving attention. As a result of the Ottawa Conference, Australia now admits 40,000 centals of bananas per year, with a preferential duty of 2*s.* 6*d.* per cental. High costs in Australia still provide a

Digitized by Google

barrier to trade and the shipments are negligible. Previously, owing to the imposition by the Commonwealth Government, in 1921, of a prohibitive duty on imported bananas, the export of this fruit was entirely confined to the New Zealand Market. A number of trial shipments of bananas to Canada were made in 1934, and this market, in 1937, took 21,996 bunches valued at 5,432*l.*

The export of fruit consists almost entirely of bananas, pineapples, and citrus fruits. Exports of the produce of the Colony increased in value from 2,023,496*l.* in 1936 to 2,121,920*l.* in 1937. The principal exports were sugar, copra, gold, and bananas. The quantities and value exported in 1937 were as follows:—Sugar, 129,692 tons, value 1,388,681*l.*; Copra, 30,001 tons, value 407,354*l.*; Gold, 21,407 ozs., value 166,115*l.*; Bananas, 326,777 bunches, value 80,071*l.*

The other principal exports in 1937 consisted of:—Molasses 19,673 tons, value 19,673*l.*; Trochas Shell 144 tons, value 12,723*l.*; Biscuits, plain, 180,332 lbs., value 3,884*l.*; Cotton 24,589 lbs., value 1,161*l.*; Fruit, fresh (other than bananas), value 5,191*l.*; Gum 7,594 cwt., value 9,568*l.*; Hides 5,429 hides, value 4,220*l.*; Oil, cocoanut, 147 tons, 4,337*l.*; Vegetables, fresh, 15,807 cwt., 7,309*l.*; Soap, plain, 4,370 cwt., value 6,002*l.*

The rice crop is insufficient for local demands and the importation of this commodity was 3,258 tons in 1936 and 2,980 tons in 1937.

Dairying is an established industry and only 10 lbs. of fresh butter were imported in 1937.

There are established in Suva a Soap Factory and a Biscuit Factory which supply a considerable proportion of the local requirements and as will be seen from the export figures above, enjoy an increasing trade with other groups in the Pacific.

Many parts of the Colony seem admirably adapted for cattle and sheep raising.

The Customs Tariff is, in general, on an *ad valorem* basis, duty being assessed on the value of goods at the port of shipment. Practically all products of the British Empire receive preferential treatment, provided that British Empire material and labour represent not less than 25 per cent. of the value of the goods, and that the final processes of manufacture are performed within the British Empire. A few special items require 50 per cent. or 75 per cent. Empire content.

The total trade of the Colony in 1937 was 3,974,401*l.*

The total trade was divided as follows:—

	Imports %	Exports %
United Kingdom ..	34·24	38·90
Other British Possessions	48·17	45·99
Foreign Countries ..	15·57	14·78
Parcels Post	2·02	—
Ships Stores	—	·33
	100·00	100·00

The following figures show the trade of the Colony during the last five years:—

Year	Imports.	Exports.	Total Trade.
1933	1,069,266*l.*	1,725,529*l.*	2,794,795*l.*
1934	995,204*l.*	1,456,455*l.*	2,451,659*l.*
1935	1,257,287*l.*	1,820,396*l.*	3,077,683*l.*
1936	1,501,854*l.*	2,135,427*l.*	3,637,281*l.*
1937	1,760,744*l.*	2,213,657*l.*	3,974,401*l.*

The value of imports from the principal countries during the last five years was as follows:—

Country	1933	1934	1935	1936	1937
	£	£	£	£	£
United Kingdom	366,151	362,763	495,992	536,690	602,904
Australia ...	379,886	261,108	307,387	420,989	514,504
Canada ...	38,175	45,809	56,823	81,777	105,174
India	39,242	63,588	86,755	91,997	91,800
New Zealand	88,174	34,843	45,505	59,633	56,870
Japan... ...	39,269	29,764	39,625	50,109	63,046
Dutch East Indies	18,794	24,643	25,755	34,420	33,391
United States of America	42,431	86,285	95,150	91,065	120,745

Means of Communication.

There is a direct six-weekly cargo service from the United Kingdom.

There is regular steam communication with Australia and New Zealand, a monthly service with Canada, and a monthly service with U.S.A. Inter-island communication is maintained by regular steamer or cutter services.

Postage rates on letters addressed to countries beyond Fiji:—

(*a*) To Great Britain and Ireland, India and other countries within the British Empire which are served by air under the Empire Air Mail Scheme or partly by air and partly by surface transport: 2*d.* per half ounce.

(*b*) To Australia, New Zealand and other British Colonies: First ounce, 2*d.*; each succeeding ounce 1*d.*

(*c*) To other countries in the Postal Union: First ounce, 3*d.*; each succeeding ounce 1½*d.*

Internal postal rates: Letters, first ounce 2*d.*; each succeeding ounce 1*d.* Printed papers, for every 4 ozs. ½*d.*

All letters for Great Britain, India and other Empire countries served by the Australia-England and the England-South Africa air routes are despatched by sea to Australia to be sent forward by air as far as the service permits. Similarly, Great Britain and these Empire countries forward all letters for Fiji by air to Australia. The normal transit time of letter mails from Fiji to Great Britain is approximately eighteen days.

A Parcels Post with the United Kingdom was established in June, 1890. There is also a Parcels Post with the Australian States, New Zealand, Tonga, India, Canada and the United States of America. The rates of postage are as follows:—

Great Britain and Northern Ireland:—

(*a*) Via Canada: 3 lbs. 3*s.* 3*d.*; 7 lbs. 5*s.* 10*d.*; 11 lbs. 8*s.* 6*d.*

(*b*) Via New Zealand: 3 lbs. 2*s.* 9*d.*; 7 lbs. 4*s.* 5*d.*; 11 lbs. 6*s.* 2*d.*

Australia and Tonga: 1 lb. 8*d.*; every additional lb. up to 11 lb. 6*d.*

New Zealand: 3 lbs. 2*s.*; 7 lbs. 3*s.* 4*d.*; 11 lbs. 4*s.* 9*d.*

India: 3 lbs. 2*s.* 5*d.*; 7 lbs. 4*s.* 7*d.*; 11 lbs. 7*s.* 1*d.*

Canada and the United States of America: 1 lb. 6*d.*; every additional lb. up to 11 lbs. 6*d.*

The Colony entered the Postal Union in 1891.

The Imperial Postal Order system has been adopted by this Colony.

A wireless telegraphy service is operated in the Colony. There are stations at Suva and Lautoka in the island of Viti Levu, at Lambasa and Savusavu in the island of Vanua Levu and at Waiyevo (Taveuni), Levuka (Ovalau) and Rotuma. Telephone Exchanges have been established at Suva, Nausori, Lautoka, Ba, Nandi, Tavua, Vatukoula, Navua,

Digitized by Google

Levuka, Savu Savu and Taveuni. Suva is connected by telephone line to Nausori, Vunidawa, Tailevu, Navua and Nandroga. Suva is directly connected by submarine cable with New Zealand, Australia and Canada. An external wireless service linking the Colony directly with Australia is operated by the Amalgamated Wireless (Australasia) Limited.

There is no railway in the Colony. The Colonial Sugar Refining Co. owns various tramlines connecting with estates, and these tramlines are in certain cases open to public use. An all-weather motor road, connecting Suva with Tailevu, Tavua, Mba, Lautoka, Nandi and Singatoka, has been in use for some years, and the final link between Singatoka and Suva, a distance of approximately 85 miles, was completed in June, 1938. The total distance by road round the island of Viti Levu is 322 miles, the distance to Lautoko *via* Ra, Tavua and Mba being 168 miles, and the distance *via* Navua and Singatoka being 154 miles.

Assistant Chemist, (vacant), 400*l.*-720*l.*
Laboratory Assistants, P. R. Charlton, B.Sc., G. F. Flemons, 120*l.*-300*l.*
Senior Veterinary Officer, C. R. Turbet, B.V.Sc., M.R.C.V.S., F.R.S.T.M. & H., 750*l.*-840*l.*

---

*CLERICAL STAFF.

The grading of the clerical staff throughout the Colony was revised in 1938, the new grades being as follows:—

EUROPEANS.

Male—Special Grade, 500*l.* by 25*l.* to 600*l.*
Grade A, 425*l.* by 25*l.* to 500*l.*
Grade B, 120*l.* by 12*l.* to (180*l.*) by 20*l.* to [300*l.*] by 15*l.* to 390*l.* by 10*l.* to 400*l.*
Female—Grade A, 300*l.* by 10*l.* to 360*l.*
Grade B, 120*l.* by 12*l.* to (180*l.*) by 10*l.* to [240*l.*] by 10*l.* to 300*l.*

NON-EUROPEANS.

Special Grade, 270*l.* by 15*l.* to 360*l.*
Grade A, 190*l.* by 12*l.* to 250*l.*
Grade B, 84*l.* by 6*l.* to (120*l.*) by 10*l.* to 180*l.*

Veterinary Officers, H. T. B. Hall, B.V.Sc. (one vacant), 400*l.*-720*l.*
Senior Agricultural Officer (vacant), 750*l.*-840*l.*
Agricultural Officers, H. R. Surridge, A.R.C.Sc. (Irel.), B.Sc.; B. E. V. Parham, M.A.; D. A. Donald, H.D.A.; L. W. Harwood, H.D.A., (one vacant), 400*l.*-720*l.*
Agricultural Assistants, S. E. H. Coster, W. L. Parham, J. J. C. Suckling, 240*l.*-400*l.*
Produce Inspector, A. B. Ackland, E.D.; 400*l.*-650*l.*
Grade A Clerk, J. S. Rennie.

Forestry.

Conservator of Forests, J. S. Smith, 840*l.*-1,120*l.* sterling (seconded from Malaya for 3 years).

Audit Department.

Auditor, L. H. Pope, 900*l.* (also a Pensionable allowance of 150*l.* from Western Pacific High Commission Funds).
Assistant Auditors, Grade I, D. W. Lattimer, 600*l.*-720*l.*; *Grade II*, G. C. Cowan, 350*l.*-600*l.*
Grade A Clerk, G. S. Barrack.

Customs Department.

Comptroller of Customs, W. T. Martin, 1,050*l.*
Assistant Comptroller of Customs, H. J. S. Allen, 700*l.*
Senior Customs Officer, Grade I, H. D. Walcot, 500*l.*-600*l.*
Comparing Officer, C. S. St. Julian, 400*l.*-500*l.*
Senior Customs Officer, Grade II, A. W. James. M. M. and Bar, C. E. Leembruggen, M. Gray. 425*l.*-500*l.*

Defence Department.

Commandant, Lieutenant-Colonel J. E. Workman (see Commissioner of Police).
Adjutant, Major A. H. Stafford, E.D., 450*l.*-600*l.*
Drill and Musketry Instructor, R.S.M. S. H. Elliot (Sergeant, The Cameronians), 300*l.*-400*l.*
Bandmaster, (vacant), 300*l.*-360*l.*

Education Department.

Director of Education, J. Russell, M.C., 1,100*l.*
Assistant Director of Education, A. H. Phillips, 700*l.* (is also Chief Inspector of Schools).
Inspector of Schools, A. W. McMillan, 650*l.*
Headmaster, Boys' Grammar School, Suva, C. L. Brock, B.A., Dip. of Ed., 325*l.*-355*l.* plus 60*l.* grading allowance.
Headmistress, Girls' Grammar School, Suva, Mrs. A. C. Dickson, B.A., Dip. of Ed. (Oxon.), F.R.G.S., 325*l.*-355*l.* plus 60*l.* grading allowance.
Headmaster, Queen Victoria School, (vacant), 450*l.*-550*l.*
Headmasters, Government Provincial Schools, B. W. Taylor, G. Arthur, H. H. Hickling, L. G. Usher, L. Russell, W. E. Henderson, 420*l.*-500*l.*
Principal, Teachers' Training School, Natabua, D. E. Swinton, M.A., Dip. of Ed., 500*l.*-600*l.*

Judicial Department.

Chief Justice, O. C. K. Corrie, M.C., 1,200*l.* (also 400*l.* as Chief Judicial Commissioner for the Western Pacific).
Registrar of Supreme Court, B. St. J. Fisher, 750*l.* (also Registrar-General).
Resident Magistrates, T. T. Russell (also Assistant to Attorney-General), R. Townsend, 600*l.*-840*l.*
Deputy Registrar of Supreme Court, B. L. Gregg, LL.B., 500*l.*-600*l.* (also Deputy Registrar-General).

Digitized by Google

Lands and Survey Department.

Director of Lands, Mines and Surveys, F. R. Charlton, O.B.E. (also Registrar of Titles, Chairman, Native Lands Commission and Chairman, Mining Board), 1,100*l.*

Assistant Director of Surveys, C. A. Leembruggen, 690*l.*–750*l.*

Inspector of Mines, F. T. M. White, 600*l.*–840*l.*

Land Officer and Deputy Registrar of Titles, J. J. Real, M.M., Barrister-at-Law (Queensland), 600*l.*–720*l.*

Surveyors, T. W. Wignall, R. V. Cole, C. Harlen, W. H. B. Buckhurst, W. L. Bygrave (one vacant), 400*l.*–650*l.*

Chief Draughtsman, E. W. Simm, 400*l.*–500*l.*

First Class Clerk, H. J. Hulek, 500*l.*

Legal Department.

Attorney-General, E. E. Jenkins, 1,300*l.*

Legal Draughtsman, R. E. P. Diederich, LL.B., 500*l.*–600*l.*

Medical Department.

Director of Medical Services, Dr. V. W. T. McGusty, O.B.E., 1,000*l.*–1,100*l.* (also 100*l.* pensionable allowance as Central Medical Authority for the Western Pacific).

Assistant Director of Medical Services, (vacant), 1,050*l.*

Government Pharmacist, D. K. Palmer, 400*l.*–500*l.*

District Medical Officers, P. T. Harper, W. Worger, 500*l.*–725*l.*

Medical Officers, Grade I, T. Clunie, 880*l.*–1,000*l.*; *Grade II*, A. J. Borg, H. S. Evans, M. L. McCauley, R. J. Snodgrass, C. J. Austin, W. G. MacNaughton, G. T. Barnes, R. W. D. Maxwell, J. S. Cramer, E. V. Maxwell, J. Taylor, A. G. Hemsley, 600*l.*–840*l.*

Pathologist, D. C. M. Macpherson, 880*l.*–1,000*l.* (is also Police Surgeon).

Medical Officer of Health, G. R. Baxter, 880*l.*–1,000*l.*

Chief Sanitary Inspector, C. Kendrick, 450*l.*–550*l.*

Sanitary Inspectors, W. C. Cockell, R. B. Fyfe, W. A. Milne, 300*l.*–450*l.*

Principal, Central Medical School, D. W. Hoodless, 880*l.*–1,000*l.* (is also Visiting Medical Officer to Suva Gaol, and Medical Superintendent, Public Lunatic Asylum).

Grade A Clerk, K. W. A. Black, 425*l.*–500*l.*

Colonial War Memorial Hospital.

Matron and Nursing Superintendent, Miss L. M. Lea, 300*l.*–375*l.* (and uniform, quarters and board).

Steward and Clerk, C. A. Brabant, 180*l.*–400*l.*

Police.

Commissioner of Police, Lt.-Col. J. E. Workman, 1,000*l.* (is also Commandant, Fiji Defence Force, and Sheriff).

Assistant Commissioner of Police (Special Duty), V. E. R. de Carteret, 550*l.*

Deputy Commissioners of Police, E. A. Barnett, Magrane, Major J.P., 700*l.*

Superintendents, G. Kermode, I. Lucchinelli, 600*l.*–650*l.*

Assistant Superintendents, M. MacLeod, G. A. Peck, B. F. Hooper, 350*l.*–550*l.*

Inspectors, C. W. Tucker, J. Probert, S. F. Sanders, M.C., W. J. G. Holland, J. C. Munday, E. A. Meredith, P. M. Morris, G. D. Hill, H. Halstead, C. H. Hunt, 240*l.*–400*l.*

Port and Marine Department.

Harbourmaster, Suva, G. B. Nasmyth, Lieut. R.N.R. (retd.), 600*l.*

Post and Telegraph Department.

Postmaster-General, W. F. Hayward, 850*l.*

Assistant Postmaster-General and Accountant, C. O. Taylor, 500*l.*–700*l.*

Postmaster, Grade I (Suva), A. E. Beddows, 425*l.*–500*l.*

Assistant Accountant and Officer in Charge of Telegraph Stores, A. E. Fuller, 300*l.*–460*l.*

Postmaster, Grade II (Lautoka), M. H. Benjamin, 300*l.*–460*l.*

Telephone Inspector, A. Alcock, 400*l.*–500*l.*

Printing and Stationery Department.

Government Printer, H. R. Craigie, 600*l.*

Foreman Printer, G. W. Cockburn, 300*l.*–460*l.*

Prisons Department.

Superintendent of Prisons, N. B. Casey, M.B.E., 700*l.*

Public Works Department.

Director of Public Works, W. Wise, O.B.E., B.Sc., Hons. (London), M.Inst.C.E., A.C.G.I., M.Inst.M. & Cy.E., 1,200*l.* (also Commissioner of Roads).

Assistant Director of Public Works, A. A. Ragg, A.M.Inst. C.E., M.I.Mech.E., 840*l.*

Executive Engineers, H. E. Smythe, B.E. Hons. (Syd.), A.M.I.E. (Aust.), C. M. Teulon, A.M.Inst., C.E., A.M.Inst.M. & Cy.E., 750*l.*

Mechanical Engineer, H. Sabben, A.M.I.Mech.E., First Class Marine Engineer, 400*l.*–720*l.*

Assistant Engineer, J. H. Tiffen, 400*l.*–600*l.*

Assistant Mechanical Engineers, J. E. Bish, First Class Marine Engineer, B. L. Cronin, 400*l.*–600*l.*

Architect, O. C. Ludolph, 750*l.*

Office Superintendent, J. B. K. Taylor, 500*l.*–600*l.*

Registrar-General's Department.

Registrar-General, B. St. J. Fisher (see Registrar of Supreme Court).

Deputy Registrar-General, B. L. Gregg, LL.B. (see Deputy Registrar of Supreme Court).

Stores Department.

Government Storekeeper, A. W. L. Savage (see Accountant-General and Deputy Treasurer).

Assistant Government Storekeeper, F. W. J. Plucknett, 600*l.*

Transport.

Master, R.C.S. "Pioneer," J. P. Mullins, 425*l.*–500*l.*

First Officer, J. R. Neville, 240*l.*–360*l.*

Treasury.

Financial Secretary and Colonial Treasurer (see Secretariat).

Accountant-General and Deputy-Treasurer, A. W. L. Savage (also Commissioner of Inland Revenue, Commissioner of Stamp Duties and Government Storekeeper), 850*l.*

Assistant Commissioner of Inland Revenue, W. M. Caldwell, 500*l.*–720*l.*

Chief Clerk, R. B. Ackland, 500*l.*–600*l.*

Grade A Clerks, W. E. Donovan, B. D. Whitwell.

First Class Clerk, Mrs. A. Bannatyne, 500*l.*

Foreign Consuls.

China, Chia Tung Tsiang (*Vice-Consul*).

Consuls and Consular Agents.

Belgium, S. H. Ellis, M.B.E. (*Consul*).

Denmark, B. H. Marks (*Acting Consul*).

France, Major C. A. B. Joske, M.C., O.B.E. (*Consular-Agent*).

Germany, W. G. Johnson (*Consul*).

Italy, Sir H. M. Scott, K.C. (*Consular-Agent*).

Norway, Major C. A. B. Joske, M.C., O.B.E. (*Consul*).

Sweden, Sir J. M. Hedstrom (*Consul*).

Ecclesiastical.

Church of England, Right Reverend L. S. Kempthorne, Bishop in Polynesia; Venerable Archdeacon H. Mayo-Harris (Suva); Reverend C. S. Bull (Lautoka); Reverend E. R. Elder (Levuka); Reverend R. L. Crampton (Labasa).

Roman Catholic, Right Reverend C. J. Nicolas, S.M., Bishop of Panopolis, Vicar-Apostolic of Fiji.

Presbyterian, Reverend Alex Hardie.

Wesleyan Methodist, Reverend W. Green, Chairman.

THE GAMBIA.

Situation and Area.

The Gambia is a great river of Western Africa, falling into the Atlantic Ocean by a large estuary measuring in some parts nearly 27 miles across, but narrowing to 10 miles between Bird Island bank and Cape St. Mary, and to little more than two between Barra Point and the town of Bathurst on St. Mary's Island. There are 26 feet of water at the entrance of the river at low tide, and ocean-going steamers drawing not more than 13 feet can at present proceed without trouble to MacCarthy Island. There is no bar to the Gambia River.

The seat of Government is Bathurst, 13° 27′ N. lat., 16° 34′ W. long., situated on St. Mary's Island, a sandbank about three and a half miles long and a mile and a quarter broad, separated from the mainland by a narrow channel called Oyster Creek. A large portion of the island is a swamp, the level of which is in many parts below that of the river.

The Colony consists of the Island of St. Mary, British Kombo, Albreda, the Ceded Mile, the territories of Brefet and Bajana, and MacCarthy Island, situated between the Falls of Barraconda and Bathurst, and 158 miles distant from the latter. MacCarthy Island forms the line of demarcation between those portions of the river known as the Upper and Lower River. The total area of the Colony is about 69 square miles (equal to Jersey and Guernsey).

The Protectorate extends on both banks of the river for 250 miles from its mouth. By Ordinance No. 7 of 1902 all parts of the Colony, except the Island of St. Mary, were placed under the Protectorate system of administration. This was confirmed by the subsequent Ordinances No. 30 of 1913, and No. 2 of 1935. The Island of St. Mary has an area of about 2,500 acres, the greater part of which is swampy, and a population of 14,370 (1931 Census). The area of the Protectorate, including that of the parts of the Colony administered as Protectorate, is 3,999 sq. miles, and the population is 180,972 (1936). A survey of the boundaries dividing the Gambia from Senegal was completed by the Anglo-French Boundary Commission in 1905.

History.

The Gambia was discovered by the early Portuguese navigators, but they made no settlement.

In 1588 a patent was granted by Queen Elizabeth to some merchants in London and Exeter to trade with the Gambia. This Company did not prosper. Its voyages were not slave trading ventures but were made for legitimate commerce. In 1618 King James I. of England granted a charter to Sir Robert Rich and other London merchants. Their enterprise was entitled "The Company of Adventurers of London trading in Africa," and Fort James was built by them on a small island 17 miles above the island of Banjola (now St. Mary's).

About the year 1631 another British chartered company was formed, King Charles I. having granted a charter to Sir B. Young, Sir R. Digby and others. This venture was responsible for supplying British settlements in the West Indies with slaves for working on the estates.

In 1662 King Charles II. granted a charter to a third company, known as the "Royal Adventurers of England trading in Africa." A few years later this company exhausted its capital and surrendered its charter. In 1672 a fourth company was incorporated under the name of the "Royal African Company," and it was not until 1752, after having in its early days reached the highest point of commercial prosperity which had been touched by England in Africa, that it was superseded by the "Company of Merchants." The right of trade was abandoned to England by France under the treaty of Versailles, 1783, which guaranteed to the English their possession of Fort James and of the River Gambia, with the exception of a French factory established at Albreda on the north bank of the river. The same treaty gave the Senegal river to the French, with the exception of an exclusive right to trade with the Arabs at Portendic for gum, which was retained by England. The year 1807 saw the abolition of the slave trade, and though the "Company of Merchants" lingered on with an annual subsidy, the general commerce between Great Britain and Gambia fell off till 1816, in which year a new settlement was formed on the island of Banjola by the English merchants, who resided at Gorée and in Senegal until those places were given up to the French by the Treaty of Paris (1814). The island was re-named "St. Mary's," and the town which was laid out took its name from Lord Bathurst, Secretary of State at that time. The streets to be inhabited first were named after Lord Wellington and his generals at Waterloo.

The settlement was subject to the Government of Sierra Leone, and was annexed to it by Act of Parliament in 1821. From 1816 to 1822 a Military Commandant, aided by a Board of Merchants, called the "Settlement court," administered the government. From 1822 to 1829 the Commandant governed alone.

In December, 1829, the Secretary of State appointed Lieut.-Colonel Alex. Findlay, R.A.C. Corps, as Lieutenant-Governor (the first) "of the settlement of Bathurst and its dependencies in the Gambia." The laws of Sierra Leone remained in force, but the Lieutenant-Governor was not accountable to the officer administering the government there.

The Gambia, in the year 1843, was created an independent Colony, with a Governor and Executive and Legislative Councils for the administration of its affairs. Captain H. P. Seagram, R.N., was the first Governor of the Colony.

By the charter of 19th February, 1866, it became a portion of the Government of the West African Settlements, and continued to be so under the charter of the 19th December, 1874, until it was made a separate Government in 1888.

MacCarthy Island was purchased in 1823, and named after Maj.-General Sir Charles MacCarthy, K.C.B., Governor-in-Chief of the British West African possessions; the ceded mile was granted by the King of Barra in 1826; and British Kombo was granted by the King of Kombo in various cessions in 1840, 1850, and 1855.

In 1897 the countries of Foni and Jarra, on the south bank of the river, came under British protection.

Foreign Kombo was annexed by the British Government and is now divided into North, South and Central Kombo.

The Protectorate system of administration has been established since 1894, and extended from time to time by agreement with the different chiefs concerned, until Ordinance No. 7 of 1902 was passed, providing fully for the Government of the whole Protectorate, which is divided into four Provinces and again into Districts. There is a Commissioner in charge of each Province, and each District is under a Head Chief, with a native tribunal specially appointed by the Governor.

The Provinces are as follows:—North Bank Province, with the districts of Lower Niumi, Upper Niumi, Jokadu, Lower Baddibu, Central Baddibu and Upper Baddibu. MacCarthy Island Province, with the districts of Sami, Niani, Nianija, Upper Saloum, Lower Saloum, MacCarthy Island, Fuladu West, Eastern Niamina, Western Niamina and Niamina Dankunku. Upper River Province, with the districts of Fuladu East, Kantora, Wuli and Sandu. South Bank Province, with the districts of Central Jara, Eastern Jara, Western Jara, Eastern Kiang and Central Kiang, Kombo St. Mary, Kombo North, Kombo South, Kombo Central, Kombo East, Foni Brofet, Foni Bintang-Karenai, Foni Kansala, Foni Bondali, Foni Jarrol and Kiang West.

Inhabitants of the Gambia.

The inhabitants are mostly of the negro race, the chief tribes being the Jollofs, Mandingos, Sarahulis, Fulas and Jolas. The country of the Jollofs is on the North Bank or Senegal side of the river, and they form a large portion of the community in the town of Bathurst.

The Mandingos are the most numerous people on this portion of the African coast, and derive their name from Manding, a town some 700 miles inland and towards the boundary of the Colony of Sierra Leone. They are mostly Mohammedans.

The Jolas come from Foni, between the southern limit of Kombo and the north bank of the Cassamance River. Their country runs in a north easterly direction towards the south bank of the Gambia River as far as the mouth of the Bintang Creek. They are mostly pagans.

The Sarahulis are the most recent arrivals in the Gambia having migrated from the interior of Senegal. They are found chiefly in the eastern portion of the Upper River where they have established fairly large villages. They are all Mohammedans.

The Fulas (not the pure race, the nomads of West Africa) are good farmers and herdsmen. Their features are somewhat of the Asiatic type and their skins of a lighter colour than negroes. The capital of the Fula country is Timbo in Futa Jalon, and is situated in north latitude 10° 38′ and west longitude 11° 10′.

Industry, Trade and Customs.

There are no mines in the Colony, but in several places in the Protectorate iron ore is to be found in large quantities, although not worth exportation.

A small quantity of cotton is grown, but only for local consumption, and it is made into narrow strips of rough coloured cloth, common to all West Africa. The strips average 27 yards in length and 9 inches in width.

Pottery is made in the Upper River Province. A considerable amount of excellent leather is produced from goat skins. It is not exported but utilised by the people in making bags, slippers, sandals, scabbards, saddles and horse trappings, and the skilful manner in which coloured grasses, silk, cotton, etc., are laced through the decorative portion of the leather work is common to most of Mohammedan West Africa. Most towns and villages have a "Koranki" man, or leather worker.

There is an abundance of fish in the lower reaches of the Gambia River, and large quantities are dried and taken each season into the Protectorate for sale. Quantities of oysters are obtained in the creeks, and are cooked by the people for food, the shells being made into native lime.

The ground nut is the staple article of cultivation, and forms the chief export crop of the Gambia. Large quantities of foodstuffs, such as rice, maize, guinea corn, cassava, etc., are raised for local consumption.

A considerable trade is done with the French settlements and the adjoining coast districts in cotton goods, tobacco, rice, and hardware.

The principal imports are cotton goods, rice, kola nuts, metals, sugar, tobacco, and oils.

The principal exports in 1937 were:—

	Quantity.	Value.
Ground nuts.. ..	67,084 tons	£653,589
Palm kernels ..	861 tons	7,558
Beeswax	35,424 lbs.	1,140
Hides and Skins ..	109,108 lbs.	1,855

The following table shows the percentages of imports and exports by countries:—

Percentage of Imports and Exports, 1937 (exclusive of specie).

	Imports.	Exports
United Kingdom	45·76	30·86
Other parts of British Empire ..	28·57	0·42
Foreign Countries..	25·67	68·72
	100·00	100·00

A new Customs Tariff Ordinance was passed in 1932, giving preferential treatment to British manufacturers and products. The *ad valorem* rates of duties are in the majority of cases 9% on British goods and 11% on Foreign goods. For carriages and parts thereof (inclusive of motor cars and tyres) the duties are 4½% *ad valorem* British and 22½% *ad valorem* foreign. Aircraft and accessories are admitted free of duty if British, if foreign they are subject to an *ad valorem* duty of 2%. In the case of goods subject to specific duties, a similar preference is given to British goods.

The largest proportion of the Customs revenue is derived from duties assessed on a specific basis.

A special customs tariff has been introduced in the case of certain goods imported from Japan, and an Ordinance has been passed empowering the Government to limit the importations of certain textiles. This quota is at present applicable to piece goods and handkerchiefs of Japanese origin only.

Digitized by Google

Export duties on groundnuts are as follows:—Undecorticated, 10*s.* per ton; Decorticated, 12*s.* 6*d.* per ton.

Bathurst is a port of registry, and had, on its Register on 31st December, 1937, 137 vessels of 3,033 tons gross aggregate tonnage.

Relations with the Interior.

Since the delimitation of the boundary of the Protectorate by the Anglo-French Commissioner in 1891, steps have been taken to bring the inhabitants of the Protectorate gradually into closer relationship with the Government of the Colony. An Order in Council, issued on the 23rd of November, 1893, provided for the establishment of Her Majesty's jurisdiction within the Protectorate, and since then Ordinances have been passed providing for the establishment of magistrates and also native courts.

Commissioners regularly travel through the Protectorate on both banks of the river for 250 miles. A "yard" or "hut" tax, which averages about 5*s.* per annum for a family, is imposed in the Protectorate.

Currency and Banking.

The currency is British West African silver alloy and nickel-bronze coins and British West African currency notes for 20*s.* and 10*s.* Coins that are legal tender in the United Kingdom under the Coinage Acts of 1870 and 1891 are also legal tender in the Gambia. There is one Bank in Bathurst: the Bank of British West Africa.

A Government savings bank was established in 1886, and had on 31st December, 1937, 5,429*l.* deposited by 1,281 persons.

Land.

Land in the Protectorate can be obtained from the Chief of a district for purposes of farming with the sanction of the Governor. Small lots suitable for trading stations may be rented for 3*l.* per annum and upwards. Freehold interests in Crown lands in the Colony are not disposed of except in special circumstances. No leases are issued in the first instance of lands either in the Colony or Protectorate for a longer period than twenty-one years.

Education.

There is an Education Department under the Director of Education. The Christian schools, which are wholly in the hands of the several denominations, receive grants-in-aid. Of ordinary primary schools in Bathurst, there are one Anglican, two Methodist and two Roman Catholic, with 1,938 scholars in all. Education is not compulsory, and fees are charged. There are two Methodist High schools and two Roman Catholic Secondary Schools, two for boys and two for girls, all under European control. There is also an Anglican secondary class. The total number of pupils in secondary schools is 105. There is also a Mohammedan school with 169 pupils, at which the ordinary rudiments of an English and Arabic education are taught, the payment of the teachers being borne by the Government. At MacCarthy Island there is a primary Methodist school with 44 pupils, and a Government Mohammedan school, started in January, 1927, with 46 pupils on the roll.

A total Government grant-in-aid of 2,976*l.* was made to assisted schools, including 360*l.* to the secondary schools, during 1937.

Means of Communication.

Communication between the Colony and Europe is effected by the steamers of Elder Dempster Lines, Ltd., which normally run monthly between Liverpool and Bathurst. Steamers of various French and Italian lines sail regularly between France and Dakar, and by doing an overland journey of about 120 miles from Bathurst to Dakar passengers may get to Europe in eight days.

An air mail service connecting the Gambia with Sierra Leone was started by Elders Colonial Airways in 1938.

Internal communication is conducted chiefly by water-borne craft, the Gambia River forming an unrivalled highway for 300 miles. The Government maintains a service of river steamers which run weekly during the trading season and fortnightly or monthly at other times of the year.

Telegraph cables place Bathurst in communication with West Africa and cable stations throughout the world.

Bathurst Wireless Station, which has a range of approximately 1,000 miles, communicates with ships at sea and the important town of Dakar in the French Senegal. Wireless stations are also established at Kuntaur, Georgetown and Basse, and a regular service is maintained between these inland towns and Bathurst.

A central battery telephone system is employed in the town of Bathurst, and in direct connection with Cape St. Mary.

There are no railways. A laterite metalled road connects Bathurst with Cape St. Mary in British Kombo, 11 miles, crossing Oyster Creek at Denton Bridge. At Mile 6 a similar road leads by Kanifin to Brikama, 16½ miles. Another road goes from Kanifin to Sukuta, 3½ miles.

Motor cars are used in Bathurst and its vicinity.

The rules of the Postal Union have been adopted by the Colony and the Protectorate.

The following are the rates of postage:—

Letters.

Internal—1½*d.* per oz.

Empire and U.S.A.—1½*d.* for each oz. or fraction thereof.

Other Countries—3*d.* for the first oz., and 1½*d.* for each succeeding oz. or fraction thereof.

Parcels Post.

If posted locally for delivery within the Colony, 6*d.* for first 2 lbs., 4*d.* for each additional lb.

Parcels from abroad redirected to an Inland Office, 6*d.* for first 2 lbs., 4*d.* for each additional lb.

If addressed to the United Kingdom or British West African Colonies:—

Not over 3 lbs. to U.K. 2*s.* 3*d.*; W.A.C. 2/-.

Over 3 lbs., but not over 7 lbs. to U.K. 3*s.* 6*d.*; W.A. Colonies 3/-.

Over 7 lbs., but not over 11 lbs., to U.K. 4*s.* 9*d.*; W.A. Colonies 4/-.

Over 11 lbs., but not over 22 lbs., to U.K. 6*s.* 9*d.*; W.A. Colonies 7*s.*

There is no direct parcel post scheme at present with foreign countries. All parcels are forwarded through the medium of the General Post Office, London, a small additional charge being made for onward transmission.

Digitized by Google

A weekly air-mail service operates between Bathurst and Europe *via* Las Palmas and Stuttgart and *vice versa* and between Freetown, Bolama and Bathurst. The rates of postage are :—

Letters, etc.

Europe and U.S.A. ..	1/1	for each half oz. or fraction thereof.
Sierra Leone	-/3½	
Bolama	-/4½	
Other Countries ..	1/2½	

Papers, etc.

To all countries .. .. .. 8*d.* per oz.

Another air service operates via Toulouse and Dakar and thence by sea to Bathurst and *vice versa* as opportunity occurs.

Climate.

The climate of the Gambia during the dry season from the end of November to the middle of May is pleasant and generally healthy. During the wet season—June to October—the conditions are much the same as elsewhere on the West Coast of Africa: the change from excessive dryness to a damp atmosphere is found to be trying. In the interior the temperature is high from March to June. The lowest reading of the thermometer in the shade during 1936 in Bathurst was 56° F. in January, the highest recorded temperature being 102° F. in March.

The rainfall during the year 1936 in Bathurst was 66·90 inches. The rainfall varies considerably; the average is 47 inches.

Germany, Captain E. Klaube, *Hon. Vice-Consul.*

GIBRALTAR.

Situation and Area.

Gibraltar is a narrow peninsula running southwards from the south-west coast of Spain, in N. lat. 36° 6′ 30″, and W. long. 5° 21′ 12″. It consists of a long high mountain called "The Rock," and a very flat sandy plain to the north of it, raised only a few feet above the level of the sea, and called the North Front. Its greatest elevation is 1,396 feet, its length 2¾ miles, and its greatest breadth ¾ of a mile. Its area is 1¼ square miles.

Digitized by Google

History.

The rock of Gibraltar, the Mons Calpe of the ancients, remained under the dominion of the Moors until the 15th century, when it was incorporated with the Spanish kingdom of Granada. It was captured by the British forces under Sir George Rooke, 24th July, 1704, and was ceded by the Treaty of Utrecht in 1713. The Treaty of Utrecht was renewed by Article 2 of Treaty of Versailles, 1783. It was successfully defended by Gen. Eliot (afterwards Lord Heathfield) in the great siege of 1779-83.

General Description.

The promontory forms one side of a bay, called the Bay of Gibraltar, which is about 4 or 5 miles across, and affords good anchorage for the shipping passing through the Straits. The eastern and northern faces of the Rock are an inaccessible precipice rising abruptly from the sea and the sandy plain known as the North Front, which lies between Gibraltar and the Spanish town of La Linea; from the northern end the Rock runs along southward like a knife edge to the ancient site of O'Hara's Tower, from which it slopes gradually till it terminates in a perpendicular cliff about 100 feet high at the water's edge at Europa; these cliffs are continued along the western face to the New Mole, beyond which the fortress is protected by artificial ramparts. Behind these latter lies the larger portion of the town, covering an area of only ¾ by ¼ mile. It is one of the most thickly inhabited places in the world, but it is not unhealthy. Between this part of the town and the southern portion is a picturesque public garden, called the Alameda. The civil population in the southern part of the town is confined to the east and south-east of the South Mole, the remainder of the southern portion of the Rock being entirely taken up with barracks, hospitals, &c., for the Military and the Navy.

Gibraltar is a very popular tourist centre for those wishing to tour Southern Spain, and Morocco. It is extensively used as a port of call and coaling station by shipping, and it is also an *entrepôt* of the trade between England and the Arabian states of Northern Africa, for which it has many advantages, having been ever since its occupation by the British a free port, or practically so.

The naval harbour is on the West side of the Rock. It is formed by three separate Moles known as the "North," "Detached" and "South" Moles. The North Mole runs westward from Devil's Tongue for about 2,900 feet, and then southward, giving a total length of over a mile. The South Mole projects into the sea for a distance of 3,660 feet in a north-westerly direction. The Detached Mole, 2,717 feet long, is so situated between these two Moles as to form a breakwater and leave two means of entrance and exit. The harbour contains a water area of 440 acres. There are three large graving docks for naval purposes, and a small dock which is available for merchant vessels of light draught.

The old wharf at Waterport has been extended and improved by the addition of a new mole, which has been provided with sheds for transit cargo, electrical cranes and other equipment to facilitate the handling of cargo.

About 300 persons are employed in tobacco manufactories, and about 100 in the coal depôts, coaling now being carried out by machinery. It is a port of registry, having, on 31st December, 1937, 53 vessels, of together 23,183 tons (gross). No statistics of imports or exports are taken.

The revenue is derived from port dues, the rent of the Crown estate in the town, licence duties and fees and import duties.

The present Customs Tariff includes import duties on wines, liquors, spirits, including perfumed spirits, and tobacco with Empire preferential rates, and on motor spirit.

The Government is administered under Letters Patent of the 12th September, 1922, by a Governor, aided by an Executive Council composed of 4 official and 3 unofficial members. The power of legislation is vested in the Governor, who is also the General commanding the garrison. The management of the drainage, water supply, &c., is in the hands of the City Council. Their receipts for 1937 were 136,767*l.* 8*s.* 11*d.*, their expenditure 131,902*l.* 2*s.* 8*d.*, and their debt, on the 31st of December, 1937, 92,520*l.*

There are branches of Barclays Bank (Dominion, Colonial and Overseas), the Credit Foncier d'Algerie et de Tunisie, and several private bankers.

A Government savings bank was founded in 1882, and had on 31st Dec., 1937, 294,128*l.* deposited by 4,922 depositors. Since the 1st Oct., 1898, the legal tender currency has been that of the United Kingdom, and the public accounts are now kept in it, but Spanish money is still freely current. The change from Spanish currency, which had previously been the legal tender, was effected under the provisions of the Orders in Council of the 9th of August, 1898. Under the Currency Note Ordinance, 1927, the currency includes notes issued by the Government of Gibraltar. These notes are of the value of 5*l.*, 1*l.* and 10*s.*

Since the outbreak of the Spanish Civil War, the arrival of mail has been confined to those days on which mail-carrying steamers reach Gibraltar homeward or outward bound. Mails also arrive at irregular intervals via Tangier.

Rates of postage: Letters, 2*d.* per oz.; newspapers, ½*d.* The internal postage rate is ½*d.* per oz. There is direct telegraphic communication with Spain, and by cables to England, Tangier, Malta, Lisbon, and Cadiz.

Education is compulsory since 1917. There are thirteen elementary schools, subsidised by Government, and several private schools, the number of scholars in average attendance being 2,501 for the school year ending 31st December, 1937. The Government-aided schools are for the most part managed by boards of the different denominations.

THE GOLD COAST.

THE GOLD COAST COLONY.

Situation and Native Tribes.

The Gold Coast Colony, with Ashanti, the Northern Territories, and Togoland under British Mandate, is situated on the Gulf of Guinea, between 3° 15′ W. long. and 1° 12′ E. long., and is bounded on the west by the French colony of the Ivory Coast, on the east by Togoland under French Mandate, on the north by the French Soudan, and on the south by the Atlantic Ocean.

The area of the Colony is 23,937 square miles, of Ashanti, 24,379, of the Northern Territories, 30,486, and of Togoland under British Mandate, 13,041.

The Colony is inhabited by a large number of tribes, whose customs and forms of government are of a more or less similar character. Each tribe has its own head chief and every town or village of the tribe a chief or headman.

The head chiefs and chiefs form the council of the tribe, and assist in dealing with matters affecting its general welfare. The succession to the chiefs' stools is for the most part in the female line, the heir to the stool being selected from among the sons of the occupant's sisters, his brothers and the male off-spring of his aunts on he mother's side.

The principal sea coast states are the following:—Nzima, Ahanta, Sekondi, Komenda, Elina, Oguaa, Winneba, Assin Gomoa, Ga, Langme, Awuna and Agbosome.

In the interior of the Colony the principal states are:—Aowin, upper and lower Wasaw, Sefwi, upper and lower Denkera, Tufel, Assen, Esikuma, Ajumako, Birim Akim Abuakwa and Birim Kwahu, Akim Kotoku, Akwapim, eastern and western Krobo, Akwamu, Krepi, Shai and Ningo.

A number of different languages and dialects are spoken, the principal being, Twi, Fanti, Ewe and Ga; but the use of English is widespread.

For the purposes of administration the Colony is divided into three provinces, each presided over by a Provincial Commissioner. These Provinces are further divided into districts, presided over by District Commissioners. Most of these Officers perform judicial duties as magistrates in addition to being in administrative charge of their districts. The districts are as follows:—

1. Western province:—Districts—Axim, Ankobra, Tarkwa, Sekondi-Dixcove, Sefwi and Aowin.
2. Central province:—Districts—Cape Coast, Saltpond, Winneba, Western Akim.
3. Eastern province:—Districts — Accra, New Juaben, Akwapim, Volta River, Keta-Ada, Birim Akim-Abuakwa and Birim Kwabu, Ho (Togoland).

History.

Little is known of the history of the people of the Gold Coast prior to the first recorded contact with Europeans, which took place towards the end of the 15th century, but tradition, borne out by the present language distribution and by the absence of traces of large earlier settlements, is that the present population resulted from a series of waves of immigration in comparatively recent historical times.

Of these immigrants the most numerous were the Akans who, displaced by more warlike and better organised tribes, came from the north-west in search of sanctuary to the forests of the Gold Coast, some sections of them eventually reaching the sea. Their numbers being augmented by a succession of later waves, the Akans assimilated the aborigines and gradually occupied the greater part of the country. Behind the Akans came the Moshi who, partly by conquest and partly by peaceful penetration, obtained supremacy over the inhabitants of the northern portion of the Gold Coast and established the Mamprussi and Dagomba kingdoms under the rule of sons or other relatives of their leaders. At a later date the south-east corner of the Colony was peopled by an infiltration of Ga, Adangbe and Ewe tribes from the east and north-east.

The first Europeans to reach the Gold Coast were the Portuguese who, arriving in 1471, built the Castle at Elmina eleven years later in order to protect their trading interests. They found a people of hunters and fishermen, primitive in habits and development, yet understanding the working of iron and fully conscious of the value of gold. No native state of any size had yet been established, but numerous petty chiefdoms were in existence.

Until the close of the 16th century the Portuguese maintained their trading monopoly. Feeble efforts on the part of other European Powers, including the English, were made to obtain a footing on the Coast, but the Portuguese were never seriously challenged until the advent of the Dutch in 1595.

At first the Portuguese were interested in obtaining gold, ivory and spices, but with the opening up of the New World there came a demand for cheap labour for the plantations. So commenced the transatlantic slave trade which, until its decline and abolition in the 19th century, shaped the history of the Gold Coast.

The main results of the slave trade were two-fold. First, in order to feed the slaves awaiting shipment

Digitized by Google

and their captors, the Portuguese were obliged to introduce food plants and to teach an improved method of agriculture to a people hitherto largely dependent for food on the natural resources of the forest and sea. Secondly, the lucrative nature of the trade attracted the attention of other European nations besides the Portuguese to the possibilities of the Gold Coast.

The Dutch, appearing on the Coast in 1595, rapidly undermined the domination of the Portuguese. In 1637 they captured Elmina and in 1642 the Portuguese abandoned all their possessions in the Gold Coast to the newcomers. Other European Powers, including the English, followed and, fighting amongst themselves, scrambled for a footing on the Coast. By 1750, however, the year in which the African Company of Merchants was formed and subsidised by the British Government to the extent of 13,000*l.* per annum, all had withdrawn except the Dutch with their headquarters at Elmina, the Danes with their headquarters at Christiansborg and the English with their headquarters at Cape Coast Castle.

In 1821 the British Government first assumed the control of the British settlements in the Gold Coast, and the African Company of Merchants was dissolved, its possessions being vested in the Crown and placed under the Government of Sierra Leone. Seven years later, however, the British Government, after considering complete withdrawal from the Coast, entrusted the government of the settlements in the Gold Coast to a Committee of London Merchants. In 1843, however, the 1821 arrangement was restored in consequence of suspected slave trading, which had been abolished by Great Britain in 1833. The year 1850 saw the separation of the British forts and settlements of the Gold Coast from Sierra Leone, the cession of the Danish possessions to Britain and the creation by Letters Patent of Executive and Legislative Councils, but in 1866 government from Sierra Leone was resumed.

In 1872 the Dutch withdrew from the Gold Coast, handing over their possessions to the British. Two years later, after Sir Garnet Wolseley's successful Ashanti campaign, came the final separation from Sierra Leone, measures being taken on the conclusion of peace for placing the government of the Gold Coast on a footing of efficiency and security. A new Charter was issued dated the 24th of July, 1874, separating Her Majesty's Settlements on the Gold Coast and Lagos from the Government of Sierra Leone and constituting them into one Colony under the style of the Gold Coast Colony under a Governor-in-Chief with an Administrator at Lagos.

In 1886 all the settlements and territories belonging to Her Majesty on the Gold Coast were, by Letters Patent dated the 13th January, formed into a distinct Colony, Lagos being separated therefrom. This territory, however, did not include all the areas under British protection and had no specified boundaries. To regularise the position, therefore, these protected areas were annexed to His Majesty's Dominions and declared to be part and parcel of His Majesty's Gold Coast Colony by Order-in-Council of the 26th September, 1901. The boundaries of the Colony thus constituted were defined by Order-in-Council dated the 22nd October, 1906, and have since remained unchanged.

Constitution.

The constitutional instruments providing for the Government of the Colony are the Letters Patent and Royal Instructions dated the 23rd of May, 1925, the former of which create the office of Governor and Commander-in-Chief, and constitute an Executive Council consisting of such persons as shall be directed by Instructions under the Royal Sign Manual and Signet and a Legislative Council constituted in such manner and consisting of the Governor and such persons as are directed by the Order in Council of the 8th of April, 1925, and known as the Gold Coast Colony (Legislative Council) Order in Council, 1925. Royal Instructions were also passed on the 23rd May, 1925, with later amendments, directing that the Executive Council should consist of the Colonial Secretary, the Attorney-General, the Financial Secretary, the Director of Medical Services, and the Secretary of Native Affairs (these to be styled ex-officio Members) and such other persons as were at the date of the coming into operation of the aforesaid Letters Patent Members of the Council or as may be appointed under the Royal Sign Manual and Signet or as the Governor may appoint in pursuance of Instructions through a Secretary of State. The Legislative Council contains an elective element and consists of the Governor as President together with fifteen Official Members and fourteen Unofficial Members. The Official Members are the five senior Members of the Executive Council, the Comptroller of Customs, the Director of Public Works, the General Manager of the Railway, the Commissioners of the Eastern, Central and Western Provinces, as ex-officio Members, and such other officials not exceeding two at any one time as the Governor may appoint. The Unofficial Members are six Provincial Members, namely three for the Eastern Province, two for the Central Province, and one for the Western Province; three Municipal Members, namely, one each for the towns of Accra, Cape Coast and Sekondi respectively; one European Mercantile Member, one European Mining Member and three Europeans nominated by the Governor. The Provincial Members are Head Chiefs elected by the Provincial Councils of the said Provinces; the Municipal Members are elected by the electorate of the said towns; the Mercantile Member is elected by the Chambers of Commerce; and the Mining Member is elected by the Chamber of Mines.

Municipal Government.

The Town Councils Ordinance has been extended to the towns of Accra, Sekondi and Cape Coast. The town of Kumasi in Ashanti is under the control of a statutory corporation styled the Kumasi Public Health Board.

Law and Justice.

The Law of the Colony is the Common Law, the doctrines of equity, and the statutes of general application in force in England, on the 24th July, 1874, modified by a large number of local Ordinances passed since that date. The criminal law was codified in 1892, and the civil and criminal procedure are regulated by the Courts Ordinance and the Criminal Procedure Code, both enacted in 1935.

Justice is administered by the Supreme Court which is presided over by the Chief Justice and seven Puisne Judges. Divisional Courts of the Supreme Court are held in different parts of the colony. There are also a large number of inferior Courts with limited criminal and civil jurisdiction, some of which are presided over by District Magistrates and District and Provincial Commissioners. The Supreme Court has an original civil and criminal jurisdiction, and also decides appeals from the inferior courts. Appeals from the Divisional Courts and from the Courts of the Provincial Commissioners in land cases lie to the West African Court of Appeal.

Native customary law is administered in all the Courts, in so far as it is not incompatible either directly or by necessary implication with any Ordinance for the time being in force, and not repugnant to natural justice, equity and good conscience.

Digitized by Google

Native Tribunals, presided over by Paramount or Divisional Chiefs, are established throughout the Colony, with criminal and civil jurisdiction in cases where the parties are subject thereto. Such jurisdiction has been much increased by recent legislation, and certain judicial powers have also been conferred upon State Councils and Provincial Councils.

There is an appeal from the Tribunal of a Divisional Chief to that of a Paramount Chief, and from a Paramount Chief's Tribunal to the District Commissioner's Court; but, where a title to land is in dispute, the appeal lies from the Paramount Chief's Tribunal to the Provincial Commissioner's Court.

Prisons.

There are four central and 20 local prisons.

The central prisons are at Accra, Sekondi, Kumasi and Tamale.

The following industries are carried on successfully: Carpentry, cabinet-making, tailoring, mat and basket making, boot and shoe making, weaving, farming, string and rope making, brick-making, brush and broom making.

The Mark System, whereby the remission of one quarter of a sentence can be earned by hard work and good conduct, is applied to all persons sentenced to two years or more.

A modified mark system was introduced during 1935, whereby prisoners with sentences of over 6 months and under two years can earn a remission of one-sixth of their sentence.

A Boys' Industrial Home under the control of the Salvation Army has been established at Kintampo.

Climate.

The climate although hot and damp, is cooler than that of most tropical countries situated in similar latitudes. The most adverse feature relative to the residence of Europeans is the very high relative humidity which only falls below 80% in the dry districts of the north and east and during the Harmattan. The average mean temperature is from 77°—84°, being greatest in the north and east and lowest in the forest area. Extremes of shade temperature have been 107° in Tamale and 45° at Kumasi.

The rainfall varies with the configuration of the country, being greatest in the south-western corner around Axim and least in the far north and coastal belt. There is the double wet season common to Tropical Africa corresponding to the double passage of the sun, the major rains in the south being in May and June and the lesser rains in September and October. In the Northern Territories intensity of the rains is reversed and in the extreme north the passages of the sun are so near to one another in date that there is only one wet season.

The most pronounced season is the Harmattan characterised by a dry north-east wind which blows from the Sahara carrying clouds of red dust during the period of cessation of the south-west monsoon. This occurs at the period when the sun is passing southwards to the spring solstice during January and February, and the feature is the terrific desiccation of the atmosphere. A drop of 63 per cent. of relative humidity has been experienced in 24 hours with a result that papers and books curl up and the skin appears parched and dry. The daily range of temperature is more than doubled and the period is very trying to Europeans. For the year 1937, the rainfall and the average figures for maximum shade temperature, mean daily temperature and mean R.H. at 9.0 a.m. are given in the table below:—

1937.

Station	Rainfall inches.	Shade Max. °F.	Mean Temp. °F.	Mean R.H. at 9 a.m.
Accra ..	19·82	84·3	79·1	79·5
Takoradi ..	29·05	90·5	82·0	76·1
Kumasi ..	58·59	89·0	79·3	84·8
Tamale ..	44·80	94·9	83·4	60·8

Mail and Steamship Services.

Elder Dempster Lines Limited are under contract with the Postmaster-General for conveyance of His Majesty's mails between Liverpool and the West and South-West coasts of Africa.

Regular sailings are maintained between Liverpool and West African ports for mails, passengers and cargo. There are also regular sailings from London.

A mail vessel of this Company leaves Liverpool for Calabar and Port Harcourt alternately once a fortnight. The Port Harcourt service calls at Madeira, Las Palmas, Bathurst, Freetown, Takoradi, Accra, Lagos and Port Harcourt. The Calabar service calls at Madeira, Freetown, Monrovia, Takoradi, Accra, Lagos, Suellaba, Calabar and Victoria; the usual length of voyage being thirteen days to Gold Coast ports. The mail vessels are connected at Lagos with a Branch Service calling at Warri.

Cargo vessels are despatched from Liverpool once every two weeks, calling at the principal Gold Coast ports; length of voyage about 21 days.

At present, cargo vessels are despatched from New York every three weeks and call at the principal Gold Coast ports both outwards and homewards, the average length of voyage being 28 days.

Cargo vessels are despatched from Hamburg every three weeks, calling at Rotterdam, Antwerp and London for the principal Gold Coast ports. Average length of voyage from Hamburg to the first port of call on the Gold Coast is 21 days.

Cargo vessels are despatched about the 25th of each month from Montreal for Freetown, Cape Town, Port Elizabeth, East London, Durban, Laurenco Marques and Beira, and they are scheduled to arrive at Cape Town on the 22nd of the succeeding month. This service occasionally calls at Takoradi on the homeward voyage.

Elder Dempster Lines Limited are directly represented in the main Gold Coast ports.

Mail steamers of Chargeurs Reunis Line, sailing from Bordeaux, call once a month at Accra on the homeward voyage if inducement offers. Cargo steamers call at regular intervals outwards and homewards. Local Agents:—The United Africa Company Limited, Lighterage Department, and Resident Agent.

Passenger and cargo steamers of associated companies Compagnie Generale de Navigation a Vapeur (Cie. Fraissinet), sailing from Marseilles call regularly outwards and homewards at Gold Coast ports. Local Agents:—The United Africa Company Limited, Lighterage Department, and Resident Agent.

Cargo steamers of the American West African Line are despatched twice monthly from New York, and from the Gulf of Mexico at 2 months intervals, and call at the principal Gold Coast ports. These sailings are augmented during the Colony's cocoa season. The voyage from New York is 28 days. Calls are also made at all ports to Loanda as inducement offers, including the Belgian Congo. Local Agents:—The United Africa Company Limited. Lighterage Department.

Digitized by Google

Cargo steamers of The United Africa Company Limited, with limited accommodation for passengers, are despatched from Liverpool and the Continent. There are about two sailings per month, and steamers call outwards at all Gold Coast ports, and call homewards as inducement offers. Local Agents:—The United Africa Company Limited, Lighterage Department.

Cargo steamers of the Societe Navale de l'Ouest sail monthly from Hamburg, Antwerp, Havre and Bordeaux and call at the principal Gold Coast ports as inducement offers. They call homewards at Gold Coast ports as inducement offers. Local Agents:—The United Africa Company Limited, Lighterage Department.

Cargo steamers of the Lloyd Triestino, formerly Navigazione Libera Triestina Line, sailing from Trieste, Venice, Naples, Genoa, and Marseilles call at the principal Gold Coast ports on the outward voyage once every month. These steamers now go as far as Durban in South Africa and call at Accra and/or Takoradi homeward. Local Agents:—The United Africa Company Limited, Lighterage Department.

The Holland West-Afrika Lijn N.V., Amsterdam, maintain mail, passenger and freight services from Hamburg, Amsterdam and Bordeaux to the West African ports by three sailings monthly.

The mail and passenger steamers are despatched monthly from Hamburg *via* Amsterdam, Bordeaux (through tickets from United Kingdom), reaching Takoradi in 13 days from Bordeaux. After calling at Accra they proceed down the coast as far as Togoland, Dahomey, Nigeria, Fernando Po and the Cameroons.

They call homewards at Accra and Takoradi and reach Europe *via* Monrovia, Freetown, Dakar and the Canary Islands within 14 days. All these steamers call at Le Havre homewards, and passengers for the United Kingdom are transhipped to Southampton without additional charge.

Cargo steamers of this line are despatched twice every month from Hamburg, Amsterdam and Bordeaux. These boats have limited passenger accommodation. The length of voyage to Le Havre is 16, to Holland 17 and to Germany 19 days.

Local Agents:—Holland West-Afrika Lijn N.V., P.O. Box 269, Accra, and Holland West-Afrika Lijn N.V., P.O. Box 18, Takoradi.

Mail and passenger steamers of the German African Lines (Woermann Linie A.G. and Deutsche Ost-Afrika Linie) managed by the Woermann Linie A.G., of Hamburg, sail from Hamburg to West African ports *via* Rotterdam, Antwerp, Boulogne and Southampton, at about monthly intervals, calling at Freetown, Monrovia, Port Bouet, Takoradi, Accra, Lagos, Port Harcourt, Calabar, Victoria, Tiko, Duala and Fernando Po. Voyage Southampton-Gold Coast, 14 days.

Two to three mail and passenger steamers to South and East Africa are despatched every month from Hamburg, running either *via* the Canary Islands and Cape Town or *via* the Mediterranean and Suez, but these steamers do not call at Gold Coast ports.

About four or five cargo steamers of the above lines are despatched from Hamburg *via* Rotterdam and Antwerp at regular intervals to African ports. These ships have limited accommodation for passengers. Represented on the Gold Coast by Woermann Linie, Resident Agency for the Gold Coast Colony, Accra.

Cargo steamers of John Holt and Company (Liverpool) Limited, with limited accommodation for passengers, are despatched from Liverpool. They sail every other Friday and call at Takoradi on each voyage. On every other voyage they call at Accra and Keta. On homeward journeys all steamers call at Takoradi and at other ports as inducement offers.

Local Agents:—John Holt and Company (Liverpool) Limited, Accra.

Aviation.

An air service is maintained between Lagos and Accra by Elders Colonial Airways in connection with the Imperial Airways service between Lagos and Khartoum; and the French air service from Dakar calls at Accra.

An aerodrome has been constructed at Accra and another is being constructed at Takoradi.

Harbours.

The Gold Coast was for many years at a great disadvantage in that it possessed no deep-water harbour. Jetties protected by breakwaters were built at Sekondi and Accra, for the use of surf boats and lighters.

Sekondi has been replaced by a deep-water harbour a few miles to the westward at Takoradi which was opened to shipping in 1928. The harbour is 220 acres in extent and provides moorings for six ocean-going ships, whilst three can be berthed alongside the main wharf, which contains a large manganese-loading transporter. There is a fourth berth for local coal traffic.

Internal Communications.

Railway communication consists of a main line running from Takoradi to Kumasi, thence to Accra, a distance of 366 miles, with branches, Sekondi to Takoradi Junction (3 miles), Tarkwa to Prestea (18 miles), Aboso to Cinnamon Bippo (4 miles), and Huni Valley to Kade (99 miles). The Main Line and Branches are 3′ 6″ gauge. There is a branch line, Accra to Weija (Accra Water Works), 10 miles in length which is 2′ 6″ gauge.

The railway gross earnings for the year 1937–38 were 923,634*l.* and the working expenditure, including provision of 21,606*l.* for renewals, and also pensions, was 519,914*l.* (Transport Section excluded). The total number of miles open for traffic on the 31st March, 1938, was 500, and the capital cost 9,374,991*l.*

The mileage of all weather motor roads, exclusive of town roads, maintained by the Public Works Department is 2,120¾ miles as follows:—

	Tarred or Bitumen Surface. Miles.	Gravel Miles.	Total Miles.
Accra District	64¼	161¾	226
Nsawam District ..	57½	61	118½
Koforidua District ..	70½	94¼	164¾
Keta District	6	1	7
Winneba District ..	75¾	215¾	291½
Cape Coast District ..	101½	97	198½
Takoradi District ..	28¾	126½	155¼
Dunkwa District ..	2	256¾	258¾
Ashanti	156½	366¾	523
Northern Territories ..	—	250	250
	562½	1,630¾	2,193

In addition to the mileage maintained by the public Works Department, there are some 2,700 miles of dry season road maintained by the Political Administration with funds provided by Government. The Chiefs also maintain a considerable mileage of earth roads.

These roads are all motorable in the dry season and have opened up the country in all directions to motor traffic. Ferries have been installed and bridges built wherever necessary.

The Black Volta rises in the hills near Soukouraba, and the White Volta rises near Quahigouga, both in the French province of Haute Volta. These two

Digitized by Google

rivers converge some 280 miles from the sea on the Ashanti–Northern Territories border and become the River Volta which flows into the sea at Ada. This river is navigable for light draught launches as far as Akuse, and, with the exception of the Krachi rapids, can be used for canoe traffic during certain seasons of the year as far as Yeji. The Ankobra River is navigable for many months of the year by surf-boats and light draught launches for a distance of 50 miles. The Tano, connected with Half Assini, by the main lagoon, and by a tramway, three miles in length, is navigable for light draught launches and canoes as far as Tanoso, a distance of about 60 miles.

Rapids at Sutri prevent this river being further utilised.

The ferry over the River Volta at Senchi is capable of taking the largest cars and lorries, and is now worked by an endless chain driven by a petrol motor placed on the ferry boat. A similar ferry is in operation over the same river at Yeji.

The Government maintains a Motor Transport Service, which operates in centres where vehicles provided by private enterprise are unobtainable or more costly than a Government-owned fleet. The headquarters is at Accra, with branches at Kumasi and Tamale. The department also handles Government cargo and officials' baggage and stores arriving by sea and arranges the coastwise shipping of Government personnel and stores between ports within the Colony.

In addition to their departmental duties, the officers of the Transport Department assist in carrying out the provisions of the Motor Traffic Ordinance by acting as Testing and Certifying Officers.

Medical Facilities.

Medical Officers are stationed at all the principal centres of the Colony and its dependencies. Many of these officers travel in their districts and give treatment in village dispensaries.

There are six European Hospitals in the Gold Coast, four in the Colony, one in Ashanti and one in the Northern Territories.

There are also thirty-two African Hospitals; twenty in the Colony, six in the Northern Territories, four in Ashanti and two in the British Sphere of Togoland.

The Gold Coast Hospital was opened at Accra in October, 1923, and does excellent work. It continues to grow in popularity with the African community. It contains 228 beds and eighteen cots, which are nearly always occupied.

In the year 1937 the hospital dealt with 16,614 out- and 3,073 in-patients and 557 major operations were performed. At the African Hospital, Kumasi, 11,852 out- and 3,371 in-patients were treated during the same period.

An up-to-date maternity hospital in charge of a woman medical officer, now containing forty-four beds and twenty-nine cots, was opened in 1928 at Korle Bu in the immediate vicinity of the Gold Coast Hospital and is highly appreciated. The training of midwives is carried out here. A new Red Cross ante-natal ward of 12 beds was opened in April, 1935.

In addition to the above there is a Laboratory Services Branch consisting of a central Medical Research Institute situated at Accra close to the Gold Coast Hospital. Valuable work in research, clinical pathology, etc., is carried on by this Branch.

Health.

The Health Branch of the Medical Department is controlled by a Deputy Director of Health Service, who is responsible to the Director of Medical Services. Medical Officers of Health are stationed in five of the most important towns in the Colony and in Kumasi, in Ashanti and Tamale in the Northern Territories.

All Medical Officers are charged with public health duties in their respective districts and in the more populous areas are assisted by European Sanitary Superintendents.

Public health activities are extended into rural areas as far as the available staff will allow. As close a watch as possible is kept on the smaller towns and villages along the main trade routes. Every encouragement is given to the people to lay-out their villages on open lines and improve the type of houses erected.

Particular stress is laid on the protection and improvement of village water supplies. Progress as regards rural sanitation is shown in the Northern Territories and to some extent in Ashanti. It is hoped that a return to prosperity and new legislation will shortly give rise to improvement in the Colony.

For the year 1937 a birth rate of 33·7 and a death rate of 25·3 were returned. The infantile mortality rate for 1937 was 117. The maternal mortality rate for 1937 per 1,000 live births was 16·6. All the above rates are crude rates.

Infant welfare and ante-natal welfare centres, in charge of women medical officers, have been established at Kumasi and Accra. At the Accra and Kumasi centres wards are attached.

At Koforidua the centre is under the charge of an European woman medical officer of the Gold Coast Branch of the British Red Cross Society. The centres at Cape Coast and Sekondi are controlled by European Nursing Sisters of the same society working under the Medical Officer of Health.

Posts and Telegraphs.

Mails between the Gold Coast and other British Colonies on the West Coast, and the United Kingdom, are exchanged fortnightly by vessels of Elder Dempster Lines, Ltd., and at frequent irregular intervals by vessels of other lines. Mails are exchanged overland with Togoland under French Mandate and with the French Ivory Coast; and direct mails from Hamburg are received fortnightly.

Air mails to and from all parts of the world are exchanged once weekly by Imperial Airways, *via* Lagos and Khartoum, and once weekly by French Aeromaritime, *via* Dakar.

There are 75 Post Offices and 205 Postal Agencies, the distribution being effected principally by rail and motor. When this is impossible a runner service is employed. The rate for letters (1 oz.) within the Empire is 1*d*., elsewhere 3*d*.

There are 4,517 miles of Telegraph Line Wire serving all the principal centres. The rate is 6*d*. for 9 words, and 1*d*. per word in excess of 9.

There are 5,631 miles of telephone double wire including overhead and underground cable circuits in use which link up 254 Exchanges and Call Offices throughout the country.

Any passenger or cargo boat entering Takoradi Harbour may be connected to the mainland telephone service and telegraph and phonogram system.

There are about 2,230 telephones, including those in Government Offices, in operation, and extensions to the system are in progress.

Parcel Post despatches are exchanged direct with the United Kingdom and with other British Colonies in West Africa, and the United States of America. Parcels for other countries are forwarded through the United Kingdom. The C.O.D. service from the United Kingdom is extensive.

British Imperial Postal Orders are issued and paid, and an inland and foreign Money Order system is in operation. A Telegraph Money Order Service with the United Kingdom is also available.

Digitized by Google

A coastal radio-telegraph station at Takoradi transmits radio-telegrams at 9*d.* per word.

The Cable and Wireless Ltd. transmit messages by cable to any part of the world from Accra.

Education.

Education in the Gold Coast has hitherto largely been, and is now to a still greater extent, aided and controlled by Government, and all schools are open to inspection by officers of the Education Department. All teachers are registered, and are paid according to an incrementally graded salary scale.

Apart from a large number of non-aided primary schools, there are twenty-five Government schools and 427 Assisted schools in the Colony, Ashanti, and the Northern Territories. The latest figures show that these Government and Assisted Primary Schools have an enrolment of 58,038 pupils, of whom 14,318 are girls. The largest of the Missions working in these territories is the Presbyterian Church with 107 Assisted Schools, followed next in order of size by the Ewe Presbyterian Church with 86 Assisted Schools.

Native Administration schools, the expenditure of which is defrayed partly by Government and partly by the Native Administrations, have been established in the Northern Territories at Bawku, Lawra, Wa, Gambaga, Sandema, Kpembe and Yendi. The total number of pupils in these schools in 1937 was 508, of whom 25 were girls.

In addition to the Government Primary Schools there are the Accra Government Technical School and three Middle Boarding Schools in different parts of the country. These are all boarding institutions established by Government. The Technical School gives a secondary-vocational course (practical and theoretical) in engineering and woodwork, and the Middle Boarding Schools provide an elementary education with a pre-vocational bias.

There are also training schools controlled by the departments concerned, *e.g.*, Agriculture and Forestry, and Animal Health, where pupils are boarded and trained, being paid a salary while undergoing instruction.

Teachers intended for Government service and certain others receive tuition in the Training Department of the Prince of Wales' College, Achimota.

Teachers are also trained at Wesley College, Kumasi, the Presbyterian Training College at Akropong, Akwapim, and the Roman Catholic Training College at Cape Coast.

The training of female teachers, under conditions of grant similar to those applying to male students at the Mission Colleges, has been started in recent years by the Scottish, English Church, Methodist, Roman Catholic and Basel Missions.

There are three residential Secondary Schools at Cape Coast, one being under Methodist Mission, one under English Church Mission and the third under the Roman Catholic Mission.

The Roman Catholic, English Church, Methodist, Presbyterian and Basel Missions each have residential Girls' Schools in which literary and domestic training is given.

The Prince of Wales' College, Achimota, near Accra, which was opened in January, 1927, is a boarding school open to pupils of all nationalities and religions. A complete course of instruction for boys and girls from the kindergarten stage up to the standard of the London University Intermediate Examination, and, in engineering, to the Degree Examination, is provided.

The College is administered by a Council consisting partly of elected and partly of nominated members. It is subsidized by Government.

Currency and Banking.

Prior to 1912 and 1913 the currency consisted chiefly of British gold (comparatively rare), silver and copper. In 1912, subsidiary nickel-bronze coins (1*d.*, ½*d.* and ⅒*d.* pieces) were introduced, and in 1913 a special silver currency common to all the British West African Colonies of the same weight and fineness as the corresponding British coins. The coins issued are 2*s.*, 1*s.*, 6*d.* and 3*d.* pieces. Owing to the great increase in the demand for currency and the difficulties in obtaining adequate supplies, it was found necessary in 1915 to make British Treasury Notes legal tender, and in 1916 special West African Currency Notes were introduced. 20*s.* and 10*s.* Notes are the only values now in circulation, 5*l.*, 2*s.* and 1*s.* Notes having been withdrawn. In 1920 owing to the rapid disappearance of silver coins, an alloy coinage was introduced of the same denominations as the silver coins and silver has now practically been withdrawn from circulation. The special West Africa silver and alloy currency and the West African Currency Notes are under the management of the West African Currency Board and are secured by sterling securities held by the Board. Current British gold and silver coins, West Africa Currency silver and alloy coins, West African Currency Notes, and West Africa nickel-bronze coins are all legal tender.

The Bank of British West Africa, Limited, opened at Accra on the 1st January, 1897, and now has branches at all the principal business centres in the Colony.

The Colonial Bank, now Barclays Bank (Dominion, Colonial and Overseas), began business at Accra in 1917, and branches have now been opened at other centres. Both Banks have a savings department. In 1888, a Government Savings Bank was established which is now under Post Office management. On 31st March, 1937, the amount to the credit of depositors was 277,682*l.*

Accounts are kept in sterling.

Population.

The first attempt to take a census was made in 1891, which, however, covered the Colony only. Since then a census has been made at ten-year intervals, viz. :—1901, 1911, 1921 and 1931. Except in 1901, the whole of Ashanti and the Northern Territories have been included. In a country such as the Gold Coast, imperfect communications and lack of education make the holding of a complete census a matter of great difficulty and even now the figures cannot be considered absolutely accurate.

At the mid-year 1936, the population of the Gold Coast was estimated at 3,617,126, as follows :—

	Resident Africans.	Resident Non-Africans.	Maritime.
Colony	1,780,969	2,304	172
Ashanti	668,320	624	—
Northern Territories	815,408	107	—
Togoland (under British Mandate)	349,179	43	—
	3,613,876	3,078	172

The estimated African population of some of the chief towns was as follows :—

Accra	71,016
Koforidua	13,243
Cape Coast	19,134
Sekondi	20,864
Kumasi	42,203
Tamale	17,687
Ho	3,549

Digitized by Google

Industries, Trade and Customs.

Quantities and values of the following exports for 1936 were :—

	Quantity.	Value. £
Cocoa	236,206 tons	£9,989,548
Gold	557,764 fine ozs.	3,910,757
Manganese Ore	527,036 tons	1,025,091
Diamonds	1,577,661 carats	648,057
Timber	1,154,589 cubic feet	129,748
Palm Kernels	8,539 tons	103,964
Rubber, raw	1,069,452 lbs.	33,035
Copra	1,465 tons	23,281
Lime Juice and other Lime products	1,229 tons	17,842
Palm Oil	5,167 tons	11,049
Hides (Cattle), untanned	3,819 cwt.	9,678
Coffee, raw	477,153 lbs.	6,875
Bananas	58,527 bunches 15,664 cwt.	5,689
*Kola Nuts	11,123 cental of 100 lbs.	4,225

The first in value of imports in 1937 was cotton manufactured piece goods, provision (all kinds), machinery, iron and steel manufactures, commercial vehicles (including omnibuses, ambulances, tractors and chassis) and private cars (including cabs), apparel (all kinds), artificial silk piece goods, tobacco (all kinds), motor spirit, potable spirits, cement, medicines and drugs, electrical and telegraphic apparatus, fuel oil, rubber tyres for vehicles, produce bags and sacks, beer and ale, stout and porter, beads and illuminating oil.

The following tables give particulars of the total values and the percentages of (1) Import and (2) Export (including re-export) trade of the Gold Coast according to countries for the year 1937 :—

(1) Imports.

Grand Total	16,218,193	100

The Customs Tariff is non-preferential. The principal cotton manufactures, artificial silk piece goods, alcoholic liquors, tobacco, timber, certain articles of apparel, soap, petrol and kerosene, and a number of other articles are liable to specific duties.

All other articles, unless specifically exempted, are liable to an *ad valorem* duty of 20 per cent. except newsprint which is dutiable at 10 per cent.

The following articles of Japanese origin pay additional duties, viz., cement, corrugated iron sheets, paints and colours, paint oils, polishes and varnishes, cardigans, jerseys, and pullovers, shirts, and singlets.

Note.—The duty on milk, cordage and twine, and sugar was removed from the 16th March, 1937.

ASHANTI.

Ashanti is inhabited by a large number of confederated tribes, the principal of which are the Mampongs, Juabens, Bekwais, Adansis, Kokofus, Nsutas, Offinsus, Kumawus, Ejisus and Agonas. Each tribe has its own Head Chief, but from time immemorial the King of Kumasi was recognised as the King paramount of the Confederation.

In 1873 the King of Ashanti invaded the British Protectorate with a large army, and reached Elmina, where he was entirely defeated by the British forces under Colonel (afterwards Sir) Francis Festing. Later in the year Captain (afterwards Sir) John Glover was sent to the eastern districts of the Protectorate to organise the tribes in that quarter, for a flank movement against the Ashanti territory. At the same time Sir Garnet (afterwards Viscount) Wolseley was despatched to the Gold Coast, with British and West Indian troops, native levies, and some seamen and marines, to operate against the Ashantis, starting from Cape Coast. On the 31st of January, 1874, he came into general engagement with the enemy at Amoaful, where he drove them from their position after desperate resistance. The next four days were employed continuously in fighting, until, on the evening of the 4th of February, the British force entered Kumasi. The King had fled to the bush. A few days later Sir John Glover also reached Kumasi. On the 13th, messengers sent

Digitized by Google

by the King concluded a peace with Sir Garnet Wolseley at Fomena, which was afterwards signed with a pencil cross by King Kofi. By the Treaty of Fomena, the King of Ashanti renounced all claims on the claims on the Protectorate, promised to protect traders, to abandon human sacrifices, and to pay an indemnity of 50,000 ozs. of gold.

In 1894 Prempeh, who was then King of Kumasi, and had successfully fought against the Nkoranzas, who had revolted against his rule, threatened to attack the Atebubus. This attack was averted by the despatch of a force under Sir Francis Scott, and an ultimatum was then sent to Prempeh warning him not to enter British territory, and suggesting that he should acquiesce in the establishment of a Residency at Kumasi. No definite reply to this suggestion could be obtained, and a military expedition accordingly proceeded to Kumasi, to compel compliance with the demands of Her Majesty's Government. The expedition, under the command of Sir Francis Scott, entered Kumasi without resistance, January, 1896. Prempeh made submission, but, failing to comply with the terms dictated, was brought to the coast as a political prisoner and lodged in Elmina Castle, whence he was eventually deported to the Seychelles. A Resident was at the same time installed at Kumasi, and thus commenced an entirely new departure in the relations of the Gold Coast Colony with Ashanti.

In 1900 the Governor visited Kumasi, and was there besieged by the Ashantis, the town being closely invested. Provisions ran short, and a part of the garrison, with the Governor, cut their way out; the rest were relieved by Colonel (afterwards Sir J.) Willcocks, commanding the Ashanti Field Force, on 15th July, after severe fighting. The Ashantis were subsequently thoroughly routed at Abuosu.

An Order of the King in Council, dated September 26th, 1901, defined the boundaries of Ashanti, annexed it to His Majesty's Dominions, and provided for its administration under the Governor of the Gold Coast. By a subsequent Order in Council of the 22nd of October, 1906, the boundaries between the Colony and Ashanti, and between Ashanti and the Northern Territories were re-adjusted and defined, with due regard to tribal lands and natural features.

Ashanti is administered by a Chief Commissioner with an Assistant Chief Commissioner as relieving Officer.

The dependency is divided into the following Districts, each under a District Commissioner with limited powers of jurisdiction :—

Ashanti Akim District.
Bekwai District.
Kumasi District.
Mampong District.
Obuasi District.
Sunyani District.
Wenchi District.

The jurisdiction of the Supreme Court was extended to Ashanti in 1935. The former Circuit Judge is now a Puisne Judge of the Supreme Court of which a Divisional Court has been established at Kumasi. A District Magistrate exercises limited jurisdiction in the town of Kumasi.

The peaceful relations which, under the auspices of the Gold Coast Government, have existed for many years now between the Ashantis and the neighbouring tribes have been signified by not infrequent petitions emanating from the Gold Coast Colony as well as from Ashanti for the return from exile of Prempeh, the former Chief of Kumasi. The confidence felt by the Government of the Gold Coast in the loyalty of the Ashanti people led to the granting of this request in 1924, and to approval being given in 1926 of his election by his people as Omanhene or Head Chief of the Kumasi tribe.

Prempeh died on the 12th May, 1931 and was succeeded by his nephew (now Sir) Osei Agyiman Prempeh II as Omanhene of Kumasi on the 7th July, 1931, who, on the restoration of the Ashanti Confederacy in 1935, assumed the title of Asantehene.

THE NORTHERN TERRITORIES.

In 1897 the territories to the north of Ashanti were constituted a separate district with the title of "The Northern Territories," and placed in charge of a Commissioner, and a grant-in-aid of the expenditure in the Northern Territories was voted by Parliament.

Major H. P. Northcott was appointed Commissioner and Commandant of these territories, with the rank of Lieutenant-Colonel. The negotiations between the British and French Governments for the settlement of territorial questions in West Africa, which had been suspended in 1896, were resumed in October, 1897; and on 14th June, 1898, after a period of considerable tension in consequence of the proximity of the British and French forces in the disputed territories, a Convention was signed at Paris with a proviso that it should be ratified within six (subsequently extended to twelve) months. By this Convention the boundary between the Gold Coast and the French Colony of the Ivory Coast, which had only been settled in 1889, as far as the 9th parallel of north latitude, was continued northwards along the course of the Black Volta River to the 11th parallel, and it was then drawn along the 11th parallel with a deflection to the north in the neighbourhood of Mamprusi, until it met the Franco-German boundary of 1897. The effect of the Anglo-French Convention of 14th June, 1898, was to leave Bona, Lobi, and Moshi to France, while Dagati, Wa, Mamprusi, and the southern portion of Grunshi were included in the British sphere.

On 14th November, 1899, an agreement was concluded with Germany for the partition of the "neutral zone." This partition assigned Salaga to Great Britain, and Yendi to Germany, and to the north of the zone gave Mamprusi to the former and Chakosi to the latter.

Survey operations were undertaken by Anglo-French and Anglo-German Commissions during 1901-2, for the delimitation of those portions of the boundaries which had not yet been settled.

By the demarcation on the ground of the Anglo-German boundary between the Trans-Volta District and the adjoining Colony of Togo; of the Anglo-German boundary north of the 9th parallel of north latitude; and of the Anglo-French boundary along the 11th parallel of north latitude, all the frontiers of the Colony, Ashanti and the Northern Territories have now been exactly defined.

Provision was made for the administration of the Northern Territories under the Gold Coast Government by an Order of the King in Council of 26th September, 1901.

The Northern Territories are administered by a Chief Commissioner with an Assistant Chief Commissioner as Relieving Officer. They are divided into the Mamprusi, Wa, Lawra-Tumi, Krachi, Dagomba and Gonja Districts, with headquarters at Gambaga, Wa, Lawra, Krachi, Yendi and Salaga.

Digitized by Google

The Headquarters of the Protectorate is at Tamale in the Dagomba District, 237 miles north of Kumasi. The Krachi District and portions of the Gonja and Dagomba districts, including Yendi, the Dagomba District headquarters are within the Northern Section of Togoland under British Mandate.

By Order in Council, of the 22nd of October, 1906, the boundaries between the Northern Territories and Ashanti were re-adjusted and defined.

An important step was taken with regard to the Government of this Protectorate by replacing, with effect from the 1st of January, 1907, the former semi-military administration by a staff of Civil District and Assistant District Commissioners, and by establishing new stations. Simultaneously, the 2nd Battalion of the Gold Coast Regiment was disbanded and a force of armed constabulary substituted therefor. In 1929, the Northern Territories Constabulary was disbanded and their duties taken over by the Gold Coast Police.

The jurisdiction of the Supreme Court was extended to the Northern Territories in 1935. The former Circuit Judge, Ashanti, who exercised in the N.T. powers similar to those which he exercised in Ashanti, is now a Puisne Judge of the Supreme Court.

TOGOLAND UNDER BRITISH MANDATE.

The former German protectorate of Togoland is situated on the Gulf of Guinea, bounded on the east by Dahomey and on the west by the Gold Coast and its Protectorates. The actual coast-line lies between 1° 45′ and 1° 14′ W. longitude, the frontiers, however, especially on the west, opening out considerably. The total area is about 36,500 square miles.

Until 1884-85 the majority of the tribes along the littoral and its immediate hinterland, also those adjoining the Northern Territories of the Gold Coast regarded themselves as being under the suzerainty of Great Britain, but by agreements made with the French on the 24th December, 1885, and with the British on the 14th and 28th July, 1886, when provisional frontiers were fixed, German influence was formally recognized by those Powers. Subsequent agreements dated the 23rd July, 1897, and the 14th November, 1899, between Germany and the Governments of France and Great Britain respectively defined the northern frontiers of Togoland.

Immediately upon the outbreak of war between Great Britain and Germany Togoland was invaded by the Gold Coast forces. On the 6th August, 1914, Captain E. B. Barker entered the capital, Lome, under a flag of truce and on the following day that town and the hinterland for a distance of 120 kilometres from the sea were surrendered. On the 8th August Anecho (Petit Popo) was occupied by the French. Operations on a larger scale commenced on the 11th August when Temporary Lieutenant-Colonel F. C. Bryant landed at Lome. After engagements at Agbelufoe and Chra River on the 16th and 24th August respectively the enemy retired on the great wireless station at Kamina, which they destroyed. On the 26th August the Acting-Governor surrendered the Colony unconditionally

Pour parlers then took place between Sir Hugh Clifford, governor of the Gold Coast, and M. Nouffard, governor of Dahomey, as the result of which an agreement, subsequently ratified by the governments concerned, was drawn up. Under this agreement Togoland was provisionally divided into British and French spheres. To the British were allotted the western administrative areas of Lome and Lomeland, Misahohe, Kete-Krachi and Yendi, and to the French Anecho, Atakpame, Sokode and Sansanne Mangu.

By proclamation dated the 30th September, 1914, civil courts were established under the presidency of political officers seconded from the Gold Coast, appeal lying from the district courts to that of a senior political officer. In the absence of a local criminal code, that of the Gold Coast was introduced as a basis of procedure.

In June, 1915, the office of senior political officer was merged in that of the senior military commander, without prejudice, however, to the civil nature of the court concerned.

Boundary adjustments with the French took place in 1920 in accordance with an agreement signed by Lord Milner and M. Simon on 10th July, 1919. Lome and the whole of the coast were given over to the French, and the British received additional territory in the interior. The area of the British sphere is 13,041 square miles.

In October, 1921, the Council of the League of Nations approved in principle the arrangements made between the British and French Governments for the division of Togoland in accordance with the agreement of 10th July, 1919, and the application to the territories of the Mandate system; and on 20th July, 1922, after a delay due to negotiations between the United States Government and the Mandatory Powers, the Council confirmed the mandates and defined their terms. †

Togoland under British Mandate is now administered under the provisions of the British Sphere of Togoland Order in Council, 1923, which was issued on the 11th of October, 1923.

Under this instrument, the British Sphere is divided into the Northern Section and the Southern Section. The Northern Section is administered as if it formed part of the Northern Territories of the Gold Coast, and the Southern Section is administered as if it formed part of the Eastern Province of the Gold Coast Colony. The Chief Commissioner's Court of the Northern Territories of the Gold Coast exercises jurisdiction in the Northern Section; and the Supreme Court of the Gold Coast Colony exercises the jurisdiction in the Southern Section.

Subject to the terms of the Mandate, the law for the time being in force in the Northern Territories of the Gold Coast is the law in force in the Northern Section, and the law for the time being in force in the Gold Coast Colony is the law in force in the Southern Section. The Governor of the Gold Coast Colony is empowered to enact Ordinances with respect to the British Sphere as a whole, or with respect to either Section thereof separately. Togoland under British Mandate is not distinguished from the Gold Coast in the statistical returns, but it is beyond question that the revenue which it brings to the Gold Coast is inconsiderable compared with the money expended upon it. It contains no part of the old German railway system, which retains most of the export and import trade of the Southern and richest Section. The towns of Ho and Kpandu are joined to the Gold Coast road system by a road which meets the Volta River at Senchi where there is a power ferry. There is also a direct road from Yendi to Tamale.

† For text of the British mandate, see Cmd. 1794.

Chief Inspector of Labour, Captain J. R. Dickinson, M.C., 1,400*l.*

HONG KONG.

Situation and Area.

Hong Kong is one of a number of islands situated off the south-eastern coast of China, at the mouth of the Canton River, and lies about 40 miles east of Macao, 91 miles south of Canton, between 22° 11′ and 22° 18′ N. lat., and 114° 7′ and 114° 16′ E. long. The island is an irregular ridge, stretching nearly east and west; its broken and abrupt peaks rising to the height of nearly 2,000 feet above the sea level. Its length is about 11 miles, its breadth from 2 to 5 miles, its area about 32 square miles. It is separated from the mainland of China by a narrow strait, known as the Lyeemun Pass, which is about ½ mile wide. The opposite peninsula of Kowloon (3 square miles) was ceded to Great Britain by a Treaty entered into by Lord Elgin in 1860 with the Government of China, and now forms part of the Colony; which also includes Stonecutter's, Green, Aplichau, Middle, Round, and other islets.

In 1898 an agreement was concluded with the Chinese Government for the extension of Hong Kong territory by an area adjacent to British Kowloon, in the province of Kwang-tung, including Mirs Bay and Deep Bay, this area to be leased for 99 years; a stipulation was included that within the walled city of Kowloon (which lies outside of British Kowloon) the Chinese officials then stationed there should continue to exercise jurisdiction except so far as might be inconsistent with the military requirements for the defence of Hong Kong, but that within the remainder of the newly-leased territory Great Britain should have sole jurisdiction. In 1899 the Chinese officials ceased to exercise jurisdiction within Kowloon City, which thereafter, by Her late Majesty's Order in Council, was incorporated in the leased territory and became subject to British rule. The area of the mainland and islands leased is about 359 square miles. A careful survey of the territory was completed in 1904. These New Territories are divided into two main districts—the Northern and the Southern—and are in charge of two District Officers, who perform the duties of land officers and magistrates, and are authorised to hold small debts courts. The District Officer of the Northern district has his headquarters at Tai Pó on an arm of Mirs Bay; the headquarters of the Southern district are in Victoria.

General Description.

The waterways of the Colony form one of the most magnificent harbours in the world, having an area of 17 square miles. The granite hills which surround it rise between 2,000 and 3,000 feet high, the whole offering a *coup d'œil* which blends the wild scenery of Scotland with the classic beauty of Italy. The city of Victoria extends for five miles at the base of the hills which protect the south side of the harbour. Being built on the slope of the hills facing the sea, the general aspect of the town is perhaps more striking and picturesque from the water than that of any other city in the east, whilst many of the streets are shaded with well-grown and handsome trees. Some large and handsome buildings stand on the Praya West Reclamation, which was completed in 1903.

Other important reclamation schemes completed in recent years are the Praya East (2,249,000 sq. ft.), Tai Kok Tsui (1,368,500 sq. ft.), Shamshuipo (2,842,000 sq. ft.), and Kowloon Bay (9,589,000 sq. ft.). On the reclaimed area at the northern end of Kowloon Bay an aerodrome has been constructed at Kaitak.

Climate.

Though situated within the tropics Hong Kong enjoys a cool winter, the mean temperature falling from 82° in August to 59° in February. Temperatures of less than 40° and of greater than 90° occur occasionally.

The mean annual rainfall is 85 inches, of which 67 inches occurs from May to September.

The relative humidity is very high in the spring, frequently reaching 98%. In the winter it occasionally falls as low as 20%.

The prevalent wind is from E.N.E. in the winter with a mean velocity of 15 m.p.h. in March, when the north-east monsoon is at its height. During the summer months the wind is very variable, both in direction and velocity. In some years a south-west monsoon is fairly persistent, in others intermittent and short-lived.

Typhoons occur occasionally from June to October. Very occasionally they occur before or after this period.

The climate of Victoria is similar in its broad features to that of Kowloon and the New Territories, but at the higher levels, from 1,400 to 1,800 feet above sea level, the temperature is on the average about 5 to 8° lower than at the Observatory, Kowloon. The humidity is usually greater than in Kowloon and approaches saturation for several days at a time during March and April when mist is very prevalent. In summer the city of Victoria, and the rising terraces behind it, derive little or no benefit from the south-west monsoon, being sheltered by steep hills from south-east to south-west. In winter it is exposed to the north-east monsoon, which occasionally blows along the harbour through Lyeemun Pass with considerable violence. On the other hand the south-west side of the Island is protected from the north-east monsoon in winter and enjoys the benefit of the south-west monsoon in summer.

History.

The Colony, then a desolate island sparsely inhabited by fishermen, was ceded to Great Britain in January, 1841; the cession was confirmed by the Treaty of Nankin in August, 1842; and the charter bears date 5th April, 1843. The additions subsequently obtained on the mainland have been noted above.

Hong Kong did not become of much commercial importance until the discovery of gold in Australia in 1851 and the consequent Chinese emigration. Its trade has gradually increased with the opening up of China to foreign trade.

Large local banking, dock, steamboat, and insurance companies were established between 1865 and 1872, and the trade was greatly increased by the opening of the Suez Canal.

The city is the depot for an incessant flow of Chinese emigration and immigration, the number in 1935 being: emigrants, 149,515; immigrants, 112,420, excluding to and from China ports.

Estimated Population, Mid-year, 1938.

Industry, Trade, and Customs.

Hong Kong is a free port except for an Import Tariff on all intoxicating liquors, on spirituous liquors containing more than two per cent. of pure alcohol by weight, on tobacco, and on light oils (including motor spirit) and on motor vehicles. There is no Export Tariff.

The position of the island has made it a distributing centre for trade in many kinds of goods. Amongst the principal commodities handled are coal, cotton, and cotton goods, hides, iron and steel, matches, nuts, oils, rice, sugar, silk, sandalwood, tea, tin, wolframite, etc.

Ship repairing and general engineering is a large industry, and there are also factories of very considerable importance engaged in the manufacture of cigarettes, rope, cement, rubber shoes, knitted goods, and the refining of sugar.

Native industries such as the manufacture of vermilion, sauces, bamboo-ware, building of native craft, etc., are of large and increasing dimensions.

The natural products of Hong Kong are few and unimportant. There is little land suitable for tillage, and nothing is grown but a little rice and some vegetables near the outlying villages. There are large granite quarries both on the island and in Kowloon. A dairy farm supplies fresh meat, poultry, eggs, and milk. The fishing in the waters of the Colony is good and is a source of livelihood to a vast number of Chinese.

The New Territories are intensively cultivated, rice being the most important crop. Vegetables, groundnuts, fruit, sugarcane, etc., are also grown; and pigs, cattle, chickens, and ducks are commonly bred. Farming is mostly in the hands of Chinese villagers, though the number of large farms leased by urban landlords is on the increase.

Shipping.

The total tonnage entering and clearing during the year 1937 amounted to 37,830,760 tons, a decrease of 3,900,256 tons compared with 1936. There were 16,854 arrivals of 18,131,943 tons, and 16,928 departures of 18,059,781 tons.

Of British Ocean-going tonnage, 5,874,910 tons entered, and 5,834,679 tons cleared.

Of British River Steamers, 3,060,534 tons entered, and 3,048,226 tons cleared.

Of Foreign Ocean-going 8,774,858 tons entered, and 8,758,874 tons cleared.

Of Foreign River Steamers, 368,755 tons entered and 364,605 tons cleared.

Digitized by Google

Of Steamships under 60 tons trading to ports outside the colony 52,886 tons entered and 53,397 tons cleared.

Of Junks in Foreign Trade 801,455 tons entered and 811,459 tons cleared.

Of Junks in Local Trade, 331,259 tons entered and 653,058 tons cleared.

Docks.

Hong Kong is well provided with dock accommodation. The Hong Kong and Whampoa Dock Company has three dry docks, the larger one being re-constructed, and two slips at their Kowloon establishment, one dry dock at Mong Kok Tsui on the western side of the Kowloon Peninsula, and two at Aberdeen on the south side of the island. The Taikoo Dockyard and Engineering Company has one large dock and three slipways situated at Quarry Bay, just inside the Lyeemun Pass.

The Admiralty has built a large dock in the Naval Dockyard in the middle of the City of Victoria. Besides these, there are several building slips and repairing shops owned by Europeans and Chinese in various parts of the Colony.

Wharves.

The Hong Kong and Kowloon Wharf & Godown Co., situated on the mainland, has five wharves and can accommodate vessels of 550 ft. in length. No. 1 and No. 5 Wharves are capable of accommodating vessels up to 750 feet.

Alf. Holt & Co. have two wharves at the East Point of the Kowloon Peninsula and have accommodation for large vessels.

At North Point on the Hong Kong side of the Harbour, the Ching Siong Land Investment Co. has built about 1,700 feet of quay walling providing a depth of 30 feet of water alongside at L.W.E.S.T.

In addition, there are many wharves privately owned by shipping firms, situated in the Central district.

Government Harbour Moorings.

There are at present laid down in the Harbour for the use of vessels frequenting the Port forty-nine (49) complete sets of Government Harbour Moorings, classed as follows :—

A Class. Moorings for vessels of 450 feet to 600 feet in length O.A. ...	17
B Class. Moorings for vessels of 300 feet to 450 feet in length O.A. ...	27
C Class. Moorings for vessels of less than 300 feet in length O.A. ...	5
Total	49

Currency and Banking.

Until recently the currency of Hong Kong has, under the Order-in-Council of the 2nd of February, 1895, been based on the silver Mexican dollar and the British silver dollar. Subsidiary silver half dollars, silver pieces of 20 cent., 10 cent. and 5 cent. and copper coins were also in circulation. Cupro nickel 10 cent. and 5 cent. pieces were placed in circulation in November, 1935.

As from the 5th of December, 1935, under the Currency Ordinance, 1935, the notes issued by three banks having the power of issue in the Colony, *i.e.*, the Hong Kong and Shanghai Banking Corporation, the Chartered Bank of India, Australia and China, and the Mercantile Bank of India, the total circulation of whose notes amounted at the end of 1937 to $230,037,967, have been made full legal tender, and their exchange value* is controlled for the time being by the operations of a Government Exchange Fund set up by the same legislation. An issue of Government $1 notes, which are also unlimited legal tender, has also been made. For the present the Mexican, British, and Hong Kong dollars, and the subsidiary coin as previously issued, remain legal tender, but the silver dollars have been called in by the Government and are no longer in active circulation.

The principal Banks are the Hong Kong and Shanghai Banking Corporation, Ltd., the Chartered Bank of India, Australia and China, the Mercantile Bank of India, the P. & O. Banking Corporation, Ltd., the National City Bank of New York, The Yokohama Specie Bank, the Bank of Taiwan, the Netherlands-India Commercial Bank, the Netherlands Trading Society, the Banque de l'Indo-Chine, the Crédit-Foncier d'Extrême Orient. The first named bank conducts a Savings Bank. There are also a large number of Chinese banks.

Local weights and measures are the following: tael = 1⅓ oz.; 1 picul = 133⅓ lbs. (avoirdupois); catties = 1 imperial gallon.

Revenue.

The principal sources of revenue are rates (varying from 15 to 17 per cent. on the annual value of property) expected, in 1938, to yield $5,976,704, tobacco duty $4,275,000, stamp duties $2,213,000, liquor duties (including duty on locally manufactured liquor) $2,725,000, estate duty $1,217,000 and land sales $883,000.

The total revenue for 1938 is estimated at $34,170,174.

There is a Public Debt of $4,838,000 and $12,320,000. The amount at credit of the Sinking Fund of the 4 per cent. Conversion Loan is 54,325*l.*

Means of Communication.

Hong Kong is extremely well situated as regards telegraphic communication in all directions with all parts of the world. The Eastern Extension Telegraph Company (British) by means of three cables to Singapore, one direct and one each *vid* Labuan and Cape St. James respectively, provide good connections with Europe *vid* India, with Australasia, and with the other British Colonies and possessions. By their cable to Manila connection is made with the direct American cable, thence to San Francisco. Two cables to Shanghai, belonging respectively to the Eastern Extension and to the Great Northern (Danish) Companies, *vid* Foochow and Amoy respectively, give a good connection with Shanghai, North China, Japan, and Russia; and the system of the Great Northern Telegraph Company gives a good service to Europe, *vid* Asiatic Russia.

* On 1st January, 1937, the exchange rate with Sterling was $1 = 1/2⅞.

Digitized by Google

Commercial wireless telegraph services are maintained with ships at sea, Canton, Swatow, Amoy, Foochow, Shanghai, and North China *via* Shanghai, points in Kwangtung and Kwangsi Provinces, Yunnanfu, Macau, French Indo-China (direct to Saigon and Hanoi), Kwongchowan, North Borneo, Siam, Dutch East Indies, and *via* Dutch East Indies to Europe, Australia and American continents, Manila and *via* Manila to Europe and American continents. The Commercial services are operated and controlled by Cable & Wireless Ltd. The Marine, Aviation and Broadcasting services are operated and controlled by Government. The Marine, Commercial and Short Wave Broadcasting Transmitters are grouped at Cape D'Aguilar Station, position lat. 22° 12'38·61" N.: long. 114° 15'18·94" E. Call signals :—V P S for ship services, Z B W and Z E K for broadcasting, and the series Z C E to Z C J with Z E M, Z E N and Z E O for commercial services, and Z C K for aeronautical services. The main receiving station is situated at Victoria Peak, from which station received signals are passed by tone lines to the Radio Office. The marine receiving station is situated at Kowloon (Royal Observatory).

In addition, aeronautical, meteorological and time signal services are carried on, the Police Department has its own communication system, and the Waglan and Gap Rock Lighthouses have installations for emergency communication.

A local broadcasting service for the transmission of news items, speeches, music, etc., is maintained by transmitters installed at Hung Hom, Kowloon, which are controlled from up to date studios and control rooms situated in Victoria. Both European and Chinese programmes are transmitted together from stations Z B W on 355 metres and Z E K on 468 metres. Z B W programmes are also radiated on a modern short-wave transmitter and are received throughout the world. The aviation transmitters are also installed at the Hung Hom Station, Kowloon, and the associate receiving apparatus for this service at Kai Tak Aerodrome, Kowloon.

Hong Kong possesses unrivalled steam communication. The P. & O. S. N. Co., M. M. Cie, Holt's Line, City Line, and N.Y.K. maintain a regular service with the United Kingdom and Europe. The Holt's line, O. S. K., N. Y. K., and Dollar Line maintain a regular service between Hong Kong and the United States of America. The Canadian Pacific S.S. Limited maintain a regular service with Vancouver, B.C.

The E. & A., Australian Oriental Line, and N. Y. K. and O. S. K. keep up a frequent service to Australian ports. In addition to these main lines of steamers, there are other lines which call at Hong Kong from various ports, such as the Shire, Glen, and Bank lines, and Lloyd Trestino.

Regular steam communication between Java and Hong Kong has been established by the Java-China-Japan Line. Between the ports on the east coast of China, Formosa, and Hong Kong the steamers of the Douglas S. S. Co. ply regularly twice a week, and those of the Osaka Shosen Kaisha weekly, and there is constant steam communication with Hoihow, Manila, Saigon, Haiphong, Tourane, Bangkok, Borneo, etc. With Shanghai, Tientsin, and the ports of Japan there is frequent communication by steamers of the Indo-China S. N. Co., China Navigation, and other lines, in addition to the English, French and American mail steamers. With Calcutta there are services by the Indo-China S. N. Co., O.S.K., N.Y.K., and the British India Line, about once a fortnight by each line. Between Hong Kong, Macao, and Canton there is a daily steam service, and numerous steamers as far as Wuchow on the West River.

A weekly Air mail service was inaugurated by Imperial Airways Ltd. in March, 1936, between Hong Kong and Penang, connecting with the Main Empire Line. Since December, 1937, this service has branched off to Hong Kong from Bangkok. In addition (*a*) the China National Aviation Corporation operate three services per week in each direction between Hong Kong and Shanghai; (*b*) the Pan American Airways Corporation operate a weekly service between Hong Kong and Manila, connecting with the Trans Pacific line; and (*c*) the Eurasia Aviation Corporation operate a twice-weekly service in each direction between Hong Kong and Peking.

A cable tramway connects the city with the higher levels. An electric tramway from Shaukiwan to Kennedy Town, along the whole extent of the city, was completed and opened in July, 1904. The island possesses roads available for vehicular traffic both in the town and outside from which unrivalled views can be obtained, especially from the wind-swept roads in the hill districts. There is also a fine motor road round the island.

There are excellent motor roads in Kowloon and the New Territories—the road to Fanling via Castle Peak and back via Taipo being a panorama of views over a route of several miles.

The usual means of transport is by motor, rickshaw, chair, or boat. A railway was completed in 1910 from Kowloon to the Chinese frontier, where it joins the line from Canton. Telephonic communication is available to all parts of the Colony and to Canton.

Direct Money Orders are exchanged with Great Britain, China, Canada, United States of America, Union of South Africa, India, Ceylon, Mauritius, the Australian Commonwealth, the Dominion of New Zealand, Straits Settlements, Federated Malay States, State of North Borneo, Sarawak, Siam, Macao, Japan, French Indo-China, Netherland Indies, and the Philippine Islands. British Postal Orders are issued and paid in Hong Kong. Telegraphic Money Orders are exchanged with the United Kingdom only.

Education.

Since 1913 the schools in the Colony, with few exceptions, have been placed by Ordinance under the supervision and control of the Education Department. The total number of pupils is about 86,993, of whom, roughly speaking, one-third are in schools in which English is the medium of instruction, and two-thirds are in Vernacular Schools. There are four schools exclusively for children of British parentage, with an average attendance of 498. Queen's and King's Colleges are the principal schools for Chinese, with an average attendance of 573 and 750 respectively. Including the above, the average attendance at Government

Digitized by Google

schools is 4,386. Most of the non-Government English schools are assisted by grants, which amounted in 1937 to $236,795. Many of the vernacular schools are assisted by subsidies and grants, amounting in 1937 to $124,151.

An evening institute supplies instruction in commercial and technical subjects. The enrolment in 1937 was 871.

The University of Hong Kong, incorporated under the local University Ordinance, 1911, and opened in 1912, is a residential University, the object of which is declared by that Ordinance to be "the promotion of Arts, Science and Learning, the provision of higher education, the conferring of degrees, the development and formation of the character of students of all races, nationalities and creeds, and the maintenance of good understanding with the neighbouring country of China."

Instruction is provided in the three Faculties of Medicine, Engineering, and Arts and the following Degrees are awarded: Medicine, M.B.B.S., M.D., M.S.; Engineering, B.Sc. (Eng.), M.Sc. (Eng.); Arts: B.A., M.A. The standard aimed at is that of University degrees in Great Britain, and the Medical degrees of the University are recognized by the General Medical Council for registration in Great Britain.

The buildings, including instructional and residential accommodation, together with playing fields, occupy an area of about 36½ acres. The instructional buildings have accommodation for about 500 students; the residential buildings have accommodation for 360 students. Residence of women students is not obligatory.

The endowment funds, which include a number of scholarship and prize funds, are partly in sterling and partly in dollars. The sterling funds amount to £298,400, which includes the grant of £265,000 from the British Boxer Indemnity Funds, and the latter includes a grant of HK$750,000 from the Rockefeller Foundation for the establishment of full-time chairs in Surgery, Medicine and Obstetrics, and Gynaecology. The Colonial Government has contributed land to the approximate value of $175,000, together with capital sums amounting to $1,700,000, and provides an annual grant of $350,000.

The course is one of 4 years in Engineering and Arts, and of 6 years in Medicine. In 1937 there were 424 full-time students. Students are of various nationalities, but the great majority are Chinese drawn from China and other countries of the Far East, notably Malaya.

The University is open to students of both sexes. In May, 1937, there were 85 women students.

Constitution.

The Government is administered under Letters Patent of 14th February, 1917, by a Governor, aided by an Executive Council, composed of six official and three unofficial members, besides the Governor. The Legislative Council is presided over by the Governor, and is composed of nine official and eight unofficial members, six of whom are nominated by the Crown on the recommendation of the Governor (three being Chinese), one is nominated by the Justices of the Peace from their body, and one by the Chamber of Commerce. The unofficial members of the Executive and Legislative Councils, appointed after receipt of the Additional Instructions passed under the Royal Sign Manual and Signet and dated 10th January, 1922, vacate their seats after five and four years respectively from date of appointment. The "Colonial Courts of Admiralty Act, 1890," regulates the jurisdiction of the Supreme Court in Admiralty cases. The English Common Law forms the basis of the legal system, modified by Colonial Ordinances, of which a revised edition to 1923 has been issued. The law as to civil procedure was codified by Ordinance No. 3 of 1901.

*JAMAICA.

Situation and Area.

Jamaica is an island in the Caribbean Sea, to the southward of the eastern extremity of the Island of Cuba, within N. lat. 17° 42′ 20″ and 18° 32′ 30″, and W. long. 76° 11′ 55″ and 78° 23′ 35″. It is the largest of the British West Indies, being 144 miles in length, and 50 in extreme breadth, and containing about 4,450¼ square miles, about half the size of Wales. The island is very mountainous, the main ridge running east and west, with numerous subsidiary ridges, some parallel to the main ridge, others spreading out in a N.W. and S.E. direction from it, terminating in the famous Blue Mountains in the east, the highest peak being 7,388 ft. high. There are numerous rivers and streams, with a rapid fall for the most part, and not navigable. The largest are the Black River in the south-west, and the Rio Grande in the north-east. Kingston, the capital, with a population of 62,707 in 1921, is situated on the south coast of the Island, and has a fine harbour. In St. Ann's Parish, in the middle part of the island, on the north of the main ridge, is the Roaring River, so called on account of its many picturesque waterfalls.

The Cayman Islands, lying between 19° 16′ and 19° 45′ N. lat., and 79° 83′ and 81° 30′ W. long, and the Turks and Caicos Islands, are dependencies of Jamaica,† as are also Pedro and Morant Cays (two guano islands in 17° N. lat.).

It is estimated that Jamaica contains 2,848,160 acres, from which may be deducted 80,000 acres as useless for agriculture, consisting chiefly of swamps, rocks, and inaccessible lands, leaving 2,768,160 acres available for cultivation. Of this 837,244 acres are returned as under cultivation in 1932-33.

History.

The island was discovered by Columbus on the 3rd May, 1494. He called it St. Jago, after the patron saint of Spain, but the new name was soon dropped in favour of the native one of Jamaica (Xaymaca—well watered). The first settlement on it was effected on the shores of St. Ann's Bay, by Esquivel in 1509, under the direction of Diego, the son of Columbus, the Governor of Hispaniola. It was raided by Sir Anthony Shirley in 1596-7, and by Colonel Jackson in 1643, but it remained in the possession of the Spaniards for 161 years, when it was attacked by a force, sent by Cromwell, under Admiral Penn and General Venables against Hispaniola, and capitulated, after a trifling resistance, on the 11th May, 1655. Until the Restoration, Jamaica remained under military jurisdiction, but in 1660 a regular civil government was established by Charles II., who appointed General Edward Doyley Governor-in-Chief, with an Elective Council. In 1670 peace was made with Spain, and the title of England to Jamaica was recognised by the Treaty of Madrid. The colony grew fast, stimulated by the wealth brought into it by the buccaneers, who made Port Royal their headquarters and storehouse. Part of this town was engulfed in the great earthquake of 1692. Kingston which then consisted of a few sheds, soon rose into a place of importance. During the 18th century the island suffered from hurricanes, earthquakes, numerous slave insurrections, as well as wars with the maroons, or mountaineers, the descendants of African slaves. These consisted primarily of the slaves the Spaniards left, who inhabited mainly the east of the island, among the Blue Mountains, but before long runaway slaves from English masters took refuge in the mountains of the centre of the island and were only subjugated in 1738, when both classes of maroons were settled in five reserves under their own leaders, and henceforth gave little trouble except for a partial rising in 1795, which was soon suppressed, the prisoners taken being sent to Sierra Leone. When the Slave Trade was abolished, in 1807, there were 323,827 slaves in Jamaica. During the last eight years of the trade, 86,821 slaves were imported. On the abolition of slavery in 1833, Jamaica received 6,161,927*l.* of the 20,000,000*l.* granted by the Imperial Government as compensation to the slave-owners. A rebellion among the coloured population in 1865 was suppressed by Governor Eyre with unnecessary violence, and he was recalled. In January, 1907, Kingston was devastated by a terrible earthquake, which caused great loss of life and immense destruction of property. A Mansion House Fund was opened, and contributions poured in from all parts of the Empire for the relief of distress. A free grant of 150,000*l.* was voted by Parliament, and a loan of 800,000*l.*, chiefly in aid of re-building, was authorised from the Home Exchequer.

Climate and Inhabitants.

There is great variety of climate; the mean temperature of Kingston is 78·7°, rising to 87·6° in the day time, and falling to 71·0° in the early morning. As the temperature falls about 1° for every 300 feet of ascent, it is possible, in a few hours, to reach, in the central range of mountains, a cool and delightful climate. From Kingston, the capital, a change of 10° or 15° lower in temperature can be attained by a ride of one hour by motor car.

The rainy seasons occur, usually, over the whole Island, in May and June, and again in September, October and November. Besides these heavy and periodical rainfalls, the ground is refreshed by occasional showers in other months. In the North-Eastern portion of the Island, however, there is generally a rainy season at the end of the year and light precipitation, as a rule, during the month of March.

The mean Annual rainfall varies in the several sections of the Island from 24 inches at the Quarantine Station, in the Southern Division, to 208 inches at Moore Town, followed by 173 inches at Fellowship, both situated on the northern slope of the Blue Mountain Range in the North-Eastern Division. The sixty-year Island average is 74 inches.

Regions of the Island are visited by storms of hurricane force about 14 times in a century and disastrous earthquakes occurred in 1692 and 1907.

Under two per cent. of the inhabitants are white; the remainder are chiefly of African descent, somewhat over three-fourths being pure negroes. There are about 17,725 East Indians and about 3,700 Chinese (in 1921). English is universally spoken.

Constitution.

The original Constitution, granted by Charles II. in 1662, which, after existing for nearly 200 years, was surrendered in 1866, was a representative one, consisting of a Governor, a nominated Council, and an elected Assembly which on its first meeting in 1664, consisted of 30 members but which fluctuated in numbers from time to time. The depression caused by the abolition of slavery led to a grave constitutional crisis, the Assembly refusing to vote supplies, and endeavouring to enforce sweeping reductions in establishments, without compensation to the displaced officers. Lord Melbourne's Government, in 1839, actually introduced a Bill into Parliament for the suspension of the constitution, but was defeated, and it was not till 1854 that, by a change in the constitution of the Council, harmony was temporarily restored. A separate Privy Council was set up and an Executive Committee was established. The latter was to act as a sort of Cabinet, especially as regards financial matters.

After the suppression of the rebellion in 1865, Governor Eyre, at the meeting of the Legislature, urged the unsuitability of the then existing form of Government to meet the circumstances of the community, and the necessity of making some sweeping change, by which a strong Government might be created. The Legislature responded by abrogating all the existing machinery of legislation.

Digitized by Google

and left it to Her Majesty's Government to substitute any other form of Government which might be better suited to the altered circumstances of the Colony.

Accordingly a Legislative Council was, by Orders in Council of the 11th June, 1866, and 11th November, 1869, established, consisting of such numbers of official and unofficial members as Her Majesty might think fit. The numbers of each were six until 1878, when they were enlarged to eight, and a ninth was added in 1881.

By Order in Council dated 19th May, 1884, and Amending Order of 3rd October, 1895, the constitution was fixed in the following manner:—

The Council to consist of the Governor (with only a casting vote) and five *ex-officio* members, viz.: the Senior Military Officer, the Colonial Secretary, Attorney-General, Director of Public Works and Collector-General, and such other persons, not exceeding ten in number, as Her Majesty may from time to time appoint, or as the Governor may from time to time provisionally appoint, and fourteen persons to be elected as therein provided. The Council shall be dissolved at the end of five years from the last preceding general election, if it shall not have been previously dissolved.

There is also a Privy Council, with the usual powers and functions of an executive council. It consists of the Lieutenant-Governor, if any, the Senior Military Officer in command, the Colonial Secretary, and Attorney-General and such other persons as may be named by the King, or provisionally appointed by the Governor subject to the approval of His Majesty, but the number of members is not to exceed eight. The Governor is to preside at each meeting, and the Governor and two members form a quorum.

A special feature of this constitution is that nine elected members can veto any financial measure, while the unanimous vote of the whole fourteen elected members on other matters cannot be overridden by the other votes unless the Governor declares that such a decision is of paramount importance in the public interest.

Administration.

The Colonial revenue is derived mainly from import duties, an excise duty on rum, and stamp and licence duties. A tax of 1s. (in Kingston 8d.) on every £10 of the gross value of property is levied.

There is a Supreme Court of Judicature together with Resident Magistrate Courts and Petty Sessions of Justices of the Peace throughout the island. The Resident Magistrates, besides holding courts of their own, preside in the courts of Petty Sessions.

An "Island medical service," under the control of a Director of Medical Services, was established in 1870. The several medical practioners, who receive a retaining fee or salary from the Government, are designated "district medical officers." They are located throughout the island, and for the fixed salary paid by Government they have to attend sick paupers, parochial hospitals and alms-houses, the constabulary officers and men, and prisons.

The parish is the unit of local government, and each parish has its own parochial institutions, viz., poorhouses, &c., &c., managed by the Parochial Board of the parish, the members of which are elected by the persons entitled to vote for the election of members of the Legislative Council. The administration of poor relief by the Parochial Boards is controlled by a Board of Supervision.

There is a Corporation of the amalgamated parishes of Kingston and St. Andrew with a Mayor, Council and Corporate officers.

In the 13 other parishes there are elective Parochial Boards under Laws 13 of 1900 and 17 of 1901, with jurisdiction over roads, markets, sanitation, poor relief, water-works, and pounds. The chief towns are Kingston (population, in 1937, 78,357), Port Royal (population, in 1937, 1,107), Spanish Town (population, in 1921, 8,694), Port Antonio, (population 6,272), Montego Bay (population, 6,580), Falmouth (population, 2,136), Port Maria (population, 2,481), and Savanna la Mar (population, 3,442).

The total revenue of all the local bodies in 1937–38 was 550,928*l.*; their expenditure 516,319*l.* Their debt at the end of the year was 1,598,908*l.*

Currency and Banking.

Accounts are kept in sterling. British silver coins of and above the denomination of 6d. are legal tender to any extent; coins below the denomination of 6d. are legal tender to the extent of 40s. in any one payment.

The coin in circulation is mostly British silver and bronze and Jamaica nickel and bronze-alloy pence, half-pence and farthings.

Total estimated coin 200,000*l.* Barclays Bank (Dominion, Colonial and Over-seas) Ltd., the Bank of Nova Scotia, the Royal Bank of Canada and the Canadian Bank of Commerce are the only private banking establishments in the Colony. Barclays Bank has one branch, 6 sub-branches and 3 agencies; it had an average note circulation in 1937 of 108,644*l.* The Bank of Nova Scotia has 12 branches and 1 sub-branch, and had an average note circulation in 1937 of 124,873*l.* The Royal Bank of Canada has two branches and had an average note circulation in 1937 of 42,493*l.* The Canadian Bank of Commerce has a branch in Kingston, and had an average note circulation in 1937 of 12,272*l.* Approximately 200,000*l.* of British currency notes formerly in circulation have been withdrawn and replaced by Bank of England Notes, in denominations of 10s. and £1.

Under Law 27 of 1904, local Currency Notes, which are made legal tender under section 5, have been issued to the extent of 212,500*l.* in denominations of 2*s.* 6*d.*, 5*s.* and 10*s.*; 2*s.* 6*d.* notes, 31,250*l.*; 5*s.* notes, 106,250*l.*; 10*s.* notes, 75,000*l.* Estimated amount of local currency notes in circulation on 31st December, 1937, was 114,897*l.* The 2*s.* 6*d.* notes have been recalled and nearly all have been withdrawn from circulation.

Government savings banks were instituted in all the principal towns in 1871. There are 131 branches now operating. The total deposits on 31st March, 1938, was 823,682*l.*

Co-Operative Loan Banks.

There are now 50 Loan Banks on the Register of Industrial and Provident Societies. Some have become defunct. Fifty Banks have obtained loans from the Agricultural Loan Societies Board appointed under Law 6 of 1912, "A Law for the encouragement of Agricultural Loan Societies." In 1930, Law 15 of 1930 was passed, giving the Board more extensive powers of control. In 1933, Law 11 of 1933 was passed, to provide a simple means of winding up the affairs of a Bank. In 1936 Law 16 of 1936 was passed, enabling Banks to which advances are made from Public Funds to make Loans of a special class. These advances may be made whenever the Agricultural Industry of the Island is materially damaged.

The following is a summary of these transactions to 31st December, 1937:—

Digitized by Google

Loans made under Law 6 of 1912.	67,299*l.*	5*s.* 8*d.*
,, ,, ,, Hurricane or Special Loan Laws	103,589*l.*	12*s.* 4*d.*
	170,888*l.*	18*s.* 0*d.*

Of this amount, 151,657*l.* 13*s.* 8*d.* has been repaid, and 2,657*l.* 11*s.* 7*d.* written off by authority of the Legislative Council, leaving 16,573*l.* 12*s.* 9*d.* outstanding.

The 47 Banks from which returns were obtained also collected to 31st December, 1937, the sum of over 43,898*l.* share capital. These figures may be taken as an indication that the work of the Loan Banks has been successfully carried on and that they are likely to prove a permanent benefit to Small Holders and Peasant Proprietors.

In 1919 there was started a Land Settlement Scheme, whereby these Banks were expected to extend their sphere of usefulness by purchasing, with the aid of Government moneys, properties for re-sale in lots to small settlers. 59,641*l.* was lent to nine Banks for this purpose. The Land Settlement Branch of the Surveyor General's Department now has charge of Government Land Settlement Schemes. Only one property (Friendship in Trelawny) purchased with the assistance of Government and on which 205*l.* was owing at 31st December, 1937, is still being looked after by a Loan Bank.

Education.

Elementary education is provided for from public funds. The number of recognised elementary schools is 661, of which 160 are Government Schools and the remainder Denominational. There are 89,221 scholars in average attendance, and the grant-in-aid for 1936-37 was 185,955*l.* no fees are charged. The Government maintains a system of inspection, and provides a training college for women teachers which is mainly supported from public funds, besides largely assisting the Mico undenominational training college for men, and two denominational colleges for women teachers. By a law passed in 1892 a Board of Education was constituted. Local School Boards manage the Government schools, some of which are held in Government buildings, others in rented buildings.

The Government maintains a Technical Continuation and Commercial School in Kingston and awards scholarships for trade instruction and apprenticeship. One Continuation School for Girls is aided from public funds. Two Practical Training Centres for Boys and one for Girls are maintained by Government.

Provision was made in 1892 for the opening of Government secondary schools where required; there are twenty-three secondary schools receiving aid from public funds under regulations for grants in aid. Secondary education is provided for in general by endowed schools, under local governing bodies controlled by the Jamaica Schools Commission, and a number of private schools. There are three scholarships (one for girls) tenable at English universities or elsewhere within the British Empire and one scholarship tenable at the Imperial College of Tropical Agriculture, Trinidad. One Rhodes Scholarship is annually awarded in Jamaica. The following examinations are held:—London University, Cambridge Locals, Associated Board of the Royal Academy of Music and the Royal College of Music, Royal Drawing Society.

In the Institute of Jamaica (in Kingston) is a Public Library with 40,000 books, of which 9,000 form a West India Reference Library; a Natural History Museum, with a small collection of live animals; and a Jamaica History Gallery with 600 portraits and 350 engravings of scenery.

Industry.

Fruit is the largest export, 26,955,489 stems of bananas of a value of 2,656,883*l.* being exported in 1937, in which year citrus fruits (grape fruits and oranges) valued at 189,998*l.* were also exported. Other exports were as under:—

1936.		£
Sugar	77,809 tons	632,451
Rum	671,335 galls.	194,645
Coffee	10,396,688 lbs.	160,980
Cocoa	3,640,405 ,,	49,684
Coconuts ..	31,406,479 No.	76,276
Honey	1,630,671 lbs.	15,155
Pimento	5,888,425 ,,	140,858
Ginger	3,420,772 ,,	72,636
Logwood ..	12,224 tons	29,964
Fustic	942 ,,	2,482
Logwood Extract	23,687 cwts.	77,239
Cigars	36,221 lbs.	18,663

The acreage under banana cultivation in 1933-34 was 72,909, under sugar cane 40,091, under coffee 6,265, under cocoa 964, under cocoanuts 40,074, under ginger 1, under tobacco 115. The cultivation of cotton has practically been abandoned.

The Island's import trade is divided as follows:—

United Kingdom ..	.. 38.1 per cent.
United States of America	.. 16.9 ,, ,,
Canada	.. 16.3 ,, ,,
Other Countries ..	.. 28.7 ,, ,,

Means of Communication.

There is a daily postal service throughout the island, maintained by Government Railway (197¼ miles); motor mail and passenger vans (607¾ miles); by foot carriers and animal-drawn vehicles (920¼ miles); and by tramways (11 miles).

The rates of postage are as follows:—

Inland.

Letters, per oz., 1*d.*
Postcards, single, ½*d.*; reply paid, 1*d.*
Newspapers (Local and British) and Local Magazines, per copy, ½*d.*
Printed and Commercial Papers, per 2 oz., ½*d.*
"Small Packets" (up to 8 ozs.), per 2 ozs., 1*d.*
Parcels (Parcel Post over 8 ozs.), per lb., 4*d.*

Oversea.

Letters, Imperial—Not exceeding 1 oz., 1½*d.*; for every additional oz., 1*d.*
International—Not exceeding 1 oz., 2½*d.*; for every additional oz., 1½*d.*
Postcards, Single, 1*d.*; reply paid, 2*d.*
Printed Papers, Commercial Papers and Samples, per 2 ozs., ½*d.* (Minimum for Commercial Papers, 2½*d.*, and for Samples, 1*d.*).
"Small Packets," Per 2 ozs., 1*d.* (Minimum, 5*d.*).
†Parcel Post—To United Kingdom, 3 lbs., 1*s.* 7*d.*; 7 lbs., 2*s.* 10*d.*; 11 lbs., 4*s.*; 22 lbs., 6*s.* 6*d.* To U.S.A. and Canada, 6*d.* per lb. (Limit for U.S.A. 22 lbs.; for Canada, 20 lbs.). To West India Islands, 3 lbs., 1*s.*; 7 lbs., 2*s.*; 11 lbs., 3*s.*; 22 lbs. 5*s.*
There is a C.O.D. Parcel Post system in operation with the United Kingdom only.

A regular air passenger and letter mail service, inaugurated 10th December, 1930, operates three times weekly between Miami (Florida, U.S.A.) and Cristobal, Canal Zone, *via* Barranquilla, Colombia (connecting with the Central and South American continents). The Miami-Cristobal service was made a one-day service as from July 15th, 1937, *via* Kingston, Jamaica. A similar air service inaugurated

† Every incoming parcel post packet and every packet containing dutiable matter bears a Custom's clearance fee of 6*d.* which is collected from the addressee.

Digitized by Google

15th June, 1933, operates between Kingston, Jamaica, and San Juan, Puerto Rico, once weekly.

The estimated number of letters and post cards handled is as follows :—

Year 1937.

	Internal.	External.		Total.
		Outwards.	Inwards.	
Letters	14,200,000	1,785,030	3,824,400	19,809,430
Post Cards	375,500	243,400	75,500	694,400
	14,575,500	2,028,430	3,899,900	20,503,830

There is regular and frequent communication between Europe and Jamaica. Messrs. Elders' and Fyffe, the Jamaica Banana Producers S.S.C., and Standard Fruit and Shipping Co. furnish frequent and regular Services for mails, passengers and freight. The voyage takes 12 to 12¼ days. There is also steamship communication between the United States, Jamaica, and Central America, maintained by United Fruit Co. and Grace Line, and Standard Fruit and S.S. Co. The Canadian National Steamships also furnish regular Services to Canada, British Honduras, Nassau and Bermuda.

Overseas telegraphic communications are operated by Cable and Wireless (West Indies) Ltd., working in close association with Cable and Wireless, Limited, London, providing world-wide facilities by submarine cable and wireless telegraph circuits with particular emphasis on British Empire communications.

Automatic Duplex signalling is available from Kingston to London, Montreal, New York, Halifax, N.S., Bermuda, Barbados, Cuba, and Porto Rico and direct wireless circuits with Nassau, Bahamas, Belize, British Honduras, and Cayman Islands.

Communications with Ships at Sea off Jamaica is maintained through the Company's Kingston W/T Station (V Q I).

Radiotelephone facilities are also provided by Cable and Wireless (West Indies) Limited interconnecting with the public telephone Services in Jamaica.

All the West India cables mentioned above were taken over and operated by the West India and Panama Telegraph Company in conjunction with Cable & Wireless Limited as from 1st January, 1937.

Telegraph lines connect all the principal towns, and there are 208 telegraph and telephone stations. The total mileage open is 2,646. 2,158 miles along roads, 215 miles P.O. lines on railway, and 273 along railway lines. The receipts in 1937 were 17,575*l.*

The railway extends from Kingston to Montego Bay, in the parish of St. James, a distance of 112 miles 60 chains, and to Port Antonio, in the parish of Portland, in the other direction, by a branch line from Spanish Town of 63 miles; and to Ewarton, by a branch line from Bog Walk, on the Port Antonio branch, of 8 miles 40 chains, and by a branch line from May Pen to Frankfield, 23 miles; also from Linstead to New Works, 2 miles 40 chains. The total length of line open is 210 miles. The railway was purchased by an American syndicate, who, under agreement, extended it to Port Antonio on the north-east and to Montego Bay on the north-west, but the Company having failed the Government resumed possession of the line on 16th August, 1900. The total railway debt charge for 1937-38, providing for interest and repayment, is 89,341*l.* The receipts in 1937-38 were more than the expenditure by 63,080*l.*, leaving a deficiency of 26,261*l.* There is also a line of telegraph and telephone along the railway from Kingston to Montego Bay, 112¾ miles; Spanish Town to Ewarton, 17½ miles; from Bog Walk to Port Antonio, 54½ miles; from May Pen to Frankfield, 23 miles; and from Linstead to New Works, 2¾ miles.

The island is intersected by an extensive system of tar-treated and metalled roads, suitable for motoring, the highest one passes over a gap at an elevation of a little over 4,000 feet. Owing to the configuration of the island there are many bridges and culverts and sharp turns; the maximum grades are generally 1 in 15. There are 2,455 miles of main roads, and about 4,438 miles of parochial roads.

A coastal service is run by the United Fruit Co., the Royal Mail Lines Ltd., and the Webster Co. with motor vessels and sailing vessels whenever cargo is available.

The United Fruit Co., the Royal Mail Lines Ltd., the Jamaica Banana Producers Association Ltd., the Standard Fruit & Steamship Corp., and Harrison Line maintain a weekly steamship service and also call at outports when necessary.

Kingston, Montego Bay, Falmouth and St. Ann's Bay are ports of registry. During the year ended 31st December, 1937, no ships were built.

CUSTOMS TARIFF.

The import duties are collected at both specific and *ad valorem* rates. The articles paying specific duties fall chiefly under the heads of Food, Drink and Tobacco. Provision is made for preferential rates on Empire Products. The general *ad valorem* duty is 20% and the preferential rate is 15%. There are slight variations in these rates on certain classes of goods.

The following table shows the percentage of trade with the United Kingdom, other parts of the Empire and the principal foreign countries during 1937.

2nd Assistant Clerks of Courts, 100*l.* to 160*l.*

Education Department.

Director of Education and Inspector of Industrial Schools, B. H. Easter, C.B.E., B.A., 800*l.* to 1,000*l.*
Assistant Director of Education, H. Hughes, M.A., 600*l.* to 700*l.*
Supervising Inspector of Secondary Schools, F. Ogle, B.Sc., 550*l.*
Examiner, C. McL. Morales, B.A.
Inspectors of Schools, G. K. Roberts, H. L. Lindo, B.A., Miss R. W. Mornan, B.Sc., E. C. M. Theobalds, F. Tattersall, B.Sc., W. D. Hetherington, M.A., G. V. Helwig, Ph.D., E. A. Tomlinson (acting), 375*l.* to 450*l.*
Supervisor of Agricultural Training, O. P. Martin, 375*l.* to 450*l.*
Assistant Inspectors of Schools, R. H. Kerr, J. J. Simpson, R. W. O'N. Speid, J. N. Jones, B.A., R. A. Blake, C. S. Morrison, J. H. Loftman, J. A. Woodstock, 250*l.* to 300*l.*
Chief Clerk, H. W. Hylton, 475*l.* to 550*l.*
1st Class Clerks, A. D. Soutar, S. L. Burey, 325*l.* to 450*l.*
2nd Class Clerks, E. A. Hewett, A. L. Noad, L. L. Bonitto, N. A. Pomier, N. A. Hussey, 180*l.* to 300*l.*

Board of Education.

Director of Education, Chairman (*ex-officio*).
E. V. Lockett, B.A. (*Vice-Chairman*), Mrs. K. H. Bourne, O.B.E., Rt. Rev. W. G. Hardie, M.A., D.D., Very Rev. F. J. Kelly, F.J., Rev. E. Armon Jones, A. J. Newman, B.A., Hon. H. E. Allan, Rev. H. Ward, E. S. Jarrett, Rt. Rev. A. Westphal, Hon. Rev. J. W. Maxwell, C. D. Neilson, I.S.O., and Miss E. M. Olsson, B.A.
Secretary, A. D. Soutar (50*l.* personal allowance).

Technical and Continuation School.

Principal, J. Harris, D.Sc., M.Com.Sc., 800*l.*
Superintendent, Technical Department, W. R. Goldsworthy, 400*l.* to 450*l.*, with house allowance, 120*l.* Personal allowance, 100*l.*
Second Master, R. M. Alston, 300*l.* to 350*l.*
Engineering Instructor, N. C. James, B.Sc. (Mech. Eng.)., 450*l.*

Jamaica Schools Commission.

Chairman, B. H. Easter, C.B.E., B.A.
Vice-Chairman, Sir Thomas L. Roxburgh, C.M.G.
Members, V. E. Manton, LL.B., Rt. Rev. Bishop W. G. Hardie, D.D., Mrs. Ludlow Moody, D. T. Wint, E. V. Lockett, B.A., Geo. Hargreaves, M.D., C.M.
Secretary, F. Ogle, B.Sc.

Cornwall College.
(Montego Bay Secondary School.)

Headmaster, Rev. E. B. Baker, M.A., LL.B., 600*l.* to 650*l.*

Board of Supervision for the Relief of the Poor.

Chairman, The Hon. Dr. Lawson Gifford.
Members, Hon. Major T. J. Hallinan, C.B.E., W. H. Coke, Hon. R. Ehrenstein, J. L. Pietersz, The Hon. D. H. Hall, I.S.O., R. K. Nunes and F. N. Isaacs (vacant).
Secretary, Miss Edith Clarke, 300*l.* to 400*l.*

Ecclesiastical.

Bishop of Jamaica, Right Rev. W. G. Hardie, D.D.
Assistant Bishop, Rt. Rev. E. W. Sara.
Registrar of the Dioceses, N. B. Livingston.
There are also about 90 clergymen who are paid by the Diocesan Church Fund of the Disestablished Church of England.

Foreign Consuls.

Belgium, L. J. Stone.
Brazil, L. H. Robertson.
Chile, A. Scarborough.
Costa Rica, J. W. Martin Carazo (Consul-General).

Senior Medical Officer, Lt.-Col. E. A. Sutton, M.C.
Deputy Assistant Director of Ordnance Services, Capt. J. H. F. Hitchcock.
Command Paymaster, Capt. C. C. Blackwell.

CAYMAN ISLANDS.

Description.

The Cayman Islands, which form a dependency of Jamaica, consist of three islands—Grand Cayman, Little Cayman and Cayman Brac—lying between 79° 83′ and 81° 30′ W. longitude and 19° 16′ and 19° 45′ N. latitude, and having a total area of about 104 square miles. They were discovered by Columbus on his return voyage from Porto Bello to Hispaniola, but were never occupied by the Spaniards. The English took possession soon after the conquest of Jamaica in the middle of the seventeenth century and the islands were mainly colonised from Jamaica, though many English and Scottish mariners, shipwrecked on the coast of Cuba, settled on the islands.

The proportion of white inhabitants in the Cayman Islands is considerably larger than in other parts of the West Indies.

The principal island, Grand Cayman, is distant about 178 miles from the nearest point of Jamaica. It is 17 miles in length, with a varying breadth from 4 to 7 miles, and has an area of 85 square miles. The total population of the islands is 6,009, of which some 4,592 live in Grand Cayman, where Georgetown, the capital town, with a population of 1,321, is situated.

The coasts are for the most part rock-bound, protected by coral reefs and enclosing some fair-sized deep-water harbours.

Industries, Trade and Customs.

The chief industry of the inhabitants is catching turtle—or "turtling," as it is called. These turtles are brought to the island and placed in "crawls" to recover and fatten before export. The total number of turtle exported in 1937 amounted to 2,921, valued at 2,865*l.* The export of shark skins in 1937, 6,254 skins, was valued at 1,373*l.*

The people are first-class shipbuilders and many fine schooners are built in these islands for local use and sale abroad.

Georgetown is a Port of Registry and 42 sailing vessels and 9 motor vessels, with an aggregate net tonnage of 3,530, are on the registry of shipping there.

The islands are in some parts fruitful and the usual tropical products are grown, but a considerable acreage is traversed by honeycombed limestone and unfit for cultivation. Mahogany, cedar and other valuable timber and some dye-woods are found. Agricultural pursuits are fostered and encouraged by an Agricultural Society.

Many of the islanders find employment on the mainland of America and in foreign vessels, supporting their families in Cayman by remittances from abroad.

An *ad valorem* customs duty of 12½ % is levied on most imported commodities, with specific duties on alcoholic liquors and tobacco. The revenue derived from these duties amounted to 3,852*l.* in 1937.

There is a British preferential tariff on certain articles.

Climate.

The climate from November to March is cool, the prevailing winds being from the north, but during the summer months, it is hot, with southerly winds. Mosquitoes abound in the summer. The rainfall at Georgetown during 1937 was 80.27 inches, the average annual rainfall being about 55 inches.

The more recent hurricanes at the islands occurred in November, 1932, September, 1917, August, 1909, and August, 1903—previous to this there was a severe hurricane in October, 1876. During 1935 a modern Meteorological Station was erected at Georgetown, and observations taken form an important study of Meteorological phenomena in the Caribbean, especially in connection with hurricanes.

Communications.

A regular motor-schooner service is maintained from Georgetown with Kingston, Jamaica. There is also communication by sailing and motor vessels with the ports of Central America and the United States.

There are motorable roads connecting every district in both Grand Cayman and Cayman Brac.

There are two wireless stations: Georgetown, Grand Cayman and Stake Bay, Cayman Brac; the latter established in 1936, the former in 1935. The principal tariffs per word are (deferred):—Jamaica, 6*d.*; United Kingdom, 1*s.* 5*d.*; Canada, 1*s.* 2*d.*; New York, 1*s.*

Education.

Education is in charge of a Board of Education which receives an annual grant of 1,500*l.* from the public revenue. Thirteen public elementary schools are maintained, with a roll of 886 pupils and an average attendance of 670.

Constitution.

The Government is administered by a Commissioner who is also Judge of the Grand Court. Justices of the Peace (at present 24) are appointed by the Governor of Jamaica and these, with 27 elected members, known as Vestrymen, constitute the Legislative Assembly under the presidency of the Commissioner. Elections are held biennially.

Digitized by Google

The present constitution of this Assembly of Justices and Vestry is 100 years old and the centenary was commemorated by a special issue of postage stamps in 1932.

Year.	Revenue.	Expenditure.	Imports.	Exports.
1935 .	13,433*l.*	9,212*l.*	24,355*l.*	10,820*l.*

1937 ..	17,410*l.*	16,649*l.*	27,321*l.*	10,478*l.*

The Public Debt amounts to 3,660*l.* being a loan made by the Government of Jamaica in 1933 to the Dependency to assist it in repairing the damage caused by the hurricane of 1932.

The Dependency has 6,119*l.* invested as a Reserve Fund.

Civil Establishment.

Commissioner and Judge, A. W. Cardinall, C.M.G., furnished house, 500*l.* to 600*l.* and fees.

Government Medical Officer, Dr. W. A. C. Hortor, M.R.C.S., L.R.C.P., partly furnished house, 65*l.* for drugs and travelling, private practice and 300*l.*

Clerk of Courts, Clerk of the Vestry, and Auditor, A. E. Panton, 150*l.*

Assistant Treasurer, Collector of Customs and Postmaster, Georgetown, A. C. Panton, M.B.E., 180*l.*

Collector, Postmaster, etc., Lesser Cayman Islands, A. S. Rutty, M.B.E., 160*l.*, and fees.

Inspector of Police, Bailiff, Grand Court, etc., J. R. Watler, 150*l.* and fees.

TURKS AND CAICOS ISLANDS.

Situation and Area.

The Turks and Caicos Islands lie between 21° and 22° N. lat., and 71° and 72° 37′ W. long. Their area is about 166 square miles. The most important island, Grand Turk, is 6½ miles long and 1½ miles broad. According to the census of 1921 Grand Turk contains 1,568 inhabitants, being one-third of the total population which in 1921 was 5,612. The inhabitants are of mixed European and African extraction. The majority of the people are connected with the Bermudas, from which these islands were first settled. They all speak English. Cockburn Harbour in S. Caicos, immediately opposite Grand Turk, is the principal settlement in the Caicos group.

History.

These Islands were discovered in 1512 by Ponce de Leon, but the group remained uninhabited till the end of the 17th century, when it began to be annually visited by salt rakers from Bermuda. These were expelled by the Spaniards in 1710, but soon returned, and for some 40 years continued this industry with more or less frequent interruption by attacks from the Spaniards. It was not, however, till 1799 that, for the purposes of government, they were included in the Colony of the Bahamas, to which group they geographically belong. In 1848 they were made independent of the Bahamas. In 1873 they were annexed to Jamaica and still remain one of its dependencies.

Two hurricanes passed over these Islands in 1926, on July 24th and September 16th respectively, and did great damage. The second one was the most disastrous, as regards damage to property, in the history of the Dependency.

Another hurricane passed over these Islands on September 14th, 1928, which did considerable damage and caused the loss of 17 lives.

Industries, Trade and Customs.

Salt raking is the only industry of any importance, the average quantity annually gathered being about 1,600,000 bushels, equal to 56,000 tons. 1,400,840 bushels were exported in 1937 valued at 22,662*l.* Sponges are found on the Caicos Bank, and there is a sponge-curing establishment at Cockburn Harbour, South Caicos. The export of sponge in 1937, 39,500 lbs., was valued at 3,545*l.* 489,500 dried conchs (shell fish), valued at 412*l.*

A lobster canning plant is established at the Caicos Islands. 1,384 cases of lobster, valued at 2,030*l.*, were exported during 1937. 12,000 live lobsters were exported to France.

Practically the whole of the food and household necessaries are imported. Grand Turk is a port of registry, and had, on the 31st Dec., 1936, 68 vessels registered, of a total tonnage of 1,289 tons. Salt Cay and Cockburn Harbour are ports of entry, possessing good anchorage.

The bulk of the imports (16,239*l.* in 1937 out of a total of 25,654*l.*) are from the U.S. of America. The exports are chiefly to Canada and the United States.

An *ad valorem* customs duty of 15% is levied on most imports and specific duties on alcoholic liquors, tobacco, flour and a few other articles.

The British preferential tariff is 10%.

Climate.

The climate is equable and healthy, and rarely unpleasantly hot, owing to the constant sea breezes, but there is a scarcity of fresh provisions and good water, owing to the low lying barren nature of the soil.

The mean temperature (day) is 78°, the extreme range being from 60° to 93°. The rainfall at Grand Turk during 1937 amounted to 36·86 inches, the average rainfall during the five years 1933-1937 was 33·54 inches.

Means of Communication.

There is a mail, passenger, and freight service between New York and Grand Turk about twice a month by steamers of the Royal Netherlands West India Mail, and also between Jamaica and Turks Islands once a month by sailing vessel.

Every five weeks the Elders and Fyffes Line call on their way to Jamaica when passengers offer and on such occasions take mails to Jamaica.

The rate of letter postage is 2*d.* per ounce to all British Possessions; 2½*d.* to the U.S.A., and to all other countries 3*d.* per ounce.

There are no railways in these Islands.

Internal mails are carried between the several islands by small sailing-craft engaged in local trade.

Mails to and from England and other parts of the world are dispatched and received via New York

Grand Turk is an important cable junction, there being cables to Jamaica, to Barbados and to Bermuda.

The Government radio-telegraph system provides service between Grand Turk, Cockburn Harbour, and Salt Cay, and with ships at sea within short range.

There is a public telephone service at Grand Turk.

Education.

There are eleven elementary schools supported by Government, with 838 pupils enrolled in 1937 and an average attendance of 590. The schools are entirely unsectarian and free.

There is a Government Secondary School at Grand Turk.

Digitized by Google

Cambridge Local Examinations are held annually at Grand Turk.

Currency and Banking.

The coins in circulation, all of them being legal tender under Bahama Acts, 2 Vict. cap. 4, and 8 Vict. cap. 49, also Jamaica Law 10 of 1880, consist of British sterling, United States gold and silver, and Jamaica nickel tokens. There is no limit to the legal tender of silver. There is a local Government paper currency of five shillings, ten shillings and one pound notes. Commercial accounts are usually kept in dollars, and Government accounts in sterling. A Government savings bank was established on 1st Jan., 1890, and had, on 31st Dec., 1937, 829 depositors, with 12,158*l.* deposits.

Constitution.

By Jamaica Law No. 6 of 1926 which came into operation on the 1st day of August 1926, the Legislature consists of a Legislative Board comprising the Commissioner, who by virtue of his office is President, and seven other persons, three of whom are holders of offices under the Crown, appointed by the Governor of Jamaica. Taxation and expenditure and all local matters, are regulated by this board. Laws passed by the Legislative Council of Jamaica which are in express terms made applicable to Turks Islands take effect there. The subjects of currency, bills of exchange, patents, and the custody of prisoners and lunatics have been so dealt with.

KENYA COLONY AND PROTECTORATE.

Extent and Administration.

The territories comprised under the name of "Kenya Colony and Protectorate," previously known as the East Africa Protectorate, include the whole of the East African coast line from Umba River to Dick's Head, and territories in the interior bounded in part by international convention lines. The eastern boundary was defined along the Juba and north-east by an agreement with Italy (1891), and on the north by an agreement with Abyssinia in 1908, but upon the cession of Jubaland to Italy in 1925, a Commission was appointed to adjust the eastern and north-eastern boundaries. On the west, the Colony adjoins the Uganda Protectorate, and on the south the mandated Tanganyika Territory. The British East Africa Protectorate was proclaimed on November 19th, 1890. In March, 1891, the Imperial British East Africa Company undertook the administration of the country, from which they withdrew in 1893.

The Kenya Protectorate consists of the mainland dominions of the Sultan of Zanzibar—viz., a strip extending 10 miles inland along the coast from the Tanganyika mandated Territory frontier to Kipini and the islands of the Lamu Archipelago. In respect of these territories Kenya pays a rent of 10,000*l.* per annum to the Sultan of Zanzibar.

The original concession was made to a company, subsequently called the Imperial British East Africa Company, but the territory was transferred in 1895 to His Majesty's Government, and the whole Protectorate was placed under the control of a Commissioner and Commander-in-Chief. It was transferred in 1905, from the authority of the Foreign Office to that of the Colonial Office. By an Order in Council dated 9th November, 1906, the Protectorate was placed under a Governor and Commander-in-Chief, and the Order in Council of 22nd October, 1906, constituted Executive and Legislative Councils. The frontiers were defined by agreements with Germany (1890 and 1893) and Italy (1891), but the latter has now been varied by the cession of Jubaland to Italy under the Treaty with the Italian Government dated 24th July, 1924. All Foreign Consular Jurisdiction was, during the year 1908, transferred to the British Court.

By the "Kenya Annexation Order in Council, 1920," the territories outside the mainland dominions of the Sultan of Zanzibar were recognised as a Colony. This Order in Council came into operation on the 23rd July, 1920, and the Sultan's mainland dominions are now styled the Protectorate of Kenya, whilst the remaining territory is known as the Colony of Kenya. The area of the Protectorate and Colony of Kenya is about 224,960 square miles.

The Colony and Protectorate is divided into four Provinces, and three extra-provincial districts.

1. *The Nyanza Province*, comprising the districts of North Kavirondo, South Kavirondo, Central Kavirondo, Kericho, and Kisumu-Londiani.

2. *The Rift Valley Province* comprising the districts of Nakuru, Ravine, Baringo, Naivasha, Laikipia, Nandi, Uasin Gishu, Elgeyo, and Trans-Uzoia.

3. *The Central Province* comprising the districts of Nairobi, Kyambu, Fort Hall, South Nyeri, North Nyeri, Embu, Meru, Machakos, and Kitui.

4. *The Coast Province* comprising the districts of Digo, Mombasa, Kilifi, Tana River, and Lamu.

5. *The Northern Frontier District* comprising the districts of Isiolo, Marsabit, Moyale, Wajir, and Telemugger.

6. *The Turkana District*, comprising the districts of Turkana and West Suk.

7. *The Masai District*, comprising the districts of Ngong and Kajiado.

The Capital of the Colony is Nairobi. A Municipality has been established here in respect of a population estimated as under:—

1937.	
Europeans	6,000
Asiatics	17,300
Natives	38,000
Total	61,300

Mombasa is the principal port; the inhabitants number about 50,000, of whom about 1,200 are Europeans. Mombasa is an island of about seven square miles in area and has two harbours, Mombasa harbour on the eastern side and Kilindini harbour to the south-west. There is a lighthouse and signal station at the entrance to the port. A Municipality was established at Mombasa in 1928.

Population.

The total population is estimated at 31st December, 1937, as follows:—

Europeans	19,211
Indians	42,368
Arabs	13,660
Goans	3,658
Other non-natives	1,605
Total non-natives	80,502
Africans	3,253,689
Total	3,334,191

On the coast the Arabs and Swahilis predominate; further inland are races speaking Bantu languages, and non-Bantu tribes, such as the Nilotic Kavirondo, the Nandi, the Lumbwa, the Suk, the Turkana, the Masai, the Somalis, and the Gallas.

The prevailing religious beliefs are Pagan, but on the coast Mohammedanism has made some progress. There are in the Colony and Protectorate many Christian mission stations, representing thirteen different societies—British, French, Italian, Swedish and American, two of them being Roman Catholic. At these stations are schools for elementary instruction and handicrafts.

Constitution.

Under the Royal Instructions dated the 29th March, 1934, amended on 26th May, 1938, the Executive Council of the Colony consists of the Chief Secretary, Attorney-General, Financial Secretary, Chief Native Commissioner (*ex-officio* members), such other persons holding office in the public service of the Colony as the Governor may appoint (official members), and such persons (if any) not holding such office as the Governor may appoint (unofficial members), with the Governor as President. There are four such unofficial members. It is further provided that the Legislative Council of the Colony shall consist of the Governor as President, eleven *ex-officio* members, not more than nine nominated official members, eleven European elected members, five Indian elected members, one Arab elected member, two nominated unofficial members to represent the interests of the African community

Digitized by Google

and one nominated unofficial member to represent the interests of the Arab community. The *ex-officio* members are the *ex-officio* members of the Executive Council, with the Commissioner for Lands and Settlement, Director of Medical Services, Director of Agriculture, Director of Education, General Manager of the Kenya and Uganda Railways and Harbours, Director of Public Works, and Commissioner of Customs.

By the "Kenya Protectorate Order in Council 1920," it was provided that the Governor of the Colony should be Governor of the Protectorate, that the Executive Council of the Colony should be deemed to be the Executive Council of the Protectorate, and that it should be lawful for the Legislative Council of the Colony to legislate for the Protectorate. The Supreme Court is situated at Nairobi, and sessions are also held at Mombasa, Nakuru, Eldoret, Kisumu, and various other places. In all cases to which natives are parties local ideas and customs are considered. The legal status of slavery has been abolished throughout the Colony and Protectorate.

The 1924 ordinance governing the election of European, Indian and Arab members to the Legislative Council was consolidated and amended in 1935, but not brought into operation until 1937, when new registers of voters were compiled for the general elections which took place in 1938. Under amendments to the 1924 ordinance the boundaries of several of the eleven European electoral areas had been altered, and certain areas renamed. These were continued in the 1935 ordinance, which, however, provided for three Indian electoral areas (two each to return two members and the other one) in place of the whole country forming one constituency returning five members. For Arabs, the whole country is still one constituency. The Indian and Arab franchise, like the Europeans, is adult (over 21 years) suffrage, except that in the latter case it is made subject to the ability to write Arabic or Swahili in Arabic characters.

By the enactment in 1924 of the Native Authority Amendment Ordinance a considerable measure of local self-government was conferred on the various Native Councils in Kenya in regard to the social welfare of the tribes and the management of communal matters such as land, forests, veterinary services, etc., as well as the local control of health, education, agriculture, trade and labour recruitment. Ordinances passed in 1928 aim at the extension of local government in municipalities and settled areas.

East Africa Governors' Conference.

In pursuance of a recommendation of the Parliamentary Commission which visited E. Africa in 1924, a first Conference of Governors of the British East African Dependencies was held in Nairobi in January and February, 1926, for the discussion of matters of mutual concern. It was then decided that a permanent Secretariat for the Conference should be established at Nairobi and conferences held as and when necessary. Subsequently the Joint Select Committee on Closer Union in East Africa recommended that the machinery of the Governors' Conference should be increasingly utilised for the purpose of ensuring continuous and effective co-operation and co-ordination in all matters of common interest to East Africa. As a result of this, it was decided that the Conference should be deemed to be in permanent session with a view to its being convened at any time when necessary, and that there should in any case be an annual meeting of the Governors of Kenya, Tanganyika Territory and Uganda, attended, if desired, by the Governors of Northern Rhodesia, Nyasaland, and the British Resident, Zanzibar. The cost of the Secretariat is contributed in varying proportions by the East African Governments and by the Kenya and Uganda Railway Administration. The Secretary is also Secretary to the Transport Policy Board, of which the members are the Governors of Kenya, Uganda and the Tanganyika Territory, and to the High Commissioner for Transport, Kenya and Uganda. *Secretary:* H. L. G. Gurney, Salary 1,250*l*. *Assistant Secretary:* H. G. Richards (seconded from Provincial Administration, Tanganyika Territory).

Climate.

With the exception of the coast and the immediate interior where the average temperature is about 80°F., the climate of Kenya is cool and invigorating. At Nairobi, the mean temperature is 67°F., the mean maximum being 77°F. and the mean minimum 57°F.

There are generally two rainy seasons: the "long rains" of April to June when the greater part of the rain falls, and the "short rains" of October to December, but in the high area west of the Rift Valley and north of the railway the wettest months are April to August. No month is invariably dry, and near Lake Victoria showers occur on most afternoons. The mean annual rainfall on the coast is 40 inches, of which 20 inches may fall in April and May. Inland the rainfall decreases to 10 inches and then increases with altitude to an average of 40 inches over the Highlands. On higher ground and near the Lake average annual totals reach 70 inches.

Currency and Banking.

The standard coin is the East African shilling (silver) with subsidiary coinage of the following denominations:—50 cents (silver) and 10 cents, 5 cents and 1 cent (bronze). A note issue is maintained and notes of the following denominations are in circulation:—Shs. 10,000, 1,000, 200, 100, 20, 10 and 5.

The currency is controlled by the East African Currency Board, London, which replaced the old local Board of Currency Commissioners in 1921. The Board is represented in the Colony by local Currency Officers.

The National Bank of India Ltd. (Head Office, 26 Bishopsgate Street, London) are bankers to the Government of Kenya, with branches in the Colony and Protectorate of Kenya at Mombasa, Nairobi, Nakuru and Kisumu, and at Kampala, Entebbe, and Jinja in the Uganda Protectorate.

The Standard Bank of South Africa, Ltd. (Head Office:—10 Clement's Lane, Lombard Street, London) has branches at Mombasa, Nairobi, Eldoret, Nakuru, Kisumu, Nyeri, Nanyuki, Kitale, Kakamega in the Colony and Protectorate of Kenya, and at Kampala and Jinja in the Uganda Protectorate.

Barclays Bank (Dominions, Colonial and Overseas) with which is amalgamated the National Bank of South Africa Ltd. has branches at Mombasa, Nairobi, Nakuru, Kitale, Eldoret, Kisumu, and Kakamega in Kenya, and at Kampala and Jinja in the Uganda Protectorate.

Land and Products.

As the pursuit of agriculture is possible from sea level to altitudes of over 9,000 feet, a wide range of commodities is produced.

In the areas above 5,000 feet, coffee, tea, maize, wattle bark, pyrethrum and wheat are the principal crops. Below this altitude sisal fibre, cotton and oilseeds are most important. Other crops grown in various parts of the Colony include beans, potatoes, millets, cocoanuts, cashew nuts, sugar cane, vegetables and fruit.

Digitized by Google

Extensive pasture grounds exist under conditions extending from semi-arid to moist temperate. Large herds of cattle and sheep are maintained and considerable quantities of hides and skins and of butter are exported annually. An export trade in preserved meat is being built up.

The local market is well supplied with the main food staples and also with a tempting variety of specialities of local production and preparation.

The export trade in agricultural and pastoral products reached a total value of 3,200,629*l.* in 1937, as compared with 3,278,662*l.* in 1936, and 2,510,215*l.* in 1935.

Fishing is carried on both on the coast and on Lake Victoria and an adequate supply is obtained for local consumption.

The forest products of the Coast are mangrove poles and bark, timber, ebony, and gum copal. The highland forests contain large quantities of pencil Cedar and several other good timbers such as Podocarpus, Olive, and East African Camphor, also large areas of bamboo suitable for the manufacture of high quality paper pulp.

The following minerals have been located :—

Gold has been found throughout the Nyanza Province, and in the southern part of Masai Reserve. Traces of gold are widespread in rocks of the basement complex.

Silver is commonly associated with the gold discoveries and also occurs with base metals in the Coastal Province.

Copper, associated with pegmatite in basement complex gneiss is being investigated in the Teita district. A considerable deposit has also been reported in Nyanza Province.

Corundum occurs in considerable quantities in Machakos district.

Lead and zinc are found in the Coastal Province.

Asbestos occurs in basement complex rocks at a certain horizon, the best known occurrences being in Machakos and West Suk districts.

Arsenic occurs in the form of arsenical pyrites in the Nyanza Province.

Beryl has been found in Machakos District.

Barytes is found in the Coastal Province.

Cinnabar has been discovered at the Coast.

Diatomite is found near Gilgil and in many other parts where lacustrine beds occur.

Gypsum has been discovered near Simba.

Graphite occurs in varying concentrations in basement complex schists.

Iron Magnetite-quartzites occur in the basement complex and form a possible ore for the future.

Ilmenite (Titanium). The sand is abundantly concentrated in the rivers of the Nyanza Province.

Kyanite in long crystals occurs in Machakos District.

Limestone. Abundant in Coastal Province. Recrystallised as marble it occurs in enormous quantities near Voi, Kajiado, in Loldaika Hills and other places.

Manganese occurs in the Coastal Province.

Magnesite occurs associated with some of the Machakos district asbestos.

Mica occurs in basement complex rocks. It has been worked in West Suk and in the Ukamba Reserve.

Marble is being exploited at Kajiado.

Optical Quartz of good quality has been located in an alluvial deposit in Machakos.

Olivine is concentrated in the rivers draining the Aberdares.

Potash and Soda. These salts are being exploited at Lake Magadi.

Tin. Cassiterite has been discovered in Trans Nzoia.

Vermiculite is known to occur in Machakos.

Sapphire. Parts of the corundum deposit in Machakos have yielded small pieces of gem sapphire.

Zircon is an abundant constituent in the river beds of Nyanza, but is particularly plentiful in the streams draining the Coastal Range.

The total area of land alienated as at December 31st, 1937, was 6,987,498 acres. In addition, there are 271,360 acres of Township and Government Reserves.

Trade, Customs and Excise.

Under the terms of the Congo Basin Treaties equality of treatment in respect of imported goods irrespective of origin is ensured, and the grant of Imperial Preference is therefore inadmissible. Goods declared as in transit are allowed to be imported and forwarded under Customs control on payment of expenses of administration (6*d.* per package).

For purposes of Customs, Kenya and Uganda form a single unit and by agreement with the Tanganyika Territory Government a common Tariff has been accepted by the three territories, the free and unrestricted movement within the territories of both imported goods and local products being thus secured. The Common Tariff, however, includes a small number of "suspended duties" which are of a protective nature and may be imposed by Proclamation either in part or in full in any or all of the territories.

The general duty rating under the Common Tariff is 20 per cent. *ad valorem* based on the landed value at the port of entry, building materials, artisans' tools, and vehicles and parts being admitted at lower ratings. Specific duties are imposed on such articles as readily lend themselves to this form of assessment and in certain cases alternative specific or *ad valorem* charges are levied. Exemption from duty is allowed on drugs and medicines, packing materials, disinfectants, germicides and vermin killers, machinery, and many articles necessary for road construction, sanitation, irrigation and drainage purposes, and for the agricultural, industrial, and educational development of the territories.

For Kenya and Uganda, the value of Trade Imports (excluding imports on Government Account, railway material and goods in transit and transhipment) and of exports (domestic and foreign) and the net amount of Customs receipts from all sources and the tonnage entered at Kenya Ports, were as follows :—

Years.	Trade Imports.	Trade Exports.	Customs Receipts.	Tonnage entered. Net. Tonnage.
	£	£	£	
1928	8,747,777	8,764,671	1,345,170	1,814,731
1929	8,920,579	9,141,611	1,390,026	1,950,733
1930	6,923,665	6,948,218	1,139,031	1,904,266
1931	5,092,026	5,505,943	1,002,001	1,800,701
1932	4,662,859	5,870,708	880,520	1,684,696
1933	4,686,022	7,307,296	874,055	1,820,709
1934	5,424,420	7,505,142	979,092	1,902,356
1935	6,249,657	8,696,466	1,088,089	2,090,134
1936	6,972,112	10,545,898	1,203,490	2,102,588
1937	9,843,219	12,152,739	1,480,116	2,253,183

In 1937 the main imports into Kenya and Uganda were :—Grain and flour, 175,629*l.*; Beer, wines and spirits, 133,491*l.*; cigarettes, cigars and tobacco, 164,607*l.*; coal, 234,603*l.*; Cement, 75,032*l.*; iron sheets (galvanised and corrugated), 155,033*l.*; tools and implements, 146,832*l.*; electrical goods and apparatus, 160,657*l.*; machinery, 639,387*l.*; cotton piece goods and manufactures, 1,365,635*l.*; woollen and worsted yarns and manufactures, 63,409*l.*; silk and artificial silk tissues and manufactures, 215,506*l.*; jute bags and sacks, 153,494*l.*; haber-

dashery and wearing apparel, 297,588*l.*; chemicals, drugs, dyes, paints and colours, 233,621*l.*; fuel oil 293,227*l.*; lubricating oils and greases, 76,639*l.*; motor spirit, 285,120*l.*; mineral oil, illuminating or burning, 102,107*l.*; stationery and other paper manufactures, 177,745*l.*; motor cars, parts and accessories, 418,678*l.*; motor lorries, tractors, parts and accessories, 450,506*l.*; tyres and tubes for vehicles, 154,705*l.*

The principal countries of origin were:—United Kingdom, 41·19%; British possessions, 16·51%; (total British Empire, 57·70%); Germany, 5·46%; Belgo-Luxemburg Economic Union, 2·65%; France, 0·67%; Italy, 0·71%; Netherlands, 0·79%: Japan, 14·67%; Persia, 3·56%; United States of America, 9·02%; Dutch East Indies, 1·12%; Other foreign countries, 3·65%—(total foreign countries, 42·30%)

The principal domestic exports of Kenya and Uganda during 1937 were:—Maize, 198,832*l.*; coffee, 1,153,179*l.*; sugar, 167,417*l.*; tea, 474,599*l.*; tin ore, 76,633*l.* (Uganda); cotton and cotton seed, 4,856,241*l.* (mainly Uganda); sisal, fibre and tow, 692,283*l.*; sesame seed, 28,622*l.*; hides and skins, 417,496*l.*; wattle bark and extract, 121,240; ivory (elephant), 39,092*l.*; wool, 52,633*l.*; gold bullion, 540,680*l.*

The chief countries of destination were:—United Kingdom, 26·61%; British Possessions, 43·90%; (total British Empire, 70·51%); Germany, 1·14%; Belgo-Luxemburg Economic Union, 3·51%; France, 1·17%; Italy, 0·50%; Netherlands, 1·61%; Japan, 12·72%; Egypt, 0·50%; United States of America, 3·20%; Italian Somaliland, 0·37%; Mozambique, 0·58%; other foreign countries, 4·19%—(total foreign countries, 29·49%).

Communications.

The Union Castle Mail Steamship Company and the British India Steam Navigation Co. maintain a monthly service of passenger steamers from and to London. The Union Castle vessels run either via the Cape or Suez.

The Messageries Maritimes from Marseilles to Madagascar call fortnightly at Mombasa, homewards and outwards.

Lloyd Triestino, S.A., have three lines, one calling fortnightly, running from Genoa to Zanzibar and back. The second from Red Sea ports to Zanzibar and back calling at the principal ports including those of Italian Somaliland. The third line runs monthly a round Africa service both ways to Italian ports.

The Clan Ellerman Harrison Line maintains a three-weekly service of fast cargo steamers from Liverpool; also a service from the U.S.A. and Canada.

The Holland Afrika Line maintains a fortnightly service from London and continental ports to South and East Africa calling at this Port.

The Deutsche Ost Afrika Line maintains a three-weekly passenger and cargo service between Mombasa, Continental ports and Southampton.

The Osaka Shosen Kaisha Line connect monthly with Japan.

India-Africa Line (Andrew Weir & Co.) connect monthly with India and South Africa.

American South African Line (Inc.) connect U.S.A. monthly via S.A. ports.

Robin Line connect U.S.A. monthly via S.A. ports.

A fortnightly Mail Service to Bombay and Durban is maintained by the British India Steam Navigation Company's passenger and cargo steamers. The North bound ships connect at Bombay with the P. & O. mail steamers to England.

A monthly passenger service is maintained with Batavia via southern ports by the Royal Packet Company of Holland.

A monthly cargo service is maintained by the "Silver Java Pacific Line" from America via S.A. ports to Java and back to America via Pacific.

Communication between the coastal ports of the Protectorate is maintained by steamers belonging to the B.I.S.N. Co.

The Kenya and Uganda Railway was formerly worked as a State Railway of Kenya Colony, but in 1921 it was decided that from 1st April this line together with all branch lines and steamer services both in Kenya and Uganda should be controlled by an Inter-Colonial Railway Council, consisting of a chairman and one official and one unofficial member from each Territory (Kenya and Uganda), and that railway surpluses should not be available for general colonial revenue purposes.

On the 3rd February, 1926, the Kenya and Uganda (Transport) Order-in-Council, 1925, came into force, by which was established the office of High Commissioner for Transport for the Colony and Protectorate of Kenya and the Protectorate of Uganda. It provided that this office should be held by the Officer administering the Government of Kenya, and that he should have the control of the transport services owned, controlled, or managed, by the Governments of either of the two Territories, including railways, ports, wharves and steamships; the services were to be known as the Kenya and Uganda Railway. The Order-in-Council further provided for the constitution of a Kenya and Uganda Railway Advisory Council to consist of not more than two official and two unofficial members representing Kenya, and not more than two official and two unofficial members representing Uganda, each territory's representatives, official and unofficial, to be appointed by the respective Governors; and it directed that a Railway and Harbour Fund should be formed, into which was to be paid all revenue derived from the administration of the services, and from which all disbursements were to be made.

By an amending order in Council, dated the 13th August, 1935, the High Commissioner for Transport now consists of (*a*) the Officer Administering the Government of Kenya and (*b*) the Officer Administering the Government of Uganda acting, save where specifically otherwise provided therein, jointly or in conference.

The length of the line, which is metre gauge, including branches open to traffic at the end of 1937 is 1,622 miles, excluding loops and industrial sidings.

The Railway Marine consists of the Lake Victoria, Lake Kioga, Lake Albert, and River Nile flotillas.

Their respective strengths are as follows:—

Lake Victoria,	3 Steamers, total displacement 3,646 tons.
	4 Tugs and 2 Launches.
	2 motor vessels (Kagera River and Kavirondo Gulf Services).
	37 Lighters, total capacity 4,340 tons.
Lake Kioga,	3 Sternwheel Steamers, total displacement 468 tons.
	17 Lighters, total capacity 1,800 tons.
Lake Albert and River Nile	4 Steamers, total displacement 1,256 tons.
	1 Launch.
	7 Lighters, total capacity 420 tons.

The following figures include all services both in Kenya and Uganda:—

Digitized by Google

Total Expenditure on Capital Account at the end of 1937 ..	22,151,873*l.*
Revenue for 1937—	
Railways	2,715,524*l.*
Harbours	513,241*l.*
Ordinary Working Expenditure excluding Loan and Redemption Charges, for 1937—	
Railways	1,261,278*l.*
Harbours	199,487*l.*
No. of Passengers carried	771,471.
Goods carried (Revenue earning) Tons	1,036,909.
Total Steamer Mileages (all three services)	183,774.

In 1927 the title of the Kenya and Uganda Railway was changed to that of Kenya and Uganda Railways and Harbours, and the Administration assumed control of the working of the Port of Mombasa and coastal ports.

The old harbour at Mombasa is now entirely used by dhows. Kilindini Harbour, at the Port of Mombasa, is the finest land-locked and sheltered harbour on the East Coast of Africa; it possesses an ample water supply. It has been the scene of intensive development during recent years, and some 3¼ million pounds sterling have been expended there. There is now, in addition to the former lighterage quay, a deep-water quay having a length of approximately 3,000 feet. This quay can accommodate six ships alongside of the normal type using the port. The quay is served by 25 electric level-luffing cranes and there are five transit sheds, three of which are double storey. The total number of quay, shed and stacking ground cranes are 82 up to date. Bulk oil from ships is discharged to tanks ashore at a special jetty. Another jetty, formerly owned by the Magadi Soda Co., has been acquired by the Port, together with the sheds and conveyors, and this berth is now used for loading commodities other than soda.

A Harbour Advisory Board, set up under the authority of an Order in Council enacted in December, 1927, advises the High Commissioner for Transport on port matters.

The principal river flowing into the Indian Ocean is the Tana, which is navigable for about 400 miles by small shallow draft steamers. The bar at Kipini is an obstacle to navigation from the sea.

The Port of Kilifi consists of a land-looked Harbour, 30 miles North-East of Mombasa. It offers good anchorage for small vessels, and opens out into the Bandari Ya Wali, a bay about one-and-half miles wide, with shallow anchorage.

There is a District Commissioner in residence at Kilifi.

The Port of Malindi is an open Harbour, 60 miles North East of Mombasa. Ships of any size can anchor off Malindi, but the anchorage is very exposed to the Monsoons. Cotton, Sim sim, and Copra are exported.

A District Officer resides at Malindi.

About three miles North of Malindi is the mouth of the Sabaki River. This river, which has recently been bridged about a mile from its mouth, passes through a country of great fertility, but is shallow and only navigable by canoes.

The Port of Lamu lies between Lamu and Manda Islands, 140 miles North-East of Mombasa. The town of Lamu, the most important Coast town North of Mombasa, is situated on Lamu Island. There is a good anchorage for vessels of moderate draught, but the bar carries only 15 feet at low water. The exports are cocoa-nuts, copra, rope, mat bags, and some cattle.

There is a District Commissioner in residence at Lamu.

Posts and Telegraphs.

The Post Office of the Colony (exclusive of Uganda and Tanganyika, which are worked by the Kenya Post Office) received and despatched during 1937, 15,391,000 letters, packets, etc., and 507,900 telegrams.

The telegraph and telephone system has 17,694 miles of wire (exclusive of Uganda and Tanganyika). The lines connect Mombasa with Lamu (166 miles), Kipini with Witu (13 miles), Mombasa to Tanganyika Border (61 miles), Mombasa with Nairobi (331 miles), Voi to Tanganyika Border (80 miles), Konza with Magadi (91 miles), Konza with Machakos (22 miles), Nairobi with Thika (35 miles), Thika with Makuyu (19 miles), Makuyu with Nyeri (58 miles), Nyeri with Nanyuki (32 miles), Nanyuki with Isiolo (69 miles), Nairobi with Kiambu (10 miles), Nairobi with Kijabe (43 miles), Kijabe with Narok (61 miles), Kijabe with Gilgil (39 miles), Gilgil with Thomsons Falls (45 miles), Thomsons Falls with Rumuruti (22 miles), Gilgil with Nakuru (38 miles), Nakuru with Nakuru Junction (5 miles), Nakuru Junction with Kisumu (132 miles), Kisumu with Kakamega (23 miles), Lumbwa with Kericho (19 miles), Kericho with Chemagel (32 miles). Kericho with Kisii (54 miles), Muhoroni with Songhor (10 miles), Kibigori with Eldoret (54 miles), Kisumu to Uganda Border (86 miles), Nakuru Junction with Eldoret (118 miles), Rongai with Lake Solai (27 miles), Maji Mazuri with Eldama Ravine (6 miles), Eldoret with Moiben (25 miles), Eldoret to Uganda Border (99 miles), Leseru with Kitale (42 miles), Kitale with Endebess (11 miles), Kitale with Kiminini (11 miles), Kapsabet with Kakamega (30 miles). Lines also follow all Railway routes. Communication between Mombasa and ships at sea and Italian Somaliland is maintained by means of radio-telegraphy. A cable connects Mombasa with Zanzibar. A short-wave wireless station, owned and maintained, under licence from Government, by Cable and Wireless Limited, is established at Nairobi and provides communication between the Colony and Protectorate and Great Britain.

Telegraph communications exists with Uganda and Tanganyika Territory. The Kenya telegraph system is also linked up via the Tanganyika Territory, Nyasaland and Rhodesian systems with the South African service. Communication with the Belgian Congo is maintained through Uganda, with which the Belgian Congo system is linked up.

Telephone Exchanges are established at:—Athi River, Eldoret, Fort Hall, Gazi, Gilgil, Isiolo, Kabete, Kakamega, Kericho, Kiambu, Kijabe, Kikuyu, Kisumu, Kitale, Koru, Limuru, Litein, Lumbwa, Machakos, Maji Mazuri, Makuyu, Meru, Mitubiri, Molo, Mombasa, Nairobi, Naivasha, Nakuru, Narok, Ngong, Nyeri, Rongai, Ruiru, Sotik, Songhor, Soy, Thika, Turbo Valley. Radio Telephone communication exists between all exchanges connected to the main trunk system of Kenya and Great Britain. There is telephonic communication between Nairobi—Dar-es-Salaam and intermediate points.

3,755 telephones were in use in Kenya at the end of 1937.

Aviation.

Civil Aviation continued to progress during the year. Customs aerodromes exist at Kisumu, Nairobi and Mombasa, and 12 aerodromes are established for regular use. In addition, 19 emergency landing grounds are maintained at various points. There are

7 licensed landing grounds maintained by Municipal or private enterprise for regular use by the flying public and approximately 10 unlicensed privately owned landing grounds also exist.

1937 saw the introduction on the African route of the Empire Air Mail Scheme under which all first class mail between the United Kingdom, East Africa and South Africa and other Empire countries on the route is carried free. The services are operated by Empire Flying Boats thrice weekly to Kisumu and twice weekly to Durban via Mombasa. Feeder services connect Kisumu and Nairobi and fly down the overland route to Lusaka.

A coastal Air Mail feeder service, linking Dar-es-Salaam, Zanzibar and Mombasa with Nairobi and the Empire Service is operated by a local company —Wilson Airways, Limited. Scheduled mail and passenger carrying services to mining and other areas are operated by Wilson Airways, which in addition undertakes an increasing amount of taxi flying.

The value of cargo landed and shipped in 1937 by aircraft at Customs aerodromes was 897,999*l.*, including bullion.

Of the 32 civil aircraft registered in the Colony, 16 are owned by commercial companies.

Finances.

Year.	*Revenue.* £	*Expenditure.* £
1928	3,020,694	2,834,647
1929	3,333,742	3,505,072
1930	3,241,600	3,438,874
1931	3,066,930	3,216,089
1932	3,010,214	3,119,723
1933	3,121,496	3,168,035
1934	3,182,939	3,180,795
1935	3,304,026	3,252,784
1936	3,496,389	3,350,381
1937	3,667,394	3,565,976

Public Debt—£17,580,600.

The following were the chief sources of Revenue or 1937 :—

	£
Customs and Excise	932,853

Earnings of Government Departments	89,931
Revenue from Government Property	85,365
Sale of Government Property ..	14,039
Forest Department Revenue ..	38,511

GOVERNORS.

1909—Col. Sir E. P. Girouard, K.C.M.G., D.S.O., R.E.
1912—Sir H. C. Belfield, K.C.M.G.
1919—Major-General Sir E. Northey, K.C.M.G., C.B.
1922—Sir R. T. Coryndon, K.C.M.G.
1925—Lt.-Col. Sir E. W. M. Grigg, K.C.M.G., K.C.V.O., D.S.O., M.C.
1931—Brig.-Gen. Sir Joseph A. Byrne, G.C.M.G., K.B.E., C.B.
1937—Air Chief Marshal Sir Robert Brooke-Popham, G.C.V.O., K.C.B., C.M.G., D.S.O.

GOVERNMENT.

Executive Council.

The Governor.	Lt.-Col. the Hon. Lord Francis Scott, D.S.O.
The Chief Secretary.	Major the Hon. F. W. Cavendish-Bentinck.
The Attorney-General.	H. R. Montgomery, C.M.G.
The Financial Secretary.	Jagannath B. Pandya.
The Chief Native Commissioner.	

Clerk of the Council, R. W. Baker-Beall.

Legislative Council.

Ex-Officio Members, The Governor, The Chief Secretary, The Attorney General, The Financial Secretary, The Chief Native Commissioner, The Commissioner for Lands and Settlement, The Director of Medical Services, The Director of Agriculture, The Director of Education, The General Manager, Kenya and Uganda Railways and Harbours, The Director of Public Works, The Commissioner of Customs.

Nominated Official Members, G. H. C. Boulderson, H. M. Gardner, S. H. La Fontaine, D.S.O., O.B.E., M.C., S. H. Fazan, C.B.E., G. B. Hebden, H. C. Willan, M.C., R. Daubney, O.B.E., G. Beresford Stooke, one acting.

European Elected Members, Major F. W. Cavendish-Bentinck, S. V. Cooke, Rt. Hon. the Earl of Erroll, Lady Sidney Farrar, S. G. Ghersie, Lt.-Col. J. G. Kirkwood, C.M.G., D.S.O., Lt.-Col. F. S. Modera, D.S.O., M.C., W. G. D. H. Nicol, Lt.-Col. Lord Francis Scott, K.C.M.G., D.S.O., Major Sir R. de V. Shaw, Bt., M.C., E. H. Wright.

Indian Elected Members, Isher Dass, R. Kassim, J. B. Pandya, A. B. Patel, Shamsud-Deen.

Arab Elected Member, Sir Ali bin Salim, K.B.E., C.M.G.

Nominated Unofficial Members Representing Native Interests, Dr. C. J. Wilson, M.C., H. R. Montgomery, C.M.G.

Nominated Unofficial Member Representing Arab Interests, Sheik Hamed bin Mohamed bin Issa.

Clerk to Council, R. W. Baker-Beall (acting).

Civil Establishment.

Governor and Commander-in-Chief, Air Chief Marshal Sir Robert Brooke-Popham, G.C.V.O., K.C.B., C.M.G., D.S.O., 5,000*l.* and duty allowance 2,500*l.*; allowance as High Commissioner for Transport, 1,000*l.*

Private Secretary, 450*l.*, 300*l.* allowances, R. J. C. Howes (seconded from Administration).

Aide-de-Camp, 400*l.*, Flying Officer G. Finlayson, R.A.F.

Secretariat.

Chief Secretary, Sir A. de V. Wade, Kt., C.M.G., O.B.E., 2,200*l.*

Financial Secretary, C. R. Lockhart, C.B.E., 1,600*l.* to 1,750*l.*

Chief Native Commissioner, E. B. Hosking, O.B.E., 1,450*l.*

Deputy Chief Secretary, G. Beresford Stooke, 1,350*l.*

Deputy Financial Secretary (vacant), 1,000*l.*

Assistant Chief Secretary, C. W. Hayes-Sadler, 1,000*l.*

Assistant Secretaries (*seconded from Provincial Administration*), L. A. Weaving, H. L. G. Gurney, H. S. Potter, G. R. B. Brown, W. A. W. Clark, C. M. Deverell, 720*l.* to 920*l.*

Clerk to Legislative Council (*seconded from Provincial Administration*), R. W. C. Baker-Beall, 720*l.* to 920*l.*

Establishment Officer, R. C. M. Wood, 840*l.* to 920*l.*

*THE LEEWARD ISLANDS.

Situation and Area.

The Colony of the Leeward Islands, with a total area of 708 square miles, consists of a number of islands belonging partly to the chain of the Lesser Antilles and partly (the Virgin Islands Group) to the eastern extremity of the Greater Antilles. The islands of Antigua, Barbuda, St. Christopher (St. Kitts), Nevis and Montserrat form a fairly compact group between the 61st and 63rd degree of west longitude and around the 17th degree of north latitude; but Dominica lies about 100 miles to the south, separated by the French island of Guadeloupe from the rest of the Colony, while Anguilla, Sombrero, and still more the Virgins group (Tortola, Virgin Gorda, Anegada, etc.), lie apart to the north and north-west.

St. Kitts, Nevis, Montserrat and Dominica form part of the volcanic chain of the Lesser Antilles, whilst Antigua and Barbuda form part of the eastern sedimentary series of the same chain.

Politically the Colony is divided into five Presidencies:—Antigua (with Barbuda), St. Christopher and Nevis (with Anguilla), Dominica, Montserrat and the Virgin Islands. These have been united and separated at various times in their history, and were finally federated in 1871 by Imperial Act 34 and 35 Vict., cap. 107. Sombrero was added to the Colony by Order in Council under the Colonial Boundaries Act on the 10th August, 1904, being attached to the Virgin Islands Presidency.

* For general map of the West Indies, see under Windward Islands.

History.

The islands were discovered by Columbus on his second voyage, in 1493, and became British during the 17th century. Particulars of their subsequent history will be found in the separate articles, but it may here be mentioned, that with the exception of Dominica, they have been from the first associated politically as well as geographically. They were all colonised from St. Kitts as centre, all included in the Carlisle grant, and possessed a common Legislature as far back as the reign of William and Mary. The General Legislature met for the last time in 1798, when it passed a highly humane slave amelioration Act, which was allowed; a Catholic Emancipation Act, and an Act repealing the duty on exports of 4½ per cent. for the benefit of the English exchequer—both which were disallowed. An attempt was made by Sir William Colebrook in 1837 to revive the General Legislature, and though the attempt was regarded unfavourably in some quarters, and the Legislature never actually met, yet the right to revive it was clear, and there is no doubt that the Act of 1871, the passing of which was largely due to the energy and activity of Sir Benjamin Pine, is no more than a revival of the ancient constitution of the islands. The Presidencies of St. Kitts and Nevis, with Anguilla and their respective dependencies, were united into one Presidency by the Federal Act No. 2 of 1882.

Climate.

The climate of the islands varies, but is usually dry (except in Dominica) and fairly healthy. Antigua is subject to drought, and has an average rainfall of about 45 inches; St. Kitts, Nevis and Montserrat have average rainfalls of from 50 to 60 inches; the rainfall of Dominica averages about 120 inches. The mean temperature is about 80°, with but a slight range. The Virgin Islands are cooler. The hot season is from May to October; the rainy season from August to January.

Constitution.

By "The Leeward Islands Act, 1871," one Executive and one Legislative Council, under one Governor, were constituted for the six (now five) presidencies. The Legislative Council now consists of ten official members; nine elected members, and one nominated member (Virgin Islands). Three elected members are chosen by the unofficial members of the Legislative Council of Antigua, two by those of the Legislative Council of Dominica, three by those of the Legislative Council of St. Kitts and Nevis, and one by those of the Legislative Council of Montserrat. They must be and continue members of their respective island councils. As there is no Legislative Council in the Virgin Islands, one member is appointed by the Governor to represent that Presidency. The official members are the Governor, the Attorney-General, the Federal Treasurer, the Administrators of St. Kitts, Nevis, and Dominica, the Administrator of Antigua, who is also Federal Secretary of the Colony, and the Commissioners of Montserrat and the Virgin Islands, such other person holding office under the Government of the Colony of the Leeward Islands as the Governor with the approval of the Secretary of State may appoint and one other member appointed to balance the nominated Virgin Islands unofficial member.

The Legislative Council has concurrent legislative powers with the local legislatures on certain subjects specified in the Act, such as matters of property, mercantile and criminal law, the law

Digitized by Google

relating to status, the maintenance of a general police force and a common convict establishment, quarantine, postal and telegraph affairs, currency, audit, weights and measures, education and the care of lunatics, all matters relating to immigration, copyright and patents, and its own constitution and procedure. Any island legislature is, in addition, competent to declare other matters to be within the competency of the general legislature. Any island enactment on such subjects is void if repugnant to an enactment of the general legislature, or may at any time be repealed or altered by one.

The Council meets at least once a year, at a place notified by proclamation, and no Council lasts more than three years. The session usually lasts for about one week.

The expenses of the federal establishments are voted by the Council, and apportioned among the Presidencies.

The Council has power to alter its constitution by an ordinary Act, to be reserved for the King's pleasure, and the King has power, by Order in Council, at any time to include any other West Indian Island in the federation, upon joint addresses from the Legislative Body of such island, and from the Council, on such terms and conditions in each case as are in the addresses expressed. This power has not actually been exercised, and the inclusion in the Colony of Sombrero, which had no legislative body, was effected as above mentioned under a different Act. Constitutional changes involving the Electoral principle with unofficial majorities in the Presidential Councils came into being in 1937.

Currency and Banking.

The usual currency is British silver, a few British and United States gold coins being occasionally met with. Barclays Bank (Dominion, Colonial and Overseas) Ltd. and the Royal Bank of Canada have branches in Antigua, St. Kitts, and Dominica, and the latter bank has a branch in Montserrat. In Nevis and the Virgin Islands there are no banks.

Government savings banks have been established in all the Presidencies.

Means of Communication.

The following Steamship Lines serve the Colony :—

Canadian National Steamships (from Canada and Bermuda) and Ocean Dominion Line (from Canada) call fortnightly at the chief ports in the Colony, proceeding to Windward Islands, Barbados, Trinidad and British Guiana.

Furness-Bermuda Line (Br.), Ocean Dominion Line (U.S.) and Caribbean Line about once every two weeks from New York and St. Thomas call at St. Kitts, Antigua, Montserrat and Dominica, proceeding to French West Indies, Windward Is., Barbados, Trinidad, etc.

Passenger steamers to and from London (Harrison Line) proceed direct to Antigua every month. Passengers travelling between England and the Leeward Islands can travel direct between England and Barbados by the Elders & Fyffes Line, or Harrison Line, or the Royal Dutch West India Line, etc., and between Barbados and the Leeward Islands by Canadian National Steamships or by the Furness Bermuda Line.

Passengers may also travel to or from England via New York or Canada by the Lines mentioned.

An Air Mail service operated by Pan American Airways calls weekly at Antigua from Miami (U.S.A.) *via* Cuba, Haiti, Santo Domingo Porto Rico and St. Thomas, proceeding to St. Lucia, Trinidad, Georgetown (Br. Guiana) and Paramaribo (Dutch Guiana) and returns, also weekly, in the opposite direction.

Air Mails are also conveyed by the Company to Jamaica, Central America and South America (see below).

Posts and Telegraphs.

Mails with Great Britain are exchanged via New York, occasionally via Barbados, and sometimes direct from Antigua, and direct with Canada, the United States and the British West Indies.

Mails are also exchanged by Air with the places served by the Pan American Airways, and with Great Britain and Canada *via* Miami, U.S.A.

There are 45 Post Offices in the Colony and the rates of postage are as follows :—

Inland.—Letters, 1*d.* for the first 2 oz., ½*d.* per additional 2 oz.; Post cards, ½*d.*

British Empire, Egypt and Tangier.—Letters, 1½*d.* for the first oz., 1*d.* per additional oz.; Post cards, 1*d.*

Other places.—Letters, 2½*d.* for the first oz., 1½*d.* per additional oz ; Post cards, 1*d.*

All places.—Printed matter, ½*d.* per 2 oz.; "small packets," 5*d.* up to 10 oz.; 1*d.* for every additional 2 oz.

Parcel post despatches are exchanged with Great Britain *vid* Barbados, Canada and New York and direct with Canada, the United States and British West Indies, Bermuda, Br. Guiana, Guadeloupe and Dependencies and the Dutch West Indies, and *vid* London or New York to other countries.

British Imperial Postal Orders are issued and paid in the Colony and Money Orders are exchanged direct with Great Britain, Canada, the United States and British West Indian Colonies.

Telephone Systems are maintained by the Government in Antigua, St. Kitts, Nevis, Dominica, and Montserrat.

Telegraph communication is maintained by means of Wireless operated by Cable & Wireless (West Indies) Ltd., there being stations at Antigua, Dominica and St. Kitts, all of which communicate with one another and with Barbados for telegrams to the United Kingdom, Canada, North America, etc. There is also a wireless station in Montserrat maintained by the Colonial Government but operated by the Company.

The principal tariffs are :—

	Ord.	Def.	N.L.T.
To England	1/3*d.*	7*d.*	5*d.*
To Eastern Canada	1/3*d.*	7*d.*	5*d.*
To Western Canada	1/3*d.*	7*d.*	5*d.*

Digitized by Google

There are also cheap rates at one half and one third of the ordinary tariff, the latter being subject to a minimum charge.

The cable stations at Antigua, Dominica and St. Kitts are operated by the existing Wireless Company.

General Statistics of the Leeward Islands.

Total population, census 1921, 122,242, being a decrease of 4,951 on that of 1911.

Estimated total population on 31st Dec., 1937, 142,063.

Year.	Imports.	Exports.	Revenue.	Expenditure.
	£		£	£
1928-29	838,091	855,188	331,365	328,305

1936	662,384	631,612	276,069	281,808
1937	746,720	831,436	386,400	336,248

Chief Towns.

The most important towns are St. John (Antigua), 6,997; Basseterre (St. Kitts), 7,736; and Roseau (Dominica), 6,803, all 1921 census.

Education.

The system of elementary education is denominational in Montserrat and the Virgin Islands, the various denominations being Anglicans, Wesleyans and Roman Catholics. In the other Presidencies elementary education is provided by the Government. On 31st December, 1937, there were 111 aided and Government schools in the Colony. The clergy of the various denominations are granted facilities for giving religious instruction during school hours to the children of their respective churches. During the year 1937, the Government grants to all the elementary schools in the Colony amounted to £20,000.

School fees have now been abolished in all public elementary schools throughout the colony. The schools are required to receive all children applying for admission. Grants-in-aid are refused to superfluous or inefficient schools. In the 111 aided and Government schools there were enrolled on 31st Dec., 1937, 25,800 children, with a daily average attendance of 17,476. For secondary education there are Government grammar schools for boys in St. Kitts and Dominica, and one for boys and girls in Montserrat, private grammar schools for boys in Antigua and Dominica, private girls' high schools in Antigua and St. Kitts, and private mixed schools in Antigua, Nevis, St. Kitts (convent) and Dominica (convent).

The standard of the secondary schools is the Cambridge School Certificate.

There is a training college for female teachers in Antigua (under the control of the Moravian Church).

Civil Service.

A system of grading civil service clerks has been established throughout the Colony. The pay assigned to the several grades is as follows:—

Assistant Clerks (Men)	£65–£5–£90.
,, ,, (Women)	£60–£5–£90.
Junior Clerks (Men)	£100–£10–£200.
,, ,, (Women)	£100–£10–£160.
Senior Clerks	£200–£10–£250.
Principals	£250–£10–£350.

Crown Attorneys, (vacancy) (Dominica), (also receives 250*l.* as Magistrate Dominica), A. Ridehalgh (St. Kitts-Nevis), (also receives 400*l.* as Magistrate St. Kitts), 250*l.* each.
Chief Registrar (vacant).

Printing Department.

Superintendent, S. C. Carmichael, 200*l.* by 10*l.* to 250*l.*, personal allowance, 20*l.*

Medical.

Supernumerary Medical Officers, Dr. A. McDonald and Dr. L. F. E. Lewis, 350*l.*

ANTIGUA.

Antigua is situated in W. long. 61° 45′, and N. lat. 17° 6′. It is about 54 miles in circumference, and its area is officially recognised as 108 square miles, about half the size of Middlesex.

The islands of Barbuda (population 902) and Redonda are dependencies of Antigua. They have a total area of 62½ square miles. Barbuda lies about 25 miles due north of the main island, with an area of 62 miles, is very flat, with a large lagoon on the west side, separated from the sea by a spit of sand. It was long owned by the Codrington family. It produces sea island cotton, charcoal, salt and phosphates of lime, and is well adapted for cattle grazing and horse rearing. Cotton is being grown with favourable results. Deer were introduced by the Codringtons. The island has communication with Antigua by a sailing-boat service. Redonda, lying between Montserrat and Nevis, 25 miles S.W of Antigua, in 25° 6′ N. lat., 61° 35′ W. long., 1 mile by ½ mile, 1,000 feet high, is valuable for its phosphate of alumina mines, discovered in 1865, formerly worked by the Redonda Phosphate Company under license and subject to an annual rental of 50*l.*

Antigua was discovered by Columbus in 1493, who named it after a church in Seville, called Santa Maria de la Antigua. It was first inhabited by a few English from St. Kitts in 1632. In 1663 Charles II. made a formal grant of the island to Lord Willoughby, who sent out a large number of colonists. After an interval of French occupation, it was declared a British possession by the Treaty of Breda, 1666. There are no rivers, but there are a few springs and many wells, and the island has not latterly been subjected to the droughts from which it suffered in the past. The island is in the main low-lying and has no forests. Rainfall:—

Year.	St. John's.

1935	49·08
1936	74·31
1937	61.80

On the 22nd March, 1898, the Legislative Council, which was previously partly elected and partly nominated by the Governor, passed an Act abrogating itself and substituting the Crown Colony system. The new Council consists of sixteen members, eight official and eight non-official, all nominated by the Governor under Royal Letters Patent. The Governor presided. By Ordinance No. 20 of 1936 the Council was reconstituted and the Council is now composed of the Administrator as President, 2 other officials, 3 nominated and 5 elected members.

The chief products are sugar and cotton. In 1936, 12,800 acres were under sugar-cane, 612 under cotton, 1,600 under provisions, and 53,968 were uncultivated.

St. John, the chief town, has a population of 6,997 (census of 1921), and is a port of registry, having on 31st December, 1937, 18 sailing vessels registered, with a total tonnage of 226.

ST. CHRISTOPHER AND NEVIS.

This Presidency consists of the Islands of St. Christopher (St. Kitts), Nevis and Anguilla. These were united to form one Presidency by the Federal Act No. 2 of 1882.

The total population on 31st December, 1936, was estimated at 37,454, as compared with 38,214 at the census of 1921. The total area about 152 square miles.

Constitution and Government.

In 1625 Mr. (afterwards Sir Thomas) Warner landed in St. Christopher, bearing a Royal Commission to the Earl of Carlisle, by which the islands of St. Christopher (or Merwar's Hope), Nevis, Barbados and Montserrat were taken under royal protection, and given over to his custody as the King's Lieutenant.

In 1671 St. Christopher, Nevis, Montserrat, Antigua, Barbuda, Anguilla "and all the other Leeward Islands" were separated from Barbados and created the "Leeward Caribbee Islands Government," and Sir Charles Wheler was appointed "Captain-General" of the same. The chief seat of government was then at Nevis, but afterwards transferred to Antigua, and the government of each island, in the absence of the Captain-General, was administered by a Lieutenant-Governor, or, when none such was appointed, by the President of the Council.

In 1689 Colonel Christopher Codrington was appointed Governor-in-Chief, and his Commission, granted by William III., and dated 20th October, 1689, authorised him to call assemblies of freeholders and planters within any of the islands "jointly and severally to make laws for the public peace, welfare and good government of the said islands," thus providing for separate and federal legislatures. The Legislature in St. Christopher and in Nevis, as in the other islands of the government, consisted of two houses, a nominated Council and an elected Assembly, and had secured to it its own peculiar laws and local jurisdiction.

By Letters Patent, dated 26th April, 1816, the Commission originally granted to Sir William Stapleton was revoked, and the Leeward Caribbee Islands formed into two distinct governments, the first comprising Antigua, Montserrat and Barbuda, and the other St. Christopher, Nevis, Anguilla and the Virgin Islands.

By Letters Patent, dated 23rd November, 1832, the General Government was restored, Dominica being for the first time included, and a Governor and Commander-in-Chief, with two Lieutenant-Governors for St. Christopher, Nevis and Anguilla, and for Dominica respectively, were appointed, each island possessing a Legislative Council and House of Assembly, which continued, under the supervision of the Governor-in-Chief, to legislate for local interests.

In 1866 measures were introduced in each island to alter the constitution, and the two houses then existing were replaced by a single Legislative Assembly, consisting of *ex-officio* members, nominees of the Crown, and representatives of the people elected under a limited franchise.

In 1878 the single chamber constitution was repealed in St. Kitts and in Nevis, and the Crown Colony form of government adopted in its stead, and in 1882 these two islands, with Anguilla, were united into one Presidency.

The office of Lieutenant-Governor, which existed until 1870, has been abolished, and the Presidency, in the absence therefrom of the Governor, is under the immediate supervision of an Administrator.

There is one Executive Council for the Presidency, consisting of the Governor, the Administrator, certain *ex-officio* members, and such other persons as His Majesty may from time to time appoint. The Legislative Council consists of two official, three nominated unofficial members and five elected members, besides the Administrator. Of the elected members three are representatives of the electoral

district of the island of St. Christopher, one represents the island of Nevis and one Anguilla. These members are elected by ballot by voters of the electoral districts they respectively represent. As no residential qualification is necessary it is possible for a person from any one of the islands, provided he is a registered voter and is standing for election, to be elected to represent any one of the other districts. Each island is a separate electoral district. The President of the Council enjoys a casting vote in the event of a tie in the votes of members at a meeting. The Council meets at the town of Basseterre in St. Kitts.

Industry, Trade and Customs.

Sugar is the principal crop in St. Kitts (202,994 tons of cane in 1938 crop, from 9,760 acres, 27,935 tons of sugar manufactured). It is grown in the Basseterre Valley and on the lower slopes round the island (the northern side showing the best average yield), and the cane is crushed and sugar produced at a central factory a mile from Basseterre. A light railway for haulage of canes encircles the island.

The only other important crop in St. Kitts is cotton, the lint produced in 1937 being 216,811 lbs. on 1,190 acres.

Cotton and coconuts are the chief products exported from Nevis. Small quantities of tomatoes are also exported to Canada during the winter months.

Vegetables and cattle, chiefly for export to St. Kitts and for local consumption, are also produced in Nevis.

Salt is the chief product of Anguilla, and is also produced from ponds at the south eastern part of St. Kitts, the quantity from Anguilla in 1937 being 2,519 tons valued at 2,968*l.*

Anguilla also produces cotton in small quantities.

There are no manufacturing industries (other than the manufacture of sugar) in the Presidency.

The Customs import tariff is mainly on an *ad valorem* basis with a surtax of 25%. A preferential reduction varying in amount, but in most cases equal to one third of the general rate, is accorded to Empire products. The percentage of trade in 1937 is as follows:—

United Kingdom	39
Other British countries	36
U.S. of America	14
Other foreign countries	11
	100

Education.

There are four secondary schools:—a Government grammar school for boys in St. Kitts, a girls' high school in St. Kitts and a mixed school in Nevis, both state-aided, and a school by the Roman Catholic Sisters.

There are 31 Government primary schools (16 in St. Kitts, including 4 in Basseterre, 10 in Nevis and 5 in Anguilla) and also a Roman Catholic school and a few small private schools.

St. Kitts.

The island lies in latitude 17° 18′ N., and longitude 62° 48′ W. The area of the main body of it presents a long oval, from the south-eastern end of which runs a narrow neck, gradually expanding into a small knob of land, within which are the salt ponds.

The total length of the island is about 23 miles. The total area is 68 square miles.

The central part of the main body consists of a range of lofty rugged mountains, which traverses it from south-east to north-west, attaining its greatest height at Mount Misery, which is about 3,711 feet above the sea. A branch of this range encloses the spacious and fertile valley or plain, on the seaboard of which lies Basseterre, the principal town, with a population of about 8,000. Near the town of Sandy Point is Brimstone Hill, strongly fortified and fiercely besieged during the French wars. It is quite isolated, and about 750 feet in height.

The circle of land formed by the skirts and lower slopes of the mountain-range of the main body of the island, and the valley of Basseterre, constitute nearly the whole of the arable and cultivated portion of the island. The higher slopes of the mountains are covered with short grass, affording excellent pasturage, while their summits are crowned with dense wood. The island is of volcanic formation, and the soil, save in the mountains (where it is clayey) is peculiarly light and porous, sandy yet fertile.

The climate, for a tropical one, is decidedly healthy. The highest temperature in the shade is about 88°, the lowest 66°, and the mean average about 79°.

The average rainfall in St. Kitts for the year 1937 was 44·78 inches.

St. Christopher or St. Kitts, the Carib name of which was Liamuiga, "The Fertile Isle," was the first settled of the British West Indies, the settlement having been founded by Mr. Thomas Warner and other settlers, who landed on the 28th January, 1623, at the present village of Old Road. Later, French settlements were formed at the two ends of the island. The whole island was finally assigned to England under the Treaty of Versailles in 1783.

Nevis.

The island of Nevis is situated in 17° 40′ N. lat., and 62° 33′ W. long. It was discovered in 1498 by Columbus, and was colonised by the English from St. Kitts in 1628. Charlestown, the principal town, has a population of about 1,100. The population of Nevis largely consists of peasant proprietors.

The island, which is divided into five parishes, is nearly of a circular form; its area is about 50 square miles, or about 32,000 acres, of which about 15,000 acres are fit for cultivation; its greatest elevation 3,596 feet above the sea.

The soil is very different from that of St. Kitts, being of stiff clay, encumbered everywhere with volcanic boulders.

There are hot mineral springs adjoining the Bath House Hotel near Charlestown. These springs have valuable medicinal properties.

The climate is very similar to that of St. Kitts, from which place it is separated by a strait of about two miles in breadth at its narrowest part, which, however, lies out of the direct course for boats plying between the two islands. The distance between Basseterre (St. Kitts) and Charlestown (Nevis) is about twelve miles.

Anguilla.

Anguilla is situated in 18° 12′ N. lat., and 63° 5′ W. long., about 60 miles N.W. of St. Kitts, and is sixteen miles in length, and varies in breadth from three to one and a half miles, containing an area of thirty-five square miles. The "Dogs" and neighbouring islands are dependencies of Anguilla.

Digitized by Google

Unlike the mountainous volcanic islands of St. Kitts and Nevis, Anguilla consists of Oligocene limestone and clay and its highest point is 213 ft. above sea level.

The inhabitants are peasant proprietors under the jurisdiction of a medical officer who is also magistrate.

The island is healthy, but suffers from want of an adequate water supply.

Besides sheep and goats the chief product is salt. Sea Island cotton is cultivated.

DOMINICA.

Dominica is situated between 15° 10′ and 158 40′ N. lat., and 618 14′ and 61° 30′ W. long.; 29 miles long and 16 broad. It lies between the French Islands of Guadeloupe and Martinique, being distant from each about thirty miles, and has an area of 304½ square miles.

The island is very mountainous and picturesque, rising at Imray's View, the culminating point of Morne Diablotin to 4,747 feet. It was discovered by Christopher Columbus on Sunday (hence its name), the 3rd of November, 1493, in the course of his second voyage. It was included in the grant made of sundry islands in the Caribbean Sea to the Earl of Carlisle, by a

Digitized by Google

patent, dated 2nd June, 1627; but several attempts to bring the place under subjection to the English proved abortive. By the treaty signed at Aix-la-Chapelle, in 1748, it was stipulated between the English and French that Dominica and some other islands should remain neutral, and that the original proprietors, the Caribs, should be left in possession. During the time that Dominica was thus professedly regarded by the English and by the French as a "neutral" island, many French planters and adventurers settled on it and established plantations.

Dominica was captured by the English in 1756, and by the ninth article of the peace of Paris, in 1763, was assigned to Great Britain. Commissioners were sent out for the purpose of surveying and selling lands capable of cultivation, which yielded to the British Crown the sum of 312,092*l.* 11*s.* 1*d.* sterling. The French settlers were generously secured in their possessions, on condition of taking the oath of allegiance and paying a small quit rent. Dominica at this time formed a unit of a General Government, which comprised Grenada and the Grenadines, St. Vincent, and Tobago.

In 1771, the island was constituted a separate Government, under the administration of Sir Wm. Young, Bart. On the 21st June, 1775, a Royal Proclamation was issued, establishing a House of Representatives, fixing a new qualification for candidates and electors, and regulating proceedings at elections.

In 1778, the French, attracted by the fertility of the place, and invited over from Martinique by some of their countrymen, prepared a military and naval expedition against the island, under the Marquis de Bouillé, Governor of Martinique, and became masters of it on the 7th of September, after an obstinate resistance. Marquis Duchilleau, a cruel and tyrannical officer, was appointed Governor. Trade failed, and great distress followed.

In 1783 the island was again restored to the English, and Sir John Ord, Bart., was appointed Governor.

In 1795 another invasion of the island was attempted by Victor Hugues, the French Republican leader, who had previously forced the British troops to evacuate Guadeloupe. The brave and well-directed resistance of the inhabitants, under the command of Governor Hamilton, forced part of the enemy to fly, and the rest to surrender.

In 1805, now referred to in the island for marking the time of events, by the name of *La Grange* (the name of the invading General), the French again landed at each flank of Roseau. The regular troops and the militia fought gallantly, but unfortunately Roseau, the capital, was set on fire accidentally, and was obliged to capitulate, paying the enemy 12,000*l.* to quit; whilst the Governor, Sir George Prévost, and the troops (regular and militia) proceeded across the island to the superior position of Prince Ruperts, near the town of Portsmouth.

In 1833 the island was, with Antigua and the other Leeward Islands, formed into a General Government, under a Governor-in-Chief, resident at Antigua.

Riots occurred in 1893, in the district of La Plaine on the Windward Coast of the island, in connection with the collection of taxes. The police and a party of marines and blue jackets, landed from H.M.S. *Mohawk*, were stoned, and compelled to fire on the rioters, with fatal results. An inquiry into the administration was ordered by the Secretary of State, and entrusted to Sir R. Hamilton, formerly Governor of Tasmania, who visited the island, and made a report (*vide* H. L. 280, 1893, and C—7447, 1894).

Dominica, in common with other West Indian islands, was visited in 1897 by the Royal Commission appointed to inquire into the condition of the West Indian colonies; and an important outcome of their recommendations was the grant, in 1898, of 15,000*l.* by the Imperial Parliament for road construction in the Island. Owing to the economic depression of the Island, which started from about 1928, and the reduction of the Imports and Exports, it has been necessary to appeal to the Imperial Government for several Grants and Loans-in-Aid. These have assisted conditions greatly and as a result there are already signs that the productivity of the Island is on the increase.

Considerable areas in the island are at present uncultivated. Much of this was at one time under coffee, but "blight" and the marauding of the Maroons led to the abandonment of many estates, while the depreciation of sugar still further reduced the area of cultivation. The soil is good and the climate healthy. Limes and cocoa flourish throughout the coastal zone. The former were almost wiped out by root disease a few years ago, but trees budded on resistant stocks have since been extensively planted, and exports of lime products are now increasing. The higher slopes in the centre of the island are well adapted to the cultivation of coffee, nutmegs, spices and such tropical fruits as require humid conditions.

There are many thermal, chalybeate, sulphur, and other medicinal springs in the island, which is volcanic, and on the Grand Soufrière Hills there is a geyser or boiling lake at an elevation of 2,300 feet.

An eruption in the great crater took place on 4th January, 1880, volcanic ash covering the roofs of the houses in Roseau to a depth of two or three inches.

The island abounds in rivers, with fish in some, and there is a plentiful supply of water power.

Lime juice, cocoa, cocoanuts, copra, rum, tobacco, and fruit (including green limes, grape fruit, oranges, mangoes, bananas and avocado pears), are the chief products; sugar, formerly the staple industry, has now ceased to be made. Trade is carried on also in spices, oils, and timber. 1937: cocoa, 4,984*l.*; essential oils, 12,391*l.*; limes, 6,644*l.*; conc. lime juice, 130*l.*; raw lime juice, 4,679*l.*; rum, 480*l.*; tobacco and cigars, 299*l.*; coconuts, 3,271*l.*; bananas, 10,658*l.*; grape fruit, 1,871*l.*; oranges, 7,058*l.*; mangoes, 2,477*l.*; Avocado pears, 719*l.*

The rainfall in Roseau for 1937 was 74·86 inches; the average for the whole island was 115·97 inches; the mean temperature 79° Fahr. (Roseau).

The chief town is Roseau, with a population of 6,803 according to the census of April, 1921: it is a port of registry, and had registered on 31st December, 1937, 11 vessels, of a total tonnage of 216 tons. The other town is Portsmouth, to the north-west of the island, in Prince Rupert's Bay. There is a branch of Barclays Bank (Dominions, Colonial and Overseas) at Roseau, and one of the Royal Bank of Canada, established in April, 1915.

There is a Government telephone system of 585 miles, with 5 exchanges, and a Government electric light service for the town of Roseau.

There are 42 miles of tarmet, 31 miles of water-bound macadam, 30 miles improved earth and gravel and 260 miles of unimproved earth and non-surfaced roads in the Presidency.

The Local Government is administered by an Administrator, aided by an Executive Council. In July, 1898, the Legislative Assembly, which was previously partly elected and partly nominated, passed an Act abrogating itself and substituting the Crown Colony system. A Legislative council was created, consisting of twelve members, six officials and six non-officials, all nominated by the Governor under Royal Letters Patent. Ordinance No. 21 of 1924 provided for the election of four of the unofficial members of the Council with the Administrator presiding in the absence of the Governor from the Presidency. As a result of the Report of the Closer Union Commission which visited Dominica, among other West Indian Islands, in 1932, the Secretary of State approved of a further change in the Constitution of the Island to provide for the creation of a new Legislative Council with an unofficial majority subject to certain safeguards being left in the hands of the Governor. This change was effected under Ordinance No. 8 of 1936, which was brought into force by proclamation on the 15th December, 1936, and provides for a Legislative Council consisting of the Administrator as President, with a casting vote only, two official Members, three nominated Members and five elected Members. The first meeting of Council under the new Constitution was held on the 10th May, 1937.

Proposals for the transfer of Dominica to the Windward Islands Group are at present under consideration.

A considerable number of the inhabitants speak a French *patois*, but the use of English is becoming general.

A remnant of the original Carib inhabitants of the Island is still in existence (*vide* Cd. 1298, 1902).

According to the Census of 1921 there are about 420 Caribs in the Island, of whom about 141 are estimated as of pure blood.

Customs Tariff.

The rates of duty under the Customs Tariff are mainly specific. A preferential reduction varying in amount, but in most cases amounting to one-third of the general rate is accorded to Empire products.

The *ad valorem* duty on most articles is 10 % and 20%. Perfumery, Jewellery and Plate and Plated Ware 20 % and 30 %.

Civil Establishment.

Administrator, J. S. Neill, 1,000*l.* and 200*l.* duty allowance and Residence (Government House).

Chief Clerk and Clerk of Councils, L. Cools-Lartigue 250*l.* by 10*l.* to 350*l.*

Treasury and Customs.

Treasurer and Comptroller of Customs, E. E. Harney, 450*l.* by 25*l.* to 500*l.*

Accountant (vacant), 250*l.* by 10*l.* to 350*l.*

Senior Clerks, G. A. Winston, J. N. McIntyre, H. E. Letang, 200*l.* by 10*l.* to 250*l.*

District Officer, Northern District, and Magistrate, District "G," H. Burrowes, 300*l.* Transport allowance 4*s.* per diem.

Judicial Establishment.

(For Judges of the Supreme Court and Attorney General, *see Leeward Islands Federal Establishment.*)

First Puisne Judge, Leeward Islands (vacant).

Crown Attorney and Additional Magistrate, District "E," (vacant), 450*l.* by 25*l.* to 500*l.*

Registrar and Provost-Marshal, Registrar-General, P. I. Boyd, 250*l.* by 10*l.* to 350*l.*

Magistrate, District "E," A. G. Forbes, 350*l.* and Transport allowance, 25*l.*

Magistrate, District "F," and Government Officer, Eastern District, H. P. Winston, 200*l.* by 10*l.* to 250*l.* Transport allowance 50*l.*; is also Education Officer Eastern District.

Magistrate, District "G," H. Burrowes (*see District Officer, Northern District*).

Medical Establishment.

Chief Medical Officer and Medical Officer of the Public Institutions, Dr. C. N. Griffin, M.D., C.M. (McGill), 700*l.* by 25*l.* to 750*l.*, with travelling allowance of 50*l.*

Medical Officer, Roseau District, L. P. Younglao, M.B., B.Ch., B.A.O., D.T.M. & H. (Eng.), 400*l.* by 25*l.* to 450*l.*, 50*l.* travelling allowance, private practice and 35*l.* in respect of commuted fees.

Medical Officer, Portsmouth District, R. F. Armour, B.S.C. & M.D. (Jenner, Chicago), M.D. (Laval, Quebec), M.C.P.S. Saskatchewan, London Registration, 400*l.* by 25*l.* to 450*l.*, free quarters, 50*l.* travelling allowance, private practice and 35*l.* in respect of commuted fees.

Medical Officer, Marigot District, Dr. K. M. B. Simon, M.D., D.P.H., 400*l.* fixed, travelling allowance at rate of 2*s.* 8*d.* per day, private practice.

Medical Officer, Grandbay District, Dr. L. F. E. Lewis, L.R.C.P., M.R.C.S. (Edinburgh), *M.O. Grandbay Dist.*, 400*l.*, 50*l.* allowance in lieu of quarters, travelling allowance at rate of 2*s.* 8*d.* per day, and private practice.

Port Health Officers, Roseau, Medical Officer, Roseau District; *Portsmouth*, Medical Officer, Portsmouth District.

Quarantine Officers, N. W. Royer, G. R. Cools-Lartigue and G. A. Winston (as Treasury Officers).

Public Works Department.

Colonial Engineer and Surveyor-General, A. Holland, A.M.E.I.C., 400*l.* by 20*l.* to 450*l.*

Road Surveyor, Western District, Senior Clerk, C. A. Royer, 200*l.* by 10*l.* to 250*l.*, 50*l.* transport allowance.

Senior Clerk, J. J. Daway, 200*l.* by 10*l.* to 250*l.*

Mechanic and Electrician, and Superintendent of Telephones, Principal, L. Deschamps, 250*l.* by 10*l.* to 350*l.*

Agriculture.

Curator of Botanical Gardens and Agricultural Superintendent, F. G. Harcourt, M.B.E., 450*l.* by 25*l.* to 600*l.* and 60*l.* allowance in lieu of quarters.

Assistant Agriculture Officer, H. B. Pidduck, 250*l.* by 12*l.* 10*s.* to 400*l.*, 30*l.* house allowance or quarters. The latter officer performs the duties of Manager Government Fruit Farm.

Officer-in-Charge, Government Marketing Depot, G. A. Winston, 200*l.* by 10*l.* to 250*l.*

Peasants Adviser, G. J. Stedman, 150*l.* by 10*l.* to 250*l.*

Police.

Superintendent of Police, Captain J. R. A. Branch, 400*l.* and quarters; horse allowance, 72*l.*; Keeper of Powder Magazine, is also Officer Instructor to Local Forces and Officer Commanding Local Forces.

Assistant Superintendent of Police, (vacant), 210*l.*, free quarters and 36*l.* horse allowance.

Inspector of Weights and Measures, Captain J. R. A. Branch.

Surgeon, The Chief Medical Officer *ex-officio*.

Prison.

Officer in Charge of Prison Discipline, Captain J. R. A. Branch.

Keeper of Prison, Captain K. E. Burton, M.B.E., 90*l.* by 5*l.* to 120*l.* and quarters.

Post Office.

Postmaster, R. S. Merrill, *Senior Clerk*, 200*l.* by 10*l.* to 250*l.*

Deputy-Postmaster, Portsmouth, District Officer, Northern District, *ex-officio*.

Education.

Head Master, Dominica Grammar School, S. E. T. Jullion, M.A. (Cantab.), 300*l.* by 10*l.* to 350*l.*, and quarters.

Assistant Master, Senior Clerk, N. A. Jeffers, 200*l.* by 10*l.* to 250*l.*

Inspector of Schools, Senior Clerk (vacant), 200*l.* by 10*l.* to 250*l.* and 72*l.*, transport allowance.

The Inspector of Schools performs the duties of *Educational Officer*.

There are Government Schools in the districts of the Island under the charge of:—

6 *First Class Head Teachers*, 90*l.* by 5*l.* to 120*l.*

22 *Second Class Head Teachers*, 65*l.* by 3*l.* to 80*l.*, with result grants and allowances for quarters.

Chief Ministers of Religion.

Anglican Church, The Rev. J. Brodie.

Roman Catholic Church Bishop, The Right Reverend James Moris, C.SS.R.

Vicar-General, The Very Reverend Father J. J. Duerloo, C.SS.R.

Methodist Church, The Reverend W. A. Beckett, Superintendent.

Foreign Consuls.

France, T. Cools-Lartigue, Barrister-at-Law, Consular Agent.

Belgium, F. E. Degazon, LL.B., Barrister-at-Law, Vice-Consul.

MONTSERRAT.

This Island, discovered by Columbus in 1493, was named by him after a famous mountain in Spain, where is situated the monastery in which Ignatius Loyola conceived the project of founding the Society of Jesus.

It is situated 27 miles from Antigua in 16°45′ N. lat., and 61° W. long., and is about 11 miles in length, and 7 in the broadest part. Its total area

Digitized by Google

is 32½ square miles. It is of volcanic formation and very rugged and mountainous. The hills are covered with forest, the highest elevation being Chance's Mtn. (3,000 feet) in the southern part of the island. Plymouth, the chief town, with a population of 1,730, is on an open roadstead on the south-west coast. It is a port of registry, and had, on 31st December, 1935, 5 sailing vessels, total tonnage 91 tons net.

Montserrat was colonised by the Irish in 1632; the French took it in 1664, and levied heavy imposts on the inhabitants; it was restored to England in 1668. It capitulated to the French in 1782, but was restored to the English in 1783.

Montserrat possessed a Legislative Council and Assembly as early as 1668. In 1861, these were replaced by a single Chamber of eight elected and four nominated members.

By an Act of the Legislative Assembly, dated 24th Dec., 1866, and confirmed by Order in Council 26th Feb., 1867, this Chamber was replaced by a Legislative Council of not more than six nominated members. By Act No. 2, of 1902, which rescinded these Acts, the number of members was limited to four. Ordinance No. 4 of 1909 repealed No. 2 of 1902 and limited the tenure of office of the members of the Council to three years. Ordinance No. 2 of 1911 amended No. 4 of 1909 and increased the number of members to six. Ordinance No. 18 of 1922 amended No. 4 of 1909 and increased the number to eight. Unofficial representation on the General Legislative Council of the L.I. has now been provided for.

The cultivation of sugar, once the staple industry of the island, has declined, and Sea Island cotton, tomatoes, onions and limes are now the principal products.

Among the other exports may be mentioned lime oils, lime juice, cotton-seed oil, cattle and vegetables.

There are twelve denominational schools with 2,839 scholars.

The roads of the island have of late years been much improved, and drained by masonry culverts and surface drains; and every year progress is made in these respects.

On 7th August, 1899, the island was devastated by a hurricane; and again on 28th August, 1924, and 12th September, 1928.

There is telephonic communication throughout the Island; a Wireless Station was erected in 1925.

The island is considered to be one of the most healthy of the Antilles.

The average rainfall at the Grove Botanic Station, taken for 35 years, is 61.75 inches.

VIRGIN ISLANDS.

The Virgin Islands were discovered by Columbus in 1493; they consist of a cluster of islands to eastward of and adjacent to Porto Rico; the largest in the group belonging to Great Britain is Tortola, which is situated in 18° 27′ N. lat., and 64° 39′ W. long. These islands, so far as they are British, became so in 1666.

The British islands (about 32 in number) include Tortola, Virgin Gorda, Anegada, Jost van Dykes, Peter Island, Salt Island, and all others not in the possession of the United States of America. The total area of the British colony is about 58 square miles. A lighthouse is maintained by the Board of Trade on Sombrero, which was first included in the Colony in 1904.

The Americans possess St. Thomas, St. John, and St. Croix.

A civil government and courts of justice were established in the Virgin Islands in 1773.

In April, 1867, an Ordinance was passed to amend the Constitution of the Virgin Islands. It was enacted that a Legislative Council should be constituted, to consist of the Colonial Secretary and the Colonial Treasurer, and not more than three unofficial members, to be nominated by the Administrator of the Government. This Ordinance was repealed May 1st, 1902, since when the Governor of the Leeward Islands ordains the laws. There is also an Executive Council.

The chief town is Road Town, Tortola, population (1921) 437, which is a port of registry, having, on 31st December, 1935, 8 vessels, registered total tonnage, 77.

Road Town, which is well built and clean, is provided with well stocked shops and stores. There is a small modern Hospital with a European Matron in charge.

The cultivation of Sea Island cotton, once the principal industry of the Virgin Islands, abandoned in consequence of the low prices, has been recommenced on a small scale.

A small quantity of sugar is made for local consumption, also rum.

The percentage of trade with the United Kingdom and other parts of the British Empire and the principal Foreign countries is 15%, 5% and 80% respectively. Under the Customs Tariff the preferential rate charged on imports from Empire countries is in general two-thirds of the general rate.

A large area of land in the Virgin Islands is well adapted to cocoanut cultivation, and the existing trees are quite free from any serious insect or fungoid pests.

The peasants own and cultivate most of the land in small plots for subsistence. They also raise cattle, and catch fish. They take their produce in small boats to St. Thomas, and this constant sailing among the reefs and currents which surround the Virgin Islands makes them the finest seamen in the West Indies. They are a hardy, intelligent race, remarkably distinct from the inhabitants of the neighbouring islands. Their trade and intercourse is with the Virgin Islands of the U.S., and to a smaller extent with San Domingo and St. Martin.

The currency consists largely of foreign money, which circulates at the varying rates of exchange.

The climate is more healthy than that of the other West Indies, and the heat not so great. The average annual rainfall at Road Town is about 54 inches.

The birth and death rates per 1,000 in 1936 were 38·20 and 18·1 respectively.

Large quantities of fibrous plants (agaves and bromelias) grow wild everywhere in Tortola.

The mail communication is weekly by Government motor launch to St. Thomas. Mails are also despatched to St. Thomas nearly every day, letters for Europe being usually sent *via* Porto Rico and New York weekly.

MALAYA:

STRAITS SETTLEMENTS.

Malaya comprises the Colony of the Straits Settlements, the Federated Malay States of Perak, Selangor, Negri Sembilan, Pahang, and the Unfederated States of Johore, Kedah, Kelantan, Trengganu and Perlis. Malaya is also regarded as including the State of Brunei, in the island of Borneo, of which the Governor of the Straits Settlements is High Commissioner and which, like the Malay States in the Peninsula, is in treaty relationship with Great Britain.

The Straits Settlements comprise Singapore, Penang, Malacca, and Labuan. The first three were transferred from the control of the Indian Government to that of the Secretary of State for the Colonies on the 1st April, 1867, by an Order in Council, issued under the authority of an Act of the Imperial Parliament (29 & 30 Vict. c. 115). Labuan, a separate Colony since 1846, was incorporated with the Straits Settlements as part of the Settlement of Singapore in 1907, and became a separate Settlement in 1912.

Situation and Area.

Singapore is an island about 26 miles long by 14 miles wide, containing an area of 220 square miles, situated at the southern extremity of the Malay Peninsula, to which it is joined by a causeway across the Straits of Johore, which are about three-quarters of a mile in width. There are a number of small islands adjacent to it which are included in the Settlement, which now comprises also Christmas Island and the Cocos Islands.

The seat of Government is the city of Singapore, at the southern point of the island, in lat. 1° 17′ north, and long. 103° 50′ east.

Penang comprises the island of Penang and Province Wellesley. Penang island is about 15 miles long and 11 broad, containing an area of 110 square miles, situated off the west coast of the Malay Peninsula in 5° N. latitude, and at the northern extremity or entrance to the Straits of Malacca. On the opposite shore of the mainland, from which the island is separated by a strait about 2 to 10 miles broad, is Province Wellesley, a strip of territory forming part of the Settlement, about 11 miles in width, and extending 31 miles along the coast, including 10 miles of territory to the south of the Krian river (*vide infra*), the whole containing an area of 290 square miles.

Digitized by Google

The chief town is George Town, in 5° 24′ north lat. and 100° 21′ east long., on Penang island.

Malacca is situated on the western coast of the peninsula between Singapore and Penang, about 110 miles from the former and 240 miles from the latter, and consists of a strip of territory about 43 miles in length, and 27 miles in breadth, containing an area of 640 square miles. The town, called Malacca, is in 2° 10′ north lat. and 102° 14′ east long.

The Cocos or Keeling Islands, which were declared a British possession in 1857, were placed by Letters Patent of 13th October, 1878, under the control of the Governor of Ceylon, and by Letters Patent dated the 1st of February, 1886, under the Governor of the Straits Settlements. In 1903 they were annexed to the Straits Settlements and incorporated in the Settlement of Singapore. The islands lie between lat. 11° 50′ to 12° 45′ S., long 96° 50′ E., 700 miles S.W. of Batavia. The largest is 5 miles by ¼ mile. There are large cocoanut plantations, and copra, oil and nuts are exported. In 1902 a station on the Cape-Australia cable route was established on Direction Island, in the north-eastern part of the group. The population numbers (1931), 1,142.

Christmas Island, situated in the Indian Ocean, 190 miles S. of Java, lat. 10° 30′ S., long. 105° 40′ E., was annexed in June, 1888, and placed under the administration of the Governor of the Straits Settlements by Letters Patent of 8th Jan., 1889. In 1900 it was annexed to the Straits Settlements, and incorporated in the Settlement of Singapore. The island which is densely wooded, has an area of about 60 square miles. In shape it is a rough parallelogram with deeply indented sides. its greatest length being about 11 miles, and its greatest breadth about 11 miles. The inhabitants, who number (1937) 1,313, are all, with the exception of the District Officer and his staff, employees of the Christmas Island Phosphate Company, which was formed in 1897 to work the extensive deposits of phosphate of lime, to which the island owes its importance. An account of *Labuan* will be found later.

The total area of the Colony with these dependencies is about 1,357 square miles.

By Letters Patent issued at the end of 1906, provision was made for the incorporation of the Colony of *Labuan* in that of the Straits Settlements. The provision came into effect from the 1st of January, 1907, and in 1912 the island became a separate Settlement.

The Colony became associated with the administration of *Brunei* from about the same time. A Commission as High Commissioner for Brunei was issued in 1906 to the Governor of the Straits Settlements, and a subsequent Commission of the same year vested the post in the officer for the time being administering the government of the Straits Settlements. An account of *Brunei* will be found later.

History.

Malacca, said to have been founded by fugitives from the sack of Singapore, and known as an important independent State from early in the fifteenth century, is one of the oldest European settlements in the East, having been captured by the Portuguese under Albuquerque in 1511, and held by them till 1641, when the Dutch, after frequent attempts, succeeded in driving them out. The settlement remained in the possession of the Dutch till 1795, when it was taken by the English, who held it till 1818. It was then restored to Holland, but was again transferred to British rule as a consequence of the Treaty of London (17 March, 1824), being exchanged for the British settlements in Sumatra.

When Malacca was captured by the Portuguese in 1511, it was one of the grand *entrepôts* for the commerce of the East, but as the Portuguese pushed their operations further to the east, in the archipelago and neighbouring countries, the trade of Malacca gradually declined and it ceased to be of consequence as a collecting centre, except for the trade of the Malay Peninsula and the Island of Sumatra. This trade it retained under Dutch rule till the establishment of Penang in 1786. In a few years from that date its trade almost ceased, and it became a place of reduced commercial importance, but possessing great agricultural resources. The trade of the Malay Peninsula and Sumatra passed to Penang, which also carried on a large traffic with China, Siam, Borneo, the Celebes, and other places in the archipelago not under Dutch control; but as soon as Singapore was established Penang in its turn had to yield the first place to Singapore, and came to depend chiefly on the local trade. Although at first unimportant Penang's trade has now assumed large proportions, owing to the development of the rich tin-mining areas and rubber-bearing lands of the Malay Peninsula. The trade of Malacca as an entrepôt port for central Malaya has recently revived.

Penang, or Prince of Wales' Island, was the first British settlement in the Malay Peninsula, having been ceded to the East India Company by the Raja of Kedah in 1786, with the proviso that the sum of $6,000 (Straits) should be paid annually to the Raja of Kedah so long as the British occupied the island. In 1800, in consequence of the prevalence of piracy, a strip of the coast of the mainland, now called Province Wellesley, was acquired from the Raja, the annual payment being in return increased to $10,000 (Straits). This acquisition has been subsequently enlarged from time to time, until it now extends from the Muda River to 10 miles south of the Krian River, a distance of 45 miles, containing in all 290 square miles. This province is in an advanced state of cultivation, the chief articles cultivated being sugar, paddy, cocoanuts, and rubber. In 1805 Penang was made a separate Presidency, of equal rank with Madras and Bombay. In 1826 Singapore and Malacca were incorporated with it under one government, Penang still remaining the seat of government. In 1836 the seat of government was transferred to Singapore.

The island of Pangkor and the Sembilan Islands were ceded to the British by Perak in 1826, with a view to the suppression of piracy, but no use was made of the cession at the time. In 1874 the cession of these islands was confirmed by the Treaty of Pangkor (to which reference is made in dealing with the relations of the Colony with the Malay States), by which a strip of territory in the mainland opposite also became British. The whole formed, under the name of the Dindings Territory, an outlying portion of the Settlement of Penang. By an agreement dated, at Singapore, the 6th June, 1934, the Dindings were retroceded to Perak in February, 1935.

The original city of Singapore is said to have been founded by immigrants from Sumatra. It rose into prominence in the fourteenth century. Its greatness came to a sudden end about 1365, when it was sacked and destroyed by the Javanese, and thenceforth the island was scarcely inhabited until Sir Stamford Raffles took possession of it in 1819 by virtue of a treaty with the Johore princes. The new settlement was at first subordinate to Bencoolen (Fort Marlborough) in Sumatra, but in 1823 it was placed under the Government of Bengal; in 1826 it was, as above stated, united with Penang and Malacca under the Governor and Council of the Incorporated Settlements.

Constitution, Law and Justice.

The Government consists of a Governor aided by an Executive and a Legislative Council. The Executive Council consists of 6 official members, excluding the Governor who presides, such other official members as the Governor may nominate, at present 2 in number, and 3 unofficial members. The Legislative Council consists of 13 official members and 13 unofficial members, of whom 2 are elected by the Chambers of Commerce of Singapore and Penang.

The law in force is contained in local Ordinances and in such English Acts and Orders in Council as are applicable to the Colony. The Penal Code closely follows the Indian Penal Code. Criminal Procedure is regulated by the Criminal Procedure Code which is based on the Indian Code. Civil Procedure is regulated by Rules of Court made under powers conferred by the Courts Ordinance and based on the English Rules of the Supreme Court.

There is a Supreme Court which is a court of record and consists of (*a*) the High Court which exercises original criminal and civil jurisdiction and appellate criminal and civil jurisdiction in appeals from subordinate courts; (*b*) the Court of Appeal which exercises appellate civil jurisdiction. Assizes are held at Singapore and Penang every two months, and once a quarter at Malacca. The Supreme Court is composed of a Chief Justice and three or more Puisne Judges. An appeal lies from the Supreme Court to the Privy Council.

There is also a Court of Criminal Appeal. The subordinate Courts are the District Courts, Police Courts, Marine Police Courts and Coroners' Courts.

Climate.

The characteristic features of the climate of the Straits Settlements are uniform temperature, high humidity, and copious rainfall. The variation of temperature throughout the year is very small and the excessively high temperatures found in continental-tropical areas are never experienced.

The mean temperature during 1937 was:—

Singapore (Kallang Aerodrome) ..	81·1°F.
Penang (District Hospital)	82·1°F.
Malacca (Bukit China)	79·9°F.

The Mean Monthly Maximum and Minimum Temperature varied as follows:—

	Mean Monthly Maximum	
	Highest °F.	*Lowest* °F.
Singapore	87·9 March.	85·3 Oct.
Penang	91·9 Feb.	88·1 Oct.
	Mean Monthly Minimum	
	Lowest °F.	*Highest* °F.
Singapore	74·2 Jan.	78·4 August
Penang	73·5 Jan.	75·5 May

The extremes of temperature (Highest Maximum and Lowest Minimum) recorded were:—

	Highest °F.	*Lowest* °F.
Singapore ..	93 on 17th March	70 on 6th Jan.
Penang ..	95 on 22nd Feb.	65 on 6th Jan.

There are no well marked dry and wet seasons, rain falling throughout the year.

Records for 65 years at Singapore show that the average annual rainfall is 95 inches. December is the wettest month with a little over 10 inches, while February, May, June, July and September, the dry months, with between 6½ and 7 inches. Rain falls, on the average, on half the days in the year.

The wettest year recorded was 1913 with 135.92 inches and the driest 1888 with 63·21 inches.

Records of 51 years at Penang show an annual rainfall of 106 inches, October being the wettest month with about 17 inches, and February the driest with three inches, rain falling on the average on about 160 days in the year.

The force of the monsoons is not much felt though the prevailing winds are generally in the direction of the monsoon blowing at the time, viz:—

S.W. from May to October.
N.E. from November to April.

but at the coastal stations, the diurnal land and sea breezes are often stronger than the prevailing monsoons.

The rainfall recorded was as follows:—

	1935.	1936.	1937.	No. of Rainfall days in 1937.
Singapore	72·76	85·5	89·19	192
Penang ..	107·98	96·2	93·68	174
Malacca ..	95·92	92·4	96·53	195
Province Wellesley	91·02	94·2	98·20	134
Labuan ..	140·59	127·8	132·76	154

Although the days are hot, and, on account of the high humidity somewhat oppressive, the nights are almost always reasonably cool, and it rarely happens that refreshing sleep is not obtained. The effect of the heat and humidity, without seasonal change, is, however, cumulative; and after a few years a change to a bracing climate becomes imperative for Europeans if health is to be maintained.

Population.

The population of the Straits Settlements as estimated at mid-year 1938, from the formula, census 1931 + births − deaths + migrational surplus, was as follows:—

Singapore Island	710,037
Penang Island	235,969
Province Wellesley ..	163,526
Malacca	223,991
Labuan	8,567
Christmas Island	1,313
Cocos Island	1,142
Total ..	1,344,545

Commerce.

The foreign trade of the Colony of the Straits Settlements is not separately distinguished, having since 1922 been merged in that of the Malayan Registration area which includes the Colony, the Federated Malay States, and the Unfederated Malay States of Johore, Kedah, Perlis, Kelantan, and Trengganu. This trade passes principally through the ports of Singapore and Penang in the Colony, and Port Swettenham in the F.M.S.

The principal agricultural products are rubber, coconuts, pineapples, palm oil, and rice. Tobacco is a crop of growing importance.

The principal imports comprise foodstuffs, petroleum products, tin ore, rubber, textiles and machinery. The chief domestic exports are rubber, smelted tin, copra, palm oil, tinned pineapples and areca-nuts with a few manufactured articles. There is an important transit trade in the ports of Singapore and Penang. The chief re-exports are mineral oils, rice, spices, textiles, and dried and salted fish.

The ports of the Straits Settlements are free ports and are subject to no import or export duties. There are excise duties on liquors, tobacco, and petroleum, and a tax on first registration of motor vehicles not manufactured in the British Empire.

The following shew the total imports and exports for the six years up to 1937 and the values of some of the principal articles in 1937.

Shipping.

Singapore and George Town (Penang) are ports of registry ; Singapore had on the 31st December, 1937, 838 steam, motor, and sailing vessels registered, of a total gross tonnage of 149,499 tons.

The ports of Singapore and Penang are administered under Chapter 150 (Merchant Shipping) by the Marine Department, and by Harbour Boards under Chapter 149 (Ports) in each Settlement (Singapore and Penang) for the management of the wharves.

Malacca is also a port at which ocean-steamers call. The number of merchant steamers of over 75 tons net register with cargo and in ballast, and the aggregate tonnage arriving at the ports in 1937 were :—

Port.	Nos.	Tons.
Singapore	6,761	16,394,845
Penang	2,426	6,640,041
Malacca	405	621,159

The following table shows the comparison between British tonnage and the total tonnage of merchant steamers of over 75 tons net register with cargo and in ballast, arrived and departed at the ports of the Straits Settlements, Singapore, Penang, Malacca, Labuan, and Christmas Island, for each of the years from 1933 to 1937 :—

Shipping Arrived and Departed, Exclusive of Native Craft.

Year	British Tonnage.	Total Tonnage.
1933	18,275,789	43,011,782
1934	19,456,917	43,961,730
1935	19,243,237	44,959,859
1936	18,915,173	45,530,894
1937	20,339,918	47,709,291

Note.—The definition of merchant steamers was altered, with effect from January, 1931, from vessels of 50 tons net register and over, to vessels of over 75 tons net register.

Communications.

(i) *Steamship Lines.*

Over 50 lines of sea-going steamers touch at Singapore. The following table shows the main lines of communication :—

Line.	Service.

(ii) *Postage Rates.*

A. Letters addressed to places in the Straits Settlements, the Federated Malay States, Johore, Kedah (with Perlis), Kelantan, Trengganu, Brunei, North Borneo and Sarawak :—
First two ounces .. 5 cents.
Each additional ounce.. 1 „

B. Letters, letter-packets and postcards addressed to the undermentioned countries are forwarded by air under the Empire Air Mail Scheme as the normal means of transmission. The postage rates charged on such correspondence are 8 cents. per half ounce for letters and 4 cents. each for postcards. The payment of any additional air fee for the countries named is unnecessary nor is a blue air mail label or special superscription required. Registered letters are accepted for conveyance by air to these countries but the acceptance of insured letters is confined to those places with which the insurance service is in operation.—
Aden, Admiralty Islands, Anglo-Egyptian Sudan, Australia, Bank Islands, Basutoland, Bechuanaland, Burma, Canada, Cook Islands, Egypt, Eire (late Irish Free State), Ellice Islands, Fanning Island, Fiji Islands, Gilbert Islands, Great Britain and Northern Ireland, Hong Kong, India (including British Indian Post Offices on the Persian Gulf, in French India and Tibet but excluding Portuguese India), Kenya, Lord Howe Islands, Mauritius, Nauru Island, New Britain, Newfoundland, New Guinea, New Hanover, New Hebrides, New Ireland, New Zealand, Norfolk Island, Nyasaland, Palestine, Papua, Pitcairn Island, Rhodesia (Northern and Southern), Seychelles, Solomon Islands, South Africa (Union of), South West Africa, Swaziland, Tanganyika Territory, Tonga, Torres Island, Transjordan, Uganda, Western Samoa and Zanzibar.

C. Letters addressed to places within the British Empire other than those named in A and B above :—
First ounce .. .. 8 cents.
Each additional ounce.. 4 „

D. Letters addressed to foreign countries :—
First ounce .. .. 12 cents.
Each additional ounce.. 6 „

E. For postcards addressed to :—
(i) Countries mentioned in A 2 cents.
(ii) Countries mentioned in B and C .. .. 4 „
(iii) Countries mentioned in D 6 „

F. Printed papers :—
Every two ounces .. 2 cents.
except that the rate of postage on a newspaper
(*a*) printed and published within the Straits Settlements, the Federated Malay States, or in any British Possession or Protected State in Malaya, or
(*b*) registered as a newspaper at the General Post Office, London, if posted in the Straits Settlements or Federated Malay States addressed to any place in the Straits Settlements, Federated Malay States, Johore, Kedah, Kelantan, Perlis, Trengganu, North Borneo, Sarawak or Brunei, is 2 cents. for any weight not exceeding 5 ounces, and 2 cents. for each additional 5 ounces or fraction thereof provided that no enclosure which is not part of the newspaper or a

supplement thereto is enclosed with the newspaper. If two or more copies are sent in a single packet, each newspaper shall be liable to the same postage as if posted separately. But in no case shall a packet of such newspapers be chargeable with a higher rate than that chargeable on a packet of printed papers of the same weight.

The operations of the Money Order Branch amounted in 1937 to $11,479,859, the principal business done being with India, the Federated Malay States, the United Kingdom, The Netherlands Indies, Ceylon, the United States of America, and China.

Air Mail Services.

Regular and reliable air mail services are provided :

(*a*) thrice a week by the Imperial Airways between Singapore and London, transit time, 5½ days ;
(*b*) thrice a week by the Royal Netherlands Airways between Singapore and London *via* Amsterdam, transit time, 5 days ;
(*c*) thrice a week by the Qantas Empire Airways between Singapore and Australia, transit time, 2—4 days, according to destination ;
(*d*) twice a week by the Imperial Airways between Singapore and Hong Kong *via* Bangkok, transit time, 2—3 days ; this service connects with the Pan-American Airways service leaving Hong Kong once a week ;
(*e*) once a week by the Royal Netherland Indies Airways between Singapore and Indo-China, transit time, 2—2½ days ; and
(*f*) daily by Messrs. Wearnes Air Services between Singapore, Kuala Lumpur, Sitiawan and Penang.

(iii) *Telegraphs and Telephones.*

Telegraph Offices are maintained by the Cable and Wireless Ltd., at Singapore and Penang, and this company also owns and operates ten submarine cables radiating from Singapore :—

4 to Penang, thence to Madras (2), Colombo (2), Deli Sumatra (1), 2 to Batavia of which one thence to Cocos, 1 to Banjoewangi (Java), thence to Port Darwin (1), 1 to Hong Kong, thence to Manila (1), North China (1), Macao (1), 1 to Cochin China, thence to Hong Kong (1) and 1 to Labuan, thence to Hong Kong (1).

The Public Telegraph and Telephone Systems of the Straits Settlements are, apart from the telephone exchange systems on Singapore Island, provided, maintained and operated by the P. & T. Department. Excluding the Singapore Telephone System, these consisted on 31st December, 1937, of 498 miles of overhead lines, carrying 4,173 miles of wire, and 112 miles of underground and submarine cables with 10,158 miles of single wire. There were at that date 41 telegraph offices and 18 telephone exchanges with 2,996 telephones connected thereto.

The Postal Telegraph System connects the three Settlements of Singapore, Penang and Malacca and is also interconnected with the corresponding systems in the Federated and Unfederated Malay States of the Peninsula, forming with these the Malayan Telegraph System. Flat rates per word are charged throughout this system.

A Telephone Trunk network, provided and maintained by the P. & T. Department, interconnects Singapore, Penang and Malacca and all telephone exchanges in the Federated and Unfederated Malay States except a few of the more remote exchanges.

The Telephone Exchange System of Singapore is owned and operated by the Oriental Telephone and Electric Company Ltd., under licence from the Straits Settlements Government.

(iv) *Railways and Roads.*

The Federated Malay States Railways system connects with the Royal State Railways of Siam, the distance between Singapore and Bangkok being 1,195 miles, the journey taking 50 hours. Sections connect the main line with ports on the West Coast. A line from Gemas in Negri Sembilan, through Pahang and Kelantan, connects with the Royal State Railways of Siam on the East Coast.

There are 912·08 miles of roads which were maintained in good order at a cost of $589,729·34 or $647·00 per mile. The figures for 1936 were 926·74 miles maintained at a cost of $503,277·73 or $561·23 per mile.

In addition to normal maintenance a sum of $278,041·81 was spend on improvements and reconstruction work. The corresponding figure for last year was $291,568·74.

The mileage of metalled roads maintained is 817·50 miles, which is made up as follows :—

Settlement.	*Miles.*
Singapore	148·86
Penang	86·43
Province Wellesley	178·68
Malacca	384·06
Labuan	19·77
	817·50

Education.

The control of all Government schools is vested in the Director of Education, Straits Settlements, and Adviser on Education, Malay States.

By an Ordinance passed in 1909, an Education Board has been established, consisting of official and unofficial members, under the chairmanship of the Director of Education. Provision has been made by the same Ordinance for the levying of an Education Rate, the expenditure of which is under the control of the Board.

Vernacular instruction is provided for Malays free of charge. Attendance at these schools is compulsory for Malay children. The Government assists certain Chinese and Indian vernacular schools by a system of grants-in-aid. Instruction in English for all nationalities is provided in Government or grant-in-aid schools, and fees are charged. All the schools established by Government are secular. Raffles College was opened in Singapore in 1929 for a higher education in English. There is a Reformatory in Singapore for juvenile offenders and vagrants in which technical instruction is provided.

The number of schools and scholars in 1937 was as follows :—

	No. of schools.	Enrolment.	Attendance.
Government English schools (boys and girls).	24	9,475	9,150
Grant-in-aid English schools (boys and girls).	33	15,931	15,200
Government vernacular schools (boys and girls).	218	25,084	23,534
Grant-in-aid vernacular schools (boys and girls).	116	18,612	17,508
Total	391	69,102	65,392

Currency and Banking.

The standard coin of the Colony, by an Order of the Queen in Council, dated 2nd February, 1895, was the silver Mexican dollar, the British dollar, and also the old Hong Kong dollar which was at that time legal tender.

A Committee to consider the currency question was appointed in England in 1902, and reported in favour of a change to the gold standard, if the local Government so desired. In accordance with the Committee's recommendations, a new Straits Settlements dollar was coined in India and introduced into the Colony and the adjoining Malay States. This coin was of the same weight and fineness as the British dollar. Under Order of the King in Council of 25th June, 1903, the Government declared this dollar to be the standard coin on 5th October, 1903. The Mexican and British dollars were demonetised from 1st September, 1904.

Under Order of the Governor in Council dated 29th January, 1906, the Currency Commissioners were empowered to issue notes in exchange for gold at the rate of $60 for £7 sterling, thus fixing the sterling value of the dollar at 2s. 4d. In November, 1906, gold sovereigns were declared legal tender at this rate under an Order of the King in Council of the 22nd October, 1906. In view of the great rise in the value of silver, an Order of the King in Council was passed on 11th February, 1907, under which the weight of the Straits Settlements dollar and fifty cent piece was reduced in order to preserve the fixed ratio to gold and by an order of the King in Council, dated the 17th day of May, 1920, the fineness of the Straits Settlements dollar and fifty cent piece was reduced.

Local silver and nickel coins representing fractional parts of the dollar are legal tender up to $2 and copper coins are legal tender up to $1. The half-dollar is unlimited legal tender. Under an Ordinance passed in 1917 currency notes of denominations 25 cents and ten cents were issued to the public owing to shortage of subsidiary silver, but their issues have been discontinued. These notes were legal tender to the extent of $2.

By the Currency Ordinance passed in 1923 the various funds controlled by the Currency Commissioners were amalgamated into one fund styled the Currency Guarantee Fund.

The following banks have establishments in the Colony: the Chartered Bank of India, Australia, and China; the Hong Kong and Shanghai Banking Corporation; the Mercantile Bank of India, Limited; the P. & O. Banking Corporation; Eastern Bank Limited; the Netherlands Trading Society; the National City Bank of New York; the Banque de l'Indo-Chine; the Netherlands India Commercial Bank; the Sze Hai Tong Banking and Insurance Company, Bank of Taiwan, The Yokohama Specie Bank, Oversea-Chinese Banking Corporation Limited, Bank of China, The United Chinese Bank, Limited, The Ban Hin Lee Bank, Limited, the China and Southern Bank, Lee Wah Bank, Thomas Cook & Son (Bankers) Limited and Kwong Lee Banking Company.

The first two banks abovementioned were, at one time, allowed to issue notes in the Colony, the former under its Charter, and the latter by law, but none have been issued since 1909. The amount of notes of local banks in circulation at the end of 1937 was $135,105 only.

In addition to bank-notes a Government Currency Note issue was introduced in 1899. The amount of notes in circulation at the end of 1937 was $104,975,521. These notes circulate freely within the Colony and the Malay States, and are largely used in North Borneo.

There is a Post Office Savings Bank at each Settlement.

Finance.

The following figures show the Revenue and Expenditure of the Straits Settlements, including transfers from the Currency Guarantee Fund and to the Opium Revenue Replacement Fund, for the ten years up to 1937.

Year.	Revenue.	Expenditure.
	$	$
1928	38,092,221	35,007,608
1929	54,888,291	35,711,997
1930	32,408,305	39,240,314
1931	26,601,528	46,802,558
1932	44,562,295	34,196,483
1933	31,585,190	30,476,291
1934	34,244,603	30,937,262
1935	35,040,380	34,764,640
1936	35,124,137	33,398,912
1937	37,348,383	42,038,482

Local Government.

There are Municipalities at Singapore, Penang and Malacca, administered by Boards of Commissioners, appointed by the Governor. Their revenue and expenditure in 1937 were as follows:—

1937.	Revenue.	Expenditure.
	$	$
Singapore ..	14,262,458	12,968,575
Penang	4,482,048	4,364,065
Malacca	482,374	439,948

College of Medicine, Singapore :—

Principal, G. V. Allen, M.D., B.Ch., $1,100 p.m.

Professor of Midwifery, J. S. English, B.A., M.D., B.C.H., $850 to $1,000 p.m.

Professor of Bacteriology, W. A. Young, M.R.C.S., L.R.C.P., $850 to $1,000 p.m.

Professor of Biochemistry, J. L. Rosedale, Ph.D., D.Sc., $850 to $1,000 p.m.

Professor of Medicine, R. B. Hawes, M.B., B.S., M.R.C.P., M.R.C.S., $850 to $1,000 p.m.

Professor Clinical Surgery, D. E. C. Mekie, M.B., Ch.B., F.R.C.S., $850 to $1,000 p.m.

Professor of Dental Surgery, E. K. Tratman, M.D.S., B.D.S., L.D.S., $850 to $1,000 p.m.

Professor of Biology, B. A. R. Gater, M.A., $850 to $1,000 p.m.

Professor of Surgery, J. K. Monro, M.A., M.R.C.S., L.R.C.P., M.R.C.P., F.R.C.S., M.D.. M.Ch., $850 to $1,000 p.m.

Professor of Physiology, R. G. M. S. MacGregor, M.R.C.S., L.R.C.P., B.M., B.Ch., $850 to $1,000 p.m.

Professor of Anatomy, W. A. Fell, B.Ch., $850 to $1,000 p.m.

Associate to Professor of Medicine, G. A. Ransome, M.R.C.P., M.R.C.S., $850 to $950 p.m.

Dental Officer and Lecturer in Dental Mechanics, J. W. Softley, B.D.S., $500 to $800 p.m.

Dental Mechanic, G. H. Stephens, $300 to $500 p.m.

Lay Superintendent, J. A. Spencer, $240 to $300–$350 p.m.

Institute for Medical Research, F.M.S. :—

Director, A. N. Kingsbury, B.Sc., M.D., B.S., M.R.C.S., L.R.C.P., D.P.H., $1,100.

Senior Pathologist, R. Lewthwaite, M.A., D.M., B.Ch., L.R.C.P., M.R.C.S., $850 to $1,000 p.m.

Senior Bacteriologist, R. T. B. Green, M.D.B.S., $850 to $1,000 p.m

Chief Chemist, J. Shelton, $850 to $1,000 p.m.

Senior Malaria Research Officer, J. W. Field, M.D., Ch.B., $650 to $800 p.m.

Pathologist, H. M. Nevin, B.A., M.B., Ch.B., D.P.H., $550 to $800 p.m.

Malaria Research Officer, J. C. Niven, M.B., Ch.B., $550 to $800 p.m.

Entomologist, E. P. Hodgkin, $550 to $800 p.m.

Chemists, F. E. Byron, I. A. Simpson, J. L. Tetley, $400 to $800 p.m.

Research Students in Tropical Medicine, Two appointments, J. O. Poynton, officiating (vacant), $600 p.m.

Mental Hospital, Singapore :—

Medical Superintendent, Grade B., B. F. Home, L.R.C.P., L.R.C.S., L.R.F.P.S., $850 to $1,000 p.m.

Assistant Medical Superintendent, W. R. Logan, M.B., Ch.B., $500 to $800 p.m.

Senior European Attendant, F. R. Farrer, $420 to $480 p.m.

European Attendants, W. J. Herbert, H. H. Belderson, $240 to $350–$400 p.m.

Matron, Grade I., Miss H. F. Priestley, $380 to $420 p.m.

Central Mental Hospital, Tanjong Rambutan :—

Medical Superintendent, Grade B., J. W. Murdoch, M.B., Ch.B., $850 to $1,000.

Assistant Medical Superintendent (vacant), $500 to $800 p.m.

European Male Nurse, J. R. G. Young, $200 to $350 p.m.

European Male Nurse, T. J. Wimsey, $200 to $350 p.m.

Medical Officers (*Time-Scale*), J. J. O'Grady, M.C., M.B., B.Ch., T. C. Wakefield, M.B., Ch.B., L.M.(Rot.), M. P. O'Connor. M.B., Ch.B., J. M. A. Lawson, M.A., M.B., Ch.B., M.R.C.P., R. A. Pallister, M.D., B.S., J. W. Winchester, M.D., Ch.B., C. T. MacCarthy, M.A., M.B., B.Ch., G. A. Ryrie, M.A., M.B., Ch.B., A. Bearblock, M.R.C.S., L.R.C.P., H. J. Lawson, M.B., B.Ch., E. S. Lawrie. M.B., Ch.B., R. A. MacNab, M.A., Ch.B., A. H. Lowther, M.B., Ch.B., W. G. Evans, M.B., Ch.B., M.R.C.S., L.R.C.P., T. F. Strang, M.B., Ch.B., S. H. Swift, M.B., Ch.B., L. E. Vine, M.B., B.S., L.R.C.P., M.R.C.S., J. E. McMahon, B.A., M.B., B.Ch., F. D. Gillespie, M.B., Ch.B., H. Scrimgeour, M.B., Ch.B., B.Sc., G. I. H. Braine, M.B., Ch.B., D. R. McPherson, B.Sc., M.B., Ch.B., J. A. P. Cameron, M.B., Ch.B., R. Shelley, M.R.C.S., L.R.C.P., M.B., B.S., M.D., H. B. C. Wallace, M.B., B.Ch., B.A.O., M.D., V. H. Norris, L.M.S., W. C. E. Diamond, M.B., B.S., L. F. Day, M.R.C.S., L.R.C.P., F.R.C.S., B.S., E. W. Martindell, M.B., B.S., M.R.C.S., L.R.C.P., E. C. Vardy, M.B., B.S., C. A. Stanley, M.R.C.S., L.R.C.P., M.B., B.S., S. J. Campbell, M.B., B.Ch., B.A.O., M. L. Bynoe, M.R.C.S., L.R.C.P., M.B., B.S., P. E. F. Routley, M.A., M.B., B.Sc., G. M. Graham, B.A., M.D., O. E. Fisher, M.B., Ch.B., A. L. Sheild, M.B., Ch.B., F.R.C.S., D. A. B. Hopkin, M.R.C.S., L.R.C.P., M.B., B.S., R. M. B. Lowis, M.R.C.S., L.R.C.P., I. T. Dickson, M.B., Ch.M., A. J. Marshall, M.B., Ch.B., T. A. Divine, M.B., Ch.B., D. A. Beattie, H. M. McGladdery, G. F. Jones, M.B., B.S., B.Sc., $500 to $800 p.m.

Lady Medical Officers (*Time-scale*), Mrs. E. B. Jacques, M.B., Ch.B., Mrs. M. J. Were, O.B.E., L.R.C.P. & S., D.P.H., Mrs. L. J. Bentinck, M.B., Ch.B. B.A.O., Mrs. I. A. M. Smallwood, M.B., B.S., Mrs. H. I. Worth, M.A., M.D., M.B., Ch.B., Miss E. Morris, M.B., Ch.B., D.P.H., Miss C. B. Smith, M.R.C.S., L.R.C.P., D.P.H., Miss E. M. O. Will, M.B., Ch.B., D.P.H., Miss J. M. Matthews, M.B., Ch.B., Miss M. H. James, M.B., B.S., D.P.H., Miss F. A. Craig, M.B., Ch.B., Miss C. D. Williams. Miss M. J. Lyon, E. S. D. Thomson, $500 to $800 p.m.

Health Officers (*Time-scale*), Mrs. C. H. Duke, M.A., M.B., Ch.B., D.P.H., D. W. G. Faris, M.R.C.S., L.R.C.P., M.B., B.S., D.P.H., E. A. Struthers, M.B., Ch.B., D.P.H., R. D. Gross, M.R.C.S., L.R.C.P., M.D., B.S., D.P.H., J. C. Milne, M.B., Ch.B., D.P.H., R. S. Johnston, M.B., B.Ch., B.A.O., D.P.H., C. H. Williams, M.B., Ch.B., D.P.H., P. G. Currid, M.A., M.B., Ch.B., D.P.H., J. C. P. Grey, M.A., M.B., B.Ch., M.R.C.S., L.R.C.P., D.P.H., W. L. Blakemore, M.B., Ch.B., M.R.C.S., L.R.C.P., D.P.H., W. E. Holmes, M.A., M.B., Ch.B., B.A.O., D.P.H., G. H. Lowe, M.B., Ch.B., D.P.H., R. C. Burgess, M.B., Ch.B., D.P.H., C. J. Boyd, M.B., B.Ch., B.A.O., D.P.H., R. E. Anderson, B.Sc., M.B., Ch.B., J. H. Strahan, M.B., B.Ch., B.A.O., D.P.H., B. A. Taylor, M.R.C.S., L.R.C.P., E. D. B. Wolfe, M.B., Ch.B., T. Wilson, M.B., B.Ch., B.A.O., D.P.H., W. Puleston-Jones, M.R.C.S., L.R.C.P., D.P.H., T. Evans, M.R.C.S., L.R.C.P., D.P.H., I. D. Gebbie, M.B., Ch.B., J. H. Hudson, B.Sc., M.B., Ch.B., M.R.C.S., L.R.C.P., R. Calderwood, M.B., Ch.B., J. O. Poynton, W. H. Jeffrey, M.B., Ch.B., A. A. Cameron, G. F. Jones, A. T. H. Marsden, M.D., $500 to $800 p.m.

Matron, General Hospital, Singapore, Miss R. Fenoulhet, M.B.E., $450 p.m.

THE SETTLEMENT OF LABUAN.

The Island of Labuan is situated on the north-west coast of Borneo, in 5° 16′ N. lat., and 115° 15′ E. long. Its area is about 35 square miles. It is distant from the coast at the nearest point about six miles; from Brunei, the capital of the Protected State of that name, about forty miles; and from Singapore 725 miles, or three days' steam.

The average annual rainfall is about 130 inches, and the thermometer ranges from 71° to 93°.

An attempt was made by the East India Company's servants, who were expelled from Balambangan by Sulu pirates in 1775, to establish a trading station in Labuan, but the project was soon abandoned, and for practical purposes the history of the island begins with its cession to Great Britain in 1846 by the Sultan of Brunei. It was then uninhabited. The reason for the cession, given in the treaty by which the island was handed over to Great Britain, was that it was "desirable that British Ships shall have some port where they may careen and refit, and deposit such stores and merchandise as shall be necessary for the carrying on of the trade with the dominions of Brunei," and the consideration given by Great Britain was an undertaking to suppress piracy and protect lawful trade.

The island was first occupied only as a naval station under the control of a naval officer, and the formal establishment of a Crown Colony was deferred until 1848. From that date until the end of 1889 Labuan was governed as a separate Colony. Until 1869 it was assisted by grants-in-aid from the Imperial Exchequer, but this help was then withdrawn, and the Colony supported itself, though with difficulty, for the next twenty years. In 1889, the financial troubles came to a head, and, as it was thought that the island could be more economically governed in connection with the territories of the British North Borneo Company, the administration was entrusted, from the 1st January, 1890, to the care of the Company, whose principal representative in Borneo was given a commission as Governor of Labuan. This arrangement was terminated at the end of 1905, when Sir J. Anderson, Governor of the Straits Settlements, was appointed also Governor of Labuan, the island still remaining a separate Colony. On the 1st of January, 1907, Labuan was annexed to the Straits Settlements, and declared part of the settlement of Singapore. On the 1st of December, 1912, the island was constituted a separate Settlement.

When the Colony of Labuan was first founded, great hopes of the success of the new settlement were based upon the existence of rich coal deposits in the island, but hitherto the companies formed to develop these coal resources have not met with great success. In 1893, the Central Borneo Company was reconstructed under the name of the New Central Borneo Company, who transferred their undertaking to the Labuan and Borneo Company. This Company, in its turn, was succeeded on the 8th December, 1902, by the Labuan Coalfields Company, Limited, The mines have been closed since the beginning of 1911.

Labuan has a fine port (Victoria Harbour), perfectly safe, and easy of access. Vessels drawing 14 feet can go alongside Messrs. Harrisons & Crosfield's wharf.

Ships are supplied with water at $1 per ton.

Labuan is a market for much of the produce of the neighbouring coasts of Borneo and the Sulu Archipelago, such as sago, para rubber, jelutong and copra, which are forwarded by the Labuan traders to Singapore. Cattle and goats are reared, and over 10,000 acres are estimated to be under cultivation.

There is a branch of the Government Post Office Savings Bank in Labuan. Harrisons and Crosfield (Borneo) Ltd. are the local Sub-Agents of the Hong Kong and Shanghai Banking Corporation. The currency is that of the Straits Settlements.

The inhabitants are chiefly Malays and other natives from Brunei and the mainland of Borneo, and Chinese, the latter being mostly petty traders.

There are five Government Schools, viz.:—The Government English School, Town Vernacular Schools for boys and girls, and the Vernacular Schools in Bukit Kallam and Kerupang. In addition there are four private schools, viz.:—St. Anne's School (Roman Catholic Mission), Mrs. Fell's Private School, Chung Hwa School, and Chi Wen School.

A reservoir owned by the Government supplies the town of Victoria and shipping with drinking water.

The Cable and Wireless, Ltd., is a station on the island connected by cable with Singapore, Hong Kong, and North Borneo. The nearest point in telegraphic communication with Europe is Singapore.

The Brunei Government maintains a Wireless Station which communicates with the Stations erected in the neighbouring countries of Brunei, Sarawak, and North Borneo.

A weekly service of steamers plying between Singapore, North Borneo Ports, and the Philippines provides Labuan with regular communication with these places; there are, in addition, local coasting steamers.

The chief sources of revenue are harbour dues, land rents and licences.

The public revenue and expenditure for the last three years were respectively:—

	Revenue.	*Expenditure.*
1935	$97,794·36	$139,352·26
1936	$91,498·43	$131,457·42
1937	$89,825·08	$138,984·37

Population.

Estimated, mid 1938, 8,567.

CHRISTMAS ISLAND.

Christmas Island, with an area of 60 square miles, lies in the Indian Ocean, latitude 10° 30′ S. and longitude 105° 40′ E., 223 miles S. 8° E. of Java Head, and 529 miles N. 79° E. from the Cocos Islands. It is densely wooded and of irregular shape, about 11 miles long (at the longest point) and about 4½ miles wide (at the narrowest point). The climate is healthy with average maximum and minimum temperatures 87°F. and 71°F. There is a prevalent E.S.E. trade wind. The island has been known to navigators since about the middle of the 17th century. It was formally annexed on the 6th June, 1888, placed under the administration of the Governor of the Straits Settlements in 1889 and incorporated with the Settlement of Singapore in 1900. The Island is administered by a District Officer of the Malayan Civil Service. There is a small force of Sikh Police drafted from the S.S. Police Force. All the inhabitants (mainly Chinese and Malays), with the exception of the District Officer and his staff, are employed by the Christmas Island Phosphate Company, Ltd., registered in London, which works the large natural deposits of phosphate of lime to which the Island owes its importance. In 1923 a wireless station was installed, and the Island is now in direct communication with Singapore. A school was established in 1931, and a teacher supplied by the Government. Population, 1937, 31st December, 1,313 (adult males 1,085, adult females 109, children 119). Expenditure, 1937, $29,405 (including salaries of D.O. and Sikh Police). Imports in 1937, chiefly iron and steel manufactures. Exports consisted solely of phosphates of lime. In 1937, 162,568 tons of phosphates of lime were exported. Japan was the principal buyer with 127,617 tons. The S.S. and F.M.S. bought 110,741 tons of phosphate dust. Shipping:—83,393 tons entered in 1937, and 80,872 tons cleared. British ships totalled 34,827 tons while Japanese ships totalled 26,547 tons, Chinese ships 16,338 tons, Greek ships 3,336 tons and Norwegian ships 2,345 tons.

MALAYA:
FEDERATED MALAY STATES.

The Federated Malay States comprises four States: Perak, Selangor, Negri Sembilan, and Pahang.

Perak.

Perak is ruled by a dynasty that claims descent from the last Malay Sultan of Malacca. In the 17th century it was overrun by the Achenese, and at some time after 1636 a Johore prince, the husband of a Perak princess, was sent by Acheh to rule it under the title of Sultan Mudzaffar Shah. From 1650 onwards the Dutch endeavoured to get a monopoly of the tin exported from Perak, establishing near the mouth of the Perak river several factories, which the Malays, from time to time, cut off and destroyed. In 1765 the Sultan made a treaty with the Dutch.

British influence began early in the 19th century. A treaty with Penang in 1818 secured to British subjects the right to free trade in Perak. In 1825 a British arbitrator settled the boundary between Perak and Selangor. By the Burney Treaty with Siam, in 1826, the independence of Perak and Selangor was recognised, though the Sultan of Perak was permitted to send tribute to Siam if he so desired. In the same year the Sultan ceded to the British the Dindings and the Island of Pangkor as posts for the suppression of piracy, and agreed to rely solely on the protection of Great Britain. From 1872 to 1874 there was almost continuous fighting of more or less severity between rival factions of Chinese in the Larut district where valuable tin deposits had been found.

Having regard to the anarchy which prevailed, Sir Andrew Clarke, in 1874, induced the Perak chiefs to sign the Pangkor Treaty (20th January, 1874), and to accept thereby a Resident whose advice should be "asked and acted upon on all questions other than those touching Malay religion and customs." The murder of the first British Resident (Mr. J. W. Birch) in 1875 led to a military expedition and the banishment of the Sultan and some chiefs implicated in the affair. The country soon settled; and the Malay constitution was restored under a Sultan protected by the British Government. In 1935 the Dindings were retroceded to Perak.

Selangor.

In the 14th century, Klang, which is now a district of Selangor, is said to have been subject to the Javanese Empire of Majapahit. In the next century it was given to a Penghulu of the family of the Bendaharas of old Malacca, and a son of Sultan Mansur Shah (1458–1477 A.D.) of Malacca was made ruler of Jeram, near Langat. During the period of Portuguese ascendency, little is known of the Selangor coast. The Dutch opened factories for the purchase of tin at Kuala Selangor and at Kuala Linggi. In 1718, Daeng Chelak, a Bugis chief, who had married a Johore princess, settled at Kuala Selangor, and about 1780 their descendant was recognised as Sultan Salehu'ddin by the Sultan of Perak. The throne has remained in the same family ever since. In 1783, the Dutch blockaded Kuala Selangor, and forced the Sultan to acknowledge the suzerainty of Holland.

In 1818, the Sultan of Selangor made a commercial treaty with the East India Company at Penang. In 1874 anarchy prevailed amongst the Malay chiefs of Selangor, and pirates ravaged the coastal trade. The Sultan's difficulties were such that he was glad to accept a British Resident and to come under the protection of Great Britain.

Negri Sembilan.

This confederation of "Nine States" consists of the four major States of Sungei Ujong, Jelebu, Johol, and Rembau, and the five minor States of Ulu Muar, Jempul, Terachi, Gunong Pasir, and Inas. Sungai Ujong is mentioned in a Javanese poem in 1365 as being subject to the Javanese Empire of Majapahit. In the 15th century it was ruled by Chiefs of the old kingdom of Malacca. Nearly all the Malay inhabitants of the "Nine States" are descended from immigrants from Minangkabau in Sumatra. Portuguese accounts prove that this immigration had begun in the 16th century. The original Malay federation consisted of Sungei Ujong, Klang (now a district of Selangor), Jelebu, Rembau, Naning (now part of Malacca), Segamat (now in Johore), Pasir Besar (also in Johore, its place having been taken by Johol),

elai (now Inas), and Ulu Pahang, the region between he Ulu Serting and Temerloh. After the wresting f Malacca from the Portuguese by the Dutch and the ohore Malays in 1641, Johore took a leading part in Negri Sembilan politics until 1773, when the chiefs f the four major States brought from Sumatra a am Tuan named Raja Melewar, ancestor of the resent Yang di-pertuan Besar.

In 1874, the Dato' Klana, Chief of Sungei Ujong, he most important of the "Nine States," invited nd obtained the assistance of the British Government o maintain his rule and the appointment of a British Resident. In 1883, Jelebu applied for a British Officer; and Rembau agreed to refer all its disputes to the British Government, and in 1887 accepted a British adviser. In 1889, the Yam Tuan of Sri Menanti and the Rulers of Tampin and Rembau asked for a Resident, and agreed to a confederation known as "the Old Negri Sembilan." In 1895, the Resident of this confederation took charge of Sungei Ujong and of Jelebu, and the modern Negri Sembilan was constituted. Finally, in 1898, the Yam Tuan of Sri Menanti was elected titular Ruler of the whole State.

Pahang.

Chao Ju Kua, a Chinese, writing about 1225 A.D., mentions Pahang as being subject to the old Sumatran Buddhist Kingdom of Sri Vijaya. Later, Pahang and Tioman are claimed as conquests of Majapahit. In the 15th century, Sultan Mansur Shah of Malacca captured the Ruler of Pahang, and married his daughter. Before the Malacca royal house died out, in 1699, its Pahang branch provided several Rulers for the senior throne of Johore, which directly represented the Malacca dynasty. Later, Pahang fell under the suzerainty of the new Sultans of Johore, who, when they removed to Lingga, left a Dato' Bendahara in charge of Pahang.

In 1887 Sir Frederick Weld negotiated a treaty with the Bendahara of Pahang, promising British help in the event of external attack, and arranging for a British agent to be stationed at his capital. At the same time, the title of Sultan was substituted for that of Dato' Bendahara. In 1888, the Sultan applied for and obtained British protection, and the appointment of a Resident.

Constitution of the States.

The supreme authority in each State is vested in the Sultan, or the Ruler, in State Council. His Highness the Sultan or Ruler presides over the State Council. In 1932, the State Councils were reconstituted on the wider basis. In each of the four States they now include besides the British Resident, Malay chiefs and officials of the State, a number of unofficial members representative of Malay, European, Chinese, and Indian interests.

In Perak and Negri Sembilan there are second chambers which are concerned principally with matters of Malay customs and religion.

The Federation.

In 1895 a treaty was signed by the rulers of the four States, by which they agreed to constitute their countries into a Federation (to be known as the Federated Malay States), to be administered under the advice of the British Government, while all existing treaties and arrangements were to stand. The States agreed to an appointment of an officer, to be styled Resident-General of the Malay States* as the agent and representative of the British Government under the Governor of the Straits Settlements. They agreed to follow the Resident-General's advice in all matters of administration other than those touching Islam. Subject to the authority created by the appointment of the Resident-General, the system of administration under the advice of British Residents remained unchanged.

The States undertook to give each other material assistance in men and money, the wealthier States assisting those in want of help, and all moneys so advanced being considered as loans; and also undertook to raise and equip a force of Indian troops for service throughout the States, and to supply a portion of these troops on requisition for the defence of the Colony of the Straits Settlements, should Great Britain be at war with any foreign Power.

It was also provided by the Treaty of 1895 that the rulers of the Federated States should meet periodically in one of the States, under the presidency of the High Commissioner, to discuss affairs of mutual interest. The first of these meetings was held at Kuala Kangsar, Perak, in July, 1897, and was attended by the High Commissioner, the rulers of all the four States, with their most important chiefs, the Resident-General, and all the British Residents. At this meeting many important matters were discussed and arrangements made to deal with them in the councils of the various States.

The Decentralization Policy.

Federation proved a great stimulus to commerce and development, but its effect was to weaken the powers of the Rulers and the Residents and to concentrate authority in the Federal headquarters. In order to curtail the powers of the Resident-General and the Federal machine, the Federal Council with the High Commissioner himself as President was created and the title of Resident-General was changed to that of Chief Secretary to Government. In spite of this, however, the Federation while enjoying great prosperity became increasingly an amalgamation rather than a true Federation and a point was reached when the individuality of the States was in danger of becoming submerged. His Majesty's Government therefore decided upon a policy of decentralization. In 1927 a small measure of financial control was restored to the States. In the same year the Rulers withdrew by agreement from active membership of the Federal Council while the membership of the Council was increased to give it a more representative character. In 1931, the High Commissioner (Sir Cecil Clementi) made public far-reaching proposals for giving effect to the decentralization policy, and in 1932 the Under Secretary of State for the Colonies (Sir Samuel Wilson) visited Malaya to investigate. The report made by Sir Samuel Wilson was approved by His Majesty's Government and the changes recommended are gradually being carried out. The State Councils have been reconstituted and strengthened. Ten large departments have been transferred from the Federal to the State authority. In 1936 the post of Chief Secretary to Government was abolished and replaced by that of a Federal Secretary who has executive authority in Federal matters only and who is also the channel of communication from the States to the High Commissioner. The administrative powers previously possessed by the Chief Secretary to Government have been distributed between the States and the Federal Secretary according to whether the matter is of State or Federal concern, and his statutory powers have also been transferred to the High Commissioner or to the appropriate State or Federal authority. A considerable volume of financial provision has been transferred to State control but there is still a common purse from which block grants are made to each constituent State for its annual needs. The objective

* The title of this post was later altered to Chief Secretary to Government.

Digitized by Google

is a true Federal system in which the functions of the Federal and the State authority shall be mutually exclusive. Decentralization will not be complete until the States have had restored to them the power of collection and appropriation of their own revenues other than those required for Federal purposes and have undertaken the liability of balancing their own budgets with State revenues.

Climate.

The temperature of the West Coast of the Malay Peninsula has but a small annual range. On the East Coast, however, the North-East Monsoon, lasting from November until March, causes a distinct contrast with the rest of the year with regard to temperature, wind and rainfall. At Jelebu, in Negri Sembilan, the driest station where records have been kept, the average rainfall for 1891-1936 was 65 inches, but in the mountains the average yearly rainfall is very high, being nearly 250 inches near Taiping. The heat is at times oppressive, but the nights generally are cool. On some of the higher mountains (5,000 feet) the night temperature has been known to fall to 36°F. In the day time there is almost always a breeze to modify the heat. The Peninsula lies within the region of the South-West and North-East Monsoons, but the only really strong regular wind is the North-East Monsoon, which strikes the East Coast from the China Sea. Violent squalls, known as "Sumatras," are not infrequent on the West Coast of the Peninsula between April and October. Generally they are of short duration and occur during the night.

Population.

The result of the census, taken in 1931, shows that the population of the Federated Malay States has increased during the decade from 1,324,890 to 1,713,096 or by 29·3%.

The population as estimated at mid-year 1938 from the formula, census 1931 + births − deaths + migrational surplus, was as follows:—

	Census 1931.	Estimated Mid-year 1938.
Malays of British Malaya ..	443,618	680,755
Other Peoples of Malay Archipelago	150,113	
Chinese	711,540	911,196
Indians	379,996	466,702
Europeans	6,350	9,448
Eurasians	4,251	4,931
Others	17,228	16,803
Total ..	1,713,096	2,089,835

Railways.

The Federated Malay States Government owns the railways both in the Federated Malay States and the Colony of the Straits Settlements (Singapore Island, Malacca, and Province Wellesley) and also in the Unfederated States of Kedah, Perlis, and Kelantan. It has leased the Johore State Railway (121 miles), extending from Johore Bahru at the Southern extremity of the Peninsula and opposite Singapore, to Gemas on the boundary between Johore and the Federated Malay States. At Gemas the line branches into the West Coast and the East Coast Lines; the West Coast Line runs North-North-West through Negri Sembilan, Malacca, Selangor, Perak, and Province Wellesley to Prai—the port opposite Penang Harbour—488 miles from Singapore. From Bukit Mertajam near Prai, the line proceeds northwards through Province Wellesley and the Unfederated States of Kedah and Perlis, to the Siamese frontier station of Padang Besar, 580 miles from Singapore. Through traffic with the Royal State Railways of Siam was opened on July 1st, 1918, the distance between Singapore and Bangkok being 1,195 miles. Through services are in operation between Penang and Bangkok, the journey occupying 26 hours.

The East Coast Line proceeds northward from Gemas through Negri Sembilan, Pahang and Kelantan to Tumpat on the North-East Coast of the Unfederated State of Kelantan, 328 miles from Gemas. At 141 miles the line passes through Kuala Lipis, the Capital of Pahang and at 187¾ miles crosses the Pahang-Kelantan Border. Guillemard Bridge across the Kelantan River at 292 miles is the largest bridge in Malaya. It is 2,166 feet long and consists of 5 spans of 250 feet and 5 spans of 150 feet. The East Coast Line provides an alternative route to Siam.

An extension from Pasir Mas in Kelantan runs in a westerly direction for 11¾ miles to the Golok River at the Siamese Boundary, where it joins with the Siamese line running to Haad Yai Junction, where connection is made with the main Bangkok-Penang line.

Through working between the Federated Malay States and Kelantan via the Royal State Railways of Siam commenced in 1921, and via the East Coast Railway in 1931.

Branch lines connect the main line with the ports on the West Coast at Malacca, Port Dickson, Port Swettenham, Teluk Anson Wharf and Port Weld.

A causeway designed to carry two railway tracks and a roadway has been built across the Johore Strait, connecting the Island of Singapore with the Peninsula.

The total length of line now open to traffic under the Federated Malay States Railway Administration is 1,068 miles.

The line is of metre gauge.

On the West Coast main line, there are sleeping saloons and buffet cars on night mail trains and restaurant cars on day mail trains. An air-conditioned first class coach is attached to day mail trains between Kuala Lumpur and Prai. On the East Coast Line sleeping saloons run from Tumpat to Singapore and Kuala Lumpur and *vice versa* on the Through Weekly Express, an observation coach being attached to the rear of the trains between Tumpat and Gemas.

Expenditure on Capital Account up to the 31st December, 1937, was $227,600,693, of which $50,038,653 was contributed from Loan Funds and the remainder has been met from the general revenues of the Federated Malay States and from Railway surpluses.

ROADS.

The mileage of metalled roads maintained by the Public Works Department is 2,939, of which approximately 2,183 miles or 74.3 per cent. have been bituminously treated, and is made up as follows:—

	Miles.
Perak	1,002
Selangor	926
Negri Sembilan	554
Pahang	457
	2,939

Digitized by Google

These roads connect up all townships of importance throughout the Federated Malay States.

The total expenditure on the maintenance of metallic roads in 1937 amounted to $2,447,709·73 and the average cost of up-keep per mile was about $833 compared with $715 in 1936.

In addition to metalled roads, approximately 1,619 miles of unmetalled roads and bridle paths were maintained.

Posts, Savings Bank, Telegraphs and Telephones.

A well-organised postal service is maintained throughout the Federated Malay States. The parcel post, cash-on-delivery, insurance, money order and postal order services extend to a great number of countries abroad. There are 104 post offices at which officers of the Posts and Telegraphs Department are employed, and 74 postal agencies where postal work is performed by Station Masters and others. Frequent mail services are in operation with various countries overseas through Port Swettenham and through the Straits Settlements ports in Singapore and Penang.

Savings facilities are afforded at all post offices during most of the hours they are open for public business. The Savings Bank is guaranteed by Government and is under the control of the Department. Interest is paid on deposits at the rate of 3 per cent. per annum.

The Public Telegraph and Telephone System of the Federated Malay States is provided and maintained by the P. & T. Department and consisted at 31st December, 1937, of 3,068 miles of overhead lines carrying 28,548 miles of wire. In addition, there were 203 miles of underground and submarine cables with 17,455 miles of single wire. This included 121 miles of overhead line through Johore, connecting the F.M.S. and Singapore.

The Postal Telegraph System extends throughout the Federated Malay States and is interconnected with the Railway Telegraph System; Railway Telegraph Offices being available for public telegrams where no Postal Telegraph Office exists. At the smaller offices telegrams are transmitted by telephone. Telegraph Lines connect the more important offices to one another, to Singapore, Penang and Malacca in the Straits Settlements, and to various offices in Johore, Kedah, Kelantan and Trengganu; the whole forming the Malayan Telegraph System. There are flat rates for telegrams throughout this system. International telegraphic communication is through Singapore and Penang.

The Telephone System extends throughout the Federated Malay States. There are at present 86 public exchanges, maintaining a continuous night and day service and 42 other places at which Call Offices are maintained, giving a service restricted to the hours during which the local Post Office is open for the transaction of public business. The majority of Post Offices in the Federated Malay States are provided with public telephone facilities. Public Call Office facilities are also available at a number of Railway Stations. At most of the remaining places, calls including trunk calls, can in case of emergency be made from the local Police Stations.

All the exchanges are connected by means of trunk lines and trunk communication (which may also be obtained from Call Offices) is possible between all exchanges. In case of emergency, trunk calls may be made from the local Police Stations when the Call Offices are closed.

The Federated Malay States telephone system is connected with the telephone system in Singapore, Malacca, Johore, Penang, Province Wellesley, and Kedah.

Customs and Excise.

The trade of the Federated Malay States is principally an export trade in raw materials and produce—agricultural, forest, marine and mineral—in exchange for imports of food, tobacco, fuel oils, clothing and machinery. The export trade was principally with the Colony of the Straits Settlements, the United Kingdom and the United States of America, while the import trade was principally with the Colony of the Straits Settlements, United Kingdom, British India and Burma, Netherlands Indies, and Siam.

In 1937 the aggregate value of trade was $488 millions, an increase of over 42 per cent. when compared with the previous year.

The four Federated Malay States form a single customs unit. The tariff list covers a wide range of dutiable articles and makes provision for a preferential rate of duty on certain goods produced or manufactured in the British Empire. The principal articles subject to duty are as follows:—Tobacco, liquors, petroleum, sugar, matches, edible oils and fats, cement, cosmetics and perfumery, textiles and wearing apparel, leather, cycles, tyres, milk, jam and preserved fruits, coffee, tea, linoleum, brassware, printing paper and electric batteries. Exports:—Rubber, tin and tin-ore, tungsten and other metalliferous ores.

Rubber is subject to a cess of 0·15 cent. per lb. upon export.

Details of the tariff can be obtained in London at the Malayan Information Agency, at Malaya House, 57, Trafalgar Square.

STATISTICS.

(a) Revenue and Expenditure of the Federation.

The total annual Revenue and Expenditure during the last ten years have been as follows:—

	Revenue.	*Expenditure.*
1928 . . .	$95,655,560	$109,004,240
1929 . . .	81,799,584	84,660,975
1930 . . .	65,560,870	82,470,192
1931 . . .	52,348,659	62,163,328
1932 . . .	43,817,151	53,740,139
1933 . . .	47,198,806	50,258,671
1934 . . .	58,926,323	47,211,228
1935 . . .	62,364,264	51,119,943
1936 . . .	68,090,902	52,702,229

Perak.

His Highness Sultan Abdul Aziz A'mu' Tasnim Bil'lah Shah, K.C.M.G.

Perak is the most northerly of the Federated States on the west coast, touching Province Wellesley on the north and Selangor on the south and having an area of 7,980 square miles. About 1850 the discovery of tin in Larut was followed by the immigration of Chinese in great numbers. Since the appointment of a British Resident in 1874, the record of the State has been one of remarkable progress.

The State is well watered, the Perak (with its tributaries, the Singor, the Temengor, the Rui, the Plus, the Kinta, Batang Padang, Bidor and Sungkai), being the most important rivers. Other rivers of importance are the Krian, the Kurau, and the Bernam (with its tributary, the Slim). The mountains on the east boundary, which are part of the main range of the Peninsula, rise to a height of over 7,000 feet.

Sanatoria have been established on the Larut Hills at heights varying from 3,300 to 4,500 feet. Experimental gardens with English flowers and vegetables are to be found on the Larut Hills.

The chief exports are tin and rubber. Coconuts and rice are extensively grown. In the Krian District the Government has completed an extensive scheme for the irrigation of 61,000 acres of land, the larger proportion of which is already under cultivation for rice. A similar scheme with an area of 24,000 acres is in coure of development in the Sungei Manik area in Lower Perak. So far 8,000 acres are available of which 3,800 were planted in 1937.

Larut, Kinta, Batang Padang, and Klian Intan are the chief mining districts. The district of Batang Padang lies between the Kinta Valley and the Selangor boundary, and contains a little gold and wolfram mixed with its tin.

The total mileage of completed roads in Perak is (*a*) 1,002 of metalled and (*b*) 77 of unmetalled cart roads, 715 miles of bridle paths.

The British Resident has residencies at Taiping, the Headquarters of Government, and at Ipoh, the chief commercial centre. The chief towns are Ipoh, Taiping, Kuala Kangsar, Kampar, and Tapah. The chief port is Teluk Anson.

Since the Anglo-Siamese treaty of 1909 the territory claimed by Perak for many years, and held by Patani since 1826, has been formally ceded to Perak, and the State now includes the whole watershed of the river that gives it its name. The new territory which was taken over in 1909 and incorporated in the Upper Perak District, exceeds 1,000 square miles of area. It extends from Kedah on the West to Legeh on the East, and contains the tin mines of Klian Intan and much good stanniferous country. This territory is well watered, and the rolling plains of the Kroh plateau, 1,000 feet above the sea, afford a healthy Government station. At Tasek on the Kedah border there is a small natural lake. At the time when the territory was taken over the population was about 3,000 of various nationalities.

By an Act of Parliament which received the Royal assent on November 16th, 1934, the territory of the Dindings was restored to Perak and has formed part of the State since February, 1935. The area of the Territory, which contains the natural harbour of Lumut, is 190 square miles.

Selangor.

His Highness Sir Hisamuddin Alam Shah, K.C.M.G., ibni Al-Marhum Sultan Ala'idin Suleiman Shah.

Selangor, situated on the Western side of the Peninsula is bounded on the North by Perak, on the East and South-east by Pahang and Negri Sembilan, and on the West by the Straits of Malacca and has an area of 3,160 square miles.

Its coast line extends for about 125 miles. Where the State touches the central range of the Peninsula there are several peaks of over 5,000 feet and one of 5,812 feet.

The State is drained by four rivers: The Bernam, forming the boundary between Perak and Selangor; the Selangor, the Klang and the Langat. The natives are said to be the descendants of a Colony from the Celebes.

For administrative purposes the State is divided into six districts, viz.: Kuala Lumpur, Ulu Langat, Klang, Ulu Selangor, Kuala Langat and Kuala Selangor, each under a District Officer.

The Capital of the State is Kuala Lumpur, which is also the headquarters of the administration of the Federated Malay States. It is the largest town on the mainland of the Peninsula with a population of 127,124 (1937). It has a water supply from an impounding reservoir 7 miles distant, and is also lighted by electricity. There are 140 miles of town streets. It also possesses a picturesque public garden covering about 180 acres, and several imposing Government buildings, the principal being the Government offices of modern Saracenic design, with a clock tower 130 feet high, town hall, museum, courts, prison, railway station and offices, and post office. There are also branches of the Chartered Bank of India, Australia and China; the Hong Kong and Shanghai Banking Corporation; and the Mercantile Bank of India. The currency is the Straits Settlements dollar, with a fixed exchange at two shillings and fourpence.

There were 502 Schools in the State in 1937 including 57 English Schools, 87 Malay Schools, 202 Tamil Schools and 156 Chinese Schools.

Port Swettenham, situated at the mouth of the Klang River, and 27 miles by rail from Kuala Lumpur, is the chief port, and is regularly visited by ocean-going steamers. The aggregate tonnage of vessels which called at the port in 1937 was 7,234,376.

The total revenue of the State in 1937 was $32,733,798 and the expenditure $26,524,910. There is no public debt except such as is included in the public debt of the Federation.

The principal sources of revenue are customs, excise and land. Import duties are charged on spirituous liquors, wines, beers, petroleum, tobacco, matches and alum. In 1937 the gross total value of imports was $69,788,900 and the exports $128,600,476.

The chief industries of the State are tin mining and rubber planting. At the end of 1937 the area under rubber cultivation was 508,598 acres, and the value of cultivated rubber exported during 1937 was $63,971,840. The area alienated for mining is 50,725 acres, and the quantity of tin exported in 1937 was 546,834 pikuls valued at $49,047,005. At the end of 1937 the area under coffee was 9,038 acres. In 1937 there were 117,749 acres under coconuts. The area under pineapples is rapidly increasing and there were 9,455 acres planted with this crop at the end of 1937. Rice and other products are also grown with success.

Negri Sembilan (The Nine States).

His Highness Tuanku Abdulrahman, K.C.M.G. ibni al-Marhum Tuanku Muhammad, Yang Di-pertuan Besar.

The confederation of States known as Negri Sembilan lies on the Western side of the Peninsula and is bounded on the North-west by Selangor, on the North-east by Pahang, on the East by Johore, on the South by Malacca, and on the South-west by the sea.

The headquarters of the Resident are at Seremban in Sungei Ujong, where the principal Government offices are situated. District Officers are stationed at Port Dickson, at Kuala Klawang in Jelebu, at Kuala Pilah, at Tampin, and at Seremban.

The value of imports amounted to $9,222,079 in 1937 and that of exports to $45,2[illegible]0,119. The revenue of the State, which in 1937 amounted to $11,425,313, is derived mainly from tin mining and agriculture.

At the end of 1937, 9,365 acres of land were in occupation for mining, and 537,886 acres for building and agriculture. The alluvial tin fields are worked and owned by Chinese, whilst the hydraulic and other workings requiring the installation of expensive machinery are supervised and financed by Europeans. Gold reefs exist in Gemencheh and on the Muar River, but have not up to the present proved remunerative. The Malay population is almost entirely agricultural. By far the larger portion of this population inhabits the Kuala Pilah and Tampin districts, where there are extensive and fertile rice fields.

A great part of the State is mountainous, the rest consisting of undulating country suitable for agriculture. The whole State is well watered, the chief rivers being the Muar and the Linggi, the latter of which forms, for some distance, the boundary between the State and the Settlement of Malacca.

Much valuable timber is found in the forests of the State, and the areas of reserved forests are being considerably extended with a view to its preservation.

The chief agricultural products are rubber, rice, and coconuts. During 1937 the areas under cultivation with these products were approximately as follows:—

Rubber	372,217 acres
Rice	34,390 ,,
Coconuts	6,041 ,,
Other cultivation covered:—	
Oil palm	2,024 ,,
Fruit trees	8,013 ,,

Educational facilities comprise 84 Malay Vernacular Schools, 7 English Schools, 88 Tamil Schools, and 73 Chinese Schools.

The State is provided with a good system of roads, connecting the centres of each district with headquarters and each other. The total mileage is 554 miles of metalled roads, of which 428 miles were bituminously treated.

Estimated population, at the end of 1937, Negri Sembilan, 264,742.

Pahang.

His Highness al-Sultan Abu Bakar Ri'ayatu'd-Din Mu'adzal-am Shah, K.C.M.G., ibni al-Marhum al-Mu'tasim Billah al-Sultan Abdu'llah, Sultan.

Pahang occupies a large portion of that part of the Malay Peninsula which lies on the eastern side of the central mountain range. It is bounded on the North by the States of Kelantan and Trengganu, on the South by the territory of Johore, on the West and South-west by Perak, Selangor, and Negri Sembilan, and on the East by the China Sea. It is the largest of the States of the Federation, with an area of 13,820 square miles.

Several peaks of the main range of mountains forming the western boundary exceed 6,000 feet, the highest being Gunong Riam, which is 7,160 feet. Gunong Tahan, in the centre of the Pahang-Kelantan boundary, has been found to be 7,186 feet high, and is therefore the highest elevation in the Federated Malay States, and probably in the Malay Peninsula.

The State is drained by one of the largest rivers in the Peninsula, if not the largest, the Pahang River, which is fed by the Lipis, Jelai, Tembeling, Semantan, Triang, Bera, Luit, Lepar and other rivers. To the north the Kuantan and to the south the Rompin and Endau also debouch into the China Sea, the last named forming part of the boundary between Pahang and Johore.

The total length of the Pahang River is about 297 miles, of which 232 are navigable for houseboats and other small craft. The bars at the mouth of all rivers, with the exception of the Kuantan, prevent the ingress of vessels except those of very shallow draft.

The chief industry of the State, after agriculture, is tin mining, the principal mines being in the Bentong, Raub and Kuantan districts. Gold has been worked for many years by the Raub Australian Gold Mining Company, Limited. Gold-bearing lodes have also been worked by Europeans at Penjum, Selensing, Kechau, and other places in the State; the mines have been closed for some years. From the reports of old travellers it is clear that in the eighteenth and previous centuries very large quantities of alluvial gold were exported from Pahang. The European mines mentioned above were all on the sites of extensive native workings.

The administrative headquarters of the State are at Kuala Lipis, 209 miles up stream from the mouth of the Pahang River.

The Sultan, however, resides at Pekan, the old capital which is near the mouth of the Pahang River.

The East Coast Line of the Federated Malay States Railways runs through Pahang and is now open for traffic as far as Tumpat, Kelantan.

There is a motor car service both ways from Kuala Lumpur to Kuala Lipis, 119 miles; also from Jerantut Station on the Railway to Kuantan, a distance of 109 miles.

The total mileage of metalled roads in Pahang is 457 miles. A road from Batu Talam to Kuala Medang has been completed up to the 22nd mile post and it is hoped to link this road with Kuala Lipis, when funds are made available.

The total revenue of the State during 1937 amounted to $7,201,650 and the expenditure to $7,478,079.

There are 5 Government English Schools, 3 Private English Schools, 90 Malay Boys' Schools, 6 Malay Girls' Schools, 18 Tamil Schools, and 35 Chinese Schools. There are 3 private English Schools at Bentong, Kuantan and Mentakab respectively. In addition there are three private schools at hill stations for European children only, viz., one at Fraser's Hill and two at Cameron Highlands, with a total enrolment at the end of 1937 of 151.

MALAY STATES NOT INCLUDED IN THE FEDERATION.

In addition to the territories comprised in the Federated Malay States, the British sphere in the Malay Peninsula includes the States of Johore, Kedah, Perlis, Kelantan, and Trengganu.

JOHORE.

His Highness Sir Ibrahim, D.K., S.P.M.J., G.C.M.G., G.B.E., etc., etc., Sultan and Sovereign Ruler of the State and Territories of Johore.

The State of Johore lies at the southern extremity of the Malay Peninsula, and is bounded on the North by Pahang, on the North-west by Negri Sembilan and Malacca, on the West by the Straits of Malacca, on the South by the Straits of Tebrau, and on the East by the China Sea.

The area of the State is approximately 7,500 square miles. The interior is in great part covered with jungle. The country is, as a whole, less mountainous than any other part of the Peninsula. The most important mountain group is formed by the Blumut Hills, which lie near the centre of the State. Mount Ophir, or Gunong Ledang, the highest peak in Johore (4,186 feet), is situated near the border of Malacca.

The principal river is the Muar, in the North-west, running through the district of the same name, which was formerly a separate State, but was united to Johore in 1877. The only other rivers of importance are the Endau, in the North, which, during part of its course forms the boundary with Pahang and Johore; and the Johore river which flows into the Straits opposite to the eastern end of the island of Singapore.

The only towns of any importance are Johore Bahru, the capital, situated on the Straits, opposite to Singapore, Bandar Maharani in Muar, and Bandar Penggaram in Batu Pahat.

The climate approximates to that of Singapore and the Federated Malay States, the highest maximum and the lowest minimum temperature in 1937 being 99°F. and 60°F. respectively.

The estimated mean population (1937) was 613,510 of whom 267,500 were Malaysians. The population of Johore Bahru town was estimated as 24,277.

In area, Johore approximates to Wales.

History.

Of Johore history little is known prior to the advent of the Portuguese. A number of semi-wild "proto-Malay" tribes exist chiefly along the coasts, while the civilised occupants of the country are the descendants of the Malays who brought their civilization from Palembang in Sumatra.

As the Buddhist State of Palembang grew in power, colonies of Malays commenced to settle on the Peninsula. Singapore, founded under the name of Tamasek about this time, was ruled by its own kings. A Siamese law of 1360 includes Ujong Tanah (or Johore), Malaka, and Malayu among tributary states.

About 1365 A.D. Javanese from Majapahit conquered the country and destroyed Singapore.

Malacca then grew to be the first trading centre of the East, and after its conquest by the Portuguese in 1511, a son of the conquered King settled at Johore Lama and founded the historic Sultanate of Johore.

The history of the next 300 years, however, is an almost uninterrupted record of wars. Persistent hostilities with the Portuguese continued even after the arrival of the Dutch in 1602. The State bears no small part in Dutch Colonial history; relations were friendly, despite a diplomatic struggle for commercial privileges. But, after violent attacks by the Achinese, Johore had become by 1637 practically an appanage of the Achinese Kingdom. In return for assistance rendered at the successful attack on Malacca in 1641, the Dutch tried to restore Johore to its former position as the premier Malay State. A port with a customs officer existed at Singapore. But the capital was plundered and burnt by Jambi in 1673, in 1699 the Sultan was assassinated, and in 1717 the throne was seized by a Sumatran adventurer, Raja Kechil. Then the Bugis ships appeared. The subsequent process, partly conquest, partly assimilation, while disturbing to Johore, resulted in a wide extension of its sovereignty, which now spread to Pahang, Siak, Riau, Linggi and part of Selangor.

After 60 years of continuous intrigues between the Malay and Bugis chiefs the Dutch in 1784 recognised the Malay Sultan as ruler of Johore, drove the Bugis from Riau and stationed there a Resident with a garrison; after some further fighting the Malay Sultan and the Bugis viceroy accepted the position of dependent princes, but the old empire of Johore (Linggi and Klang had been ceded to the Dutch in 1757) was in a state of dissolution, the Bendahara and Temenggong being virtually territorial chiefs in Pahang and Johore respectively. This was

Digitized by Google

the position when the English, by virtue of treaties made in 1819 and 1824, obtained a complete cession of the island of Singapore.

Contemporary visitors emphasize the then deserted character of the country; in 1847 the capital consisted merely of 25 huts. (In 1855 the capital was moved to its present situation at Johore Bahru.) But the extension of the Pax Britannica and the assistance rendered by the Governor of the Straits Settlements "helped Johore to grow populous again," moreover, the country has been governed since 1855 by two enlightened and progressive rulers, Sultan Abubakar, who died in 1895, and Sultan Ibrahim the present ruler.

In 1895 the Sultan undertook to receive a British Agent having the functions of a Consular Officer; in 1910, the Sultan having had an unofficial adviser for some years, reorganised his Government with the assistance of the Governor of the Straits Settlements; in 1914 a General Adviser with enlarged powers was appointed. The recent history of the State has been a record of continued prosperity. Telephonic communication was established between Johore and Singapore in 1883; a postal service was inaugurated in 1884, letters being transported by coach till the opening of the railway across Singapore Island in 1903; in 1909 the Johore State railway, linking up with the Federated Malay States Railway system, was completed; finally, in 1924, the completion of the causeway across the Straits permits uninterrupted railway connection between Singapore and Bangkok.

Constitution.

In 1895 the late Sultan promulgated a written constitution, to which supplements have been added.

His Highness has a Council of Ministers, consisting entirely of high Malay Officers of State, together with an Executive Council consisting of certain Malay and British officers.

The Orders of the Executive Council are carried out by a Civil Service containing Malay and European Officers.

The Legislature consists of a Council of State, to which Asiatic and European official and unofficial members are appointed.

The Judicial system resembles that of the Federated Malay States, minor cases being decided by Magistrates with appeal to the Supreme Court, and major cases by the Supreme Court, with appeal to the Court of Appeal, and thence in special cases to the Privy Council.

Cases involving matters regulated by Muhamadan law are decided in the Court of Kathi, with appeal to the Sultan in Executive Council.

Judges of the Supreme Court of the Straits Settlements and of the Federated Malay States are ex-officio Judges of the State of Johore, and vice versa.

There is no Public Debt.

STATISTICS.

Year.	Revenue.	Expenditure.	Surplus Assets.
1937	$20,196,688	$18,397,752	$27,126,755

Year.	Value of Imports.	Value of Exports.
1937	$47,288,555	$105,821,320

The principal items of revenue during 1937 were:—

Land Rents (Recurrent)	$3,519,739
Export Duty on Rubber	2,396,186
Import Duty on Alcoholic Liquor ..	701,401
Import Duty on Tobacco	1,847,336
Sales of Chandu	2,385,072
Interest	1,593,419
Land Sales	443,302
Municipal	1,351,455
Import Duty on Petroleum ..	1,517,661

Economic Conditions.

Johore recovered more quickly than the Federated Malay States from the trade depression which began in 1920, and an era of rapid development commenced.

Johore is primarily an agricultural State. Forest reserves amount to 722,783 acres and are being largely increased.

The total area of alienated land in 1937 was 1,303,437 acres.

The chief agricultural exports in 1937 were:—

	Area.	Value of Exports.
Rubber	883,904 acres	$86,349,336
Cocoanuts and Copra .	171,366 ,,	1,666,559
Tapioca	3,453 ,,	85,707
Pineapples . . .	56,289 ,,	5,638,000
Areca nuts . . .	33,964 ,,	1,785,529
African oil palm . .	33,889 ,,	1,334,753

Mining titles cover some 10,596 acres.

The principal minerals exported in 1937 were:—
Tin-ore, 1,077 tons,
Iron-ore, 519,339 tons,
Bauxite, 12,627 tons,
China clay, 30 tons,
the total value of mineral exports amounting to $6,171,997.

The chief imports comprise rice, wines and spirits, tobacco, wood and timber (largely Johore produce re-imported from Singapore), cotton-goods and petroleum products.

A branch of the Hong Kong and Shanghai Banking Corporation is established at Johore Bahru and at Muar, and there are Chinese banks at Batu Pahat and Muar.

Manufacturing industries are in their infancy, being confined to 10 pineapple factories, 4 tapioca factories, and a few saw-mills, brickworks, and similar undertakings.

Electric power stations have been erected at Johore Bahru, Muar, Segamat, Batu Pahat, Kluang and Kota Tinggi.

Communications.

Sea.—Regular steamship services run between the various coast ports and Singapore.

During 1937, 77 ocean-going steamers with a tonnage of 286,810; 2,771 coasting steamers with a tonnage of 133,527; and 9,846 sailing vessels with a tonnage of 249,050 entered ports in the State.

The only ocean-going steamers that call are Japanese which visit Batu Pahat for the transport of iron-ore. The total weight of ore so cleared was 519,339 tons in 1937.

Railway.—The Johore State Railway runs for 120 miles through the middle of the State from Gemas on the northern boundary to Johore Bahru on the southern boundary; it is connected on each boundary with the system of the Federated Malay States Railway administration, by whom it was built and to whom it is leased.

Road.—At the end of 1937 the State possessed 875 miles of metalled and gravelled roads, and 9 miles of earth roads as well as 69 miles of approach roads and back lanes. All the principal towns are now connected by a road system which is being continually extended.

Hired cars provide a cheap, constant, and rapid means of communication. About 1,200 motor vehicles a day cross the causeway connecting the main land with Singapore Island.

Posts, Telegraphs, Telephones.—In addition to the General Post Office at Johore Bahru, 24 branch offices are established.

Digitized by Google

44 telephone exchanges are in operation, and the number will be increased. Communication is established between Johore Bahru and Singapore, and between Muar and the Malacca and Federated Malay States systems.

Accommodation.—The Johore Station Hotel at Johore Bahru provides the usual accommodation for travellers. The Government also maintains Rest Houses at Muar, Batu Pahat, Kota Tinggi, Segamat, Batu Anam, Mersing, and Kluang.

General.

Health.—Government Hospitals, Outdoor Dispensaries, Women and Children's Clinics and Dental Clinics, are established in the principal townships, besides a Mental Hospital and Leper Asylum at Johore Bahru. Permanent anti-malarial measures are being undertaken in Johore Bahru and other townships, and oiling operations are in force in all towns.

Travelling dispensaries have been provided.

Education.—The Government has established six English Schools and 139 Vernacular Schools.

Grants-in-aid are made to estate Tamil Schools.

Military Forces.—The total strength of the Johore Military Forces in 1937 amounted to 929. There are English and Malay Volunteer contingents.

Police.—The force numbers 1,344, all ranks: the rank and file consist of Malays and Sikhs under Malay and English Officers.

Municipal.—Town Boards are established at Johore Bahru, Muar, Batu Pahat, Segamat, Kota Tinggi, Kluang and Endau, supervising sanitary work in various Town Board Areas and many village areas.

Sport.—Subject to the regulations for the protection of wild animals, special permits may be obtained to shoot elephant, guar, rhinoceros, tapir, deer, tiger, panther, crocodile, and pig.

ADMINISTRATION.

Sultan, His Highness Sir Ibrahim, G.C.M.G., G.B.E., etc., etc.
Chief Minister, Ungku Abdul Aziz, C.M.G.
President Religious Affairs, Dato Haji Abdullah bin A. Rahman.
General Adviser, W. E. Pepys, C.M.G., M.C.S.
State Secretary, Dato Mohamed Salleh bin Ali, C.B.E.
State Commissioner, Muar, Dato Abdul Kadir bin Daud.
State Commissioner, Batu Pahat, Engku Suleiman bin Mohd. Khalid.
State Commissioner, Segamat, Dato Abdullah bin Esa.
Assistant Adviser, Muar, F. K. Wilson, M.C.S.
Assistant Adviser, Batu Pahat, R. E. Wilson, M.C.S.
Assistant Adviser, Segamat, A. J. Gracie, M.C.S.
Assistant Adviser, Kota Tinggi, A. N. Ross, M.C.S.
Assistant Adviser, Kukup, R. V. Brant, M.C.S.
Assistant Adviser, Kluang, L. R. F. Earl, M.C.S.

Agriculture.

State Agricultural Officer, J. Fairweather.
Agricultural Officer, J. Cook.

Chandu Monopoly.

Superintendent, G. R. Sykes, M.C.S.

Chinese Protectorate.

Protector of Chinese, T. P. F. McNeice, M.C.S. (acting).

Courts.

Judge, J. V. Mills.
Legal Adviser, R. Moor, M.C.S. (acting).
Deputy Public Prosecutor, I. A. Hamid bin Mustapha.
Magistrates, I. F. Cameron, Sheikh A. Bakar and Inche Salim b. Sabtu.

Customs.

Commissioner of Trade and Customs, G. R. Sykes, M.C.S.

District Offices.

District Officer, Chohong, Inche Hassan bin Abdullah.
District Officer, Kota Tinggi, Inche A Rahim bin Daud.
District Officer, Kukup, Engku Abdul Majid bin Omar.
District Officer, Mersing, Inche Othman bin Buang.

Education.

Superintendent of Education, F. L. Shaw (acting).

European Volunteer Force.

Officer Commanding, Major C. H. F. Pierrepont.
Adjutant, Capt. P. L. Wilkinson.

Financial.

Financial Commissioner and Auditor-General, E. E. F. Pretty, M.C.S.
State Treasurer, Dato Abdul Rahman bin Yasin.
Auditor, Wan Jusoh bin Ali.
Revenue Auditor, Inche Ja'afar bin Hj. Abdullah.

Forests.

Conservator of Forests, A. E. Rambaut.
Assistant Conservator, J. E. Gartitt.

Game Warden.

Game Warden, Captain Ahmad bin Mohameddon.

Labour.

Controller of Labour, J. S. H. Cunyngham-Brown, M.C.S.

Lands.

Commissioner of Lands and Mines, G. A. de C. de Moubray (officiating).
Collector of Land Revenue, Wan Idris.

Marine.

Superintendent of Marine, H. H. Brown.

Medical.

Principal Medical Officer, G. H. Garlick.
Medical Officers, J. M. A. Lowson, E. W. Martindell, W. G. Evans.
Surgeon, C. P. Allen.
Senior Health Officer, E. A. Struthers.
Health Officers, J. C. P. Grey, W. Puleston Jones.
Lady Medical Officers, Mrs. W. N. D. Lowson, Mrs. E. McMullan, Mrs. M. Smallwood, Mrs. H. Clarke.
Dental Surgeon, J. D. Pinkerton.
Lady Dental Surgeon, Mrs. Hilda Xilo.

Military Forces.

Colonel-Commandant, His Highness Sir Ibrahim, G.C.M.G., G.B.E., etc., etc.
Lieut.-Col. and Second-in-Charge, Dato Haji Yahya bin Abu Talib.
Military Adviser and Chief Instructor, Major D. M. Noves-Lewis.
Majors, Mohamed Tahir bin Mohamed Doon, Mohamed bin Abdul Jabar and Musa bin Yusof.
Major and Staff Officer, Dato Haji Mohamed Said bin Haji Suleiman.

Mines.

Warden of Mines, A. Bean (acting).

Digitized by Google

Police.

Commissioner, H. B. Langworthy.
Deputy Commissioner (Malay), Dato Abubakar b. Buang.
Assistant Commissioners (British), J. Gardiner, H. J. Barnard, J. R. C. Denny, F. K. McNamara, L. H. Pearce and L. D. E. Cullen.
Assistant Commissioners, Musa bin Yusof, Wan Mohamed bin Uda, Ahmad bin Haji Tahir, Abdul Samad bin Puteh and Haron bin Hassan.

Posts and Telegraphs.

Postmaster-General, E. W. Hide.
Chief Telegraph Engineer, S. P. Morton.

Public Works.

State Engineer, F. M. G. McConechy.
Senior Executive Engineer, F. J. Button.
Government Architect, C. H. Short.
Chief Electrical Engineer, A. L. Birch.
Mechanical Engineer, R. Eves.

Surveys.

Chief Surveyor, F. A. Fendall.
Senior Surveyors, H. W. Hamilton, G. L. Gibson, R. A. Simcock, J. K. Ramsay and F. E. G. Caswell.

Veterinary.

Government Veterinary Surgeon, H. H. Tengku Abu Bakar.

KEDAH.

His Highness Sir Abdul Hamid Halimshah ibni Ahmad Tajudin, K.C.M.G., Sultan; His Highness Tunku Badlishah, C.M.G., Regent.

Kedah is a State on the West coast of the Malay Peninsula, situated between the parallels of 5° 05′ and 6° 40′ N. lat. and the meridians of 99° 40′ and 101° 10′ E. long. It is bordered on the interior (North and East) by the States of Songkhla and Patani (Siamese) and by the State of Perak (F.M.S.), and extends along the sea coast from the River Sanglang, its boundary with its northern neighbour the State of Perlis (under British protection), to the Muda River, its boundary with Province Wellesley. Thence it extends behind the narrow strip of coast which forms Province Wellesley, down to the northern bank of the Krian River, its boundary with the State of Perak.

Both the island of Penang and the territory of Province Wellesley were originally part of Kedah. Penang was acquired from the "King of Quedah" by Captain Light on behalf of the East India Company by the treaty of 1786, and Province Wellesley was ceded by Kedah to Sir George Leith, on behalf of the Company, by the treaty of 1800, to enable the Company to check the piracies on the coast. A sum of $10,000 is, under the treaty of 1860, paid annually by the Government of the Straits Settlements to the Kedah Government in respect of Penang and Province Wellesley.

The State includes the island of Langkawi and a number of smaller islands to the South. It formerly included the island of Terutau to the North of Langkawi, but this island and a small area in the interior of the State, in the eastern water-shed, were ceded to Siam in the treaty of 1909.

The mainland of Kedah is about 101 miles in length and about 64 miles in width at its widest part. Its area is, including the Langkawi groups, about 3,660 square miles. The two highest peaks on the mainland are Gunong Jerai (3,978 feet) and Bukit Perak (2,823 feet). Gunong Raya, on Langkawi Island, is 2,888 feet high.

History.

There are no authentic records of the early history of the State, and little is known except that the country was converted to Muhammadanism in the 15th or 16th century, and that, like the other States in the Peninsula, it was at various times under the domination of Malacca, Acheen and Siam. Like the other States too, it depended upon the personality of its ruler. Under a strong raja its boundaries extended to include Setul, Perlis, and part of Songkhla on the North, and Krian on the South, and under a weaker man, or upon the rising of a stronger raja beyond the borders its boundaries contracted.

There is no record of the Portuguese, during their occupation of Malacca (A.D. 1511 to 1641), having had any intercourse with Kedah. The Dutch, however, after they had wrested Malacca from the Portuguese, established Opperhoofden (commandants) in Kedah from 1654 to 1711.

From that date until 1786, when Captain Light acquired Penang from the Sultan for the East India Company, little is known of the history of the State.

In 1821, a Siamese fleet appeared off the mouth of the Kedah River, and, by a sudden descent upon the unexpectant Malays, took possession of the fort, and later of the river. The Sultan, who was in the Merbok district at the time, fled to Province Wellesley, where he was afforded protection by the British Government. He was later afforded an asylum in Malacca.

In 1831, Tunku Kudin, a nephew of the Sultan made a desperate attempt to recover Kedah from the Siamese. He succeeded in driving out the Siamese and held the country from April until October, but was later conquered by a combined force of British and Siamese. In 1838, the Malays made another attempt under Tunku Muhammad Saad, and again succeeded in expelling the Siamese. Again, however, they were worsted by the combination of a Siamese army and a blockade by British gunboats.

In 1843 the Siamese allowed the Sultan to return to Kedah and re-assume the government. The Sultan was, however, only allowed to exercise authority over part of the territory that formerly was subject to him. Setul, Perlis, and Kubang Pasu were given to other rajas independent of him. Setul, under the treaty of 1909, is now part of Siam (Monthon Puket); Perlis is still independent and is now under British protection. Kubang Pasu was some years ago again made part of Kedah.

General Description.

The language line between Siamese and Malay runs through Kedah and Perlis, and in the interior parts of these States the Malays speak Siamese as freely as their own language. There is a large number of Sam-sams—a mixed race of Siamese and Malays—who are Muhammadans. Only a few families of the aborigines (Semang) are left in the forest at the source of the Muda River; 209 "nomadic aboriginals" were counted at the 1931 census.

South Kedah, the area lying South of the mountain known as Kedah Peak (Gunong Jerai), is for the most part populated with Europeans, Chinese and Tamils planting rubber, coconuts and tapioca. There is also a Malay population planting rice along the banks of the Muda River and in the low lying land along the coast. Kulim was formerly a tin-mining centre of some importance, but the alluvial deposits are now said to be worked out.

North Kedah is almost entirely populated by Malay cultivators of rice. The soil is generally a heavy fertile clay. A quantity of rice is exported annually to Penang and to the Federated Malay States.

The population of Kedah was 338,558 at the 1921 census and 429,691 at the 1931 census. At mid 1937

Digitized by Google

the population was estimated to be 474,775, of whom 319,260 were Malays, 631 Europeans, 85,472 Chinese, 56,402 Indians, and 13,010 "other races."

Galena has been found in Langkawi, and indications of coal and oil have been reported; nothing of commercial value has, however, yet been discovered, with the exception of a deposit of marble which is described as the equal of any in Europe.

Climate.

The climate resembles that of Perak. Meteorological returns kept in ten places record an average shade temperature in the day-time rising to over 92° F. and falling to nearly 71° F. at night. The driest months are January to March and the wettest August to October, when half the annual rainfall occurs, averaging from 100 to 130 inches a year. Cholera has sometimes broken out in prolonged droughts, but the provision of a good water supply which is now completed, should prevent this. The health on rubber and other estates is good.

Communications.

Steamers ply between Penang and Sungei Patani (Central Kedah), and between Penang and Alor Star (the capital, six miles up the Kedah River) in North Kedah There is a bi-weekly steamer communication between Penang and Langkawi Island.

A metalled road connects Alor Star with Province Wellesley, a distance of 45 miles. A metalled road extends to the Perlis boundary (25 miles), and a road which branches off at the 12th mile connects the State with Singgora. Another road extends to Kuala Nerang at the 23rd mile from Alor Star. A metalled road has been made to Baling and North Perak, and other metalled roads have been completed or are under construction. There are a number of earth roads connecting the tapioca and rubber estates in South Kedah with the towns; 225 miles of canals are maintained by the Public Works Department.

The Federated Malay States railway administration has extended its railway service through Kedah into Perlis. The line leaves the main line at Bukit Mertajam, in Province Wellesley, and is 98 miles in length to the Siamese frontier; trains have been running regularly since October, 1915. A connection through Perlis with the Siamese railway system has been completed, establishing railway communication between Bangkok and Singapore.

There is an aerodrome at Alor Star.

Telegraphic and telephonic communication extends throughout the State.

Education.

There are English schools in Alor Star (450 pupils) and Sungei Patani (115 pupils) and a Malay Girls' school in Alor Star. There are 87 Malay schools, including 5 Girls' schools.

Constitution.

Until the beginning of this century the Siamese Government interfered but little in the government of the country, only requiring the Sultan to refer to Bangkok matters of importance, and applications for land by foreign subjects. In 1905, however, the finances of the country had reached such a state that the Sultan was compelled to negotiate with Siam for a loan in order to avoid bankruptcy. With the loan the Siamese Government sent an adviser to advise the Sultan in the general management of the country, and more particularly in its finances.

In 1905, the Sultan by an edict appointed a State Council to assist him in the administration of the country. The first President was H.H. the Raja Muda, Tunku Abdul Aziz, who died in 1907. He was succeeded by H.H. Tunku Mahmud.

In 1913, the Sultan's health became such that it was necessary to appoint a Regent. His Highness' eldest son, H.H. Tunku Ibrahim, C.M.G., C.V.O., remained Regent till his death in 1934. The present Regent is H.H. Tunku Badlishah, C.M.G.

With the transfer of the suzerainty of Kedah from Siam to Great Britain under the treaty of 1909, the adviser appointed by Siam has been replaced by an adviser appointed by Great Britain.

Under the terms of the agreement between His Britannic Majesty's Government and the State of Kedah dated the 1st November, 1923, the supreme authority in the State is vested in the Sultan in Council, which Council consists of His Highness the Sultan as President, three other Malay members selected by name or office by His Highness with the approval of His Excellency the High Commissioner for the Malay States, and the British Adviser.

Finance.

The amount of the loan obtained in 1905 from Siam was of $2,600,000 at the rate of 6 per cent. This loan was, with the transfer of the suzerainty of the State from Siam to Great Britain under the treaty of 1909, taken over by the Federated Malay States Government at 4 per cent., but the whole amount has been paid off and the State is now free from debt. Accumulated surplus funds (excess of Assets over Liabilities) amounted to $7,737,435 at the end of 1356, in addition to an "Opium Revenue Replacement Fund" with investments valued at $6,273,161.

Public revenue and expenditure:—

Year.	*Revenue.*	*Expenditure.*
	$	$
A.H. 1356 (A.D. 1937–1938)	7,544,682	6,625,653

Trade.

The following are the principal exports from Kedah:—Padi and rice, rubber, copra, arecanuts, tapioca and sago, forest produce, tin-ore, fish, bricks, cattle, hides and horns, pigs and poultry.

The value of the Kedah trade with the Straits Settlements during 1937 was as follows:—Exports, $24,724,437; imports, $11,566,917.

The value of Kedah trade with the F.M.S. during 1937 was: Exports, $2,533,051; imports, $154,686.

Administration.

His Highness the Sultan, Sir Abdul Hamid Halimshah ibni Sultan Ahmad Tajudin Mukarramshah, K.C.M.G.

President State Council, His Highness the Regent H. H. Tunku Badlishah, C.M.G., ibni Sir Sultan Abdul Hamid Halim Shah.

Members of the State Council, The Hon'ble Haji Md. Sheriff, C.B.E.; The Hon'ble the British Adviser; H. H. Tunku Yacob ibni Sultan Sir Abdul Hamid Halim Shah.

British Adviser, J. D. Hall, M.C.S. (on leave), H. S. Paterson, M.C.S. (acting).

Assistant Adviser, R. L. German, M.C.S.

Secretary to Government, The Hon'ble Haji Md. Sheriff, C.B.E.

Treasury.

State Treasurer, Tuan Syed Omar Shahabudin (acting).

Financial Commissioner, F. E. Ivery.

Audit.

Auditor-General, H. H. Tunku Md. Jewa.

Assistant Auditor-General, F. E. Ivery.

Forests.

State Forest Officer, G. Wilkinson.

Chinese Protectorate.

Protector of Chinese, B. S. Davis, M.C.S.

Labour.

Protector of Labour, C. W. Shorland, M.C.S.

PERLIS.

His Highness Syed Alwi, K.B.E., C.M.G., Raja.

Perlis is a small State on the West coast of the Malay Peninsula, North of Kedah. Its area is 316 square miles.

Until 1821 it was subject to Kedah, but when the Siamese, in 1841, allowed the Sultan of Kedah to re-assume the government, they made Perlis an independent State under Syed Hussein, who was given the title of Raja. The present ruler is the great-great-grandson of Syed Hussein and is the fourth Raja.

The country, like Kedah, is a rich alluvial plain, which is devoted to rice cultivation. A little tin is exported from the interior, and some of the limestone hills are rich in guano.

The Federated Malay States Railway runs through the State and connects with the Siamese railway system at Padang Besar. H.H. the Raja resides at Arau which is on the railway. The main Government Offices are at Kangar, about six miles from Arau. There is a Post and Telegraph Office at Kangar and a telephone system exists between the police stations in the State. Perlis is also connected by telephone trunk service with the Federated Malay States, Johore and Singapore. Padang Besar is in telephonic connection only through the Railway telephone system. There are 45 miles of metalled roads and 41½ miles of gravelled roads and paths kept up by Government.

The population is 52,703 (middle 1937) of whom 43,497 are Malays. Public revenue and expenditure:

Year.	Revenue.	Expenditure.
1356 A.H. (A.D. 1937–38)	$728,531	$634,483

The State, by loans made in 1905 and 1907, incurred a debt of $443,000 to the Siamese Government. These loans, with the transfer of suzerainty from Siam to Great Britain, were taken over by the Federated Malay States. Repayment of these loans was completed in 1929. When the loans were contracted the Siamese Government sent an Adviser to advise the Raja in the general management of the country, and more particularly in its finances. With the transfer of the suzerainty of Perlis from Siam to Great Britain under the treaty of 1909, the Adviser appointed by Siam was replaced by an Adviser appointed by Great Britain.

The relations between Perlis and Great Britain are defined in a Treaty signed at Arau on 28th April, 1930.

The Raja is assisted by a State Council in the government of the country, and is himself President of the Council. There are five other members of the Council, one of them being the Adviser.

Members of the State Council.

President, His Highness the Raja, Syed Alwi, K.B.E., C.M.G.
Vice-President, Syed Hamzah bin Almerhom Syed Safi.
British Adviser, C. W. Dawson, Esq., M.C.S.
Tuan Haji Ahmad bin Haji Mohamed.
Tuan Haji Mohamed Noor bin Haji Mohamed.
Wan Ahmad bin Wan Daud.
Clerk of Council, Syed Alwi bin Syed Idrus.

Government Officials.

State Auditor, The British Adviser.
Assistant State Auditor, Sheikh Ahmad bin Mohamed Hashim.
State Treasurer, Haji Ismail bin Haji Ibrahim.
Commissioner of Lands and Mines, Wan Hamarudin bin Wan Abdul Jallil.
Chief Judge, Haji Ahmad bin Haji Mohamed
2nd Judge, Che' Abdul Wahab bin Abdullah.
3rd Judge (vacant).
Chief of Police, Che Matt bin Haji Kassim.
Chief Khathi, Haji Mohamed Noor bin Haji Mohamed.
Collector of Customs and Superintendent Monopolies, Tuan Syed Hussin bin Syed Safi.
Assistant Medical Officer, Dr. R. Sivasambandan, M.B.B.S. (India), D.T.M. & H. (London).
Assistant Health Officer, Dr. N. Paramanathan.
Executive Engineer, A. L. McClure.
Gaoler, Che' Mahmud bin Haji Mohamed.
Co-operative Officer, Wan Ahmad bin Wan Daud.
Assistant Co-operative Officer, Tuan Syed Bahaldin.
Inspector of Schools (vacant).
Visiting Teacher, Mohamed Hashim bin Abdul Rahman.
Visiting Teacher Qoran, Haji Ismail bin Haji Mohamed Taib.

KELANTAN.

His Highness the Sultan Ismail ibni Almarhum Sultan Mohamed IV, K.C.M.G.

The State of Kelantan is situated on the eastern side of the Malay Peninsula, and lies between latitudes 4° 32′ and 6° 15′ North, and between longitudes 101° 19′ and 102° 37′ East. It is bounded on the North by the China Sea; on the East by Trengganu and the China Sea; on the South by Pahang, and on the West by Perak and Siamese territory. The area of the State is estimated to be 5,750 square miles.

As in the case of Kedah, the Government of Siam claimed rights of suzerainty over Kelantan for many years before any attempt was made to direct the administration of the State. Towards the end of the nineteenth century, at the time when the affairs of Kelantan were involved in much confusion owing to a disputed succession, a Siamese Commissioner was appointed to reside at Kota Bharu, the capital, but in spite of this fact the exact rights of Siam were a subject of constant dispute, until matters were placed on a stable footing at the end of 1902 by an agreement under which the Raja undertook to receive a British Officer in the Siamese service as his Adviser, and to administer the State according to his advice. The Adviser took up his post in 1903, and since that date great improvements have been effected in the Government of the State. The transfer to the protection of Great Britain was formally effected on July 15th, 1909.

About a sixth part of the area of Kelantan consists of a fertile plain, extending from ten to twenty-five miles from the shore; the greater part of this plain is under cultivation with padi and coconuts. From this plain the land rises gradually into mountain ranges, which reach their greatest height in the South; Gunong Tahan, on the southern boundary, is 7,186 feet high, and is the highest peak in the Malay Peninsula.

The principal river is the Kelantan, which enters the China Sea about ten miles from the western boundary of the State. The Kelantan River is a fine river some 150 miles long, navigable for launches for 80 miles. The basin of the Kelantan River, with those of its tributaries, comprises the greater part of the State. Of the other rivers, the most important are the Golok and the Semerak. By the Anglo-Siamese treaty of 1909, the Golok forms the boundary between Kelantan and the Siamese territory from its source to Kuala Tabal, where it debouches into the China Sea. The Semerak, like the Golok, is a deep river with a shallow bar at its mouth; it enters the sea near the border of Trengganu.

Kelantan possesses a larger Malay population than any other State in the Peninsula. The total population at the 1931 census was 362,517, including 330,774 Malays, 17,612 Chinese, 6,752 Indians, 124 Europeans, 32 Eurasians, and 7,223 others. The total population estimated for 1937 was 400,378, of whom over 354,000 were Malays, 27,000 Chinese, 10,000 Indians, and 80 Europeans.

Kota Bharu, the capital, which lies on the right bank of the Kelantan River, about eight miles from its mouth, had a population of about 14,843 people (1931 census). It is a clean, well laid-out town with good metalled roads. It contains the Sultan's Palace and the British Residency. It has 30 Malay vernacular schools attended by some 3,001 scholars. Kota Bharu is connected by telegraph with the Siamese Administration. A telegraph line connecting Kota Bharu with Pahang has been completed. Communications were well maintained and during 1937 there were no serious interruptions to record. The north-east monsoon did no serious damage to communications. Whenever the main telegraph circuit with Kuala Lumpur was interrupted, the Kuala Krai wireless station was used instead. There are three wireless transmitting and receiving sets in Kelantan, one at Kota Bharu, belonging to the Royal Air Force, one at Kemubu and one at Kuala Krai, both belonging to the Federated Malay States Railways. Kota Bharu is also connected by telephone with Tumpat, the port of Kelantan, Pasir Puteh, Kuala Krai, Pasir Mas, Bachok and Palekbang. Of the smaller towns the principal are Tumpat (population 3,431), Bachok (population 776), on the coast, Pasir Puteh (population 1,308) and Kuala Krai, the headquarters of the southern district of the State. The trunk road from Kota Bharu to Kuala Krai is open for traffic.

Pasir Puteh is connected with Kota Bharu by a road which is practicable in all weathers. Since the opening in 1931 of the East Coast Railway, there has been direct communication with Singapore through Pahang. Beside the daily slower trains, a fast through Mail Train with sleeping berths runs once a week in each direction and does the journey in less than 24 hours. There is also a daily train service between Tumpat and Penang *via* the Royal Siamese Railway.

The main industries of the State are agricultural. The soil varies considerably in fertility: many of the rubber estates are on soil of volcanic origin, which is of renowned fertility. The chief product is padi, the last harvest of which amounted to 46,500 tons. Coconuts and betelnuts are also extensively grown in the coastal plain. The coconut palms are remarkably free from disease. As elsewhere in the Malay Peninsula, para rubber has been largely planted in recent years; in addition to several small properties owned by Malays, there are twenty large estates owned by Europeans. The area under rubber is about 90,000 acres, of which rather more than one half comprises Asiatic holdings. Fishing and fish drying provide occupation for a large number of coast Malays. Cattle breeding is also a large industry, though it has been necessary periodically to restrict the export in order to maintain sufficient cattle for agricultural purposes. Of indigenous crafts the most important is weaving. Hand printing of cotton goods is a new and flourishing industry. The export

Digitized by Google

of sarongs to neighbouring States is on the increase.

Mining has not yet been fully developed. There are indications of considerable deposits of tin-ore which are now being prospected by some important tin-mining interests. These will, it is hoped, form a valuable reserve but they will not be immediately available under the existing system of international tin control. Manganese-ore and iron-ore are found in considerable quantities and the exploiting of these minerals offers a hopeful field for new development.

Alluvial gold is widely distributed over the Southern area of the State but seldom in paying quantities. Hopeful prospectors are still seeking for the gold-bearing lode which it is hoped may be found somewhere between the rich lode at Litcho, just over the Siamese border, and the gold-bearing lodes of Pahang.

The quantities and values of minerals exported during the last three years have been as follows:—

	Year.	Tons.	Value.
Manganese-ore ..	1935	10,678·15	$132,260
,, ..	1936	10,005·84	124,571
,, ..	1937	9,667·37	120,827
Iron-ore	1937	49,223·00	196,892
Tin-ore	1935	7·49	9,865
,, ...	1936	27·16	33,067
,, ...	1937	44·60	60,726
		Tahils.	
Gold-ore	1935	591	29,752
,, ...	1936	545	12,590
,, ...	1937	562	15,107

Tin.—A further advance in tin production was made during the year, the figure rising from the 1936 total of 27·2 tons tin-ore to 44·6 tons, equivalent to 33·7 tons of tin at 75·5% assay. The export figures for the past four years are as follows:—

1934	4·3 tons tin-ore
1935	7·5 ,, ,,
1936	27·2 ,, ,,
1937	44·6 ,, ,,

Iron.—The Japanese Mine at Bukit Besi, near Temangan, owned by the Southern Mining Company Ltd., made their first shipment of iron-ore in May, and during the seven months, May to October, exported a total amount of 49,223 tons, the value of which was estimated at $196,892. The duty collected was nearly $20,000. The ore is at present transported in buckets *via* an aerial rope-way to the F.M.S. railway line at Bukit Besi Halt, thence by rail, lighter, and ship to Japan. The aerial rope-way has a limited capacity, and the possibility of laying down a railway line to connect with the F.M.S.R. at a point near Temangan is now being investigated.

Gold.—As in previous years the bulk of the gold produced in Kelantan resulted from the activities of the licensed individual dulang washers, mostly Chinese. The number of licences issued was 1,162 as compared with 1,506 in 1936. No large undertaking involving heavy capital expenditure can be expected until the existence of considerable reserves of ore has been proved.

Manganese-ore.—A Japanese-owned company is exploiting a limited manganese-ore area near Gual Periok and exporting a regular 10,000 tons a year. An important manganese-ore deposit in a remote area near Gunong Tahan is being investigated, but considerable difficulties in transport through wild and broken country will have to be overcome.

The chief exports of Kelantan are copra, rubber, cattle, betelnuts, dried fish, poultry, tin-ore, manganese-ore and iron-ore. The chief imports are rice, tobacco, textile, provisions, kerosene oil, benzine, sugar, timber and planks, salt, machinery and tinned milk.

The climate of the State is equable, and may be described as hot and dry compared with the rest of the Peninsula (except in the monsoon), but both temperature and rainfall vary a little during each half of the year. In the plain the temperature in the shade rarely exceeds 90°F., or goes below 69°F., except in January and February, when 64°F. is not unknown. The nights are cool; the land breezes in the mornings and the sea breezes in the afternoon keep the air pleasant.

In the interior the range of temperature is slightly higher, the days being hotter and the nights cooler. The average rainfall on the coast is some 130 inches and on the plains further inland 150 inches.

The currency is the Straits Settlements dollar.

Regular steamship communication is maintained between Singapore and Kelantan.

Finance and Trade.

	Revenue.	Expenditure.	Imports.	Exports.
1937	$3,209,722	$2,757,900	$7,941,213	$10,467,593

Public Debt, $5,182,754.

Administration.

Electrical Engineer, H. E. Doel, D.F.H., A.M.I.E.E.
Matron, Grade II, Miss K. M. Fosdyke.

TRENGGANU.

His Highness Sulaiman Badaru'l-'alam Shah ibni Almarhum Zainu'l-'abidin, K.C.M.G., Sultan.

The State of Trengganu lies on the eastern seaboard of the Malay Peninsula roughly between latitude 3° 53′ and 5° 51′ North, and longitude 102° 23′ and 103° 30′ East. The area of the State is estimated to be about 5,050 square miles.

The total population of the State, at the 1931 Census was 179,789, made up as follows:—

Malays	164,564
Chinese	13,254
Indians	1,371
Europeans	35
Eurasians	15
Others	550

Digitized by Google

The total population estimated at mid 1937 was 198,246 calculated by geometrical method.

There are 175 miles of road open to traffic, including a road of 66 miles length from Kuala Trengganu which connects with the Kelantan road system at the boundary between Trengganu and Kelantan. There are also 170 miles of minor roads practicable except after heavy rain. There are no railways (except light railways on mines) and communication with the interior is mainly by means of rivers and paths. Telegraphic communication was established between the State, the Federated Malay States, and the Straits Settlements in 1922. There are telephone exchanges at Kuala Trengganu, Kemaman and Besut.

The chief town is Kuala Trengganu, situated on both banks of the mouth of the Trengganu river, with a population of 14,060.

Other navigable rivers with considerable settlements at their mouths are the Kemaman Kretir, Dungun, Paka, Marang, Ibai, Setiyu, and Besut.

The public revenue and expenditure for the year 1937 were $2,660,399 and $2,645,686 respectively.

The total value of exports from Trengganu in 1937 was $11,679,578 and of imports $6,443,326. The principal exports and imports were:—

Exports, 1937	*value.*
Tin ore	$863,720
Para rubber	3,701,910
Haematite	4,495,245
Dried Fish	609,081
Copra	139,459
Manganese	171,329
Areca-nuts	84,541
Silk sarongs	473,275

Imports, 1937.	
Rice	1,507,449
Tobacco, cigars and cigarettes	497,460
Cotton and silk stuffs ..	711,287
Sugar	162,351
Petroleum	392,091
Tinned milk	131,696
Machinery	148,393
Locomotives	282,020

The rainfall is heavy and well distributed throughout the year, though excessive during the North-east monsoon from November to February. The annual average is about 115 inches. The temperature ranges between 75° and 92°F. Soil and climate are suitable for the cultivation of Para rubber, coconuts, coffee, and pepper. During part of the N.E. monsoon season the coast is difficult of access, though seldom quite unapproachable.

British protection dates only from the 14th July, 1909. The suzerainty of Siam, transferred on that date to Great Britain, was merely a nominal overlordship, of which practically the only token was the triennial despatch of the *bunga mas* (golden leaves and flowers) to Bangkok. An agreement between His Majesty's Government and His Highness Sultan Zainu'l-'abidin was made on 22nd April, 1910, and a further Agreement was made on 24th May, 1919. Under these Agreements His Majesty's Government guarantees protection of the State from foreign aggression, and the Trengganu Government accepts a British Adviser whose advice must be asked and acted upon in all matters affecting the general administration of the country and the collection and disbursement of all revenues; the cost of this Adviser and his establishment to be determined by the High Commissioner and to be charged on the revenues of the State.

The ruling of Sultans dates from the seventeenth century, as there is unbroken succession from Sultan Zainu'l-'abidin through ten intermediary Sultans to the present ruler.

The Public Debt at the end of 1937 amounted to $3,000,000. It consists of loans by the Government of the Straits Settlements for the purpose of resumption of Ruling House Land Concessions, surveys, road construction and other development works.

Administration.

British Adviser, N. R. Jarrett, M.C.S., A. E. Coops, M.C.S. (acting).
Legal Adviser, C. W. A. Sennett, M.C.S.
Assistant Adviser, Kemaman, W. Cole, M.C.S.
Assistant Adviser, Besut, A. N. Ross, M.C.S.
Commissioner of Lands and Mines, P. A. B. McKerron, M.C.S.
Settlement Collector, W. W. M. Lennox, M.C.S.
State Engineer, E. N. Dimmock.
Assistant Engineer, J. N. McHugh.
Commissioner of Police, J. D. Dalley.
Medical Officer, Dr. G. I. H. Braine.
Preventive Officer, Customs, J. A. MacLaughlin.
Forest Officer, D. B. Arnot.
Superintendent of Surveys, R. A. Simcock.

BRUNEI.

Sultan, His Highness Ahmed Tajudin.

Ministers of State, Pengiran Bendahara Seri Maharaja Permeisuara Anak Abdulrahman, Pengiran Pemancha Sahibul Raya Almerhuara, Haji Mohamed Yasin.
British Resident, J. Graham Black, M.C.S.
Assistant Resident, E. C. G. Barrett, M.C.S.
State Engineer, F. V. Murdock.
State Forest Officer, C. O. Flemmich.
Agricultural Officer, G. D. P. Olds.
Medical Officer, Dr. O. E. Fisher.
Chief Police Officer, T. F. Brown.

The State of Brunei lies between Longitude 114° and 116° East and forms two enclaves into the territory of Sarawak close to the boundary of that State with North Borneo. It has a coast line of some 100 miles extending from Brunei Bay in the East, in which lies the island of Labuan, one of the Straits Settlements, to the boundary of Sarawak near the Baram River in the West. It is distant 758 nautical miles by sea from Singapore.

The Sultanate of Brunei was formerly a great and powerful State, and in the early years of the 16th century the authority of its Rulers appears to have extended, not only over the Northern part of the Island of Borneo, but over the Sulu Islands and part of the Philippines. Its wealth and importance at this period are shown by the description given by Pigafetta of the Sultan's Court, and by the fact that the early European navigators extended the name of the Sultanate to the whole of the island, "Borneo" being a corruption of Brunei. The power of the State appears to have begun to decline about the end of the 16th century, and by the middle of the 19th century it had fallen hopelessly into decay. The cession of Sarawak to Sir James Brooke in 1841 was followed

Digitized by Google

by many similar cessions to Rajahs of Sarawak and to the British North Borneo Company, and the State of Brunei has now been reduced to about 2,226 square miles, containing a population (1931 census) of 30,135, and consisting of the town and district of Brunei and the outlying districts of Muara, Tutong, Belait and Temburong. Estimated population on 31st December, 1937, was 35,963.

In 1888, an agreement was concluded with the Sultan under which the control of foreign relations was placed in the hands of His Majesty's Government, whilst internal affairs were left to the Sultan. A further agreement was made at the end of 1905, under the terms of which the Sultan agreed to accept a British Resident to advise him and assist in the administration of the State.

Until 1915 the Resident combined these duties with those of Resident of Labuan, while an Assistant Resident was stationed in Brunei. In 1915, a separate Resident was appointed for Brunei and the appointment of Assistant Resident was discontinued. At the beginning of 1931, however, the rapid development of the Belait district owing to the discovery of oil in commercial quantities necessitated the appointment of an additional officer of the Malayan Civil Service and the title of Assistant Resident was revived. European officers from the Malayan Establishment are in charge of the Public Works, Medical, Police, Agricultural and Forest Departments.

The chief town is Brunei, with a population of 10,453 (1931 census). Besides the old Malay town which is built over the water on the Brunei River there is a new township on the mainland, which has steadily developed since 1910. The only other centre of any considerable population is Kuala Belait on the oil fields with a population of about 4,000.

The climate resembles that of the Federated Malay States, the average annual rainfall being a little over 100 inches.

There are Malay Vernacular schools at Brunei and in the out-districts as well as aided Chinese and English Schools in Brunei and Kuala Belait.

The Government maintains a small hospital at Brunei and two dispensaries in country districts, as well as travelling dispensaries which cover the whole State. There is also a hospital at Kuala Belait maintained by the British Malayan Petroleum Company which is made available for Government use. The birth rate was 40·09 per mille (1,472 births) and the crude death rate 21·47 per mille (772 deaths).

The Police Force consists of 86 non-commissioned officers and men under the Chief Police Officer, a Chief Inspector on deputation from the Straits Settlements Police.

There are six post offices in the State and 210,020 postal articles were dealt with in 1937.

Trade is chiefly in the hands of Chinese, of whom there are about 4,000 in the State. Native industries include fishing, cloth weaving, brass founding, and the manufacture of silverware. The principal imports are rice, cloth, tobacco, sugar and petroleum, and the principal exports crude oil, cutch (mangrove extract), wild and plantation rubber, sago and dried prawns. All trade passes through Labuan.

In 1924 the British Malayan Petroleum Company, Limited, commenced prospecting and drilling operations for petroleum in the Belait district. In 1930 it became definitely established that an oil-field of considerable commercial value had been found at Seria, 10 miles North-East of Kuala Belait. Production amounted to 566,908 tons in 1937, valued at $3,992,782.

Several companies are engaged in planting Para rubber. Exports in 1937 amounted to 1770 tons valued at $1,240,995.

A cutch factory established by a London syndicate, is at work at Brunei. The output of cutch in 1937 was 2,333 tons, valued at $212,239.

There are two native industries of importance, the manufacture of brassware and silverware. These are more or less restricted to certain families or guilds.

Weaving is done by Brunei women, and the natives are excellent fishermen.

The revenue of the State is derived principally from oil royalties, customs duties, and land and mining rents.

Finances.

Year.	Revenue.	Expenditure.
1937	$1,049,293	$653,149

There is no Public Debt.

Communications.

There is regular communication with Labuan by small vessels of the Straits Steamship Company and thence with Singapore by weekly mail steamer.

A central Wireless Telegraph Station was opened in 1921 at Brunei with a subsidiary station at Labuan which enables telegraphic communication to be maintained by cable from Labuan with Singapore and other parts of the world. There are also Wireless Stations in the Belait and Temburong Districts.

The currency is the Straits Settlements dollar.

MALTA.

Situation and Area.

The Maltese Islands form a group in the Mediterranean Sea, about 58 miles from the nearest point of Sicily, 80 miles from Syracuse, and 142 from Reggio, and about 180 from the nearest point of the mainland of Africa. The length of Malta is about 17 miles, by 9 miles in breadth: its area is 94·870 square miles; that of Gozo, 25·899 square miles, and that of Comino about one square mile. Filfla and Cominotto are mere islets. The whole group is about half the area of the Isle of Man.

History.

The Maltese Islands were inhabited as early as the beginning of the Mousterian cultural period, about 40,000 B.C., by Neanderthal man, of whom remains were discovered in a cave to the south-east of Malta. Traces of paleolithic civilization are not wanting in the islands, and evidence of a neolithic civilization, in the shape of cave dwellings, stone circles, menhirs and dolmens, is found all over the islands. The Phoenicians probably took possession of Malta as soon as they made themselves masters of the Mediterranean Sea. Phoenician remains are few, but there are numerous rock-cut graves of Phoenician type.

At the beginning of the Punic wars the islands were held by Carthage. In the course of the first Punic war they changed hands more than once, but at its conclusion they were still in the possession of the Carthaginians. In 218 B.C., they passed finally to Rome. Under the Romans Malta appears to have enjoyed great prosperity. Diodorus Siculus speaks of the excellence of its harbours, the wealth of its inhabitants, and its many skilful artificers, and refers to its fertility, and Cicero, in the Verrine orations, speaks of it as abounding in riches and famous for its textile manufactures. Inscriptions show that it enjoyed municipal rights in the time of Hadrian, and

Digitized by Google

an interesting fact in its recorded history is that it was the scene of St. Paul's shipwreck (Acts xxviii.). On the final division of the Empire in 395 A.D., Malta fell to the share of the Byzantine Emperor, and for the next four centuries its history is almost a blank. In the 9th century it was three times invaded by the Arabs, who finally conquered it in 870, the Byzantine garrison being massacred in an insurrection of the inhabitants.

In 1090, Count Roger the Norman, with a handful of men, subjected the islands to Sicily. The Sicilian domination lasted for four hundred years, Norman, Angevin, Aragonese and Castilian ruling in turn. During this time, Malta had Sicilian governors and laws, but there is no record of any extensive Sicilian immigration, and the persistence of the old Semitic names in the parish registers, instituted at this period, stands as further evidence that no great ethnographic changes occurred.

The connexion with Sicily was broken in 1530, when the Emperor Charles V gave Malta to the Knights of St. John of Jerusalem, who had been driven from Rhodes by the Turks, and who held Malta until 1798. The loyalty of the Maltese to their new sovereigns, who for the first time were resident in the island, was put to a severe test on several occasions, the most notable being the great siege of 1565, when the Order of St. John, under Grand Master Jean de la Valette, resisted the attacks of the land and sea forces of Solyman the Magnificent. It was after this great feat of arms that the city of Valletta was built, strong enough to defy the Turkish attacks threatened yearly by the Sultan.

Napoleon Bonaparte invested the island on his way to Egypt, having prepared the ground by intrigue and revolutionary propaganda, and, on the 12th July, 1798, Ferdinand de Hompesch, the last Grand Master in Malta, capitulated without any resistance, and the Order was dispersed.

The French installed themselves in the islands, but their interference with Maltese laws and customs brought about a sharp reaction, and the Maltese drove the French troops within the fortified towns and, with the help of the British fleet, held them closely blockaded for two years, after which the French, reduced to extremities, surrendered to the British.

In 1800 the government was placed in the hands of Great Britain. The Treaty of Amiens provided that the islands should be restored to the Knights, but this was prevented by the re-commencement of the war, and they were finally annexed to the British Crown by the Treaty of Paris in 1814.

Climate.

The climate of Malta is equable and very healthy. In July the heat at sea level approaches that experienced in sub-tropical countries. The nights, however, are pleasant and cool, except during the prevalence of the scirocco wind. The mean maximum temperature during the three coldest months (December, January, February) is 65·5° Fahr., and the mean minimum 44·6°; but during the four hottest months (June, July, August, and September) the mean maximum is 89·6° Fahr., and the mean minimum 65·5°. The mean temperature is 64·5°, and the mean annual rainfall is 21·5 inches. There is no river or rivulet in the island, the water drainage becoming absorbed in the porous sandstone beds and finding its way through underground channels and aqueducts.

Industry.

The island is highly cultivated. Besides products for home consumption, early potatoes, onions, cumin seed and oranges are exported. A large number of the inhabitants are employed in connection with the trade of Valletta as a coaling station and an *entrepôt* and port of call. It is a port of registry, having, on 31st December, 1937, 45 vessels, 8,070 gross tonnage.

Chief Towns.

The chief town and capital is Valletta, having, with its suburbs of Floriana, Sliema, and St. Julian's, a population which, in April, 1931, when a census was last taken, was 51,898. The "Three Cities" (Senglea, Cospicua, and Vittoriosa) have a population of 27,149. Città Vecchia (or Notabile, in Maltese Mdina), the old capital, is in the interior of the island, and, with its suburbs, had a population of 10,032. The chief town of Gozo is Victoria (formerly called Rabat), with a population of about 5,351.

Inhabitants and Language.

The Maltese language, which is universally spoken, is of Semitic origin, and is akin to Arabic. The educated and commercial classes also speak English, and some Italian. The Maltese are remarkably thrifty, and industrious. They are excellent seamen and mechanics; large numbers of them are to be found in Algeria, Gibraltar, the Regency of Tunis, Egypt, Canada, Australia, and the United States.

Currency and Banking.

The legal tender currency is, under Order in Council of September 24th, 1886, and Ordinance I of 1929, exclusively British. There are two local banks (Bank of Malta and Anglo-Maltese Bank), and branches of Barclays Bank (Dominion, Colonial and Overseas), the Banco di Roma, and the Crédit Foncier d'Algérie et de Tunisie. There is also Sciclunas Bank which is a private bank. The amount of British Treasury currency notes and Bank of England notes in circulation on 31st March, 1938, was roughly estimated at 1,000,000*l.* The Government savings bank was established in 1833. On 31st March, 1938, the deposits amounted to 2,166,799*l.* with 16,492 depositors.

Means of Communication.

Motor bus services run between all the towns and villages. The telephone service is under Government control with exchanges at Valletta, Sliema, Rabat, St. Paul's Bay and Gozo. The Head Office is at No. 3 Strada Forni, Valletta. The number of exchange lines totals 2,194, with 2,903 stations. Malta is a station of the Cable and Wireless Ltd., with direct cables to Alexandria (3), Gibraltar (3), Bone (2), Messina (1), Tripoli (1), Sicily (1), and Zante (1).

Malta is a port of call for nearly all the Mediterranean lines of steamers, and is an important coaling station, facilities being given for coaling at any hour, day and night. There is direct mail communication with several Mediterranean ports and with England. The rates of postage are as follows:—

In the case of a local newspaper exceeding in weight 2 ozs., the rate will not be more than ½d.

Foreign . . . . . ½d. for each 2 ozs.

Public Works.

The drainage of the fortified towns, which was commenced in 1876 at the joint charge of the Colonial and Imperial Treasuries, was completed in 1885, and greatly improved their sanitary condition. New drainage works were commenced in 1899, and Cottonera, Sliema, St. Julian's, Msida, Pietà, Kalkara, Zabbar, Hamrun, Qormi, Mdina, Rabat, Tarxien, Pawla, Zejtun, Birkirkara, Balzan and Attard, parts of Lija and Luqa and other places have been drained. Small extensions are also being continually made in new streets as they are opened in the towns and villages. The intercepting sewer to Ghaxaq has been completed and those to Mosta and Zebbug are well in hand. The sewering of the streets of Ghaxaq has been started. The drainage of Gozo has also been commenced and Victoria, Fontana and Ghainselem have been drained. Considerable progress has been made in improving the roads and streets in accordance with the exigencies of modern traffic. The main roads are being asphalted. So far 4·7 miles have been surfaced with sheet asphalt and 106 miles with full grouting, semi-grouting and surface asphalt dressing.

The water supply is now extended to all the villages in Malta and Gozo, and works of considerable importance are carried out each year to augment and improve it.

Electric current for lighting and power has been extended to all the towns in Malta, and to all the villages, with the exception of a few of the smaller ones situated at a distance from the supply area. In Gozo current is available to the public in the chief town, Victoria, which has its own generating station, and in the important villages of Xewkija, Ghajnsielem, Nadur, Mgarr.

Constitution.

A Council of Government, partly elected, was constituted by Letters Patent in 1849, and reconstituted in 1887, the Letters Patent being amended in 1898 and again in 1903.

By Letters Patent dated April 14th, 1921, responsible government was established in Malta.

This Constitution was suspended from 1930 to 1932 and again on the 2nd November, 1933, the Senate and Legislative Assembly being dissolved from the same date. It was finally revoked by the Letters Patent, dated the 12th August, 1936, which were proclaimed in Malta on the 2nd September, 1936.

On the 29th July, 1938, the Secretary of State for the Colonies announced in the House of Commons that the Government proposed shortly to submit to the King, draft Letters Patent for a new Constitution for Malta, which would provide for the establishment of a Council of Government to be composed of 8 official members, 2 unofficial members nominated by the Governor, and 10 elected members.

According to the Letters Patent of 1936, the English language, as the official language of the British Empire, and the Maltese language, as the language of the people of Malta, are the official languages of Malta. The English language is the official language of administration, and the Maltese language is the official language in all the Courts of Law in Malta. Provision has been made by Ordinance for the use of the English language in any proceedings before any Court where any party or any accused person is a person who does not speak Maltese as the principal language to which he is accustomed. Where the proceedings are in a language not known to the party or parties or to the accused, they are translated.

The Maltese language is the language of general intercourse in the Islands.

Finance.—The revenue from all sources is paid into a Consolidated Fund, out of which the public service is supplied.

Appointments to Public Offices in Malta are made by the Governor, subject to the provision of the Colonial Regulations.

Education and Religion.

Elementary education is carried on principally in Government schools, which are Roman Catholic and free. There are two secondary schools with 436 scholars, a Montessori school with 81 pupils, 3 central schools and 94 elementary schools and 63 night schools with an average enrolment of 32,221 pupils, and an average attendance of 27,818. There is a public Lyceum with 758 day scholars, and 426 who attend evening classes, and a university (founded in 1769) with an average attendance of about 130 students. At these two latter institutions the fees are comparatively low, ranging from 80*s.* to 120*s.* per annum in the Lyceum and 6*l.* per annum exclusive of laboratory and other fees, for all lectures in the university. There are numerous private, elementary and secondary schools. The total number of these schools is about 37, with an approximate attendance of 3,050 pupils. Education is not compulsory, but attendance is obligatory for all pupils on the registers of a Government Elementary School. English and Maltese are the only languages of instruction in the Elementary Schools.

The Roman Catholic Religion is by law the religion of the country, but full liberty of conscience and freedom of worship are guaranteed, and persons of any faith may hold any office.

Customs Tariff.

Until 1917, only specific duties were levied, the main headings being Grain, Wine, Beer, Spirits, Cattle, Petroleum, Sugar and Tobacco.

In January, 1917, *ad valorem* duties, varying from 5 per cent. to 20 per cent. were introduced, embracing all commodities not already affected by specific duties, and not included in a list of exempted articles which:—

(*a*) Under Food and Drink shows Butter, Cheese, Coffee, Milk (fresh or preserved), Eggs in the shell, Tea and Cocoa, and certain other articles;

(*b*) under Raw Materials and Articles mainly unmanufactured shows Coal, Coke, Patent Fuel and Fuel Oil, Sponges, Vegetables and Flower Seeds and certain other articles;

(*c*) under Manufactured Articles, includes Agricultural Machines, Books, Cinema Films, wrapping and printing paper, Laundry Soap of British Empire origin. Yarns for lace-making, if of silk (excluding artificial) and linen. Twines, certain materials used for cap-making, shoemaking, and bag-making, and certain articles used for divine worship;

(*d*) under Miscellaneous and Unclassified Articles—includes articles imported by Government Departments—Bran not containing more than 5 per cent. Flour—Bullion and Specie, Pedigree animals, Fertilizers, and Engravings, Drawings and Paintings representing Maltese views and subjects of local interest.

In 1934 Empire Preferential duties were adopted. These duties affect boots and shoes, spirits, leaf tobacco, arms and ammunition, articles of gold,

Digitized by Google

silver and platinum and plated goods, confectionery and chocolate, furniture and cabinetware, motor vehicles, wireless sets, pianos and organs, and a number of articles falling under the designation of "Goods unenumerated." The preference in the case of motor-vehicles is 20 per cent., the remainder of the *ad valorem* goods enjoying a preference of 10 per cent. as against the rates for the General Tariff.

The general tariff shows an addition over the Empire Preferential Tariff of 50 per cent. in the case of boots and shoes, 1*s.* per litre for spirits, and 6*d.* per kilo for leaf tobacco.

The amount of duty collected in 1937-8 from specific duties was 446,908*l.* and from *ad valorem* duties was 185,172*l.*

The value of imports in 1937 from the United Kingdom was 1,031,212*l.*, from other parts of the British Empire 429,301*l.*, and from foreign countries 2,554,658*l.*, the respective percentages of imports being:—United Kingdom 25·7 per cent., other parts of the British Empire 10·7 per cent. and Foreign Countries 63·6 per cent.

The value of domestic exports in 1937 to the United Kingdom was 118,845*l.*, to other parts of the British Empire 7,207*l.*, to Foreign Countries 122,849*l.*, and as Ships' Stores 1,665*l.* The respective percentages were:—To United Kingdom 47·4 per cent., to other parts of the British Empire 2·6 per cent., to Foreign Countries 49 per cent., Ships' Stores 1 per cent.

The value of re-exports in 1937 to the United Kingdom was 21,188*l.*, to other parts of the British Empire 1,950*l.*, to Foreign Countries 39,116*l.*, as Ships' Stores 170,557*l.*, and as Bunkers 211,202*l.*

The respective percentages for re-exports were:—United Kingdom 4·7 per cent., other parts of the British Empire 0·4 per cent., Foreign Countries 8·8 per cent., Ships' Stores 38·5 per cent. and as Bunkers 47·6 per cent.

All the foregoing figures are exclusive of bullion and specie.

The total percentages of trade compared with the whole import and export trade of the Island (Imports, Domestic Exports and Re-exports), for the respective destinations are as follows:—

United Kingdom	24·8%
Other parts of the British Empire	9·3%

Public Debt.

There is, strictly speaking, no public debt in Malta, but interest at 2½% is paid by the Government on 79,081*l.* outstanding balance on 31st March, 1938, of the debt known as "Massa Frumentaria," incurred by the Municipality of Valletta under the Government of the Order of St. John of Jerusalem, in connection with the monopoly of the trade of wheat. The funds of the "Massa Frumentaria" were, in 1798, appropriated by the French Government, then in occupation of the Island.

Weights and Measures.

Malta barrel is equal to 9½ imperial gallons.
,, salm ,, 1 ,, quarter.
,, cantar ,, 175 lbs. English.
,, caffiso ,, 4½ imperial gallons.

Civil Population.

	Males.	Females.	Total.
Census 1931	118,652	125,350	244,002

MAURITIUS.

Situation and Area.

Mauritius is an island in the Indian Ocean, between 57° 18′ and 57° 48′ E. long., and 19° 50′ and 20° 31′ S. lat., distant 115 miles from Réunion, 934 miles from Seychelles, 1,300 miles from Natal, 2,000 miles from Cape Comorin, 11,000 miles from England, 2,300 from the Cape of Good Hope, and 500 from Madagascar. It comprises an area of about 720 square miles (nearly equal to Surrey), having an extreme length of 39 miles from north to south, and an extreme breadth of 29 miles from east to west.

The island is chiefly of volcanic formation but is almost entirely surrounded by coral reefs. There are several small chains of mountains but none of great height. The principal peaks are the Piton de la Rivière Noire (2,711 ft.), Pieter Both (2,690 ft.), and the Pouce (2,661 ft.). There are numerous rivers and streams; they flow generally through deep ravines and their course is broken by many small waterfalls and rapids. None of them are navigable beyond a short distance from the sea. The land rises gradually from the coasts, and the centre of the island is composed chiefly of a fertile and picturesque plateau varying in altitude from 1,000 to 1,800 feet. On this high and healthy tableland the temperature and climate are excellent.

History.

The Mascarene Archipelago was probably known to Arab navigators at an early date. A Dutch map copied from Arab sources shows the islands now known as Mauritius, Rodrigues and Reunion under the names of Dinarobin, Dinanora and Margabin, and it is possible that certain islands marked on Idrisi's map (1153) are intended to indicate them also.

There can be little doubt too that the island was visited by the Malays who colonised Madagascar in the 15th-16th century.

But Mauritius history really begins with its discovery by the Portuguese in the beginning of the sixteenth century—probably between 1507 and 1512, but not later than 1527, when the island is shown on an official map under the name of Santa Appollonia, borne in common with the other islands known later as the Mascarenes (Reunion and Rodrigues) after the great navigator Dom Pedro Mascarenhas.

The Portuguese named the island Ilha da Cirnos, or Swan Island, from the big birds resembling swans found on shore. They merely used the island as a port of call, without making any settlement. The first settlers were the Dutch. In 1598 a Dutch fleet landed in the South-Eastern harbour of the island, to which its commander, Admiral Wybrandt Van Warwyk, gave the name of Mauritius, in honour of the Statholder, Prince Maurice of Nassau. For many years no attempt was made at colonisation, but from 1638 downwards petty settlements were established at various points, the seat of government being at the place known as Old Grand Port. The colony did not prosper, and was finally abandoned by the Dutch in 1710.

In 1715 the Island was formally taken possession of by the French, but was not actually occupied till 1721, when a small party of colonists were sent out on behalf of the French East India Company. The island was then named Isle de France. This name was retained until the landing of the English in 1810, when the former name of Mauritius was restored. Of all the Governors of the island, the most celebrated was Mahé de Labourdonnais (1735-1746), "a man of eminent talents" (in the words of Lord Macaulay), who encouraged the cultivation of sugar-cane and introduced many other valuable plants. He was the real founder of the prosperity of the Isle de France.

In 1767, the French East India Company, having gone into liquidation, handed over the island to the Crown, Jean Daniel Dumas being appointed Governor General for the King, and Pierre Poivre, Intendant. Poivre was a man of great ability; he introduced into the colony cloves and nutmegs secretly obtained from the Dutch Sunda Archipelago. Having purchased the ancient residence of the Company's Governors, at Monplaisir, he converted the grounds into a nursery where many useful plants introduced by him were cultivated. On his departure this property was sold to Government, the garden being entrusted to Poivre's friend, Nicolas Céré, under whose able management it became famous under the name of King's Gardens. It is now the Royal Botanical Gardens, Pamplemousses.

In 1771 an epidemic of small pox caused many deaths among the slave population.

In 1790, at the outbreak of the French Revolution, a Colonial Assembly was elected, which for 13 years governed the island *de facto*.

In 1792 another very able Governor was sent out from France, Comte de Malartic, who during this troubled period managed to gain the affection of the whole community. In 1803, the Isle de France was taken charge of by General Decaen, appointed Captain General by Napoleon Bonaparte, then First Consul, with instructions to suspend the Colonial Assembly and the Isle de France's constitution for a period of ten years.

During the long war between England and France, the Isle de France was a source of great mischief to our merchant vessels, owing to the facility with which sorties were made from i

Digitized by Google

harbour by French men-of-war and privateers; and in 1809 the British Government determined on its capture. The neighbouring islands of Rodrigues and Reunion were taken possession of and several naval engagements were fought to the credit of both navies. The most famous of these was the battle of the Isle de la Passe, fought in the bay of Grand Port on the 23rd and 24th August, 1810, between four English frigates and two French frigates, a corvette and a captured East Indiaman. The English lost the day, two of their ships having gone on shoals early in the engagement, but the great gallantry shown by both sides has rendered the fight memorable in the annals of the two navies.

A strong expeditionary force was then sent out from the three presidencies of India and the Cape. Twelve thousand troops under General Abercromby were landed, and the island finally surrendered to Great Britain on December 3rd, 1810, the laws, religion, and customs of the inhabitants being guaranteed in the instrument of capitulation.

The possession of the island was confirmed to England by the Treaty of Paris, 1814.

The first English Governor, Mr. (later Sir) R. T. Farquhar (1810-1823) gained a well-deserved popularity. During his tenure of office, on 25th September, 1816, the fourth part of the town of Port Louis was destroyed by a conflagration. On 28th February, 1818, the island was laid waste by a terrific cyclone, causing immense destruction to property.

In the year 1832, the Council of Government which was established on the 19th August, 1825, was abolished, and a Legislative Council, with half the members official, created. The oaths of office were taken by the new members on the 23rd January, 1832.

On the 1st April, 1835, the emancipation of slaves took place without disorder; but as this new class of free men refused employment as labourers the planters were obliged to resort to this introduction of labour from India which was finally authorised in 1842, under the supervision of an agent residing in India, and which continued, with temporary interruptions, until 1910.

In 1849, the Legislative Council voted the law constituting a municipal corporation for the town of Port Louis.

During the years 1854, 1856, 1861-62, epidemics of cholera prevailed, of which that of 1854 was the most severe, causing 7,650 deaths.

The year 1864 saw the opening of the North Railway Line from Port Louis to Pamplemousses, the Midland Line being inaugurated two years after.

In December, 1866, malaria broke out with great severity. During the year 1867, 31,758 persons died from fever, including 18,308 in Port Louis.

In 1868 and 1874, Mauritius was visited by severe cyclones. During the former two spans of the Grand River Railway Viaduct were brought down by the force of the wind. On the 29th April, 1892, one of the most violent cyclones ever recorded ruined a considerable portion of Port Louis, besides causing infinite havoc to buildings and crops. The death roll amounted to 1,232. In order to assist the planters and other owners of immovable property affected by the calamity, a loan of £600,000 was guaranteed by the Imperial Government.

On the 23rd of July, 1893, part of Port Louis was again destroyed by fire. At the end of the same year ocean telegraphic communication was opened.

In 1902, an outbreak of Surra caused great loss of draught animals, and mechanical means of transport had to be resorted to for the sugar plantations. A number of locomotives and traction engines were introduced, and a loan was raised to enable the planters to lay down tramways, and take other steps to provide for transport.

In 1909, a Royal Commission visited the Island to enquire into the administration and finances of the Colony.

During the Great War Mauritius suffered in no way by direct action on the part of the enemy. A number of volunteers proceeded to Europe for military service and a "Labour Battalion" was supplied for Mesopotamia.

The enormous rise in the price of sugar brought great prosperity to the Colony, and the gross value of the crop of 1920-1921 is estimated to have been approximately Rs. 250,000,000.

In 1921 investigations of the sanitary and health conditions were made by Dr. Andrew Balfour, C.B., C.M.G., M.D. Many of the works recommended have been carried out.

In 1923 the Indian Government consented to the resumption of immigration of labourers from India consequent on the repeal of the penal clauses of the Labour Law of 1878 affecting labour.

Immigration was accordingly resumed for a period of 12 months ending on 31st May, 1924, but with disappointing results, most of the immigrants having returned to India by the end of the same year.

In March, 1931, a cyclone lasted three days and caused considerable damage to property. In the same year a Financial Commission visited the Island to enquire into the public finances.

General Description.

The permanent settled population of European race is greater in Mauritius than in any other tropical colony of its size. Many of the inhabitants are descendants of the ancient French noblesse. The higher and middle classes possess much intellectual culture.

Six daily newspapers and twenty other periodicals are published in the capital. The French language and a creole patois are spoken all over the island, English being used in the supreme court of justice. Debates in the Council of Government may take place in either language.

Mauritius is divided into nine districts, Port Louis, Pamplemousses, Riviere du Rempart, Flacq, Grand Port, Savanne, Moka, Plaines Wilhems and Black River.

The City of Port Louis is the capital and seat of Government, and contained, with its suburbs, an estimated population of 54,290 on 31st December, 1931. The harbour is one of the best in the East, and is sufficiently spacious to receive a large number of vessels. It possesses three graving docks.

Works for the reconditioning of the Harbour and improvements thereto have been carried out. The Harbour is defended by Fort Adelaide (the citadel) and by Fort George. There are large barracks and military stores. The trade of the island passes almost entirely through Port Louis. The city has an elected municipal corporation, and raised in 1934 a revenue of Rs. 640,688·42, against an expenditure of Rs. 645,296.49. Its debt amounts to 22,300*l.* and Rs. 523,500 at 31st December, 1934.

The principal public edifices of Port Louis are the Government House, the Institute, the Roman Catholic and Anglican Cathedrals, the Civil Hospital, the Town Hall, the theatre, and the public offices. There is a racecourse most beautifully situated in the Champ de Mars.

Digitized by Google

A sewage scheme provides for the disposal of the sewage of the central part of the town.

After Port Louis, the largest town is Curepipe, incorporated in 1890 (population 19,421, census of 1931), situated on the uplands in the Plaines Wilhems district.

In the district of Grand Port is the small town of Mahebourg (population 7,698, census of 1931), so called in honour of Mahé de Labourdonnais.

Population.

At the Census of 1931 the population of Mauritius (exclusive of the Dependencies and Military) was found to consist of :—

Persons of European, African, or mixed descent	115,666
Indian population	268,649*
Chinese	8,923
	393,238

The total number of Indians was 68·3 per cent. of the total population.

At the Census of 26th April, 1931, the Civil population numbered 393,238.

The descendants of the immigrants from India —the Indo-Mauritians—now form the largest section of the population ; they are steadily increasing in numbers. They are predominant in the domestic, commercial, and still more in the agricultural callings, and the amount of land held by them as small planters is rapidly growing.

Constitution.

The constitution of Mauritius was altered in 1884-85 and in 1933. It now consists of a Governor, with an Executive Council of four *ex-officio* and two unofficial members, and a Legislative Council of twenty-seven members, eight being *ex-officio*, nine nominated by the Governor, and ten elected—two for the town of Port Louis, and one for each of the eight rural districts. At least two-thirds of the nominated members must be persons not holding any public office. Under the revised Constitution of 1933 the Governor is empowered to override a majority vote of the Council for the enforcement of any measure which he considers necessary in the interest of public order, public faith or other essentials of good government. Members are not paid ; they may speak either in French or English. The number of registered electors on 31st December, 1934, was 10,099 ; the franchise qualification is ownership of immovables of annual value of Rs. 300, or movables worth Rs. 3,000, or payment of rent of Rs. 25 monthly, or of license duty of Rs. 200 annually, or receipt of salary of Rs. 50 monthly. The session usually lasts from *April* to *December*.

The law is based on the Code Napoléon, and other French laws modified by Colonial Ordinances.

Climate and Rainfall.

From December to April is the hottest season in Mauritius, but it is comparatively cool during the remainder of the year. The mean temperature of Port Louis is 25·1° C., the mean annual rainfall 40 inches and the mean relative humidity 67 per cent. The mean temperature of Curepipe, at about 1,800 feet above sea level, is 19·3° C., the mean annual rainfall 123 inches, and the mean relative humidity 87 per cent. The official cyclone season extends from November to the middle of May, but cyclones have occurred in the South Indian Ocean in every month of the year except August.

During cyclones over 30 inches of rain have occasionally been registered in 24 hours.

Water Supply.

With the exception of a few villages which still derive their supplies from private wells or from open streams, the rest of the island derives its water supply from pipe-borne supplies which are derived from various sources and are under the control of the Public Works Department.

The two main supplies are those of the Town of Port Louis and of the District of Plaines Wilhems.

The supply of the Town of Port Louis is derived from the Grand River North West, a distance of about 4 miles from the Town and at an elevation of 250 feet. The quantity delivered is about 5 million gallons per day.

The supply of the District of Plaines Wilhems is derived from the Mare-aux-Vacoas, which is a storage reservoir of 1,641 million gallons at an altitude of 1,825 feet. The principal towns dependent on the latter source of supply are Curepipe (to which the water is pumped), Vacoa, Phoenix, Quatre Borns, Rose Hill, and Beau Bassin in the District of Plaines Wilhems and Reduit, Moka and Saint Pierre in the District of Moka.

The supply has been extended to Port Louis, where the quantity available for supply is 1,000,000 gallons per day and to part of Black River District.

The quantity delivered is about 4 million gallons per day.

Both the Grand River North West water and the Mare-aux-Vacoas water are filtered and chlorinated before distribution. Frequent analyses are made by the Medical and Health Department. Both these waters are of a high standard of purity after filtration and chlorination.

Irrigation.

Of the two irrigation schemes undertaken by Government for the irrigation of the coastal regions below the 60-inch rainfall line in the North and North-West of the Island, only one has been completed, viz., that of "La Ferme," which irrigates 3,700 acres from a storage reservoir situated at an elevation of 450 feet above sea level and of a capacity of 2,500 million gallons.

The other scheme which was originally intended to irrigate 15,000 acres has been completed only in respect of the construction of a low level reservoir at La Nicoliere of a capacity of 1,270 million gallons and of the connection thereof to the high rainfall region of Midlands by a canal 17 miles long. The uncompleted scheme as it now stands irrigates 300 acres.

Railways.

There are seven lines of railway, all owned and worked by Government, viz : (1) The North line, from Port Louis to the sea coast village of Grand River South-east. Its length is 33¼ miles, and its course is approximately parallel to the northern coast line of the island. (2) The Montagne Longue branch, from Terre Rouge station on the North Line to the village of Montagne Longue ; its length is 3½ miles. (3) The Midland line, beginning at Port Louis and running across the island to the sea coast town of Mahebourg on the other side ; its length is 35½ miles, with a summit level of 1,822 feet at Curepipe ; the gradient in many places is 1 in 26. Four and a quarter miles of this line have been doubled and opened for traffic. (4) The Moka-Flacq line from the Rose Hill station on the Midland line to Montagne Blanche,

* The Indian section comprises those members of the population following the customs and religions of India.

Digitized by Google

length 14¾ miles. (5) Savanne branch from Rosebelle station on the Midland line to the sea coast town of Souillac at the southern extremity of the island; its length is 11 miles. (6) Black River branch, from Richelieu on the Midland line to Tamarin, distance 12¼ miles. (7) Rivière du Poste to Mexico and Richebois, length 13¾ miles. All the above are of standard gauge, 4′ 8½″, except the 7th which is 75 centimetres (2′ 6″). The total number of miles of railway now open is 110½ of standard gauge and 13¾ of 2′ 6″ gauge, the total cost up to date being about £2,080,099. The receipts in 1936-37 were Rs. 1,958,713 and Working Expenditure Rs. 1,803,631.

Religion.

The Christian Churches are assisted by State grants. According to the census of 1931, the Roman Catholics numbered 126,153, and the Protestants about 4,466, including Dependencies and Military. The Roman Catholics receive an annual grant from Government amounting to Rs. 149,216, the Protestants Rs.48,973 and the Church of Scotland Rs. 8,558.

Education.

The system of education had been remodelled by Ordinance No. 33 of 1899, which repealed all former enactments. This Ordinance was repealed by Ordinance No. 19 of 1919 which was subsequently repealed by Ordinance 42 of 1934.

Under the Education Ordinance of 1899, a Department of Public Instruction was created under a "Director of Public Instruction."

This system remained in force until it was superseded by the Education Consolidation Ordinance of 1919, under which the Department of Public Instruction was replaced by a Royal College Department and a School Department, the post of Director of Public Instruction being abolished. The Rector is the Head of the Royal College Department; and the Superintendent of Schools of the Schools, Department.

The Royal College Department comprises two Day-Schools for boys: The Royal College proper, situated in Curepipe, 1,800 feet above sea level, and the Royal College School, in Port Louis. The Royal College, Curepipe, is attended by about 320 pupils, aged from ten to twenty, and has a teaching staff of ten Europeans and thirteen Mauritians; at the School there are 180 pupils on the roll, and thirteen Mauritian teachers.

The medium of teaching is English. Twenty Scholarships and Exhibitions tenable at the Royal College are competed for annually by Primary School pupils; fourteen Scholarships and Exhibitions open to Royal College and other Secondary School pupils are also awarded annually and two Scholarships, known as the English Scholarships, tenable at a British University, of a total value of about £1,100, which are open to College pupils only. There is a Classical and a Modern Side, and at the School there is also a Commercial Side. Saturday extension classes are held at the College for special studies in Science. About 100 pupils annually sit for the Cambridge School Certificate and a few for the London Chamber of Commerce examinations. The English Scholarship examination is about the standard of the Cambridge Higher Certificate, but candidates are required to offer many more subjects. There is no technical training. Classes in Physical Culture and Gymnastics are held by a qualified instructor, who also supervises Field Sports. The pupils are drawn from all classes in the Colony. A Committee styled "The Royal College Committee" is annually appointed by the Governor to advise in the framing of Regulations and to act as a consultative body. It consists of the Colonial Secretary as Chairman, the Rector, the Superintendent of Schools, and six other members chosen by the Governor.

The Schools' Department provides for Primary, Secondary, and Technical and Industrial Education:—

(1) Primary Education is carried on through a system of Government Schools and of Grant-in-aid Denominational Schools, the latter under the immediate control of local managers.

(2) Secondary Education is provided by means of a system of Grant-in-aid schools for boys and girls.

(3) As regards Technical and Industrial Education, provision is made for the training of students in Mechanical Engineering. A consultative committee styled the "Schools Committee," similar to that of the Royal College, is annually appointed by the Governor. It consists of 12 members: the Colonial Secretary, the Superintendent of Schools, the Rector, Royal College, five members nominated by the Primary and Secondary Grant-in-aid Schools and four chosen by the Governor, with the Colonial Secretary as Chairman.

Secondary and Higher Secondary Education.

On the books of the Royal College and the Royal College School on the 31st December, 1937, there were about 500 pupils.

Primary Education.

There were in 1937—

	Number.	Pupils.
Government schools . . .	50	14,393
Grant schools.	77	24,515
Total . .	127	38,908

The total expenditure on education in 1936–37 amounted to Rs. 1,075,158, in which is included a sum of Rs. 46,231 spent on Aided Secondary Education. There are more than 1,000 masters, mistresses, assistants, and monitors and monitresses employed in Government and Grant Schools. Of the pupils in the Government and aided schools 47·2 per cent. are Roman Catholics, 1·4 per cent. belong to the Church of England, and 0·7 per cent. to other Christian denominations. Four Hindoo and two Moslem schools are also assisted. The number of pupils on roll in Aided Secondary Schools in 1936–37 was 1,632.

Agricultural Education.

To facilitate higher agricultural education, a small Agricultural College has been established. Lectures on Agricultural Science are occasionally made to Primary School Teachers by the Department of Agriculture.

Communications.

Postal communication with Europe is chiefly maintained *via* Suez by the Indian Ocean Line of the Messageries Maritimes, which provides a regular fortnightly service. Mails are otherwise sent or received through South Africa. The only regular service by this route is being provided by the Koninklijke Paketvaart Maatschappij (K.P.M.) Java-Mauritius-Africa line. Other opportunities through South Africa are irregular, though not infrequent, and are provided by tramp steamers and occasionally by a Union Castle or a Clan line vessel.

Digitized by Google

Communication with India and Ceylon is maintained regularly by the Messageries Maritimes packets, *via* Mombassa and Aden and by the K.P.M. steamers *via* Batavia. The British India Steam Navigation Co. also runs an occasional steamer between Ceylon and Mauritius and vice versa.

The K.P.M. steamers provide regular monthly communication *via* Batavia with Australia, Hong Kong, China and Japan.

With the neighbouring islands of Reunion and Madagascar communication is frequent by local trading vessels, apart from regular Messageries Maritimes packets or K.P.M. Steamers.

Communication with Rodrigues is provided every two months by K.P.M. steamers and irregularly by Colonial vessels.

Mails for Seychelles are sent per M.M. packets every fortnight *via* Mombassa, and by the K.P.M. steamers once every month.

Air mail letters for Europe and almost every other part of the world are sent to Durban by sea for inclusion at Johannesburg in the South Africa air mail, and to Mombassa by sea for inclusion at Nairobi in the Kenya air mail. Other opportunities for Europe are *via* Tananarive fortnightly, and, Batavia, monthly. Air mail letters to Moçambique, French East Africa, Belgian Congo, French West Africa, Morocco, etc., may also be sent *via* Tananarive and those for the Dutch East Indies, India, Mesopotamia, Egypt, etc., *via* Batavia.

Wireless communication is maintained with ships at sea within a range of 500 miles by day and 1,000 miles by night and with the Réunion land station.

Cable communication with every part of the world is provided by the local station of the Eastern and South African Telegraph Company.

Government land telegraphs and telephones (including Railway Block Telegraph and Railway Traffic Control Telephone) extend to 577 miles of telegraph and 418 miles of telephone.

Private telephone communication is provided by the Government in the capital, Port Louis, and in the rural districts.

There are in Mauritius the General Post Office in the city of Port Louis, and 59 branch post offices in the rural districts, 59 money order offices, 45 telegraph and 8 telephone offices. In the island of Rodrigues there is one post office at Port Mathurin and also a station of the Eastern and South African Telegraph Co. There is no post office in any other of the Dependencies.

Commerce.

The island produces barely one-tenth of the food required for its inhabitants and almost all agricultural enterprise is devoted to the production of exports.

The chief exports are sugar, copra, aloe-fibre, raw hides, &c. Food-stuffs are principally imported from India; manufactured articles from England, oxen from Madagascar.

The imports consist mainly of grain (rice, wheat flour, &c.), cotton manufactures, motor spirits and coal, iron and steel goods and fertilizers. Considerable progress has been made in the tobacco industry; factories have been opened in Port Louis and efforts are being made to establish an export trade. Other new industries include fruit canning, and the manufacture of matches. About 95 per cent. of the value of the exports consists of shipments of sugar. In 1937 the weight of sugar exported was 313,012 metric tons with an estimated value of Rs. 35,250,607 (not including the value of sugar quota certificates). The value of copra or poonac exported was Rs. 350,012; aloe-fibre, Rs. 282,526; fruits, preserved, Rs. 32,630.

The Customs Tariff is mainly on a specific basis, but important classes of goods pay *ad valorem* duties. It includes provisions for preference on numerous items of Imports from the British Empire.

The trade percentages were as follows:—

	1934.	1935.	1936.	1937.
United Kingdom..	58·2	57·2	61·3	60·75
Other parts of British Empire	26·5	31	25	26·85
Foreign Countries	15·3	11·8	13.7	12·40
	100·0	100·0	100·0	100·0

The number of vessels registered at Port-Louis is now 11 of a total tonnage of 3,335.

Currency and Banking.

The Mauritius Commercial Bank has two establishments in the Colony. The total amount of deposits on 30th June, 1938, being Rs. 7,084,873, with paid up capital of Rs. 2,000,000.

The Mercantile Bank of India Ltd., took over the business of The Bank of Mauritius Ltd., on the 3rd May, 1916. The total local deposits on 30th June, 1938, amounted to Rs. 2,311,432. The total paid up Capital is now 1,050,000*l.*

Barclays Bank (Dominion, Colonial and Overseas), formerly The National Bank of South Africa, Limited, has been established in the Island since 1919, the paid up capital being 4,975,500*l.* and the total amount of local deposits on 30th June, 1938, Rs. 3,081,658.

A Government savings bank was established in 1837. The total deposits during the year ended 30th June, 1938, amounted to Rs. 2,142,250. The sum standing to the credit of depositors at the end of June, 1938, was Rs. 6,815,120.

All accounts are kept in rupees and cents of a rupee, which is the currency of the island. A new Government note issue was established in 1934, the notes being legal tender to any amount. The circulation as at the 30th June. 1938, was Rs. 9,417,485.

Weights and Measures.

The Metric System, as regards weights and measures, came into force on the 1st May, 1878.

Dependencies.

The dependencies of Mauritius comprise a large number of islands scattered over the Indian Ocean.

Rodrigues, the most important, is situated in latitude S. 19° 44′ and longitude E. 63° 34′, and is 344 nautical miles from Mauritius. The island which has an area of 42 sq. miles, about 26,000 acres, is 18 miles long by 7 miles broad, and is surrounded by coral reefs, extending in some places 5 or 6 miles from the shore. It is under the administration of a magistrate, who takes his instructions from the Governor of Mauritius. Laws for the island are made in the form of regulations framed by the Governor of Mauritius in Executive Council. The estimated population at 31st December, 1937, was 9,977. The birth rate in 1937 was 43·7 and the death rate 20·8 per 1,000. Cable communication, through a branch of the Eastern and South African Telegraph Company, was opened on 16th May, 1902.

The island, which is volcanic, mountainous, and in some parts well wooded, is beautiful and picturesque in the extreme. The highest land is 1,760 feet above the level of the sea, and may be seen in clear weather at a distance of 10 or 12 leagues. The temperature differs little from that of Mauritius, although the breezes are stronger and hurricanes more frequent and severe. The

Digitized by Google

climate is healthy. The principal industries are fishing and the rearing of cattle and goats, for which latter the pasturage is excellent. The soil is good: cotton, coffee, tobacco, maize, beans, and vanilla grow luxuriantly; a trained officer has of late (1921) been appointed Agricultural Superintendent in view of the agricultural development of Rodrigues. The wild guinea fowl and partridges, likewise the deer and wild pigs, which used to be plentiful, have almost disappeared.

The value of the imports in 1937 was Rs. 323,051 not including Rs. 25,000 Bullion and Specie. The exports of the island produce in 1937 were valued at Rs. 371,822. The people are all peasant proprietors and there is abundance of food.

The principal exports are beans, maize, salt-fish, cattle, goats, pigs, poultry, tobacco-leaf and acacia seeds.

Communication with Rodrigues is maintained by steamers of the K.P.M. Line.

Diego Garcia (population, 455, census 1931), the most important of the Oil Islands group, consists of four islands, at four days' steaming from Mauritius, the chief one being about 30 miles in length, extending in an irregular horse-shoe shape, and embracing between its extremities three minor islets. It is a coral atoll, fifteen miles by six and a half, nowhere over ten feet high, but forming a spacious bay, roomy enough for large vessels to enter, being fifteen miles in length from end to end, and from two to five miles in breadth.

Diego Garcia is situated at 7° 20′ latitude S. and 72° 26′ longitude E., on the straight line between the entrance to the Red Sea and Cape Leeuwin. In 1885 it was placed under the jurisdiction of a magistrate, with a small force of police from Mauritius, which was, however, withdrawn in 1888.

The population of the smaller Dependencies, according to the 1931 census, was 1,457 and is estimated at 1,411 on 31st December, 1937.

NIGERIA.

Situation, Area and Population.

The British Colony and Protectorate of Nigeria is situated on the north-eastern shore of that deep indentation in the western coast of the African continent known as the Gulf of Guinea, and is enclosed roughly by parallels of latitude 4° and 14° N. and by meridians of longitude 3° and 14° E.

It is bounded on the north and north-west by the military territories of the French Sudan, on the east and south-east by the Cameroons, on the south and south-west by the waters of the Gulf of Guinea, and on the west by the French colony of Dahomey. Its greatest length from east to west is 700 miles and greatest breadth from north to south 650 miles.

Great Britain has received a mandate over a small portion (amounting to 34,081 square miles) of the former German territory of the Cameroons, which portion has been placed, for purposes of administration, under the Nigerian Government.

The area of Nigeria, including the area of Cameroons under British Mandate, is approximately 372,599 square miles (Southern Provinces and Colony 90,896 square miles, Northern Provinces 281,703 square miles). The country is therefore a little less in area than the United Kingdom, France and Belgium together, or about one-third that of British India. The population of Nigeria, excluding the Mandated Territory, in December, 1937, was estimated at 19,645,692, and of the Mandated Territory, at 831,103.

Physiography.

Topographically speaking, Nigeria consists of the following four main zones or areas:—

(1) An area of swamp and mangrove forest with almost impenetrable undergrowth, running parallel to the coast-line and varying in depth from 20 to 60 miles. This area, which includes the deltaic region of the River Niger, is covered by a network of creeks and traversed by numerous rivers, the most important of which are the Rivers Benin, Forcados (branch of the River Niger), Nun (branch of the River Niger), Sombreiro, Bonny, Imo, Kwa-Ibo, and Cross.

(2) A belt of dense forest with thick undergrowth extending from the western to the eastern boundary and from 50 to 100 miles in width. The southern border of this area is some 20 miles from the coast-line in the west and thence follows the northern limit of the swamp and mangrove area. Its northern edge is difficult to determine exactly, as the belt gradually changes to patches of forest alternating with thick scrub and grass plains running approximately along a line drawn in a general east-south-easterly direction from about 7° 30′ N. on the western border to 6° N. on the extreme east. The country is generally undulating with scattered hills, and an extensive

Digitized by Google

view can seldom be obtained; there are, however, hills rising to over 3,000 feet, and the region becomes mountainous as the Cameroons frontier is approached. The zone is well watered by numerous rivers, which with few exceptions run from north to south, and contains extremely rich oil-palm areas. There are no open spaces, except around villages and clearings for farms.

(3) A zone of comparatively open country gradually developing into park-like land and thence into open expanses covered with high grass as the watershed of the River Benue and that of the Niger (above its confluence with the Benue) are neared. The zone is generally hilly and mountainous on the Cameroons frontier, where heights above 6,000 feet are to be found.

(4) A plateau occupying the greater portion of Nigeria north of the Rivers Niger and Benue. East of longitude 7° the southern limits of this plateau are determined by a zone of hills which succeeds the undulating grass country to the south. The features of the plateau are generally similar, and although many rivers take their rise in this tableland, it is broken to no great extent by their valleys, except in the cases of those of the Rivers Niger and Benue on the south and west. In elevation it does not exceed an altitude of much over 2,000 feet, except in the mountainous parts of Bauchi, where heights of 6,000 feet and more occur, and in the south-west of Yola, which is occupied by a part of the Cameroons mountain system. The surface is generally undulating, marked here and there by hills of granite and sandstone, which rise abruptly from the surrounding land. The country is clothed to a large extent with thin forests which become more and more scanty as the Western Sudan is entered and the arid "steppes" of the Sahara Desert are approached

Climate.

West Africa formerly had the reputation of being so unhealthy that almost certain death would be the fate of the white man who endeavoured to make it his permanent home. And in this general condemnation Nigeria has been included. Though it cannot be claimed, even at the present day, that the country is a healthy one for the European except to a moderate extent on the plateau, the conditions of living have been so greatly improved during recent years that the possibilities of good health during temporary residence have been enormously increased. Medical and sanitary efforts have effected much by anti-malaria precautions, such as the use of quinine, and, around Lagos, the reclamation of considerable areas of swamp lands at great expense to Government. In spite, however, of this undoubted improvement in the conditions of life, Nigeria is not a land which can be colonised in the proper sense of the term by Europeans.

The "dry season," characterised by the "Harmattan," a dry north-easterly wind accompanied by a thick haze composed chiefly of dust, and the "rainy season" are the predominating features in the climate of Nigeria. The former begins in the north in October, extending its influence gradually southward until it is perceptible at Lagos early in November. There it appears intermittently up to the beginning of March, but in the north the dust and haze are more continuous and last until April. During this period the maximum diurnal variations of temperature occur. The wind blows generally from the north-east, and both diurnal variation and humidity vary with the severity of the Harmattan. Even in Lagos, where hourly observations are taken, during December and January the humidity has been known to fall to 28 per cent. This season is ushered in and out by short periods of tornados and the rainy season fills the remainder of the year. A prevailing south-west wind supplies on the coast a copious precipitation which decreases rapidly as it travels inland. At Bonny, on the coast, the rainfall recorded in 1923 was 150·99 inches, rain falling on 151 days; at Kaduna, in the middle of the country, 43.55 inches, rain falling on 112 days; while the lowest recorded was 25·05 inches at Sokoto, rain falling on 44 days.

History.

As far back as the 17th century British traders have had mercantile depôts on the mouths of the Niger and adjacent rivers and creeks, known as the Oil rivers, and in those early times the trade was mainly confined to the traffic in slaves. At this epoch the French attempted a settlement at the mouth of the Niger, but were unsuccessful, and during the 18th century British interests preponderated.

At the beginning of the 19th century the exploration of the upper river, which had hitherto been supposed to be identical with the Nile or Congo, began, and Mungo Park traced its course from Bamako to Bussa, where he lost his life in the rapids. Lander in 1830 demonstrated the identity of Mungo Park's river at Bussa with the lower Niger, and followed its course to the sea.

In the next two decades, 1840-60, efforts were made, both by the British Government and private individuals, including French and German merchants, to develop the trade of the Niger, while our knowledge of the interior was greatly enlarged by the travels of Clapperton and Allen, both British, and of Barth and others, all at British instigation. A consulate was founded at Lokoja, and, at the cost of much money and many lives, some progress seemed to have been made, only to result in failure. The pioneer of these efforts was McGregor Laird, who in 1852 began to establish stations and to endeavour to secure the country for England, but the stations were destroyed by natives, or removed after Laird's death in 1861. The good results of his work were not, however, entirely lost.

The situation in the early seventies was that there were numerous trading firms—English, French, and German—on the Oil rivers, where the export trade in palm oil had begun to assume importance, the imports being chiefly confined to spirits, guns and powder. The expeditions sent by the British Government to the higher river, and the subsidies voted by Parliament, had been withdrawn, and European intercourse with the Niger would have ceased had it not been for the perseverance of a few British firms, who during the four months of high water each sent a trading steamer up the river, and soon established a few primitive stations, where the white population of Nigeria lived. These bold pioneers were at the mercy of powerful chiefs, and gross outrages were from time to time avenged by the despatch of a light draught gunboat.

At the close of 1877, Mr. Goldie-Taubman—afterwards Sir G. Taubman Goldie—visited the Niger and recognised that amalgamation of interests and a settled government must replace the

Digitized by Google

chaotic rivalry of traders. With this object in view he determined to secure a charter for a British Company. After much negotiation the small British interests, which were the only ones existent on the Niger at that date, were amalgamated in the United African Company in 1879, and in 1881 a charter was applied for. The objection was raised that the capital of the Company was too small, and hence the National African Company was formed with a capital of a million sterling, with the object of opening up direct relations with the great chiefs of the interior.

With great energy the new company founded stations, sent out a river flotilla, and pushed up the Niger and Benue, but meanwhile the foresight of Gambetta had prompted the establishment of two French Companies, which, being backed by the French Government, acquired a great influence on the lower Niger. Of these the Compagnie du Senegal had a capital of 600,000*l*., and some thirty French stations were formed, and while the French flag remained the charter could not, of course, be granted. The energy of Sir George Goldie, however, secured the disappearance of the French flag just in time to announce at the Berlin Conference in 1885 that the British flag alone flew on the Niger, and to secure to Great Britain the guardianship of the international navigation rights on the Niger while the French companies and rival British interests which had meantime grown up were absorbed in the National African Company.

In April, 1885, a new danger arose from the mission of Herr Flegel to secure treaties with Sokoto and Gando on behalf of Germany, but he was anticipated by the British Company, who concluded treaties with those powerful emirs. Great Britain was, therefore, able to conclude the Agreement of 1886 with Germany, which settled the frontiers between Nigeria and the Cameroons as far north as Yola, and in July, 1886, the long-delayed charter was granted, and the Company changed its title to that of the Royal Niger Company. Meanwhile, the territories adjacent to the river had been placed under British protection.

The first decade was spent in founding a number of commercial and quasi-administrative stations on the Niger and Benue Rivers, and in making treaties with the native tribes, and consolidating the commercial organisation on which the Company was dependent for its revenue. The expeditions of Monteil to Lake Chad from the west, of Crampnel from the south-east, and of Mizon by way of the Niger and Benue, were checkmated, and finally, in 1890, an agreement was arrived at with France by which the line dividing the French Sudan on the north from Nigeria was drawn with certain deflections from Say, on the Niger, to Barua, on Lake Chad, and in 1893 the Cameroons boundary was extended from Yola to the south of the same lake.

In 1897 the growing hostility of the great Fulah Power culminated in a plan to drive the white men out of the country. The Company were not unprepared, and they took the field with some 500 or 600 soldiers, led by about 30 British officers, against many thousands of the enemy, of whom a large proportion were mounted. Nupe, a dependency of Sokoto, which had thus challenged the Company's existence, was divided by the Niger into two nearly equal portions. The southern portion was first conquered, and then northern Nupe after a two days' fight before the capital at Bida. Ilorin, a smaller dependency, was next subdued. Prior to this southern Nupe had been partially cleared of the Fulah slave raiders, and on the 20th June, 1897, the legal status of slavery in the Niger Territories was declared abolished by the Company.

Simultaneously with this crisis another, which was to have far-reaching effects, arose. The only indeterminate frontier remaining was that to the west. The Company perceiving, in 1894, that French enterprise contemplated the annexation to Senegal and Dahomey of the Borgu country, sent out Captain Lugard (now Lord Lugard) to negotiate treaties with the king or chiefs of that country. Anticipating the powerful French expeditions by only a few days, he succeeded in making treaties at the capital of Nikki, and with other semi-independent chiefs of districts. Disregarding these prior British treaties, a swarm of French expeditions spread over Borgu, and having obtained a pledge from our Government that Sir George Goldie's powerful expedition, then in the field against the Fulani, should not advance north of latitude 9°, they invaded Bussa, with which we had a specific treaty of many years' standing, and established themselves on the Niger at several points.

At the end of 1897, in view of this situation, the British Government decided to raise an Imperial local force, and the task was confided to Colonel Lugard, who left England in March, 1898. After a period of great tension, during which the British and French troops faced each other, and a conflict was daily imminent, a convention was signed laying down a boundary line from the intersection of the 9th parallel with the frontier of Dahomey to Illo on the Niger, and thence to the northern frontier, which was more accurately defined, to Lake Chad, and to its junction with the Cameroons frontier. Meanwhile, the Emir installed at Bida by the Company was ousted, and the Nupes were again in arms, while the army of Rabeh, which had penetrated from the Nile Valley to Lake Chad, conquered and laid waste the territory of Bornu, but eventually returned to the south of Lake Chad.

The Imperial force, called the West African Frontier Force, with a "Commissioner and Commandant" at its head, and independent of the Company, was rapidly being formed, with its headquarters at Jebba, and with numerous detachments holding the posts evacuated by the French throughout Borgu, and a strong garrison at Lokoja.

The Imperial Government having decided that the charter of the Royal Niger Company should be revoked, and that its administrative rights and powers should be transferred to the Crown, steps to this end were taken at the end of 1898, when the convention with the French Government had been signed. The actual transfer of the Company's rights and possessions to the Crown took place on the 1st of January, 1900, when the territories north of a line extending, with deflections, from approximately latitude 9° on the Dahomey frontier to Idah on the River Niger, thence to Takum on the Cameroons border, were formed into the Protectorate of Northern Nigeria under Colonel Lugard as High Commissioner.

During the first years of the protectorate of Northern Nigeria, the Government was engaged in bringing under control the powerful Emirates of the Hausa States and the Kanuri Kingdom of Bornu. These Emirs, who maintained large standing armies, a large proportion of which was mounted, annually took the field and devastated

Digitized by Google

vast tracts of country in slave-raiding expeditions. Despite the treaty with Sokoto, under which the Royal Niger Company paid him an annual subsidy, the Fulani Emirates now defied the Government. The Emirs of Nupe and Kontagora were brought under control in 1901; Yola, Bauchi and Bornu in 1902; and the work of pacification was practically completed in 1903 with the taking of Kano and Sokoto, and the action at Birmi. Since that date the Hausa States have maintained a record of peaceful progress, with the exception of a rising by a so-called "Mahdi" in 1906 at Satiru in the Sokoto Province, which was, however, quickly suppressed with the loyal assistance of the Emir of Sokoto. The minor Emirate of Hadeija in the extreme north, which had not previously been brought under control, assumed an aggressive attitude in 1906 which, however, was suppressed. It was necessary also to send minor expeditions against various unruly and truculent pagan tribes, of which the more important were the Munshis on both banks of the Benue, the Okpotos in the Bassa Province, and various hill-tribes in the Bauchi and Nassarawa Provinces.

In addition to the pacification of these vast areas—hitherto largely unexplored—the early years of the Protectorate were devoted to creating a Civil Government in all its departments, and to the housing of the civil and military officials, and the erection of public offices; the building of the first light railway from Barijuko (on the navigable Kaduna) to Zungeru (22 miles), to which place the seat of Government was transferred in 1902 from the temporary capital at Jebba; and the opening up of communications both by land and by the navigable waterways of the Niger, Benue, Kaduna and Gongola Rivers. In 1907 the construction of the main trunk line from the navigable Niger at Baro to Kano (356 miles), the great market of the Hausa States, was commenced and completed, as a pioneer line, in 1912. During the 14 years from the inception of the Government of Northern Nigeria on 1st January, 1900, to its amalgamation with Southern Nigeria on 1st January, 1914, there were constructed in the Protectorate 700 miles of railways and 5,500 wire miles of telegraphs, while the Marine Department worked 1,000 miles of river.

In the political and administrative sphere a complete Civil Service was created, which increased from half a dozen officers in 1900 to an establishment of 132 residents and assistants in 1913. The guiding principle of the Administration was indirect rule through the native chiefs, the powers delegated to whom varied with their degree of enlightenment. A form of direct taxation was evolved, based on the elaborate system which obtained in the Hausa States prior to the British occupation, but shorn of its abuses. The collection of these taxes was made through the chiefs, a fixed proportion of them being retained in "Native Treasuries," from which the salaries of the native officials were paid.

As an indication of the progress achieved, the Durbar held at Kano on 1st January, 1913, may be instanced, when practically all the chiefs of the Protectorate—from the great Mohammedan Emirs to the petty chiefs of pagan hill tribes—assembled with such retinues as they were allowed to bring, estimated at 20,000 horsemen and 40,000 foot.

THE OIL RIVERS PROTECTORATE.—When, in 1885, the British Government at the conference of the European Powers, held at Berlin, was able to obtain acknowledgment of the fact that a British protectorate had been virtually established over the Niger districts, an Order-in-Council defining them was made, and the portion lying on the coast line was designated the Oil Rivers Protectorate, and placed under Consular rule.

In 1891 the rule of the Consul over the Oil Rivers Protectorate was exchanged for that of a Commissioner and Consul-General, stationed at Old Calabar (now Calabar), while Deputy Commissioners and Vice-Consuls were appointed to the Rivers Benin, Bonny, Brass and Forcados, and to the districts of Sapele and Warri.

By an Order-in-Council of 1893 the Oil Rivers Protectorate was extended definitely into the hinterland under the name of the Niger Coast Protectorate, and an administration established under an Imperial Commissioner and Consul-General.

BENIN.—In 1892 Captain Gallwey (now Sir H. L. Galway) concluded a treaty with the king of Benin. As time passed, however, it became evident that this potentate had no intention of adhering to its provisions.

At this period Benin held enormous power over the surrounding territory, and it was said that her influence extended even so far as Sierra Leone on one side and the Congo River on the other. The terrible nature of the fetish rites and the wholesale human sacrifices which took place in Benin City, urgently demanded European intervention and the introduction of civilised rule.

Early in 1897 a peaceful mission, organised by the Acting Consul-General to establish friendly relations with Overami, the king of Benin, and to induce him to carry out the terms of the treaty of 1892, was treacherously attacked, and with the exception of two, all the European members of the party were massacred. A powerful expedition was sent against Benin, and in a short time the capital had been captured, but the king made good his escape. The state in which Benin City was found passes all description. In every direction human remains, pits filled with bodies in various stages of decomposition, and altars dripping with fresh human blood were to be seen.

Overami eventually surrendered and was sent into exile at Calabar, where he died in the early part of 1914. In 1899 there was a second expedition into the Benin country, which resulted in the capture and execution of Ologboshere, the leader of the attack on the mission.

THE PROTECTORATE OF SOUTHERN NIGERIA, 1900–1906.—When in 1900 the charter of the Royal Niger Company was revoked by the Crown that portion of its territories lying between Idah and the coast was added to the Niger Coast Protectorate. At the same time by an Order-in-Council the Niger Coast Protectorate was constituted the Protectorate of Southern Nigeria, the administration being transferred from the Foreign Office to the Colonial Office, and placed under Sir R. Moor as High Commissioner. In 1901 the Niger Coast Protectorate troops were organised into a regiment of the West African Frontier Force, and remodelled on the lines of the original corps of that name raised in the Niger Company's territories by Colonel F. D. Lugard in 1898.

Towards the close of 1901 preparations for the Aro Expedition were commenced. These operations were directed against the southern Ibo people in general and the Aro, or Inokun tribe in particular. The Aros, who may be described as the dominant section of the great Ibo family, held paramount power over a large extent of

Digitized by Google

country lying between the Niger and Cross Rivers. They had established a powerful fetish, probably derived from Benin, known as the Long Juju which exercised an extremely evil influence on the ignorant and superstitious natives for miles around. After five months of arduous work, the Field Force accomplished the subjugation and disarmament of the Aro tribe, the destruction of the Long Juju and the bringing under Government control of that portion of the territories as far north as about the 5th parallel.

Between 1905 and 1909 several expeditions were sent into the hinterland with the object of opening to trade and civilisation previously unexplored tracts of country. The principal operations were the Bende-Onitsha Hinterland Expedition, 1905-06, and the Niger-Cross River Expedition, 1908-09. As the troops progressed through the country new administrative districts and stations were formed, broad roads constructed in all directions, and many new markets established.

The eastern frontier from the Cross River rapids to the sea was surveyed by an Anglo-German Commission in 1905-06; and from Cross River rapids to Yola in 1907-09. For some years before these delimitations, there were frequent raids across the border by German native soldiery from the Cameroons, which were invariably accompanied by robbery with violence and seizure; and even after the boundary line had been demarcated this violation of British territory did not cease.

Lagos or Eko.—During the reign of Kosoko, Lagos, or Eko as it is known to the natives, became the chief centre of the slave trade in the Bight of Benin. Akitoye, his cousin, from whom the throne had been usurped, issued a proclamation to the effect that he would make common cause with the British against slavery if he were reinstated. Acting on this statement, the British Government took decisive measures, and in 1851 a party of bluejackets from Her Majesty's warships attacked and reduced the town. Kosoko fled and Akitoye was restored to power. In 1852 Akitoye and his chiefs signed a treaty by the terms of which they agreed to abolish the export of slaves, and to encourage the work of missionaries and the establishment of stations for them. A Consul was appointed to Lagos for the protection of British interests.

About nine months after the signature of this treaty some Portugese slave traders, who had been expelled, returned to Lagos and renewed their old practices. Akitoye was informed of what was going on, and their attempts were promptly suppressed. In consequence of this, the slave trade party, under the leadership of Kosoko, organised a rebellion which broke out in 1853. Indecisive encounters took place between the two factions, and bluejackets were landed to protect the Consulate. Attempts which were made by the Consul and officers to mediate failed, and finally marines were sent to assist Akitoye, when, after a short fight, Kosoko was defeated and fled. Dosumu, who succeeded his father Akitoye, was unable to adhere to the terms of the treaty, and was induced in 1861 to cede the sovereignty of Lagos and dependent territories to the Crown in consideration of a pension, which he continued to draw until his death in 1885.

The Colony of Lagos.—In 1862 these territories were erected into a Colony, and the following year Kosoko, who in 1854 had been acknowledged king of Lekki and Palma, districts lying to the eastward, ceded these places to the Lagos Government. At the same time Protectorate rights were established over Ado and Oke-Odan on the west. In 1866 the Colony became a portion of the West African Settlements, retaining a separate Legislative Council, but being subject to the Governor-in-Chief at Sierra Leone. In 1874 the Colony, which extended from Badagri on the west to Odi on the east with an indefinite inland boundary, was united to the Gold Coast Colony.

In 1883 Appa, lying on the western border of the Colony, was the next district to be brought under British jurisdiction. In 1884, the British Consul concluded a treaty with the Jekris by which their country as far as Mollume was placed under British protection, and similar treaties were made with the chiefs of Ogbo and Mahin, small tribal areas situated in the creek region to the eastward. In 1886 the Lagos territories were separated from the Gold Coast and erected into a separate Colony and Protectorate. Between the years 1886 and 1895 Mahin, Ijebu-Ro, Itebu, and Aiyesan to the east, and Kotonu, Igbessa, Ado and Ilaro to the west were proclaimed part of the Protectorate. An expedition was sent against the Ijebus in 1892, which resulted in the military occupation of their country, and in the opening of a most important trade route to the interior.

From this time onward British influence gradually spread inland towards the Niger, and in 1899 the Protectorate was extended to the confines of Northern Nigeria and to the border of the Niger Coast Protectorate. The country generally prospered, and Lagos became a great trading port with many large mercantile firms, both European and native, established. Great trade routes were opened into the interior, and a railway was constructed from Lagos to Ibadan, passing through a thickly populated and fertile agricultural country.

The Colony and Protectorate of Southern Nigeria, 1906-1913.—In 1906 the Colony of Lagos and its protected territory were amalgamated with the Protectorate of Southern Nigeria under one administration and designated the Colony and Protectorate of Southern Nigeria. For administrative purposes the country was partitioned into three main divisions—the Western Province, which coincided with the former Colony and Protectorate of Lagos; and the Central and Eastern Provinces, which previously formed the Protectorate of Southern Nigeria.

The next few years were spent in building up an extensive system of communications. The railway from Lagos to Ibadan was extended over the Northern Nigeria border to Jebba; thence across the Niger to Zungeru; and finally linked up with the railway in operation from Baro on the Niger to Kano, the great Mohammedan trade centre of the north. A light railway was built joining the main line at Zaria with the tin fields of Bauchi. Broad main roads were driven in all directions and telegraph lines constructed between important administrative and trade centres.

In 1901 the great undertaking of making Lagos an open port by the construction of huge moles and by the dredging of the sandbar, which obstructed the entrance to the harbour, was commenced; and by the end of 1913 sufficient progress had been made to permit of large ocean-going steamers entering the harbour and berthing alongside the wharves. For several years vessels drawing 25 feet of water have been able to use the harbour.

Large areas in the north-eastern portion of the Protectorate, notably the country inhabited by the

Digitized by Google

warlike and hitherto intractable Munshi people, were brought under Government supervision.

THE AMALGAMATION OF NORTHERN AND SOUTHERN NIGERIA, 1914:—By Letters Patent of 29th November, 1913, and an Order-in-Council dated the 22nd of November, 1913, which Instruments came into operation on the 1st January, 1914, the Colony and Protectorate of Southern Nigeria and the Protectorate of Northern Nigeria were formed into the Colony and Protectorate of Nigeria. By another Order of the same date the boundaries of the Colony of Nigeria were defined, and by a third Order, which applied to the Colony and to the Protectorate, an advisory and deliberative body known as the Nigerian Council was established.

Provision was made for an Executive Council and for a Legislative Council for the Colony. The legislative power for the Protectorate was vested in the Governor. The Colony was placed under an Administrator, and the Protectorate, divided into two groups of provinces—Northern and Southern—under two Lieutenant-Governors.

Since the amalgamation, the chief events in the history of Nigeria have been the Great War, which resulted in the conquest of the Cameroons; the building of the Eastern Railway, and the development of the ports of Lagos and Port Harcourt, and of the Government Colliery at Enugu; the institution in 1923 of an enlarged and partly elected Legislative Council for the Colony and the Southern Provinces of the Protectorate (*see under* Constitution); two great trade booms and the depressions which succeeded them; the visit of the Prince of Wales in 1925, the introduction of direct taxation in the Southern Provinces and the establishment of air communication with Europe and the Gold Coast.

Political and Administrative Divisions.

Nigeria is arranged in three main divisions, the "Colony" and two groups of provinces designated the "Northern Provinces" and the "Southern Provinces." The Colony comprises the former Colony of Southern Nigeria, while the two groups of provinces are formed from the late Protectorates of Northern and Southern Nigeria.

The Northern Provinces are Adamawa, Bauchi, Benue, Bornu, Ilorin, Kabba, Kano, Katsina, Niger, Plateau, Sokoto, and Zaria.

The Southern Provinces are Abeokuta, Benin, Calabar, Cameroons, Ijebu, Oyo, Ogoja, Ondo, Onitsha, Owerri, and Warri.

The Provinces are each partitioned into divisions.

The seat of Government is established at Lagos. The Administrative Head-quarters of the Colony is at Lagos, while those of the Northern and Southern Provinces are at Kaduna and Enugu, respectively.

THE CAMEROONS:—The conquest of the Cameroons was completed in February, 1916, after a series of operations which commenced in August, 1914.

An Anglo-French military and naval force under the command of Brigadier-General C. Dobell, (afterwards Major-General Sir C. Dobell), the Inspector General of the West African Frontier Force, compelled Duala to surrender on 27th September, 1914, and after hard fighting drove the German forces from the surrounding districts.

On the 10th June, 1915, Garua, on the River Benue, fell after a siege of a few weeks by forces from Nigeria and the French Chad Territory under the command of Brigadier-General Cunliffe, the Commandant of the Nigeria Regiment, W.A.F.F.; having cleared the north of the Cameroons, except Mora, these forces marched southwards driving the Germans before them to the Sanaga River.

French forces, with a Belgian contingent from the Congo, invaded the Cameroons from French Equatorial Africa under the command of General Aymerich and gradually pushed forward from the south-east and south towards Yaunde, which had become the headquarters of the German forces. Finally the main German forces, being almost surrounded by the converging advance of the Allied troops, retreated southwards into the Spanish territory of Muni, where they were interned, and the isolated garrison of Mora in the north then surrendered.

By an arrangement which came into effect on 1st April, 1916, the Cameroons was provisionally divided into British and French spheres. The British sphere (about 31,150 square miles in extent) consisted of two portions. The smaller, in the extreme north was intended to include the whole of the Sultanate of Dikwa or German Bornu. The larger consisted of a strip of country bordering on Nigeria, about 400 miles in length and with a maximum width of 80 miles, extending from about 30 miles south of Yola to the Cameroon estuary. It included Buea, the German administrative capital of the Cameroons, and the ports of Victoria, Tiko, and Rio del Rey, and consisted of nearly the whole of the Victoria District, the Kumba (or Johann Albrechtshöhe) District, the Ossidinge District, part of the Chang District, the Bamenda District, and parts of the Banyo and Garua Districts.

The estimated population of the British sphere was about 650,000.

The rest of the Cameroons, about 275,000 square miles, with Duala and Kribi, the chief ports, was assigned to France. Boundary adjustments with the French took place in 1920 in accordance with an agreement signed by Lord Milner and M. Simon on 10th July, 1919. The principal features of these were the transfer to the British of the country west of the Mandara Mountains from the Dikwa Sultanate in the north to the River Tiel in the south, and the transfer of nearly all the Chang District to the French.

The British sphere was placed under the control of the Governor of Nigeria, and the parts of the sphere to the north of the Bamenda District were administered by the staffs of the adjoining Nigerian Provinces of Bornu and Yola. The Bamenda, Ossidinge, Kumba and Victoria Districts were administered as a separate Cameroons Province with four Divisions (Bamenda, Mamfe, Victoria, Kumba) under a Resident stationed at Buea, responsible to the Governor of Nigeria through the Lieutenant-Governor of the Southern Provinces. The large German cocoa, rubber and banana plantations in the Victoria District, with about 48,000 acres under cultivation, were placed in the charge of a Plantation Department, in order that they might be kept in good order as far as possible until their mode of disposal was settled. They were sold by auction in November, 1924.

By the Treaty of Versailles, Germany renounced in favour of the Principal Allied and Associated Powers all her rights over the Cameroons.

In December, 1920, the British and French Governments submitted to the Council of the League of Nations draft mandates for the British and French spheres with a joint recommendation (dated 17th December, 1920) for the division of

Digitized by Google

the Cameroons in accordance with the Milner-Simon agreement of 10th July, 1919. In October, 1921, the Council of the League approved in principle the division of the country in accordance with that agreement and the application of the mandate system to those territories, and on 20th July, 1922, after a delay due to negotiations between the United States Government and the Mandatory Powers, the Council confirmed the mandates and defined their terms.*

By an Order in Council, dated 1923 and brought into force in February, 1924, and by Nigerian Ordinance No. 3 of 1924, provision was made for the future government of the British Sphere as if it were part of the Protectorate of Nigeria. Under these enactments, the Cameroons Province is administered and legislated for as if it formed one of the Southern Provinces of the Protectorate, while the northern parts are administered and legislated for as if they formed parts of the Northern Provinces of Bornu and Yola; and most of the laws of Nigeria are applied to the British Sphere, subject to the terms of the mandate as regards the few provisions thereof which are not in accordance with ordinary Nigerian law and practice.

Commerce, Industry and Customs.

The progress of Nigeria may be illustrated by the fact that in 1904 the total value of imports and exports (excluding specie) was a little over 5 millions sterling, as compared with over 12 millions in 1914, over 27 millions in 1930 and over 35 millions in 1937.

Imports consist chiefly of the following goods, which are arranged alphabetically, and not in order of value:—Aërated waters, bags and sacks, beads, beef, bicycles, biscuits, chemicals and drugs, cigars and cigarettes, kola-nuts, cooper's stores, cotton and woollen goods, cutlery, earthenware, enamelware, firearms, fish, flour, furniture, galvanized iron, gunpowder, haberdashery, hardware, kerosene, matches, motor vehicles, perfumery, rice, rope and twine, salt, silk goods, soap, spirits, stationery, sugar, timber, tobacco, umbrellas, wearing apparel, wines, and a great number of miscellaneous articles. Cotton-piece goods form the principal class in the import table, 3,045,144*l.* worth being received in 1930, and 4,851,041*l.* in 1937.

The principal exports are palm kernels, palm oil, tin, gold, coal, hides and skins, ground-nuts, cotton lint, cocoa, mahogany and other timbers, rubber, shea produce and benniseed, while bananas, fresh and dried, are exported from the Cameroons.

The influence of railway extensions in the Northern Provinces is shown by the largely increased exports of ground-nuts, hides and skins, and shea produce. In 1911, the year before the railway to Kano was opened, the total value of these three products shipped overseas was 89,000*l.* only, as compared with 3,130,207*l.* for these products in 1930 and 4,917,752*l.* in 1937. There is also a large increase in cotton goods carried to Kano.

Deposits of lignite and coal have been discovered near Asaba and Udi in the Southern Provinces. A colliery was opened by Government in 1915 at Enugu, the coal won being used by Government Departments or sold to the public. The output for 1930 was 364,844 tons, and 348,214 tons in 1937.

Amongst minor products exported from the Colony and Protectorate may be mentioned ebony, copra, gums, piassava fibre, ginger, native cloth, cotton seed and living animals and birds.

* For text of the British mandate see Cmd. 1794.

Crops cultivated for home consumption include maize, yams, cassava, sweet potatoes, sugar cane, guinea corn, ground-nuts, rice, millet, tobacco, plantains and bananas, beans of various kinds, etc. Wheat is grown to a small extent in some parts of the Northern Provinces.

Large herds of cattle, sheep, and goats are raised in the Northern Provinces, and in the extreme north, ostriches and camels are bred. Horses and donkeys are bred and are in common use in the northern part of the Protectorate.

The ports served by ocean steamers are, from west to east, Lagos, Forcados and Burutu, Warri, Sapele, Koko Town, Akassa, Bonny, Port Harcourt, Degema, Opobo, Calabar, and Victoria, and Tiko, Cameroons.

Import and export merchants are established at the ports, and also up-country along the main waterways, the Niger, Benue, and Cross Rivers, and at inland railway stations.

The Customs Tariff of Nigeria is mainly specific in character. In 1932 the percentage of the proceeds of specific duties to the total import duties was 72, in 1937 the percentage was 90, the increase being due to the transfer of woven goods from an *ad valorem* to a specific basis.

Ad valorem duties are imposed on various miscellaneous articles, the rates being 10% or 6¼% assessable on the price which they would fetch on a sale in the open market at the time of importation.

Only articles especially scheduled are dutiable.

No Imperial Preference is in operation, existing treaties precluding that possibility.

The tariff imposes export duties on cocoa at 23*s.* 4*d.* per ton, on palm kernels at 10*s.* 6*d.* per ton, on palm oil at 11*s.* 6*d.* per ton, on tin at 3*s.* 4*d.* per ton, on fresh bananas at 1½*d.* per count bunch and on dried bananas at 2*d.* per 10 lbs.

Royalties on tin and other metals are chargeable under the Minerals Ordinance.

From the 1st January, 1934, statistics of imports were recorded as from country of origin as opposed to country of consignment in previous years. The following statement shows the percentage of Trade imported into or exported from Nigeria from the undermentioned countries during the year 1936:—

Country.	Import Trade 1937.	Export Trade 1937.	Aggregate Trade 1937.
United Kingdom ..	64·14	44·32	53·97
British West Africa ..	·17	1·77	1·
Other Parts of British Empire	5·53	1·11	3·26

The Nigerian Tin Fields.

The principal tin fields are situated on the western boundary of the Bauchi Province and in the Provinces of Nassarawa, Zaria, and Kano adjoining that boundary. Tin is also known to exist in the Provinces of Ilorin, Calabar, and Yola, but as yet has not been found in payable quantities.

The tin is in the form of cassiterite, and is mostly found in the detrital deposits resultant on the vast denudation that has taken place all over the known field; it is therefore more readily discovered in the existing river-beds; and shows a tendency to increase in size and richness of deposit nearer their sources.

The pagan town of Bukuru may be taken roughly as the centre of the field (about 6,000 feet above sea level), from which three great waterways of the Northern Provinces take their origin. Flowing westwards we have the N'gel River becoming the Kwall Danchandon, and eventually the Kaduna, flowing north-east the Delimi River that goes to Lake Chad, and flowing east the numerous tributaries of the Gongola which joins the Benue, such as the Shen, Forum, Ropp and Jarawa Rivers.

Tin ore has been worked and smelted by the natives during the last hundred years, the Seriki (Chief) of Liruein-Delma being a grandson of the native who historically first discovered and worked it. There is, however, strong evidence to show that some former race knew of its existence. Beads may be seen that have been found in the deep detrital deposits that could only have been made by man. These beads bear no resemblance to the modern ornaments made by tin workers, nor are such beads worn by any existing race of natives near the fields, also the depth at which they have been found precludes a modern origin.

The ore won by the existing mines amounted in 1913 to 5,530 tons. The exports were 8,475 tons in 1923, and 13,070 tons valued at 2,209,545*l.* in 1928, 10,794 tons valued at 906,185*l.* in 1931, and 15,035 tons valued at 2,628,175*l.* in 1937.

Banking, Currency, Weights and Measures.

Banking facilities are afforded by the Bank of British West Africa Ltd., and Barclays Bank (Dominion, Colonial and Overseas). The former is established at Lagos (local head office, Marina, and branch office, 196, Broad Street), Abeokuta, Calabar, Enugu, Ibadan, Jos, Kaduna, Maidugari, Kano, Onitsha, Oshogbo, Port Harcourt, Sapele, Warri, Minna and Zaria. Barclays Bank (Dominion, Colonial and Overseas) is established at Lagos, Burutu, Ebute, Metta, Ibadan, Ijebu-Ode, Jos, Kano, Port Harcourt, Zaria and Victoria (British Cameroons).

The coins current in Nigeria are:—*U.K.* silver and bronze coins; *West African* silver coins value 2*s.*, 1*s.*, 6*d.* and 3*d.*, and *West Africa* alloy coins of the same denomination; *West African* nickel-bronze coins value 1*d.*, ½*d.* and 1/10*d.* (tenthpence).

All coins, which under the Coinage Acts, 1870 and 1891, are legal tender in the United Kingdom, and all subsidiary coins coined in pursuance of the provisions of His Majesty's Order-in-Council dated 28th July, 1906, as amended by Orders-in-Council dated respectively 9th September, 1907, 19th October, 1908, 2nd August, 1910, and 7th, May, 1913, are current in all parts of Nigeria. The United Kingdom coins, however, are being superseded by the West African coins. Gold and silver coins of the United Kingdom and West African silver coins are legal tender to any amount; United Kingdom bronze coins and West African nickel-bronze coins are legal tender to the extent of one shilling.

The West African silver coins, authorised by the Nigerian Coinage Order, 1913, were introduced in May, 1913. Owing to the rapid disappearance of silver coins other West African coins of alloyed metal of the same denominations, and of the same standard weights, but of a low intrinsic value, were introduced in pursuance of the provisions of His Majesty's Order-in-Council dated 9th February, 1920, and the silver coins are being withdrawn. This alloy coinage has been in circulation since 31st July, 1920. The West African nickel-bronze coins were introduced in 1907, 1908 and 1911. Currency notes were introduced in 1916 under the Currency Note Ordinance of that year. Notes of the values of 20*s.* and 10*s.* are now in circulation.

The weights and measures in common use are the same as those in Great Britain.

Chief Towns and Means of Communication.

The principal towns in the Protectorate are:—*Northern Provinces:* Bida, Ilorin, Jos, Kaduna, Kano, Katsina, Lokoja, Maidugari, Sokoto, Yola, and Zaria; while those of the *Southern Provinces* are:—Aba, Abeokuta, Benin City, Calabar, Enugu, Forcados, Ibadan, Ijebu-Ode, Onitsha, Opobo, Oshogbo, Oyo, Port Harcourt, Sapele and Warri. In the Colony is Lagos, the capital of Nigeria.

Steamships maintain a regular service between Nigeria, Europe, other West African Colonies, etc., and there is cable communication with West and South West African ports, Europe and South Africa, and thus with all parts of the civilised world.

(*a*) *Railways.*

The Nigerian Railway, which is a Government system, comprises two main lines and several branches. The gauge of the track is 3ft. 6ins. It has a total length, including branches, of 1,900 miles. Its equipment comprises 242 locomotives; 330 passenger train vehicles, including restaurant cars, and 3,524 freight train vehicles, including brake vans.

The north western main line of the railway runs from Lagos to N'guru, a distance of 848 miles. It passes through the important towns of Abeokuta, Ibadan, Ilorin, Jebba (where the line crosses the River Niger), Zungeru, Minna, Kaduna (the headquarters of the Northern Provinces), Zaria and Kano. Lagos is the terminal port; at Apapa, on the mainland side of Lagos harbour, there is a rail-served quay together with transit sheds. The terminus for local traffic is at Iddo, which is connected with the mainland and with Lagos Island by the Carter Bridge.

The principal export commodities carried on this section are ground-nuts and cotton from the northern provinces, cocoa and oil palm products from south of Jebba; general imports and kola nuts form the principal items of north-bound traffic.

The eastern main line runs from Port Harcourt deepwater quay on the Bonny River northwards, meeting the north-western main line at Kaduna Junction, a distance of 566 miles from Port Harcourt. It passes through a densely populated oil palm area en route to Enugu (the headquarters of the Southern Provinces) where it serves the Government Coal Mines. The line crosses the Benue River at Makurdi and passes through Kafanchan Junction to join the north western line at Kaduna. From Kafanchan, a connecting line runs to Jos, an important centre

Digitized by Google

in connection with the mining industry. The tin mines are worked by private companies, and the tin is exported *via* Port Harcourt as is coal.

There are four branch lines: Ifo Junction to Idogo (27 miles); Minna to Baro, on the Niger River (111 miles); Zaria to Kaura Namoda (137 miles) and Zaria to Jos (133 miles of 2ft. 6in. gauge track).

The Railway operates road feeder services in the north, the equipment comprising 29 lorries and 28 trailers.

(*b*) *Telegraphs.*

A system of inland telegraphs, also owned and operated by Government, connects the majority of the principal towns on the coast and in the interior, and the African Direct Telegraph Company controls a wireless station at Lagos.

(*c*) *Roads.*

The Government has constructed a very large number of roads, many of which are suitable for motor traffic, between the headquarter stations of the Provinces, and there are, in addition, many minor roads. The Rivers Niger and Benue are in themselves great natural highways, and in the south there are numerous other navigable waterways, which provide means of communication and transport.

(*d*) *Ports.*

The two principal ports are Lagos and Port Harcourt. That of Lagos comprises Lagos Island and the mainland side of the harbour connected by the Carter Bridge. There is no rail connection to Lagos Island, on which side of the harbour is a deep-water wharf and transit sheds for imports and numerous private jetties. The railway maintains a depôt at the import wharf, connection with the mainland railway station being effected by road motor lorry. On the mainland side of the harbour, there is a modern deep-water quay at Apapa with rail and road connections, transit sheds and electric level-luffing cranes; also a wharf at which bulk-oil ships discharge to tanks ashore. The Apapa Quay is capable of very considerable extension as trade may require.

Port Harcourt lies some 60 miles up the Bonny River and comprises a deep-water quay and transit sheds capable of further extension, with rail and road connections. Port Harcourt is the port of export for Nigerian coal which is shipped by belt conveyor or tip, or across the quay.

The two principal inland river ports are Burutu on the Niger and Warri on the Warri River. Both are served from the ocean *via* Forcados. There is also a river port at Baro some 280 miles up the Niger, and one at Makurdi on the Benue.

Other coastal ports are Calabar and Victoria (Cameroons Mandated Territory).

(*e*) *Aviation.*

A main air-line for passengers and mails runs from Khartoum across the desert to Nigeria. There are six well-constructed Nigerian aerodromes at Maiduguri, Kano, Kaduna, Minna, Oshogbo and Lagos (Apapa). Wireless is installed at all aerodromes except Minna. There are direction-finders at Kano and Lagos (Apapa). A meteorological service broadcasts a daily weather report. The mail service extends to Accra and Takoradi in the Gold Coast. It is weekly in both directions, connecting at Khartoum with the London–South Africa mail service.

Religion and Education.

The bulk of the population of the Northern Provinces is Muhammadan, the majority of the remainder being pagan. In the Southern Provinces however, the proportions are reversed: Muhammadan communities occur, especially in the western districts. Missionary societies of various Christian denominations have established many stations with churches and schools throughout the country.

Education in Nigeria is under the control of a Director in Lagos and two Assistant Directors, at Kaduna and Enugu, the headquarters of the Northern and Southern Provinces respectively.

Although there is now one Department of Education for the whole of Nigeria, the unification of the two systems can only be gradual and modifications in curriculum, etc., are necessitated in the Northern Provinces by local conditions.

In the Southern Provinces education work is for the most part carried on by Missionary Societies. There are 36 Government schools, 339 assisted Mission schools in receipt of an annual grant-in-aid and 3,086 un-assisted schools (mostly Mission). All schools are controlled by the Department. The above figures include a number of Middle (Secondary) schools and classes and 37 girls' schools. There are 250,473 children in the Elementary Classes, and 4,012 in the Middle Classes of the above schools, most of the latter leaving after reaching the equivalent of Standard 6.

There are also Mission Training Colleges for Teachers, Government Elementary Training Centres, where teachers for Elementary schools are trained, and a Higher College for the vocational training of selected students from the Middle schools.

A new Education Code was introduced in 1926 and revised in 1931. There is a Board of Education on which the interests of Missionary Societies are largely represented.

In the Northern Provinces there are 191 Government Elementary and Middle schools, all of which are maintained by the Native Administrations. No school yet covers the full Middle course. There are also 3 Elementary Training Centres for Teachers and a Higher College. A beginning has been made in girls' education at four centres.

Mission schools total 344 (mostly elementary, in Pagan areas), of whom 22 are assisted, and 39,500 Native Muslim schools where only the Koran is read.

There are approximately 23,125 pupils in Elementary Classes, 1,279 in Middle Classes, and 210,285 in the Native Koran schools.

A separate advisory Board of Education functions in the Northern Provinces.

The total Government expenditure in 1937-38 was £274,065, of which £135,540 was paid in grants to Missions. In addition, the Native Administrations contributed £11,240 in the Southern Provinces and £48,200 in the Northern Provinces.

Constitution.

The territorial divisions of Nigeria are the "Colony of Nigeria," the "Northern Provinces" and the "Southern Provinces." The Northern Provinces and the Southern Provinces together form the Protectorate.

The Government of the Colony of Nigeria is provided for by Letters Patent of 9th December, 1922 (as amended by Letters Patent of 21st October,

Digitized by Google

1935), and Royal Instructions to the Governor of the Colony of the same date, as amended by Royal Instructions, dated 17th February, 1928, 11th August, 1933, and 21st October, 1935. The Government of the Protectorate is provided for by the Nigeria Protectorate Order in Council, 1922, of 21st November, 1922 (as amended by the Nigeria Protectorate Order in Council, 1935), and Royal Instructions to the Governor of the Protectorate of 9th December, 1922, 17th February, 1928, and 21st October, 1935.

The Nigeria (Legislative Council) Order in Council, 1922, dated 21st November, 1922, as amended by the Nigeria (Legislative Council) Order in Council, 1928, dated 16th May, 1928, provides for a Legislative Council for the Colony and the Southern Provinces of the Protectorate, and this Council is also given control over Protectorate Government expenditure in the Northern Provinces. The Legislative Council consists of:—

The Governor, as President.

The Official Members, viz:

The Members of the Executive Council.

The Director of Marine.

The Comptroller of Customs.

The ten senior officers for the time being lawfully discharging the functions of Senior Resident or Resident in Nigeria.

The Deputy Chief Secretary to Government.

The Secretary, Northern Provinces.

The Secretary, Southern Provinces.

The General Manager of the Railway.

The Director of Public Works.

The Director of Agriculture.

Not more than three Nominated Official Members.

The Unofficial Members, viz:

The Elected Members.

Three members elected by persons resident within the Municipal Area of Lagos.

One member elected by persons resident within the Municipal Area of Calabar.

The Nominated Unofficial Members, not exceeding 15 in number, including:

One member nominated by the Lagos Chamber of Commerce.

One member nominated by the Calabar Chamber of Commerce.

One member nominated by the Port Harcourt Chamber of Commerce.

One member nominated by the Kano Chamber of Commerce.

One member nominated by the local Chamber of Mines.

One member to represent Banking interests in Nigeria.

One member to represent Shipping interests in Nigeria.

The qualifications for registration as an elector in Lagos or Calabar are that the elector must be a male person who:—(1) is a British subject, or a native of the Protectorate of Nigeria; (2), is of the age of twenty-one years or upwards; (3), has been ordinarily resident for the twelve months immediately preceding the date of registration in the municipal area for which the election is being held; and (4), was during the calendar year immediately preceding in possession of a gross annual income, from all sources, of not less than one hundred pounds.

The Nigerian Council, created in 1914, was abolished in 1923.

Native Rulers.

The chief native rulers are given below with figures of the area and population under their jurisdiction.

Northern Provinces.

	Area in Sq. Miles.	Population.
Sultan of Sokoto ..	25,608	1,435,434
Shehu of Bornu ..	32,995	671,056
Emir of Kano	12,217	2,230,390
Emir of Katsina ..	8,490	940,296
Emir of Zaria	13,455	387,363
Emir of Gwandu ..	5,510	296,509
Emir of Bauchi ..	12,142	336,255
Lamido of Adamawa ..	18,563	446,132
Emir of Bida	4,867	167,505
Emir of Kontagora ..	9,157	76,063
Emir of Ilorin	4,089	359,760
Emir of Dikwa ..	5,149	201,058
Emir of Argungu ..	3,356	125,905

Southern Provinces.

	Area in Sq. Miles.	Population.
The Alafin of Oyo ..	8,300	336,000
The Oni of Ife.. ..	708	47,754
The Alake of Abeokuta	2,109	389,460
The Awujale of Ijebu..	2,148	236,337
The Oba of Benin ..	4,000	111,180

Superintendent, Pharmacy Schools, E. Arthur, 475*l.*, 475*l.*, 500*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*

Lady Medical Officers, Miss B. E. Ebden, Miss L. J. Ogle, 660*l.*, 660*l.* by 30*l.* to 840*l.* by 40*l.* to 1,000*l.*

Medical Officers, S. L. A. Manuwa, R. G. A. Savage, L. E. R. Henshaw, D. O. Peters, J. T. Femi-Pearse, R. O. T. Cole, H. A. A. Doherty, K. Sagoe, A. O. Majekodunmi, S. E. Onwu, T. A. Kester, S. O. Awoliyi, V. F. Ogunro, S. H. A. Pearse, 500*l.* by 25*l.* to 600*l.* and 600*l.* by 30*l.* to 720*l.*

Junior Medical Officers, L. O. Adesigbin, A. O. Coker, M. O. Alakija, E. A. Akerele, 200*l.*

Government Dentists, C. N. Pearson, C. D. Cunningham, 660*l.* by 30*l.* to 720*l.* by 40*l.* to 960*l.*, and seniority allowance of 72*l.* at 720*l.*

Nursing Staff.

Senior Nursing Sisters, M. Macdonald, A. E. Blakemore, D. J. Taylor, M. A. L. Gummow, E. Patchell, G. M. Spencer, M. A. Henry, 500*l.* by 20*l.* to 600*l.*, duty 40*l.*

Medical Laboratory Service.

Senior Pathologist, E. C. Smith, 1,150*l.*

Pathologists, J. A. Young, M.C., G. W. St. Clair Ramsay, B. G. T. Elmes, W. E. S. Merrett, W. G. Davidson, M.B., Ch.B., 660*l.*, 660*l.*, 660*l.*, 690*l.* by 30*l.* to 840*l.* by 40*l.* to 1,000*l.*

Technical Assistants, Grade I, E. F. Hines, F. W. Randoll, R. Bowrey, 500*l.* by 12*l.* to 560*l.*

Medical Health Service.

Deputy Director of Health Service, G. B. Walker, 1,700*l.*

Senior Health Officers, J. Cauchi, G. R. Waller, E. J. Daly, J. G. S Turner, 1,050*l.*, by 50*l.* to 1,200*l.*, duty pay 210*l.*

Medical Officers of Health, N. S. Turnbull, J. S. Oliphant, W. C. Smith, E. J. Clark, G. A. C. Gordon, M.C., E. C. Gilles, S. A. B. Black, N. E. W. Anderson, 660*l.*, 660*l.*, 660*l.* by 30*l.* to 840*l.* by 40*l.* to 1,000*l.*

Chief Sanitary Superintendent, N. W. J. Turnbull, M.B.E., D.C.M., 600*l.* by 30*l.* to 720*l.*

Analyst.

Government Analyst, C. L. Southall, 1,050*l.*

Assistant Government Analysts, R. K. Hardy, J. A. R. Stoyle, 550*l.*, 550*l.* by 25*l.* to 600*l.* by 30*l.* to 840*l.*

Land and Survey.

Commissioner of Lands and Surveyor-General, Capt. A. W. N. de Normann, 1,600*l.*

Deputy Commissioner of Lands and Surveyor-General, Major E. W. Nesham, 1,200*l.*

Meteorologist, D. E. Smith, 880*l.* by 40*l.* to 1,000*l.*

Assistant Meteorologists, R. B. Stonehouse, R. L. Stafford, 450*l.* by 25*l.* to 600*l.*, 630*l.*, 690*l.* by 30*l.* to 840*l.*

Meteorological Assistant, L. S. Matthews, 400*l.*, 450*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*

Land Section.

Principal Assistant, Land and Survey, Capt. G. Darby, O.B.E., M.C., 1,060*l.*

Assistant Commissioner of Lands, H. E. Bradley, 840*l.* by 40*l.* to 920*l.*

Legal Assistant, E. G. Fitt, 600*l.*, 600*l.*, 630*l.* by 30*l.* to 840*l.* by 40*l.* to 1,000*l.*

Executive Officer, J. J. Hunter, M.M., 400*l.*, 400*l.*, 450*l.* by 25*l.* to 600*l.*, 600*l.* by 30*l.* to 810*l.*

Survey Section.

Senior Surveyors, N. S. Clouston, O.B.E., F. E. Tavener, Capt. R. Buckingham, A. J. Morley, W. A. Kuenen, 880*l.* by 40*l.* to 1,000*l.*

Surveyors, J. F. Morris, H. Isherwood, J. P. Cunningham, G. J. Humphries, T. G. Blanchflower, N. E Mooney, W. B. Hewett, W. D. C. Wiggins, F. W. Sutton, T. Russell, E. A. Rothery, M. D. Wimbush, K. H. Hunter, W. Harrison, J. H. Keast, W. G. Wookey, V. T. H. Biddlecombe, 480*l.* by 30*l.* to 720*l.* by 40*l.* to 920*l.* or (revised scale), 480*l.*; 510*l.* by 30*l* to 720*l.* by 40*l.* to 920*l.*, plus 72*l.* seniority pay from 720*l.*, or 450*l.*, 450*l.* by 25*l.* to 600*l.*, 630*l.*, 690*l.* by 30*l.* to 840*l.*

Survey School Instructor, W. J. Phillips, M.M., 450*l.*, 450*l.* by 25*l.* to 600*l.*, 630*l.*, 690*l.* by 30*l.* to 840*l.*

Surveyor, C. T. Olumide, 325*l.* by 25*l.* to 600*l.*

For Scales A to C, see footnote on page 439.

Chief Draughtsman, C. A. Livingstone, 480*l*., 510*l*. by 30*l*. to 720*l*. by 40*l*. to 800*l*., plus 72*l*. seniority pay from 720*l*., or 400*l*., 400*l*., 450*l*. by 25*l*. to 600*l*., 660*l*. by 30*l*. to 840*l*.

Draughtsman, H. R. Hummel, 420*l*. by 15*l*. to 600*l*.

Chief Lithographer, J. H. Pook, 400*l*., 400*l*., 450*l*. by 25*l*. to 600*l*. by 30*l*. to 720*l*.

Assistant Lithographer, J. L. Emmett, 420*l*. by 15*l*. to 600*l*.

Mines.

Chief Inspector of Mines (vacant), 1,200*l*., duty 240*l*.

Senior Inspectors of Mines, E. W. Wright, H. R. Mitchell, 880*l*. by 40*l*. to 1,000*l*.

Inspectors of Mines, R. Patterson, A. P. A. Robertson, E. B. Thomas, G. H. Vivian, W. P. Gaskell, Scale C.

Education.

Headquarters.

Director of Education, E. G. Morris, 1,750*l*.

Inspector, E. H. Duckworth, 1,000*l*., duty pay, 200*l*.

Northern Provinces.

Assistant Director, G. A. J. Bieneman, 1,300*l*

Principal, Kaduna College, E. L. Mort, O.B.E., 1,200*l*.

Senior Superintendents, E. D. Craig, Capt. C. B. Campbell, M.C., T. H. Baldwin, L. R. O. Norwood, J. B. Gott, C. E. J. Whitting, R. M. East, H. R. Phillips, A. A. Shillingford, 880*l*. by 40*l*. to 1,000*l*.

Superintendents, Capt. E. J. H. Bowler, J. G. Speer, J. D. Clarke, K. A. Robertson, M.C., C. K. Brooke-Hunt, P. G. S. Baylis, J. L. Coulson, A. L. Baron Hay, R. E. Ellison, W. S. de G. Rankin, W. F. Jefferies, V. Slee, E. E. Thomas, Capt. R. Carr, M.C., D.C.M., M. G. Wood, B. A. Babb, F. D. Hibbert, H. W. Church, Capt. L. H. T. Sloan, H. E. Chappell, C. Graham, R. C. Allen, H. G. Butler, R. Miller, A. W. A. Spicer, Scale C.

Lady Superintendent, Miss A. Booker, 600*l*. by 30*l*. to 720*l*.

Assistant Mistresses, Miss O. C. Robinson, Miss M. U. Wainwright, Miss A. M. Adamson, Miss K. A. Dobbs, Miss A. D. M. Bastow, Miss I. M. Judd, Miss C. V. Kendall, Scale C.

Southern Provinces.

Assistant Director, P. F. Herbert, 1,300*l*.

Chief Inspector, J. N. Panes, 1,200*l*.

Principal, Higher College, C. R. Butler, 1,100*l*., 220*l*. duty pay.

Principals, H. T. C. Field, 960*l*., 96*l*. duty pay; A. H. Clift, W. N. Tolfree, 1,050*l*.

Senior Superintendents, J. W. A. Thorburn, A. K. Beauchamp, E. A. L. Gaskin, R. F. G. Adams, T. N. Lloyd, W. H. Thorp, C. T. Quinn-Young, W. T. Mackell, H. H. Jeffers, W. Simpson, F. K. Butler.

Superintendents, A. D. B. Trevor, T. R. Batten, V. B. V. Powell, K. C. Murray, W. E. Holt, K. B. Forge, J. E. H. White, L. J. Lister, A. H. Cooke, A. H. Parnaby, A. H. Smith, E. A. Cadle, W. B. Benton-Evans, R. F. Hogarth, C. Ll. Rice, A. J. Carpenter, F. Smithies, W. J. Webb, R. Day, R. S. Ducker, J. S. R. Cole, O. Waterfield, W. H. P. Browne, A. H. Sleigh, C. Bell, A. D. Porter, W. M. Wood, A. B. Cozens.

Lecturers in Agriculture, Engineering, etc., G. N. Herrington, J. A. Barclay, A. J. G. Barnett, A. G. Taylor, F. H. Bowen, R. J. Smith, H. J. Savory, A. Smith, Scale C, 480*l*.; 510*l*. by 30*l*. to 720*l*. by 40*l*. to 920*l*., plus seniority pay from 720*l*.; and 450*l*. by 20*l*. to 720*l*.

Technical Instructors, J. Hoskins, O. T. Jones, 480*l*., 510*l*. by 30*l*. to 720*l*.

Lady Superintendent, Miss G. Plummer, 600*l*. by 30*l*. to 720*l*.

Assistant Lady Superintendent, Miss M. B. Thomson, 400*l*. by 15*l*. to 430*l*. by 20*l*. to 600*l*.

Principal, Queen's College, Miss W. W. Blackwell, 600*l*. by 30*l*. to 720*l*.

Assistant Mistress in Charge, Domestic Science Centre, Miss E. M. Baker, Scale C. with maximum of 720*l*.

Assistant Mistresses, Miss D. M. Peel, Miss E. D. Harrison, Scale A, with maximum of 600*l*.

Superintendents, J. F. D. Green, I. A. Seriki, 320*l*. by 20*l*. to 400*l*. by 25*l*. to 600*l*. by 30*l*. to 720*l*.

Geological Survey.

Director, Capt. R. C. Wilson, 1,200*l*. and 240*l*. duty pay.

Deputy Director, C. Raeburn, 960*l*., duty pay 96*l*., or 1,050*l*.

Senior Geologist, A. D. N. Bain, 880*l*. by 40*l*. to 1,000*l*.

Geologists, W. Russ, C. M. Tattam, B. Jones, R. R. E. Jacobson, 550*l*., 550*l*., 575*l*., 600*l*. by 30*l*. to 840*l*., 880*l*. by 40*l*. to 1,000*l*.

Senior Engineer, H. A. Cochran, 880*l*. by 40*l*. to 1,000*l*.

Engineers, D. P. Le Jeune, W. R. W. Ferguson, M. W. Bryce, Scale C.

Drilling Superintendent, F. J. H. Paris, 800*l*.

Driller, T. W. Jenkins, 600*l*.

PUBLIC WORKS.

Administrative and Engineering.

Director of Public Works (vacant), 1,800*l*.

Deputy Director, H. E. Walker, O.B.E., 1,400*l*.

Assistant Directors, R. A. Brown, W. Livingston, W. H. Jackson, M.C., 1,100*l*. and 220*l*. duty pay, or 1,150*l*.

Senior Executive Engineers, C. E. Thorpe, R. Rodger, A. McDonald, J. M. Sleigh, E. Wall, C. E. Andraea, R. W. Taylor, 960*l*. and 96*l*. duty pay, equal 1,050*l*.

Executive Engineers, Grade I, B. P. Chadwick, J. T. Cradock, H. S. Aldred, L. A. Gordon, M.C., H. Wharton, P. R. T. Mumme, G. R. Hasselhuhn, K. P. Humpidge, D. M. MacLaughlin, J. A. Henry, A. Dunbar, W. A. Anderson, D. G. Blyth, D. H. Lawson, W. A. Dow, 880*l*. by 40*l*. to 1,000*l*.

Executive Engineers, Grades II–IV, S. J. Slaughter, R. E. G. Ferguson, E. Iliff, T. E. Brand, W. R. D. Crarey, J. Lilly, J. S. Long, L. M. Vaughan-Arbuckle, L. G. Culshaw, C. B. H. Henderson, J. C. Davison, W. Dempster, J. H. Gillespie, J. C. B. Thomson, P. I. O'Connor, R. A. Tennant, J. B. R. Pedder, G. C. Stubbs, G. D. Crerar, T. W. Shaw, J. Lea, F. H. Woodrow, A. G. Boorman, G. M. Johnson, H. C. Ketley, C. W. M. Williams, S. C. Barrie, H. P. Pooley, F. H. Meeres-Young, W. Grant, A. H. Clarke, E. H. Marflect, A. F. Daldy, C. N. Butler, V. F. Lindsey, R. G. Wallis, W. S. Bickerstaff, W. Auld, K. C. Ballantine, J. M. Longson, K. Wilson, J. W. Stokes, D. H. Yarnold, W. D. B. Kingston, D. Evans, H. M. Epton, 475*l*., 475*l*., 500*l*. by 25*l*. to 600*l*. by 30*l*. to 840*l*.

Engineering Assistant, A. H. Knox, 480*l*., 510*l*. by 30*l*. to 720*l*. by 40*l*. to 920*l*., plus 72*l*. seniority pay.

NORTHERN RHODESIA.†

Situation and Area.

Northern Rhodesia comprises the northern part of the territory formerly administered by the British South Africa Company, whose principal field of operations was defined in the Charter of Incorporation as "the region of South Africa lying immediately to the North of British Bechuanaland, and to the North and West of the South African Republic, and to the West of the Portuguese dominions." It lies wholly to the north of the Zambezi River and is bounded by Tanganyika Territory and the Belgian Congo on the north; Nyasaland and Portuguese East Africa on the east; Southern Rhodesia and South-West Africa on the south and Portuguese West Africa on the west.

The area of the Territory is estimated at about 290,323 square miles.

A map of Northern Rhodesia and Southern Rhodesia will be found in the section relating to the latter.

Northern Rhodesia is divided into six Provinces for fiscal and administrative purposes. The seat of government is at Lusaka, to which the principal departmental headquarters were moved from Livingstone in May, 1935. Other important settlements are at Livingstone, Broken Hill, Fort Jameson, Mazabuka, Ndola, near which the copper mines of Nchanga, Nkana, Roan Antelope, and Mufulira are situated, Abercorn, Kasama, Fort Rosebery, and Mongu in Barotseland.

History and Constitution.

The first explorations north of the Zambezi were carried out by various Portuguese travellers at the end of the eighteenth century. The first British person to enter Northern Rhodesia was Dr. Livingstone who reached the Zambezi in 1855. The Arab slave trade had begun a few years before Livingstone's arrival and flourished from that time onwards till 1893, twenty years after the death of Livingstone at Chitambo. The Arab influence was at first most felt in the North but soon extended over the whole country. It was not until 1893, by which time a Government post (Abercorn) near the south of Lake Tanganyika, and several mission stations were established, that this trade received any check. Blow after blow was inflicted by the destruction of the Arab settlements on Lake Nyasa, and with the defeat of the Arab chief Mlozi by Sir Harry Johnston at Karonga in 1894, the days of the slave trade in British Central Africa were numbered. The last caravan of slaves in Northern Rhodesia (intercepted on its way to the East coast via Lake Nyasa) was released at Fort Jameson, which had just been established, in 1898. An account of the early operations of the British South Africa Company under the Royal Charter of Incorporation of 1889 will be found under the section relating to Southern Rhodesia. Prior to 1911 the territory now called Northern Rhodesia consisted of two separate territories (*a*) Barotseland-North-Western Rhodesia and (*b*) North-Eastern Rhodesia. On the 4th May of that year these two territories were amalgamated under the title of Northern Rhodesia. Mr. (now Sir) Lawrence Wallace was appointed the first Administrator of the combined territory, and continued in office until 1921.

Several engagements took place during the Great War with forces from German East Africa.

In March, 1921, Sir Drummond Chaplin, Administrator of Southern Rhodesia, became also Administrator of Northern Rhodesia.

In July, 1923, a settlement was arranged of the various outstanding questions relating to the British South Africa Company's position in Southern and Northern Rhodesia. As far as Northern Rhodesia was concerned, the effect of the settlement, which was conditional on its acceptance by the shareholders and the approval of Parliament, was that the Company surrendered its buildings and assets used for administrative purposes, and its land and monopoly rights other than mineral rights under its concessions in Northern Rhodesia but retained three freehold areas in the Tanganyika Province of North-Eastern Rhodesia; on the other hand the Company would receive on the 1st October, 1923, a cash payment from His Majesty's Government, and would retain a half interest for 40 years in the net proceeds of the disposal of land in North-Western Rhodesia, such disposal to be in the hands of the administration of the territory; the Company would receive the Crown's recognition of its mineral rights in Northern Rhodesia and a considerable measure of protection for its railway interests; and the Crown would waive its whole claim against the Company in respect of extraordinary military expenditure incurred in the course of the Great War. Subject to the foregoing, the Company would retain the whole of its commercial rights and assets; no further question would be raised as to any liability of the Company in respect of land appropriated for the purpose of its own commercial undertakings or granted to other parties; and the Company would be relieved of the duty of carrying on the administration of Northern Rhodesia. This provisional arrangement was unanimously approved by the shareholders, and on the 25th July, 1923, was approved by the House of Commons.

By Orders in Council dated 20th February, 1924, the office of Governor of Northern Rhodesia was created, an Executive Council constituted and provision made for the constitution of a Legislative Council. The Executive Council is composed of the Governor as President, the Chief Secretary to the Government, the Attorney-General, the Treasurer, the Senior Provincial Commissioner, and the Director of Medical Services. The Legislative Council comprises the Governor as President, the members of the Executive Council, *ex officio*, four nominated official members and seven unofficial elected members. On the 1st April, 1924, Mr. H. J. Stanley, C.M.G. (now Sir Herbert Stanley, G.C.M.G.), assumed office as the first Governor and Commander-in-Chief of Northern Rhodesia.

Administrative and Judicial.

The natives are administered as far as possible through their own chiefs or headmen, who function as Native Authorities and Courts. Administrative and judicial functions are combined in the District Officers. The Barotse Province is a native reserve, and is administered under conditions differing in some respects from those obtaining elsewhere. The Paramount Chief of the Barotse has a Khotla or Native Council to assist him.

The law of the Territory is that of England except in so far as it may be inapplicable or may have been or may hereafter be modified by legislation, but no Act of Parliament of the United Kingdom passed subsequent to the 17th August, 1911, is deemed to

† See map under "Southern Rhodesia."

Digitized by Google

apply to the Territory unless it has been specifically applied.

Administrative Officers in their capacities as Magistrates of Subordinate Courts have a limited civil and criminal jurisdiction. Appeals, both civil and criminal, lie from Subordinate Courts of the 3rd Class to Provincial Commissioners' Courts and from Subordinate Courts (including Provincial Commissioners' Courts) of the 1st and 2nd Class to the High Court.

Estimated Population, 31st December, 1936.

Children	561,304		
Total			1,366,425
Total population ..			1,377,013

* No re-estimate has been made during 1938.

Education.

European.—For the education of European children there were in August, 1938, controlled Schools at Livingstone, Choma, Mazabuka, Lusaka, Broken Hill, Ndola, Luanshya, Nkana and Mufulira, offering primary education up to Standard VII, with the additional subjects, Latin, French, Algebra, Geometry and Science in Standards VI and VII. There were schools at Chomba, Silver Rest and Fort Jameson, offering primary education up to Standard V. All these schools were under Government Management. The Convent School, Broken Hill, offering education up to the standard of the Matriculation Examination, Mulobesi School, Sakeji School and the Convent Schools at Livingstone and Ndola, offering primary education up to Standard V, were controlled but under private management.

Boarding accommodation was available for girls at the Beit School, Choma, for boys at the Codrington School, Mazabuka, and for boys and girls at Lusaka School, all under Government management, and, for girls, at the Convent Schools at Broken Hill and Ndola, under private management. There was also open during the year a number of uncontrolled schools with small enrolments and uncertain lives.

Native.—The Department of Native Education supervises the educational work of the Missionary Societies working in the Territory, and apportions the grants in aid of the Mission Schools which conform to the Government syllabus and requirements. There is an Advisory Board on Native Education upon which Missions, Settlers and Government Departments are represented.

There are 430 Schools receiving grants in aid. Of these 12 are Teacher Training Institutions with Senior primary classes attached, and 24 are Girls' Boarding Schools in charge of European Headmistresses. Some 30,000 children attend these schools while a further 75,000 are enrolled at 1,600 unassisted Schools which do not possess qualified teachers.

The Government Schools include a Jeanes Training School, a Trades School and a Teacher Training School. There are also 12 other Government Schools, 3 of which are District Headquarters Schools and the remainder are in Industrial Centres. Four of these are run by the United Missions in the Copperbelt as agents for the Government. Some 2,000 children attend the schools in the Copperbelt.

The Barotse National School, founded in 1907, and financed by the Barotse Native Treasury, with its subsidiary School at Mankoya, was until recently the only Native Authority School. A Native Authority School for the Ngoni has recently been opened.

Climate.

The climate, except in the low-lying parts, may be described as sub-tropical. Temperatures are moderate during the winter months, viz., from May to August. In low-lying parts the mean temperature varies from 70° F. to 90° F. with a maximum of 103° F. and a minimum of 56° F. In the high plateau the mean temperature varies from 55° F. to 75° F. with a maximum of 86° F. and a minimum of 40° F. In some parts the maximum temperature has reached the high figure of 120° F., whilst minima of 30° F. or less are not infrequent.

As a whole the country may be said to be suitable for white settlement, and Europeans have little to fear from the point of view of health if reasonable precautions are taken.

The average rainfall varies from over 50 inches in the northern and high-lying portions of the territory to 25 inches or less in the southern and south-eastern parts. On the average little or no rain falls during the period May to September. The month of October usually brings from about half an inch to two inches. The period, November to March, is the real wet season, during which anything from 70% to 90% of the total annual rainfall occurs. From April onwards the rains diminish again.

Agriculture.

The cattle and ranching industries are gradually attaining a more satisfactory position owing to increased fencing and better cattle-management amongst European-owned stock and to the dipping which is in progress amongst Native-owned stock in the Reserves.

The cattle of the Territory are singularly free from the major stock diseases. Contagious Bovine Pleuro-pneumonia is enzootic, however, in the Barotse Province. A comprehensive scheme for the eradication of this disease from the Province has been embarked upon. Mortality from any cause is low upon those farms and ranches where good cattle-mastership is practised.

The dairy industry has not developed to the extent which the local markets require. A cooperative creamery is in operation at Lusaka and it has no difficulty in marketing all its products.

The greater portion of the Territory is undeveloped agriculturally. The indigenous population is self-supporting in its food supply, practically the whole of its requirements being produced in the village gardens. There is little general trade in food commodities except in the railway belt where the surplus native maize crop is marketed by the Maize Control Board. The staple native cereals are finger-millet (*Eleusine coracana*), Kaffir-corn (*Sorghum*), and Maize. The former is produced over extensive tracts of the Territory on a system of shifting cultivation whereby grain crops are grown in rotation with forest re-growths. Other native crops are bulrush millet (*Pennisetum typhoideum*), ground-nuts, cassava, sweet-potatoes, and a variety of pumpkins, gourds, and beans. Tobacco is widely cultivated

Digitized by Google

by the natives but on a small scale for private consumption and a small localized trade only. Considerable numbers of cattle are owned by natives in the Territory, but these are mainly confined to certain tribes, notably the Marosi, Bailu, Matoka, and, to a less extent, the Angoni in North-eastern Rhodesia.

Many parts of the Territory are impassable to animal transport owing to the presence of tse-tse fly.

In the tracts adjoining the railway line considerable areas are given over to farming and ranching operations under European management.

Maize is the chief crop of the settler. In the season 1936–37, 44,000 acres were planted and the total crop was 294 thousand bags, of which 52 thousand were retained for farm consumption.

As a result of Agreements with Southern Rhodesia and the Union of South Africa the internal market is protected against imported maize and cattle offered at unduly low prices.

Experimental work on the problems of cotton cultivation is being continued with the assistance of the Empire Cotton Growing Corporation. Cultivation by European farmers is not at present recommended owing to the serious losses caused by insect pests. The work, however, has been extended to include experiments in certain native areas where it is believed that commercial production may be possible.

Flue-cured Virginian tobacco is produced chiefly in the Fort Jameson district. The crop reached 1¼ million pounds in the 1936–37 season. The better qualities of leaf are exported and, as the result of agreements with Southern Rhodesian manufacturers and the Union of South Africa, an African market exists for about half a million pounds of Northern Rhodesian leaf annually.

Most of the wheat produced in the Territory is handled by the Co-operative Society at Lusaka and is exported to Bulawayo for milling.

The headquarters of the Agricultural Department and the Veterinary Department are at Mazabuka.

Forestry.

More than 60 per cent. of the entire area of Northern Rhodesia is estimated to be more or less covered with trees and shrubs, but the forest growth, chiefly of the Savannah Woodland type, is undergoing considerable modification in composition and area as a result of native shifting cultivation and annual fires. A Forestry Branch of the Agricultural Department was instituted in 1929. Certain areas are being maintained as protection forests for the prevention of soil erosion and the preservation of water supplies in springs and rivers. Further areas are dedicated to the production of timber of the more useful indigenous species. Small experimental plantations of fast growing exotic tree species have been established.

The only large commercial timber industry in the Territory at present is that of the Zambesi Saw Mills Ltd., whose operations extend from Livingstone to the Machili River under concessions granted by the Government. This Company is chiefly concerned with the extraction, by light railway, of timbers of the Kalahari sand belt type, including Mkushi, *Baikiaea plurijuga*; Mukwa, *Pterocarpus angolensis*; Mwangura, *Pterocarpus stevensonii*; Mupumena, *Entandophragma sp.*; Mkamba, *Afzelia quanzensis*; Mugongo *Ricinodendrom rautanenii*; and Musheshe, *Burkea africana*. The Company has contracts for supplying Mkushi sleepers to the South African and Rhodesian Railways.

Land Settlement.

An Agricultural Survey Commission reported in 1932 upon the unalienated land within 25 miles of the railway suitable for European settlement, and this Commission has advised as to the class of farming or ranching for which the land is suitable. The Government is not embarking on any extensive programme of land settlement. Crown Land and privately owned land, however, suitable for mixed farming and ranching is available within easy distance of the railway and the price ranges between 2*s.* and 15*s.* per acre depending upon the quality of the soil, water supply, distance from railway, etc. A settler must be in possession of at least 2,000*l.* capital in order to obtain a grant of a farm from the Government on lease with option to purchase. Special travelling facilities are given to bona fide farm settlers and their wives and families proceeding to Northern Rhodesia for the first time to take up land, and special local railway rates are in force for their benefit. Application for land in Northern Rhodesia, should be addressed to the Commissioner for Lands, Livingstone.

Minerals.

The Department of Lands, Mines and Surveys administers the Mining Law and the Registration of Mining Titles Ordinance subsidiary thereto and the Mining and Explosives Regulations. The Registry of Mining Titles is kept, duty assessed and the necessary searches are made.

The production of copper, which is the major mineral industry of the territory, has been stabilised by the Copper Restriction Agreement of 1935, by which the tonnage of copper produced is varied to control market prices.

Early in 1936 the quota allowed the industry was 70 per cent. of its basic tonnage output but during the year the increased consumption of copper resulting from rearmament programmes and trade recovery reduced the world stocks and the quota was progressively increased to 105 per cent.

At the beginning of 1937 all restriction was removed, but the price continued to increase until it reached nearly £80 a ton in March. By this time increase in production began to take effect and by the middle of the year the price had dropped to a figure more satisfactory to the manufacturer and continued to drop slowly until October when a quota restriction of 125 per cent. of the basic tonnage was imposed in order to steady the market price. This quota was reduced to 115 per cent. in November and 105 per cent. in December. In spite of the large fluctuation in the tonnage of copper there was no depression in the industry, but without the Restriction Agreement the mines would probably have had to curtail their activities instead of diverting their labour from production to mine development.

The copper produced in the Territory in 1937 totalled 208,172 tons valued at 11,564,000*l.*, as against 142,340 tons valued at 5,709,000*l.* in 1936.

The production of the various copper mines in 1937 was: Mufulira 44,614 tons of blister copper, Roan Antelope 78,349 tons of blister copper, Nkana 54,475 tons of blister copper and 30,740 tons of electrolytic copper. As bye-products Nkana also produced 1,949,837 lbs. of cobalt, 326 ozs. of gold, 83,532 ozs. of silver and 1,446 lbs. of selenium.

Nchanga Copper Mine is being developed for large scale production. To date, the work has been confined to shaft sinking. Mine development and surface equipment will follow but with the large amount of work to be done it will be a few years before the mine is in full production.

Lead, zinc and vanadium are mined at Broken Hill. During the last few years the lead production has been very small, the ore being worked out to the present 200 foot water level of the mine. A new pumping shaft is in course of sinking in which pumps will

be installed at 1,000 feet to enable a large amount of fresh mineral to be worked, since mineral deposits, containing large tonnages of good sulphide ores of lead and zinc have been proved by diamond drilling to a depth of over 1,000 feet. A mining shaft will be sunk after the pump shaft is complete and large scale underground mining will follow.

Zinc is prepared for export as electrolytic zinc, the power for the cells being produced by a hydro-electric plant at Mulingushi Falls where the river is dammed back to conserve the storm water of the rainy seasons. The rains of 1935–1937 season were very light with the result that the dam did not fill and zinc production had to be curtailed as there was only sufficient power available for a portion of the cells.

The production of vanadium concentrates and fused vanadic oxide has been greatly developed in the last few years.

The production for 1937 was: lead 559 tons valued at 12,300*l.*, zinc 14,031 tons valued at 332,800*l.*, vanadium 518,727 lbs. valued at 132,700*l.* Other mineral activities are small, gold mining in particular is very disappointing: Jessie Mine closed down in 1937, the gold veins being too narrow to work, and Luiri Areas at the end of 1937 were reconstructing. A small amount of alluvial tin is washed in one area, also a small mica deposit gives a steady output.

The mineral production for the years 1936 and 1937 was :—

	1936	1937
Gold	4,452 ozs.	4,228 ozs.
Silver	229,151 ,,	83,861 ,,
Blister copper ..	114,321 tons	177,432 tons
Electro copper ..	28,012 ,,	30,740 ,,
Copper in matte ..	7 ,,	15 ,,
Zinc	20,730 ,,	14,031 ,,
Vanadium ..	450,774 lbs.	518,727 lbs.
Manganese ore ..	3,022 tons	2,341 tons
Tin ore	4,950 ,,	520 ,,
Lead	300 ,,	559 ,,
Cobalt	1,016,683 lbs.	1,949,837 lbs.
Mica	6,281 ,,	8,928 ,,
Tin concentrates ..	7·4 tons	7·75 tons

The estimated value of the mineral production was :

1936	1937
£6,375,929	£12,751,014

A large proportion of the increase in the value for 1937 was due to the enhanced price of copper over 1936.

Means of Communication.

The Railway was extended from Victoria Falls northward to Broken Hill—374 miles—in 1906, and the extension to the border of Northern Rhodesia, a further 132 miles, where it connects with the railway system of the Congo Belge, was completed in 1909. The Zambezi is crossed by a single span bridge, 650 feet long, 30 feet wide and about 420 feet high. The gauge of the railway is 3 feet 6 inches, the standard gauge of South Africa.

Branch lines have now been constructed from Ndola to Luanshya (Roan Antelope Mine), a distance of 24 miles, and to Nchanga *via* Nkana, a distance of 84 miles. Another line runs from Mokambo, in the Belgian Congo, to Mufulira, nine miles distant.

Road communications have been improved and the arterial road system has been bridged and culverted with permanent structures.

The main arterial roads are :—

(i) The "Great North Road" from Livingstone *via* Lusaka, Broken Hill and Kapiri Mposhi, where the road leaves the Railway, to Mpika, Kasama and Abercorn, a distance of 986 miles, with a connection to Mwenzo, another 118 miles, where the road joins the Tanganyika and Nyasaland road systems.

(ii) The "Great East Road," which runs from Lusaka eastward to Fort Jameson and the Nyasaland Border, a distance of 381 miles. This road crosses the Luangwa River at 157 miles from Lusaka by an imposing bridge presented to the Territory by the Beit Trust.

(iii) The Congo Border Road, which branches from the Great North Road 3 miles north of Kapiri Mposhi and proceeds north to Ndola and the Copper Mining Area and from there on to Solwezi, Kasempa and Mumbwa, joining the Great North Road again 44 miles north of Lusaka, the total distance being 675 miles. The Kafue River is crossed near Nkana by another large bridge presented by the Beit Trust.

In addition to the above main roads there is a large mileage of secondary roads serving the settled areas and districts.

The Zambesi, Kague, Luapula, and Chambesi Rivers are navigable for small boats for a considerable portion of their course, and where necessary for motor traffic these and other rivers may be crossed by pontoons.

Aviation.

The main air routes are as follows :—

(i) Livingstone to Balovale (or intermediate stations) *via* Sesheke, Njoko, Sioma, Senanga, and Mongu.

(ii) Livingstone to Ndola (or intermediate stations) *via* Kalomo, Choma, Mazabuka, Lusaka, Chisamba, Broken Hill and Kapiri Mposhi.

(iii) Lusaka to Fort Jameson *via* Nyangwena, Rufunsa, Beit Bridge, Nyimba and Sasare.

(iv) Broken Hill to Mbeya (or intermediate stations) *via* Mtuga, Ndabala, Kanona (for Serenje), Kalonje, Mpika, Shiwa Ngandu, Chinsali, Isoka and Mwenimpanza.

(v) Broken Hill to Abercorn *via* Mtuga, Ndabala, Kanona, Kalonje, Mpika, Kasama and Rosa.

(vi) Ndola to Mbeya (or intermediate stations) *via* Kapiri Mposhi, Mtuga, Ndabala, Kanona, Kalonje, Mpika, Shiwa Ngandu, Chinsali, Isoka and Mwenimpanza.

(vii) Ndola to Abercorn *via* Kapiri Mposhi, Mtuga, Ndabala, Kanona, Kalonje, Mpika, Kasama and Rosa.

(viii) Abercorn to any line of rail station *via* Rosa, Kasama, Mpika, Kalonje, Kanona, Ndabala, Mtuga, Broken Hill and then to the required destination *via* the railway line.

Lusaka Airport is equipped with a hangar capable of accommodating all types of aircraft. There is also a ground staff in residence.

Hangars are available for small aircraft at Livingstone and Ndola, the former housing two aircraft, the latter one only.

Posts, Telegraphs and Wireless.

Mails are exchanged daily between all offices situated on the line of rail. There are services once weekly either by motor vehicle or by runner to all other offices in the territory. Mails to and from adjoining countries are despatched not less than twice weekly either by air or by surface route. Letter mails are received from and despatched to all countries on the England–South Africa route by air twice weekly in each direction. Other classes of mail matter are despatched to and received from these countries once weekly via Bulawayo and Cape Town. There are 44 Post Offices, 15 of which are Money Order Offices, and 23 are Telegraph Offices. The main telegraph and telephone route lies alongside the railway line from Victoria Falls to the Congo Border, with branches from Ndola to Luanshya, Ndola to Nchanga and from Nkana to Mufulira. Wireless stations at Abercorn, Broken Hill, Mpika,

Digitized by Google

Fort Jameson, and Mongu-Lealui are equipped for point to point communication on short wave and maintain a public service. Broken Hill and Mpika Stations also provide radio services in connection with the African International Air Route, and are equipped for communication with aircraft in flight, on a wave-length of 900 metres.

Customs Duties.

The Tariff, excluding the Congo Basin tariff, provides for Empire preference for the following classes of goods which are mainly liable to *ad valorem* rates of duty; clothing, blankets and rugs, cotton piece goods, motor cars, and all articles usually imported for household and native use, the duty on Empire products being in almost every instance 10 per cent. and the duty on foreign varying from 15 to 30 per cent.; in the case of cotton and silk piece goods, shirts, singlets, and rubber shoes, from foreign countries, the tariff provides for alternative specific rates if the duty should be greater at such rates. Agricultural, electrical, mining and other industrial machinery, pipes and piping, metals and metal manufactures imported for industrial purposes, if of Empire manufacture are free of duty and if foreign are subject to an *ad valorem* duty of 5 per cent., except foreign electrical machinery which is 15 per cent.

Specific rates of duty apply to practically all imported foodstuffs, lubricating oils, paraffin and cement, and to spirits, wines, beer and tobacco; upon the latter items, apart from rum, no preference is granted except under the terms of the customs agreements with the neighbouring territories in the South, but varying rates of preference are granted, under the tariff, to foodstuffs of British origin.

Imports and Exports

Year.	£ Exports.	£ Imports.
1929	926,823	3,669,648
1930	909,541	4,953,720
1931	1,208,945	5,368,822
1932	2,705,685	1,959,555
1933	3,747,354	1,980,190
1934	4,540,395	2,931,126
1935	4,802,563	3,013,678
1936	6,045,137	2,349,946
1937	12,030,646	4,086,842

Finance.

Year.	£ Revenue.	£ Expenditure.
1928–1929	541,606	525,168
1929–1930	672,289	554,527

1935	833,484	806,429
1936	863,255	887,417
1937	981,894	909,252

Loan expenditure for development purposes amounted to 2,190,402*l.* at 31st December, 1936.

Taxation.

An income tax was first imposed in Northern Rhodesia in 1921. The rates of tax now in force for individuals are:—

For each pound of the first 100*l.* of the chargeable amount		6*d.*
„ „ „ „ next 100*l.*	„ „	1*s.* 0*d.*
„ „ „ „ „ 100*l.*	„ „	1*s.* 6*d.*
„ „ „ „ „ 100*l.*	„ „	2*s.* 0*d.*
„ „ „ „ „ 100*l.*	„ „	2*s.* 6*d.*
„ „ „ in excess of 500*l.*	„ „	3*s.* 0*d.*

Before arriving at the chargeable amount the following deductions are allowed:—

(i) Personal, 300*l.*

(ii) For wife, 420*l.*

(iii) For children, 100*l.* each—age limit 18, unless receiving full time instruction at a University, College, School or other educational establishment, when age limit is 21.

(iv) For Insurance &c.—One-sixth of chargeable income before making deductions for insurance and deductions under (ii) and (iii) above and (v) below,

(v) For dependant, up to 100*l.*

The tax on the chargeable income of a Company is at the rate of 4*s.* on every pound thereof. Non-native personal Tax at the rate of 1*l.* per annum may be deducted from the amount of tax assessed.

Banking and Currency.

There are branches of the Standard Bank of South Africa at Livingstone and Lusaka and an Agency at Mazabuka, and branches of Barclays Bank (Dominion, Colonial and Overseas) at Lusaka, Livingstone, Broken Hill and Fort Jameson, and an Agency at Bwana M'Kubwa.

The currency of Northern Rhodesia is that of Great Britain and Southern Rhodesia. South African currency is not legal tender.

ADMINISTRATORS.

North Eastern Rhodesia.

R. E. Codrington, 1900 to 1907.
Sir L. A. Wallace, K.B.E., C.M.G., 1907 to 1909.
Sir L. P. Beaufort, Kt., 1909 to 1911 (acting).

North Western Rhodesia.

Sir R. T. Coryndon, K.C.M.G., 1900 to 1907.
R. E. Codrington, 1907 to 1908.
Sir L. A. Wallace, K.B.E., C.M.G., 1907 to 1911 (acting).

Northern Rhodesia.

Sir Lawrence Wallace, K.B.E., C.M.G., 1911.
Sir Drummond Chaplin, G.B.E., K.C.M.G., 1921.
R. Goode, C.M.G., C.B.E., 1923 (acting).

Governors.

1924, Sir Herbert J. Stanley, G.C.M.G.
1927, Sir James Crawford Maxwell, K.C.M.G., K.B.E., M.D.
1932, Col. Sir Ronald Storrs, K.C.M.G., C.B.E.
1934, Major Sir H. W. Young, K.C.M.G., D.S.O.
1938, Sir J. A. Maybin, K.C.M.G.

Executive Council.

The Governor (President).
The Chief Secretary.
The Attorney-General.
The Financial Secretary.
The Senior Provincial Commissioner.
The Director of Medical Services.
Clerk of the Council, A. E. T. Benson.

* These figures are for the nine months April to December. Since 1933 the financial year has been coincided with the calendar year.

Legislative Council.

The Governor (President).
Members of the Executive Council, ex officio.
Nominated Official Members :—
H. F. Cartmel-Robinson, O.B.E., C. J. Lewin, M.C., Lieut.-Col. W. A. Dimoline, M.C.
Nominated Unofficial Member to represent Native Interests, Lieut.-Col. S. Gore-Browne, D.S.O.
Unofficial Elected Members :—Sir L. F. Moore, Kt., Lieut.-Col. A. Stephenson, C.M.G., D.S.O., M.C., E. H. Cholmley, T. S. Page, Capt. R. E. Campbell, Capt. A. A. Smith, O.B.E., R. Welensky.
Clerk, A. E. T. Benson.
Reporters, Miss K. E. Whaits, Miss A. M. Whaits.

Civil Establishment.

Governor and Commander-in-Chief, Sir J. A. Maybin, K.C.M.G., 3,000*l.* and 1,000*l.* duty allowance.
Private Secretary and Aide-de-Camp, Lieut. J. O. Crewe-Read.
Clerk, Miss I. V. H. Morgan, 300*l.* to 390*l.*
Chauffeur, M. T. Elliott, 300*l.* to 340*l.*

Secretariat.

Chief Secretary, W. M. Logan, C.M.G., O.B.E., 1,700*l.*
Financial Secretary, K. R. Tucker, C.B.E., 1,500*l.*
Administrative Secretary, C. G. S. Follows, 1,200*l.*
Assistant Chief Secretary, C. D. Chamberlain, 950*l.*
Assistant Chief Secretary, Native Affairs, R. S. Hudson, 950*l.*
Assistant Secretaries, H. Ockendon, M.C., H. F. Wright, A. T. Williams, C. A. R. Charnaud, T. G. C. V. Jones, A. E. T. Benson, 475*l.* to 920*l.*

District Administration.

Senior Provincial Commissioner, T. F. Sandford, C.M.G., M.B.E., 1,350*l.*
Provincial Commissioners, H. F. Cartmel-Robinson, O.B.E., L. A. Russell, E. H. L. Poole, J. F. S. T. Warrington, J. G. Read, one at 1,200*l.*, one at 1,150*l.*, three at 1,000*l.*
District Officers, E. H. Cooke, E. H. B. Wickins, H. C. Brooks, M.C., C. H. Hazell, G. W. H. Bloomfield, H. L. Brigham, E. Munday, G. Howe, H. A. Watmore, E. D. Clough, V. E. Bourdillon, A. F. B. Glennie, G. R. R. Stevens, C. H. J. Rawstorne, C. J. Bowden, F. B. Macrae, R. P. Bush, K. G. Bradley, W. F. Stubbs, L. F. Leversedge, G. E. F. Smith, T. S. L. Fox-Pitt, G. R. Onions, J. H. Wallace, J. S. Moffat, M.B.E., H. F. Wright, S. D. Facey, H. Vaux, A. T. Williams, M.B.E., J. Gaunt, H. Franklin, C. A. R. Charnaud, H. B. Waugh, S. R. Denny, J. P. Murray, O. S. Wallace, F. R. G. Phillips, M. G. Billing, W. V. Brelsford, G. C. R. Clay, M. M. Heggs, N. S. Price, T. G. C. V. Jones, C. M. Douglas-Jones, J. O. T. Phibbs, D. B. Hall, B. E. Crawfurd, C. G. Stevens, C. J. W. Fleming, R. W. Parr, R. A. Nicholson, J. F. Passmore, J. C. Phillips, G. S. Jones, R. L. Moffat, J. B. W. Anderson, F. M. Thomas, A. G. K. Johnston, P. D. Thomas, E. A. T. Benson, R. Craufurd Benson, G. E. Curtis, H. L. Jones, P. J. Law, N. C. A. Ridley, J. L. Boyd Wilson, K. C. Johnson, J. A. Evetts, G. C. M. Heathcote, A. F. C. Campbell, R. S. Foster, A. C. Jamieson, A. G. H. Gardner-Brown, E. L. Button, D. C. Goodfellow, N. P. Hammond, J. J. Keigwin, N. S. Knight, C. P. A. Sharland, J. C. W. Walter, 475*l.* to 920*l.* and 400*l.* to 1,000*l.*
Cadets, P. A. D. Clark, E. C. Thomson, S. P. Bourne, F. M. N. Heath, R. C. Ward, G. K. N. Trevaskis, A. T. de B. Wilmot, W. Boyle, C. M. N. White, H. McL. McDowell, 350*l.*
Chief Clerks, E. E. Brooker, A. Wilson, J. H. Nisbet, F. A. Cross, A. H. Dobson, R. F. L. Hatchwell, M. Barker, 480*l.* to 600*l.*

Accountant General's Department.

Accountant-General (vacant).
Senior Accountant, W. D. Colton.
Accountants, A. J. Austin, 360*l.* to 720*l.*; S. M. Rich, H. F. Cox, E. J. Thomson, F. M. D. Manning, 400*l.* to 600*l.*

Administrator-General.

Administrator-General and Official Receiver, G. M. Oliphant, 720*l.* to 840*l.*

Audit.

Auditor, R. F. Pinder, 1,050*l.*
Senior Assistant Auditor, F. W. Power, 810*l.* to 920*l.*
Assistant Auditor, N. S. Carey-Jones, 350*l.* to 780*l.*
Examiner of Accounts, J. A. Robertson, 300*l.* to 480*l.*

Agriculture.

Director of Agriculture, C. J. Lewin, M.C., 1,100*l.*
Ecologist, C. G. Trapnell, 600*l.* to 840*l.*
Assistant Conservators of Forests, J. D. Martin, C. E. Duff, R. G. Miller, 480*l.* to 720*l.*
Entomologist, W. Allan, 480*l.* to 720*l.*
Cotton Officer, A. G. Bebbington, 650*l.**
Agricultural Officers, U. J. Moffat, R. H. Fraser, J. N. Clothier, C. E. Johnson, 480*l.* to 720*l.*

Customs.

Controller of Customs, D. L. F. Manson, 1,050*l.*
Deputy Controller, (vacant).
Accountant, P. A. G. Gummer, 600*l.* to 720*l.*
Collectors, C. H. H. Coleman, W. J. Page, G. Owen-Smith, A. L. D. Goodwin, W. G. O. Owen-Smith, 425*l.* to 660*l.*

Native Education.

Director of Native Education, C. J. Tyndale-Biscoe, M.C., 1,100*l.*
Superintendents of Native Education, J. A. Cottrell, D. S. Miller, C. J. Opper, J. M. Winterbottom, G. H. Wilson, G. H. Rusbridger, P. S. Tregear. 400*l.* to 920*l.*; J. C. Forester, 350*l.* to 840*l.*
Principal, Lusaka Trades School, F. Hodgson, 600*l.* to 720*l.*
Industrial Superintendent, P. C. Southwell, 390*l.* to 600*l.*
Agricultural Instructor, F. J. S. Morkel, 390*l.* to 600*l.*
Assistant Master, Jeanes School, J. F. Ritchie, 246*l.* to 600*l.*
Industrial Instructor, F. Jackman, 390*l.* to 480*l.*
Mistress and Welfare Worker, Miss Seal, 246*l.* to 480*l.*
Clerk, G. Foyster, 300*l.* to 480*l.*

European Education.

Director of European Education, J. B. Clark, 1,100*l.*
Inspector of Schools, R. E. W. Burnside, 600*l.* to 840*l.*
Assistant to Director, W. G. N. Lightfoot, 400*l.* to 720*l.*
Head Masters, T. C. Deacon, F. C. H. Knapp, J. R. Chadwick, G. T. Jones, A. J. Gunn, E. C. Hobrough, T. F. Parker, A. M. Beckett, 480*l.* to 720*l.*
Head Mistress, Miss E. F. Goring, 390*l.* to 600*l.*

Income Tax.

Commissioner of Income Tax, G. E. Thornton, M.B.E., 1,100*l.*
Assistant Commissioner of Income Tax, J. S. Fowlds, 600*l.* to 840*l.*
Assessor, W. J. Donnelly, 425*l.* to 720*l.*

* Empire Cotton Growing Corporation Seconded.

NYASALAND PROTECTORATE.†

Situation and Area.

The Protectorate comprises the western shore of Lake Nyasa, with the high tablelands separating it from the basin of the Loangwa River, and the region lying between the watershed of the Zambesi and the Shiré Rivers on the west, and the Lakes Chiuta and Chilwa and the River Ruo (an affluent of the Shiré) on the east, including the mountain systems of the Shiré Highlands and Mlanje.

It is bounded on the north by Tanganyika Territory, on the west by Northern Rhodesia, on

the south and east by Portuguese East Africa, and according to the most recent survey has a total area of about 47,949 square miles (land, 37,374).

It is divided into two Provinces, each under the control of a Provincial Commissioner. These provinces are sub-divided into twenty districts, each in charge of a district commissioner, who is also a district magistrate.

The chief town is Blantyre, in the Shiré Highlands. There are 681 Europeans in the Blantyre district. The headquarters of the Government are at Zomba.

Population (1937).

Europeans, 1,894; Asiatics, 1,632; Natives, 1,639,329.

History.

In 1859 Dr. Livingstone was placed at the head of a Government Expedition, and reached the southern shore of Lake Nyasa on the 16th of September of that year. His expedition was recalled in 1863, but resulted in the founding, from 1874 to 1881, of various Missionary Societies, notably the Universities Mission, the Livingstonia Mission, and the Church of Scotland Mission.

The Missions were followed by the African Lakes Corporation, and in 1883 Captain Foote, R.N., was appointed first British Consul for the Territories north of the Zambesi, to reside at Blantyre.

Opposition of the new settlers to the slave trade carried on by Arab coastmen and natives alike resulted in a conflict with the Arab traders under Chief Mlozi, settled at the north end of Lake Nyasa, which spread to the Yao chiefs, who were under their influence.

In 1889 public attention was drawn to Nyasaland by the application for a Charter by the British South Africa Company, and the despatch of an imposing expedition under Major Serpa Pinto to the Upper Zambesi and Lower Loangwa. At the same time Mr. D. Rankin announced the discovery of a navigable entrance to the Zambesi by the Chinde mouth.

In the summer of 1889 Mr. Johnston (later Sir H. H. Johnston, G.C.M.G., K.C.B.) arrived at Mozambique as H.B.M. Consul, and proceeded to travel in the interior to inquire into the troubles with the Arabs.

Treaties having been concluded with the remaining Makololo chiefs and with the Yaos round Blantyre, Mr. Johnston proceeded up Lake Nyasa, leaving Mr. John Buchanan, Acting-Consul, in charge, who, after the first encounter between Major Serpa Pinto and Mlauri, a powerful Makololo chief, proclaimed on the 21st September, 1889, a British Protectorate over the Shiré districts.

Mr. Johnston, during his progress up the Lake, induced the "Jumbe" or Sultan of Kota-Kota to place his country under British protection, and on arriving at Karonga arranged similar treaties with Mlozi and other Arab and Wahenga chiefs, after which he proceeded to Lake Tanganyika. On his return an agreement was made with Mponda, a Yao chief at the south end of Nyasa.

In 1891, an Anglo-Portuguese convention ratified the work of Mr. Johnston, Mr. Sharpe (later Sir A. Sharpe, K.C.M.G., C.B.), and other pioneers of British Central Africa, and in the following spring a British Protectorate over the countries adjoining Nyasa was proclaimed. The Protectorate of Nyasaland, under the administration of an Imperial Commissioner, was confined to the regions adjoining the Shiré and Lake Nyasa; the remainder of the territory under British influence north of the Zambesi being placed, subject to certain conditions, under the British South Africa Company.

In the autumn of 1891 an expedition was successfully conducted by the Commissioner and Captain Maguire against Mohandanji and Mponda, slave-raiding Yaos at the south end of Nyasa, which resulted in the former being attacked and his followers effectually dispersed, and the latter sueing for peace after his town had been shelled. The next few years brought much trouble to the Protectorate in the way of slave-trading and constant raids, but owing to three gun-boats being placed on the Lake for the suppression of the slave trade, further reinforcements of Sikhs arriving from India, and the recruitment of native troops from the Atonga of West Nyasa, the slave trade was abolished and the peaceful development of the Protectorate secured. In 1893, the name of the Protectorate was changed to "The British Central Africa Protectorate," but the old name "Nyasaland Protectorate" was revived in 1907, by the Order in Council which amended the Constitution.

Constitution.

The administration of the Protectorate, control of which was transferred to the Colonial Office from the Foreign Office in March, 1904, was originally conducted by a Commissioner and Consul-General, assisted by the Deputy and Assistant Deputy Commissioner. On transfer to the Colonial Office the post of Consul-General was abolished, and by an Order in Council which came into force in October, 1907, the Commissioner became a Governor and Commander-in-Chief. By the same Order Executive and Legislative Councils were established.

The Laws consist of local Ordinances duly enacted with such British Acts as are of general application. Justice is administered in the High Court, which has jurisdiction in Civil and Criminal matters, and also as a Court of Admiralty. Subordinate Courts are held by Magistrates and Assistant Magistrates in the various districts. Appeals from decision of the High Court are heard in H.B.M.'s Court of Appeal for Eastern Africa.

For the East African Governor's Conference, see under Kenya.

Climate and Products.

There are two distinct climates in the Protectorate, one of the Shiré Valley and Lake Nyasa, the other of the Shiré Highlands and the rest of the country which lies at a high elevation. The first has a rainfall averaging 35 inches yearly, and a temperature which touches 120° in the summer. The second has a pleasant climate, the thermometer ranging from 96° or 97° in the summer to a minimum of about 40° in the winter. The rainfall in the Shiré Highlands varies from about 40 to 100 inches.

Industry and Customs.

The chief products of the Protectorate are coffee, tobacco, cotton, tea, chillies, rubber, rice, maize, groundnuts.

The export of cotton for the year ended 31st December, 1937, was 4,628,821 lbs.; of tobacco 14,536,933 lbs. 93·7 per cent. of the export trade in 1937 was to the United Kingdom and British Colonies.

The chief imports are provisions, cotton goods, motor vehicles, earthenware, hardware, wines and spirits, salt, silk and woollen goods, agricultural

Digitized by Google

machinery, arms and ammunition. 48·9 per cent. of the imports in 1937 came from the United Kingdom and British Colonies.

The Customs revenue is derived principally from an import duty of 20% on the cost at the seaport of discharge, *i.e.*, Beira. No export duties are levied.

Nyasaland being wholly within the regions covered by the Congo Basin Treaties, 1885, and the Convention of St. Germain-en-Laye, 1919, may not grant preferential rates of duty. Its Customs Tariff, therefore, applies equally to imports from all nations.

Customs revenue collected during 1937 amounted to 172,702*l.* as against 159,979*l.* in the previous year.

The following table shows the origin of direct consignments of domestic trade imports during the last six years:—

Year.	United Kingdom.		British Possessions.		Foreign Countries.	
	£	%	£	%	£	%
1932 ...	409,092	55·64	98,396	13·38	227,807	30·98
1933 ...	341,484	54·30	54,841	8·70	232,920	37·00
1934 ...	250,111	48·30	38,386	7·40	229,649	44·30
1935 ...	279,461	44·50	38,398	6·10	310,640	49·40
1936 ...	311,483	46·20	47,781	7·10	314,314	46·70
1937 ...	313,443	42·00	52,020	6·90	381,112	51·10

NOTE.—Government Imports included.

The total domestic exports of the Protectorate during 1937 weighed 15,591 tons and were valued at 901,925*l.* Of the domestic products exported 90·9 per cent. of the weight and 92·5 per cent. of the value were consigned to the United Kingdom.

Means of Communication.

There is a 3 ft. 6 in. gauge railway system extending from the Port of Beira, in Portuguese East Africa, to Chipoka on Lake Nyasa (496 miles) crossing the Zambesi at Sena (199 miles) by the Lower Zambesi Bridge and passing through Blantyre (353 miles). Main roads and "carrier" roads are open all over the Protectorate, the total mileage being 3,733. The Nyasaland road system is linked up with the Great North Road to Tanganyika Territory and Kenya Colony.

There are aerodromes suitable for all types of aircraft at Chileka, Zomba, and Lilongwe; and seasonal landing grounds are available at the principal district stations.

The Empire Air Mail Scheme (Southampton–Durban) was inaugurated in June, 1937. Nyasaland is one of the countries participating in the scheme. Letter Mails to and from the United Kingdom and other participating countries in the Empire Air Mail Scheme are despatched twice weekly by Imperial Airways and Rhodesia and Nyasaland Airways feeder services, via Beira. Mails other than letters and postcards are despatched to and from England, via Capetown, weekly by surface means.

Rates of Postage.

Letters for delivery in Nyasaland 1*d.* per ounce, Postcards ½*d.*

Letters to countries participating in the Empire Air Mail Scheme, 2*d.* per ½ ounce (the normal route for such letters is by air), to other British Territories, not exceeding 1 ounce, 2*d.*, each additional ounce 1½*d.*, to other parts of the world, not exceeding 1 ounce, 3*d.*, each additional ounce 2*d.*; Postcards, by air to participating countries, single 1½*d.* each, to other countries by surface, 1½*d.* each; Commercial papers, 2 ounces ½*d.*, minimum charge 3*d.*; Newspapers, Printed papers and Samples, 2 ounces ½*d.*

Parcels to United Kingdom (via Beira), 3 lbs., 4*s.*, 7 lbs., 6*s.*; 11 lbs., 7*s.* 6*d.*; 22 lbs., 11*s.* Money Orders are issued at a commission of 6*d.* up to £3, and 2*d.* for each additional £1 or portion thereof (up to a limit of £40 for one order), for orders payable in Nyasaland.

For Money Orders payable in the United Kingdom and all other countries, the commission is for sums not exceeding £3, 1*s.*, and 4*d.* for every additional £1 (up to a limit of £40 for one order). Local parcels, 2 lbs. 1*s.*; 5 lbs. 2*s.*; 8 lbs. 3*s.*; 11 lbs. 4*s.* British Postal Orders issued and paid at all Post Offices. Rates of poundage, 6*d.* to 2*s.* 6*d.*, 2*d.*; 3*s.* to 15*s.*, 3*d.*; 15*s.* 6*d.* to 21*s.*, 4*d.*

Telegraphs.

In 1925 the Government purchased the assets of the African Trans-continental Telegraph Company. The line is in use from Ujiji on Lake Tanganyika southwards through the Protectorate, *via* Blantyre and Tete, to Umtali in Southern Rhodesia and thence to Salisbury and Beam Wireless to England. The total mileage through the Protectorate is 1,040 miles. Telegrams may also be transmitted over the railway line and the Portuguese line between Chinde and Tete. Since Government assumed control of the telegraph service extensions have been constructed providing 233 additional miles of line. The telephone service now links up Zomba, Blantyre, Limbe, Cholo, Luchenza, Mlanje, Chiradzulu, Chikwawa, and Railway Telephone Offices.

Education.

An educational policy has been prepared by the Director of Education. Provision is made for the education of European children; native education in the hands of the missionary societies is controlled by the Government.

A grant of £12,079 was made by the Government in 1937.

Currency and Banking.

By a Proclamation of February, 1894, the legal currency is declared to be English sterling, and by Proclamation No. 11 of 1933, Rhodesian Silver Coin was declared legal tender.

Banking operations in the Protectorate are governed by "The Banking Ordinance, 1902."

Two Banks have branches at Blantyre, the principal trading centre of the country, viz., The Standard Bank of South Africa, Limited, and Barclays Bank (Dominion, Colonial and Overseas); the former has a branch at Zomba, and agencies at other centres.

There is a Post Office Savings Bank.

Finance 1937.

Governors since 1919.

1919, May .. Sir George Smith, K.C.M.G.
1923, December.. Sir Charles Bowring, K.C.M.G., K.B.E.
1929, November, Sir T. S. W. Thomas, K.C.M.G., O.B.E.
1932, November, Major Sir H. W. Young, K.C.M.G., D.S.O.
1934, September Sir H. B. Kittermaster, K.B.E., K.C.M.G.

Government—Executive Council.

The Governor.
The Chief Secretary.
The Attorney-General.
The Treasurer.
The Senior Provincial Commissioner (J. C. Abraham, C.M.G., M.B.E.).

Legislative Council.

Ex officio members, as above, and D. L. Blunt (*Director of Agriculture*).
Unofficial Members, W. Tait Bowie, O.B.E., H. B. Wilson, P. W. Skerrett, Right Reverend F. O. Thorne, M.C., M.A., Capt. W. Evans, M.C.
Clerk of the Council, W. J. Roper. 50*l.* allowance.

Civil Establishment.

Governor and Commander-in-Chief, (vacant), 2,500*l.* with 500*l.* allowance.
Aide-de-Camp, Lieut. T. H. Birkbeck, 240*l.* by 20*l.* to 400*l.*

Secretariat.

Chief Secretary, K. L. Hall, C.M.G., 1,450*l.*
Assistant Chief Secretary, J. M. Ellis, O.B.E., 1,000*l.*
Assistant Secretary, W. J. Roper, 475*l.* by 25*l.* to 600*l.* by 30*l.* to 840*l.* by 40*l.* to 920*l.*
Office Superintendent, H. P. Coombes, 500*l.* to 600*l.* by 25*l.*
Supt. of Registration, J. Mackenzie, M.M., 390*l.* to 480*l.* by 18*l.* to 540*l.* by 20*l.*
Senior Clerk, H. G. Lawrence, 390*l.* to 480*l.* by 18*l.*
Clerks, P. L. Batcock, M. V. Smithyman, N. J. Carr, 300*l.* to 480*l.* by 18*l.*

District Staff.

Senior Provincial Commissioner, J. C. Abraham, C.M.G., M.B.E., 1,300*l.*
Provincial Commissioner, A. G. O. Hodgson, 1,200*l.*
Labour Commissioner, E. Smith, 1,000*l.*
District Officers, H. C. Foulger, A. C. Kirby, W. S. Phillips, H. C. J. Barker, W. H. Murphy, I. C. Ramsay, R. C. Allan, S. G. Williams, M.C., C. B. Nichols, M.C., S. J. Pegler, D.S.O., G. W. Kenyon-Slaney, O. C. Ardagh, R. H. Keppel-Compton, V. Fox-Strangways, I. B. Moir, M.C., W. E. L. Jennings, E. C. Barnes, G. N. Burden, M.B.E., M. E. Leslie, M. C. Hoole, M.C., C. E. Parker, M.C., J. W. D. Locker, M.B.E., W. A. N. Thatcher, K. W. Switzer, P. B. McDonald, N. A. Whitechurch, H. V. McDonald, H. S. Selous, S. J. Olivier, A. E. Savage, H. F. Bingham, C. A. S. Parker, C. W. Benson, R. D. W. Martin, W. H. J. Rangeley, T. D. Thomson, 475*l.* to 600*l.* by 25*l.* to 840*l.* by 30*l.* to 920*l.* by 40*l.*
Cadets, H. J. H. Borley, J. H. Ingham, P. T. Cotton, I. G. Farquhar, M. A. Sharpe, W. B. Stanhope-Lovell, 350*l.* for 2 years.
Senior Clerk, J. L. Gamble, 390*l.* to 480*l.* by 18*l.*
Junior Clerks, C. E. J. Lock, J. E. Gray, J. C. Bishop, G. C. Glegg, 186*l.* to 246*l.* by 15*l.* to 300*l.* by 18*l.*

Agriculture.

Director, D. L. Blunt, 1,100*l.*
Assistant Director of Agriculture and Chemist, A. J. W. Hornby, M.B.E., 480*l.* to 600*l.* by 20*l.* to 840*l.* by 30*l.* to 920*l.* by 40*l.*
Agricultural Officers, F. Barker, E. Lawrence, B. C. G. Charles, R. W. Kettelwell, A. P. S. Forbes, C. W. R. McCreary, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Entomologist, C. Smee, M.C., 600*l.* to 840*l.* by 30*l.*
Assistant Chemist, I. W. M. A. Black, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Office Superintendent and Secretary, Native Tobacco Board, J. A. Callow, 480*l.* to 600*l.* by 20*l.*
Clerk, R. Neil, 300*l.* to 390*l.* by 18*l.* to 480*l.* by 18*l.*
Junior Clerk, A. E. Copping, 186*l.* by 15*l.* to 246*l.* by 18*l.* to 300*l.*

Audit.

Auditor, F. S. Williams, 920*l.*
Senior Assistant Auditor, H. A. W. Churcher, 810*l.* to 920*l.*
Assistant Auditor, J. L. Hackforth, 360*l.* (for 2 years), 425*l.* to 600*l.* by 25*l.* to 720*l.* by 30*l.*

Customs.

Comptroller of Customs, E. H. Warren, M.B.E., 1,000*l.*
Customs Assistants, D. M. Black, J. G. Westwood, W. H. D. Charlton, J. C. Jeremy, 360*l.* (for 2 years), 425*l.* to 600*l.* by 25*l.*
Clerks, K. W. West, A. Bishop, 300*l.* by 18*l.* to 390*l.* by 18*l.* to 480*l.*

Education.

Director, A. T. Lacey, O.B.E., 1,000*l.*
Assistant Director (vacant), 720*l.* to 840*l.* by 30*l.* to 920*l.* by 40*l.*
Principal, "Jeanes" Training Centre, E. D. Bowman, M.B.E., 800*l.* to 920*l.* by 40*l.*
Superintendents of Native Education, L. A. C. Buchanan, I. F. G. Stott, 400*l.* for 2 years, 475*l.* by 25*l.* to 600*l.*, by 30*l.* to 840*l.* by 40*l.* to 920*l.*
Assistant Masters, "Jeanes" Training Centre, N. D. Clegg, T. Mason, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Assistant Mistresses, "Jeanes" Training Centre, Miss M. M. Smith, Miss M. A. Kennedy, 240*l.* by 18*l.* to 276*l.* by 24*l.* to 300*l.*
Clerk, D. M. Paterson, 300*l.* to 480*l.* by 18*l.*
Junior Clerk, J. A. Gray, 180*l.* by 15*l.* to 246*l.* by 18*l.* to 300*l.*

Forestry.

Conservator of Forests, J. B. Clements, 920*l.*
Assistant Conservators, R. G. R. Townsend, P. Topham, W. E. Lewis, R. G. M. Willan, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Forester, C. G. Searle, 372*l.* to 480*l.* by 18*l.*

Lands.

Lands Officer, J. E. Alexander, 920*l.*
Assistant Lands Officer, H. Malpass, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Assistant Surveyors, E. D. Fort (one vacancy), 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Computer-Draughtsman, C. A. Higman, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*

Legal and Judicial.

Judge of the High Court, A. M. Thomas, 1,450*l.*
Attorney-General, H. G. Morgan, 1,200*l.*
Crown Counsel, G. E. Strickland, 720*l.* to 840*l.* by 30*l.* to 1,000*l.* by 40*l.*
Registrar and Administrator-General, A. J. Stone, M.B.E., 600*l.* to 720*l.* by 30*l.*

Digitized by Google

Assistant Registrar and Administrator-General, J. E. Jones, 480*l.* to 600*l.* by 20*l.*
Clerk, W. A. E. Rossiter, 300*l.* to 480*l.* by 18*l.*
The District Staff hold warrants as District Magistrates and Assistant District Magistrates.

Medical.

Director of Medical and Sanitary Services, H. S. de Boer, M.C., 1,300*l.*
Senior Medical Officers, R. Calleja, T. A. Austin, H. G. Fitzmaurice, 1,000*l.* to 1,100*l.* by 50*l.*
Medical Entomologist, W. A. S. Lamborn, O.B.E., 1,000*l.* to 1,100*l.* by 50*l.*
Pathologist, H. M. Shelley, 600*l.* by 30*l.* to 840*l.* by 40*l.* to 920*l.*
Medical Officers, W. H. Watson, W. L. Gopsill, R. Nicklin, F. O. W. A. Mahon-Daly, P. J. Bourke, L. C. Mayne, R. N. Wilcox, H. D. Cronyn, D. P. Turner, C. H. Howat, W. T. C. Berry, A. T. D. Whitfield, W. A. Glynn, J. O. Creighton, O. N. Ransford, 600*l.* to 840*l.* by 30*l.* to 920*l.* by 40*l.*
Office Superintendent and Medical Storekeeper, R. W. G. Pegg, 480*l.* to 600*l.* by 20*l.*
Junior Clerk, V. Smithyman, 186*l.* by 15*l.* to 246*l.* by 18*l.* to 300*l.*
Health Inspectors, W. A. Willox, F. L. Chapman, 372*l.* to 480*l.* by 18*l.*
Nurses—
Matron, Miss N. M. Cremen, M.B.E., 300*l.* to 426*l.* by 18*l.*, and 20*l.* uniform allowance.
Nurses, H. M. Phillips, N. K. Clemence, M. E. S. Cumming, E. M. R. D. Davies, R. P. Harrison, E. Irving, S. Barber, M. Arnott, 240*l.* to 300*l.* by 18*l.*, P. Hutchinson, K. Scott, 240*l.* to 276*l.* by 18*l.* to 300*l.* by 24*l.*, and 20*l.* uniform allowance.

Nyasaland Volunteer Reserve.

Organising Secretary, H. P. Coombes, 120*l.*
Pay and Quartermaster, P. L. Batcock, 48*l.*

Police, Prisons and Lunatic Asylum.

Chief Commissioner of Police and Chief Inspector of Prisons, Principal Immigration Officer and Registrar of Motor Vehicles, Major F. T. Stephens, O.B.E., M.C., 1,000*l.*
Superintendent (Criminal Investigation Department), V. C. Curnock, I.S.O., 600*l.* to 840*l.* by 30*l.*
Superintendents, R. J. Paul, B. J. Pearson, W. B. Bithrey, 600*l.* to 840*l.* by 30*l.*; J. Green, 425*l.* to 600*l.* by 25*l.* to 720*l.* by 30*l.*
Assistant Superintendents, H. Stevens, A. E. Wilson, G. D. A. Branfill, C. P. Guise, G. B. Foote, 425*l.* to 600*l.* by 25*l.* to 720*l.* by 30*l.*
Inspectors, A. T. Tate, J. E. S. Tennant, 372*l.* by 18*l.* to 480*l.* and uniform allowance, 10*l.*
Assistant Inspectors, F. B. Smith, A. L'E. Gammage, C. J. Anson, 300*l.* to 372*l.* by 18*l.*
Superintendent, Central Prison, J. Archer, M.B.E., D.C.M., 425*l.* to 600*l.* by 25*l.*, and 100*l.* as *Superintendent, Lunatic Asylum.*
Deputy Superintendent, Central Prison, G. S. Paveley, 300*l.* to 480*l.* by 18*l.*, uniform allowance 10*l.*, and 50*l.* as *Deputy Superintendent, Lunatic Asylum.*
Gaoler, J. R. Lennon, 372*l.* to 426*l.* by 18*l.*, and uniform allowance 10*l.*
Examiner of Motor Vehicles, H. G. Parker. 300*l.* to 480*l.* by 18*l.*
Senior Clerk, J. A. A. Channer, 300*l.* to 480*l.* by 18*l.*
Junior Clerk, R. D. McKay, 186*l.* to 246*l.* by 15*l.* to 300*l.* by 18*l.*

Posts and Telegraphs.

Postmaster-General, J. A. Hudson, 920*l.*
Assistant Postmaster-General, H. Thompson, M.B.E., 600*l.* to 840*l.* by 30*l.*
Surveyors, J. W. Crompton, (one vacant), 425*l.* to 600*l.* by 25*l.* to 720*l.* by 30*l.*
Accountant, W. R. H. Morgan, 425*l.* to 600*l.* by 25*l.* to 720*l.* by 30*l.*
Senior Postmaster, P. Shimmins, 480*l.* to 600*l.* by 20*l.*
Postmasters, S. Lawrie, F. Wood, E. St. G. Browne, 426*l.* to 480*l.* by 18*l.*
Assistant Postmasters, N. Smith, T. Hoey, J. S. Lynn, C. J. Chambers, J. A. Marais, 372*l.* to 480*l.* by 18*l.*
Telegraph and Telephone Engineer, D. G. M. Lawson, 600*l.* to 720*l.* by 30*l.*
Telegraph Inspectors, F. J. T. Burley, W. F. Irvine, 400*l.* to 500*l.* by 20*l.*

Printing and Stationery.

Government Printer, T. T. Davies, 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*; Stationery allowance, 25*l.*
Press Superintendent, E. G. R. Dunn, 372*l.* to 480*l.* by 18*l.*
Asst. Press Superintendent, D. N. Fergusson, 372*l.* to 480*l.* by 18*l.*

Public Works.

Director of Public Works, B. R. Peters, M.B.E., 1,100*l.*
Assistant Director (vacant), 840*l.* to 920*l.* by 40*l.*
Executive Engineer, H. R. Price, (one vacant), 600*l.* to 840*l.* by 30*l.*
Assistant Engineers, E. F. Bryan, M.B.E., R. E. Allen, H. L. Smith, C. R. P. Curran, M.B.E., 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Government Architect and Surveyor (vacant), 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Electrical Engineer, W. J. Barnicoat, 480*l.* by 20*l.* to 600*l.*
Chief Accountant, L. E. Watson, 600*l.* to 720*l.* by 30*l.*
Storekeeper (vacant), 480*l.* to 600*l.* by 20*l.*
Senior Clerks, L. F. Haselgrove, G. T. Stafford, 390*l.* to 480*l.* by 18*l.*
Clerks, E. Reed, M.M., J. Clyne, M.C., 300*l.* to 480*l.* by 18*l.*
Works Supervisors, Grade I, E. G. Snow, D. I. Morgan, H. M. Mitchell, L. G. Walker, J. McLaughlan, J. W. Hitchner, C. W. Adamson, L. A. Clarke, E. A. du Frayer, 372*l.* to 480*l.* by 18*l.*
Works Supervisors, Grade II, W. W. Hazeldine, 180*l.* by 12*l.* to 264*l.* by 18*l.* to 372*l.*
Road Plant Superintendent, C. J. Kearns, 372*l.* by 18*l.* to 480*l.*
Assistant Road Plant Supervisor, S. J. Bell, 300*l.* by 18*l.* to 390*l.*
Workshop Manager, A. E. Wiltshire, 372*l.* to 480*l.*

Geological Survey.

Director of Geological Survey, F. Dixey, O.B.E., 1,000*l.*
Geologist (vacant), 600*l.* by 30*l.* to 840*l.*
Well Borer, W. H. Rider, 500*l.*
Well Borer, C. N. Pini, 540*l.*
Wells Maintenance Officer, W. G. Macintyre, 336*l.* to 480*l.* by 18*l.*
Wells Foremen, R. C. S. Broadbent, L. G. Jessep, 360*l.*
Clerk, E. P. Hodgson, 300*l.* by 18*l.* to 480*l.*

Mineralogical Survey.

Geologists, H. E. F. Savage, 720*l.*, J. B. Alexander, 600*l.*

Transport.

Chief Transport Officer and Registrar of Aircraft, C. C. Metcalfe, M.B.E., M.C., 920*l.*
Senior Clerk, F. J. Kidman, 390*l.* by 18*l.* to 480*l.*

Digitized by Google

Supt. Engineer, M. W. Bartlett, M.B.E., 480*l.* to 600*l.* by 20*l.* to 720*l.* by 30*l.*
Assistant Engineers, F. H. Dally, J. L. Edwardes, 372*l.* by 18*l.* to 500*l.*

Treasury.

Treasurer and Commissioner of Income Tax (vacant), 1,250*l.*
Deputy Treasurer, F. J. Lock, 840*l.* to 920*l.* by 40*l.*
Assistant Treasurers, R. R. Harris, R. G. Fentum, E. I. Christie, C. H. Nicholl, V. B. Cammell, W. L. Skinner, 360*l.* (for 2 years), 425*l.* to 600*l.* by 25*l.*; to 720*l.* by 30*l.*
Cashier, A. D. Wilks, 425*l.* to 600*l.* by 25*l.* 720*l.* by 30*l.*
Book-keeper, J. S. Pring, 300*l.* to 500*l.* by 18*l.*
Senior Clerk, A. A. Bacon, 390*l.* by 18*l.* to 480*l.*
Clerk, Miss M. B. Panting, 186*l.* to 246*l.* by 15*l.* to 300*l.* by 18*l.*

Veterinary.

Chief Veterinary Officer, J. de Meza, 920*l.*
Veterinary Officers, J. M. Culhane, S. G. Wilson, H. R. Binns, 600*l.* to 840*l.* by 30*l.*
Stock Inspectors, H. B. P. Cattrall, S. W. Gaffikin, 372*l.* to 426*l.* by 18*l.*

Relief Clerks.

U. J. Chamberlain, 300*l.* by 18*l.* to 480*l.*, C. A. Clarke, J. J. Phillips, 300*l.* *Junior Clerk*, H. A. Wright, 186*l.* by 15*l.* to 246*l.* by 18*l.* to 300*l.*
Clerk Interpreter, Miss K. Smith.

PALESTINE.

Palestine is bounded on the north by the States of Syria and the Lebanon, which are under French Mandate, on the west by the Mediterranean Sea, on the south by the Egyptian province of Sinai (the boundary running from a point west of Rafah on the Mediterranean to a point two miles to the west of where the thalweg of the Wadi 'Araba joins the Gulf of 'Aqaba) and on the east by Trans-Jordan, which is included in the area of the Palestine Mandate.

The boundary on the north was determined by the Franco-British Convention of 23rd December, 1920, (Comd. 1195) and in pursuance of that Convention was delimited between the Mediterranean and El Hamme in 1922. The Agreement between His Majesty's Government and the French Government giving effect to the delimitation is published as Cmd. 1910 (Treaty Series No. 13 (1923)).

The frontier runs from the Mediterranean at Ras en Naqura eastwards to Yarun, thence N.E. to the village of Qadas, thence N.N.E. to Metulla and across the Jordan Valley to Tell el Qadi (in Palestine) and Banyas (in Syria), thence S.S.W. to Jisr Banat Ya'qub, thence southwards along the Jordan to the Lake of Tiberias, thence along the eastern shore of the Lake of Tiberias to a point almost due east of the town of Tiberias, thence S.S.E. to El Hamme Station on the Hejaz railway.

The frontier with Trans-Jordan is defined as a line drawn from a point two miles west of 'Aqaba on the Gulf of 'Aqaba up the centre of the Wadi 'Araba, the Dead Sea and the River Jordan to the junction of the latter with the River Yarmuq, thence up the centre of the River Yarmuq to the Syrian frontier.

The Natural Divisions of Palestine.

Palestine comprises four zones of country:—
(*a*) The hill country of Galilee and Judaea,
(*b*) The five plains, including that lying in the rift of the Jordan Valley, which, from the north of Lake Tiberias to the Dead Sea, is actually below the level of the Mediterranean,
(*c*) the Beersheba area, different in character and population from the rest of the country,
(*d*) the desert area.

The five plains are:—The Acre Plain, the Plain of Esdraelon, the Huleh Plain, the Coastal Plain and the Plain of the Jordan.

Geology.

The Hill Country is composed principally of limestone which provides excellent building stone of various types and colours. Calcareous sandstone abounds along the coast and was used by the Crusaders for their maritime forts and castles (Atlit and Acre); the new Haifa breakwater has been constructed of a similar stone from Atlit. Of metallic minerals, copper ores and deposits of manganese occur in the southern part of Palestine near the Gulf of 'Akaba, but are not worked at present. Petroleum and bitumen exudations are found around the southern part of the Dead Sea. This region and the area westward as far as the Mediterranean Sea has been partially explored by Oil Companies. Exploration was suspended for a period during which oil mining legislation was undergoing revision. The new legislation came into operation on 1st September, 1938, and as a result active exploration for oil will probably be resumed. Of non-metallic ores, rock phosphate and bituminous limestone occur in large deposits on the slopes of the Judaean Wilderness. Rock salt occurs in unlimited quantity in the salt dome of Jebel Usdum and has been used for the supply of the Jerusalem market. A sulphur deposit of commercial importance has been located south of Gaza. A plant for treatment and concentration of the sulphur in the ore has now been installed. A good quality of gypsum is found at Menahemiya near Tiberias and impure varieties are found on the slopes of the Judaean Wilderness. Extensive deposits of anhydrite (anhydrous gypsum) occur overlying the rock salt at Jebel Usdum.

The production of potassium chloride and bromine by Palestine Potash Ltd. shows a substantial increase and the market has now become world wide. Large evaporating basins have now been constructed at the south end of the Dead Sea. Pumps have been erected and production on a large scale is expected. There are hot springs of medicinal value at Tiberias and El Hamme where bathing establishments on modern lines have been erected for the treatment of patients and, in addition, at El Hamme large baths for pleasure bathing and swimming in the waters of varying tepid temperatures are provided.

Climate.

The climate of Palestine varies with the altitude: the coastal region is sub-tropical and humid; the elevated, hilly zone is drier and more temperate, while the Jordan Valley is hot and the rainfall slight. The summer months are almost rainless. January and February are, in general, the wettest months and the main rainfall occurs between November and April. The rainfall varies largely, from a minimum of 2½ inches in the south to a maximum of 31 inches in the north.

Water for domestic use is obtained in the larger towns from piped supplies; in the smaller towns

and rural districts, from rock cisterns in which rain water is collected or from small springs or wells.

Malaria, which was formerly very prevalent, has now been eradicated from the large towns and in rural areas a very marked reduction in incidence has been effected as a result of various large drainage schemes, anti-larval control, as well as by mass treatment of the population in those areas where the incidence of the disease was very high. One or two highly endemic areas remain to be dealt with on a permanent basis.

Epidemic diseases are not unduly prevalent.

Jerusalem Water Supply.

Jerusalem now has a pipe-borne, filtered, softened and sterilized water supply from Ras-El-Ain Springs (situated some 47 kilometres north-west from and 2,600 feet below Jerusalem). The pipe line is 60 kilometres long. The plant for the supply was installed by the Palestine Government.

All the earlier supplies established by the Military of Jerusalem Municipality were closed down in 1936.

The second service reservoir of 2,200,000 gallons and extension of 10″ to 18″ reticulation mains were completed in 1936 and further extensions of 8″, 6″, 5″ and 4″ mains have since been made.

Government.

Under Turkish rule, part of Palestine was in the Vilayet (Province) of Beirut and part in the Sandjak (District) of Jerusalem. After its conquest in 1917–1918 by the British forces, the country remained under British Military Administration until July, 1920, when Sir Herbert Samuel was appointed High Commissioner, and a Civil Administration set up.

By the Treaty of Peace, signed at Lausanne on 24th July, 1923, Turkey renounced all rights over Palestine. The Principal Allied Powers had selected His Britannic Majesty as Mandatory at the Conference at San Remo, on 25th April, 1920. The terms of the Mandate were approved by the Council of the League of Nations on the 24th July, 1922, and the Mandate came into force on September 29th, 1923. The Mandatory is responsible, *inter alia*, for carrying into effect the terms of the Balfour Declaration of November 2nd, 1917, viz.:—"His Majesty's Government view with favour the establishment in Palestine of a national home for the Jewish people, and will use their best endeavours to facilitate the achievement of that object, it being clearly understood that nothing shall be done which may prejudice the civil and religious rights of existing non-Jewish Communities in Palestine, or the rights and political status enjoyed by Jews in any other country."

On the 1st September, 1922, a Constitution was promulgated.

Under this Constitution Palestine is governed by a High Commissioner, who is also the Commander-in-Chief, assisted by an Executive Council consisting of the Chief Secretary, the Attorney-General, the Treasurer and Commissioner on Special Duty, and by an Advisory Council consisting of heads of certain Departments.

An attempt was made in 1923 to create the Legislative Council provided for in the Constitution, but owing to the refusal of the Arabs to take part in the elections, it was replaced by the Advisory Council in order to secure the enactment of legislation until such time as a Legislative Council is created.

English, Arabic and Hebrew are the official languages of the country.

In 1921, a Supreme Moslem Council was constituted in order to control and manage Moslem Awqaf and Sharia Courts in Palestine. It consists of a President known also as Rais-Al-Ulema, and four members.

The Council has established a Moslem Orphanage in Jerusalem, and has carried out important repairs of sacred buildings and extensive tree planting on Waqf land and in Moslem cemeteries.

Regulations were made under the Religious Communities Ordinance, 1926, by the High Commissioner in 1927 for the organisation of the Jewish Community in Palestine. The Jewish community, like the Moslem and the various Christian communities enjoys autonomy in the administration of its internal affairs, religious, cultural and communal; it has also power to levy rates on its members. The organs of the community are a Chief Rabbinate and local Rabbinical offices, an Elected Assembly, a General Council which is elected by the Assembly and represents the community in its dealings with the Government, and local communities.

Complete freedom in their communal affairs is allowed to those Jewish congregations who have exercised the option to remain outside the recognized community.

The Jewish Agency is recognized as the representative body of the Jewish people in all matters pertaining to the upbuilding of the Jewish National Home: it is represented in Palestine by an Executive whose headquarters are at Jerusalem.

The Palestine Government has maintained in force the status and privileges accorded to the different Christian Communities under the Ottoman regime.

The affairs of the towns are administered by Municipal Councils presided over by Mayors. In large villages Local Councils have been set up.

District Town Planning Commissions have now replaced the former Central Town Planning Commission and deal with town planning schemes in their districts put forward by Local Town Planning Commissions both for municipal and rural areas. A Town Planning Adviser who is "*ex officio*" member of all the District Town Planning Commissions is attached to the office of the Attorney-General. The preparation of regional schemes under his direction are now being considered.

Area and Population.

The country is, at present, divided into four districts—the Southern, Jerusalem, Haifa–Samaria and Galilee–Acre Districts—each administered by a District Commissioner.

Palestine, as administered by the Palestine Government, is 10,400 square miles in extent.

The population of this territory taken by Census on November 18th, 1931, was 1,035,821, of which number 387,291 were living in 23 towns and large villages and 66,553 were nomad bedouin. An estimate of the total population at 30.6.38 based on natural increase and excess of immigration is 1,418,618, of whom 895,161 were Moslems, 399,807 Jews, 111,794 Christians and 11,856 others. The Moslems include the nomad bedouin population, about whom no separate figures are available except those given in the Census of 1931 (66,553). The chief town, Jerusalem, which had been in Moslem hands since 1244, and under Turkish rule since 1517, surrendered to General Allenby on December 9th, 1917. Its population in 1931 was 90,503. The Church of the Holy Sepulchre is visited annually by large numbers of Christian pilgrims, principally of the Orthodox and Coptic Churches. The site of Solomon's Temple is occupied by the Dome of the Rock, which contains a relic of Muhammad and the reputed sacrificial stone of Abraham. Bethlehem, the scene of Christ's Nativity and the birthplace of King David, is five miles south of Jerusalem. The Church of the Nativity, at the east end of the present village, is said to be the oldest Christian church in existence.

The population figures of the other principal towns at the date of the Census (18.11.31) were:—

Digitized by Google

Jaffa, 51,866; Tel-Aviv, 46,101; Haifa, 50,403; Gaza, 17,046; Nazareth, 8,756; Nablus, 17,189; Safad, 9,441; Tiberias, 8,601; Hebron, 17,531; Ramle, 10,421; Bethlehem, 6,815; Lydda, 11,250; Acre, 7,897.

There has been great growth of the large towns in the years since the census and at the end of 1937 the estimated populations were: Jerusalem 126,000, Haifa 100,000, Tel Aviv 140,000, Jaffa 69,000.

Jewish Colonisation.

The total Jewish population of Palestine is estimated in June, 1938, to aggregate very nearly 400,000, and thus to constitute 28·2% of the settled population of the country. Jewish agricultural settlements number 227 and have a population of close on 106,000 persons. 129 of these settlements are situated on land of the Jewish National Fund which was established by the Zionist Organisation for the purpose of acquiring land as inalienable property of the Jewish people. The land owned by the Jewish National Fund amounted at the end of July, 1938, to 420,000 metric dunams. These settlements were equipped and financed by the Jewish Agency with the funds provided by the Palestine Foundation Fund (Keren Hayesod) which is the financial instrument of the Agency.

During the last seventeen years (April, 1921, to the end of March, 1938) the Keren Hayesod spent £P.2,259,000 on agricultural colonisation; £P.1,089,000 on education; £P.1,159,000 on labour and urban colonisation; £P.1,095,000 on immigration, health and social work, and £P.892,000 on other purposes—in all £P.6,494,000. The investment of the Jewish National Fund in land and improvements, afforestation, water supply, etc., amounted to three and three-quarter million pounds (to the end of June, 1938). The total receipts of the Zionist institutions during the year 1936–37 amounted to £P.1,362,000.

Extensive colonisation work has also been done by the Palestine Jewish Colonisation Association (PICA) which took over the colonies established by Baron Edmond de Rothschild and founded new settlements. There are at present 24 such colonies under the PICA administration.

A number of settlements have been established on land acquired by private companies and individuals. The total area in Jewish possession amounted at the end of July, 1938, to 1,290,000 metric dunams. The main areas are located as follows:—Maritime Plain, 570,000; Plain of Esdraelon, 165,000; Jordan Valley, 120,000; hill country, 393,000 and 42,000 in the Negev. In addition 162,000 dunams of land and water have been granted by way of concession, half of which was granted to Jewish colonising institutions, and the other half to industrial concerns in which there is Jewish and non-Jewish capital. The total area held by Jews thus amounts to 1,452,000 dunams, i.e., to 5·3% of the total area of Palestine. The area under citriculture in Jewish villages amounts to about 160,000 dunams, the export thereof during the season 1937–38 having amounted to over seven million cases.

The Jewish urban population totals approximately 300,000, its main centres being:—Jerusalem and suburbs, 77,000; Tel Aviv, a purely Jewish city, 155,000, including the neighbouring Jewish quarters of Jaffa; Haifa and Haifa Bay, 58,000. In 1937 there were in the country 5,606 Jewish factories and artisans' workshops, employing 30,000 owners and wage-earners, possessing an invested capital of about £P.11,637,000, and having an annual output of £P.9,109,000, as compared with 1,850 establishments in 1921, possessing a capital investment of half a million pounds.

The Jewish community of Palestine is organised in accordance with the provisions of the Communities Ordinance and is represented by the General Council (Vaad Leumi); the latter controls the Hebrew School System and the Jewish Health Services. In the school system of the Vaad Leumi there were at the beginning of 1938, 391 schools attended by 49,661 pupils.

At the end of 1938, 80,000 Jewish workers were organised in the General Federation of Jewish Labour. The Federation has organised a comprehensive system of co-operative societies with branches in agriculture, transport, construction, building and credit. It also maintains a workers' sick fund, with 72,000 members in January, 1938, annual budget being £P.253,000.

The Jewish Agency, consisting of Zionists and non-Zionists, functions under the terms of Article 4 of the Palestine Mandate. It is recognised by the Mandatory Power as a public body for the purpose of advising and co-operating with the Administration of Palestine in matters affecting the Jewish National Home and the interests of the Jewish population in Palestine. It is represented in Palestine by an Executive consisting of eight members.

Education.

In July, 1938, the approximate number of children in Palestine between the ages of 5 and 15 was 341,000, of whom 248,000 were Moslems, 68,000 Jews and 25,000 Christians.

The number of children of all ages who attended school in 1937–38 was 158,874, including 63,550 Moslems, 72,403 Jews, and 22,921 Christians.

The Arab Public System of Education, maintained by Government, embraced in that school year 402 schools with 49,400 pupils, the great majority of whom were Moslems. The schools included 2 Teachers' Training Colleges with 99 men and 60 women students, and 11 schools with 23 secondary classes containing 581 secondary pupils. The Kadoorie Agricultural School at Tulkarm had 50 boarders. Technical education is provided in most of the larger schools and a Trade School was opened in 1938 with 51 boys. The Law School in Jerusalem had 219 students.

The Jewish and Christian Communities provide, the former almost entirely and the latter to a very large extent, for the education of their own children.

The Hebrew Public System, controlled by the General Council (Vaad Leumi) of the Jewish Community of Palestine, embraced 395 schools with 49,920 pupils. These included 4 Teachers' Training Colleges with 249 men and 453 women students, and 12 schools with 51 secondary classes containing 2,817 secondary pupils. There were also 227 private Jewish schools with 21,456 pupils, including 2 Teachers' Training Colleges with 118 women students and 15 secondary schools with 1,162 pupils.

There were 13 Jewish Agricultural schools with 1,088 pupils, 14 junior technical schools with 1,428 students, and a Technical Institute at Haifa with 499 students. The Hebrew University at Jerusalem had 733 students. The Hebrew Kadoorie Agricultural School which was opened at Mount Tabor in the summer, 1934, had 40 boarders.

The Christian schools, maintained by various foreign and religious bodies, numbered 193, with 24,046 pupils, 39 of these schools had 122 secondary classes with 1,865 pupils; the 3 agricultural schools had 93 pupils.

There were 97 private Moslem schools maintained by private persons and associations, with 8,364 boys and 2,149 girls. There were also 87 kuttabs or Koranic schools. These provided for 3,539 children, of whom 183 were girls.

Digitized by Google

Some non-Government schools receive a capitation grant-in-aid from the Department of Education, conditional on the acceptance of a certain measure of Government supervision and inspection. Grants totalling £P.46,352 were made to the Jewish Community of Palestine for its schools for the financial year 1936–7; these were raised to £P.53,365 in the financial year 1937–8.

The Palestine Board of Higher Studies was established in 1924. The Government and many educational institutions are represented on it. It conducts the Palestine Matriculation Examination and the Palestine Diploma Examination, both of which are public examinations recognised by Government. The Palestine Matriculation Examination is recognised by many British Universities.

Justice.

The Courts in Palestine are either Civil or Religious Courts. The former have jurisdiction over all matters save those of personal status and Waqfs or charitable endowments, subject to the provisions mentioned below.

There is a Magistrate's Court in each sub-district, and in the larger towns such as Jerusalem, Jaffa, Haifa, Tel-Aviv, and Nablus, two or more such Courts.

There are five District Courts, each composed of a British President or Relieving President and two Palestinian Judges sitting at Jerusalem, Jaffa, Haifa, Tel-Aviv and Nablus respectively. They go on circuit within the area of their jurisdiction. A District Court has jurisdiction in first instance over all crimes except those punishable with death, and civil cases outside the jurisdiction of a Magistrate in and for that district; it also hears appeals subject to certain restrictions from the decisions of Magistrates both in civil and in criminal cases. A Registrar is attached to each of the District Courts and exercises certain judicial functions. Crimes punishable with death are tried by the Court of Criminal Assize, which consists of the Chief Justice or British Judge of the Supreme Court sitting with the President or Relieving President and a Palestinian Judge of the District Court.

The Supreme Court of Palestine is composed of the Chief Justice and three other British Judges and four Palestinian Judges. The Court sits in two capacities: (1) as a Court of Appeal, and as such it has appellate jurisdiction in civil and criminal matters decided by the District Courts in first instance, the Land Courts and the Court of Criminal Assize; (2) as a High Court of Justice, in which capacity it hears petitions for habeas corpus, mandamus, etc., and applications which are not within the jurisdiction of any other Court.

The Court of Appeal is composed of two Judges but the Chief Justice may by warrant under his hand constitute a Court of either three or five Judges, while the High Court may not sit with less than two Judges. In each capacity a British Judge presides.

Benches of honorary Magistrates have been established in certain towns to try contraventions for which the maximum penalty does not exceed £P.5 fine or 15 days' imprisonment or both penalties.

Special arrangements exist in the Beersheba sub-district, where minor cases are disposed of according to tribal custom by the Court of Sheikhs. An appeal lies from this Court to the Tribal Court of Appeal which is constituted of the District Officer of Beersheba as President and two Sheikhs chosen by the District Officer who have not sat in the Tribal Court as members.

All matters of personal status affecting Moslems are within the jurisdiction of the Sharia Courts. A Sharia Court consists of a Qadi, and appeals from his decision lie to the Moslem Court of Appeal, which is composed of a President and two members.

Jewish Religious Courts have exclusive jurisdiction in certain matters of personal status of Palestinian Jews and jurisdiction by consent with regard to other nationals except in matters of dissolution of marriage. An appeal from the decision of the Jewish Religious Courts lies to the Rabbinical Council.

The different Christian Communities (such as the Orthodox and the Latin), have similar jurisdiction to that of the Jewish Courts.

Questions as to whether a case is one of personal status within the exclusive jurisdiction of a Religious Court shall be referred to a Special Tribunal composed of two British Judges of the Supreme Court and the President of the Highest Court of the Religious Community concerned in Palestine.

Security.

The Police and Prisons establishment in December, 1937, was 190 Officers (including 73 British Officers) and 3,692 other ranks (including 1,121 British N.C.O.s and Constables). 1,598 serious offences against persons and property were reported in 1937 and 2 death sentences were carried out.

There are Central Prisons in Jerusalem and Acre for long-term prisoners, and a Female Prison in Bethlehem. There are also three Jail Labour Companies of approximately 350 each, the prisoners of which are employed on public works.

The normal garrison of Palestine and Trans-Jordan consists of:—

Headquarters, British Forces in Palestine and Trans-Jordan (Jerusalem), which administers the following Army, Royal Air Force and Trans-Jordan Force units:—

Army:—

Headquarters, British Forces in Palestine and Trans-Jordan.
Headquarter Troops.
Headquarters, 14th Infantry Brigade.
3 Infantry Battalions.
Headquarters, 16th Infantry Brigade.
3 Infantry Battalions.
One Field Company, Royal Engineers.
Detachment, 8th Railway Company, Royal Engineers.

Royal Air Force:—

Headquarters, Royal Air Force in Palestine and Trans-Jordan.
2 Squadrons (Day Bomber aircraft).
1 Flight (Communication aircraft).
1 Company Armoured Cars.
Meteorological Sections at Amman and Ramleh.
Combined Supply Depot (R.A.S.C. and Royal Air Force).
Royal Air Force General Hospital, Sarafand.

Trans-Jordan Frontier Force:—

Headquarters.
3 Cavalry Squadrons.
2 Mechanized Squadrons.

Industry and Trade.

The principal industries of export importance are those of the cultivation of citrus fruits in the Southern District and the district round Haifa; soap-boiling in Nablus, Jaffa and Haifa; wine and brandy making, especially in the Jewish settlements, Zikhron-Ya'acov, Rishon-le-Zion and Petah-Tikvah; olive oil in Nablus, Acre, Haifa and the district round Jaffa. Hosiery, fancy leather goods, and a variety of other articles are exported to Syria and other neighbouring countries. Durrah, lentils, sesame, barley and olive oils are also exported, but this largely depends on favourable climatic conditions.

Digitized by Google

Oranges and grapefruit are exported to the United Kingdom and Europe, exports during 1937 amounting to 11,903,868 cases valued at £P.4,183,075. The citrus crop may be expected to increase as many of the plantations are still very young.

Melons are exported mainly to Egypt and Syria.

The principal imports are rice, flour, sugar, petroleum products, textiles, building materials, automobiles, industrial machinery, dairy products, chemical fertilizers and animals for slaughtering.

There is a considerable number of small factories and workshops, including flour mills; factories for soap, brick and tile, knitted goods, textile, artificial teeth, iron and wood furniture, matches; oil mills, cigarettes, fruit juice, edible oils. Of the larger industries, a cement factory produces about 200,000 tons annually. 16 tobacco and cigarette factories produced in 1937 some 14,000 kilos of cut tobacco, 757,000 kilos of cigarettes, 75,000 kilos of tombac and 9,000 kilos of snuff, and 2,000 kilos of cigars. 15 wine presses and 17 distilleries produced in 1937 some 3,394,000 litres of wine, 365,000 litres of cognac, 59,000 litres of arak and 948,000 litres of other spirits. An oil factory produces several thousand tons of edible oil.

A Brewery commenced production towards the end of 1935. 1,954,786 litres of beer were produced in 1936 and 1,830,245 litres in 1937.

The Hydro-electric Power Station of the Palestine Electric Corporation at Jisr Mejamie now supplies current for light and power to Haifa, Tiberias, Jaffa, Tel-Aviv, Nazareth and many rural centres. The Palestine Electric Corporation has in addition constructed a 18,000 k.w. steam driven station in the Haifa-Acre Bay near Haifa and a larger station is under construction just north of Tel-Aviv. The Jerusalem Electric and Public Service Corporation serves Jerusalem and its environs, including Ramallah and Bethlehem.

Agriculture.

Modern methods are making headway and hold out hopes of development and progress. The country is generally fertile, and cereals, wine, oranges, grape fruit and lemons, olives and various other fruits and vegetables are produced, while sheep and goats thrive in the lowlands and in the mountains.

For the most part the crops are raised without irrigation, except where springs exist and in the eastern portion of the Plain of Esdraelon, and along the citrus belt on the coast.

There are generally two crops harvested each year —the cereal and leguminous crop in May to June and a summer crop in August and September.

The yields of the main crops in 1935 to 1937 were

Metric Tons.

	1935	1936	1937
Wheat	104,353	76,059	127,420
Barley	68,905	55,169	75,417
Durra	46,135	22,122	61,023
Lentils	2,698	2,379	3,830
Olives	45,092	15,755½	47,247
	1935-6	1936-7	1937-8
Citrus Fruits (Exports)	5,897,310 cases	10,790,110 cases	11,415,490 cases

An enumeration of livestock was made in July, 1937, according to which there were in Palestine:—

Horses	20,053
Mules	8,989
Donkeys	92,205
Camels	28,085
Cattle	175,209
Sheep	209,422
Goats	361,424
Poultry	2,660,092

Forestry.

During 1937-8, 1,919,000 plants were issued from 10 nurseries maintained by the Department of Forests. Since 1920 planting operations have proceeded on a small scale, and a total of 5,000 acres has been taken in hand. Some 185,000 acres of open land, mainly on rocky hills, but including some areas of sand dunes, have been reserved with a view to eventual afforestation.

Customs.

The Customs Tariff, which is non-differential, is fixed partly on a specific and partly on an *ad valorem* basis: 65% to 70% of imports pay specific charges, principally petrol, kerosene, sugar, rice, wheat, flour, leaf tobacco, cigarettes, wood and timber for building and furniture, rubber tyres and tubes, boots and shoes, motor cars, silk tissues, cotton piece goods. *Ad valorem* duties at varying rates are levied on other goods.

The revenue from import duties in 1937 was £P.2,133,190.

15·84% of imports came from the United Kingdom, 4·60% from other parts of the British Empire, 8·64% from Syria, 16·53% from Germany, 6·91% from U.S.A., 8·63% from Roumania, 3·11% from Belgium and 3·11% from Japan.

Exports to the United Kingdom constituted 54·19% of the total exports in 1937, to other parts of the British Empire 1·82%, to Germany 1·82%, to Syria 10·75%, to Egypt 1·71%, and to Holland 5·59%.

Shipping and Communications.

The chief ports of Palestine are Haifa and Jaffa (which includes Tel-Aviv Jetty and Lighter Basin). The harbour at Haifa, started in 1929 and completed in 1933, provides adequate facilities for ordinary passenger and cargo vessels both at moorings and alongside the new quays, with transit sheds, road, railway and other services. The Lighter Harbour, which was constructed in 1936, at the northern end of Jaffa Port, 3¼ miles from Jaffa Lighter Basin, to serve the needs of Tel-Aviv, was considerably extended during 1937, and further improvements are contemplated.

Acre and Gaza are also ports of entry, but their trade is small and is carried mainly by sailing vessels.

The following are the principal shipping lines which call at Haifa and Jaffa:—

Khedivial Mail Line, Adriatica S.A. (Soc. Venetzia di Navigazione, Adriatica S.A., Lloyd Triestino), Messageries Maritimes, Royal Netherland Steamship Co., Prince Line, Ellerman & Papayani, Moss Hutchison Line, Anglo Saxon Petroleum Co., Deutsche Levant Line, Svenska Orient Line, American Export Line, Armement Deppe Line, United Levant Lines, Hellenic Coast Line, Service Maritime Rumain, Ellerman Wilson Line, Polish Palestine Line, Lauritzen Line, Orient Line, Atid Navigation Co., Société Commerciale Bulgare, Palestine Maritime Lloyd, Westcott & Laurence Line, Yugoslavenski Lloyd, Black Sea State Steamship Line.

In 1937, 1,992 steamers, totalling 4,817,829 tons, and 1,545 sailing vessels, totalling 44,291 tons, called at Palestine ports in the foreign trade.

Two cargo steam vessels and one cargo motor vessel fly the Palestinian flag.

Postal despatches are exchanged daily (in some cases seven times daily) between all principal towns. There is also a daily exchange of despatches with Egypt, Syria and Trans-Jordan. Direct mails for Great Britain are despatched four times weekly by ordinary mail and five times weekly by air mail. An air mail is despatched daily to Egypt and Iraq.

Digitized by Google

There is a twice-weekly overland desert mail service with Iraq and Persia, on Monday *via* Haifa and Mafrak and on Thursday *via* Jerusalem and Amman.

Imperial Airways use the Government Airport at Lydda in connection with the air mail services to and from Great Britain, Iraq, India, Australia, and beyond.

All the principal towns are connected by telegraph and telephone. There is direct telegraphic communication with Cyprus, Egypt, Syria and Trans-Jordan, and a trunk service with Egypt, Syria, Iraq and Trans-Jordan. The trunk service with Egypt affords radio-telephonic facilities with Great Britain and with all other countries connected thereto.

In 1937 there were conveyed 33,068,000 letters, 3,300,900 postcards, 21,371,100 printed communications and samples, 197,286 parcels, and 406,992 telegrams were transmitted. Total length of main telegraph and telephone lines, 19,104 kilometres; local lines, 70,658 kilometres. Number of telephone subscribers 8,417; telephone instruments in use 14,848.

The total length of the Palestine Railways, including branch lines and sidings, is approximately 728¾ miles, as follows:—

Standard Gauge (4′ 8½″).

El Kantara–Rafah	138½
Rafah–Haifa	198
Jaffa–Jerusalem	60½
Es Safriya–Sarafand	3½
Kafr Jinis–Beit Nabala Quarry Siding	3½
Ras el Ein–Petah Tiqva line ..	5¼

105 c/m. Gauge–Hijaz Railway.

Haifa–Samakh	72
Nassib–Ma'an	207
Haifa (Kilo 2) to Acre	15½
Nablus–Tulkarm	25
	728¾

The El Kantara–Rafah Section is operated by the Palestine Railways on behalf of His Majesty's Government.

There is through communication with Egypt, and trains connect at El Kantara West with Cairo, Alexandria, Port Said, Suez and other parts of Egypt. Goods vehicles are sent across the canal by means of a truck transporter.

Sentinel–Cammell Steam Rail Cars are in use on the Lydda–Khan Yunis, Haifa–Acre and Haifa–Samakh Sections.

East of Haifa the Palestine Railways Administration extends to Ma'an in Trans-Jordan, but with a break between Samakh and Nassib which is operated by the Chemins de Fer du Hedjaz authorities.

There are (1937) 878 miles of roads in Palestine suitable for motor traffic in all weather and in addition over a thousand miles of seasonal track passable for wheel traffic of all kinds.

Banking, Co-operative and Currency.

The most important bank in Palestine is Barclays Bank (Dominion, Colonial and Overseas), with branches at Jerusalem, Jaffa, Tel-Aviv, Haifa, Nablus, Nazareth, and agencies at Acre, Hadar Hacarmel, Allenby Road North (Tel-Aviv), Ramat Gan, Gaza and Hebron. The Anglo-Palestine Bank has its head office in Palestine at Tel-Aviv with branches at Jerusalem, Jaffa, Haifa, Tiberias, Safad, Petah-Tiqvah, Hedera, Rehovoth and agencies at Hadar Hacarmel, Allenby Road (Tel-Aviv), North Branch (Tel-Aviv). Affiliated with the Anglo-Palestine Bank is the General Mortgage Bank of Palestine, with head office at Tel-Aviv, which grants mortgage loans on houses. In addition there are branches in Jerusalem of the Ottoman Bank (also in Haifa, Jaffa, Tel-Aviv, Nablus and Amman), the Banco di Roma (also in Jaffa, Haifa, Tel-Aviv, and an agency in Jerusalem), the Holland Bank Union at Haifa, and the Polish Guardian Bank Ltd. in Tel-Aviv and Haifa. There are also the Workers' Bank Ltd., the Zerubabel Bank at Tel-Aviv and the Central Bank of Co-operative Societies at Jerusalem, which grant credit to co-operative societies.

The co-operative movement is extensively established among the Jewish population, both urban and rural. There is a Registrar of Co-operative Societies whose duties include the encouragement of the growth of a similar movement among the Arab farmers. At the request of the Registrar of Co-operative Societies, about 95 Jewish Credit Societies have made regular monthly statements of their assets and liabilities as at the end of each month since April, 1936. At the end of August, 1938, the aggregate amount of the deposits held by 105 Jewish Credit Co-operative Societies amounted to £P.2,944,163, while the amount of credit granted to their members in the form of advances and/or bills discounted amounted to £P.3,402,753.

Following the appointment of the Examiner of Banks, the Banking Ordinance was amended in 1936. Accordingly all banks (foreign and local) are required to submit monthly statements of their assets and liabilities as at the end of each month. Summary statements showing the aggregated figures of commercial banks are published monthly by the Office of Statistics, Jerusalem. On the 31st August, 1938, the aggregate amount of time and demand deposits held by the 6 foreign banks and the 37 local banks amounted to £P.14,194,552, while the total amount of credit granted by these institutions in the form of advances and/or bills discounted amounted to £P.9,920,940.

A Currency Board was appointed in London in 1926 in order to introduce and control a Palestine currency based on the pound sterling; and the new currency was issued on the 1st November, 1927, under the authority of an Order of His Majesty in Council dated the 7th of February, 1927.

The standard of currency is the Palestine pound, divided into 1,000 mils. The Palestine Currency Order provides for a gold coin of one Palestine pound containing 123·27447 grains of standard gold (the equivalent of the English sovereign). It is not intended at present to introduce gold coins. The Currency Board has issued silver coins of 100 and 50 mils, nickel bronze coins of 20, 10 and 5 mils, bronze coins of 2 and 1 mils, and currency notes of £P.100, £P.50, £P.10, £P.5, £P.1 and 500 mils. The currency notes are legal tender for the amounts expressed therein. Silver coins are legal tender for the payment of £P.2, nickel bronze coins of 20 and 10 mils are legal tender for the payment of an amount not exceeding 200 mils, and coins of lower denomination are legal tender for an amount not exceeding 100 mils. The amount of Palestine currency in circulation at the 31st August, 1938, was:—Coins, £P.491,800; notes, £P.4,382,334.

The metric system is followed by the Government and local authorities, but the use of local weights and measures is still permitted for the general public.

Antiquities.

The administration of the Antiquities Service in Palestine is controlled by the Department of Antiquities, working under the Antiquities Ordinance

Digitized by Google

(1929) and Regulations (1930–32). During 1937, fourteen licences to excavate or make soundings were issued. The results of the Department's research work, together with summaries of the results of licensed excavations conducted by non-Government bodies, are published in the Quarterly of the Department of Antiquities in Palestine. (Published by Sir Humphrey Milford, Oxford University Press, London, E.C.4.)

The Department of Antiquities is housed in a building known as the Palestine Archæological Museum, the construction and equipment of which were made possible by funds contributed by Mr. John D. Rockefeller.

For further information on all the above subjects see the "Handbook of Palestine" (Luke, H. C., and Keith-Roach, E.), published in 1930 by Macmillan and Co., and issued under the authority of the Government of Palestine, the Annual Blue Books of the Palestine Government, obtainable from the Government Printer, Jerusalem, and the Annual Reports on the Administration of Palestine and Trans-Jordan, published by His Majesty's Stationery Office. The Report of the Royal Commission on Palestine, together with the volume of Memoranda prepared by the Government of Palestine for the Royal Commission and the Minutes of Evidence heard at the public sessions of the Royal Commission, may also be consulted. The publication of an annual Statistical Abstract of Palestine, obtainable from the Crown Agents for the Colonies, commenced with the 1936 issue.

Alamuddin, Rafa'at Amin Faris, K. Roch, E. M. Kleinhaus, S. M. Kathuda, E. Mani, H. Lehrs.
Assistant Analyst, W. Itayim, Grade K.
Assistant Sanitary Engineer, G. R. P. Witts.
Office Superintendent, C. Morrall, Grade K.

Department of Education.

Director, W. J. Farrell, O.B.E., M.C., Grade C, 1,200*l.*
Deputy Director, S. J. Hogben, Grade E.
Senior Education Officer (vacant), Grade F.
Supervisor of Technical Education, W. A. Stewart, Grade F.
Senior Inspectors, J. Katul, M.B.E. (vacancy), Grade H.
Headquarters Inspectors, Sheikh Husameddin Jarallah, M.B.E., M. M. Hannush, Ahmad Tuqau, Ahmad Khalifa, Grade K.
District Inspectors, Sharif Subuh, J. Zananiri, Afif Atut, Mustafa Dabbagh, Grade K.
District Inspectors for Jewish Schools, J. L. Bloom, J. S. Bentwich, S. D. Goitein, Grade K.
Principal, Government Arab College, Ahmad Khalidi, M.B.E., Grade G.
Vice-Principal, Habib Khuri, M.B.E., Grade H.
Principal, Women's Training College, and Inspector of Girls' Schools, Miss H. Ridler, O.B.E., Grade G.
Vice-Principal, Miss F. H. B. Lovegrove, Grade K.
Principal, Government Trade School, A. H. E. Rogers, Grade H.
Principal Probation Officer, W. H. Chinn, Grade H.
Senior Probation Officer, J. Somerville, Grade K.

Department of Agriculture and Forests.

Director (vacant), 1,200*l.*
Deputy Director, F. R. Mason, Grade E.
Chief Veterinary Officer, J. M. Smith, O.B.E., Grade F.
Chief Agricultural Officer, G. G. Masson, Grade G.
Chief Plant Protection Officer, E. Ballard, Grade G.
Chief Horticultural Officer, R. O. Williams, Grade G.
Senior Veterinary Research Officer, G. B. Simmins, Grade G.
Agricultural Education and Research Officer (vacant), Grade G.
Senior Horticultural Officer, Asaph Grasovsky, M.B.E., Grade H.
Chief Fisheries Officer, A. L. Craig-Bennett.
Chief Fruit Inspector, R. E. Hunter, Grade H.
Veterinary Research Officer, R. M. Gambles, Grade H.
Fruit Inspectors, Ali Afifi, S. Fishelson, M. Aharonson, Grade K.
Senior Poultry and Beekeeping Officer, A. Livshitz, Grade K.
Agricultural Officers, S. Antebi, J. H. Hammad, A. Jubran, Grade K.
Manager, Govt. Stock Farm and Agricultural Station, B. M. Cameron, Grade K.
Veterinary Officers, Ahmad Khairi, Abdel Fattah Sabassi, Muhammad Sidky, J. Samsonoff, J. M. Deoucll, E. Cantor, Grade K.
Principal, Kadoorie Agricultural School, Tulkarm, W. K. Hubble.
Principal, Kadoorie, Agricultural School, Mount Tabor, N. I. Fiat.
Viticultural Officer, J. de Leon, Grade K.
Office Superintendent (vacant), Grade K.

Department of Forests.

Conservator of Forests, G. N. Sale, Grade F.
Assistant Conservator of Forests, Amihud Grasovsky, A. Lahav, N. A. Pharron, Grade K.

Department of Antiquities.

Director, R. W. Hamilton, 1,100*l.*
Keeper, Archæological Museum, J. H. Iliffe, Grade F.
Departmental Assistant, W. B. K. Shaw, Grade H.
Librarian, W. A. Heurtley, O.B.E., Grade H.
Field Archæologist, C. N. Johns, Grade H.
Inspectors, J. Ory, N. Makhourly, D. C. Baramki, S. A. S. Husseini, Grade K.
Assistant Keeper, J. Baramki, Grade K.
Chemist, J. H. Haleblian, Grade K.
Formatore, J. Saad.

Department of Lands and Surveys.

Commissioner of Lands and Surveys (vacant), 1,200*l.*
Assistant Director and Agent, Haifa Harbour (reclaimed area) Estate, M. C. Bennett, Grade F.
Settlement Officers, I. N. Camp, G. F. Sulman, M.C., A. T. O. Lees, J. A. O'Connor, H. J. Miller, Grade G.
Inspector of Assessments, S. H. Lanfear, Grade H.
Settlement Officer, C. Pusey, V. C. W. Kenyon, Grade H.
Assistant Settlement Officers, I. Frunkin, M. C. Alhassid, S. I. Saleh, J. S. Ezel, T. Nasr, A. Salem, Ghaleb Nashashibi, J. K. Awad, Mustapha el Husseini, Ihsan es-Said, J. Sarraj, R. Aharoni, F. Qaddumi, S. J. Hadawi, Grade K.
Land Officer, J. M. Berncastle, Grade K.
Assistant Agent, Haifa Harbour (reclaimed area) Estate, R. C. Ward, Grade K.

Land Registration.

Director, J. N. Stubbs, M.C., 1,100*l.*
Chief Inspector, R. J. Jardine, C.M.G., Grade F.
Land Officers, Mitri Hanna, O.B.E., C. L. Horton, Grade H, B. Fishman, Y. J. Atallah, E. Matalon, A. Barakat, E. Deeby, Grade K.

Surveys.

Assistant Director, R. B. Crusher, O.B.E., Grade F.
Superintendents, H. G. le Ray, (1 vacancy), Grade H.
Assistant Superintendents, J. H. Mankin, (1 vacancy), Grade K.

NOTE.—In the above particulars of the Civil Establishment, the salaries of Grades E, F, G, H, K, and L are as follows :—

Grade E 850*l.*–50*l.*–1,100*l.*
Grade F 800*l.*–25*l.*–1,000*l.*
Grade G 300*l.*–25*l.*–800*l.*
Grade H 550*l.*–25*l.*–750*l.*
Grade K 300*l.*–12*l.*–420*l.*–10*l.*–430*l.*–15*l.*–550*l.*
Grade L 360*l.*–10*l.*–480*l.*

NOTE.—In addition to the salaries stated above, officers who are neither Palestinians nor natives of Egypt, Iraq, Syria, and other neighbouring territories receive an Expatriation Allowance at the following annual rates :—Officers with fixed salaries of 1,100*l.* and over—200*l.* Officers on 850*l.*–50*l.*–1,100*l.*–150*l.* Officers of Grades F, G and H, 100*l.* Officers of Grades K and L—50*l.*

ST. HELENA

Situation, Area, &c.

St. Helena is an island in the South Atlantic Ocean, 700 miles S.E. of Ascension, and 1,200 miles from the coast of Africa, in 15° 55′ S. lat., and 5° 42′ W. long. It is 10½ miles long and 6½ broad, covering an area of 47 square miles, or about 30,000 acres (a little larger than Jersey). The distance from Southampton is 4,477 miles, and from Capetown 1,695 miles. The usual mail passage is, from England, 17 days, and from Capetown, 5 days.

A census taken in April, 1931, showed a population of 3,995, of whom 48 were members of the Garrison.

The capital and only town is Jamestown, on the N.W. of the island, with a population in April, 1931, of 1,381. The climate is mild and varies little, the thermometer in Jamestown ranging in summer between 68° and 84°, and in winter between 57° and 70°. The country is 10° colder. The rainfall for the years 1934, 1935, 1936 and 1937 was 41·55, 33·26, 29·18 and 101·53 inches respectively. The island is very healthy. The death-rate per 1,000 inhabitants was for 1935, 10·42, for 1936, 15·20, and for 1937, 7·27; and the birth-rate per 1,000 inhabitants was for 1935, 34·73, for 1936, 30·87, and for 1937, 29·67.

History.

St. Helena, then uninhabited and well wooded, was discovered by the Portuguese Commander, Juan de Nova Castella, May, 1502. The Portuguese appear to have kept the situation of the island a secret from other European nations until 1588, when it was visited by Captain Cavendish, on his return from a voyage round the world. They built a church there, but made no permanent settlement. After Captain Cavendish's visit, the island became a port of call for ships of various nations voyaging between the East Indies and Europe. In 1633, Jacques Specz formally annexed it on behalf of the States General; but no attempt to occupy it was made by the Dutch. It was annexed and occupied by Captain John Dutton, who was sent out by the East India Company for the purpose with an expedition which arrived at St. Helena on 5th May, 1659. The first official authorisation of the Company's occupation occurs in a Charter dated 1661. In January, 1673, the Dutch seized it, but they were driven out in May by Captain Munden, of the English Navy. A Charter was issued by Charles II to the East India Company for its possession in December, 1673, and it remained under that Company till 22nd April, 1834, when it was brought under the direct government of the Crown by an Act of Parliament of 1833.

Education and Local Government.

The Government maintain 3 schools, having 332 scholars. There are also 5 endowed and private day schools, all aided by Government, having 471 scholars. School attendance is compulsory under Ordinance No. 11 of 1903, and fees of 1d. a week per child are charged.

The only local authority is the Poor Relief Board, the revenue and expenditure of which for the year 1937 was 948*l.* and 930*l.* respectively.

Industry, Trade and Customs.

St. Helena is well watered by clear springs, which are abundant. It is situated in the heart of the South Atlantic trade wind, blowing from the S.E. for about 330 days in the year, and in the direct track of vessels homeward bound from the East round the Cape of Good Hope. Previous to the opening of the Red Sea route it was a port of call for a vast quantity of shipping and passengers to and from India and other parts of the East, and in consequence of its importance in connection with the Eastern trade, large establishments were maintained, both civil and military. For many years it was also a depôt for liberated Africans landed from

Digitized by Google

slavers captured by the West Coast squadron. As early as 1818 a law was passed that all future children born in the Island should be free.

Apart from supplying provisions to ships, the Island has never produced any article of export properly so called, except flax fibre (*phormium tenax*). The company which started this industry failed from bad management in transporting the green leaves to town for treatment. For every 100 tons so transported at a heavy cost the yield was only about three tons of fibre, though, under present conditions of working, ten tons of phormium leaves give one ton of fibre and a quarter ton of tow. The industry was re-started with the help of a grant from the Home Exchequer. The Government Mill was opened in 1907, and is now on lease to Messrs. Solomon & Co., of this Colony.

A small industry, that of the export of Lily Bulbs to England, has been started, and there is every prospect of it proving of benefit to the Colony, particularly to small growers.

There are now nine mills operating in the Island, the amount of fibre and tow exported in 1937 being 1,090 and 418 tons respectively. A rope and twine industry was also established in 1925, the amount of rope and twine exported during 1937 being 11¼ tons.

In 1932 the land under cultivation of Flax was estimated at 3,000 acres. There has been no further development of the industry.

A lace-making industry was established in August, 1907, with the help of a grant from Imperial funds.

The number of ships calling at Jamestown (now a free port) for supplies, including steamers and ships of war was 41 in 1937. It is a port of registry.

The chief industries are phormium fibre, lace-making, aloe and bead work, fishing and agriculture, the main arable crop being phormium tenax.

The Government savings bank was established in 1865 (the amount standing to the credit of depositors on 31st December, 1937, was 25,033*l.*), and the Government issues bills of exchange on England at par.

There are excellent facilities for the supply of coal and water to ships.

There are preferential and general customs tariffs, the duties being mainly *ad valorem*. A number of essential commodities, such as flour, rice, etc., are exempt from duty if they are the growth, produce or manufacture of the British Empire.

Means of Communication.

Steamers arrive from England at regular intervals of 4 weeks, and proceed to the Cape and Natal, steamers arrive from thence at the same interval and proceed to England. The interval between the arrival and departure of the mails is 14 days. The rate of postage to the U.K., India, and British Possessions is 2*d.* for the first oz. and 1½*d.* for each additional ounce; to other parts of the world 3*d.* for the first oz. and 1½*d.* for each additional ounce. There is no internal post, but there are approximately 75 miles of telephone lines, constructed by the Colonial Government with the assistance of a loan from the Colonial Development Fund of 475*l.* The cable from the Cape (which is being worked by the Eastern Telegraph Company with a staff of 4, including a Manager) reached St. Helena at the end of 1899, and was carried forward to Ascension by February, 1900. It is completed to St. Vincent.

Constitution.

The Government is administered by a Governor, aided by an Executive Council.

The Governor alone makes Ordinances, there being no Legislative Council, but power is reserved to legislate by Order of His Majesty in Council.

Executive Council.

The Governor; O.C. Troops, Government Secretary, H. W. Solomon, O.B.E.; P. E. Bunker: F. R. Thorpe; F. G. N. Deason, O.B.E.; *Clerk,* F. Jarrett.

Civil Establishment.

Governor.

Governor and Commander-in-Chief, H. G. Pilling, C.M.G., 1,200*l.* Duty allowance, 300*l.*

A.D.C. (vacant).

Secretariat.

Government Secretary, G. C. Kitching, O.B.E., 700*l.*, transport allowance.

Treasury and Customs.

Colonial Treasurer and Collector of Customs, F. Jarrett, 450*l.*, fees.

Manager, Government Savings Bank, F. Jarrett.

Audit.

Local Auditor, G. C. Kitching, O.B.E.

Port Office.

Harbour Master, R. Bizaare, fees.

Post Office.

Postmaster (vacant), 225*l.*, quarters.

Medical.

Senior Medical Officer, J. Gray, M.D., M.B., B.Ch., B.A.O. (Dub.), 550*l.* and 40*l.* transport allowance and private practice.

2nd Medical Officer (vacant), 500*l.* and 40*l.* transport allowance and private practice.

Dental Surgeon (vacant), 240*l.* and 30*l.* transport allowance, free quarters.

Sister in-Charge Civil Hospital, Miss J. Watson, 200*l.* and 3*l.* uniform allowance.

Sanitary Inspector, F. Brett, 15*l.*

Judicial.

Acting Chief Justice, The Governor (*ex officio*).

Police Magistrate, Judge Small Debts Court, G. C. Kitching, O.B.E.

Registrar, Supreme Court, F. Brett (acting).

Coroner, F. R. Thorpe, Esq., J.P.

Legal.

Legal Adviser and Crown Prosecutor (vacant).

Educational.

Supervisor of Education, Rev. Canon L. C. Walcott, 78*l.*, transport allowance.

Head Master, Government Boys' School, W. Corker, 100*l.*

Registration Department.

Registrar General,

Registrar of Deeds, Registrar of Births, Marriages and Deaths, F. Jarrett, fees.

Police and Prison.

Superintendent of Police and Gaols, F. Brett, 200*l.* and quarters.

Agriculture and Forestry.

Agricultural and Forestry Officer, K. E. Toms, 400*l.* by 20*l.* to 500*l.* and 40*l.* transport allowance.

Public Works.

Clerk of Works, W. Hurn, 200*l.* by 8*l.* to 240*l.*, transport provided.

Ecclesiastical.

Bishop of St. Helena, Right Rev. C. A. W. Aylen, M.A.

Chaplain to Hospital and Prison, Rev. Canon L. C. Walcott.

Troops.

Officer Commanding, Capt. R. W. Bagot, R.M.

Consuls.

H. W. Solomon, Consul for *Netherlands* (acting), *Denmark, Portugal, and Norway,* Vice-Consul for *Spain.*

Consular Agent for *France,* Georges Colin.

ASCENSION.

The island of Ascension, 34 square miles in area, lying in the South Atlantic, lat. 7° 55′ S. and long. 14° 18′ W., was taken possession of in 1815, and, until 1922, it was under the supervision of the Admiralty and a small naval station was maintained there.

By Letters Patent dated 12th September, 1922, it was made a Dependency of St. Helena and placed under the control of the Secretary of State for the Colonies.

It is famous for its turtles, large numbers of which are caught between December and May. It is connected by telegraph with St. Vincent, St. Helena, and Sierra Leone, and is an important cable station of the Cable & Wireless Ltd. It is a barren, rocky peak of purely volcanic origin, and destitute of vegetation, except at the highest point, 2,870 feet high, but has been cultivated to an extent permitting the maintenance of about 600 sheep and cattle.

Population at 1931 Census, 188, of whom 126 are St. Helenians.

Resident Magistrate and Receiver of Wrecks, P. E. Bunker.

Postmaster, N. T. Bramble.

Harbour Master, H. W. Tucker.

TRISTAN DA CUNHA.

By Letters Patent dated 12th January, 1938, Tristan da Cunha, Nightingale, Inaccessible and Gough Islands were made dependencies of St. Helena. The three latter islands are uninhabited.

Tristan da Cunha is the principal of a group of islands lying in lat. 37° 6′ S. long., 12° 2′ W., about midway between South Africa and South America. It is an extinct volcano rising to 7,640 feet above sea level, with a crater-lake near its summit. It was taken possession of by a military force during the residence of Napoleon at St. Helena. When the garrison was withdrawn in 1817, William Glass, a corporal of artillery, and his wife elected to remain, and they were joined by two ex-Navy men, Alexander Cotton and John Mooney, and these, with certain ship-wrecked sailors, became the founders of the present settlement, which is on the north-west of the island, where there is a comparatively level area about 9 miles long and 1½ miles broad and about 100 feet above the sea. After some years, the five unmarried settlers contracted with a sea captain to bring them wives from St. Helena. A supply of stores and provisions was provided out of a grant voted by Parliament, and sent out by a man-of-war in 1886, nearly all the able-bodied men having been drowned while attempting to board a vessel in December, 1885.

In November, 1933, the population numbered 167, all with the exception of 6 having been born in the Island. 13 were over the age of 60, including

one man aged 76 and one woman aged 94. The inhabitants are generally healthy, and are spoken of as moral, religious, and hospitable.

In the way of live stock, the inhabitants have between them about 170 head of cattle, about 600 sheep and a stock of poultry. Potatoes do well, and crops are got in annually. Potatoes form the staple article of diet. Fish of good quality is obtainable in plenty. During the nesting season penguin and albatross eggs are gathered. For flour, sugar, jam and other prepared or manufactured food the island is dependent upon passing ships. Despite the limited choice of diet no evidence of malnutrition or deficiency disease is observable. Apple trees are in fair number, and bear well; there are also a few fig trees, but they do not fruit. The tree of the island, which apparently is a juniper, and upon which the islanders are dependent for their wood for fuel, is getting scarce in the neighbourhood of the settlement, but is abundant further off, and there is no fear of supply failing.

The Society for the Propagation of the Gospel has from time to time maintained a clergyman in the island.

In January, 1904, the island was visited by H.M.S. "Odin" in order to ascertain whether the islanders would accept the offer of the Cape Government to settle them in the Cape Colony, but out of eleven families only three families elected to go. The islanders are liable from time to time to privations. In March, 1907, owing to information indicating probability of failure of supplies, relief was sent by His Majesty's Government by the "Greyhound," chartered at Cape Town. On this occasion also the inhabitants were unwilling to leave the island, and the Rev. J. G. Barrow, a clergyman who had gone to the island in April, 1906, reported that though there is sure to be privation from time to time, it does not cause absolute distress. (See correspondence presented to Parliament in Cd. 3098 and Cd. 3764.)

Arrangements are usually made for the island to be visited by a ship at least once a year.

January, February, and March are the best months for visiting the island. It is in these months that weather at times becomes so settled that the islanders are able to make visits to Inaccessible and Nightingale Islands, which are some 20 miles off. They also are often able to visit these islands in November to gather eggs, etc.

SEYCHELLES.

Description.

The Seychelles Islands are situated between the parallels of S. lat. 4° and 10°. The total area of the Colony and its dependencies is 156¼ sq. miles. The number of islands under the Seychelles Government is 92.

The death-rate in 1937 was 14·22 per 1,000; the birth-rate in 1937 being 26·72 per 1,000.

Mahé is the largest and most populous of the Seychelles Islands. It is 17 miles long and 3 to 7 miles broad, and is estimated to contain 55½ square miles. It has about 105 miles of good roads and paths, and communication between all the districts of the island is easy. The estimated population of Mahé in 1937 was 26,327.

It is distant from Mauritius 934, from Madagascar 600, and from Zanzibar 970 miles. It is fertile, and healthy. The shade temperature seldom exceeds 84, and falls frequently at night to 72, and the records taken on the hills are several degrees lower. The rainfall at Victoria was in 1937, 92·97 inches.

The island rises abruptly from the sea, and the highest peak reaches the elevation of 2,993 feet. Victoria, the capital of the island, is situated in a valley in the north-east, and has a safe and commodious harbour, provided with a lighthouse showing a white flash of 0·7 second duration every 6·7 seconds.

The other chief islands are Praslin (9,700 acres); Silhouette (4,900 acres); La Digue (2,500 acres), Curieuse (900 acres); Félicité (689 acres); North Island (525 acres); St. Anne (500 acres); Providence (500 acres); Frigate (700 acres); Denis (340 acres); Cerf (290 acres); and Bird or Sea Cow Island (160 acres).

The following islands are also dependencies of Seychelles:—The Amirantes, Alphonse Island, Bijoutier Island, St. Francois Island, St. Pierre Island, the Cosmoledo Group, Astove Island, Assumption Island, Coetivy, Aldabra and Farquhar Island.

The island of Coëtivy, formerly a dependency of Mauritius, was transferred to Seychelles by Letters Patent in 1907, and Farquhar Island in 1922.

History.

The islands are believed to have been discovered by a Portuguese named Pedro Mascaregnas, in 1505, but the discovery was not apparently followed by any attempt at colonisation.

Previous to the French occupation they were the resort of pirates or corsairs who infested the Indian Ocean, some of whose names are borne by descendants in Mahé at the present time.

Under the Government at Mauritius of Labourdonnais, whose name they originally bore, their position was first defined in 1743, and M. Picault, who took possession of the Islands in the name of the King of France, called the principal island Mahe. In 1756 the group was re-named the Seychelles Islands, in honour of the Vicomte Moreau de Séchelles, who was Controller-General of Finance under Louis XV., from 1754 to 1756.

The natural resources of the Islands, and their freedom from hurricanes, induced the French to transplant from the Isle de France (now Mauritius) cinnamon, cloves, and nutmegs, under the directions of M. Poivre. Much secrecy was at first observed in regard to the existence of these retired plantations, the object being to wrest from the Dutch the lucrative spice monopoly which the colonies of that nation then enjoyed in Europe from their own possessions.

The rumours of the war that broke out between France and England in 1778, induced the then French Governor of Mauritius, Count de Souillac, to issue peremptory orders that in the event of an attack the spice plantations should be at once destroyed. Soon afterwards a French ship from Madagascar, having slaves on board, called at Mahé to take in wood and water, but fearing that the English might be in possession, adopted the ruse of hoisting the English flag. The small French force at Mahé had already been withdrawn, and the officer in charge, knowing that resistance was useless, at once set fire to the whole of the spice trees, each of which had previously been surrounded with dry wood and inflammable material.

Digitized by Google

During the war of the French Revolution Mahé was extremely useful to French ships as a place of refuge and refitment, but on the 17th May, 1794, it was captured by Captain Newcome, of His Majesty's ship "Orpheus."

The last French Governor, M. De Quincy, who was born at Paris in November, 1748, became, after Lieutenant Sullivan, R.N., who had been placed in charge, had left, the first Agent Civil under the British Government. M. De Quincy's reign as French Governor lasted twenty years. He remained for eighteen years in the service of the British Government, and died on the 10th July, 1827.

The capitulation was renewed in 1806 by Capt. Ferrier, of His Majesty's ship "Albion," but it was not until the capture of Mauritius in 1810, that Seychelles was formally taken possession of by the appointment of an Agent, and incorporated as a dependency of that Colony. From 1794 to 1810 Seychelles, though nominally a British Colony, seems to have been administered as a French Colony, and all Civil Status Acts ran in the name of the French Government. A Board of Civil Commissioners was appointed in 1872, when the finances of the Seychelles were separated from those of Mauritius. The title of the Head of the Government was changed from that of Civil Commissioner to that of Chief Civil Commissioner. The powers of the Board were further enlarged in 1874 by another Order in Council.

The increasing importance of these islands was considered sufficient to warrant an alteration in the constitution of the Government, and in December, 1888, an Order in Council was passed creating the office of Administrator, and nominating an Executive and Legislative Council. In 1897, by Letters Patent and Royal Instructions, the Administrator was given full powers as Governor, and Seychelles was practically separated from Mauritius. The separation was completely carried out by Letters Patent of 31st August, 1903, by which Seychelles was erected into a separate Colony under its own Governor and Commander-in-Chief.

An education grant of Rs. 22,214 is given for assisting schools of all denominations, of which there were 26 in 1937. All schools are now denominational. Technical education is dealt with by means of Government apprenticeships. All primary schools are inspected by the Inspector of Schools.

Communications, &c.

The British India Company's steamers call regularly once every 4 weeks from Bombay to East African Ports, and once every 8 weeks on their return voyage from Mombasa to Bombay. During June and July these steamers call fortnightly on their return voyage from Mombasa to Bombay. The Royal Dutch Mail Line steamers call once every month on their return journey from Mombasa to Singapore and Batavia and the Scandinavian East African Line steamers call irregularly at this port on their way to Europe from Madagascar. The Admiralty used Victoria as a coaling station. Seychelles is now included in the East Indies Naval Station.

Telegraphic communication with Mauritius and Europe *via* Zanzibar was completed in November, 1893. Direct cables to Aden and Colombo were completed in 1922. The rates for telegrams from Seychelles were 90 cts. per word to Mauritius or Zanzibar, Rs. 1·90 to Aden and Rs. 1·50 for Great Britain and Northern Ireland, but, since the commencement of the Cable and Wireless Inter-Empire Rates Scheme on the 25th April, 1938, the rate to all parts of the Empire is 85 cts. per word ordinary and 60 cts. per word code.

The present letter rate of postage to the United Kingdom, India, Dominions and British Possessions is 12 cents; to other countries of the Postal Union 20 cents. The parcels post has been in full operation since April, 1890. The cash on delivery service for parcel post was introduced in 1911. The money order system is in operation with England and numerous other countries and colonies, including Bombay, Aden, Zanzibar, Mauritius and Ceylon.

Savings Bank and Currency.

A Government Savings Bank was established in March, 1897, and at the close of the year 1937, the amount standing to the credit of depositors was Rs. 373,523. 75% of the Savings Bank Funds are invested. The branches which were established at Anse Royale and La Digue were closed during 1906 as there were no transactions. The Baie Sein branch was reopened this year. The Bank is now self supporting.

The legal tender currency is Seychelles notes and Mauritius subsidiary coinage. Mauritius notes and Indian notes and coins hitherto in free circulation have now been demonetised. Accounts are kept in rupees and cents.

Local Boards.

A Local Board of Health, vested with powers and duties somewhat similar to those entrusted to Municipal Bodies, was created in Victoria at the end of 1900. In 1922 the title was changed to that of "The Victoria Town Board." Similar Boards were created for the Islands of Praslin and La Digue at the end of 1901, and for the South Mahé District in March, 1902. A Road Board for the North Mahé District was created in 1935, this Board now enjoys the full status of a District Board.

Products and Industries, Trade and Customs, &c.

In 1937 the chief exports were copra, 5,611 tons; guano, 9,594 tons; essential oils, 72,741 kilos; tortoiseshell, 896 kilos; vanilla, 466 kilos; calipee, 4,416 kilos; bird egg yolk liquid, 27,890 kilos.

In Victoria, there is a Botanic Garden containing many interesting tropical plants.

More especially at Praslin, though also in other parts of the group, are to be found the celebrated coco-de-mer, with the leaves of which beautiful hats and delicate basket work are made by the natives.

The Aldabra group of islands under the Seychelles administration is the habitat of the gigantic land tortoises; numerous living specimens are, however, to be seen in Mahé and the neighbouring islands.

The revenue is derived principally from specific import duties, which are light, and an *ad valorem* duty of 15 per cent. on articles not otherwise enumerated (10 per cent. surtax on Customs Imports duty was imposed for the period of the War and is still in force), licences, an income tax on a graduated scale and a tax on immovable property and stamps. An export duty of Rs. 1 a ton is levied on guano, prepared fertiliser, and mangrove bark, Rs. 2 a ton on cinnamon bark and Rs. 1 per hectolitre of whale oil. The Customs Tariff is partly *ad valorem* and specific and provision for Empire preference has been included in 1932.

Digitized by Google

From 1st January, 1933, a package tax is levied under Ord. No. 34 of 1932, on certain goods imported into the Colony.

The percentage of trade in 1937 was as follows :—

	Imports.	Exports.
	%	%
United Kingdom	36	54
Other parts of British Empire ..	40	27
Foreign Countries	24	19

There are lighthouses on Denis Island 53 miles north of Mahé, on Mamelles Island 9½ miles north of Victoria, and in Victoria Harbour, on Dennis Island and Mamelles Island (9 miles north-east of Mahé in long. 55° 32′ 20″ E., and lat. 4° 29′ S. and in Victoria Harbour. The light installed on Capucin Point, discontinued on the 31st July, 1922, was re-exhibited on the 4th December, 1931. The quarantine station is placed on Long Island opposite to Victoria.

SIERRA LEONE.

Situation and Area.

The territory known as the Colony and Protectorate of Sierra Leone is an area of some 27,925 square miles, roughly circular in shape, lying between 6° 55″ and 10°of N. lat., and 10° 16″ and 13° 18″ of W. long. The sea coast, 210 miles in length, extends from Kiragba at 9° 2″ on the border of French Guinea, to the Mano River at lat. 6° 55″ N. on the border of the Republic of Liberia.

The Colony portion of this area, i.e. the territories acquired by the Crown by Treaty of Cession or otherwise consists of the following :—the Sierra Leone Peninsula in which is situated Freetown (the seat of Government), Sherbro Island, the Tasso, Banana, Turtle, Plantain and York Islands and other small islets, the Bake Loke, Mafoki and part of the Bure Chiefdoms in the Northern Province, and the Bumpe, Kagboro-Bagru, Mano Bagru, Timdel, Bendu, Cha, Nonkoba Bullom, Messi Krim, and part of the Mano Sa Krim Chiefdoms in the Southern Province. The Crown has also acquired a strip of land, varying in depth from a quarter of a mile to one mile throughout the whole coast line not included in the areas specified above. Of these areas the Peninsula of Sierra Leone, Tasso Island, Banana Islands, York Island, and the township of Bonthe in Sherbro Island, only, are administered as strictly Colony ; the other areas are administered as part of the Protectorate.

History.

The Colony of Sierra Leone originated in the sale and cession of a portion of land by "King" Nembana and his subordinate chiefs to Captain John Taylor, of His Britannic Majesty's brig "Miro," on behalf of the "free community of settlers, their heirs, and successors, lately arrived from England, and under the protection of the British Government." This portion of land was described in the treaty as extending from the bay commonly called Frenchman's Bay, but of which the name was changed to St. George's Bay, coastwise up the River Sierra Leone to Gambia Island, and southerly or inland from the riverside 20 miles. The treaty is dated 22nd August, 1788.

The main purpose of the Colony in its inception was to secure a home on the African Continent for a number of natives of Africa, and some others, who from various circumstances had been separated from the countries of their origin, and were destitute in and about London. Subsequently the settlement was used for Africans rescued from slave-ships during the period when England was putting forth her efforts for the suppression of the over-sea traffic in slaves. The territory received additions from time to time by various concessions from the native chiefs. Thus, on the 10th July, 1807, "King" Farima and "King" Tom ceded all the land they possessed in the peninsula of Sierra Leone lying to the westward of the settlement and on the 1st January, 1808, the whole settlement became a Crown Colony ; in 1861 Bai Conteh, "King" of Kwaia, with his chiefs, ceded a portion of the Kwaia country abutting on the Colony of Sierra Leone, measuring 10 miles in width and 16 miles in length from the River Sierra Leone to the River Ribbi, and particularly described as to its inland boundary in the Treaty of Cession. In 1825 the Governor of Sierra Leone made a treaty of cession with various Chiefs in, and in the neighbourhood of, Sherbro Island, for the purpose of adding these countries to the territories of the Colony. The treaty, not immediately ratified by the Crown, was revived by a new agreement made in 1882. Other Treaties of Cession were made from time to time.

On August 21st, 1896, a Proclamation was issued declaring a Protectorate over the Hinterland of Sierra Leone, and Ordinances were passed providing for the administration of this Protectorate, which, by Order-in-Council is divided into two Provinces as follows :—

Northern Province—Districts.—Port Loko, Bombali, Karene, Koinadugu and Tonkolili.
Southern Province — Districts. — Moyamba, Kono, Kenema, Kailahun, Bo, Bonthe and Pujehun.

General Description.

The peninsula of Sierra Leone is about 25 miles in length, and from 10 to 12 miles in breadth at its widest part. It is one of the few points on the African coast where there is high land near the sea. It is formed by a range of igneous mountains, running parallel to the sea from N.N.W. to S.S.E., the summits of which, in the Picket Hill, Sugar Loaf and Leicester Mountains, rise in conical form to a height of from 2,000 to 3,000 feet. The mountains are composed principally of norite, and are thickly wooded. They are intersected by ravines and small valleys, and there are considerable tracts of level ground, especially on the eastern side of the peninsula, where it sinks to the mainland.

The configuration of the Protectorate varies much in different localities. The coastal strip is flat and low-lying and the river estuaries, below high tide mark, are bounded by extensive mangrove swamps. The western and southern part of the Protectorate consists of rolling wooded country, broken in places by ranges of hills rising to 1,000 ft. or more. The ground rises to the north and east to form an upland plateau having a general elevation of about 1,500 ft. The Sula and Kangari hills rise to nearly 3,000 ft., while to the east, near the French Guinea frontier, Bintumane Peak and the summits of the Tingi range rise to above 6,000 ft. Unlike many regions on the West Coast of Africa the country is well watered by rivers and streams. The principal rivers of Sierra Leone which empty themselves into the Atlantic Ocean are the Great and Little Scarcies, the Rokel or Seli (or Sierra Leone river), the Jong or Taia, the Ribbi, the Bum or Sewa, the Moa and the Mano, most of which are navigable by small craft for several miles.

miles.

Digitized by Google

The capital, Freetown, lies about four miles up the Sierra Leone River, at the foot of a chain of hills rising 2,900 feet above the sea. In 1931 it contained 54,958 inhabitants. It possesses the best harbour in West Africa, and is an important coaling station and a port of registry.

The peninsula of Sierra Leone and the lands immediately adjoining have a population (including Freetown and its Districts) of 90,885. It yields only a small quantity of exportable commodities, but ginger and coffee thrive if well looked after. The extent of the territory is, however, small (256 square miles), and the generally rocky soil is not very well adapted for cultivation.

Considerable quantities of palm kernels, palm oil, piassava, with other articles of lesser importance are exported viâ Bonthe in the Southern Province.

Many districts in the Protectorate are fertile and well adapted to the growth of oil palms, coconuts, beniseed, kola nuts, gum-producing trees, ginger, cocoa, rice, and other tropical products.

Alluvial platinum deposits occur near York, and are being worked on a small scale. Alluvial gold in the Protectorate has attracted both companies and individuals. Gold mining is now being actively pursued and is already of great value to the country.

Chromite has been discovered in several parts of the Protectorate and the most promising deposit occurs in the Kambui Hills near Hangha. Prospecting operations are being carried out.

Diamonds are being mined in the Kono District and now form a very important industry in this country.

Two large deposits of iron ore occur and export on a large scale has commenced from Marampa. Preliminary work is now being undertaken in connection with the second, known as the Tonkolili deposits.

The native population of the Protectorate is estimated at 1,672,057 and is composed of the following tribes:

Northern Province	Temnes, Limbas, Susus, Lokos, Fulas, Mandingos, Korankos, Yalunkas.
Southern Province	Mendes, Sherbros, Konos, Krims, Gallinas, Golas, Vais, Kissis.

Constitution.

A Charter, issued on May 27th, 1863, created an Executive Council for the Colony composed of four members nominated by the Crown. The Legislative Council was to consist of the members of the Executive Council and nominated members.

A Charter, dated the 19th of February, 1866, established a Central Government of the settlements on the West Coast of Africa, with the seat of government at Sierra Leone.

A new Charter, dated the 24th of July, 1874, revoked so much of the Charter of the 19th of February, 1866, as provided for the government of the Gold Coast and Lagos under the Governor-in-Chief of the West Africa Settlements, and those settlements were erected into a distinct government. A further Charter, dated 17th of December, 1874, erected a new government of the "West Africa Settlements," consisting of Sierra Leone and the Gambia, and created a Legislative Council in each settlement, consisting of the officer administering the government, and not less than two other persons, to be designated by royal instructions or warrant. New letters patent dated 17th June, 1885, provided for the continuance of the government on the same lines, with some minor differences. By letters patent of 28th Nov., 1888, the Gambia was again made a separate government. By letters patent, dated 3rd April, 1913, and Royal Instructions, dated 4th May, 1922, there were constituted an Executive Council composed of the Officer in command of the troops, the Colonial Secretary, the Attorney-General, the Colonial Treasurer and the Director of Medical and Sanitary Services, and a Legislative Council, composed of the members of the Executive Council and four unofficial members nominated by the Crown.

On March 7, 1913, an Imperial Order-in-Council was issued providing for the administration of the Protectorate of Sierra Leone. The Order applies to the territories, not being portions of the Colony of Sierra Leone, lying between the sixth and tenth degrees of north latitude and the tenth and fourteenth degrees of west longitude, and beginning at the extreme southerly point of the Colony on the Anglo-Liberian boundary, as delimited under the provisions of the Anglo-Liberian Conventions, November 11, 1885, and January 21, 1911.

The Governor and Commander-in-Chief for the time being of the Colony of Sierra Leone is also the Governor of the Protectorate. Authority is given to the Governor by Ordinances passed in the Legislative Council to exercise and provide for giving effect to the powers and jurisdiction acquired by the Crown in Sierra Leone.

Letters Patent, dated the 28th January, 1924, revoked those issued on the 3rd April, 1913, and made fresh provision for the appointment of the Governor and Commander-in-Chief, and instructions issued under the Royal Sign Manual and Signet on the same date cancelled those of the 3rd April, 1913, and 4th May, 1922. An Order of the King in Council dated the 16th January, 1924, provided for a new and considerably enlarged Legislative Council, introducing an elective element and direct representation of Protectorate interests into the constitution of that Council for the first time in the history of Sierra Leone.

Climate.

The seasons may be divided into wet and dry, the former commencing in May and lasting till October. The shade temperature varies during the year from about 62° to 97°. Tornadoes or violent thunderstorms occur at the commencement and close of the rainy season. They are accompanied by strong wind, but do not last long, and seldom do much damage. The atmosphere during the rainy season is excessively damp. The rainfall in Freetown for the year 1937 was 148.87 inches, but decreases inland to an average annual rainfall of about 93 inches at Kabala. Between the months of December and March the wind known as the "Harmattan" is prevalent; it is very dry, and often brings with it a fine dust said to come from the Sahara. Its direction ranges from N.E. to S.E.

The climate of Sierra Leone, as elsewhere on the West Coast of Africa, is trying, but conditions have been greatly improved in recent years through the efforts of the Medical and Sanitary Services, and if ordinary precautions are taken the risk of contracting malarial fever can be much reduced.

Vegetation and Agriculture.

The greater part of the country is covered by bush growth, the height of the bush varying with the length of time since the area was last cultivated. In the north, where the rainfall is less than that

Digitized by Google

nearer the coast, the country passes from bush into orchard bush and grass. Wild oil palms and raphia palms provide some of the principal exports in the shape of palm kernels, palm oil and piassava, while the semi-cultivated kola tree provides an important kola export to West African territories.

The agriculture of the country is still primitive, "shifting cultivation" being universally practised. Of recent years the utilisation of swamps for swamp rice has been advocated and steady propaganda has resulted in a remarkable spread in the growth of swamp rice all over the Protectorate. Owing to heavy rainfall there are innumerable swamps and considerable areas available for this form of cultivation.

The chief cultivated crops are rice, cassava, sorghums, sweet potatoes, groundnuts, benniseed, peppers, coffee, ginger, and cocoa, the three last being cultivated chiefly for export. These (excepting the last three) are the food crops of the country, the most important being rice which forms the staple food of the inhabitants of the Protectorate. In the Colony Peninsula, cassava products (chiefly foo-foo) displace rice to some extent as a food.

The agricultural exports for 1937 were as follows :—

	Quantity Tons	Value £
Palm kernels	76,776	884,812
Kola	2,248	60,504
Palm oil	2,325	42,238
Piassava	3,392	43,609
Ginger	2,384	97,622
Rice	8	104
Peppers	20	1,093
Cocoa	265	8,830
Benniseed	104	1,662

Minerals.

All minerals are vested in the Crown and rights to prospect for minerals and titles to mine minerals are issued through the Mines Department, Freetown. The mineral industry owes its inception to the discoveries made by the Government Geological Survey. The minerals mined at present are gold, platinum, diamonds and iron. The following is a comparative statement of the annual mineral production and its value :—

Year	Gold : Crude and unrefined Bullion (ozs. troy)	Platinum : Coarse Crude (ozs. troy)	Diamonds : (carats)	Iron Ore : Exports (tons)	Chrome Ore Exports (tons)	Estimated Value £
1929	—	26	—	—	—	252
1930	957	542	—	—	—	6,113
1931	6,650	594	—	—	—	30,815
1932	12,125	531	749	—	—	71,567
1933	15,604	431	32,017	24,550	—	178,368
1934	22,614	474	68,633	229,465	—	376,612
1935	32,947	750	295,483	433,540	—	905,000
1936	40,764	484	616,200	566,595	—	1,249,695
1937	39,151	308	913,401	633,985	729	1,666,102

Gold is mined from alluvial deposits in the Protectorate. An occurrence of lode gold is under active prospecting in the Pujehun area, Southern Province. Platinum is won in the Colony peninsula from stream gravels. Diamonds were first discovered in 1929 in the Nimi Koro chiefdom of Kono district. Diamondiferous alluvial deposits are very widespread. They are worked by a diamond mining company on a profit-sharing basis with Government. Iron ore is being mined at Marampa whence the ore is conveyed by a mineral railway some fifty miles to Pepel for shipment. Exploitation commenced in 1933. Government has lent more than £400,000 to the Marampa company, secured by first mortgage debentures on the property present and future and the uncalled capital of the company. Large iron ore deposits of good grade have been found in the Tonkolili area. These are to be exploited by the Marampa company under an agreement by which a sliding scale royalty will be paid to Government. Other minerals which are being prospected or are known to exist are chromite, molybdenite, ilmenite, bauxite, lignite, corundum and garnet.

Customs.

The import duties, which make provision for preferential treatment to British goods, are mainly specific—a preference of 100 per cent. as a general rule being accorded to the British article. There are also export duties on palm kernels (20*s.* a ton), and kola nuts (½*d.* a lb.).

Import duties in 1937, 444,289*l.*
Export „ „ „ 87,267*l.*

	1937
Percentage of trade with United Kingdom ..	69·35
„ „ „ Germany	10·42
„ „ „ British Possessions	7·55
„ „ „ U.S. America ..	2·97
„ „ „ Netherlands ..	4.13

Currency and Banking.

Besides English currency, West Africa silver coins (2*s.*, 1*s.*, 6*d.* and 3*d.*) were put into circulation in 1913, and alloy coins of similar denominations in 1920. Silver coinage is gradually being withdrawn. Currency Notes of the value of 20*s.* and 10*s.* were introduced in 1916 and of 2*s.* in 1917, and 1*s.* in 1919, but the last two denominations are not now current. The Bank of British West Africa has two branches in the Colony and some agencies in the Protectorate. Barclays Bank (Dominion, Colonial & Overseas) Ltd. also is established in Freetown. A Government Savings Bank was established in 1882.

Education.

Throughout the 19th century facilities for education were provided in the Colony by religious bodies; financial assistance was given by Government. At present primary instruction is given in Amalgamated Mission Schools and in private schools. In the former Government receives the school fees, pays the salaries of teachers, and provides equipment. There are one Government Secondary School for boys and several assisted and unassisted Secondary Schools for boys and for girls. One Male and one Female Training College train teachers for Primary Schools. Fourah Bay College (of which the Church Missionary Society are Proprietors) is affiliated to Durham University and prepares students for degrees in Arts and Theology and for Teaching Diplomas. In the Protectorate educational development has been slow. There are two Government Boarding and one Government Day School of primary standard. In the Southern Province there are a number of Missionary primary schools, many of which receive Government assistance through Capitation grant. In the Northern Province there are only a few schools, whether assisted or unassisted. There is

Digitized by Google

in the Protectorate one Protestant missionary institution for the training of teachers and evangelists. Throughout the country and particularly in the Northern part of the Protectorate there are numbers of Koranic schools giving religious instruction. The numbers of Government and Assisted schools and pupils at the end of 1937 in the Colony and Protectorate were as follows:—

	Schools	Pupils
Colony, Primary	46	7,583
,, Secondary	8	1,081
,, Industrial	1	50
Total Colony	55	8,714
Protectorate, Primary	97	7,916
,, Secondary ..	—	—
,, Industrial ..	1	91
Total Protectorate	98	8,007
Total Sierra Leone	153	16,721

Educational administration is governed by the Education Ordinance of 1938 and the Rules made thereunder. The Vernacular is used as the medium of instruction for one or two years in numerous schools in the Protectorate. Local Teachers' Certificates of Primary Grade are granted by the Education Department on the result of examinations held annually. Instruction in Domestic Science has received considerable attention in the girls' schools of Freetown and certificates of various grades are granted for proficiency.

Means of Communication.

Mail steamers leave Liverpool for Freetown and Freetown for Plymouth and Liverpool every fortnight. The passage takes about 10 days.

An air mail service was started by Elders Colonial Airways in 1938 to connect Sierra Leone with the Gambia.

Telegraphic communication with Europe was established in 1886, there being now three cables, to Bathurst, Conakry, and Accra respectively. A wireless telegraphic station was opened in 1913.

The main line of the Sierra Leone Government Railway, which was the first Railway to be constructed in British West Africa, runs from the Freetown terminus to Pendembu in the Railway District, a distance of 227½ miles. The number of stations and flag stations is 53. From Bauya Junction, 64¼ miles from Freetown, a branch line runs to Makeni, a distance of 82⅜ miles. The gauge of the Railway is 2 ft. 6 in. The Marampa railway running from the iron ore deposits at Marampa to Pepel, the port of shipment, is 57½ miles long. The railway is open only for the transport of iron ore.

The total railway receipts for 1937 were 207,676*l.*; the working expenses for the same year were 129,908*l.*

There are 1,948 miles of combined telegraph and telephone lines in operation.

There are 832 miles of first-class roads in the Protectorate constructed and maintained by the Public Works Department, about 164 miles of Chiefs' roads of an inferior standard of construction and about 81 miles of roads constructed and maintained by private companies.

In the Colony peninsula there are about 83 miles of first-class roads including 21 miles with tarred surfaces mainly in Freetown and its vicinity.

The Sherbro river is navigable by ocean-going vessels as far as York Island, about 45 miles from the entrance, and the Sierra Leone river as far as Pepel, some 15 miles above Freetown.

The Great Scarcies river, the Little Scarcies river, the Port Loko Creek, the Ribbi river, Bumpeh river, Cockboro river, Yaltukka river, Bagru river and Jong river are all navigable by small craft up to about 7 feet draft for from 20 to 30 miles from their entrances.

The Kittam River is navigable for launches to Mopalma (about 80 miles) all the year and for six months to Pujehun. Much of the produce from the Pujehun District is thus transported to Bonthe.

There are 66 post offices and postal agencies. The estimated number of letters, &c., handled in 1937 was 2,271,900: of parcels 39,098, of which the Inland Post dealt with 1,398,800 and 13,336 respectively.

The rates of postage are as follows:—

	Letters, per ½ oz.	Post Cards.	Newspapers, Books, etc., per 2 ozs.,
	d.	*d.*	*d.*
Internal . . .	1	½	½
To U.K. British Dominions and Colonies	2*d.* per oz. (1½*d.* each additional oz.)	1½	½
To Other Countries	3 (1½*d.* each additional oz.)	1½	½

Parcels: maximum weight 22 lbs. for places inland and to certain countries which accept heavy parcels; 11 lbs. other countries.

Inland, 6*d.* for 2 lbs.; 3*d.* each additional lb.

Gt. Britain, N. Ireland—Up to 3 lbs., 2*s.* 3*d.*; 7 lbs., 3*s.* 6*d.*; 11 lbs., 4*s.* 9*d.*; 22 lbs., 7*s.*; British W. A. Colonies, 2*s.*, 3*s.*, 4*s.*, and 7*s.* respectively.

Parcels for other countries except U.S.A. and Liberia are forwarded through the U.K.

British Imperial Postal Orders are issued and paid in the Colony; there is also an Inland and Foreign Money Order Service.

At the close of 1937 the Post Office Savings Bank held 80,563*l.* to the credit of 13,289 depositors.

Colonial Secretary's Office.

Colonial Secretary, H. R. R. Blood, C.M.G., 1,600*l.*
Chief Assistant Colonial Secretary, A. B. Mathews, 1,200*l.*
Assistant Colonial Secretaries (Sierra Leone), J. L. John, N. T. A. Davis, 360*l.* to 500*l.*

Printing and Stationery Department.

Government Printer, (vacant), 600*l.* to 780*l.*
African Assistant Government Printer, G. B. Cassell. 264*l.* to 372*l.*

Provincial Administration.

Provincial Commissioners, A. H. Stocks, C.M.G., 1,400*l.*; one vacancy.
Senior District Commissioner, J. S. Fenton, O.B.E., 1,200*l.*
District Commissioners, E. F. Sayers, S. M. Despicht, L. W. Wilson, J. de B. Shaw, E. Harnetty, A. C. C. Swayne, A. Burns, C. G. Hancock, G. P. Taylor, N. A. C. Weir, A. M. Sim, N. M. McRobert, E. B. Reetham, D. Cox, J. E. H. Towndrow, C. G. Simpson, C. H. Newland, L. E. B. Dunkerley, G. E. Mercer, I. S. Fairley. Scale B.
Assistant District Commissioners, F. G. O'Dwyer, C. J. Mabey, P. Wilkins, A. M. Grier, H. W. Davidson, C. E. Wool-Lewis, E. A. Waldock, E. W. M. Watt, A. W. Gaminara, V. Ff. Smith, J. M. Malcolm. Scale B. 400*l.*, 400*l.*, 450*l.*
Office Assistant, W. J. Johnson-Cole, 310*l.* to 450*l.*

Treasury Department.

Colonial Treasurer, G. N. Farquhar, M.C., 1,300*l.* Currency allowance 100*l.*
Deputy Treasurer, Major M. J. Stewart, 1,050*l.*
Assistant Treasurers, R. S. Hector, Scale A, J. A. D. Barton, 400*l.*, 450*l.* to 600*l.*, 660*l.* to 810*l.*; *African Assistant Treasurer*, J. C. Hamilton, 360*l.* to 500*l.*
Staff Superintendent, T. R. Jones, 310*l.* by 20*l.* to 450*l.*

Customs Department.

Comptroller of Customs, W. H. Eccles, 1,050*l.*, and duty allowance of 210*l.*
Assistant Comptroller of Customs, (vacant), 840*l.* to 920*l.*
Collector of Customs, F. A. von Weiller, Scale A.
Supervisors, F. C. Campbell and S. E. Cole, 360*l.* to 500*l.*
Staff Superintendent, W. A. P. Buck, 310*l.* by 20*l.* to 450*l.*

Audit Department.

Auditor, J. D. M. Bourne, 1,100*l.*
Senior Assistant Auditor, H. C. V. B. Barnes, 840*l.* by 40*l.* to 920*l.*
Assistant Auditors, R. T. Spencer, R. D. Littlejohns, 400*l.*, 400*l.*, 450*l.*, 500*l.* by 25*l.* to 600*l.*; 630*l.*; 690*l.* by 30*l.* to 810*l.*

Broadcasting.

Wireless Engineer and Broadcast Officer, F. G. Taylor, 480*l.* to 720*l.*

Port and Marine Department.

Harbour Master, (vacant).
Government Pilot, H. Bowles, 500*l.* to 600*l.*
Deputy Harbour Master, S. G. Randall, 264*l.* to 372*l.*

Judicial.

Chief Justice, A. H. Webb, 1,800*l.*
Puisne Judge, C. A. G. Lane, 1,350*l.*
Police Magistrate, Coroner and Registrar-General, E. S. Besku Betts, M.B.E., 500*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*
Master and Registrar, Supreme Court, A. Alhadi, M.B.E., 360*l.* by 20*l.* to 500*l.*

Law Officers.

Attorney-General, I. J. T. Turbett, K.C., 1,400*l.*
Solicitor-General, C. T. Abbott, 1,050*l.*

Police.

Commissioner of Police, Capt. P. T. Brodie, D.S.O., M.C., 920*l.*, and 92*l.* duty allowance.
Senior Assistant Supt. of Police, Capt. R. J. Craig, M.C., G. Tuach, Scale A, maximum 720*l.*
Assistant Supts. of Police, D. A. Boyd, P. E. Turnbull, 400*l.*, 400*l.*, 450*l.* by 25*l.* to 600*l.*, 660*l.* by 30*l.* to 810*l.*

Prisons.

Superintendent of Prisons, R. H. Dolan, 550*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*
Asst. Superintendent of Prisons, A. Simmonds, 400*l.* by 12*l.* to 484*l.* by 16*l.* to 500*l.*
African Asst. Keeper of Prisons, S. T. Johnson, 310*l.* by 20*l.* to 450*l.*

Survey and Lands Department.

Director of Surveys and Lands, P. A. Godwin, O.B.E., M.S.M., 1,050*l.*
Lands Officer and Surveyor, R. C. Burgess, F.S.I. 880*l.* by 40*l.* to 1,000*l.*
Survey Probationer, S. C. Collins, 450*l.*, 450*l.*, 475*l.* by 25*l.* to 600*l.*, 630*l.*, 690*l.* by 30*l.* to 840*l.*

Medical Department.

Director of Medical Services, W. P. H. Lightbody, 1,600*l.*
Senior Specialist, Q. Stewart, 1,400*l.*, and 280*l.* duty allowance.
Senior Medical Officers (Col. Med. Service), W. N. Greer, O.B.E., C. B. Jennings, 1,000*l.* by 50*l.* to 1,150*l.* and 100*l.* seniority allowance each.
Medical Officers (Col. Med. Service), A. W. Lewis, 1,000*l.* by 50*l.* to 1,150*l.*, H. R. F. Tweedy, H. Peaston, A. Johnson, W. J. Laird, W. M. Quin, W. R. Williams, 660*l.* by 30*l.* to 720*l.* by 40*l.* to 960*l.*, C. A. McComiskey, J. C. Busby, G. T. Allen, 660*l.* for three years, then 690*l.* by 30*l.* to 840*l.* by 40*l.* to 1,000*l.*
Senior Medical Officer (*Sierra Leone*), E. J. Wright, M.B.E., 740*l.* by 25*l.* to 790*l.* by 30*l.* to 820*l.*
Pathologist (*Sierra Leone*), E. A. Renner, 740*l.* by 25*l.* by 25*l.* by 30*l.* to 820*l.*
Medical Officers (*Sierra Leone*), M. C. F. Easmon, W. B. Hughes, W. F. O. Taylor, M. A. S. Margai, and J. C. Massally, 500*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.* each.
Senior Nursing Sisters, R. Baldock, and L. D. S. McPetrie, 500*l.* by 20*l.* to 600*l.* by 30*l.* to 630*l.* each.
Nursing Sisters, N. M. Brown, A. Stewart, J. A. Marwick, T. B. Juchau and C. E. Taylor, 350*l.*, then 400*l.*, then 415*l.* by 15*l.* to 430*l.* by 20*l.* to 480*l.* each.

Health Branch.

Assistant Director, Medical Services, C. R. Waller, 1,400*l.*
Senior Medical Officer (*Health*), J. S. Oliphant (one vacant), 1,050*l.* to 1,200*l.* by 50*l.*, and 210*l.* duty allowance.
Medical Officer (*Health*), E. H. Taylor Cummings, 720*l.*, Staff Pay 150*l.* p.a.
Chief Sanitary Superintendent, F. E. Levermore, 500*l.* to 600*l.* by 12*l.* and 16*l.*

Education.

Director of Education, W. E. Nicholson, 1,100*l.*, and 220*l.* duty allowance.
Senior Education Officer, S. Milburn, 840*l.* to 920*l.*

For Scales A to C, see footnote on page 478.

Senior Education Officer, H. E. T. Hodgson, 760*l.* to 920*l.* and 72*l.* seniority all owance.
Principal, Prince of Wales School, W. J. Davies, 540*l.* to 720*l.* to 920*l.*
Education Officer, C. P. Ellis, 480*l.* to 720*l.* to 920*l.*
Education Officer, H. Earnshaw, 400*l.*, 450*l.* by 25*l.* to 600*l.* by 30*l.* to 630*l.*,; 690*l.* by 30*l.* to 840*l.* (one vacancy).
Lady Education Officer, Miss A. M. McMath, 500*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*
African Assistant Director of Education, S M. Broderick, 310*l.* to 450*l.*

Post Office.

Postmaster General (vacant), 1,000*l.*
Assistant Postmaster General and Accountant, V. K. Edwin, 360*l.* by 20*l.* to 500*l.* then by 25*l.* to 600*l.*
Staff Superintendent, E. S. B. Francis, 310*l.* to 450*l.*

Agricultural Department.

Director of Agriculture, F. J. Martin, M.A., Ph.D., F.I.C., 1,050*l.*, duty allowance, 210*l.*
Entomologist (vacant), 450*l.*, 450*l.*, 475*l.* by 25*l.* to 600*l.*, 630*l.*; 690*l.* by 30*l.* to 840*l.*
Plant Pathologist, F. C. Deighton, 600*l.* by 30*l.* to 720*l.* by 40*l.* to 920*l.*
Senior Agricultural Officers, J. W. D. Fisher, R. R. Glanville, M.B.E., Scale C.
Agricultural Officers, E. I. Nisbet, G. M. Roddan, E. S. Garner, A. F. MacKenzie, Scale C., H. Macluskie, J. D. Gillespie, M. J. Douglas, 450*l.*, 450*l.*, 475*l.* by 25*l.* to 600*l.*, 630*l.*; 690*l.* by 30*l.* to 840*l.*
Live Stock Officer, S. A. Roach, 450*l.* by 25*l.* to 600*l.* by 30*l.* to 690*l.*
Inspector of Plants and Produce, F. W. B. Allinson, 400*l.* by 15*l.* to 430*l.*, 450*l.* by 30*l.* to 690*l.*

Forests Department.

Conservator of Forests, W. M. Robertson, 1,050*l.*
Assistant Conservators of Forests, D. G. Thomas, B.Sc., T. E. Edwardson, Scale C, R. S. Pelley, (one vacancy), 450*l.*, 450*l.*, 475*l.* to 840*l.*

Public Works Department.

Director of Public Works, Major F. L. V. Mills, M.C., A.M.I.C.E., 1,200*l.*
Assistant Director of Public Works, O. G. Price, O.B.E., M.Inst.C.E.I., F.S.I., 960*l.*, duty allowance 96*l.*
Provincial Engineers, A. R. Smee, A.M.I.C.E., A. S. Ellicott, B.Sc., 720*l.* by 40*l.* to 920*l.*, allowance 92*l.*
Executive Engineers (3), E. L. Smith, B.Sc., A.M.I.C.E., and K. H. B. Collier, A.M.I.C.E., 480*l.* for 3 years, then 510*l.* by 30*l.* to 720*l.* by 40*l.* to 920*l.*, J. H. Amos, B.Sc., A.M.Inst.C.E., A.M.C.T., and P. W. Loveday, A.M.I.C.E., 475*l.* to 840*l.*
Technical Assistant, J. Stevenson, 475*l.* to 840*l.*
Chief Accountant, L. P. John, 600*l.* by 30*l.* to 720*l.* by 40*l.* to 800*l.*, duty allowance 72*l.*
Storekeeper, L. B. White, 400*l.* to 600*l.*
Assistant Acct. and Storekeeper (vacant), 400*l.* to 600*l.*
Inspector of Works, W. H. Brown, 560*l.* to 600*l.*
Electrical Engineer, Electricity Sub-Dept., T. Maloney Assoc.I.E.E., 630*l.* to 840*l.*
African Asst. Storekeeper, A. J. Momoh, 310*l.* to 450*l.*
Office Asst., A. F. G. Taylor, 310*l.* to 450*l.*

Railway Department.

General Manager and Traffic Manager, A. Allan, 1,400*l.*
Office Assistant, W. A. Fitz-John, 310*l.* to 450*l.*
Chief Engineer, G. S. Dick, 1,000*l.*
Assistant Engineers, A. Woodburn, A.M.I.C.E., and J. Ronaldson, Scale C.
Telegraph Engineer, N. Robson, 475*l.*, 475*l.*, 500*l.* by 25*l.* to 600*l.* by 30*l.* to 840*l.*
Chief Mechanical Engineer, H. E. Allwood, M.I.Loco.E., 1,000*l.*
Assistant Locomotive Superintendents, T. Delmore, Scale C; J. R. Best, 480*l.* by 30*l.* to 720*l.*
Assistant Traffic Superintendents, V. Dunglinson, J. Hamilton, W. H. Salkield, Scale A, with maximum of 800*l.*
Chief Accountant, J. Hunter, A.M.Inst.T., 920*l.*, duty allowance 92*l.*
Assistant Accountants, A. Hides, 600*l.* by 30*l.* to 720*l.* by 40*l.* to 800*l.*, C. Innes, 400*l.*, 400*l.*, 450*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*
Chief Storekeeper, A. C. Blanchfield, 800*l.*, duty allowance 72*l.*
African Asst. Chief Storekeeper, S. G. Thompson, 310*l.* to 450*l.*

Geological Department.

Geologist, J. D. Pollett, 1,000*l.*

Mines Department.

Chief Inspector of Mines, K. E. Heesom, 1,000*l.*
Inspector of Mines, F. A. Cassidy, Scale C.
African Assistant Inspector of Mines, A. Akiwumi, 300*l.* by 15*l.* to 450*l.*

Sierra Leone Battalion, Royal West African Frontier Force.

Lieut.-Colonel, Lt.-Col. H. U. Richards, 1,000*l.*, and 10*s.* a day duty allowance per annum.
Second-in-Command, Major L. H. Bean, 850*l.*
Adjutant, Capt. E. J. O'B. Croker, 510*l.* to 600*l.*, duty pay, 5*s.* per diem.
Quartermaster, Captain W. W. King, 600*l.* by 20*l.* to 700*l.* per annum.
3 Captains, 700*l.* to 750*l.*
8 Lieutenants, 510*l.* to 600*l.*

SOMALILAND PROTECTORATE.

In 1884, a Protectorate was established over the tribes on the Somali Coast, extending from Lahadu (Loyi-ada), half-way between Ras Jibuti and Zeilah, to the 49th meridian E. long. The boundary has been settled by agreements with France, Italy, and King Menelik of Ethiopia. Until 1898 the Somaliland Protectorate was administered by the Resident at Aden, as a Dependency of the Government of India. In that year it was transferred to the charge of the Foreign Office, and in 1905 to that of the Colonial Office.

General Description and History.

The chief ports are Berbera and Zeilah. Area about 68,000 square miles.

Although the camel remains one of the chief means of transport, the last few years have seen a large increase in the use of motor transport. The approximate mileage of road and cleared tracks suitable for general traffic and mechanical transport of medium weight is 2,000 miles. There are no railways in the Protectorate. There is a weekly steamer service with Aden.

The climate at the coast is trying for Europeans, but it is comparatively healthy in the interior, where an elevation of from 4,500 feet to 6,800 feet is reached.

The Haud waterless plains constitute the principal pastures of the country. The chief source of wealth of the people lies in their live stock.

For Scales A to C, see footnote on page 478.

In the beginning of 1901, operations were commenced against a fanatical Somali leader, the Mullah Mohammed Abdullah, and a native levy with British officers penetrated into the Nogal valley. The Mullah was defeated at Somala and Ferdiddin, and was driven into Italian territory.

The dervishes afterwards gathered together again, and a similar expedition, strengthened by the 2nd King's African Rifles (Yaos), was despatched in the summer of 1902, and again drove the Mullah into Italian territory with heavy loss, but met with a severe check in Italian territory at Erigo, on October 6th. The Mullah, however, retired as the result of this action still further into Italian territory, to Galadi.

Five months later, a third expedition, comprising British and Boer M.I., Indian and African troops, with the main base at Obbia in Italian Somaliland, proceeded to Mudug, thence detaching a force to Galadi, which place was up till then the headquarters of the enemy. A force of 200 Yaos and Sikhs, was overwhelmed at Gumburru in April, 1903, after a fight of the fiercest description. A column of 200 men was at the same time attacked at Daratoleh, whence it retired fighting to Bohotleh. In June the expedition fell back on the Berbera-Bohotleh lines of communication, and Lieut.-General Sir C. C. Egerton, K.C.B., was placed in command.

Reinforcements, increasing the force to 7,000 rifles, were despatched and placed in the field, and in January, 1904, 3,250 troops defeated 5,000 dervishes at Jidballi.

In March, 1905, an agreement was concluded between the Italian Government and the Mullah whereby peace was declared between the dervishes and the neighbouring tribes, both those subject to the Government of Italy and those under the protection of the British Government. The Mullah was given a port on the east coast, and was assigned certain territories within the Italian sphere of interest, beyond which he and his dervishes undertook not to encroach.

In the latter part of 1908, some unrest was caused by the unfriendly attitude of the Mullah, and during 1909 reinforcements were brought into the Protectorate from East Africa, Uganda, Nyasaland, and India.

Subsequently arrangements were made to arm the friendly tribes to enable them to defend themselves against attack, and in March, 1910, all troops were withdrawn from the interior; the 6th Battalion King's African Rifles was disbanded, and a policy of strict coastal concentration was adopted. This policy having disappointed expectations, a Camel Constabulary, 150 strong, was raised at the end of 1912 to check inter-tribal fighting, which by this time had assumed serious proportions. A measure of peace among the friendly tribes was quickly restored, but in August, 1913, the Constabulary, at a strength of 109 rank and file, encountered at Dulmadoba a raiding party of dervishes estimated at 2,000 rifles, and in the action which ensued, though heavy losses were inflicted on the enemy, the Constabulary sustained casualties amounting to 50 % killed, including the Commandant. The force thereupon fell back on Sheikh, and reinforcements of Indian infantry were moved up from the coast. His Majesty's Government later decided to increase the forces of the Protectorate in order to preserve the necessary grazing grounds of the friendlies from dervish attack, and to maintain peace among the tribes living in the west.

In November, 1914, military headquarters were established at Burao, 90 miles from the coast. At this time the dervishes were in occupation of the Ain valley, which is one of the principal grazing grounds of the friendlies. Strong forts had been constructed by the Mullah at Jidali and Shimber Berris and these were used as forward bases for raids against our tribes. The position at Shimber Berris was accordingly attacked by the local troops, and after a stubborn resistance all the forts were finally captured and blown up. In 1914, the dervishes made serious raids and their aggressions went on during the war, but, early in 1920, operations against them were carried out by air attacks followed up by mounted forces with infantry supports. These operations were completely successful; the power of the dervishes was destroyed, and the Mullah became a fugitive in Ethiopian territory. He died there in 1921. Since 1923 the condition of the country has been peaceful, and as a result the stock wealth of the native population has largely increased, while in the western areas the development of agriculture has made great progress. A geological survey of the Protectorate has been made.

From June, 1932, to May, 1935, the officer appointed to administer the Government was designated Commissioner and Commander-in-Chief.

Trade and Customs.

Exports consist of skins and hides, sheep and cattle, gums, ghee, and salt.

Imports consist of rice, dates, sugar, cotton piece goods and shirtings, iron and hardware.

The Customs Tariff is mainly on an "ad valorem" basis of 20 % and 25 %, but specific duties are imposed upon rice, dates, cloth (long cloth and grey sheeting in the piece), matches and alcoholic liquors.

Goods of British or Empire origin to the extent of 50 % of their content enjoy preferential rates of duty both specific and "ad valorem." The margin of preference is 10 %.

In 1937, the percentages of Domestic Imports from the countries of origin were as follows:—

United Kingdom ..	25 %
British Empire	47 %
Foreign	28 %

No percentages can be given for exports: all produce is shipped to Aden where it is distributed by dealers, mainly to the United Kingdom and to the United States of America.

Governors since 1919.

1919, Oct. G. F. Archer, C.M.G. (later Sir G. F. Archer, K.C.M.G.).
1922, Aug. Lt.-Col. G. H. Summers, C.M.G. (later Colonel Sir G. H. Summers, K.C.M.G.)
1926, H. B. Kittermaster, C.M.G., O.B.E. (now Sir H. B. Kittermaster, K.C.M.G., K.B.E.).

Commissioner since 1932.

1932. Major A. S. Lawrance, C.M.G., D.S.O. (now Major Sir A. S. Lawrance, K.C.M.G., K.B.E., D.S.O.).

Governor since 1935.

1935. Major Sir A. S. Lawrance, K.C.M.G., K.B.E., D.S.O.

Civil Establishment.

Governor and Commander-in-Chief, Major Sir A. S. Lawrance, K.C.M.G., K.B.E., D.S.O., 1,600*l.* and duty allowance, 200*l.*
Secretary to the Govt., C. H. F. Plowman, C.M.G., O.B.E., 1,050*l.*
Legal Secretary, R. A. Haig, 800*l.* by 30*l.* to 920*l.*

Administration.

District Officers, Major B. H. Horsley, D.S.O., O.B.E., M.C., Capt. E. N. Park, O.B.E., M.C., R. H. Smith, O.B.E., Capt. D. J. C. Walsh, A. McCallum, O.B.E., M.C., E. Barry, M.B.E., C. H. Gormley, each 700*l.* by 40*l.* to 800*l.* by 40*l.* to 920*l.*
Assistant District Officers, F. J. Chambers, M.B.E., E. P. S. Shirley, O.B.E., A. S. Poulton, A. W. Bradley, G. H. W. Kitson, J. L. W. Hodgson, J. A. Hunt, each 450*l.* by 25*l.* to 550*l.* by 30*l.* to 700*l.*

Audit.

Auditor, H. W. Skinner*, 850*l.*

Medical.

Senior Medical Officer, P. S. Dell, 920*l.*, plus 100*l.* duty allowance.
Medical Officers, P. P. Murphy, J. Tillman, J. H. C. Clarke, A. R. C. Young, each 600*l.* by 30*l.* to 840*l.* by 40*l.* to 920*l.*

Police.

Commissioner of Police, J. Beattie, O.B.E., M.C., 800*l.* by 40*l.* to 920*l.*
Deputy Commissioner, A. P. Oakes, M.B.E., M.M., 450*l.* by 25*l.* to 550*l.* by 30*l.* to 700*l.* by 40*l.* to 800*l.*
Superintendents, A. J. B. Temple, E. H. Halse, C. N. A. B. Mumby, 450*l.* by 25*l.* to 550*l.* by 30*l.* to 700*l.*
Pay and Quartermaster, H. O. Cain, M.B.E., 450*l.* by 25*l.* to 550*l.* by 30*l.* to 700*l.*

Posts and Telegraphs.

Director of Posts and Telegraphs, C. V. Magill, O.B.E., 800*l.* by 40*l.* to 920*l.*
Assistant Director of Posts and Telegraphs, G. Hill, 450*l.* by 25*l.* to 550*l.* by 30*l.* to 700*l.*

* Is also Auditor of Aden.

Prisons.

Director, Commissioner of Police.

Public Works.

Director of Public Works A. T. R. Grimson, 800*l.*
Assistant Director, A. F. P. Ross, 450*l.* by 25*l.* to 550*l.* by 30*l.* to 700*l.*

Somaliland Camel Corps, King's African Rifles.

Officer Commanding, Somaliland Camel Corps, K.A.R., Lieut.-Col. A. R. Chater, D.S.O., O.B.E., 1,000*l.*
Second-in-Command, Major R. R. Michell, 775*l.*
Adjutant (vacant), 500*l.* and allowance, 50*l.*
Pay and Quartermaster, Captain W. R. Haymes, M.B.E., 720*l.*
Company Commanders, Captains B. G. Pulliblank, M. Thorold, P. St. Clair-Ford, H. French, 700*l.*
Company Officers, Captain A. A. B. Harris-Rivett, Lieutenants O. G. Brooke, D. G. B. Cuppage, J. D. A. Hardie, A. D. N. Hunter, R. E. W. Sale, 550*l.* or 500*l.*

Treasury and Customs.

Treasurer and Chief of Customs, H. W. Claxton, O.B.E., 800*l.* by 40*l.* to 920*l.*, plus 50*l.* duty allowance.
Assistant Treasurers, A. A. McKinnon, A. V. Davis, 550*l.* by 30*l.* to 700*l.*

Veterinary and Agricultural.

Chief Veterinary and Agricultural Officer, E. F. Peck, 800*l.* by 40*l.* to 920*l.*
Agricultural Officer, A. S. McKinnon, 450*l.* by 25*l.* to 600*l.* by 30*l.* to 720*l.*

†TANGANYIKA TERRITORY.

Extent and Boundaries.

The Tanganyika Territory consists of that portion of the former Colony of German East Africa which, under Article 23, Part I, of the Treaty of Peace with Germany, the Principal Allied and Associated Powers agreed should be administered under a mandate by His Britannic Majesty. The remaining portions of the Colony, namely the districts of Ruanda and Urundi in the North-West, and the Kionga Area, South of the Rovuma River, were similarly entrusted to the administration of Belgium and of Portugal respectively. The Territory extends from the Umba River on the North to the Rovuma River on the South, the coast line being about 500 miles in length, and includes the adjacent islands. The Northern Boundary runs in a north-westerly direction to Lake Victoria at the intersection of the first parallel of latitude with the eastern shore of the lake (Mohuru Point), and thence along the first parallel of latitude until it strikes the Kagera River about 70 miles west of Lake Victoria. From this point the western boundary follows the Kagera River to approximately latitude 2°25′, and thence along the eastern boundary of Urundi to the Mlagarassi River which it follows to Lake Tanganyika. The boundary then follows a line due west until it reaches the centre line of Lake Tanganyika which it follows to Kasanga (formerly Bismarckburg), at the southern end of the lake. Thence it follows the boundary of Rhodesia to the northern end of Lake Nyasa and continues along the centre line of Lake Nyasa

† For map see under Kenya.

Digitized by Google

to a point due west of the Rovuma River whence the boundary runs east and joins the Rovuma River, whose course it follows to the sea. The total area of the Territory is about 360,000 square miles, which includes about 20,000 square miles of water.

The Island of Mafia was transferred in 1922 from Zanzibar to the Territory.

General Description.

Along the coast lies a plain, varying in width from 10 to 40 miles, behind which the country rises gradually to a plateau constituting the greater part of the hinterland. This plateau falls sharply from a general level of 4,000 feet to the level of the lakes (Tanganyika, 2,590 feet, Nyasa, 1,60[illegible] feet), which mark the great Rift valley extending northwards to Lake Naivasha.

The seat of government is Dar-es-Salaam (population 30,000) which lies along the northern and north-western shores in an almost land-locked harbour, about 3 miles long. The chief buildings are solid and roomy. The second town in importance is Tanga, 136 miles north of Dar-es-Salaam and 80 miles distant from Mombasa. Other seaports are Pangani, Bagamoyo, Kilwa, Lindi, and Mikindani. The most important inland town is Tabora, which has a population of 10,000*, and is situated at the junction of the main caravan routes from the coast of Tanganyika and from Victoria Nyanza to Nyasa. Other inland towns are, in the north, Moshi and Arusha; in the central area, Morogoro, Kilosa, and Dodoma; and in the south, Iringa, Mahenge, and Songea. On the great lakes the chief towns are Mwanza and Bukoba, on Victoria Nyanza; Kigoma, the terminus of the Central Railway; Ujiji, on Tanganyika; and Mwaya, on Nyasa.

The highest points in the Territory are in the north-east, where are the extinct volcanoes, Kilima Njaro, which rises to 19,720 feet, and is snow-capped, and Mount Meru (14,960 feet). In the south-west are the Livingstone Mountains, where the highest peak is over 9,000 feet.

Portions of the great lakes of Central Africa are included in the Territory, viz.: the southern portion of Lake Victoria, the eastern shores of the lower part of Lake Tanganyika, and the northern and north-eastern shores of Lake Nyasa. There are smaller lakes and numerous rivers.

Climate.

The climate of the Territory varies greatly according to the height above sea-level of the several districts. Roughly, four climatic zones can be distinguished, though even among these there are considerable local variations:—(i) The warm and rather damp coast region with its adjoining hinterland.—Here, conditions are tropical, though not unpleasant except just before and during the rainy seasons, when the heat is trying and the atmosphere humid. The average yearly temperature is 78 degrees. (ii) The hot and moderately dry zone between the coast and the central plateau (300 feet—2,000 feet). This zone is characterised by low humidity of atmosphere, less rain, and a temperature rather lower but with greater daily and yearly variations. (iii) The hot and dry zone of the central plateau between 2,000 feet and 4,000 feet in height.—The climate of this zone differs greatly in parts, but its prevailing characteristics are low humidity, little rainfall (at Tabora an annual average of 32 inches), a fairly high mean temperature, with great daily and yearly variations, sometimes exceeding 36 degrees Fahrenheit daily. The heat is dry, but not so trying to the European as the moist and steamy warmth of the coast, while the nights are invariably cold. (iv) The semi-temperate regions around the slopes of Kilimanjaro and Meru, of the Usambara Highlands, the Ufipa Plateau, and the mountainous areas of the south-western area (5,000 feet—10,000 feet).—Frosts occur at the higher altitudes, and the nights are cold. These districts enjoy a bracing climate, and alone can be considered healthy for Europeans, but prolonged residence in these altitudes is apt to produce nervous strain, even though physical fitness is maintained. There are two well-defined rainy seasons annually. Generally speaking, the long rains begin in February or March, and last for two or three months, while the short rainy season extends from October to November, but the rainfall is low for a tropical country, and droughts are not infrequent.

History and Constitution.

Plentiful evidence exists of Arab traders having visited the Territory for several centuries and of their opening up the great slave route from Bagamoyo on the Indian Ocean to Ujiji on Lake Tanganyika. The British explorer, Burton, first entered the Territory in 1856, and was soon followed by Speke, Livingstone, and Stanley.

The territory was visited in 1884 by Dr. Karl Peters, who made twelve treaties with native chiefs, and in the following year the German Government established a protectorate. This arrangement was recognised by the British Government in 1886. In 1889 an Arab rising was quelled, and the first German steamer launched on Lake Nyasa. A serious native rising took place in 1905. It is estimated that some 120,000 natives died during the struggle or from its immediate results.

Early in 1916 Lieut.-General J. C. Smuts attacked and defeated the German forces at the foot of Kilima Njaro and occupied Moshi on March 13th of that year. By the end of 1916 all the country north of the Central Railway was effectively occupied by His Majesty's Forces or by Belgian troops, and a provisional civil administration was established in that area on January 1st, 1917. In November, 1917, the Germans were driven across the Rovuma River into Portuguese East Africa, and in March, 1918, the jurisdiction of the Administrator was extended to include the greater part of German East Africa. After the surrender of Major-General von Lettow-Vorbeck, in accordance with the terms of the armistice, the military forces were withdrawn, leaving only a garrison of the King's African Rifles; and a Royal Commission was issued in 1919 appointing an Administrator, The Tanganyika Order-in-Council, 1920, which was read and proclaimed in Dar-es-Salaam on September 25th, 1920, constituted the office of Governor and Commander-in-Chief. The Governor is assisted by an Executive Council. In 1921 the district of Ujiji and portions of the districts of Bukoba and Ufipa, which had formerly been administered by the Belgians, were taken over.

In 1920 draft mandates for "German East Africa" were submitted to the Council of the League of Nations in favour of Great Britain and Belgium, and these were approved by the League of Nations in 1922. The mandate for the part to be assigned to Great Britain lays down conditions directed against slavery, forced labour (except for essential public works and services), abuses in connection with the arms traffic and the trade in spirits, the

* Decrease due to alteration of Township Boundaries.

Digitized by Google

recruiting of labour, transfer of native lands (except between natives) without the consent of the authorities, and usury. It is provided that nationals of States members of the League of Nations are to have complete commercial equality. An annual report is to be made to the Council of the League. By an Order in Council dated the 19th of March, 1926, provision was made for the constitution of a Legislative Council consisting of the Governor as President, thirteen official members, and not more than ten unofficial members, which came into operation on the 1st July, 1926.

For the East African Governors Conference, see under Kenya.

Population.

The number of Europeans in Tanganyika Territory is approximately 9,128. There are also over 33,019 Asiatics, chiefly Indians, Arabs and Goans. The natives are estimated at 5,182,289. The majority of the natives are Bantu, but considerable areas in the north are occupied by the Masai and other Hamitic races, and in the south by tribes of Zulu extraction. The most important language is Swahili, which is a hybrid between Arabic and Persian and all sorts of African tongues. It is more or less spoken as a *Lingua Franca* from Aden in the north to Durban in the south and from the Indian Ocean to the waters of the Nile and the Congo.

Most of the natives are pagans, but the majority of the coastal tribes and a few in the hinterland profess Mohammedanism.

The territory is divided into 8 Provinces as follows:—

Provinces.	Capital.	Approx. Native Population, 1937.
Central	Dodoma	547,803
Eastern	Dar-es-Salaam ...	654,202
Southern Highlands	Mbeya	496,048
Lake	Mwanza	1,466,589
Southern	Lindi	603,182
Northern	Arusha	385,265
Tanga	Tanga	359,805
Western	Tabora	669,445
	Totals ..	5,182,289

Education.

European Education.—Two schools are maintained by Government for the education of European children, one at Dar-es-Salaam and the other at Arusha. A Correspondence Course for children in the more remote districts is conducted from Dar-es-Salaam. Assistance is given to two English schools, three Dutch schools, five German schools, two Greek schools, one European and Goan school and two Kindergarten schools. The total enrolment is 823.

Indian Education.—There are 60 Indian schools with a total enrolment of 4,191. Grants-in-aid are paid in respect of staff and buildings. 46 schools are on the grant earning list. Instruction in the lower standards is conducted in Gujerati or Urdu, and in English in the higher standards. At the Government school in Dar-es-Salaam and at three other schools the curriculum is designed to take pupils to the Cambridge Senior Certificate Examination.

African Education.—99 schools are maintained by Government, including six Boys' Primary Schools, one Junior Secondary school and eight Girls' Schools. The total enrolment is 9,574. Swahili is the medium of instruction in primary schools for the first four standards after which there is a bifurcation, some schools continuing instruction in Swahili while at the larger schools classes are then started in English. Stress is placed on the teaching of agriculture and nearly every school has its garden. Industrial sections teach carpentry, masonry, smithing and tailoring. A printing press is attached to the Primary School, Dar-es-Salaam. A post-primary Clerical Course extending over two years is undertaken at Tabora Primary School in which boys designed for the Local Civil Service are taught office routine, typewriting and accountancy. Assistance is given from Public Funds to 227 Mission schools with a total enrolment of 21,576.

The total estimated expenditure on Education in 1938 was 99,717*l.*

The Government publishes a monthly journal printed in Swahili to disseminate news and useful information among the vernacular speaking population.

Staff.—The European Staff of the Education Department consists of a Director, Assistant Director, Superintendents of Education, Senior Industrial Instructors, Industrial and Clerical Instructors, Headmistresses, Office Superintendent and Clerk.

The Indian Staff consists of a Headmaster, Senior Assistant Masters, Inspector, Assistant Masters and Clerks.

The African Staff consists of Teachers, Industrial Instructors and Clerks.

Forests and Minerals.

The total area under close forests is approximately 4,661 square miles, of which 87 per cent. is in Government Forest Reserves, 7 per cent. awaits reservation, and 6 per cent. is valuable forest in private ownership of non-natives and native communities. The forests are most numerous in the north, on the shores and islands of Lake Victoria, in the North-east on Kilimanjaro and Meru Mountains; in the East along the Pare and Usambara ranges and in the Uluguru and Nguu Mountains; and at the coast in the districts of Rufiji, Kilwa, and Lindi. Further considerable areas of close forest are situated in the highlands of Iringa Province, most of which have now been explored and demarcated for reservation and have been gazetted as Forest Reserves. The number of timber producing species is large and includes among many others the following:—Pencil Cedar (*Juniperus procera*), Podocarpus, Chlorophora excelsa (resembling Burma Teak), Ocotea Usambarensis, Pterocarpus angolensis, Parinarium Holstii, Pygeum africanum, Afzelia quanzensis, Khaya nyasica, and Cassipourea elliottii. In addition, valuable species of hardwoods occur as single trees or in groups widely scattered throughout large areas of dry savannah forest. Mangroves of excellent quality cover large areas of the littoral. Ebony and gum copal are plentiful near the coast. Bamboo and baobab are found and may prove suitable for the manufacture of paper pulp. Acacias yielding gum arabic of good quality are abundant in the dry savannahs.

The following have been mined for export or local use:—Gold, tin, wolfram, diamonds, salt, mica, phosphates and red ochre. Other minerals known to exist include:—Coal, graphite, soda, magnesite, gem garnet, corundum and manganese, iron, lead, and nickel ores. Extensive areas remain to be prospected. The total mineral production for 1937 was valued at 652,442*l.*

Further information with regard to trade and cognate matters in Tanganyika Territory can be obtained from the Chairman, Tanganyika Trade and Information Local Advisory Committee, c/o the Comptroller of Customs, Dar-es-Salaam.

Digitized by Google

Communications.

The Territory is served by two railways of metre gauge.

1. The Central Railway from Dar-es-Salaam to Kigoma on Lake Tanganyika (774½ miles), with a branch line from Manyoni (365 miles) to Kinyangiri (94 miles) via Singida, and a branch line from Tabora (524 miles) to Mwanza (236 miles) on Lake Victoria.

2. The Tanga or Northern Railway from Tanga via Moshi (219 miles) to Arusha (272 miles). From Kahe Junction (206 miles) a line links up with the Kenya and Uganda Railway at Voi. The Voi-Kahe line is run under the management of the Kenya and Uganda Railway.

Light motor traffic is now possible over 18,454 miles of roads during the dry season.

The Ports of Lake Victoria are served by the steamers of the Kenya and Uganda Marine; those of Lake Nyasa by the Nyasaland Government steamers, and on the Lake Tanganyika, the steamers of the Grands Lacs Company operate between the Belgian Congo, Urundi and Kigoma, while the Tanganyika Railway steamer "Liemba" operates from Kigoma to the southern ports of Lake Tanganyika including Mpulungu in Northern Rhodesia.

Steamships.

The following are the steamship lines serving the coast of Tanganyika:—

To and from Europe and Cape Ports:—
- Union Castle Mail Steamship Co., Ltd.
- Clan, Ellerman and Harrison Lines.
- Deutsche-Ost-Afrika Linie.
- Holland-Africa Line.
- Lloyd Triestino.

To and from India and Cape Ports:—
- British India Steam Navigation Co., Ltd.
- Bank Line.

To and from Europe and Beira:—
- British India Steam Navigation Co., Ltd.

To and from Europe and Mauritius via Madagascar:—
- Messageries Maritimes.

To and from Japan (to South America via Capetown):—
- Osaka Shoshen Kaisha.

To and from United States of America:—
- Ellerman and Bucknall S.S. Co., Ltd.
- Robin Line.
- American South Africa Line.

To and from East Coast Ports:—
- Tanganyika Railways Marine Steamer.
- Zanzibar Government Ships.
- British India Steam Navigation Company Ltd.
- The Shell Company of East Africa, Limited.
- Texas Company.
- The African Wharfage Company.
- Deutsche Ost-Afrika Linie.
- Holland Africa Line.

Five privately owned Schooners ("Vera," "Lindi," "Bahati," "St. George," "Colibri."

Posts and Telegraphs.

The telegraph system comprises 3,799 miles of pole route with 8,298 miles of wire, and the number of telegraph offices, including railway telegraph offices, open for public business, is 137. The principal offices are Dar-es-Salaam, Tanga and Lindi on the coast, Bukoba and Mwanza on Lake Victoria, Kigoma on Lake Tanganyika, Morogoro, Kilosa, Dodoma and Tabora on the Central Railway Line, Moshi and Arusha in the Northern Area, and Iringa, Mbeya, Chunya and Tukuyu in the South Western Area.

All classes of business, including Money Order, Postal Order and Savings Bank are conducted at 66 Departmental Post Offices, in addition to which 69 Sub Post Offices and Postal Agencies perform restricted classes of postal work. Savings Bank business is also performed at 20 District Offices of the Administration.

The principal places in the Territory are connected by telegraph, and the system forms a land line communication link between Kenya and Uganda to the North, and Nyasaland, Northern and Southern Rhodesia, and the Union of South Africa to the south. Communication with the Belgian Congo is obtained through a wireless station at Kigoma.

Dar-es-Salaam is connected by cable with Zanzibar, whence communication with all parts of the world may be established. In addition the Kenya Radio Service provides a channel of communication with Great Britain.

There are 46 telephone exchanges comprising 260 route miles and 2,521 miles of wire.

The main telephone trunk service is between Dar-es-Salaam, Tanga and Mombasa, and thence to Nairobi in Kenya Colony. Telephonic communication is available to most places in the Tanga and Northern Provinces. There are also trunk lines between Dar-es-Salaam, Morogoro and Kilosa, and between Tabora and Mwanza.

Commercial radio-telegraph stations are situated at Dar-es-Salaam and Musoma and there are aeronautical stations at Dar-es-Salaam, Mbeya, Dodoma, Moshi and Lindi.

Letter mails are received and despatched by the twice-weekly flying boat mail service from and to all places on the Imperial Airways London–Durban and London–Far East routes. The time taken between Dar-es-Salaam and London is 4 days.

Mails containing second class matter from Great Britain are despatched from London weekly via Marseilles, whence they are conveyed direct by vessels of the Messageries Maritimes, and by the P. & O. line via Aden, the average time in transit being 21 days. Similar mails are despatched to Great Britain from Dar-es-Salaam and Tanga by all available steamers.

Parcel mails are despatched weekly by steamers of the P. & O. Line from London by the all-sea route to Aden, whence they are conveyed by any steamer proceeding to Mombasa or beyond. The Aden–Mombasa–Dar-es-Salaam service is irregular, and the average time of transit of parcel mails from London to Dar-es-Salaam is 30 days.

Fortnightly services conveying second class mails are maintained with India, and mails are despatched by all available steamers to South Africa. There is a frequent exchange of mails by sea with Kenya Colony and Zanzibar.

Internal first class mails are conveyed by air as opportunity offers and many places have a regular service partly or wholly by air two or three times weekly. First and second class mails are also exchanged between offices on the Railway as frequently as the regular train service permits (minimum twice weekly), while places off the railway normally have a weekly service by Lake steamer, motor or runner.

Currency and Banking.

The German Government and the Deutch Ostafrikanische Gesellschaft minted and issued silver rupees of the Indian Standard and subsidiary coins. The silver coinage was redeemed at the rate of two shillings of East African currency to the rupee and withdrawn from circulation and ceased to be legal tender as from 1st April, 1923. The period of the redemption of the subsidiary nickel and copper coinage (Hellers) expired on 15th August, 1925. It became necessary to redeem Indian silver coinage at the same rate and redemption was effected by 23rd July, 1921.

The only currency now recognised in the Territory is shillings and subsidiary coins and currency notes of the East African Currency Board.

The banks operating in the Territory are the National Bank of India, the Standard Bank of South Africa, Barclays Bank (Dominion, Colonial and Overseas), and the Banque du Congo Belge.

Trade and Customs.

Since 1923 the Customs Tariff of the Territory has been identical with that in force in Kenya and Uganda and provision was made for the duty-free interchange of all goods grown, produced or manufactured in any one of the three territories. In 1927 the Customs management laws of the three territories were co-ordinated, and on the 1st August, 1927, effect was given to an Agreement under which all goods on which duty had been collected in one of the territories may be transferred to any of the other territories without further formality except the preparation of simple transfer forms, on which inter-territorial adjustments of revenue are subsequently arranged.

The tariff was revised in 1930, being enacted simultaneously in Tanganyika, Kenya, and Uganda. The basic fiscal rate is 20 per cent. *ad valorem*, assessed on the current domestic value of the goods in the exporting country together with the cost of packing, delivery on board, freight, insurance and all other charges up to the time of importation into the Territory. On certain goods which permit of such an imposition duty is charged at specific rates corresponding generally to an equivalent *ad valorem* rate of 20 per cent. Minimum specific rates of duty were imposed on selected imports such as cotton piece goods, artificial silk, cotton blankets, wearing apparel, boots and shoes, umbrellas and cycles in June 1933. On liqueurs and similar spirits the duty is 48 shillings per Imperial gallon, while whisky, brandy, gin and rum are charged with duty at 48 shillings per proof gallon as ascertained by Sikes' hydrometer. Manufactured tobacco is liable to 62½ per cent. *ad valorem*, with a minimum of 5 shillings per pound on cigars, and 2.65 per pound on cigarettes and tobacco. In the case of certain specific commodities such as sugar, timber, wheat flour, bacon and ham, butter, cheese and ghee, which can be produced locally in sufficient quantity to meet the demands of the three territories, provision is made, in the form of additional "suspended" duties, for a modified degree of protection. A reduced rate of 10 per cent. *ad valorem* is payable on building materials, metals, tools, printing materials, paints, children's toys, and infants' foods, while the free list includes machinery, packing materials, ships and boats, aircraft, motor and steam lorries and tractors, materials and equipment for the construction and maintenance of telegraph and telephone lines and of railways, tramways and roads; medicines, disinfectants and insecticides; coal, coke and oil fuel; fertilisers; blasting compounds; filters and refrigerators; surgical and scientific instruments, and all used personal and household effects imported as passengers' baggage. No provision is made for Imperial Preference.

The values in pounds sterling of the import and export trade of the Territory, the total Customs receipts, and the tonnage of vessels entered at Tanganyika ocean ports, are given below. The import figures are exclusive of Government imports, transit traffic, and bullion and specie, while transit exports are similarly excluded from the export figures.

Year.	Trade Imports.	Total. Exports.	Customs Receipts.	Tonnage entered.
1928	3,267,849	4,050,594	697,712	2,526,629
1929	3,743,215	3,988,365	750,145	2,715,461
1930	3,044,910	2,897,938	637,134	2,861,345
1931	2,000,087	1,890,722	463,189	2,399,951
1932	1,749,849	2,356,942	389,882	2,230,647
1933	1,868,579	2,725,878	427,508	2,641,813
1934	2,241,354	2,856,589	513,154	2,582,907
1935	2,854,480	3,723,688	657,073	2,741,838
1936	3,201,013	4,805,958	743,783	2,906,896
1937	3,782,574	5,311,464	815,267	3,117,812

For the year 1937 the principal imports were :—

	£
Cotton piece goods	802,854
Iron and steel manufactures ..	197,950
Building materials	175,193
Machinery	263,623

* TRINIDAD AND TOBAGO.

TRINIDAD.

Situation and Area.

The island of Trinidad lies about 16 miles to the eastward of Venezuela, between 10° 3′ and 10° 50′ N. latitude, and 60° 55′ and 61° 56′ W. longitude from Greenwich. Its average length is 50 miles, its average breadth 37 miles, and its area 1,862 square miles. It is separated from S. America by the Gulf of Paria, into which fall the northern mouths of the Orinoco. The distance between Chacachacare, the most westerly of the Bocas Islands and Venezuela is only seven miles. The island of Tobago (formerly in the Windward Islands) was amalgamated with Trinidad by an Order in Council under the Act 50 & 51 Vict., c. 44. on 1st Jan., 1889.

History.

Trinidad was discovered by Columbus, on his third voyage, on the 31st July, 1498; and taken possession of by him for the crown of Spain. No Governor was, however, appointed by the King of Spain until 1532, and even then, and for many years afterwards, the Spanish colonists had the greatest difficulty in maintaining a footing in the island. It was visited by Sir Robert Dudley, and by Sir Walter Raleigh in 1595, who signalised his visit by burning the newly-founded town of St. Joseph, and it was included in the Earl of Montgomery's grant, 1628. In 1640 it was raided by the Dutch, and again in 1677 and 1690 by the French. Towards the end of the 17th and the beginning of the 18th centuries, cocoa was largely and successfully cultivated, but a blight fell upon the plantations about 1725, and Trinidad made scarcely any progress until 1783, when, in consequence of the representations made to the

Court of Madrid by M. Roume de St. Laurent, a French planter of Grenada, who, when on a visit to the island, had been struck by its extraordinary fertility, a Royal cedula or proclamation was issued, by which extraordinary advantages were offered to foreigners of all nations to settle in Trinidad, the sole condition imposed, and that not very strictly insisted upon, being that they should profess the Roman Catholic religion. The consequence of this proclamation was a large influx of population, which was soon augmented by many French families, who were driven from St. Domingo and elsewhere by the terrible events of the French Revolution, and to this cause is to be traced the preponderance of the French element in a colony which never belonged to France.

On the 12th February 1797, Great Britain being then at war with Spain, a British expedition sailed from Martinique for the reduction of Trinidad. The expedition resulted in the surrender of the island to His Majesty's forces, and on the 18th February, 1797, the articles of capitulation were signed by Sir R. Abercromby, Admiral Harvey, and Chacon, the Spanish Governor.

In 1802 Trinidad was finally ceded to the Crown of Great Britain by the Treaty of Amiens.

The population of Trinidad and Tobago at the census of 1931 was 412,783. The white population is chiefly composed of English, Portuguese, French, and Spanish. There is also a large number of East Indians, totalling 137,583. The French lower classes speak a *patois* peculiar to the West Indies.

Constitution.

The Government is administered by a Governor, with an Executive Council of seven members. The legislative body is the Legislative Council of Trinidad and Tobago, which was reconstituted by Letters Patent and an Order in Council which came into operation on 21st August, 1924. It now consists of the Governor, the Colonial Secretary, the Attorney-General, the Treasurer, nine nominated official members, six nominated unofficial members and seven elected members. Trinidad is divided into six electoral districts, each returning one member. Tobago forms the seventh electoral district.

General Description.

The north coast is rock bound through its whole extent, the east coast is so exposed to the surf as to be almost unapproachable, while the south coast is steep in most parts; only on the west coast is there a good natural harbour, at Chaguaramas. The whole Gulf of Paria, however, is so shut in and sheltered as to afford a most safe anchorage. The climate of Trinidad is tropical and may be divided into two seasons, a dry season from January to the middle of May, with an average rainfall of 2 to 3 inches per month, and a wet season from June to December, with an average of 8 inches per month. The coolest months of the year are December to April. The average temperature during the day is 84 and during the night 74. The total rainfall in 1937, from records taken at 121 stations, was 58·00 ins. The climate is healthy and by no means hurtful to Europeans, provided reasonable precautions are taken.

There are three ranges of hills running roughly east and west, the most northerly fringing the north coast, and rising to 3,085 feet; the central range runs south-west from Manzanilla point to San Fernando, and the southern runs parallel and near to the south coast. There are numerous rivers, but none of them of any size or navigable, and all running east or west.

The soil is varied, extremely fertile, and excellently adapted to the growth of tropical products, more particularly of sugar, cacao, and coconuts, which are its staples.

The chief town and principal port is Port of Spain (population by the census of 1931, 70,334), situated on a gently inclined plane near the north-east angle of the Gulf of Paria. It is a port of registry, and had, on 31st Dec., 1937, 32 vessels registered. Fifteen miles of electric tramway and 22,040 miles of telephone have been constructed in Port of Spain and its environs. The latter also extends to some of the country districts.

Production and Industry, Trade and Customs.

The quantity and value of the principal products exported during the year 1937 were :—

	Quantity.	Value. $
Asphalt	90,872 tons	1,194,914
Bitters	12,870 galls.	112,977
Cocoa	26,258,288 lbs.	3,086,995
Coconuts	5,020,665 nuts	99,331
Copra	17,277,120 lbs.	542,802
Grapefruit	4,062,033 fruit	187,579
Molasses	4,258,934 galls.	220,576
Oil, Petroleum, Crude	21,753,223 „	489,737
„ „ Fuel	362,709,751 „	10,133,972
„ „ Refined	4,218,725 „	420,796
„ „ Motor Spirit	104,611,997 „	7,766,341
„ „ all kinds	494,341,963 „	18,896,422
Rum	109,860 „	89,855
Sugar	319,753,056 lbs.	6,115,294

Sugar.—The sugar crop yielded 154,285 tons in 1937. In 1937 cane farmers sold 629,881 tons of canes to the factories, for which they received $1,662,883. In 1936 the tonnage sold was 594,176, and the value $1,568,624. The sugar manufacturers again voluntarily maintained a basic price of $2·64 per ton.

Coconuts.—The value of the exports of coconuts, copra and coconut oil in 1937 was $652,747 compared with $324,832 in 1936.

The factories established in 1930 continued to manufacture copra products, and as a result the sum of $13,384 was distributed by copra producers by way of bonus, while 475,408 gallons edible oil, and 1,420,825 lbs. lard substitute were manufactured, of which 3,558 gallons of edible oil were exported. Excise duty collected during 1937 on edible oil, lard substitute locally manufactured and consumed amounted to $52,999.

Asphalt.—The asphalt lake, 114 acres in extent, situated in the Ward of La Brea, was first leased as a whole in 1888 for 21 years. The lease was renewed for a further period of 21 years from the 1st February, 1909. In February, 1925, a fresh lease of the lake comprising 109 acres was made to the Trinidad Lake Asphalt, Limited, for 21 years, from the 1st February, 1930, on payment of the following Royalties and Export Duties :—

For each ton of Crude Pitch or Asphaltum a Royalty of 60c. and an Export Duty of $1·20.

For each ton of Dried Pitch or Asphaltum a Royalty of 84c. and an Export Duty of $1·66.

Digitized by Google

The quantity of asphalt produced during 1937 was 145,904 tons as against 111,965 tons in 1936.

The quantity of Asphalt exported during 1937 was 90,872 tons to the value of $1,194,914, as compared with 70,543 tons exported in 1936 of a value of $959,759.

Petroleum.—At the close of 1937 there were 18 Companies actively engaged in the exploitation of oil in the Colony. These Companies, having a total share capital of approximately $40,800,000, held over 417,483 acres of Crown Lands under licenses and leases, of which approximately 176,753 acres were held under mining lease. In addition, appreciable areas of private lands are held. Up to 30th January, 1902, oil rights were not reserved by the Government when disposing of Crown Land, but after that year all Crown grants reserved the oil rights to the Crown. There are, consequently, three categories of oil lands, viz., lands disposed of prior to 1902 in which the oil rights rest in the surface owner; land sold since that date in which the oil rights are reserved to the Crown, and lands where both the surface and the underlying oil remain the property of the Crown.

In addition to the above, the Marine areas applied for within territorial waters cover, 389,500 acres.

The principal oil producing companies are the Trinidad Leaseholds, Limited, from Crown and private lands at Fyzabad, Barrackpore, etc.; the United British Oilfields of Trinidad, Limited, from Crown and private lands at Point Fortin, Parry Lands, etc.; the Trinidad Lake Petroleum Company, Limited, from their own lands at Brighton; the Apex (Trinidad) Oilfields, Limited, from Crown and private lands at Fyzabad, Siparia; the Trinidad Central Oilfields, Limited, from Crown Lands at Tabaquite and Guapo; the Kern (Trinidad) Oilfields, Limited from Crown and private lands at Guapo; the Trinidad Oilfields Operating Co., Ltd., from Crown and private lands at Palo Seco, Fyzabad and San Francique; the Trinidad Petroleum Development Co., Ltd., from Crown and private lands at Palo Seco; New Dome Oilfields from private lands at Fyzabad; the Siparia Trinidad Oilfields, Ltd. from Crown lands at Palo Seco; the Trinidad Investments Ltd., from Crown and private lands at Oropouche. The Palo Seco Oilfields (C.C. Stollmeyer) from Crown lands at Palo Seco; The Petroleum Options (1925) Ltd. from private lands at San Francique; Coldan Co., Ltd. from private lands at Fyzabad; Antilles Petroleum Co. (Tdad) Ltd. private lands at Brighton; Mitchell, F. W., private lands at Point Fortin; Scottish Trinidad Oilfields, private lands at Rio Claro; and the Trinidad Consolidated oilfields, Crown oil rights under lease and private lands at Fyzabad. There are refineries at Pointe-à-Pierre, Point Fortin, Brighton, Tabaquite, La Brea and San Francique, and all grades of petroleum products from petrol to road oil are produced. The total quantity of oil produced during 1937 was 15,502,989 barrels, an increase of 2,265,959 barrels as compared with the production for 1936. Of this total 9,743,292 barrels were from Crown Lands or lands in which the oil rights belonged to the Crown. The royalty paid by operating companies on oil, won from Crown rights during the year 1937, amounted to $720,857, as against $617,885 in 1936 and wayleaves to $1,760 as against $1,878 in 1936. The quantity of crude oil and products exported amounted to 14,124,056 barrels valued at $18,896,422 as against 12,405,222 barrels valued at $15,910,638 in 1936.

Grape Fruit.—Large areas have been planted, and the area under cultivation amounted in 1937 to 2,800 acres. The exports during the year 1937 amounted to 4,062,033 fruit, valued at $187,579.

Lime Fruit.—The value of the lime and lime products exported during the year 1937 amounted to $230,873 as compared with $91,834 in the previous year.

Of the total area of the Colony, including Tobago, 1,267,236 acres, the alienated acreage at the end of December, 1937, was estimated to be approximately 708,941 acres. About 377,050 acres are under cultivation.

The chief imports are textiles, flour and rice, dried fish and meat, hardware, machinery and lumber. 36.52 per cent. of the whole trade of the Colony is with the United Kingdom.

Under the Customs Tariff, goods of Empire origin are admitted at a preferential rate of duty, the principal items being entitled to a preference of 50 per cent. of the general rate of duty. Approximately one half the list of items on the tariff are chargeable with duty *ad valorem*, the remainder, including all high duty goods, being subject to specific duties.

The following tables show the direction of the import and export trade of the Colony for 1937:—

IMPORTS.

Municipalities.

In 1914 Port of Spain was constituted a municipal city. The corporate body created under provisions of the Port of Spain Board Ordinance, 1907, and known as the Port of Spain Town Board, was dissolved.

Digitized by Google

The next town and port is San Fernando, about 30 miles south from Port of Spain. The population at the census of 1931 was 14,287.

San Fernando has an elective municipal council and mayor. The chief source of revenue in both boroughs is a rate on property.

A charter of incorporation has been granted to Arima, an inland town about 16 miles from Port of Spain (population at 1931 census, 5,072). The total municipal revenue of the two boroughs, and town of Port of Spain for the year ended 31st December, 1937, was $1,073,647 the expenditure $1,097,003, and the debt was $1,524,134 on the 31st December, 1937. This includes the loan for the purchase of the Woodbrook Estate, which has become an important suburb of Port of Spain.

Means of Communication.

The Government coastal steamers maintain three direct trips per week between Port of Spain (Trinidad) and Scarborough (Tobago). A weekly call is made at Roxborough (Tobago) and the following Tobago ports:—King's Bay, Speyside, Man-o'-War Bay, Bloody Bay, Parlatuvier, Castara. Pembroke, Plymouth, Mount Levine, Milford and Hilsboro in Tobago are served when inducement offers.

The railway system consists of the following:—

The Port of Spain—Arima—Sangre Grande line (opened in 1897) 29 miles along the southern foot hills of the northern range of hills to within 8 miles of the eastern coast.

The San Fernando—Siparia line, 44 miles (leaving the former line at St. Joseph) following roughly the western coast line of the Colony (opened to Couva in 1880, San Fernando in 1882, Siparia in 1913); total distance, Port of Spain to Siparia, 51 miles.

The Caparo valley and Caparo valley extension lines, 28½ miles (opened to Tabaquite in 1898, Rio Claro in 1914), leaving the Port of Spain—San Fernando—Siparia line at Jerningham Junction (14½ miles from Port of Spain) and running in a generally south-eastern direction; total distance from Port of Spain 43 miles.

The Guaracara line (10 miles) opened in 1884, leaving the Port of Spain—San Fernando—Siparia line at Marabella Junction (33 miles from Port of Spain) and running in an easterly direction to Princes Town; total distance from Port of Spain 42 miles, and

The total length of this system is 118 miles.

The railways afford opportunities of communication for passengers between all lines three times a day, and there are goods train opportunities once a day.

A suburban service of trains is run between Port of Spain and Arima (16 miles) at low fares, giving a service of 6 trains daily each way.

Road transport feeder services between the principal terminal stations and the coast provide for through transport between all the Districts of the Colony

The railway stations are in telegraphic or telephonic communication one with the other on all parts of the system, giving a total length of about 118 miles of telegraph and about 14 miles of telephone lines. There is also a service telephone along the Cipero Section between San Fernando and Princes Town.

The total receipts from the railways, telegraph and telephones for the year 1937 amounted to $856,938, and the working expenses to $747,759, exclusive of provision for loan and capital interest and sinking fund amounting to $271,861. There was, therefore, a net surplus on working of $109,179, as compared with a surplus of $13,992 in the previous year.

The total number of passengers carried during 1937 was 1,737,006. The total tonnage of goods was 581,000 tons.

The roads are divided into main and local roads. The former and 58·38 per cent. of the latter are under the control of the Public Works Department. The other local roads amounting to 534 miles are under Local Road Boards. The main roads, with a total mileage of 1,081 miles, are made up of 459 miles metalled or gravelled and oiled, 266 miles metalled, 181 miles gravelled, 26 miles pitched and 149 miles natural soil roads. The local roads in Districts where there are no Local Road Boards comprise 764 miles and are made up of 42 miles metalled or gravelled and oiled, 106 miles metalled, 283 miles gravelled, 43 miles pitched and 290 miles natural soil roads. In addition there are many miles of Crown Traces in charge of the Wardens.

There are several garages in Port-of-Spain where motor cars can be engaged to convey passengers to any part of the Colony. At most of the railway stations motor cars can be hired to carry passengers to outlying parts. Motor omnibuses also ply on the main roads, and in some of the suburbs of Port-of-Spain.

There is a General Post Office in Port of Spain branch offices at San Fernando and Tobago, and 120 out-offices throughout the Colony.

The rates of postage are as follows, per 1 oz. letter:—

Within Colony	1*d.*
To U.K., India and British Colonies, for 1st oz.	1½*d.*
and for each additional oz. or fraction of oz.	1*d.*
To other places, for 1st oz.	3*d.*
and for each additional oz. ...	1½*d.*

Communication by cable with the United Kingdom, Europe, North America and other parts of the world is maintained by the Pacific Cable Board (All Red Route) and the West India and Panama Telegraph Company. The Pacific Cable Board and the West India and Panama Telegraph Company are both now under the management of Cable & Wireless Ltd. of Electric House, London.

A wireless system is maintained between the following Islands—Barbados, Grenada, Carriacou, St. Lucia, Antigua, Montserrat and St. Kitts.

The principal tariffs are:—

To the United Kingdom from Port-of-Spain	56*c.* per word
To Eastern Canada	36*c.* ,, ,,
To Western Canada	41*c.* ,, ,,

There are also cheap rates at half and quarter of the ordinary tariff, the latter being subject to a minimum charge.

Three wireless stations are maintained by the Trinidad Government at Port-of-Spain and North Post in Trinidad, and at Scarborough in Tobago. The North Post Station deals exclusively with ship, Tobago and Martinique traffic, while communication with British Guiana, Venezuela and Paramaribo is carried out by Port-of-Spain. Negotiations are proceeding between the Government and Cable and Wireless Limited with a view to the Company taking over the Government Wireless Stations.

Digitized by Google

Steamers calling at Trinidad comprise the following lines :—Aluminium Line, American Carribbean Line, American-South African Line, Bermuda and West Indies Line, Canadian National Steamships, Canadian Transport Company, Compania Anonima Venezolana de Navegacion Compagnie General Transatlantique, Fyffes Line, Hamburg Amerikanische Paketfahrt-Aktiengesellschaft, Harrison Lines, Horn Line, Lamport and Holt, McCormick S. S. Co. (Pacific Argentine, Brazil Line Inc.), Munson Line, Nourse Line, Ocean Dominion New York Service, Ocean Dominion S.S. Corporation, Prince Line, Robin Line, Royal Netherlands Steamship Co. (1), Colon Line (2), Surinam Line, Société Générale de Transports Maritime, Standard Oil Company of Venezuela, Wilhelmsen Line, and the Surinam Combined Navigation Company, and Weshfal-Larsen Line. Mails are regularly forwarded and received by some of these steamers.

In addition an increasing number of steamers call to load oil cargoes, or to take in coal or fuel oil for bunker purposes. During the winter months a number of tourist ships call.

Air Mail and Passenger Services are maintained by the Pan American Airways Inc. with the United States of America via St. Lucia, Antigua, St. Thomas, Porto Rico and Havana, with Buenos Aires via Rio de Janeiro, Bahia, Para, Paramaribo and Georgetown, and with Venezuela touching at Caripito, La Guaira, and Maracaibo and onwards to Canal Zone, Mexico, Peru, Chile, Colombo, Cuba, Jamaica, Ecuador, British Honduras and the Republic of Honduras.

Currency and Banking.

British Currency and Trinidad Government notes are legal tender. Accounts are kept in dollars (1 dollar = 50 pence), and the coin in circulation is almost exclusively British silver and bronze, there being no limit to silver as legal tender.

In 1903 an Ordinance provided for the issue of Government Currency Notes was brought into force. Under this Ordinance notes of the denominations of $1, $2, and $1,000 have been issued, but the $1,000 notes were withdrawn and destroyed on the 21st December, 1934. The total value in circulation at 31st December, 1937, amounted to $945,720.

Government Savings Banks are established in 38 districts with a head office in Port-of-Spain. The total number of depositors at 31st December, 1937 was 53,080, with deposits amounting to $2,814,932.

The Commercial Banks are (1) Barclays Bank (Dominion, Colonial and Overseas) Ltd., with a note circulation in the Colony estimated at $862,580; (2) the Royal Bank of Canada, with an authorized note circulation in the Colony of $1,500,000; (3) The Canadian Bank of Commerce, with an authorized note circulation of $750,000; (4) Messrs. Gordon, Grant & Company, Limited. Barclays Bank (Dominion, Colonial and Overseas) Ltd., the Royal Bank of Canada, and the Canadian Bank of Commerce have Savings Bank branches and pay interest at the rate of 1½ per cent., while the Government Savings Bank pays 3 per cent. on amounts up to $2,400. The Bank of Messrs. Gordon Grant and Co., Limited, is not a bank of issue. In addition to the above Banks there is the Trinidad Co-operative Bank, an institution established in 1914, for the encouragement of thrift.

Education.

At the close of 1937 there were 293 primary and intermediate schools in the Colony, 45 being Government and 248 assisted schools. There were 258 schools in Trinidad and 35 in Tobago.

The number of pupils on the roll in December, 1937 was 72,766. The average daily attendance was 50,799, or 69·8 per cent. of the number on roll. As compared with the previous year there was an increase of 2,567 on the roll, and an increase of 2 per cent. in average attendance. The number of teachers and pupil teachers employed was 1,888 (1,904 in 1936).

The total expenditure on education during the year 1937, deducting the amount received in school and examination fees, was $878,499 as compared with $870,325 in 1936.

Secondary Education.

The following Colleges afford facilities for the higher education of boys:—The Queen's Royal College and its affiliated institutions, the St. Mary's College in Port-of-Spain, and the Naparima College in San Fernando, the Bishop's High School in Tobago. The St. Joseph's Convent and the St. Hilary's High School in Port-of-Spain, and the Naparima Girls' High School at San Fernando, which are also affiliated to the Queen's Royal College, provide similar education for girls.

The affiliated institutions work under the same curriculum as the Queen's Royal College, and receive a Government grant-in-aid.

A Government Training College for Teachers at Port-of-Spain was attended by about 133 students in 1937.

Besides the public schools, of which mention has been made above, there are many private schools.

Opportunities for technical education are afforded by a Board of Industrial Training established in 1906, which also supervises a small institution for the instruction of the blind.

TOBAGO.

History.

Tobago was discovered by Columbus in 1498, at which time it was occupied by Caribs. It was visited in 1596 by Capt. Keymis in the *Darling* and found to be uninhabited. In 1628 a grant of the island was made by Charles I. to the Earl of Pembroke. The island remained unoccupied until 1632, when 300 Zealanders were sent out by a company of Dutch merchants, who styled it New Walcheren. After a residence of about two years these settlers were all destroyed or expelled by the Indians and Spaniards from Trinidad. In 1641 James Duke of Courland obtained a grant of the island from Charles I., and in 1642 two vessels arrived with a number of Courlanders, who settled on the north side of the island. These were followed by a second Dutch colony in 1654, who, having effected a compromise with the Courlanders, established themselves on the southern coast; but in 1658 the Courlanders were overpowered by the Dutch, who remained in possession of the whole island until 1662, when the Dutch Company resigned their right to it. In this year Cornelius Lampsis procured letters patent from Louis the Fourteenth, creating him Baron of Tobago, and proprietor of the island under the Crown of France.

In 1664 the grant of the Island to the Duke of Courland was renewed by Charles II. The Dutch refused to recognise the Duke's title, but in 1667 they themselves were compelled by the French Admiral Estras, to evacuate the island the Dutch Admiral Binks being defeated

Digitized by Google

in Scarborough Bay, whereupon Louis the Fourteenth restored the island to the Duke of Courland, who, in 1681, made over his title to a company of London merchants. In 1748, by the Treaty of Aix-la-Chapelle, the island was declared neutral; the subjects of all European Powers being at liberty to form settlements or carry on commerce but not to place garrisons on it. At the peace in 1763, by the Treaty of Paris, Tobago was ceded by France to England in perpetuity.

In 1781 Tobago was captured by the French under the Duke of Bouillé, after a most gallant defence by the Colonists. In 1783 it was surrendered by treaty to the French Crown. On 15th April, 1793, it was captured by a British force under Admiral Lefrey and General Cuyler, and was once more restored to the French by the Treaty of Peace in 1802, and again reconquered in 1803 by Commander Hood and General Greenfield, and in 1814 finally ceded in perpetuity to the British Crown.

Situation and Area.

Tobago lies between 11° 8′ and 11° 21′ N. lat. and 60° 30′ and 60° 50′ W. long., distant from Barbados 120 miles, from Grenada 75 miles, and from Trinidad, 26 miles. It is 26 miles long and 7½ miles at its greatest breadth, and has an area of 116 square miles, or 74,392 acres, of which about 42,000 acres are under cultivation.

The formation of the island is volcanic: its physical aspect is irregular and picturesque, with conical hills and ridges, which descend from a common base or dorsal ridge 1,800 feet high and 18 miles in length.

The population of Tobago in 1931 was 25,358 according to census.

General Description.—Tobago.

Tobago is a Ward of Trinidad and its exports out of the Colony all pass through Trinidad and are included in the general statistics of the Colony. It has also a considerable trade in minor products, vegetables, live stock, etc., with Trinidad. The total value of the Tobago trade in 1937 was $538,333, made up as follows:—

Cacao	$176,740
Coconuts	7,743
Copra	190,275
Other Products	163,575

The island is divided into seven parishes. Scarborough, the principal town, is on the south side of the island, about 8 miles from the S.W. point, and is situated at the south-western base of a hill 425 feet above the level of the sea, on which stands Fort King George, now without a garrison. The town had a population, according to the census of 1931, of 833. It is a port of registry. Courland Bay, at Plymouth, also has good anchorage. There is a lighthouse at Fort King George, Scarborough; it is a fixed white light, at an elevation of about 425 feet above the level of the sea.

Regular communication with Trinidad is maintained by means of wireless telegraphy, and a coastal steamer service, provided by the Government.

The island possesses a fair mileage of motor roads.

Education is in the hands of the Anglican, Roman Catholic, Moravian, and Methodist bodies, who are assisted by a Government grant.

Constitution.

The Government was formerly administered by a resident Administrator, subordinate to the Governor-in-Chief of the Windward Islands at Grenada, and a Legislative Council was established by an Order in Council of the 7th of February, 1877, to consist of not less than three persons, designated by Her Majesty.

By an Order in Council of 17th November, 1888, issued under Act 50 & 51 Vict. cap. 44, Tobago was amalgamated with Trinidad, the name of the new Colony being Trinidad and Tobago. The latter island was administered by a Commissioner appointed by the Governor of the United Colony, who was *ex officio* a member of the Legislative Council, and one unofficial member of Council represented Tobago. The Commissioner was assisted by a financial board of five members, two nominated by the Governor and three elected. The revenue, expenditure, and debt of the islands remained distinct, but there was entire freedom of commercial intercourse between them, and the laws of Trinidad were, with some specified exceptions, the laws of both.

By an Order in Council of the 20th of October, 1898, the Order in Council of the 17th of November, 1888, was almost entirely revoked, and it was provided that the Island of Tobago should become a ward of the United Colony of Trinidad and Tobago; that the revenue, expenditure, and debt of Tobago should be merged in those of the United Colony; that the debt due from Tobago to Trinidad should be cancelled; that (with some specified exceptions) the laws of Trinidad should operate in Tobago, and those of Tobago cease to operate so far as they conflicted with the laws of Trinidad; that all future Ordinances of the Legislature of the Colony should extend to Tobago, with the proviso that the Legislature should be able to enact special and local Ordinances and regulations applicable to Tobago as distinguished from the rest of the Colony.

This Order in Council was brought into effect from the 1st of January, 1899, by a proclamation of the Governor issued on the 8th of December, 1898. The post of Commissioner ceased to exist, and the post of Warden and Magistrate was created.

Population.

Census.	Male.	Female.	Total.
1901	8,671	10,080	18,751
1911	9,922	10,827	20,749

Venezuela, Señor F. Rojas, H. G. Dalla Costa (Honorary Vice-Consul).
Venezuela, J. A. Odreman, Vice-Consul.
Yugoslavia, Dr. G. A. Lyon.

UGANDA.

(For Map see under Kenya.)

Extent and Boundaries.

The British Protectorate over Buganda was proclaimed on August 27th, 1894. The Protectorate was further extended over Bunyoro and Busoga on July 3rd, 1896. By numerous treaties concluded by various officers in the service of the Protectorate, the British administration has spread still further over countries adjoining the kingdom of Buganda proper, and the boundaries of the Protectorate may now be set forth as follows:—

On the east by Kenya Colony as far north as Mount Zulia, near the 4th degree of north latitude, the natural boundaries being the Turkana escarpment, Mount Elgon, and the Sio River running into the north-east corner of Lake Victoria; on the south, by the Tanganyika Territory and by the 1st degree of south latitude; on the west, by the frontier of the Belgian Congo, the natural boundaries being Lake Edward, Mt. Ruwenzori, the Semliki River, Lake Albert and the Nile watershed; and on the north, by the Anglo-Egyptian Sudan.

The area of the Uganda Protectorate is estimated at 93,981 square miles, including 13,680 square miles of water. Pending the complete survey of the country, it is not possible to give the correct area.

For administrative purposes the Protectorate is divided into three provinces (Eastern, Western, and Buganda), and then again into numerous districts.

The headquarters of the Uganda administration are at Entebbe, and the chief commercial towns in the Protectorate are Kampala and Jinja; all three are on or near the North shore of Lake Victoria.

Climate.

The climate, when compared with that of some tropical countries, is not unpleasant, but there are parts of the country which can by no means be called healthy. The conditions vary with the altitude in different parts of the Protectorate: the Nile Valley, which lies about 2,000 feet above sea-level, is hot, and is considerably more unhealthy than the higher-lying regions between Lakes Victoria and Albert. The most congenial climate for European residence is found in the Buganda kingdom and in the Western Province, where in some districts the altitude exceeds 5,000 feet above sea-level. European children thrive well in infancy in a few of the healthier stations, but considerable risk is attached to bringing them out when over six or seven years old, as they are always liable to attacks of malaria and the anæmia and general ill-health resulting therefrom.

The climate is mild, neither excessively hot nor cold, the average temperature for the year 1937 at Entebbe being—Mean maximum, 77·9° Fahrenheit; mean minimum, 63·3° Fahrenheit. Average daily sunshine 6·3 hours.

The lowest rainfall for 1937 was recorded at Mwirasandu (Western Province), which registered 29·33 inches, the highest (128·75) being recorded at Kalangala (Sesse Islands).

The seasons are not well defined, but there are two dry seasons within the year; one dry season usually includes June and July, and the other December, January and February.

The healthiest months of the year are usually January, February and March, July, August, September and October, and the least healthy, April, May, November and December, or the periods corresponding to those immediately following the rains, when the mosquitoes become more in evidence and malarial infections more numerous.

Digitized by Google

No part of the Protectorate can be said to be absolutely free from malaria, but in some districts, for example those of Toro and Kigezi in the Western Province, there is comparatively little, while on the other hand, in the Nile valley and along the courses of the larger rivers, malaria prevails at all seasons of the year.

Sleeping sickness, which proved such a scourge to the country in 1902 and the years following and necessitated the evacuation of the natives from the islands in Lake Victoria, and from the shores of the great lakes and rivers, is now well under control. During 1921 and 1922 the island population was to a great extent restored and many of the islands were successfully reopened. The focus of the disease is no longer on Lake Victoria.

Plague and smallpox are unfortunately endemic in the native population, but it has been possible to confine outbreaks for the most part within narrow limits. Active measures against these diseases are constantly engaging the attention of the medical and administrative authorities.

History.

The countries that now make up the Uganda Protectorate did not become known to Europe until the journey of Speke and Grant in search of the sources of the Nile, which brought them to Buganda in 1862 and to Bunyoro a year later. In both countries they found a somewhat advanced indigenous civilisation, and it is around the rivalries of these two principalities that all the early history of the country centres. The Swahili form of "Buganda," the country of the Baganda people, has been adopted as the name of the whole Protectorate, although there are many other quite separate races and tribes among its inhabitants. Speke's discoveries were not at first credited, but were soon confirmed by Sir Samuel Baker and his wife who discovered Lake Albert. The first missionaries arrived in Buganda in 1877, and the rivalries of Protestant, Catholic and Mohammedan which soon naturally arose ended, after the death of the old king, Mutesa, and the accession of his weak and vacillating son, Mwanga, to the throne in 1884, in bloodshed. The Imperial British East Africa Company which, after concluding a treaty with Mwanga in 1890, had occupied Kampala with a weak force under Capt. Lugard, had much difficulty in trying to compose these rivalries, and would have been forced to abandon the country but for the intervention of the British Government, which sent out a Special Commissioner, Sir Gerald Portal, in 1893. His enquiry and negotiations led to the establishment of the Protectorate in the following year. For three years the country remained quiet, but in 1897 mutiny broke out among some of the Sudanese troops who had been recruited by the Company from the remains of the Egyptian forces cut off by the Mahdist rebellion. It soon spread to all the discontented elements, but was ultimately overcome after having seriously menaced British rule. Finally the two kings—Mwanga of Buganda and Kabarega of Bunyoro—who had always resented European penetration and had seized upon the mutiny as a good opportunity to put an end to it, were captured and deported.

Since then there is little but peaceful progress to record. Sir Harry Johnston was sent out by the British Government in 1900 as Special Commissioner to settle the country, and concluded agreements with the heads of the native principalities of Buganda, Toro and Ankole, which laid down the principles governing their administrative relations with the Crown and the ownership of the land. No such arrangements could be made at the time with regard to the rest of the present Protectorate, but administration has since been extended gradually over the more primitive and unorganised tribes, and the same principles of "indirect rule" have been followed wherever and whenever it was possible as in the "agreement districts." In 1903 the Eastern highlands of the Protectorate along with the Kavirondo country were transferred to what is now Kenya Colony, and the succeeding years saw further adjustments of frontiers with the Sudan, the Belgian Congo, and German East Africa, now the Tanganyika Territory. In 1903 the superintendence of the Protectorates affairs passed from the Foreign to the Colonial Office. In the Great War the population, of all races, remained devotedly loyal and played a great part in the East African campaign. Since then progress, both material and cultural, has continued, the former made possible by the success of the cotton industry and the development of communications, the latter based on the activities of the missions, both Protestant and Catholic, in whose hands was all educational work until 1925.

Population.

Estimated population, December, 1937 :—

Europeans, males	1,316
,, females	795
Asiatics	17,256
Native Population	3,692,127
Total ..	3,711,494

Constitution.

By the Uganda Order in Council, 1920, it was provided that there should be an Executive Council and a Legislative Council both consisting of such persons as may be directed by Royal Instructions. Under the Royal Instructions dated the 5th June, 1920, as amended by subsequent instructions, the Executive Council consists of the Chief Secretary, Attorney-General, Financial Secretary, Director of Medical Services, Director of Agriculture, Director of Education, and the Resident Commissioner, Buganda (*ex-officio* members), and such other persons holding office in the public service as the Governor may appoint (official members), and such other persons (if any) not holding such office as the Governor may appoint (unofficial members), with the Governor as President.

It is further provided that the Legislative Council shall consist of the Governor, Attorney-General, Financial Secretary, Director of Medical Services, Director of Agriculture and Director of Education (*ex-officio* members), with official and unofficial members as in the case of the Executive Council. There are at present four unofficial members and no official member.

For the East African Governors Conference, see under Kenya.

The Native Government of Buganda has certain rights of internal legislation granted by agreement. The king, or *Kabaka*, who is accorded the title of "His Highness," rules the Baganda people with the advice of the Governor and of a native Council known as the *Lukiko*, which also has judicial functions.

Communications.

The Uganda Protectorate is separated by about 500 miles from the nearest point on the east coast of Africa. Over this stretch of country, all of which lies within the Colony of Kenya, transport was exceedingly difficult before the construction of the "Uganda Railway" from Mombasa to the north-east corner of Lake Victoria, which the Imperial Government decided in 1895 to undertake. This railway at the end of 1901 had covered the whole 584 miles separating Mombasa from Kisumu on Victoria Nyanza, which was the terminus of the railway until recent years.

Digitized by Google

There is a Lake Steamer Service connecting Entebbe, Port Bell (Kampala), and Jinja with Kisumu and the other ports on Lake Victoria. Steamers ply also on Lake Kioga and on Lake Albert and the Albert Nile as far North as Nimule. All these services are maintained by the Kenya and Uganda Railways and Harbours Administration.

A railway, 62 miles long, from Jinja to Namasagali on the Victoria Nile, giving access to the waterways of Lake Kioga, was completed in 1912, and one from Port Bell on Lake Victoria to Kampala, the principal commercial centre, a distance of 7¾ miles, was opened for public traffic in 1915.

Since the Great War considerable railway development has taken place, and the main line of the Kenya and Uganda Railway, leaving the original line at Nakuru, now extends into the Eastern Province of Uganda to join the Jinja-Namasagali railway at Mbulamuti, and so places Uganda in direct communication with the Coast. An extension of this line from Tororo, near the Kenya border, to Mbale and Soroti was completed in 1929, and the linking up of Jinja with Kampala—a scheme which involved the bridging of the Victoria Nile at the former place—was completed in the early part of 1931.

The system of all-weather main roads radiating from Kampala to the principal administrative centres is maintained by the Public Works Department, which has a road mileage of 2,075 under its control. A system of roads in the Western Province establishes connection between the tin-mines and the Kagera River steamship service, taps the resources of the Ruchuru area of the Belgian Congo for that service, and links up direct the district headquarters in the west of the Protectorate. About 5,324 miles of excellent roads are also kept up by the Native Administrations. Motor-transport, in consequence of these facilities, has reached an advanced stage of development in the Protectorate.

The Uganda Posts and Telegraphs Department is amalgamated with those of Kenya and Tanganyika under the control of the Postmaster-General at Nairobi.

Uganda is now in telegraphic communication with Mombasa and Dar-es-Salaam by land lines, and thence by cable with Great Britain and other countries and also by wireless to Great Britain through Nairobi. All important centres within the Protectorate are also connected by telegraph.

The total mileage of telegraph and telephone pole route at the end of 1937 was 1,574, and the wire mileage 5,156. Telephone exchanges are worked at Entebbe, Kampala, Jinja, Inganga, Busambatia, Mbale, Tororo, Bombo, Mpigi, Busia and Masaka, and connected by trunk lines.

Aviation.

Landing grounds are kept up at Kololo (Kampala), Entebbe, Tororo, Masindi, Gulu, Mbarara and Jinja, Lira, Butiaba, Arua and Moroto. Landing facilities for sea-planes exist at Entebbe, Port Bell, Jinja and Butiaba. There is no accommodation in Uganda for housing aircraft, but repairs can be carried out at the above places. Tri-weekly communication by air with Europe and South Africa, has now been established by means of Imperial Airways, Ltd.

Industries.

Coffee of the *Arabica* and *Robusta* varieties has been introduced and thrives exceedingly well; the former is the principal crop on European plantations, and both are being grown in increasing quantities by Africans. The principal industry is cotton, and 1,353,566 centals of lint, valued at 4,269,283*l.*, as well as 103,440 tons of cotton seed, of a value of 392,083*l.* were exported in 1937. Sugar, hides and skins, ground-nuts and chillies, are the other principal agricultural exports, and, except for sugar, practically all the production is in native hands. Mineral discoveries have been made in recent years, and there is a considerable export of high-grade tin ore from the Western Province. 19,590 ozs. (troy) of gold, valued at 124,713*l.* was also exported in 1937. Cattle are plentiful. Leasehold grants of land can be obtained from the government, but the issue of freehold concessions has been withdrawn for the present.

The weights and measures in common use in the Protectorate are the Imperial weights and measures. The currency is the same as that of Kenya.

Banking facilities are afforded by the National Bank of India Ltd., with branches at Entebbe, Kampala, and Jinja, the Standard Bank of South Africa Ltd., with branches at Kampala and Jinja, by Barclays Bank (Dominions, Colonial and Overseas), with branches at Kampala and Jinja, and the Merchant's Bank at Kampala.

Trade and Customs.

Since 1917 Kenya and Uganda have been one administrative unit for purposes of Customs.

A uniform Tariff was adopted in 1923 for Kenya and Uganda, operating also in Tanganyika Territory. Under this tariff all export duties were abolished and the import schedules were remodelled to provide for the imposition of "specific" duties and of "*ad valorem*" duties varying from 10% to 62½% of the landed value of goods liable to duty on importation. In addition, free trade between Kenya, Uganda and the Tanganyika Territory in goods, the growth, produce or manufacture of each of the territories was established. The 1923 Tariff with minor alterations, remained in force until April, 1930, advantage of the existence of a tariff common to the three territories being taken to institute in August, 1927, a system of extending unrestricted trading to imported goods passing between the territories. Under this procedure, which is operated by means of transfer forms, single payment of duty only is chargeable, the Customs Revenue involved being credited to the consuming territory by inter-departmental entry.

In 1930 a uniform modernised Tariff scheduled according to commodities as opposed to rates was negotiated and enacted in the three territories simultaneously. Included in the provisions of the Tariff Ordinance is an amended definition of value for purposes of assessment of duty which brings the East Africa Tariff Laws into conformity with the practice followed in many other countries and allows of the acceptance of certificates of value endorsed on invoices in the stereotyped form approved by the Imperial Customs Conference, 1921.

The basis of assessment is now the current domestic value in the country of export plus freight and other charges incurred up to the time of importation of goods into Kenya, Uganda or the Tanganyika Territory as the case may be. As regards certain specially protected commodities (wheat, flour, sugar, timber, etc.), the device of "suspended duties" has been adopted in order to allow of a defined margin of elasticity in each territory in the matter of imposition on specified articles of "suspended duties" as distinct from basic duties, without interference with the main principle of a common Tariff. The 1930 Tariff Ordinances of the three territories produce that the Governor, with the approval of Legislative Council, may impose by Proclamation either in part or in full a duty referred to in the Tariff schedules as a "suspended duty," the effect being that each Government has the right to vary "suspended duties" up to the amount specified in the Tariff. At the same time an undertaking has been given by each Government that removals of any of the

Digitized by Google

"suspended duties" will only take place after prior consultation with the other Governments concerned.

In 1931 the Consumption Tax previously leviable on wines and spirits cleared for consumption in Kenya was incorporated in the common Tariff and certain increases in the rates of duty chargeable on vehicles and parts (including tyres and tubes) were imposed in the three territories.

The import tariff as it now stands admits free of duty goods essential to the agricultural, industrial, educational and scientific development of the territories and has been designed, as far as possible, to protect imports essential to the opening up and development of the country and to foster local production of agricultural and other commodities in which Kenya, Uganda and Tanganyika Territory, taken as an economic unit, are, or can be made, self-supporting.

The net amount of Customs receipts credited to Uganda from all sources was 667,075*l.* in 1937.

The following table gives the main items of trade goods imported during 1937 :—

Articles.	Value. £
Rice	35,893
Tobacco and cigarettes	48,953
Cement, building	27,553
Iron sheets, galvanised and corrugated	47,884
Electrical goods and apparatus	29,147
Machinery, agricultural and industrial and parts	175,293
Cotton piece goods and manufactures	608,745
Other textile and textile manufactures	226,167
Wearing apparel and haberdashery	102,666
Chemicals, drugs, dyes and colours	42,589
Fuel Oil	12,894
Lubricating Oils	26,696
Motor spirit	104,568
Kerosene	29,154
Motor-cars, parts and accessories	182,634
Motor lorries	127,838
Cycles and parts	189,681
Agricultural and Horticultural Tools	33,700

Separate statistics of the countries of origin of imports into Uganda are not available. The principal countries of origin of the imports into Kenya and Uganda combined were :—United Kingdom, 41·19 per cent.; British possessions, 16·51 per cent.; (Total British Empire, 57·70 per cent.); Germany, 5·46 per cent.; Belgo-Luxemburg Economic Union, 2·65 per cent.; France, 0·67 per cent.; Italy, 0·71 per cent.; Netherlands, 0·79 per cent.; Japan, 14·67 per cent.; Persia, 3·56 per cent.; United States of America, 9·02 per cent.; Dutch East Indies, 1·12 per cent.; other foreign countries, 3·65 per cent.

The principal articles of Uganda domestic produce exported during 1937, were :—

Articles.	Value. £
Coffee, raw	420,483
Sugar, refined	123,516
Tea	7,727
Cigarettes and Tobacco (manufactured and unmanufactured)	14,374
Tin ore	76,633
Cotton, raw	4,269,283
Sesame seed	14,017
Seeds, cotton	392,083
Hides and skins	115,037
Ivory, elephant	27,435
Gold bullion	124,713
Rubber, plantation	33,042
Sisal	18,564
Timber	6,247

Statistics of the chief countries of consignment for Uganda domestic produce are as follows :—United Kingdom, 15 per cent.; India, 52 per cent.; Union of South Africa, 2 per cent.; Canada, 1 per cent.; Tanganyika Mandated Territory, 2 per cent.; Belgo-Luxemburg Economic Union, 1 per cent.; France, 1 per cent.; Netherlands, 1 per cent.; Japan, 19 per cent.; United States of America, 1 per cent.; Mozambique, 1 per cent.; other countries, 4 per cent.

Year.	†Imports. £	Exports. £
1933	1,367,049	3,464,610
1934	1,665,941	3,773,766
1935	1,698,085	3,630,529
1936	2,211,592	4,466,453
1937	3,555,754	5,702,736

Finances.

The Revenue is principally derived from poll taxes, customs duties, cotton tax, trading licences, and land rents. The revenue from poll taxes in 1937 was 610,170*l.*, and from customs duties 667,075*l.* There has been no grant-in-aid from the British Government since 1914-15. The Uganda Loan, 1932 (£2,110,060), was floated in January, 1932. The unit of currency is the East African shilling.

	Revenue. £	Expenditure. £
1928	1,519,237	1,368,188
1929	1,682,918	1,607,175
1930	1,412,242	2,040,294
1931	1,399,913	1,451,564
1932	1,402,528	1,332,751
1933	1,350,070	1,275,593
1934	1,527,672	1,361,667
1935	1,566,688	1,462,487
1936	1,712,939	1,624,073
1937	1,959,533	1,740,888

Principal, Makerere College, D. G. Tomblings, C.M.G., 1,000*l.*
Vice-Principal, Makerere College, J. Sykes, 720*l.* to 920*l.* (Scale A).
Tutors, H. H. Wood, W. N. R. Lee, J. W. F. Marriott, R. J. R. Potts, C. S. Nason, G. L. R. Hancock, F. L. Gee, 500*l.* to 920*l.* (Scale A), W. W. Soundy, 400*l.* to 920*l.* (Scale A).
Bursar, S. R. Hooper, 372*l.* to 600*l.* (Scale D).
Chief Instructor, Kampala Technical School, D. M. Cavers, 600*l.* to 720*l.* (Scale C).
5 *Instructors*, C. S. Grant, W. E. Fisher, 372*l.* to 600*l.* (Scale D); F. P. Woodmore, J. Titmuss, H. J. Downing, 372*l.* to 500*l.* (Scale D).
Clerk and Storekeeper, L. J. Carter, 372*l.* to 500*l.* (Scale D).
Elgon Technical School Instructors, H. R. Griffiths, 480*l.* to 600*l.* (Scale C), J. E. Farquharson, 372*l.* to 600*l.* (Scale D).

Forests.

Conservator of Forests, N. V. Brasnett, 1,050*l.*
Senior Assistant Conservator of Forests, R. W. Freeman, 720*l.* to 840*l.* (Scale C).
6 *Assistant Conservators of Forests*, I. R. Dale, W. J. Eggeling, R. G. Sangster, 480*l.* to 720*l.* (Scale C); C. S. Cree, G. W. St. Clair-Thompson, F. C. Hummel, 400*l.* to 840*l.* (Scale C).
6 *Foresters*, H. R. Webb, A. S. B. Brown, J. A. Fraser, G. Webster, G. Elliott, D. M. D. Davies, 300*l.* to 500*l.* (Scale D).

Game Department.

Game Warden, Capt. C. R. S. Pitman, D.S.O., M.C., 720*l.* to 920*l.* (Scale B).
2 *Game Rangers*, Capt. R. J. D. Salmon, M.V.O., M.C., F. G. Banks, 700*l.*

Geological Survey.

Director (vacant), 1,100*l.*
Senior Geologist, K. A. Davies, 840*l.* to 920*l.* (Scale C).
Mining Geologist, A. D. Combe, 840*l.* to 920*l.* (Scale C).
3 *Geologists*, C. B. Bissett, H. J. R. Way, R. O. Roberts, 600*l.* to 840*l.* (Scale C).
Chemist and Petrologist, B. C. King, 600*l.* to 840*l.*
Junior Laboratory Assistant, B. E. R. Kirwan, 300*l.* to 500*l.*
Drilling Engineer, H. Wright, 720*l.* to 840*l.* (Scale C).
4 *Drillers*, H. N. N. B. Ballans, W. M. Todd, T. F. B. Gray, L. O. Dalton, 600*l.*
Rural Water Supplies Instructor, W. H. Shepherd, 360*l.*
Erector, A. R. McKay, 300*l.*

Judicial.

Judges of the High Court:—
Chief Justice, N. H. P. Whitley, M.C., 1,800*l.*
2 *Puisne Judges*, C. C. Francis, F. C. Gamble, 1,350*l.*
Senior Magistrates and Magistrates, F. W. Johnston, G. C. Low, T. H. Perrott, 600*l.* to 920*l.* (Scale A); C. R. Stuart, F. K. Ewart, E. H. Hanson, R. E. L. Dreschfield, 600*l.* to 1,000*l.* (Scale A).
Registrar, High Court, D. H. Shackles, 600*l.* to 840*l.* (Scale A).
Clerical Superintendent and Interpreter, J. D. Kirwan, 300*l.* to 600*l.* (Scale D).

Land and Survey Department.

Director of Surveys, Land Officer and Commissioner of Mines, H. B. Thomas, O.B.E., 1,350*l.*
Deputy Director of Surveys (vacant), 1,000*l.*
Registrar of Titles and Conveyancer, D. L. G. Williams, 600*l.* to 960*l.* (Scale A).
Assistant Registrars of Titles and Conveyancers, J. F. Spry, 600*l.* to 840*l.* (Scale A), D. F. Shaylor, 550*l.* to 840*l.*
3 *Senior Surveyors*, A. J. Wright, R. G. Miller, F. M. Thomas, 720*l.* to 840*l.* (Scale C).
9 *Surveyors*, A. G. Ellis†, D. Kavanaugh†, E. L. Walsh†, T. G. Braine†, 480*l.* to 840*l.* (Scale C); G. P. Spurr, G. M. Gibson, A. J. Rusk, 480*l.* to 720*l.* (Scale C); M. C. Williams, S. F. Ware, 450*l.* to 840*l.*
Senior Inspector of Mines, A. J. W. Legge, 720*l.* to 840*l.* (Scale C).
Inspector of Mines (vacant), 480*l.* to 720*l.* (Scale C).
Computer, H. F. Rainsford, 720*l.* to 840*l.* (Scale C).
Chief Draughtsman, D. O. Mathews, 480*l.* to 720*l.* (Scale C).
Draughtsman, H. King, 300*l.* to 500*l.*
Land Assistant, A. T. G. Barber, 425*l.* to 720*l.* (Scale B).
Office Superintendent and Storekeeper, S. Dean, 500*l.* to 600*l.* (Scale D).
2 *Clerks*, D. McLaren, P. C. Keun, 300*l.* to 500*l.* (Scale D).

Medical.

Director of Medical Services, W. H. Kauntze, C.M.G., M.B.E., 1,500*l.*
Deputy Director of Medical Services (vacant), 1,200*l.*
Assistant Director of Medical Services (vacant), 1,150*l.*
Medical Superintendent and Principal, Medical School, Mulago, J. P. Mitchell, O.B.E., 1,150*l.*
Specialist (Surgeon), A. H. Mowat, 1,000*l.* to 1,100*l.*
5 *Senior Medical Officers*, J. M. Semple, J. C. St. George Earl, W. Hood-Dye, A. R. Lester, A. J. Boase, 1,000*l.* by 50*l.* to 1,100*l.*
Medical Officers, T. H. Nolan, J. D. Reynolds, N. C. Macleod, S. Forrest, G. Louw, A. H. Maclean, 600*l.* to 1,000*l.* (Scale A); A. A. Battson, C. E. Roberts, J. J. Mitchell, R. E. Barrett, A. F. Brown, J. S. Brown, H. C. Trowell, J. J. Black, P. J. Cowin, D. Murray, E. Burton, H. Holmes, J. R. C. Spicer, C. R. C. Rainsford, A. G. Mackay, H. G. Floyd.

(For Scales A, B, C, D, E and F, see footnote page 507.)

X-ray Operator, J. L. Hewlett-Parker, 300*l.* to 500*l.* (Scale D).

Senior Sanitary Inspector, G. Gillanders, 540*l.* to 660*l.* (Scale D).

Instructor of Hygiene, H. Jordan, 540*l.* to 660*l.*

Assistant Instructor of Hygiene (vacant), 372*l.* to 540*l.*

14 *Sanitary Inspectors*, W. Johnston, R. C. D. Hooper, F. E. Weaver, W. M. Carnie, E. J. Hines, G. H. Postlethwaite, T. Hughes, F. Smith, G. Landmark, N. G. Lennon, I. W. Beaton, F. G. Ward, J. H. Taylor, J. D. Gillett (1 vacancy), 372*l.* to 540*l.* (Scale D) and 10*l.* uniform allowance.

Police.

Commissioner of Police, H. M. King, 1,200*l.*

Deputy Commissioner, Capt. E. G. Fish, 1,000*l.*

Superintendents, Assistant Superintendents and Cadets, F. Roberts, E. G. Smith, L. L. Ralph, G. W. Peskett, A. W. Parsons, B. Driscoll, H. F. Workman, W. D. MacLeman, D. Skinner, I. MacGregor, J. W. Deegan, Capt. P. S. LeGeyt, Capt. B. R. Durlacher, M.C., C. V. Curtis, J. H. Burbrook, W. J. Hubbard, J. D. B. Watson, H. C. Money, C. A. Mathias, J. V. Mullin, P. W. E. Ryland, A. E. Harwich, 360*l.* to 840*l.* (Scale B); A. S. K. Cook, J. W. Deegan, 350*l.* to 780*l.* (Scale B).

Inspectors, H. T. Fairfield, H. Blackwell, H. W. Creasey, L. H. George, S. L. Lloyd, L. Sharp (2 vacancies), 372*l.* to 500*l.* (Scale D).

Assistant Inspectors, S. M. Locke, E. J. Potter, V. E. Blad, S. M. Fortt, G. Woodgate, W. Scott, A. J. Brinton, J. R. Farley, I. D. Macabe, F. T. Reader (1 vacancy), 300*l.* to 372*l.* (Scale D).

Drill Instructor, E. J. G. Brown, 372*l.* to 500*l.* (Scale D).

Finger Print Expert, W. A. Jerome, D.C.M., 408*l.* to 500*l.* (Scale D).

Deputy Inspector of Weights and Measures, H. Brentnall, 372*l.* to 540*l.* (Scale D).

Lady Registry Superintendent, Mrs. L. W. Summerfield, 300*l.* to 426*l.*

Prisons.

Commissioner of Prisons, H. P. Robertson, 840*l.*

Superintendent, W. F. Hodgson, 500*l.* to 720*l.* (Scale B).

Assistant Superintendents, W. A. Brown (1 vacancy), 425*l.* to 600*l.* (Scale B).

Head Gaolers, P. Snelgrove, J. Gemmell, Capt. H. E. Fitzgerald, 372*l.* to 500*l.* (Scale D).

Posts and Telegraphs.

(See under "Kenya.")

Postmaster-General, G. B. Hebden, 1,600*l.*

Regional Director, B. Lewis, 1,000*l.*

Printing and Stationery Department.

Government Printer, Manager of "Official Gazette" and Comptroller of Stationery, G. H. Bell, 600*l.* to 840*l.* (Scale C).

Assistant Printer and Linotype Supervisor, S. Foote, 500*l.* to 600*l.* (Scale D).

Second Assistant Printer, J. H. Bowkett, 372*l.* to 500*l.* (Scale D).

Monotype Operator, K. G. Chard, 372*l.* to 500*l.* (Scale D).

Public Works Department.

Director of Public Works, A. C. Willmot, O.B.E., 1,350*l.*

Deputy Director of Public Works, W. H. Michell, 1,000*l.*

2 *Executive Engineers*, F. U. M. Greer, N. W. King, M.C., 840*l.* to 920*l.* (Scale C).

2 *Senior Assistant Engineers*, J. J. Donaghue (1 vacancy), 720*l.* to 840*l.* (Scale C).

6 *Assistant Engineers*, F. H. R. Came, M.B.E., H Collin, F. J. Murphy, J. B. White, J. F. Griffiths, J. K. Watson, 480*l.* to 720*l.* (Scale C).

Electrical Engineer, W. L. Whyte, 600*l.* to 840*l.*

Factories Inspector, M. J. Robertson, 600*l.* to 720*l.* (Scale C).

Assistant Factories Inspector, J. E. H. Calvert, 408*l.* to 500*l.* (Scale D).

Architect, C. T. Mitchell, 600*l.* to 840*l.* (Scale C).

Draughtsman and Quantity Surveyor, W. H. Watts, 480*l.* to 720*l.* (Scale C).

Chief Accountant, F. A. Dickinson, 720*l.* to 840*l.* (Scale B).

2 *Assistant Accountants*, S. Grey, B. T. Duckworth, 425*l.* to 720*l.* (Scale B).

Chief Storekeeper, E. E. Stow, 600*l.* to 720*l.* (Scale B).

3 *Assistant Storekeepers*, H. T. Leach, J. Carter, A. Slater, 372*l.* to 500*l.* (Scale D).

Senior Road Overseer, R. Blackie, D.C.M., 600*l.* to 720*l.* (Scale C).

2 *Senior Overseers*, A. W. Phillips, M.B.E., W. Whatley, 500*l.* to 600*l.* (Scale D).

Waterworks Superintendent, A. W. Legg, 500*l.* to 600*l.* (Scale D).

Waterworks Overseer, E. M. Bowick, 372*l.* to 500*l.* (Scale D).

Road Foremen, J. W. Pool, 354*l.* to 450*l.*, R. N. Gawler, G. B. Kettle, 354*l.* to 400*l.* (Scale D).

Sewerage Works Manager, J. Taylor, 500*l.* to 600*l.* (Scale D).

Transport Section.

Mechanical Transport Officer, W. Dixon, 720*l.*

Transport Officer, E. A. Evans, 500*l.* to 600*l.* (Scale B).

Clerk and Storekeeper, H. G. Lovell, 372*l.* to 500*l.* (Scale D).

Mechanics, J. T. Stewart, F. J. Hopgood, J. L. Roper, C. H. Burns, 372*l.* to 500*l.* (Scale D).

Kenya and Uganda Railways and Harbours.
(See under "Kenya.")

Coast Agent, Mombasa, L. Shoolman, 600*l.* to 720*l.* (Scale B).

Assistant Coast Agent, F. G. Lapham, 500*l.* to 660*l.*

Township Authorities.

Superintendent of Conservancy and Executive Officer, Kampala Township Authority, J. V. W. Hodson, 600*l.* to 720*l.* (Scale B).

Superintendent of Conservancy and Executive Officer, Jinja Township Authority (vacant), 480*l.* to 600*l.* (Scale D).

Executive Officer, Entebbe Township Authority, and Conservancy Officer, W. L. Davenport, 408*l.* to 540*l.* (Scale D).

Conservancy Officer and Sanitary Inspector, C. W. G. Tiffin, 372*l.* to 540*l.* (Scale D).

3 *Conservancy Officers*, W. S. Swann, D. F. Crombie, F. W. B. Rolfe, 300*l.* to 500*l.* (Scale D).

Superintendent of Inland Revenue, Kampala, A. G. Johnson, M.M., 500*l.* to 600*l.* (Scale D).

Veterinary Department.

Director of Veterinary Services, W. F. Poulton, C.B.E., 1,100*l.*

Senior Veterinary Research Officer, J. Carmichael, 920*l.*

Veterinary Research Officer, 600*l.* to 840*l.* (vacant).

Senior Veterinary Officers, Capt. W. S. Aitken, R. J. Simmons, 600*l.* to 920*l.*

9 *Veterinary Officers*, W. L. S. Mackintosh, W. A. Allan, H. G. Stewart, R. B. H. Murray, C. P. Downes, H. Cronly, R. N. T. N. Fiennes, A. W. Gledhill, 600*l.* to 840*l.* (Scale C); D. Luke, J. E. R. Roe, 500*l.* to 840*l.*

Senior Assistant Live Stock Officer, J. T. Kennedy, 600*l.* to 720*l.* (Scale C).

2 *Assistant Live Stock Officers*, J. J. Victor, H. E. C. Lewys-Lloyd, 425*l.* to 600*l.*

2 *Laboratory Assistants*, E. R. Jones, S. G. Laws, 372*l.* to 600*l.* (Scale D).

Clerk, F. A. Cottage, 300*l.* to 500*l.* (Scale D).

WESTERN PACIFIC.

High Commission.

The office of High Commissioner in, over, and for the Western Pacific Islands, was created by an Order in Council, cited as the Western Pacific Order in Council of 1877.

The jurisdiction of the High Commissioner extends over all islands in the Western Pacific not being within the limits of the territories administered by His Majesty's Governments in the Commonwealth of Australia and in New Zealand or the Colony of Fiji, and not being within the jurisdiction of any other civilised Power. In 1893 a new Order in Council was issued, known as the Pacific Order in Council, 1893, in accordance with which the High Commissioner's jurisdiction is extended to foreigners and (in most cases) to natives residing in British settlements or protectorates within the limits of the Order. Under the provisions of the New Hebrides Order in Council, 1922, the jurisdiction of the High Commissioner extends also to the islands in the Pacific Ocean known as the New Hebrides, and all the islands known as the Banks Islands and Torres Islands. The expenses of the High Commission at Suva, Fiji, are met from the funds of the Gilbert and Ellice Islands Colony and the British Solomon Islands Protectorate, but a contribution is paid from Imperial funds in respect of work in connection with Tonga and the New Hebrides.

The Chief Justice of Fiji, and every other Judge for the time being of the Supreme Court of Fiji, is by virtue of his office a Judicial Commissioner.

Deputy Commissioners are appointed by the High Commissioner on behalf of His Majesty.

The High Commissioner's Court consists of the High Commissioner, the Judicial Commissioners, and the Deputy Commissioners, and in it is vested all His Majesty's civil and criminal jurisdiction exercisable in the Western Pacific Islands.

The Court of a Judicial Commissioner has powers similar to those of the Superior Courts of England, and the Deputy Commissioners have civil jurisdiction in Common Law, Equity and Bankruptcy, with a limited jurisdiction in Probate, and have a criminal jurisdiction in respect of offences not punishable with seven years' penal servitude or upwards.

With some few exceptions all decisions of the High Commissioner's Court may be appealed against to the Supreme Court of Fiji.

In addition to the other means of preserving order the High Commissioner has certain special powers for the deportation of persons whose proceedings endanger the peace of the Islands.

The principal groups under the High Commissioner are:—

The Gilbert and Ellice Islands Colony.
The British Solomon Islands Protectorate.
Tonga.
The New Hebrides.
The Phœnix Group.
Pitcairn Island.

Particulars of these are given below.

(For Scales A, B, C, D and E see footnote page 507).

High Commissioners.

1877 Sir Arthur Gordon, G.C.M.G.
1887 Sir C. B. H. Mitchell, K.C.M.G.
1888 Feb., Sir J. B. Thurston, K.C.M.G.
1897 Sir G. T. M. O'Brien, K.C.M.G.
1902 Sir H. M. Jackson, K.C.M.G.
1904 Sir E. im Thurn, K.C.M.G., K.B.E., C.B.
1911 Sir Henry May, K.C.M.G.
1912 Sir Ernest Bickham Sweet-Escott, K.C.M.G.
1918 Sir C. H. Rodwell, K.C.M.G.
1925 Sir Eyre Hutson, K.C.M.G.
1929 Sir A. G. Murchison Fletcher, K.C.M.G., C.B.E.
1936 Sir Arthur Frederick Richards, K.C.M.G.
1938 Sir Harry Charles Luke, K.C.M.G.

Establishment.

High Commissioner, Sir Harry C. Luke, K.C.M.G., 1,100*l.*, and duty allowance 300*l.* (in addition to 2,500*l.* as Governor of Fiji, a duty allowance of 750*l.* and allowance of 150*l.* as Consul-General for Western Pacific).
Chief Judicial Commissioner, O. C. K. Corrie, M.C., (also Chief Justice of Fiji).
Secretary to the High Commission, H. H. Vaskess, O.B.E., 700*l.* to 800*l.* by 25*l.*, and house allowance, 75*l.*
Assistant Secretary, R. H. Garvey, 450*l.* to 600*l.* by 25*l.*
Acting Assistant Secretary, A. C. F. Armstrong, 600*l.*, and house allowance 75*l.*
Chief Clerk and Accountant, L. E. Ambler, 450*l.* to 600*l.* by 25*l.*
Third Class Clerks, T. A. Greene, C. E. Yonge, 150*l.* to 270*l.* by 15*l.*
Clerks and Typists, Miss D. Hill, Miss E. L. Hopewell, 150*l.* to 270*l.* by 15*l.*
Auditor, L. H. Pope, 150*l.* (in addition to 900*l.* as Auditor, Fiji).
Central Medical Authority, V. W. T. McGusty, O.B.E., 100*l.* (in addition to 1,000*l.* to 1,100*l.* as Director of Medical Services, Fiji).

THE GILBERT AND ELLICE ISLANDS COLONY.

The Colony, which includes Ocean, Christmas, Fanning, and Washington Islands, besides the Gilbert, Ellice and Phoenix Groups, is under the charge of a Resident Commissioner, who is responsible to the High Commissioner for the Western Pacific who resides in Fiji.

The Gilbert Group is comprised of the following sixteen islands:—Makin, Butaritari, Marakei and Abaiang (Northern Gilberts); Tarawa, Maiana, Abemama, Kuria, Aranuka (Central Gilberts), Nonouti, Tabiteuea, Beru, Nikunau, Onotoa, Tamana, Arorae (Southern Gilberts).

The Ellice Islands are the following nine:—Nanumea, Nanumaga, Niutao, Nui, Vaitupu, Nukufetau, Funafuti, Nukulaelae and Nurakita.

The Phoenix Islands were annexed to the Colony in March, 1937. They consist of Birnie, Canton, Enderbury, Gardner, Hull, McKean, Phoenix and Sydney Islands.

The three groups above form a rough triangle, the approximate geographical positions of whose vertices are:—North (Gilbert Is.) 30°N., 173°E.; East (Phoenix Is.) 4°S., 171°W.; South (Ellice Is.) 11°S., 179°E.

The population of the Colony as determined at the 1931 Census was:—Ocean Island, 2,309; Gilbert Islands, 26,528; Ellice Islands, 4,074; Fanning, Washington and Christmas Islands, 505. The total of 33,416 comprised 275 Europeans, 32,467 natives, 235 half-castes and 439 Asiatics. An annual count is made of the population, but the figures obtained are not sufficiently accurate to be of value for comparative purposes.

With few exceptions the hereditary chieftainships have ceased to exist, but each island has its own native government, presided over by a native magistrate.

A revised code of native laws is validated by an Ordinance of the Colony, and law and order is well maintained under the general supervision of European officials.

The natives are of Malayo-Polynesian race. The majority are adherents either of the London Missionary Society or the Roman Catholic Mission of the Sacred Heart. There is no similarity between the languages of the Gilbert and Ellice Groups.

Ocean Island (or Banaba), in lat. 0° 52′ S., long 169′ 35′ E., about 1,500 acres in extent, is the Headquarters of the Government and the site of operations of the British Phosphate Commission. Reaching a height of 280 ft. and covered with vegetation, it is the only island of the Colony not of atoll formation. The population of Ocean Island on the 31st December, 1937, was 2,878. This total included 134 Europeans, 793 Chinese, 852 Banabans, and 1,951 Gilbert and Ellice Islanders (the majority of the latter being employed in the phosphate industry).

Fanning and Washington Islands lie about 30° 51′ N. latitude, and 159° 21′ W. longitude. There is no indigenous population but labour is recruited from the Gilbert Islands for the copra industry. An Acting Administrative Officer is in charge of these islands under the Resident Commissioner. On Fanning Island is the mid-ocean Station of the Pacific Cable Board, whose employees and their wives comprise practically the entire European population of 28. There is no regular communication between these islands and the rest of the Colony; periodical visits are made for engaging and repatriating labour by a small auxiliary vessel chartered by Fanning Island Plantations Ltd. The population of Fanning Island at the 31st December, 1937, was 195, that at Washington Island at the same time being 122.

Christmas Island (about 1° 59′ N. latitude, 157° 30′ W. longitude) lies 164 miles South-East by East of Fanning Island. The area is about 60,000 acres, of which 1,200 are under coconuts. Under the terms of a License dated the 27th October, 1914, the Central Pacific Coconut Plantations Limited of London were granted the exclusive right to occupy the island for their own use for the planting of coconuts, the manufacture of copra, the export of coconut oil, pearl shell, and guano during the term of 87 years from the 1st January, 1914. All vessels employed or chartered by the Company trading between the Society Islands and Christmas Island have been exempted from the Quarantine Ordinance, and may visit Christmas Island without a preliminary call at a prescribed port of entry in the Colony. Periodical visits are made by H.M.'s ships. The population on the 31st December, 1937, numbered 47.

PHŒNIX GROUP.

The Phœnix group comprises Phœnix, Birnie, Hull, Canton, Gardner, McKean, Enderbury and Sydney Islands, and is situated to the east of the Gilbert and Ellice groups. The Islands are of coral formation, and several of them are planted with coconuts. All except McKean and Enderbury Islands are leased to Messrs. Burns, Philp (South Sea) Company, Limited, for 87 years, from 1st January, 1914. By an Order in Council dated 18th March, 1937, the boundaries of the Gilbert and Ellice Islands Colony were extended to include the Phœnix Group.

The climate of all the groups is fairly healthy for Europeans, but the natives suffer from lung diseases, especially pulmonary tuberculosis. A considerable amount of medical work is undertaken and a large central hospital is maintained at Tarawa in the Gilbert Group. All the inhabited islands have native hospitals under the charge of native students trained at the Tarawa Hospital.

Communication between the various islands was formerly infrequent, depending on the irregular movements of vessels belonging to or chartered by Messrs. Burns, Philp and Company, Limited, on Chong and Company Limited, and the British Phosphate Commissioners, but the acquisition by the Administration of the auxiliary sailing vessel "Nimanoa" has considerably increased the facilities for regular communication.

The principal sources of revenue are import duties (general *ad valorem* rate 25 per cent., British preferential *ad valorem* rate 12½ per cent.); export duty on copra; land tax (paid in copra) on native communities; capitation tax 10*l.* a head p.a. on non-natives; ship, trading and other licences; royalty on phosphate shipped from Ocean Island; interest on invested funds and consolidated payment by the British Phosphate Commissioners. By virtue of the latter the Commissioners are exempted from certain taxation and duties.

The Revenue and Expenditure of the Colony have been as follows:—

Year ended 30th June.	Revenue.	Expenditure.
	£	£
1933-34	45,359	53,299
1934-35	52,923	53,983
1935-36	58,697	60,744
1936-37	77,630	79,835
1937-38	81,675*	81,675*

(*Estimated.)

The imports and exports have been as follows:—

Year.	Imports.	Exports.
	£	£
1932-33	117,920	398,068
1933-34	94,429	259,843
1934-35	117,060	340,068
1935-36	128,848	366,887
1936-37	119,201	449,940

Customs revenue during 1936-37 was 19,247*l.* from import and export duties.

Resident Commissioners, 1892, C. R. Swayne; 1901, W. Telfer Campbell; 1910, Captain J. Quayle Dickson; 1913, E. C. Eliot, C.B.E. (1931); 1921, H. R. McClure; 1926, A. F. Grimble, C.M.G. (1930), M.A.; 1933, J. C. Barley, B.A.

Civil Establishment.

Resident Commissioner, J. C. Barley, 800*l.* to 1,000*l.* by 50*l.*; 400*l.* duty allowance and quarters.

Secretariat.

Secretary to Government, E. L. Leembruggen, 400*l.* to 500*l.* by 25*l.* and quarters (seconded to District Administration).

Cadets, E. R. Bevington, G. B. Gallagher, D. C. I. Wernham.

Native Clerks and Interpreters, Ocean Island, Bauro and Penitala, 60*l.* to 120*l.* by 5*l.*, and ration allowances.

Clerk-in-Training, Tekiera, 24*l.* to 36*l.* and ration allowance.

District Administration.

Senior Administrative Officer, C. A. Swinbourne, O.B.E., 600*l.* to 700*l.* by 25*l.* and quarters.

Administrative Officers, A. C. F. Armstrong, D. G. Kennedy and P. D. Macdonald, (one post vacant), 500*l.* to 600*l.* by 25*l.* and quarters.

Native Assistant to Administrative Officers (vacant).

Clerk and Storekeeper and Postal Assistant, Tarawa, F. Highland, 75*l.* to 100*l.* by 5*l.* and ration allowance.

Three Clerks and Interpreters, Pasefika, Tiriata and Iaokiri, 40*l.* to 60*l.* and ration allowances.

Three Clerks in Training, Kilifi, Ikamawa and Noa, 24*l.* to 36*l.* by 6*l.* and ration allowances,

Treasury, Customs and Postal Departments.

Treasurer, Collector of Customs, and Chief Postmaster, S. G. Clarke, F.C.I.(Eng.), 550*l.* to 650*l.* by 25*l.* and quarters.

Accountant, H. A. B. Bentley, 400*l.* to 500*l.* and quarters; receives also an allowance of 48*l.* as Customs and Boarding Officer.

Clerk and Customs Officer, P. T. English, 300*l.* to 400*l.* by 25*l.* and quarters.

Clerk, W. H. Ramsay, 300*l.* and quarters.

Postmaster, Ocean Island (post vacant), 100*l.* to 150*l.* with rations and quarters.

Clerk and Interpreter, Tekaiwa, 40*l.* to 60*l.* by 5*l.* and ration allowance.

Police and Prisons Department.

Officer in Charge of Constabulary and Superintendent of the Gaol, Ocean Island, J. I. Blaikie, 400*l.* to 500*l.* by 25*l.* and quarters. Receives also 18*l.* as boot and uniform allowance.

Chinese Interpreter, Yam Sik Cheong, 200*l.* and quarters.

Medical Department.

Senior Medical Officer, F. E. Montague, M.R.C.S., L.R.C.P., 650*l.* to 750*l.* by 25*l.*, and non-pensionable allowance of 100*l.* and quarters.

Medical Officer, K. R. Steenson, M.B., Ch.B., 700*l.* to 800*l.* by 25*l.* and quarters.

Senior Native Medical Practitioner and Dispenser Malakai Veisamasama, 150*l.* to 200*l.* by 10*l.*, with quarters and ration allowance.

Seven Second Class Native Medical Practitioners, Tutu, Bakoa, Tatoa, Tekai, Teauoki, Lusi, and Iete, 65*l.* to 85*l.* and ration allowance.

Third Class Native Medical Practitioners, Seanoa and Tabonteren, 60*l.* and ration allowance.

Education Department.

Superintendent of Education, F. G. L. Holland, M.B.E., 500*l.* to 600*l.* by 25*l.* and quarters.

Headmaster, Ellice School (post vacant), 450*l.* to 550*l.* by 25*l.* and quarters.

Headmaster, King George V. School, Bairiki, Tarawa, (vacant), 400*l.* to 500*l.* by 25*l.* and quarters.

Head Master, Ocean Island, G. E. Hard, 400*l.* and quarters.

Public Works Department.

Superintendent of Works, A. St. C. Compton, 500*l.* and quarters.

Foreman of Works, D. Robertson, 360*l.* and quarters.

THE BRITISH SOLOMON ISLANDS PROTECTORATE.

The British Solomon Islands Protectorate is situated between the parallels of 5° South and 12° 30′ South, and the meridians of 155° and 170° of East longitude.

The Protectorate consists of a double row of mountainous islands, extending at its extremities from Bougainville Straits to Mitre Island, in the Santa Cruz Group, for a distance of 900 miles, and north and south from the Ontong Java Group to Rennell Island for a distance of 430 miles, in an area approximately 249,000 square nautical miles, of which about 11,000 square miles are land.

The native population (mainly Melanesian) is 93,415.

The Solomon Islands were first discovered in the year 1568 by Alvaro de Mendana, while on a voyage of discovery from Peru. The island first sighted they named Ysabel because it was on that Saint's day that they left Callao. In the year 1595 a second expedition under Mendana sailed from Peru, but failed to locate the island of Guadalcanal, whereon it was intended he should form a settlement, and he arrived in the Santa Cruz Group, and landed at Graciosa Bay. The new colony proved a failure, the death of Mendana put an end to any prospect of success, and the remnants of the original party returned to Peru.

In 1767 Captain Carteret re-discovered the Santa Cruz Group and the north-west coast line of the island of Malaita.

In the same year de Bougainville in the frigate *La Boudeuse*, sailed from Monte Video on a deliberate quest of the Terra Australis which he missed, and arrived at New Guinea; in sailing back he passed through the Straits which are the present north-eastern boundary of the Protectorate, the island on the right being named Bougainville after him, and the one on the left named after Choiseul, who was at the time Minister of France.

Twenty years later, and 700 miles to the south-east, la Perouse, in command of the French frigates *L'Astrolabe* and *La Boussole*, on a voyage of discovery, was wrecked at P'iou on the island of Vanikoro. His fate was unknown for 40 years.

From this time, many Europeans visited the Group, and British ships-of-war paid periodical visits.

In 1860 natives were recruited to work on plantations in Queensland and Fiji. The recruiting for Queensland ceased in 1903 and most of the natives were repatriated.

Recruiting for Fiji continued until 1910.

Between the years 1860 and 1893 the number of resident white traders gradually increased, until at the time of the Proclamation in 1893 of the British Protectorate over the Southern Solomon Islands (Guadalcanal, Savo, Malaita, San Cristoval, the New Georgia Group and its Dependencies) the number of white residents approached 50.

In 1898 and 1899 the islands of the Santa Cruz Group, including Utupua, Tucopia, Vanikoro, the remote islands of Cherry and Mitre, Sikaiana, and the islands of Rennell and Bellona, were added to the Protectorate, and in 1900 the Northern Islands, namely, Ysabel, Choiseul, the islands of the Bougainville Straits, south and south-east of the main island of Bougainville, and the atoll group of Ontong Java, were transferred under convention from Germany to Great Britain.

The population of the Protectorate in 1937 was :—

Europeans	478
Native (Melanesian)	89,568
Native (Polynesian)	3,847
Chinese	192
Japanese	8
Malays	1
Total ..	94,094

The climate of the Solomon Islands, owing to the prevalence of malaria, is not healthy, but the conditions of living have been greatly improved during recent years and the possibilities of good health during temporary residence have been enormously increased.

Generally speaking, the seasons are well defined by the trade winds. The south-east season lasts from April until November when the lowest minimum temperature is recorded, and the highest mean and maximum temperatures are, as a rule, recorded in the months from November to April which is commonly known as the north-west season.

The rainfall varies considerably from month to month and year to year, though the average rainfall, recorded at Tulagi, is approximately 120 inches a year.

The British Solomon Islands Protectorate is administered by a Resident Commissioner (stationed in Tulagi) acting under the authority and control of the High Commissioner for the Western Pacific (who resides in Suva, Fiji).

There is no Legislative Council. Laws are made by the High Commissioner—in the form of King's Regulations—under powers conferred by the Pacific Order in Council, 1893.

There is an Advisory Council, consisting of the Resident Commissioner and not more than seven members, three of whom may be officials.

The Protectorate is divided up into eight administrative areas, each under a District Officer. There is regular steam communication with Sydney, New South Wales.

The Customs Tariff consists of duties at specific or *ad valorem* rates on certain imports and exports and includes provisions for Empire preferences.

1918 C. R. M. Workman.
1921 Captain R. R. Kane, M.C.
1929 F. N. Ashley.

Advisory Council.

The Resident Commissioner is assisted by an Advisory Council, inaugurated in 1921, by virtue of King's Regulation No. 2 of 1936.

The Council consists of the following Members:—

Official Members.

The Resident Commissioner.
Chief Magistrate and Legal Adviser (vacant).
Secretary to the Government (vacant).
Treasurer and Collector of Customs, F. E. Johnson, I.S.O.
Commissioner of Lands and Superintendent of Works, S. G. C. Knibbs (acting).

Nominated Members.

D. Mackinnon.
J. C. M. Scott.
Bishop of Melanesia.
C. E. Hart.

Civil Establishment.

Resident Commissioner, F. N. Ashley, C.M.G., 1,200*l.* to 1,400*l.* and duty allowance, 100*l.*

Secretariat.

Secretary to the Government (vacant), 500*l.* to 600*l.*
Clerk, Resident Commissioner's office, P. Colley, 340*l.* to 400*l.*
Central Typist, M. J. Bernhardt, 270*l.* to 340*l.*

District Administration.

Chief Magistrate and Legal Adviser, R. Hyne, 600*l.* to 750*l.*
First District Officer (vacant), 600*l.* to 700*l.*
District Officers, C. E. J. Wilson, W. H. Miller, L. W. S. Wright, G. E. D. Sandars, R. J. Keegan, C. N. F. Bengough, 500*l.* to 600*l.*
Assistant District Officer, J. K. Brownlees, 400*l.* to 500*l.*
Cadets, D. C. Horton, T. P. Kneen, A. N. A. Waddell, D. C. C. Trench, W. F. M. Clemens.

Treasury, Customs and Postal Department.

Treasurer and Collector of Customs, F. E. Johnson, I.S.O., 550*l.* to 650*l.*, receives also a personal allowance of 100*l.*
Accountant, W. V. J. Blake, 400*l.* to 500*l.*
First Clerk and Boarding Officer, A. W. Dickes, 400*l.* to 450*l.*
Second Clerk and Boarding Officer, J. B. Hicks, 340*l.* to 400*l.*
Clerk, S. G. Masterman, 340*l.* to 400*l.*
Third Clerk and Boarding Officer, G. H. C. Train, 270*l.* to 340*l.*
Storekeeper, V. J. Shearwin, 340*l.* to 400*l.*
Postmaster, F. Stock, 340*l.* to 400*l.*

Medical Department.

Senior Medical Officer, H. B. Hetherington, M.D., Toronto, C.P. & S., Ontario, 700*l.* to 900*l.* and fees.
Travelling Medical Officer, N. Crichlow, M.B., Ch.B. (Glasgow), 550*l.* to 650*l.*; (200*l.* consolidated travelling and subsistence allowance).
Sister-in-Charge Government Hospital, Tulagi, Miss M. Cleaver, 200*l.* and victualling allowance, and 12*l.* uniform allowance.
Nurse, Tulagi Hospital, Miss L. D. Collins, 160*l.* and victualling allowance and 12*l.* uniform allowance.
Yaws and Hookworm Officer (temporary appointment), C. H. G. White, 450*l.*
Dispenser and Clerk, C. H. G. White, 300*l.* to 350*l.*, F. T. Stackpool (temporary), 300*l.* to 350*l.*
Native Medical Practitioners, G. Bogese, Guso Rato Piko, H. Wheatley, H. Kuper, 100*l.* by 5*l.* to 150*l.*, E. Leauli, 100*l.* by 5*l.* to 144*l.*

Police and Prisons Department.

Officer Commanding Armed Constabulary and Superintendent of Prisons, E. N. Turner, 450*l.* to 600*l.*

Sub-Inspector of Constabulary and Gaoler, J. Beveridge, 340*l.* to 400*l.*

Lands Department.

Commissioner of Lands and Crown Surveyor, S. G. C. Knibbs, 600*l.* to 700*l.* and 25*l.* personal allowance.

Surveyor, A. H. Wilson, 500*l.* to 550*l.*

Clerk, Lands and Works Department, C. E. Spencer, 270*l.* by 20*l.* to 340*l.*

Public Works Department.

Superintendent of Works (vacant), S. G. C. Knibbs (acting), allowance 60*l.*

Foreman of Works, J. S. Mutch, 300*l.* to 375*l.*

Native Labour Department.

Inspector of Labour, S. G. Masterman, 340*l.* to 400*l.*

Agricultural Committee.

Entomologist (vacant), 500*l.* to 600*l.*

Wireless Department.

Engineer Operator in Charge, Wireless Station, Tulagi, A. E. Osborne, 350*l.* to 450*l.*, and personal allowance 40*l.*

Wireless Operator, R. S. Taylor, 300*l.* to 400*l.*

The above all receive free quarters and 50*l.* local allowance. Local allowance, however, is not payable to Native Medical Practitioners.

TONGA.

The Tongan, or Friendly Islands, with an area of about 250 square miles, are situated between the 18th and 22nd degrees of south latitude. They were discovered by Tasman in 1643. Most of the islands are of coral formation, but some are volcanic, notably Tofua, Kao, and Niuafoou (Good Hope Island). The natives belong to the Polynesian race, and are closely allied to the natives of New Zealand and Samoa. The islands are very rich in coconuts; and copra forms the principal export. There is monthly communication by steamer with Auckland. During the dry season, i.e., from April to December, steamers call at regular intervals for copra freights.

Census of Population, April, 1937:—

Europeans	443
Half-castes	306
Other Pacific Islanders	296
Others	63
Tongans	31,753
Total	32,861

In 1845 George Tubou I, who was the first to establish an effective government over the whole of Tonga, was proclaimed King. The present Ruler is assisted by a Parliament and a Privy Council. The Privy Council is composed of two European and six Native Ministers of the Crown who are also heads of the various government departments. The civil service is composed mostly of Tongans, the European officials numbering about 34. The general tariff is 33⅓% *ad valorem* and British preferential 12½% *ad valorem*.

Year.	Imports.	Exports.
	£	£
1933	86,007	114,447
1934	48,526	77,842
1935	68,782	90,711
1936	92,296	116,539
1937	137,365	164,621

The imports, apart from oils and drapery, are of Empire origin. The following figures show the percentage of imports from foreign countries:—

Year.	Per Cent.
1933	23·37
1934	14
1935	31
1936	23·74
1937	25·97

Of the rest of the imports during 1937 the United Kingdom supplied 15·51 per cent., New Zealand 22 per cent., Australia 26·77 per cent. and other British possessions 9·75 per cent.

The climate may be considered a healthy one. The thermometer ranges between 53 and 93 degrees Fahrenheit.

There are seven churches in Tonga, viz., the Wesleyan Free Church of Tonga, with about 18,053 adherents; the Free Church of Tonga, and the Church of Tonga, with about 9,029; the Roman Catholic Mission, with about 4,230; the Church of England, 479; the Church of Latter Day Saints, 641; and the Seventh Day Adventist Mission, with about 256 adherents.

The Wesleyan Mission was first founded in Tonga in the year 1826, and a few years later the chiefs and people embraced Christianity and became members of the Church. The control and management of the Mission in Tonga were entrusted about the year 1857 to the Australasian Conference and continued until the year 1885, when King George Tubou I, after trying unsuccessfully to obtain local autonomy for the Church in Tonga, seceded, with a large majority of his chiefs and people and, with the assistance of the Rev. Shirley Baker, established the Wesleyan Free Church of Tonga as a separate and independent body though retaining the same doctrines, discipline, and form of worship as the Wesleyan Church. In January, 1887, an attempt was made by some escaped native convicts on the life of Mr. Shirley Baker, the Premier. The attempt was made the pretext for increased persecution of the "Fakaogos," or members of the Wesleyan Mission Church. About 100, whom no ill-usage could induce to abandon the Mission Church, were ordered to be deported to Pylstart Island, a barren islet south of Tonga, but they were finally allowed to go to Fiji. Shortly after an inquiry was made into the causes of the disturbances by Sir Charles Mitchell. At this inquiry the allegation that the attempt on Mr. Baker's life was due to a "Fakaogo" conspiracy was abandoned, and a letter written by Mr. Baker, purporting to be signed by the king, was addressed to Sir Charles Mitchell, promising an amnesty to political prisoners and freedom of worship. The services in the Mission Church at once recommenced.

Digitized by Google

In 1890 complaints were made that freedom of worship was still being interfered with; that persons were deprived of their lands and unjustly imprisoned on account of their adherence to the Wesleyan Church; and Tongan officials denied that the king had written to Sir Charles Mitchell promising to accord freedom of worship. Sir John Thurston therefore made a further inquiry, and finding that Mr. Baker was the principal cause of the wrongs endured by the Wesleyans, he issued an Order prohibiting Mr. Baker from being within the group for a term of two years from the 17th July, 1890. A few days before the issue of the Order, the king, on the request of the leading chiefs, had dismissed the Premier from office, and a fresh Government was formed with a native Premier (Tukuaho). Under the new Government the fullest freedom of worship was allowed, and the exiles were recalled from Fiji, the king having requested Sir John Thurston to make arrangements for their return.

In the year 1923 much dissatisfaction existed in the Wesleyan Free Church, and an enquiry that was held into the state of the finances disclosed a very lax state of affairs. As a result of this enquiry it was decided to approach the Wesleyan Church with a view to the union of the two bodies as a separate and independent Conference of the Wesleyan Methodist Church. At a joint conference of the two churches held in April, 1924, union was decided upon. A minority, under the leadership of the late Rev. J. A. Watkin, declined to join the united body and carried on under the title of the Free Church of Tonga. Protracted litigation ensued as a result of this division in respect of the ownership of the churches and property of the Wesleyan Free Church of Tonga established by King George I in 1885. It was finally decided on appeal in favour of the united Church, of which the present Queen is the head.

King George Tubou died on 18th February, 1893, and was succeeded by his great-grandson, George Taufaahau, under the title of George Tubou II. On the death of the latter on the 5th April, 1918, Princess Salote, his daughter by his first wife the late Queen Lavinia, succeeded to the throne. The young Queen, who was born on the 13th March, 1900, was married in 1917 to Prince Uiliami Tugi, the present Premier, and chief of highest rank in Tonga.

Early in 1900 Mr. Basil Thomson was sent out to Tonga by Her Majesty's Government, and concluded a Treaty with the king by which the latter placed himself and his territory under Her Majesty's protection. A protectorate was proclaimed on 18th May, 1900.

The present premier, Uiliame Tugi, is the Prince Consort, and was formerly Minister for Lands. The progress of Tonga since 1905 has been satisfactory.

Every Tongan is entitled to an allotment of land for cultivation, so that no unemployment exists. Primary education for Tongans between the ages of 6 and 14 is compulsory. There are two boys' colleges at which provision is made for secondary education. Secondary education of girls is entirely in the hands of the Christian missions. Medical work is well organised; and, unlike most native communities in the Pacific, the native population steadily increases in number.

British and foreign nationals charged with any offence against the laws of Tonga, not including crimes punishable by death or by imprisonment exceeding two years, are subject to the jurisdiction of the Tonga Courts. In other respects they are subject to the jurisdiction of the Court of the High Commissioner. Licences are charged for carrying on stores and trades.

Currency and Banking.

The legal tender currency is British and Australian sterling.

Arrangements were made in 1919 for the issue of Tongan Government Treasury notes. At the end of 1937, 4*s*., 10*s*., 1*l*., and 5*l*. notes were in circulation to the value of 25,073*l*. The issue is secured by an investment reserve. The Treasury Notes Act, 1935, adopts the exchange standard system based on Australian currency.

There are no private banks in the Kingdom. A Government Savings Bank was established in 1926. At the end of 1937 there were 1,634 depositors and 20,242*l*. in deposits.

Statistics.

Year.	Revenue.	Expenditure.
	£	£
1931-32	57,224	63,986
1932-33	64,072	60,347
1933-34	54,743	64,620
1934-35	61,654	55,515
1935-36	66,660	49,904
1936-37	73,471	55,938

There is no debt and the amount of accumulated balances or surplus amounted on 30th June, 1937, to 168,008*l*.

The shipping entered and cleared during the year 1937 amounted to 136,715 tons, of which 105,781 tons was British.

Agent and Consul, Tonga, A. L. Armstrong, 800*l*. to 1,000*l*. and quarters; duty allowance 200*l*., and office allowance of 50*l*. as Consul.

Tongan Ministers.

Premier, Uiliame Tugi, C.B.E.
Chief Justice, W. H. Stuart.
Speaker of the Legislative Assembly and Minister of the Crown, J. Finau Ulakalala.
Minister of Police, Jiobe Kaho.
Minister for Finance, W. G. Bagnall.
Minister for Lands, Solomone Ata.
Governor of Vavau, Satcki Faletau.
Governor of Haapai, J. Tuihaateiho.

The foregoing Ministers constitute the Privy Council, meetings of which are presided over by the Queen.

The Cabinet Council is composed of the same Ministers, with the exception of the Minister of the Crown.

THE NEW HEBRIDES.

The New Hebrides, to which are attached the Banks and Torres Islands, lie between the 12th and 20th degrees of south latitude, and the 165th and 170th degrees of east longitude. The area is about 5,700 sq. miles. The non-native population is about 2,000 and the native is estimated at 40,000.

The natives are Melanesians, but in many places there is an admixture of Polynesian blood. The Europeans are mostly British or French.

Missions have been established by the Melanesian Missionary Society, Seventh Day Adventists and Church of Christ, by the Presbyterian churches of Canada and Australia and by the Roman Catholic Church.

The principal exports are copra, cocoa, coffee, trocas; maize, hides and various miscellaneous products are also exported. The climate of most of the islands is rather unhealthy and malarial fever is prevalent. At first, a joint commission, of British and French naval officers, was appointed to protect the lives and property of British and French subjects, and to maintain order. British and French Residents were appointed in 1902. In February, 1906, a conference of British and French officials took place in London, and a draft convention was prepared to provide for the settlement of land claims, and for an arrangement which would put an end to the difficulties arising from the absence of jurisdiction over the natives. A convention confirming the above-mentioned draft was signed in London on October 20th, 1906, and was provisionally proclaimed at Vila, the chief town of the New Hebrides, on December 2nd, 1907. Its provisions include the establishment of a joint court, and of an executive government consisting, for some purposes, of the British and French representatives in the group acting in concert. For other purposes British and French nationals remain subject to the control only of their own authorities.

A Protocol drawn up in London in 1914, to replace the Convention of 1906, was ratified on March 18th, 1922. It was proclaimed in the New Hebrides in August, 1923.

British and French Resident Commissioners, subordinate to their respective High Commissioners, each with a staff of officers, have been appointed. In addition there is a Condominium Staff working in Departments under the joint control of the two Resident Commissioners.

The Customs Tariff in force in the New Hebrides is mainly on an *ad valorem* basis at varying rates with specific duties in a few cases.

Of the import trade of the group about 68 per cent. is claimed by Australia, 18 per cent. by France, and the remainder by Britain, Japan, China and U.S.A., while the bulk of the exports are shipped to France.

British Staff.

Resident Commissioner, G. A. Joy, 800*l.* to 1,000*l.*, quarters and duty allowance 100*l.*

Judicial Commissioner, W. D. Carew, receives 400*l.* plus 49,600 francs as British Judge of the Joint Court and quarters, and an allowance of 50*l.* as Judicial Commissioner.

Assistant to the Resident Commissioner, R. D. Blandy, 650*l.* to 750*l.* and quarters.

District Agent, Efate, and Commandant of Police, E. A. G. Seagoe, M.B.E., 650*l.* to 750*l.* (750*l.* personal to present occupant) and quarters.

District Agents, J. M. Nicol, 500*l.* to 600*l.* with 30*l.* personal allowance; C. G. Adam, 500*l.* to 600*l.* and quarters; A. J. K. Thomas, 500*l.* to 600*l.* and quarters.

Office Assistant, B. Blackwell, 400*l.* to 500*l.*

Clerk and Accountant (vacant), 340*l.* to 400*l.*

Correspondence Clerk (vacant).

PITCAIRN ISLAND.

Pitcairn Island (two square miles) is situated in the Pacific Ocean, nearly equidistant from Australia and America (25° 3′ S. lat., 130° 8′ W. long). It was discovered by Carteret in 1767, but remained uninhabited until 1790, when it was occupied by the mutineers of H.M.S. *Bounty*, with some women from Otaheite. Nothing was known of their existence until the island was visited in 1808. No regular government was established, but assistance of various kinds was given on the subsequent visits of English vessels. In 1856, the population having become too large for the island's resources, the inhabitants (192 in number) were, at their own request, removed, with all their possessions, to Norfolk Island: but 40 of them soon returned. In 1879 these had increased to 90. The population (at 30th June, 1936) numbers 202 persons.

It is a British Colony by settlement, and was brought within the jurisdiction of the High Commissioner for the W. Pacific in 1898 under s. 6 of the Pacific Order in Council, 1893. *Chief Magistrate*, R. E. Christian.

The Government is now administered under the High Commissioner, by a Council consisting of a Chief Magistrate, two Assessors, a Secretary and a Chairman of the Internal Committee. These officers are elected annually by the people.

The islands of Henderson, Ducie, and Oeno were annexed in 1902, and are included in the district of Pitcairn.

THE WINDWARD ISLANDS.

Situation, Area, and Trade.

The Windward Islands consist of the three islands of St. Lucia, St. Vincent and Grenada, lying in the order named from north to south, together with the smaller islands known as the Grenadines, which lie between St. Vincent and Grenada, and are attached partly to the one island and partly to the other. Geographically, Barbados, Trinidad and Tobago belong to the group, and were formerly associated with it politically, Tobago from 1764 to 1783, and all three in 1838. The three first-named islands are grouped for administrative purposes under one Governor, who usually resides at St. George's, Grenada. The total area of the three Colonies is 524 square miles (about twice the size of Middlesex), and their estimated population at the census of 24th April, 1921, 162,254.

Year.	Imports.	Exports.
	£	£
1928	863,808	741,447

nearer the coast, the country passes from bush into orchard bush and grass. Wild oil palms and raphia palms provide some of the principal exports in the shape of palm kernels, palm oil and piassava, while the semi-cultivated kola tree provides an important kola export to West African territories.

The agriculture of the country is still primitive, "shifting cultivation" being universally practised. Of recent years the utilisation of swamps for swamp rice has been advocated and steady propaganda has resulted in a remarkable spread in the growth of swamp rice all over the Protectorate. Owing to heavy rainfall there are innumerable swamps and considerable areas available for this form of cultivation.

The chief cultivated crops are rice, cassava, sorghums, sweet potatoes, groundnuts, benniseed, peppers, coffee, ginger, and cocoa, the three last being cultivated chiefly for export. These (excepting the last three) are the food crops of the country, the most important being rice which forms the staple food of the inhabitants of the Protectorate. In the Colony Peninsula, cassava products (chiefly foo-foo) displace rice to some extent as a food.

The agricultural exports for 1937 were as follows :—

	Quantity Tons	Value £
Palm kernels	76,776	884,812
Kola	2,248	60,504
Palm oil	2,325	42,238
Piassava	3,392	43,609
Ginger	2,384	97,622
Rice	8	104
Peppers	20	1,093
Cocoa	265	8,830
Benniseed	104	1,662

Minerals.

All minerals are vested in the Crown and rights to prospect for minerals and titles to mine minerals are issued through the Mines Department, Freetown. The mineral industry owes its inception to the discoveries made by the Government Geological Survey. The minerals mined at present are gold, platinum, diamonds and iron. The following is a comparative statement of the annual mineral production and its value :—

Year	Gold : Crude and unrefined Bullion (ozs. troy)	Platinum : Coarse Crude (ozs. troy)	Diamonds : (carats)	Iron Ore : Exports (tons)	Chrome Ore Exports (tons)	Estimated Value £
1929	—	26	—	—	—	252
1930	957	542	—	—	—	6,113
1931	6,650	594	—	—	—	30,815
1932	12,125	531	749	—	—	71,567
1933	15,604	431	32,017	24,550	—	178,368
1934	22,614	474	68,633	229,465	—	376,612
1935	32,947	750	295,483	433,540	—	905,000
1936	40,764	484	616,200	566,595	—	1,249,695
1937	39,151	308	913,401	633,985	729	1,666,102

Gold is mined from alluvial deposits in the Protectorate. An occurrence of lode gold is under active prospecting in the Pujehun area, Southern Province. Platinum is won in the Colony peninsula from stream gravels. Diamonds were first discovered in 1929 in the Nimi Koro chiefdom of Kono district. Diamondiferous alluvial deposits are very widespread. They are worked by a diamond mining company on a profit-sharing basis with Government. Iron ore is being mined at Marampa whence the ore is conveyed by a mineral railway some fifty miles to Pepel for shipment. Exploitation commenced in 1933. Government has lent more than £400,000 to the Marampa company, secured by first mortgage debentures on the property present and future and the uncalled capital of the company. Large iron ore deposits of good grade have been found in the Tonkolili area. These are to be exploited by the Marampa company under an agreement by which a sliding scale royalty will be paid to Government. Other minerals which are being prospected or are known to exist are chromite, molybdenite, ilmenite, bauxite, lignite, corundum and garnet.

Customs.

The import duties, which make provision for preferential treatment to British goods, are mainly specific—a preference of 100 per cent. as a general rule being accorded to the British article. There are also export duties on palm kernels (20*s.* a ton), and kola nuts (½*d.* a lb.).

Import duties in 1937, 444,289*l.*
Export „ „ „ 87,267*l.*

	1937
Percentage of trade with United Kingdom ..	69·35
„ „ „ Germany	10·42

„ „ „ Netherlands ..	4.13

Currency and Banking.

Besides English currency, West Africa silver coins (2*s.*, 1*s.*, 6*d.* and 3*d.*) were put into circulation in 1913, and alloy coins of similar denominations in 1920. Silver coinage is gradually being withdrawn. Currency Notes of the value of 20*s.* and 10*s.* were introduced in 1916 and of 2*s.* in 1917, and 1*s.* in 1919, but the last two denominations are not now current. The Bank of British West Africa has two branches in the Colony and some agencies in the Protectorate. Barclays Bank (Dominion, Colonial & Overseas) Ltd. also is established in Freetown. A Government Savings Bank was established in 1882.

Education.

Throughout the 19th century facilities for education were provided in the Colony by religious bodies; financial assistance was given by Government. At present primary instruction is given in Amalgamated Mission Schools and in private schools. In the former Government receives the school fees, pays the salaries of teachers, and provides equipment. There are one Government Secondary School for boys and several assisted and unassisted Secondary Schools for boys and for girls. One Male and one Female Training College train teachers for Primary Schools. Fourah Bay College (of which the Church Missionary Society are Proprietors) is affiliated to Durham University and prepares students for degrees in Arts and Theology and for Teaching Diplomas. In the Protectorate educational development has been slow. There are two Government Boarding and one Government Day School of primary standard. In the Southern Province there are a number of Missionary primary schools, many of which receive Government assistance through Capitation grant. In the Northern Province there are only a few schools, whether assisted or unassisted. There is

Governors since 1900.

1900 Sir R. B. Llewelyn, K.C.M.G.
1906 Sir Ralph Williams, K.C.M.G.
1909 Sir James Hayes Sadler, K.C.M.G., C.B.
1914 Sir George B. Haddon-Smith, K.C.M.G.
1923 Sir Frederick S. James, K.C.M.G., K.B.E.
1930 Sir Thomas A. V. Best, K.C.M.G., K.B.E.
1935 Sir Selwyn M. Grier, K.C.M.G.
1937 Sir Henry B. Popham, K.C.M.G., M.B.E.

Civil Establishment.

Governor and Commander-in-Chief of the Windward Islands, Sir Henry B. Popham, K.C.M.G., M.B.E., 2,500*l.*, and travelling allowance up to a maximum of 500*l.*

Aide-de-Camp and Private Secretary Lt.-Comdr. C. D. Milbourne, R.N. (retd.), 300*l.*

Secretary to Government, Windward Islands, J. M. Knight, M.B.E., 400*l.* to 500*l.* by 20*l.*

Auditor for the Windward Islands, J. K. Buchanan, 500*l.* by 20*l.* to 600*l.*, and travelling allowance.

GRENADA.

Situation, Area, &c.

Grenada, the most southerly of the Windward group, is situated between the parallels of 12° 30′ and 11° 58′ N. lat., and 61° 20′ and 61° 35′ W. long.; is about 21 miles in length, 12 miles in its greatest breadth, and contains about 133 square miles (about half the size of Middlesex). It lies 68 miles S.S.W. of St. Vincent, and about 90 miles north of Trinidad, and between it and the former island are certain small islands called the Grenadines, attached partly to the government of St. Vincent, and partly to that of Grenada; the largest of the latter is Carriacou, which has an area of 8,467 acres, and a population (at 24th April, 1921) of 7,104.

General Description.

Grenada is mountainous and very picturesque, its ridges of hills being covered with trees and brushwood. The mountains are chiefly volcanic, and have several lofty peaks, the highest of which is Mount St. Catherine, 2,749 feet, running off in spurs from the centre of the island, giving it an appearance of romantic beauty when viewed from the sea.

The island abounds in streams, and in mineral and other springs. The Grand Etang, a lake on the summit of a mountain ridge 1,740 feet above the level of the sea, and 7 miles from the town of St. George, and Lake Antoine, both old craters, are among the most remarkable natural curiosities; near the former a sanatorium is established. The roads of the colony are in excellent condition, and are kept in a state of thorough repair. The surface of the main roads and some of the more important byeways is oiled. About 146 miles of main roads, and a network of byeways (275 miles), provide good inland communication. The island is divided into six districts or parishes—St. George, St. David, St. Andrew, St. Patrick, St. Mark, and St. John—while the dependencies of Carriacou, Petit Martinique and other adjacent islets form a separate district, administered by a Commissioner. St. George's, the principal town, is a port of registry for shipping and had on 31st December, 1937, 147 vessels registered, of a total tonnage of 2,765 tons: its fine harbour owing to its situation, healthiness, and great natural advantages, including a plentiful supply of water of the purest quality, offers exceptional inducements as a port of call for steamers. The town had a population of 4,629 by census of 24th April, 1921.

The other towns in the colony are Gouyave (or Charlotte Town), Victoria (or Grand Pauve), Sauteurs; Grenville (or La Baye); and Hillsborough, in Carriacou. English is universally spoken, but the peasantry speak among themselves a French *patois*. About two per cent. are of European blood, the remainder being of the Negro race, except the East Indian population, which was 2,692 in number according to the census of 1921.

Climate.

The climate is good and during the months from December to the end of April, when the trade winds prevail, it is delightful. From July to October there is greater humidity and higher temperature with little variation between night and day. The climate may be regarded as hot during this period but it is not unhealthy at any time during the year. There is an astonishing variation of rainfall. In the mountainous centre it reached 187 inches in 1937 and in the lowlands to the south of the Islands it was as low as 61 inches. The highest shade temperature recorded in 1936 was 90·0 and the lowest 70·0.

Industry, Trade and Customs.

The prosperity of the island, like that of its neighbours, depends almost entirely upon the planting industry. The chief produce of Grenada is cocoa, of which a total value of 160,030*l.* was shipped in 1937. The modern sugar factory which was erected in 1936 in the southern part of the island manufactures sufficient sugar to meet local demands. No sugar is exported as yet. Attention has been turned with some success to the cultivation of other economic plants, such, for instance, as limes, coffee, kola nut, cloves, vanilla, pepper, cardamoms, coconuts, etc. Nutmeg cultivation occupies a prominent position. The value of spices exported in 1937 was 167,159*l.* Considerable attention is being given also to the production of the Gros Michel banana. In Carriacou cotton is the staple product, its cultivation having never been wholly abandoned there; the value exported in 1937 was, with cotton seed, 4,982*l.* The cultivation of limes has now been successfully established in Carriacou, the exports of lime products in 1937 amounting to 6,494*l.* Tropical fruits of almost every description and of the finest quality are fairly plentiful, and are shipped to the Barbados and Trinidad markets. The principal food resources are yams, sweet potatoes, tanias, kush-kush, pigeon-peas, plantains, bananas, Indian corn, cassava, bread fruit, etc. Fresh meat is always obtainable, and the animals slaughtered for the purpose are reared in the island. An excellent oyster is obtained in Carriacou, and turtles and fresh fish are plentiful. The commercial value of the forests is now being explored. Rum is manufactured for local consumption, the total number of proof gallons in 1937 being 51,329.

The main imports are food-stuffs, textiles, timber for building purposes, and hardware.

The principal exports, besides those products already mentioned, are turtles and turtle-shell, hides and skins, fruit and poultry.

The tariff of Import duties is partly on an *ad valorem* and partly on a specific basis. The rates in the case of the former are mainly 15% on Empire goods and 22½% on foreign goods. The preference on Empire goods is generally 33⅓%.

Digitized by Google

The percentages of Trade in 1937 were as follows:—

	Imports.	Exports.
United Kingdom ..	48%	46%
United States of America	11	24
Canada	15	10
Other British Possessions	17	11
Other Foreign Countries	9	9
	100%	100%

The total acreage of land, exclusive of Carriacou is 76,548; acreage of Carriacou, 8,467.

There is a Government savings bank in St. George's, established in 1881, and extended to the out districts in 1889, and on 31st December, 1937, the amount at credit of depositors was 49,636*l.*

A co-operative bank was established in 1932, but there is no agricultural bank in the Colony.

History.

Grenada was discovered by Columbus on 15th August, 1498, and was named by him Conception. It was at that time inhabited by Caribs. A settlement was attempted in 1609 by a company of London merchants, but the colonists were so harassed by the Caribs that the attempt was abandoned. In 1650 Du Parquet, Governor of Martinique, purchased Grenada from a French Company, and established a settlement at St. George's. Finding the expense of maintaining an armed force to support his authority not compensated by the expectation of future profits, Du Parquet sold the island in 1657 to the Comte de Cerrillac for 30,000 crowns. The Governor appointed by the new proprietor ruled with so much tyranny that the most respectable settlers left the island; he was at length seized, tried, and executed by the colonists.

In 1674 the island was annexed to France, and the proprietors received compensation for their claims; and in 1762 it was surrendered to the British under Commodore Swanton, and was formally ceded to Great Britain by the Treaty of Paris on the 10th of February, 1763. In 1779 it was retaken by the French under the Count D'Estaing; and in 1783 it was restored to Great Britain by the Treaty of Versailles. In 1795–6 it was the scene of a rebellion against the British rule, instigated by the French Republic. The Lieut.-Governor and 47 other British subjects were massacred by the rebels, and the colony brought to the verge of ruin. In June, 1796, Sir Ralph Abercrombie suppressed the rising, and the ringleaders were executed.

In 1834 the apprenticeship system was established in regard to the African slaves, and this was followed in 1838 by their unconditional emancipation.

Constitution.

There was from 1766 a Legislative Council as well as a House of Assembly, the latter consisting of 21 elected members.

Under an Act of 1856, and limited in its duration to a term of three years, an Executive Council was formed, composed of members of both branches of the Legislature. The Act was allowed to expire, and the Legislative Council resumed its executive functions under the style of Her Majesty's Council.

This constitution was remodelled by an Act of the 7th of October, 1875, and a single Legislative Assembly established in lieu of the Council and Assembly. The Assembly consisted of 17 Members, 8 elected by the people, and 9 nominated by the Crown. The Act also appointed an Executive Committee of 5 members, 3 being nominated and the other 2 elected Members of Assembly. These Members received each a salary of 100*l.* a year, and were charged with the duty of advising the Lieut.-Governor on the conduct of affairs.

This Assembly at its first meeting on the 9th of February, 1876, addressed the Queen, informing Her Majesty that it had passed a Bill providing for its own extinction, and leaving "it entirely to your Majesty's wisdom and discretion to erect such form of Government as your Majesty may deem most desirable for the welfare of the Colony." The Imperial Act (39 and 40 Vict. c. 47) empowered Her Majesty to comply with this address, and Crown Colony Government was established in December, 1877.

On the 17th March, 1885, letters patent were passed constituting anew the office of Governor of the Windward Islands, and on 1st June, 1885, Grenada became the headquarters of the Government, which includes the colonies of St. Lucia and St. Vincent.

Until the 1st of December, 1924, the Legislative Council consisted of six official members besides the Governor, and seven unofficial members nominated by the Crown.

By an Order in Council dated 21st March, 1924, which came into operation on 1st December, 1924, a partly elective Legislative Council was constituted, consisting of the Governor, seven *ex officio* members, three nominated unofficial members and five elected members. The Island was divided into five electoral districts, each returning one elected member.

By an Order in Council dated 27th October, 1936, which came into operation on 18th December, 1936, the Legislative Council was reconstituted; and now consists of the Governor, three *ex-officio* members (the Colonial Secretary, Attorney-General and Treasurer), four nominated members and seven elected members (one for each of seven electoral districts). At the same time, the Governor is given reserve powers for ensuring the passage of legislation which he considers expedient in the interests of public faith or of good government.

The Government is assisted in the internal administration by six semi-elective District Boards.

Education.

There are 61 elementary schools, 11 Government and 50 aided. These schools are of five classes, Senior, Combined, Junior, Infant and Manual Training Centres. Head teachers of senior and combined schools are paid from 80*l.* to 160*l.* per annum, according to their certificates of proficiency, and to the class of school. Bonuses are given them for extra duties. Grants are also given by Government in aid of buildings, furniture and apparatus. The administration is entrusted to a Board of Education nominated by the Governor. In 1937 the average attendance was 9,110 children, the number on the rolls being 14,536. There is a Government secondary school for boys, and three for girls which receive grants-in-aid from the general revenue. The total expenditure incurred by Government on primary education for the year 1937 was 11,898*l.*

ST. LUCIA.

Situation and Area.

The island of St. Lucia was discovered by Columbus, during his fourth voyage, on the 15th June, 1502. It is situated in 13° 54′ N. lat., and 60° 59′ W. long.; at a distance of 24 miles to the south of Martinique, and 21 to the north-east of St. Vincent. It is 27 miles in length, and 14 at its greatest breadth; its circumference is 150 miles, and its area 233 sq. miles, rather less than Middlesex. Near its northern extremity lies Pigeon Island, formerly a military post of some importance.

Castries, the capital of the island, and the surrounding district contain an estimated population of 20,798. Next in importance is the town of Soufrière, containing with the surrounding district an estimated population of 7,309.

History.

At the period of its discovery St. Lucia was inhabited by the Caribs, and continued in their possession till 1635, when it was granted by the King of France to MM. de L'Olive and Duplessis. In 1639 the English formed their first settlement, but in the following year the colonists were all murdered by the Caribs.

In 1642 the King of France, still claiming a right of sovereignty over the island, ceded it to the French West India Company, who in 1650 sold it for 1,600*l*. to MM. Honel and Du Parquet. After repeated attempts by the Caribs to expel the French, the latter concluded a Treaty of Peace with them in 1660.

In 1663, Thomas Warner, the natural son of the Governor of St. Christopher, made a descent on St. Lucia. The English continued in possession till the Peace of Breda in 1667, when the island was restored to the French. In 1674 it was re-annexed to the Crown of France, and made a dependency of Martinique.

After the Peace of Utrecht, in 1713, the rival pretensions of England and France to the possession of St. Lucia resulted in open hostility. In 1718 the Regent, d'Orléans, made a grant of the island to Marshal d'Estrées, and in 1722, the King of England made a grant of it to the Duke of Montague. In the following year, however, a body of troops, despatched to St. Lucia by the Governor of Martinique, compelled the English settlers to evacuate the island, and it was declared neutral.

In 1744, the French took advantage of the declaration of war to resume possession of St. Lucia, which they retained till the Treaty of Aix-la-Chapelle in 1748, when it was again declared neutral. In 1756, on the renewal of hostilities, the French put the island in a state of defence; but in 1762 it surrendered to the joint operations of Admiral Rodney and General Monckton. In the following year, by the Treaty of Paris, it was assigned to France.

St. Lucia continued in the peaceable possession of the French till 1778, when effective measures were taken by the British for its conquest. In the early part of 1782, Rodney took up his station in Gros Islet Bay, in St. Lucia, with a fleet of 36 sail of the line, and it was from thence that he pursued Count de Grasse, when he gained the memorable battle of the 12th of April in that year. This event was followed by the Peace of Versailles, and St. Lucia was once more restored to France.

In 1793, on the declaration of war against revolutionary France, the West Indies became the scene of a series of naval and military operations which resulted in the surrender of St. Lucia to the British arms on the 4th of April, 1794.

In 1796 the British Government despatched to the relief of their West Indian possessions a body of troops, 12,000 strong, under the command of Sir Ralph Abercrombie, supported by a squadron under Admiral Sir Hugh Christian. On the 26th April these forces appeared off St. Lucia, and after an obstinate and sanguinary contest, which lasted till the 26th May, the Republican party, which had been aided by insurgent slaves under Victor Hughes, laid down their arms, and surrendered as prisoners of war.

The British retained possession of St. Lucia till 1802, when it was restored to France by the Treaty of Amiens; but on the renewal of hostilities it surrendered by capitulation to General Grinfield on the 22nd June, 1803, since which period it has continued under British rule.

General Description.

On its final acquisition by the English, the island had become much depopulated, partly by war, but chiefly by internecine struggles, the fruits of the French Revolution. The recovery from this state of things has been slow, having been retarded by the severe epidemics of cholera and small-pox which have at different times visited the West Indies.

Digitized by Google

In the beginning of 1901, operations were commenced against a fanatical Somali leader, the Mullah Mohammed Abdullah, and a native levy with British officers penetrated into the Nogal valley. The Mullah was defeated at Somala and Ferdiddin, and was driven into Italian territory.

The dervishes afterwards gathered together again, and a similar expedition, strengthened by the 2nd King's African Rifles (Yaos), was despatched in the summer of 1902, and again drove the Mullah into Italian territory with heavy loss, but met with a severe check in Italian territory at Erigo, on October 6th. The Mullah, however, retired as the result of this action still further into Italian territory, to Galadi.

Five months later, a third expedition, comprising British and Boer M.I., Indian and African troops, with the main base at Obbia in Italian Somaliland, proceeded to Mudug, thence detaching a force to Galadi, which place was up till then the headquarters of the enemy. A force of 200 Yaos and Sikhs, was overwhelmed at Gumburru in April, 1903, after a fight of the fiercest description. A column of 200 men was at the same time attacked at Daratoleh, whence it retired fighting to Bohotleh. In June the expedition fell back on the Berbera-Bohotleh lines of communication, and Lieut.-General Sir C. C. Egerton, K.C.B., was placed in command.

Reinforcements, increasing the force to 7,000 rifles, were despatched and placed in the field, and in January, 1904, 3,250 troops defeated 5,000 dervishes at Jidballi.

In March, 1905, an agreement was concluded between the Italian Government and the Mullah whereby peace was declared between the dervishes and the neighbouring tribes, both those subject to the Government of Italy and those under the protection of the British Government. The Mullah was given a port on the east coast, and was assigned certain territories within the Italian sphere of interest, beyond which he and his dervishes undertook not to encroach.

In the latter part of 1908, some unrest was caused by the unfriendly attitude of the Mullah, and during 1909 reinforcements were brought into the Protectorate from East Africa, Uganda, Nyasaland, and India.

Subsequently arrangements were made to arm the friendly tribes to enable them to defend themselves against attack, and in March, 1910, all troops were withdrawn from the interior; the 6th Battalion King's African Rifles was disbanded, and a policy of strict coastal concentration was adopted. This policy having disappointed expectations, a Camel Constabulary, 150 strong, was raised at the end of 1912 to check inter-tribal fighting, which by this time had assumed serious proportions. A measure of peace among the friendly tribes was quickly restored, but in August, 1913, the Constabulary, at a strength of 109 rank and file, encountered at Dulmadoba a raiding party of dervishes estimated at 2,000 rifles, and in the action which ensued, though heavy losses were inflicted on the enemy, the Constabulary sustained casualties amounting to 50 % killed, including the Commandant. The force thereupon fell back on Sheikh, and reinforcements of Indian infantry were moved up from the coast. His Majesty's Government later decided to increase the forces of the Protectorate in order to preserve the necessary grazing grounds of the friendlies from dervish attack, and to maintain peace among the tribes living in the west.

In November, 1914, military headquarters were established at Burao, 90 miles from the coast. At this time the dervishes were in occupation of the Ain valley, which is one of the principal grazing grounds of the friendlies. Strong forts had been constructed by the Mullah at Jidali and Shimber Berris and these were used as forward bases for raids against our tribes. The position at Shimber Berris was accordingly attacked by the local troops, and after a stubborn resistance all the forts were finally captured and blown up. In 1914, the dervishes made serious raids and their aggressions went on during the war, but, early in 1920, operations against them were carried out by air attacks followed up by mounted forces with infantry supports. These operations were completely successful; the power of the dervishes was destroyed, and the Mullah became a fugitive in Ethiopian territory. He died there in 1921. Since 1923 the condition of the country has been peaceful, and as a result the stock wealth of the native population has largely increased, while in the western areas the development of agriculture has made great progress. A geological survey of the Protectorate has been made.

From June, 1932, to May, 1935, the officer appointed to administer the Government was designated Commissioner and Commander-in-Chief.

Trade and Customs.

Exports consist of skins and hides, sheep and cattle, gums, ghee, and salt.

Imports consist of rice, dates, sugar, cotton piece goods and shirtings, iron and hardware.

The Customs Tariff is mainly on an "ad valorem" basis of 20 % and 25 %, but specific duties are imposed upon rice, dates, cloth (long cloth and grey sheeting in the piece), matches and alcoholic liquors.

Goods of British or Empire origin to the extent of 50 % of their content enjoy preferential rates of duty both specific and "ad valorem." The margin of preference is 10 %.

In 1937, the percentages of Domestic Imports from the countries of origin were as follows:—

United Kingdom ..	25 %
British Empire	47 %
Foreign	28 %

No percentages can be given for exports: all produce is shipped to Aden where it is distributed by dealers, mainly to the United Kingdom and to the United States of America.

General Description.

On its final acquisition by the English, the island had become much depopulated, partly by war, but chiefly by internecine struggles, the fruits of the French Revolution. The recovery from this state of things has been slow, having been retarded by the severe epidemics of cholera and small-pox which have at different times visited the West Indies.

Digitized by Google

Each census, however, has shown an advance in this respect, and the population at 31st December, 1937, is estimated at 67,404. Most of the inhabitants speak a French *patois*, but English is gradually becoming more generally used. A very small percentage is of European descent, the remainder being of the negro race, and of East Indian origin. The reputation of the island for peculiar unhealthiness is undeserved, the death rate for 1936 being 14·9 per 1,000, and for the year 1937 14·4 per 1,000. Certain spots situated in narrow valleys between high mountains are undoubtedly unhealthy, but are becoming less and less so as the forests fall before a yearly extending cultivation.

The danger from venomous reptiles is also much exaggerated. Owing to the introduction and spread of the mongoose, snakes are now but rarely met with. Among white inhabitants, consumption and other of the most fatal diseases of temperate climates are almost unknown. The temperature from December to April seldom exceeds 80° Fahr., even at midday, in spots situated a few hundred feet above the sea, and a fresh trade wind blows continuously. The scenery is of peculiar beauty, even as compared with that of other West India Islands, and in the neighbourhood of the Pitons has the less common element of grandeur. These are two cone-shaped rocks rising sheer out of the sea to a height of nearly 3,000 feet, and near them is the crater of a volcano and a soufrière, the ordinary characteristics of the Caribbean Cordillera.

Castries, the chief town, has an excellent harbour. Dredging operations are carried out annually. There is a substantial concrete wharf, 650 feet in length, with a depth alongside of 27 feet at low water. There is another wharf, 540 feet in length, originally constructed in wood, which is gradually being reconstructed in concrete, and is kept dredged to a depth of 14 feet at low water. The facilities offered by the port as a port of call and coaling station are widely recognised. It is a port of registry, and had, on 31st December, 1937, 18 vessels registered, of a total tonnage of 597 tons.

A Government savings bank was established in 1871, and has now 1,028 depositors, with 23,384*l.* to their credit on 31st December, 1937. Branch savings banks exist at Soufrière and Vieux Fort, Dennery and Gros Islet.

Constitution and Law.

Up to the period of the French Revolution, and after the restoration of order in 1800, the island was governed according to the law and ordinances of the French monarchy.

The Government is conducted by an Administrator (who is subordinate to the Governor of the Windward Islands), aided by an Executive Council.

By an Order in Council dated 27th October, 1936, which came into operation on 18th December, 1936, the Legislative Council was reconstituted, and now consists of the Governor, three *ex-officio* members (the Administrator, Attorney-General, and Treasurer), three nominated members, and five elected members (one for each of three electoral districts and two members for a fourth district).

At the same time, the Governor was given reserve powers for ensuring the passage of legislation which he considers expedient in the interests of public faith or of good government. Other changes made were the fixing of a common age qualification, twenty-one years, for male and female voters, and a widening of the qualifications of electors.

Law is administered by a Chief Justice-Magistrate from whom as Chief Justice in civil cases there is an appeal to the West Indian Court of Appeal and as Magistrate an appeal to the Commissioner of Appeals. There is one other Magistrate whose decisions are liable to review by the Chief Justice. In criminal cases tried by the Superior Court facts are decided upon by a jury of nine, except in trials for capital offences, when the jury consists of twelve persons as in England.

A code of civil law, the authors of which were Sir G. W. Des Vœux, G.C.M.G., and Mr. James Armstrong, C.M.G., became law in October, 1879. This code was framed upon the principles of the ancient law of the island, with such modifications as are required by existing circumstances. The Statute Law of the Colony was consolidated to 1916 by Mr. F. H. Coller, Chief Justice, who also edited the Commercial Code, 1916.

The revising and editing of the Criminal Law and Procedure of the Colony by Mr. J. E. M. Salmon was completed during 1920 and proclaimed as the Criminal Code, 1920. It came into force on the 1st January, 1921.

Education.

On the 30th June, 1891, the trustees of the Lady Mico charity closed the eleven schools which they had till then maintained, and withdrew their connection with the Colony. Three of these schools became Government schools, and the others assisted schools under the new Education Ordinance. In 1898 all the Government schools were handed over to the Roman Catholic body, and became assisted schools. There were, on the 31st December, 1937, 45 assisted schools. Of these, 3 were Anglican, 3 Methodist and 39 Roman Catholic. The number of children on the rolls was 10,159, with an average attendance of 6,995, and the amount spent by the Colony on primary education was 5,086*l.* The Government grants 450*l.* a year to a Roman Catholic second-grade school, which has 46 boys on the roll; the Sisters of St. Joseph conduct a similar school for Girls. The number of pupils on the roll is 104 and a Government grant of 175*l.* is made to the school annually.

As a result of the Mayhew-Marriott Commission of 1932, a Board of Education was constituted on 21st March, 1936, whose chief functions are of an advisory nature.

Industry, Trade and Customs.

Limes and lime products, sugar, rum, cocoa, coconuts, bananas, bay oil, bay rum, spices, and Sea Island cotton are produced. There are four sugar factories, 16 lime factories (for the production of lime oils and juices), three rum distilleries, and one bay oil distillery. While all industries show expansion, depending on market conditions, the banana industry has experienced the most rapid and satisfactory rise, shipments in 1937 totalling 110,966 stems, valued at 11,814*l.*

A fair amount of land in certain districts is in the possession of the Crown, and, under certain conditions, is available for sale for development purposes; the soil will grow any kind of tropical fruit trees or economic plants. Attention is now being paid to the establishment of Land Settlement Schemes with a view to utilising the latent resources of the Colony.

The Customs Import Tariff is mainly on a specific duty basis, with a preference in favour of Empire products which in most cases amounts to one third of the general tariff rate.

The percentage of the Colony's Import Trade with the United Kingdom, other parts of the

Digitized by Google

recruiting of labour, transfer of native lands (except between natives) without the consent of the authorities, and usury. It is provided that nationals of States members of the League of Nations are to have complete commercial equality. An annual report is to be made to the Council of the League. By an Order in Council dated the 19th of March, 1926, provision was made for the constitution of a Legislative Council consisting of the Governor as President, thirteen official members, and not more than ten unofficial members, which came into operation on the 1st July, 1926.

For the East African Governors Conference, see under Kenya.

Population.

The number of Europeans in Tanganyika Territory is approximately 9,128. There are also over 33,019 Asiatics, chiefly Indians, Arabs and Goans. The natives are estimated at 5,182,289. The majority of the natives are Bantu, but considerable areas in the north are occupied by the Masai and other Hamitic races, and in the south by tribes of Zulu extraction. The most important language is Swahili, which is a hybrid between Arabic and Persian and all sorts of African tongues. It is more or less spoken as a *Lingua Franca* from Aden in the north to Durban in the south and from the Indian Ocean to the waters of the Nile and the Congo.

Most of the natives are pagans, but the majority of the coastal tribes and a few in the hinterland profess Mohammedanism.

The territory is divided into 8 Provinces as follows:—

Provinces.	Capital.	Approx. Native Population, 1937.
Central	Dodoma	547,808
Eastern	Dar-es-Salaam ...	654,202
Southern Highlands	Mbeya	496,048
Lake	Mwanza	1,466,589
Southern	Lindi	609,132
Northern	Arusha	1385,265
Tanga	Tanga	359,805
Western	Tabora	669,445
	Totals ..	5,182,289

Education.

European Education.—Two schools are maintained by Government for the education of European children, one at Dar-es-Salaam and the other at Arusha. A Correspondence Course for children in the more remote districts is conducted from Dar-es-Salaam. Assistance is given to two English schools, three Dutch schools, five German schools, two Greek schools, one European and Goan school and two Kindergarten schools. The total enrolment is 823.

Indian Education.—There are 60 Indian schools with a total enrolment of 4,191. Grants-in-aid are paid in respect of staff and buildings. 46 schools are on the grant earning list. Instruction in the lower standards is conducted in Gujerati or Urdu, and in English in the higher standards. At the Government school in Dar-es-Salaam and at three other schools the curriculum is designed to take pupils to the Cambridge Senior Certificate Examination.

African Education.—99 schools are maintained by Government, including six Boys' Primary Schools, one Junior Secondary school and eight Girls' Schools. The total enrolment is 9,574. Swahili is the medium of instruction in primary schools for the first four standards after which there is a bifurcation, some schools continuing instruction in Swahili while at the larger schools classes are then started in English. Stress is placed on the teaching of agriculture and nearly every school has its garden. Industrial sections teach carpentry, masonry, smithing and tailoring. A printing press is attached to the Primary School, Dar-es-Salaam. A post-primary Clerical Course extending over two years is undertaken at Tabora Primary School in which boys designed for the Local Civil Service are taught office routine, typewriting and accountancy. Assistance is given from Public Funds to 227 Mission schools with a total enrolment of 21,576.

The total estimated expenditure on Education in 1938 was 99,717*l.*

The Government publishes a monthly journal printed in Swahili to disseminate news and useful information among the vernacular speaking population.

Staff.—The European Staff of the Education Department consists of a Director, Assistant Director, Superintendents of Education, Senior Industrial Instructors, Industrial and Clerical Instructors, Headmistresses, Office Superintendent and Clerk.

The Indian Staff consists of a Headmaster, Senior Assistant Masters, Inspector, Assistant Masters and Clerks.

The African Staff consists of Teachers, Industrial Instructors and Clerks.

Forests and Minerals.

The total area under close forests is approximately 4,661 square miles, of which 87 per cent. is in Government Forest Reserves, 7 per cent. awaits reservation, and 6 per cent. is valuable forest in private ownership of non-natives and native communities. The forests are most numerous in the north, on the shores and islands of Lake Victoria, in the North-east on Kilimanjaro and Meru Mountains; in the East along the Pare and Usambara ranges and in the Uluguru and Nguu Mountains; and at the coast in the districts of Rufiji, Kilwa, and Lindi. Further considerable areas of close forest are situated in the highlands of Iringa Province, most of which have now been explored and demarcated for reservation and have been gazetted as Forest Reserves. The number of timber producing species is large and includes among many others the following:—Pencil Cedar (*Juniperus procera*), Podocarpus, Chlorophora excelsa (resembling Burma Teak), Ocotea Usambarensis, Pterocarpus angolensis, Parinarium Holstii, Pygeum africanum, Afzelia quanzensis, Khaya nyasica, and Cassipourea elliottii. In addition, valuable species of hardwoods occur as single trees or in groups widely scattered throughout large areas of dry savannah forest. Mangroves of excellent quality cover large areas of the littoral. Ebony and gum copal are plentiful near the coast. Bamboo and baobab are found and may prove suitable for the manufacture of paper pulp. Acacias yielding gum arabic of good quality are abundant in the dry savannahs.

The following have been mined for export or local use:—Gold, tin, wolfram, diamonds, salt, mica, phosphates and red ochre. Other minerals known to exist include:—Coal, graphite, soda, magnesite, gem garnet, corundum and manganese, iron, lead, and nickel ores. Extensive areas remain to be prospected. The total mineral production for 1937 was valued at 652,442*l.*

Further information with regard to trade and cognate matters in Tanganyika Territory can be obtained from the Chairman, Tanganyika Trade and Information Local Advisory Committee, c/o the Comptroller of Customs, Dar-es-Salaam.

ST. VINCENT.

Situation and Area.

The Island of St. Vincent is popularly supposed to have been discovered by Columbus on the 22nd of January, 1498. It is situated in 13° 10′ N. latitude, and 60° 57′ W. longitude, at a distance of 21 miles to the south-west of St. Lucia, and 100 miles west of Barbados. It is 18 miles in length, and 11 in breadth, and contains about 96,000 acres of land, about half the area of Middlesex. Most of the Grenadines, a chain of small islands lying between Grenada and St. Vincent, are comprised within the government of the latter island. The principal is Bequia, situated at a distance of 9 miles from Kingstown.

General Description.

Kingstown, the capital of St. Vincent, is situated at the side of an extensive bay, at the south-western extremity of the island. It consists of three principal streets, each about a mile long, running parallel with the beach, and contained at the census of 1931, a population of 4,269 souls. It is a port of registry, and had, on 31st December, 1937, 26 sailing vessels of a net tonnage of 734 tons and 4 motor vessels of 79 tons net.

There are five other small towns in the island, the most important being Georgetown on the north-east, and Barrouallie on the west.

The most striking natural feature of the island is its "Soufrière," or volcano, situated at the northern extremity of the island, and rising to about 4,048 feet above the level of the sea. After a violent eruption in 1812, it remained dormant for a period of ninety years, and then broke into violent eruption again on May 7th, 1902, when the entire northern half of the island was devastated, and nearly 2,000 lives were lost. The eruption synchronised with that of Mont

Digitized by Google

Pélée in Martinique which destroyed the town of St. Pierre. The "Soufrière" remained intermittently active throughout 1902, and there was a further eruption in March, 1903, since when it has remained quiescent.

The whole island is of volcanic origin. A backbone of densely wooded and almost impassable mountains traverses it from the "Soufrière" at its northern end to Mount St. Andrew (2,500 ft.), dominating the Kingstown valley at its southern extremity. This range sends off spurs on each side, cutting up the island into a series of valleys, trending east and west from the central range to the coast. There is a somewhat level tract called the Carib Country at the north-east of the island, between the "Soufrière" and the sea. This district formerly comprised the most fertile sugar estates. The next highest point after the "Soufrière" in the range is Richmond Peak, 3,539 feet high. The streams are numerous but small, except after heavy rains; the principal is the Richmond River.

In September, 1898, the island was visited by a severe hurricane, which caused widespread destruction, and reduced large numbers of the inhabitants to destitution. In September, 1921, the island was again struck by a hurricane which, although not as violent as its predecessor, did considerable damage to property and crops, entailing considerable hardship on the populace and necessitating the expenditure by Government of 3,288*l.* on relief measures.

Climate.

In the dry season, January to May, the climate is charming. In the wet season, and especially from August to November, the climate is damp and hot, but not at all unhealthy. The nights are cool all the year round. The rainfall during 1936 was 88·74 inches. The highest reading of the thermometer during the same year was 89° F., the lowest 68° F., the mean monthly temperature being 82·2° F. in the shade. The prevailing wind is S.E.

Industry, Trade and Customs.

Sugar, syrup, rum, cocoa, coconuts, copra, bananas, and excellent arrowroot are produced. Arrowroot, the most important product, is graded and exported under the control of a Co-operative Arrowroot Association. The fine quality of the coconuts has resulted in a good demand for St. Vincent whole nuts on the Canadian and U.S.A. markets and a considerable export trade in this commodity has been established in recent years. A Banana Association exists for developing the industry, and marketing the fruit on a co-operative basis. The cultivation of ground nuts and spices is also attracting attention. Sea Island cotton, the best in the Empire, is extensively planted, for the ginning of which a Government Ginnery has been erected. There are also three privately owned ginneries. Many of the sugar and arrowroot mills are worked by water power. A large proportion of the cultivable land is owned by a few individuals; portions of Crown lands have been alienated to peasant proprietors, and several estates have been purchased by the Government with the aid of an Imperial grant and allotted to the same class of settlers. The forests have mostly been exploited and except where they are inaccessible contain very few valuable timber trees. There are 65 miles of highway running round the island, for the most part close to the coast, but on the leeward coast communication is mainly by boat, and nearly all the produce is water borne. There are also some 300 miles of byeway connecting with the highway.

The port of Kingstown is visited weekly by steamers of the Canadian National Steamships, fortnightly by Steamers of the Ocean Dominion Steamship Corporation and Furness Withy Lines and occasionally by steamers of the Harrison and American Caribbean.

A telephone system has been established, having 1 central and 3 branch exchanges, with 270 connections and some 446 miles of line.

The import duties are largely *ad valorem*, mostly 18¾ per cent.; but there are many specific duties. Preferential rates, mostly two-thirds of the general rate, are charged on imports from other British countries.

Export duties are levied on cotton, arrowroot, cassava, starch, cocoa, copra and coconuts.

The following table shows the direction of the Trade for the year 1937.

	Imports.		Exports.	
	Values.	Percentage of Total.	Values.	Percentage of Total.

History.

At the time of its discovery, St. Vincent, like some of the other small islands, was inhabited by the Caribs, who continued in the undisputed possession of it until 1627, when the King of England made a grant of the island to the Earl of Carlisle. In 1660 it was declared neutral, and in 1672 it was granted to Lord Willoughby.

No steps, however, appear to have been taken to form a settlement on the island, and the English and French came to an agreement to abandon the Islands of Dominica and St. Vincent to the Caribs, on condition of their renouncing all claim to the other islands.

In 1722 George I. made a grant to the Duke of Montague of some of the West India Islands, including St. Vincent.

From statistics of the year 1740 it appears that the white inhabitants then amounted to about 800, and the slaves to 3,000, producing commodities for exportation to the value of 63,625*l.*

In 1748 St. Vincent was declared neutral by the Treaty of Aix-la-Chapelle. In 1756, however, hostilities were renewed, and the island was taken in 1762 by General Monckton; and by the Treaty of Paris in the following year it was ceded to Great Britain, when General Melville was appointed Governor.

By a treaty, which was concluded in February, 1773, an extensive district of St. Vincent was allotted to the Caribs (who for some time had been in a state of open rebellion) on condition of their laying down their arms and acknowledging the King of Great Britain as the rightful sovereign of the island.

In 1779 the island surrendered to the French. The following year has been rendered memorable by the occurrence of the greatest hurricane of which there is any record in West Indian annals. By the Treaty of Versailles in 1783, St. Vincent was restored to Great Britain.

Digitized by Google

From this period to the breaking out of the French Revolution the island appears to have enjoyed comparative prosperity and peace; but in 1795 the Caribs and their allies (the French) again overran the country, burning the cane-fields, plundering the houses, and mercilessly murdering the English colonists. This state of things continued till the arrival of the "Zebra" sloop of war, with succours from Martinique, then the British headquarters.

The contest was carried on, with alternations of good and ill fortune, until the arrival of Sir Ralph Abercrombie with reinforcements in June, 1796. After an obstinate struggle the insurgents surrendered at discretion. The Government, in anticipation of such an event, had resolved that the Caribs should be transported to the Island of Ruatan, in the Bay of Honduras; and accordingly, on the 11th March, 1797, the necessary transports having been provided, the Caribs, to the number of 5,080, were embarked at Bequia, and sailed for their appointed destination.

In 1834 the apprenticeship system was established, and was followed in 1838 by unconditional emancipation of the negro slaves. The year 1846 witnessed the first introduction of Portuguese labourers, a class of immigrants who amounted in a few years to 2,400, and have proved a valuable addition to the general population of the island.

St. Vincent received its first East Indian Coolie labourers in 1861. Most of them returned to India, but some made their home in the Colony.

Constitution.

The Government of St. Vincent originally consisted of a Governor, Council, and Assembly.

The Council consisted of twelve members, one half of whom were named in the Governor's Commission, and the remainder appointed on his recommendation. The Assembly was composed of nineteen members, including two for the Grenadines. In 1856 an Executive Council was created, consisting of ten members, five from the Legislative Council, and five from the Assembly. In 1859 this Council was re-modelled, with the addition of an Administrative Committee, selected by the Governor and composed of three members—one from the Legislative Council, and two from the Assembly. This Act of 1859 had, however, a duration of only five years.

The constitution, however, was found no longer suited to the altered circumstances of the Colony, and in 1867 the Legislative Council and House of Assembly were abrogated, and a single Legislative Assembly was created instead thereof. This Assembly was composed of 12 members, viz.:—three *ex officio*, three nominated by the Crown, and six elected by the people. (The number of electors registered for the year 1874 was only 388.)

But this constitution also was abrogated by an Act of the Local Legislature (confirmed by an Imperial Act, 39 & 40 Vict. c. 47), by which the future modelling of the constitution was left to the Crown. Until 1st December, 1924, the Legislative Council consisted of official and unofficial members nominated and appointed by the Crown.

By an Order in Council dated 21st March, 1924, which came into operation on 1st December, 1924, a partly elective Legislative Council was constituted, consisting of the Governor, four *ex officio* members, one nominated unofficial member and three elected members. By the Saint Vincent (Legislative Council) Amendment Order in Council, 1931, the Legislative Council was constituted of the Governor, of three *ex officio* members, of one nominated official member, of one nominated unofficial member, and of three elected members. The Island was divided into three electoral districts each returning one elected member.

By an Order in Council dated 27th October, 1936, which came into operation on 18th December, 1936, the Legislative Council was reconstituted, and now consists of the Governor, three *ex-officio* members (the Administrator, Attorney-General, and Treasurer), three nominated members, and five elected members (one for each of five electoral districts).

At the same time, the Governor was given reserve powers for ensuring the passage of legislation, which he considers expedient in the interests of public faith or of good government.

The several courts of the Colony were, by an Ordinance of the Local Legislature passed in 1880, consolidated into one court, styled the Supreme Court of Judicature. The Chief Justice of the Colony is the sole Judge of this court.

Education.

There were, on 31st December, 1937, 37 primary schools, with 10,457 children on the rolls. The average attendance during 1937 was 5,972. There is also a government secondary school for boys, and a high school for girls.

An Island Scholarship is awarded triennially tenable for from three to five years at an approved University. Annual value 250*l.* and cost of passage. An Agricultural Scholarship tenable at the Imperial College of Tropical Agriculture is awarded triennially. Annual value 150*l.*

The Government expenditure on primary education in 1937 was 9,424*l.*

Savings Bank.

A savings bank was established in 1866, and had 885 depositors, with 19,897*l.* deposited, on 31st December, 1937. Branches of the bank have been opened at Georgetown, Barrouallie, and Union Island.

ZANZIBAR.

Situation and Area.

The island of Zanzibar is situated in 6° S. latitude and is separated from the mainland by a channel 22½ miles across at its narrowest part. It is 53 miles long by 24 broad (maximum measurements), and has an area of 640 square miles. To the north-east at a distance of some twenty-five miles lies the island of Pemba in 5° S. latitude. It is smaller than Zanzibar, being 42 miles long by 14 broad (maximum measurements), and having an area of 380 square miles.

Climate.

The normal annual rainfall in Zanzibar Town amounts to 58·59 inches and in Pemba a mean derived from two stations was 73·25 inches. The rainy seasons are well defined: the heavy rains occur in April and May previous to the setting in of the south-west monsoon, the light rains in November and December before the recurrence of the north-east monsoon. The mean maximum temperature in Zanzibar is 84·4° and the mean minimum 76·6°. The corresponding figures for Pemba are 86·6° and 76·1° respectively.

People.

The Arabs were the conquerors of the islands. They founded the clove industry and still possess considerable property in plantations. They understand the natives and the natives understand them and accept their control and that of Europeans more readily than that of other races.

The bulk of the native population numbering 186,000 is known by the generic name of Swahili, a term formerly used to denote the Bantu coast tribes from Somaliland to Mozambique, "sawahil" in Arabic meaning "coasts." This general appellation includes the descendants of the early settlers of the island of Zanzibar who intermarried with negro women. They are called Wahadimu and live on the eastern and southern portions of the islands. A quiet shy people, occupied mainly in the cultivation of native crops and fishing, they rarely move from their homes except to pick cloves. The name Swahili also includes the descendants of the early settlers in Pemba who are known as Wapemba. These people engage chiefly in agriculture but raise a smaller variety of native crops than the Wahadimu. Many of them own clove and coconut plantations. They live in less seclusion than the natives on the larger island. Another tribe included in the term are the Watumbatu whose chief stronghold is Tumbatu Island. They are a very exclusive people but by no means shy. They go down to the sea and man most of the craft plying in Zanzibar waters.

There is in addition a considerable influx of various tribes from the mainland, of whom the Wanyamwezi are economically the most important, being now the chief source of supply for the weeding of plantations.

In the 1931 Census the total population of the Protectorate was returned as 235,428. The non-native population numbers 49,000 of whom 33,400 are Arabs. The Khojas, Bohoras, Hindoos, Parsees, and Goans possess most of the trade, either as merchants, shopkeepers, money-lenders, small traders, or skilled mechanics.

History and Constitution.

The beginnings of Zanzibar history are lost in antiquity. It appears more than probable that the islands of Zanzibar and Pemba were known

Digitized by Google

to the ancient Egyptians, Phœnicians, Assyrians, and Jews, but though the expedition of Necho (C. 600 B.C.) doubtless passed the Islands it is not till the first century that the Periplus gives a description of one of them under the name of Menuthias. The Hindus appear to have settled at a very early date and traces of Greek colonisation are not lacking. From about the 7th Century B.C. the Islands appear to have had a close connection with the South Arabian States. Bantu settlers probably made their appearance during the first five centuries A.D., and thereafter for the next five hundred years or so came also traders from China and Malaya in addition to those from the Persian Gulf. The Coast was probably converted to Islam early in the 10th Century. The Zenj Empire was founded by Ali bin Hassan, a prince of Shiraz, about 975 A.D. but it soon broke up into separate states and, by the time the Portuguese began the conquest of the East African littoral, was already declining. It was during the sixteenth century that the Arabs of the East Coast sought the assistance of the Imams of Muscat to drive out the Portuguese, and the capture of Mombasa Fort in 1698 may be said to mark the downfall of Portuguese power north of Mozambique. On the ruins of the Portuguese power in the seventeenth century arose that of the Imams of Muscat. The allegiance to Muscat, however, was of a more or less nominal character until Seyyid Said, after having subdued his enemies on the mainland, transferred his capital to Zanzibar in 1832. On his death in 1856 a dispute as to the succession arising between his sons Seyyid Thwain of Muscat and Seyyid Majid of Zanzibar the African possessions were made independent and confirmed under Majid by an arbitration (dated 1861) of Lord Canning, then Governor-General of India.

Seyyid Said laid the foundations of Zanzibar's importance by transferring his capital from Muscat and making the island his permanent residence in the year 1832. Under his direction Zanzibar soon became both politically and commercially the principal native city in East Africa. "If you play on the flute at Zanzibar," says an Arab proverb of the period, "everybody as far as the lakes dances." Said's son Majid was succeeded in 1870 by Barghash, the first of his race to be commonly known as Sultan of Zanzibar.

In the year 1890 the supremacy of British interests in the islands themselves was recognized by France and Germany, and they were declared a British Protectorate in accordance with conventions by which Great Britain waived all claims to Madagascar in favour of France and ceded Heligoland to Germany. In the same year the mainland possessions which extended over the coast of East Africa, from Warsheikh in 3° N. latitude to Tunghi Bay in 10·42° S. latitude were ceded to Italy, Great Britain, and Germany respectively, Great Britain and Italy paying rent for the territories under their protection, while Germany acquired the Sultan's rights by the payment of a sum of 200,000*l.* At a later date Italy also acquired these rights by payment of a sum of 144,000*l.*

In 1891 a regular government was constituted with a British representative as first minister. On the death of the Sultan in 1896 the palace was seized by a member of his family, Seyyid Khaled, and to compel the latter's submission the palace was bombarded by British warships. In 1906, the British Government assumed more direct control over the Protectorate and reorganized the Government. In 1911 Seyyid Ali abdicated the throne and was succeeded by the present ruler, Seyyid Khalifa bin Harub. On 1st July, 1913, the control of the Protectorate was transferred from the Foreign Office to the Colonial Office, legal effect being given to the change of administration in the following year.

The Government was vested in a High Commissioner, who was also Governor of the British East Africa Protectorate, and a British Resident.

The High Commissionership was abolished in 1925.

A Protectorate Council, with His Highness as President, was established at the same time. It was of an advisory and consultative nature and ceased to exist in 1926 when Executive and Legislative Councils were constituted.

For the East African Governors' Conference, see under Kenya.

Industries and Trade.

Zanzibar is now the dominant partner in the clove industry, holding as it does about 80 per cent of the shares. The other partners are Madagascar, Penang, and the Dutch East Indies.

Authorities differ as to the date when and country from which the clove tree was first introduced into Zanzibar. Some say that it was brought from Réunion by an Arab at the end of the 18th century. Colonel Rigby, Her Majesty's Consul and British Agent, in his report on the Zanzibar dominions written in the year 1860, states "the first clove trees were introduced about 30 years ago from Mauritius; being found to thrive they were extensively planted and they have now become the most valuable production of these Islands."

To Seyyid Said belongs the credit of establishing and promoting the clove industry. Burton records that he threatened confiscation to those who did not plant three clove trees for every coconut and that the country was almost denuded of the latter to make room for cloves. In 1839–40 the output amounted to about 9,000 frasilas. (The Frasila, equivalent to 35 lbs., is the local measure of weight for cloves). In 1849 it had risen to frasilas 120,000. In 1859 frasilas 139,000, valued at 55,666*l.* were exported, and the average output during the next decade was frasilas 200,000, valued at about 85,000*l.* Owing to the increase in production the price had, however, fallen from $5-$6 to $1-$2.

In 1872, a hurricane of great violence swept over the Island of Zanzibar and destroyed two-thirds of the clove and cocoanut trees. Pemba, though touched by the hurricane, sustained little damage. The years following this disaster were years of short supply, high prices, and intensive cultivation. The Pemba owners, actuated by motives of gain, hastened to cut down coconut trees on a wholesale scale throughout the island and to plant clove trees in their place. The Zanzibar owners, though temporarily ruined, set to work with commendable fortitude to replace the trees which the hurricane had destroyed, and ten years after the hurricane the normal output of cloves had not only been restored but increased.

Another event of great economic importance to the industry was the abolition of slavery. The

Digitized by Google

The quantity of asphalt produced during 1937 was 145,904 tons as against 111,965 tons in 1936.

The quantity of Asphalt exported during 1937 was 90,872 tons to the value of $1,194,914, as compared with 70,543 tons exported in 1936 of a value of $959,759.

Petroleum.—At the close of 1937 there were 18 Companies actively engaged in the exploitation of oil in the Colony. These Companies, having a total share capital of approximately $40,800,000, held over 417,483 acres of Crown Lands under licenses and leases, of which approximately 176,753 acres were held under mining lease. In addition, appreciable areas of private lands are held. Up to 30th January, 1902, oil rights were not reserved by the Government when disposing of Crown Land, but after that year all Crown grants reserved the oil rights to the Crown. There are, consequently, three categories of oil lands, viz., lands disposed of prior to 1902 in which the oil rights rest in the surface owner; land sold since that date in which the oil rights are reserved to the Crown, and lands where both the surface and the underlying oil remain the property of the Crown.

In addition to the above, the Marine areas applied for within territorial waters cover, 389,500 acres.

The principal oil producing companies are the Trinidad Leaseholds, Limited, from Crown and private lands at Fyzabad, Barrackpore, etc.; the United British Oilfields of Trinidad, Limited, from Crown and private lands at Point Fortin, Parry Lands, etc.; the Trinidad Lake Petroleum Company, Limited, from their own lands at Brighton; the Apex (Trinidad) Oilfields, Limited, from Crown and private lands at Fyzabad, Siparia; the Trinidad Central Oilfields, Limited, from Crown Lands at Tabaquite and Guapo; the Kern (Trinidad) Oilfields, Limited from Crown and private lands at Guapo; the Trinidad Oilfields Operating Co., Ltd., from Crown and private lands at Palo Seco, Fyzabad and San Francique; the Trinidad Petroleum Development Co., Ltd., from Crown and private lands at Palo Seco; New Dome Oilfields from private lands at Fyzabad; the Siparia Trinidad Oilfields, Ltd. from Crown lands at Palo Seco; the Trinidad Investments Ltd., from Crown and private lands at Oropouche. The Palo Seco Oilfields (C.C. Stollmeyer) from Crown lands at Palo Seco; The Petroleum Options (1925) Ltd. from private lands at San Francique; Coldan Co., Ltd. from private lands at Fyzabad; Antilles Petroleum Co. (Tdad) Ltd. private lands at Brighton; Mitchell, F. W., private lands at Point Fortin; Scottish Trinidad Oilfields, private lands at Rio Claro; and the Trinidad Consolidated oilfields, Crown oil rights under lease and private lands at Fyzabad. There are refineries at Pointe-à-Pierre, Point Fortin, Brighton, Tabaquite, La Brea and San Francique, and all grades of petroleum products from petrol to road oil are produced. The total quantity of oil produced during 1937 was 15,502,989 barrels, an increase of 2,265,959 barrels as compared with the production for 1936. Of this total 9,743,292 barrels were from Crown Lands or lands in which the oil rights belonged to the Crown. The royalty paid by operating companies on oil, won from Crown rights during the year 1937, amounted to $720,857, as against $617,885 in 1936 and wayleaves to $1,760 as against $1,878 in 1936. The quantity of crude oil and products exported amounted to 14,124,056 barrels valued at $18,896,422 as against 12,405,222 barrels valued at $15,910,638 in 1936.

Grape Fruit.—Large areas have been planted, and the area under cultivation amounted in 1937 to 2,800 acres. The exports during the year 1937 amounted to 4,062,033 fruit, valued at $187,579.

Lime Fruit.—The value of the lime and lime products exported during the year 1937 amounted to $230,873 as compared with $91,834 in the previous year.

Of the total area of the Colony, including Tobago, 1,267,236 acres, the alienated acreage at the end of December, 1937, was estimated to be approximately 708,941 acres. About 377,050 acres are under cultivation.

The chief imports are textiles, flour and rice, dried fish and meat, hardware, machinery and lumber. 36.52 per cent. of the whole trade of the Colony is with the United Kingdom.

Under the Customs Tariff, goods of Empire origin are admitted at a preferential rate of duty, the principal items being entitled to a preference of 50 per cent. of the general rate of duty. Approximately one half the list of items on the tariff are chargeable with duty *ad valorem*, the remainder, including all high duty goods, being subject to specific duties.

The following tables show the direction of the import and export trade of the Colony for 1937:—

IMPORTS.

Municipalities.

In 1914 Port of Spain was constituted a municipal city. The corporate body created under provisions of the Port of Spain Board Ordinance, 1907, and known as the Port of Spain Town Board, was dissolved.

Digitized by Google

The next town and port is San Fernando, about 30 miles south from Port of Spain. The population at the census of 1931 was 14,287.

San Fernando has an elective municipal council and mayor. The chief source of revenue in both boroughs is a rate on property.

A charter of incorporation has been granted to Arima, an inland town about 16 miles from Port of Spain (population at 1931 census, 5,072). The total municipal revenue of the two boroughs, and town of Port of Spain for the year ended 31st December, 1937, was $1,073,647 the expenditure $1,097,003, and the debt was $1,524,134 on the 31st December, 1937. This includes the loan for the purchase of the Woodbrook Estate, which has become an important suburb of Port of Spain.

Means of Communication.

The Government coastal steamers maintain three direct trips per week between Port of Spain (Trinidad) and Scarborough (Tobago). A weekly call is made at Roxborough (Tobago) and the following Tobago ports:—King's Bay, Speyside, Man-o'-War Bay, Bloody Bay, Parlatuvier, Castara. Pembroke, Plymouth, Mount Levine, Milford and Hilsboro in Tobago are served when inducement offers.

The railway system consists of the following:—

The Port of Spain—Arima—Sangre Grande line (opened in 1897) 29 miles along the southern foot hills of the northern range of hills to within 8 miles of the eastern coast.

The San Fernando—Siparia line, 44 miles (leaving the former line at St. Joseph) following roughly the western coast line of the Colony (opened to Couva in 1880, San Fernando in 1882, Siparia in 1913); total distance, Port of Spain to Siparia, 51 miles.

The Caparo valley and Caparo valley extension lines, 28½ miles (opened to Tabaquite in 1898, Rio Claro in 1914), leaving the Port of Spain—San Fernando—Siparia line at Jerningham Junction (14½ miles from Port of Spain) and running in a generally south-eastern direction; total distance from Port of Spain 43 miles.

The Guaracara line (10 miles) opened in 1884, leaving the Port of Spain—San Fernando—Siparia line at Marabella Junction (33 miles from Port of Spain) and running in an easterly direction to Princes Town; total distance from Port of Spain 42 miles, and

The total length of this system is 118 miles.

The railways afford opportunities of communication for passengers between all lines three times a day, and there are goods train opportunities once a day.

A suburban service of trains is run between Port of Spain and Arima (16 miles) at low fares, giving a service of 6 trains daily each way.

Road transport feeder services between the principal terminal stations and the coast provide for through transport between all the Districts of the Colony

The railway stations are in telegraphic or telephonic communication one with the other on all parts of the system, giving a total length of about 118 miles of telegraph and about 14 miles of telephone lines. There is also a service telephone along the Cipero Section between San Fernando and Princes Town.

The total receipts from the railways, telegraph and telephones for the year 1937 amounted to $856,938, and the working expenses to $747,759, exclusive of provision for loan and capital interest and sinking fund amounting to $271,861. There was, therefore, a net surplus on working of $109,179, as compared with a surplus of $13,992 in the previous year.

The total number of passengers carried during 1937 was 1,737,006. The total tonnage of goods was 581,000 tons.

The roads are divided into main and local roads. The former and 58·38 per cent. of the latter are under the control of the Public Works Department. The other local roads amounting to 534 miles are under Local Road Boards. The main roads, with a total mileage of 1,081 miles, are made up of 459 miles metalled or gravelled and oiled, 266 miles metalled, 181 miles gravelled, 26 miles pitched and 149 miles natural soil roads. The local roads in Districts where there are no Local Road Boards comprise 764 miles and are made up of 42 miles metalled or gravelled and oiled, 106 miles metalled, 283 miles gravelled, 43 miles pitched and 290 miles natural soil roads. In addition there are many miles of Crown Traces in charge of the Wardens.

There are several garages in Port-of-Spain where motor cars can be engaged to convey passengers to any part of the Colony. At most of the railway stations motor cars can be hired to carry passengers to outlying parts. Motor omnibuses also ply on the main roads, and in some of the suburbs of Port-of-Spain.

There is a General Post Office in Port of Spain branch offices at San Fernando and Tobago, and 120 out-offices throughout the Colony.

The rates of postage are as follows, per 1 oz. letter:—

Within Colony	1*d.*
To U.K., India and British Colonies, for 1st oz.	1½*d.*
and for each additional oz. or fraction of oz.	1*d.*
To other places, for 1st oz.	3*d.*
and for each additional oz. ...	1½*d.*

Communication by cable with the United Kingdom, Europe, North America and other parts of the world is maintained by the Pacific Cable Board (All Red Route) and the West India and Panama Telegraph Company. The Pacific Cable Board and the West India and Panama Telegraph Company are both now under the management of Cable & Wireless Ltd. of Electric House, London.

A wireless system is maintained between the following Islands—Barbados, Grenada, Carriacou, St. Lucia, Antigua, Montserrat and St. Kitts.

The principal tariffs are:—

To the United Kingdom from Port-of-Spain	56*c.* per word
To Eastern Canada	36*c.* ,, ,,
To Western Canada	41*c.* ,, ,,

There are also cheap rates at half and quarter of the ordinary tariff, the latter being subject to a minimum charge.

Three wireless stations are maintained by the Trinidad Government at Port-of-Spain and North Post in Trinidad, and at Scarborough in Tobago. The North Post Station deals exclusively with ship, Tobago and Martinique traffic, while communication with British Guiana, Venezuela and Paramaribo is carried out by Port-of-Spain. Negotiations are proceeding between the Government and Cable and Wireless Limited with a view to the Company taking over the Government Wireless Stations.

Digitized by Google

Steamers calling at Trinidad comprise the following lines:—Aluminium Line, American Carribbean Line, American–South African Line, Bermuda and West Indies Line, Canadian National Steamships, Canadian Transport Company, Compania Anonima Venezolana de Navegacion Compagnie General Transatlantique, Fyffes Line, Hamburg Amerikanische Paketfahrt-Aktiengesellschaft, Harrison Lines, Horn Line, Lamport and Holt, McCormick S. S. Co. (Pacific Argentine, Brazil Line Inc.), Munson Line, Nourse Line, Ocean Dominion New York Service, Ocean Dominion S.S. Corporation, Prince Line, Robin Line, Royal Netherlands Steamship Co. (1), Colon Line (2), Surinam Line, Société Générale de Transports Maritime, Standard Oil Company of Venezuela, Wilhelmsen Line, and the Surinam Combined Navigation Company, and Weshfal-Larsen Line. Mails are regularly forwarded and received by some of these steamers.

In addition an increasing number of steamers call to load oil cargoes, or to take in coal or fuel oil for bunker purposes. During the winter months a number of tourist ships call.

Air Mail and Passenger Services are maintained by the Pan American Airways Inc. with the United States of America via St. Lucia, Antigua, St. Thomas, Porto Rico and Havana, with Buenos Aires via Rio de Janeiro, Bahia, Para, Paramaribo and Georgetown, and with Venezuela touching at Caripito, La Guaira, and Maracaibo and onwards to Canal Zone, Mexico, Peru, Chile, Colombo, Cuba, Jamaica, Ecuador, British Honduras and the Republic of Honduras.

Currency and Banking.

British Currency and Trinidad Government notes are legal tender. Accounts are kept in dollars (1 dollar = 50 pence), and the coin in circulation is almost exclusively British silver and bronze, there being no limit to silver as legal tender.

In 1903 an Ordinance provided for the issue of Government Currency Notes was brought into force. Under this Ordinance notes of the denominations of $1, $2, and $1,000 have been issued, but the $1,000 notes were withdrawn and destroyed on the 21st December, 1934. The total value in circulation at 31st December, 1937, amounted to $945,720.

Government Savings Banks are established in 38 districts with a head office in Port-of-Spain. The total number of depositors at 31st December, 1937 was 53,080, with deposits amounting to $2,814,932.

The Commercial Banks are (1) Barclays Bank (Dominion, Colonial and Overseas) Ltd., with a note circulation in the Colony estimated at $862,580; (2) the Royal Bank of Canada, with an authorized note circulation in the Colony of $1,500,000; (3) The Canadian Bank of Commerce, with an authorized note circulation of $750,000; (4) Messrs. Gordon, Grant & Company, Limited. Barclays Bank (Dominion, Colonial and Overseas) Ltd., the Royal Bank of Canada, and the Canadian Bank of Commerce have Savings Bank branches and pay interest at the rate of 1½ per cent., while the Government Savings Bank pays 3 per cent. on amounts up to $2,400. The Bank of Messrs. Gordon Grant and Co., Limited, is not a bank of issue. In addition to the above Banks there is the Trinidad Co-operative Bank, an institution established in 1914, for the encouragement of thrift.

Education.

At the close of 1937 there were 293 primary and intermediate schools in the Colony, 45 being Government and 248 assisted schools. There were 258 schools in Trinidad and 35 in Tobago.

The number of pupils on the roll in December, 1937 was 72,766. The average daily attendance was 50,799, or 69·8 per cent. of the number on roll. As compared with the previous year there was an increase of 2,567 on the roll, and an increase of 2 per cent. in average attendance. The number of teachers and pupil teachers employed was 1,888 (1,904 in 1936).

The total expenditure on education during the year 1937, deducting the amount received in school and examination fees, was $878,499 as compared with $870,325 in 1936.

Secondary Education.

The following Colleges afford facilities for the higher education of boys:—The Queen's Royal College and its affiliated institutions, the St. Mary's College in Port-of-Spain, and the Naparima College in San Fernando, the Bishop's High School in Tobago. The St. Joseph's Convent and the St. Hilary's High School in Port-of-Spain, and the Naparima Girls' High School at San Fernando, which are also affiliated to the Queen's Royal College, provide similar education for girls.

The affiliated institutions work under the same curriculum as the Queen's Royal College, and receive a Government grant-in-aid.

A Government Training College for Teachers at Port-of-Spain was attended by about 133 students in 1937.

Besides the public schools, of which mention has been made above, there are many private schools.

Opportunities for technical education are afforded by a Board of Industrial Training established in 1906, which also supervises a small institution for the instruction of the blind.

TOBAGO.

History.

Tobago was discovered by Columbus in 1498, at which time it was occupied by Caribs. It was visited in 1596 by Capt. Keymis in the *Darling* and found to be uninhabited. In 1628 a grant of the island was made by Charles I. to the Earl of Pembroke. The island remained unoccupied until 1632, when 300 Zealanders were sent out by a company of Dutch merchants, who styled it New Walcheren. After a residence of about two years these settlers were all destroyed or expelled by the Indians and Spaniards from Trinidad. In 1641 James Duke of Courland obtained a grant of the island from Charles I., and in 1642 two vessels arrived with a number of Courlanders, who settled on the north side of the island. These were followed by a second Dutch colony in 1654, who, having effected a compromise with the Courlanders, established themselves on the southern coast; but in 1658 the Courlanders were overpowered by the Dutch, who remained in possession of the whole island until 1662, when the Dutch Company resigned their right to it. In this year Cornelius Lampsis procured letters patent from Louis the Fourteenth, creating him Baron of Tobago, and proprietor of the island under the Crown of France.

In 1664 the grant of the Island to the Duke of Courland was renewed by Charles II. The Dutch refused to recognise the Duke's title, but in 1667 they themselves were compelled by the French Admiral Estras, to evacuate the island the Dutch Admiral Binks being defeated

Digitized by Google

in Scarborough Bay, whereupon Louis the Fourteenth restored the island to the Duke of Courland, who, in 1681, made over his title to a company of London merchants. In 1748, by the Treaty of Aix-la-Chapelle, the island was declared neutral; the subjects of all European Powers being at liberty to form settlements or carry on commerce but not to place garrisons on it. At the peace in 1763, by the Treaty of Paris, Tobago was ceded by France to England in perpetuity.

In 1781 Tobago was captured by the French under the Duke of Bouillé, after a most gallant defence by the Colonists. In 1783 it was surrendered by treaty to the French Crown. On 15th April, 1793, it was captured by a British force under Admiral Lefrey and General Cuyler, and was once more restored to the French by the Treaty of Peace in 1802, and again reconquered in 1803 by Commander Hood and General Greenfield, and in 1814 finally ceded in perpetuity to the British Crown.

Situation and Area.

Tobago lies between 11° 8′ and 11° 21′ N. lat. and 60° 30′ and 60° 50′ W. long., distant from Barbados 120 miles, from Grenada 75 miles, and from Trinidad, 26 miles. It is 26 miles long and 7½ miles at its greatest breadth, and has an area of 116 square miles, or 74,392 acres, of which about 42,000 acres are under cultivation.

The formation of the island is volcanic: its physical aspect is irregular and picturesque, with conical hills and ridges, which descend from a common base or dorsal ridge 1,800 feet high and 18 miles in length.

The population of Tobago in 1931 was 25,358 according to census.

General Description.—Tobago.

Tobago is a Ward of Trinidad and its exports out of the Colony all pass through Trinidad and are included in the general statistics of the Colony. It has also a considerable trade in minor products, vegetables, live stock, etc., with Trinidad. The total value of the Tobago trade in 1937 was $538,333, made up as follows:—

Cacao	$176,740
Coconuts	7,743
Copra	190,275
Other Products	163,575

The island is divided into seven parishes. Scarborough, the principal town, is on the south side of the island, about 8 miles from the S.W. point, and is situated at the south-western base of a hill 425 feet above the level of the sea, on which stands Fort King George, now without a garrison. The town had a population, according to the census of 1931, of 833. It is a port of registry. Courland Bay, at Plymouth, also has good anchorage. There is a lighthouse at Fort King George, Scarborough; it is a fixed white light, at an elevation of about 425 feet above the level of the sea.

Regular communication with Trinidad is maintained by means of wireless telegraphy, and a coastal steamer service, provided by the Government.

The island possesses a fair mileage of motor roads.

Education is in the hands of the Anglican, Roman Catholic, Moravian, and Methodist bodies, who are assisted by a Government grant.

Constitution.

The Government was formerly administered by a resident Administrator, subordinate to the Governor-in-Chief of the Windward Islands at Grenada, and a Legislative Council was established by an Order in Council of the 7th of February, 1877, to consist of not less than three persons, designated by Her Majesty.

By an Order in Council of 17th November, 1888, issued under Act 50 & 51 Vict. cap. 44, Tobago was amalgamated with Trinidad, the name of the new Colony being Trinidad and Tobago. The latter island was administered by a Commissioner appointed by the Governor of the United Colony, who was *ex officio* a member of the Legislative Council, and one unofficial member of Council represented Tobago. The Commissioner was assisted by a financial board of five members, two nominated by the Governor and three elected. The revenue, expenditure, and debt of the islands remained distinct, but there was entire freedom of commercial intercourse between them, and the laws of Trinidad were, with some specified exceptions, the laws of both.

By an Order in Council of the 20th of October, 1898, the Order in Council of the 17th of November, 1888, was almost entirely revoked, and it was provided that the Island of Tobago should become a ward of the United Colony of Trinidad and Tobago; that the revenue, expenditure, and debt of Tobago should be merged in those of the United Colony; that the debt due from Tobago to Trinidad should be cancelled; that (with some specified exceptions) the laws of Trinidad should operate in Tobago, and those of Tobago cease to operate so far as they conflicted with the laws of Trinidad; that all future Ordinances of the Legislature of the Colony should extend to Tobago, with the proviso that the Legislature should be able to enact special and local Ordinances and regulations applicable to Tobago as distinguished from the rest of the Colony.

This Order in Council was brought into effect from the 1st of January, 1899, by a proclamation of the Governor issued on the 8th of December, 1898. The post of Commissioner ceased to exist, and the post of Warden and Magistrate was created.

Population.

Census.	Male.	Female.	Total.
1901	8,671	10,080	18,751
1911	9,922	10,827	20,749
1921	11,194	12,184	23,378
1931	12,280	13,078	25,358

Governors of Trinidad (since 1897).

2 June 1897	Sir H. E. H. Jerningham, K.C.M.G.
4 Dec. 1900	Sir C. A. Moloney, K.C.M.G.
30 Aug. 1904	Sir H. M. Jackson, K.C.M.G.
12 May 1909	Sir George R. Le Hunte, G.C.M.G.
1 June 1916	Lieut.-Col. Sir John R. Chancellor, R.E., K.C.M.G., D.S.O.
1 Jan., 1922	Brigadier-General Sir Samuel Herbert Wilson, K.C.M.G., K.B.E., C.B.
22 Nov. 1924	Sir Horace A. Byatt, K.C.M.G.
22 Mar. 1930	Sir A. C. Hollis, G.C.M.G., C.B.E.
5 Sept. 1936	Sir A. G. M. Fletcher, K.C.M.G., C.B.E.
1938	Major Sir Hubert W. Young, K.C.M.G., D.S.O.

APPENDIX.

This Appendix gives some account of North Borneo, Sarawak, Trans-Jordan and certain miscellaneous British Possessions and Protectorates which are not included in the main portion of the Historical and Statistical Account above.

NORTH BORNEO.

Situation and Area.

The territory under the jurisdiction of the British North Borneo Company (incorporated by Royal Charter under date of 1st Nov., 1881), now known as "The State of North Borneo," comprises the whole of the northern portion of the island of Borneo from the Sipitang River on the west to lat. 4° 10′ N. on the east coast, together with adjacent islands; it is held under grants from the Sultans of Brunei and Sulu, and contains an area of about 29,347 square miles (equal to Scotland), with a coast line of about 900 miles. It extends from 115° 20′ to 119° 20′ E. long., and from 4° 10′ to 7° 25′ N. lat. The southern frontier was delimited in 1912-1913 by an Anglo-Dutch boundary commission, whose report was confirmed by a treaty at London on the 28th September, 1915.

The principal stations of the Company are at Sandakan, Lahad Datu, and Tawau, on the east, Kudat on the north, and Jesselton on the west. At each of these there are excellent harbours, especially at the first-named, which is situated in a magnificent bay some fifteen miles in length, with an average breadth of five miles. It is 1,000 miles from Singapore, 1,200 from Hong Kong, and 1,600 from Port Darwin. The capital and headquarters of administration are at Sandakan. Other stations are at Semporna, Lamag, Beluran, Langkon, Kotabelud, Tuaran, Penampang, Papar, Beaufort, Mempakul, Sipitang, Tenom, Keningau, Tambunan, Ranau, and Pensiangan.

General Description.

The greater part of the country is at present covered with jungle, but the soil is well adapted for the growth of almost all tropical products, more particularly rubber, tobacco, coconuts, sugar, coffee, sago, tapioca, and pepper.

The country is mountainous. The highest point is Kinabalu, over 13,000 feet.

The inhabitants, who at the Census taken in 1931 numbered 270,223, are mainly Bruneis, Bajaus, and Sulus on the coast, who subsist by fishing and trade. Further back, the Dusuns, the most numerous native race in North Borneo, cultivate yearly well-irrigated rice fields, and in the uplands they plant tobacco and hill padi (rice), and hunt. The Muruts, another interior tribe, are numerous; formerly they varied more peaceful pursuits by head-hunting, but are now peaceable. The Chinese population is steadily increasing and is now not far short of 48,000; they form the trading, gardening and artisan section of the community. There is a State-aided scheme of Chinese immigration. Europeans number about 400. Sandakan, the chief town, with suburbs, has a population of about 17,600. There are several missions, including the Church of England, with stations at Sandakan, Kudat, and Jesselton, and the Roman Catholic with a church and school at Sandakan and four stations on the West Coast and twenty-one schools in various parts of the country. The Church of England, which is supported by the Society for the Propagation of the Gospel in Foreign Parts and the Church of England Community, has a stone church and two schools at Sandakan and seven schools elsewhere. The Basel Mission has sixteen schools, the principal ones being at Jesselton, Sandakan, Kudat, and Papar. Government maintains sixteen vernacular schools at various places in the territory.

History.

The State and town of Brunei appear to have been prosperous from a very early age. They were visited by Europeans in 1322, 1503, and 1520, but the first settlement in Borneo was made by the Dutch at Landak and Sukadana in 1608, and soon abandoned. Two English settlements were made about 1609, and abandoned in 1623. The Dutch factories were re-established in 1747 and 1776, but finally given up in 1790.

A British settlement was formed under the East India Company in 1762, at the island of Balambangan, which had been ceded by the Sultan of Sulu. This was attacked by pirates in 1775, and the staff was removed to Labuan, a small factory being at the same time established at Brunei. A second attempt in 1803 was made to establish a settlement on the former island, and in Marudu Bay, and on its failure the East India Company gave up its connection with Northern Borneo.

Sir James Brooke, in 1842, established the independent State of Sarawak, which, as well as Brunei, is under the exclusive influence of Great Britain; and Labuan became a British Colony in 1846. Some Americans obtained extensive cessions in North Borneo in 1865 from the Sultan of Brunei, but they were never utilised. In 1872 a Company, called the Labuan Trading Company, established itself in Sandakan, the business of which was later carried on by its manager, Mr. W. C. Cowie. Finally, in 1877 and 1878, the Sultans of Brunei and Sulu ceded to a syndicate formed by Baron Overbeck and Mr. (afterwards Sir Alfred) Dent the greater portion of the territory now known as the State of North Borneo. This syndicate's rights were acquired in 1881 by the British North Borneo Provisional Association, and transferred by that body in 1882 to the British North Borneo Company. Some further cessions have since been added to the Company's territory. The British Government assumed a formal protectorate over the territory by agreement dated the 12th May, 1888. By this agreement the State is to continue to be administered by the Company as an independent State, under the protection of the British Government, who may appoint consular officers, and shall conduct all foreign relations, but does not interfere in internal administration.

Climate.

The climate, though tropical, is equable; the temperature varies from 70° to 90°, but there is

Digitized by Google

usually a light breeze. The annual rainfall is from 80 to 150 inches, according to situation.

Annual Mean Temperature...	81 degrees
Recorded extremes maximum	96 ,,
,, ,, minimum	60 ,,

Constitution.

The territory is administered by a Court of Directors in London, and a Governor and Civil Service appointed by them. There are two Residencies, viz., the East Coast and West Coast Residencies.

The appointment of the Governor is subject to the approval of the Secretary of State.

The law of the country is based upon Indian law and the principal Indian Codes have been adopted in the State. Many enactments of the Straits Settlements also have been incorporated in local Ordinances. Courts of law are correlative to the Indian Courts under the Indian Criminal and Civil Procedure Codes, while there are Imams' Courts for the administration of Moslem matrimonial law, and Native Courts to deal with matters of native custom.

Industry.

The principal products of the country are estate rubber, timber, copra, and cutch. The rapid expansion of the rubber industry is indicated by the increase in exports of the commodity from 24 tons in 1910 to 13,213 tons in 1937. The vast timber resources of the country form one of its principal assets; until 1920 only the fringe of the forests was worked, but in that year a company was formed for more adequate timber exploitation with modern lumbering apparatus. At Sandakan two large steam-driven sawmills have been working for some years; there are also a modern band sawmill and an electrically driven sawmill. Exports of timber in 1937 were valued at 331,589*l.*; the principal markets were Hong Kong, China, Japan and Great Britain. The number of coconut plantations has rapidly increased in the last two decades and exports of copra have risen considerably; in 1937 the value of copra shipped was 89,042*l.* Cutch, a tanning material obtained from the bark of certain mangrove trees, is manufactured at Sandakan; exports in 1937, 37,272*l.* Tobacco grows well; extensive areas were formerly cultivated by European companies with the special variety used for the wrappers of cigars, but this industry has waned. The natives also engage in the cultivation of tobacco, but the principal crop grown by them is rice, the production of which is however still insufficient to meet local demands. The fishing industry gives employment to a large number of natives; exports of dried and salt fish in 1937 were valued at 51,195*l.* Sago is manufactured and exported. Other articles of export are damar, livestock, edible birds' nests collected in certain limestone caves, firewood, rattans, charcoal, and seed pearls. Fruit growing is an important industry and increasing attention is being given to the cultivation of manila hemp, coffee, and pepper, all of which thrive.

The Chartered Company does not itself directly engage in trade.

The revenue is derived from import and export duties, excise, quit rents, licences, royalties, poll tax, and other usual sources of revenue.

Sandakan on the East and Jesselton on the West are the principal ports. Both towns have developed rapidly, and are now supplied with electric light and cold storage. Considerable sums have been spent by Government on reclamation, improvement of water supplies, etc., at both ports.

Large resources of coal exist in the country behind Cowie Harbour in the south east and seams occur elsewhere in the territory. Gold in alluvial form is found in certain of the rivers on the East Coast.

Large deposits of iron ore have been discovered. Indications of the presence of petroleum occur in many parts of the State, but so far it has not been found to exist in commercial quantity; prospecting work is still proceeding.

Customs Tariff.

Customs duties are leviable in North Borneo both on an *ad valorem* and a specific basis. The prevailing *ad valorem* duty rates are 5 per cent. and 10 per cent.; chiefly the latter.

A preferential import tariff (varying from one-third to three-quarters of the general tariff import rates) came into force on 10th October, 1933, applicable to certain specified goods imported from any part of the British Empire. Following Colonial practice, as in the United Kingdom, a proportion of 25 per cent. of Empire material, labour, etc., is required in most cases, and of 50 per cent. in a selected few.

The rates of duty on the most important articles are as follows:—

IMPORT TARIFF.

Article.		*Preferential.*	*General Tariff.*
Cutlery	*ad valorem*	7½%	10%

Currency and Banking.

The Company has a copper coinage of ½ and 1 cent pieces, a nickel coinage of 1 cent, 2½ cent and 5 cent pieces, and it issues notes. There is also a silver coin of 25 cents. The State Bank of North Borneo has its head office at Sandakan. There are agencies of the Hong Kong and Shanghai Banking Corporation, the Chartered Bank of India, Australia and China, and the Bank of Taiwan.

Money orders on North Borneo are issued in England, India, the Straits Settlements, Ceylon, Hong Kong, and elsewhere, and *vice versâ*, and British postal orders came into use in the State during 1908.

Means of Communication.

The Straits Steamship Company run steamers every week between Singapore and local ports. There is additional communication by steamer with Hong Kong, Japan, and the Dutch East Indies, and a local company maintains a service along the coast and to the Philippine Islands. The State Railway on the West Coast, which is a metre gauge line, connects Jesselton with Beaufort, 57 miles distant. At Beaufort the line divides, one section proceeding to the port of Weston (20 miles), the other to Melalap in the interior (40 miles). In all, the length of railway (including branches) completed is 124 miles. At Jesselton there is a steel jetty where vessels up to 1,000 tons can load and discharge cargo. There is a first class metalled road 20 miles long, from Jesselton to Tuaran; this is now being extended a further 16 miles to Tenghilen. Another road proceeds from Sandakan in a north-westerly direction, 15 miles of metalling have been completed and earthworks to mile 19. Road construction is being pushed forward in other localities of the State. At the end of 1937, the total mileage of metalled and earth roads outside municipal limits was 236 miles. There is a system of bridlepaths covering a total distance of 600 miles. Wireless stations exist at Jesselton, Kudat, Sandakan, Tawau, and Lahad Datu. The State has joined the Postal Union. Course of letter post from London, about fourteen days. Postage to certain British possessions for letters 12 cents for the first half-oz., 6 cents for each succeeding half-oz.; others 8 cents for the first oz., 4 cents each succeeding oz.; foreign countries, 12 cents for the first oz., 6 cents each succeeding oz.

On the completion of the Singapore–Labuan–Hong Kong cable in 1894, the mainland of Borneo was joined to Labuan by a cable covering a distance of about 10 miles to Mempakul.

There is a telegraph line from Mempakul where the cable reaches land to Jesselton, whence messages are transmitted by radiotelegraphy to Kudat, Sandakan, Tawau, and Lahad Datu. Branch telegraph lines establish communication with Beaufort and Tenom from Jesselton. The majority of the smaller Government stations are in telephonic communication with one another and with the local centres of administration. Telephone exchanges are in operation at Jesselton, Sandakan, and Kudat.

Assistant Auditor, J. F. Penlington, A.C.A., $6,300.
Deputy Protector and Assistant Secretary for Chinese Affairs, H. O. E. Sykes (acting), $3,960.
Superintendent of Printing Office, H. O. E. Sykes.
Government Surveyor, E. J. Smallfield, $6,600.
Railway Accountant and Traffic Superintendent (vacant).
Locomotive Superintendent, W. J. Sproson, $6,000.
Permanent Way Engineer, J. Beatty, $7,920.
Assistant Permanent Way Engineer, W. F. Smith, $6,000.

District Officers.

R. A. Rutter, B. R. Cole-Adams, E. W. Skinner, D. K. Ingle.

Assistant District Officers.

W. F. Hill, R. G. P. N. Combe, S. H. K. Cox, J. E. Longfield, H. O. E. Sykes, S. G. Hill.

Cadets.

J. S. Chisolm, J. F. G. Dingle, R. S. Abbott, W. K. C. Wookey, J. H. Macartney, P. G. Edge, M. H. B. Cockin, G. R. Hedley, J. M. Smallfield

SARAWAK.

General.

In 1864 Great Britain recognized Sarawak as an independent State. An agreement was entered into with the Rajah of Sarawak, on the north-west coast of Borneo, on the 14th of June, 1888, under which that State has been placed under British protection. Her Majesty's Government undertake not to interfere with the internal administration of the State, but they are to determine any questions that arise as to the succession, to control the foreign relations, and to have the right to establish consular officers in the territory. British subjects are to have most-favoured-nation treatment, and no part of the territory is to be alienated without the consent of H.M.'s Government.

The territory of Sarawak comprises an area of about 50,000 square miles (more than equal to Ireland and Wales together), with a population of about 442,900 composed of various races. It is intersected by many rivers, navigable for a considerable distance inland, and commands about 450 miles of coast line. The government of the district from Tanjong Datu to the entrance of the Samarahan River was obtained from the Sultan of Brunei in the year 1842 by Sir James Brooke, who became well known as Rajah Brooke of Sarawak. In 1861 a second cession was obtained from the Sultan of Brunei of all the rivers and lands from the Samarahan River to Kedurong Point. In 1882 a third cession was obtained of 100 miles of coast line and all the country and rivers that lie between Kedurong Point and the Baram River, including about three miles of coast on the north-east side of the latter; and in 1884 another cession was obtained of the Trusan River, situated on the north of the mouth of the Brunei River. The Limbang River was also obtained in 1890, the transfer being approved and confirmed by H.M.'s Government in 1891. The Lawas River was added in 1905. The present Rajah, H.H. Sir Charles Vyner Brooke, G.C.M.G. (born 26th September 1874, married, 1911, Hon. Sylvia Brett), succeeded his father, H.H. Sir Charles Johnson Brooke, G.C.M.G., in 1917.

Heir presumptive, Bertram Brooke (H.H. the Tuan Muda), born 8th August, 1876.

Products.

Oil is worked by the Sarawak Oilfields, Ltd., at Miri.

J. A. Tsoi-A.-Sue, M.R.C.S., L.R.C.P. South Naparima and San Fernando, Port Health Officer and Police Surgeon ($1,920 to $2,880), $3,125.

F. Mahabir, M.R.C.S., L.R.C.P., Prince's Town and N. Naparima ($1,920 to $2,880), $3,264 and quarters.

J. L. Pawan, M.B.E., M.B., Ch.B. Edin., D.P.H., R.C.P.S. Eng., Bacteriologist and Pathological Registrar, $4,800. Rent $544.

G. H. T. N. Clarke, M.D., C.M.Ont., L.R.C.P., L.R.C.S. Edin., L.R.F.P.S. Glasgow, D.P.H. Manchester, Plymouth, Tobago, $1,920 to $2,880 and rent allowance $240.

N. O'C. Blanc, M.B., Ch.B. Ireland, Scarborough, Tobago, $3,600 and quarters.

H. S. A. Bishop, M.B., Ch.B. Edin., Roxborough, Tobago, $1,920 to $2,880 and quarters.

G. E. Tracey, M.D. (Montreal), L.R.C.P. & S. (Quebec) $1,920 to $2,880 and quarters.

T. F. Carter, M.B., M.C.P. & S. Ont., Guaracara, $1,920 to $2,880 and quarters.

C. J. Milne, M.B., Ch.B. Edin., Gran-Couva, $1,920 to $2,880 and quarters.

S. E. Ammon, M.B., Ch.B. Edin., Diego Martin-Bocas, $1,920 to $2,880 and quarters.

C. Siung, M.B., Ch.B. Edin., Tooo., $1,920 to $2,880 and quarters.

Miss M. Gosden, M.B., B.S. (Lon.), M.R.C.S. (Eng.), L.R.C.P. (Lon.), D.T.M. & H. (Edin.), Pathologist, $2,880 to $3,840 and house allowance, $480.

Miss S. Abith, M.D. (Toronto), L.M.S. (Nova Scotia), L.M.C.C., Child Welfare and School Medical Officer, San Fernando (part time), $1,200.

P. L. Lai Fook, M.B., Ch.B. Edin., School Medical Officer, Port of Spain, $1,680.

Colonial Hospital, Port of Spain.

Resident Superintendent, J. Cook, L.R.C.P. & S. (Edin.), L.R.F.P. & S. (Glas.), F.R.C.S. (Edin.), D. P. H. (Durham), $5,280 and quarters.

Senior Medical Officer (Surgeon), J. E. A. Boucaud, M.R.C.S. Eng., L.R.C.P., M.B., B.S., London, $4,800 and quarters.

Medical Officer, Grade I (Surgery), M. V. Boucaud M.R.C.S., Eng., L.R.C.P., London, $3,720 and quarters.

Senior Medical Officer (Physician), K. U. R. Inniss, M.B., Ch.B. Edin., $4,800, rent allowance $600.

Radiologist, Surg. Lieut., S. R. G. Pimm, R.N., $4,800.

Medical Officers.

C. F. Rostant, M.B., Ch.B. Edin., $1,920 to $2,880 and quarters.

J. A. Waterman, M.B., Ch.B. Glasgow, $1,920 to $2,880 and quarters.

A. G. Francis, M.B., Ch.B. Ireland, $1,920 to $2,880 and quarters.

E. Siung, M.B., Ch.B. Edin., $1,920 to $2,880 and quarters.

A. F. H. Stewart, M.R.C.S., L.R.C.P., B.S., University of London, $1,920 to $2,880 and quarters.

Health Officer, Grade II, V. E. Donawa, $1,920 to $2,880 and quarters.

Contract Medical Officers, O. Warner, L.R.C.P., L.R.C.S., N. Chan Pong, M.D., B.S. (Birmingham), A. A. Reece, M.D., C.M. (McGill), L.M.C.C. (Canada), $960 by $1,440 to $1,920.

Hon. Dr. A. H. McShine, O.B.E., M.D., C.M. (Edin.), *Honorary Consulting Surgeon (Eyes)*.

W. G. MacKechnie, M.C.P. & S. (Ont.), *Honorary Consulting Surgeon (Ear, Throat and Nose)*.

Secretary (vacant), $2,400 and quarters.

Chief Dispenser, E. N. Gaspard, $1,200 to $1,440 and $240 in lieu of quarters.

Matron, Miss L. Hammond, $1,320 and furnished quarters.

Assistant Matron, Miss D. E. Cooker, $960 and furnished quarters.

Assistant Matron, X-Ray, etc., Miss A. M. Wolfe, $960.

Colonial Hospital, San Fernando.

Senior Medical Officer (Surgeon), P. A. Rostant, M.B., Ch.B. Edin., $4,320 and quarters.

Senior Medical Officer (Physician), A. L. Krogh, M.D., Ch.B. Edin., $3,360 to $4,320 and quarters.

Medical Officers, J. H. Pierre, M.B., B.S. (Lond.), M.R.C.S. (Eng.), L.R.C.P., $1,920 to $2,880 and quarters; N. L. Chang Pong, M.B., Ch.B. (Birm.), M.R.C.S., L.R.C.P. (Lond.), $1,920 to $2,880 and quarters.

Medical Radiologist, B. O. Jarrette, M.B., Ch.B. Edin., $3,840.

Contract Medical Officer, R. Dolly, M.R.C.S., L.R.C.P., $960.

Honorary Ophthalmic Surgeon, V. M. Metivier, M.R.C.S., Eng., L.R.C.P. London, F.R.C.S. Edin.

Dispenser, N. Alexis, $1,200 to $1,440.

Steward, G. H. Knight, $1,200 to $1,440.

Matron, Miss M. A. Johnstone, $1,080 and furnished quarters.

Mental Hospital.

Medical Superintendent, A. H. W. Smith, M.R.C.S., L.R.C.P., D.P.M., $4,800 and quarters.

Assistant Medical Superintendent, E. G. L. L. Masson, M.B., Ch.B. Edin., $2,880, $3,360, $3,840.

Head Attendants (Male), H. W. Eaton, P. Cunningham, $960 to $1,200, ration allowance $120, and quarters.

Matron, Miss N. C. D. Banks, $624 to $720, ration allowance $120, and furnished quarters.

Steward, L. Springer, $960 to $1,200 and quarters.

Leper Settlement.

Medical Superintendent, Sir Robert Archibald, Kt., C.M.G., D.S.O., M.D., $4,080 and quarters.

Resident Superintendent, Rev. Mother S. Dobrowska, $1,440 and quarters.

Dispenser-Steward, C. Warner, $720 to $960 and quarters. Duty allowance, $120.

House of Refuge.

Medical Superintendent, A. R. McLean, M.B., Ch.B., is also *District Medical Officer, Port of Spain.*

Resident Superintendent, Mrs. O. L. Williams, $1,440 to $1,680 and quarters.

Digitized by Google

Steward, L. C. James, $1,200 to $1,440, rent allowance, $240.
Senior Medical Officer of Health (North-Western District), E. J. de Verteuil, M.B., B.Sc. London, M.R.C.S. Eng., L.R.C.P. London, D.P.H. London, $3,840 to $4,320. Rent allowance $480.
Senior Medical Officer of Health (South-Western District), E. J. Sankeralli, M.B., Ch.B., B.A.O., Belfast, D.T.M. Liverpool, L.M. Dublin, D.P.H. Belfast, $3,840. Rent allowance $480.
Port Health Officer, S. M. Laurence, M.B., C.M. Edin., retaining fee $2,112.
Medical Officer of Health, L. G. W. Urich, M.R.C.S. Eng., L.R.C.P.Lond., D.T.M. and H.D.P.H.Univ. Lond, $2,880 to $3,840.
Health Officer, Grade II, V. E. Donawa, $1,920 to $2,880.
Medical Officer of Health, School Medical Service, Stella P. Abidh, $2,880 to $3,360.
Medical Officer of Health, Borough of San Fernando, K. P. Beaubrun, M.B., Ch.B.(U. Bris.), D.P.H. (Lond.).
Medical Officer of Health, Venereal Disease Service, D. R. Huggins, M.B., Ch.B., $2,880 to $3,840.

Poor Relief.

Chief Inspector of Poor Relief, Secretary Poor Relief Board, Capt. K. Costelloe, M.B.E., $1,440 and travelling allowance.

DEPARTMENT OF AGRICULTURE.

Scientific and Technical Staff.

Director, E. J. Wortley, C.M.G., O.B.E., F.C.S., F.L.S., $5,760 and quarters. Receives $360 for supervising Department of Agriculture, Grenada, $480 as a member of the Agricultural Bank Committee and Cocoa Subsidy Board, and $120 as a member of the Hurricaner Industry Relief Committee.
Assistant Director, A. B. Killick, $4,320 and quarters.
Mycologist, F. Stell, $3,600.
Economic Botanist (vacant), $2,400 to $3,120.
Cocoa Agronomist, F. J. Pound, B.Sc., Ph.D., $2,880 to $3,600.
Government Veterinary Surgeon and Examiner of Animals, Capt. H. V. M. Metivier, O.B.E., B.Sc., M.R.C.V.S., $4,080 and quarters. Personal allowance $240. Receives $720 as Lecturer Veterinary Science, Imperial College of Tropical Agriculture.
Sugar Agronomist, P. E. Turner, M.Sc., F.I.C. $3,600.
Entomologist, A. Pickles, M.Sc., A.I.C.T.A., F.R.E.S., $2,880 to $3,600.
Agricultural Officers, B. G. Montserin, B.S.A., M.Sc., F. Mc. G. Bain, B.S.A., A.C.I.C., D.I.C.T.A., $1,920 to $2,880. House allowance $480.
Assistant Chemist, Soil Survey, E. M. Chenery, $1,920 to $2,160.
Agricultural Advisers, F. D. Davies ($1,440 to $1,680, $240 for Agricultural Co-operation), C. M. Roach, T. Boodansingh, R. W. M. Leacock, S. E. T. Hagley ($1,200 to $1,440), A. H. Pena, A. J. Alexis, R. S. Hanomansingh, B.Sc., D.I.C.T.A., and V. O. Ferrer ($960 to $1,200).
Inspector Agricultural Co-operative Societies, C. K. Hutchinson ($1,680 to $1,920).
Banana Officer, J. E. Beansoleil, $1,200.

Clerical Staff.

1st Class Clerks. Secretary, Board of Agriculture, and *Inspector*, Agriculture Credit Societies, M. Dhein, A.M.C. ($1,440 to $1,920, $48 as *Secretary* of Veterinary Board); Ali Hosein.
2nd Class Clerk, F. Chookolingo, $180 as Accountant, Banana Board, $960 to $1,440.

Trinidad.

Botanical Department.

Curator, R. E. Dean, $1,440 to $1,680 and quarters.
Superintendent, River Estate, F. J. Pound, paid as *Agronomist.*
Manager, R. O'Connor, $1,920 to $2,160 and quarters.
Manager St. Augustine Experiment Station, E. J. Gregory, $1,920 to $2,880.
Manager, St. Augustine Nursery, F. C. Buthn, $1,440 to $1,920 and quarters.

Trinidad.

Government Farm.

Officer-in-Charge, Capt. H. V. M. Metiver (paid as Government Veterinary Surgeon).
Assistant Officer-in-Charge, J. L. Shannon, D.V.M., $2,160 to $2,400, and quarters.
Veterinary Officer, M. D. Lumsden, B.V.Sc., $2,160 to $2,400 and House allowance $480.
2nd Class Clerk, H. J. Brooks, $960 to $1,440.

Tobago.

Manager, T. Ades Iales, B.V.Sc.(Ont.), and *Officer in Charge*, $1,200 to $1,440 and quarters.

ANALYST'S DEPARTMENT.

Government Analyst (vacant), ($2,880), $3,744.
Assistant Government Analyst, L. S. Davis, F.C.S., $2,400 to $2,880.
Laboratory Assistant, S. M. Carrmuddeen, $1,200 to $1,680.

POLICE.

Commissioner of Police and Commandant, Local Forces. Col. W. A. Muller, $5,280 and free quarters.
Deputy Commissioner, Lieut.-Col. W. A. Orrett, $3,360 to $3,600 and free quarters.
Superintendent, Capt. A. I. J. Knights, $2,400 to $2,880 and free quarters.
Detective Inspector, Capt. L. R. O'Hanlon, $2,160 to $2,640. House allowance, $480.
Superintendents, Capt. G. B. Liddelow, T. D. Ogier and E. E. Morgan, $1,920 to $2,160. All Superintendents are granted free quarters or an allowance in lieu thereof.
Pay and Quartermaster, and Secretary to Commissioner, Major W. Knaggs, M.B.E., $1,920 to $2,160. House allowance $480.
Senior Assistant Superintendent, W. E. Rumbelow, $1,440 to $1,920.
Assistant Superintendents, G. T. W. Carr, H. E. Bowring, A. L. Alexander, J. P. Reid, D. A. Weir, A. M. Hazlerigg, E. T. Egg, and R. W. Lucie-Smith. $1,440 to $1,680. All Assistant Superintendents receive a uniform allowance of $96 per annum and have free quarters or an allowance in lieu thereof.
Director of Music, R. Dennison, M.M., A.R.C.M., $1,200 to $1,440. Uniform allowance of $96 per annum and free quarters or an allowance in lieu thereof.
Traffic Inspectors and Licensing Officers, Capt. J. Sharpe, M.C., and Capt. A. T. Essex, $2,400 per annum (non-pensionable).
2nd Class Clerks to Licensing Officers, P. U. Corbie and A. F. Leiba, $960 to $1,440.

PRISONS.

Inspector of Prisons, Reformatories and Industrial Schools (vacant).
Superintendent of Prisons, M. A. Puckerin, $3,360 to $3,840 and House allowance, $540.

Digitized by Google

Deputy Superintendent of Prisons, O. V. Garratt, $1,680 to $2,400. House allowance, $360.
Assistant Superintendent of Prisons (*Stationed as Officer-in-Charge of the Preventive Detention Prisons and the Young Offenders Detention Institution*, J. E. Fox, $1,680 to $2,400. House allowance $360.
Assistant Superintendent, (Stationed as *Officer-in-Charge* at Carrera Island Convict Prison), S. T. Baker, $1,200 to $1,440 and furnished quarters, $120 Depot allowance.
Steward, C. W. Solomon, $960 to $1,440. Grant in aid of house allowance $72.

Printing and Stationery Department.

Superintendent, Government Printing, J. de Nobriga (also 1*st Assistant Colonial Secretary*), $537 to $600.
Government Printer, A. L. Rhodes, M.B.E., $2,880 to $3,120, personal allowance $480.
1*st Class Clerk*, J. D. Corrie, $1,440 to $1,920.
2*nd Class Clerk*, J. A. Rawlins, $960 to $1,440.
Proof Reader, R. A. S. Herbert, $1,200 to $1,440.
Lithographer, S. Isaac, $1,200 to $1,440

Consuls.

Argentine, J. F. Salazar, Vice-Consul.
Belgium, Dominique Majani.
Bolivia, A. W. Kraft-Siegert.
Brazil, Ernesto Gomez (Dean).
Brazil, J. A. Antoni (Vice).
Chile, A. M. Sucre.
China. J. R. Hing-king.
China, G. Marfoe, (Vice).
Colombia, Ernesto Gomez (Dean).
Costa Rica, A. M. Sucre.
Cuba, A. G. Siegert, Consular Agent.
Czechoslovakia, Mon. V. Kácal, Consular Agent.
Denmark, G. Wight.
Dominican Republic, Alex. Gordon, Vice-Consul.
Ecuador, Spencer J. Kirton.
Finland, E. H. Canning, Vice-Consul.
France, M. M. Pelleterat de Borde.
Germany, Paul Urich.
Guatemala, A. M. Sucre.
Haiti, Felix Leotand.
Italy, Dr. C. Cicconi, Consul in Charge.
Latvia, F. J. Leotaud.
Liberia, F. J. Leotaud.
Mexico, C. H. Hayward.
Netherlands, James Forbes.
Nicaragua, Dr. G. A. Lyon.
Norway, A. E. Emlyn.
Norway, J. R. Taylor (Vice).
Panama, A. P. Smith.
Peru, Dr. G. A. Lyon.
Portugal, Dr. Jose Dos Santos Silva Taveira, Consul de Carriere. Alfred Mendes (Vice).
Roumania, Dr. G. A. Lyon.
Salvadore, Dr. G. A. Lyon, Jr.
Spain, J. Salvatori, Vice-Consul.
Sweden, D. McBride.
Switzerland, C. M. Kuhn, Consular Agent.
Uruguay, Spencer, J. Kirton.
U.S. of America, C. H. Hall, Jnr.; Marc de Verteuil, Consular Agent at Brighton, Trinidad.
Venezuela, Señor F. Rojas, H. G. Dalla Costa (Honorary Vice-Consul).
Venezuela, J. A. Odreman, Vice-Consul.
Yugoslavia, Dr. G. A. Lyon.

UGANDA.

(For Map see under Kenya.)

Extent and Boundaries.

The British Protectorate over Buganda was proclaimed on August 27th, 1894. The Protectorate was further extended over Bunyoro and Busoga on July 3rd, 1896. By numerous treaties concluded by various officers in the service of the Protectorate, the British administration has spread still further over countries adjoining the kingdom of Buganda proper, and the boundaries of the Protectorate may now be set forth as follows:—

On the east by Kenya Colony as far north as Mount Zulia, near the 4th degree of north latitude, the natural boundaries being the Turkana escarpment, Mount Elgon, and the Sio River running into the north-east corner of Lake Victoria; on the south, by the Tanganyika Territory and by the 1st degree of south latitude; on the west, by the frontier of the Belgian Congo, the natural boundaries being Lake Edward, Mt. Ruwenzori, the Semliki River, Lake Albert and the Nile watershed; and on the north, by the Anglo-Egyptian Sudan.

The area of the Uganda Protectorate is estimated at 93,981 square miles, including 13,680 square miles of water. Pending the complete survey of the country, it is not possible to give the correct area.

For administrative purposes the Protectorate is divided into three provinces (Eastern, Western, and Buganda), and then again into numerous districts.

The headquarters of the Uganda administration are at Entebbe, and the chief commercial towns in the Protectorate are Kampala and Jinja; all three are on or near the North shore of Lake Victoria.

Climate.

The climate, when compared with that of some tropical countries, is not unpleasant, but there are parts of the country which can by no means be called healthy. The conditions vary with the altitude in different parts of the Protectorate: the Nile Valley, which lies about 2,000 feet above sea-level, is hot, and is considerably more unhealthy than the higher-lying regions between Lakes Victoria and Albert. The most congenial climate for European residence is found in the Buganda kingdom and in the Western Province, where in some districts the altitude exceeds 5,000 feet above sea-level. European children thrive well in infancy in a few of the healthier stations, but considerable risk is attached to bringing them out when over six or seven years old, as they are always liable to attacks of malaria and the anæmia and general ill-health resulting therefrom.

The climate is mild, neither excessively hot nor cold, the average temperature for the year 1937 at Entebbe being—Mean maximum, 77·9° Fahrenheit; mean minimum, 63·3° Fahrenheit. Average daily sunshine 6·3 hours.

The lowest rainfall for 1937 was recorded at Mwirasandu (Western Province), which registered 29·33 inches, the highest (128·75) being recorded at Kalangala (Sesse Islands).

The seasons are not well defined, but there are two dry seasons within the year; one dry season usually includes June and July, and the other December, January and February.

The healthiest months of the year are usually January, February and March, July, August, September and October, and the least healthy, April, May, November and December, or the periods corresponding to those immediately following the rains, when the mosquitoes become more in evidence and malarial infections more numerous.

Digitized by Google

No part of the Protectorate can be said to be absolutely free from malaria, but in some districts, for example those of Toro and Kigezi in the Western Province, there is comparatively little, while on the other hand, in the Nile valley and along the courses of the larger rivers, malaria prevails at all seasons of the year.

Sleeping sickness, which proved such a scourge to the country in 1902 and the years following and necessitated the evacuation of the natives from the islands in Lake Victoria, and from the shores of the great lakes and rivers, is now well under control. During 1921 and 1922 the island population was to a great extent restored and many of the islands were successfully reopened. The focus of the disease is no longer on Lake Victoria.

Plague and smallpox are unfortunately endemic in the native population, but it has been possible to confine outbreaks for the most part within narrow limits. Active measures against these diseases are constantly engaging the attention of the medical and administrative authorities.

History.

The countries that now make up the Uganda Protectorate did not become known to Europe until the journey of Speke and Grant in search of the sources of the Nile, which brought them to Buganda in 1862 and to Bunyoro a year later. In both countries they found a somewhat advanced indigenous civilisation, and it is around the rivalries of these two principalities that all the early history of the country centres. The Swahili form of "Buganda," the country of the Baganda people, has been adopted as the name of the whole Protectorate, although there are many other quite separate races and tribes among its inhabitants. Speke's discoveries were not at first credited, but were soon confirmed by Sir Samuel Baker and his wife who discovered Lake Albert. The first missionaries arrived in Buganda in 1877, and the rivalries of Protestant, Catholic and Mohammedan which soon naturally arose ended, after the death of the old king, Mutesa, and the accession of his weak and vacillating son, Mwanga, to the throne in 1884, in bloodshed. The Imperial British East Africa Company which, after concluding a treaty with Mwanga in 1890, had occupied Kampala with a weak force under Capt. Lugard, had much difficulty in trying to compose these rivalries, and would have been forced to abandon the country but for the intervention of the British Government, which sent out a Special Commissioner, Sir Gerald Portal, in 1893. His enquiry and negotiations led to the establishment of the Protectorate in the following year. For three years the country remained quiet, but in 1897 mutiny broke out among some of the Sudanese troops who had been recruited by the Company from the remains of the Egyptian forces cut off by the Mahdist rebellion. It soon spread to all the discontented elements, but was ultimately overcome after having seriously menaced British rule. Finally the two kings—Mwanga of Buganda and Kabarega of Bunyoro—who had always resented European penetration and had seized upon the mutiny as a good opportunity to put an end to it, were captured and deported.

Since then there is little but peaceful progress to record. Sir Harry Johnston was sent out by the British Government in 1900 as Special Commissioner to settle the country, and concluded agreements with the heads of the native principalities of Buganda, Toro and Ankole, which laid down the principles governing their administrative relations with the Crown and the ownership of the land. No such arrangements could be made at the time with regard to the rest of the present Protectorate, but administration has since been extended gradually over the more primitive and unorganised tribes, and the same principles of "indirect rule" have been followed wherever and whenever it was possible as in the "agreement districts." In 1903 the Eastern highlands of the Protectorate along with the Kavirondo country were transferred to what is now Kenya Colony, and the succeeding years saw further adjustments of frontiers with the Sudan, the Belgian Congo, and German East Africa, now the Tanganyika Territory. In 1903 the superintendence of the Protectorates affairs passed from the Foreign to the Colonial Office. In the Great War the population, of all races, remained devotedly loyal and played a great part in the East African campaign. Since then progress, both material and cultural, has continued, the former made possible by the success of the cotton industry and the development of communications, the latter based on the activities of the missions, both Protestant and Catholic, in whose hands was all educational work until 1925.

Population.

Estimated population, December, 1937 :—

Europeans, males	1,316
,, females	795
Asiatics	17,256
Native Population	3,692,127
Total ..	3,711,494

Constitution.

By the Uganda Order in Council, 1920, it was provided that there should be an Executive Council and a Legislative Council both consisting of such persons as may be directed by Royal Instructions. Under the Royal Instructions dated the 5th June, 1920, as amended by subsequent instructions, the Executive Council consists of the Chief Secretary, Attorney-General, Financial Secretary, Director of Medical Services, Director of Agriculture, Director of Education, and the Resident Commissioner, Buganda (*ex-officio* members), and such other persons holding office in the public service as the Governor may appoint (official members), and such other persons (if any) not holding such office as the Governor may appoint (unofficial members), with the Governor as President.

It is further provided that the Legislative Council shall consist of the Governor, Attorney-General, Financial Secretary, Director of Medical Services, Director of Agriculture and Director of Education (*ex-officio* members), with official and unofficial members as in the case of the Executive Council. There are at present four unofficial members and no official member.

For the East African Governors Conference, see under Kenya.

The Native Government of Buganda has certain rights of internal legislation granted by agreement. The king, or *Kabaka*, who is accorded the title of "His Highness," rules the Baganda people with the advice of the Governor and of a native Council known as the *Lukiko*, which also has judicial functions.

Communications.

The Uganda Protectorate is separated by about 500 miles from the nearest point on the east coast of Africa. Over this stretch of country, all of which lies within the Colony of Kenya, transport was exceedingly difficult before the construction of the "Uganda Railway" from Mombasa to the north-east corner of Lake Victoria, which the Imperial Government decided in 1895 to undertake. This railway at the end of 1901 had covered the whole 584 miles separating Mombasa from Kisumu on Victoria Nyanza, which was the terminus of the railway until recent years.

Digitized by Google

There is a Lake Steamer Service connecting Entebbe, Port Bell (Kampala), and Jinja with Kisumu and the other ports on Lake Victoria. Steamers ply also on Lake Kioga and on Lake Albert and the Albert Nile as far North as Nimule. All these services are maintained by the Kenya and Uganda Railways and Harbours Administration.

A railway, 62 miles long, from Jinja to Namasagali on the Victoria Nile, giving access to the waterways of Lake Kioga, was completed in 1912, and one from Port Bell on Lake Victoria to Kampala, the principal commercial centre, a distance of 7¾ miles, was opened for public traffic in 1915.

Since the Great War considerable railway development has taken place, and the main line of the Kenya and Uganda Railway, leaving the original line at Nakuru, now extends into the Eastern Province of Uganda to join the Jinja-Namasagali railway at Mbulamuti, and so places Uganda in direct communication with the Coast. An extension of this line from Tororo, near the Kenya border, to Mbale and Soroti was completed in 1929, and the linking up of Jinja with Kampala—a scheme which involved the bridging of the Victoria Nile at the former place—was completed in the early part of 1931.

The system of all-weather main roads radiating from Kampala to the principal administrative centres is maintained by the Public Works Department, which has a road mileage of 2,075 under its control. A system of roads in the Western Province establishes connection between the tin-mines and the Kagera River steamship service, taps the resources of the Ruchuru area of the Belgian Congo for that service, and links up direct the district headquarters in the west of the Protectorate. About 5,324 miles of excellent roads are also kept up by the Native Administrations. Motor-transport, in consequence of these facilities, has reached an advanced stage of development in the Protectorate.

The Uganda Posts and Telegraphs Department is amalgamated with those of Kenya and Tanganyika under the control of the Postmaster-General at Nairobi.

Uganda is now in telegraphic communication with Mombasa and Dar-es-Salaam by land lines, and thence by cable with Great Britain and other countries and also by wireless to Great Britain through Nairobi. All important centres within the Protectorate are also connected by telegraph.

The total mileage of telegraph and telephone pole route at the end of 1937 was 1,574, and the wire mileage 5,156. Telephone exchanges are worked at Entebbe, Kampala, Jinja, Inganga, Busambatia, Mbale, Tororo, Bombo, Mpigi, Busia and Masaka, and connected by trunk lines.

Aviation.

Landing grounds are kept up at Kololo (Kampala), Entebbe, Tororo, Masindi, Gulu, Mbarara and Jinja, Lira, Butiaba, Arua and Moroto. Landing facilities for sea-planes exist at Entebbe, Port Bell, Jinja and Butiaba. There is no accommodation in Uganda for housing aircraft, but repairs can be carried out at the above places. Tri-weekly communication by air with Europe and South Africa, has now been established by means of Imperial Airways, Ltd.

Industries.

Coffee of the *Arabica* and *Robusta* varieties has been introduced and thrives exceedingly well; the former is the principal crop on European plantations, and both are being grown in increasing quantities by Africans. The principal industry is cotton, and 1,353,566 centals of lint, valued at 4,269,283*l.*, as well as 103,440 tons of cotton seed, of a value of 392,083*l.* were exported in 1937. Sugar, hides and skins, ground-nuts and chillies, are the other principal agricultural exports, and, except for sugar, practically all the production is in native hands. Mineral discoveries have been made in recent years, and there is a considerable export of high-grade tin ore from the Western Province. 19,590 ozs. (troy) of gold, valued at 124,713*l.* was also exported in 1937. Cattle are plentiful. Leasehold grants of land can be obtained from the government, but the issue of freehold concessions has been withdrawn for the present.

The weights and measures in common use in the Protectorate are the Imperial weights and measures. The currency is the same as that of Kenya.

Banking facilities are afforded by the National Bank of India Ltd., with branches at Entebbe, Kampala, and Jinja, the Standard Bank of South Africa Ltd., with branches at Kampala and Jinja, by Barclays Bank (Dominions, Colonial and Overseas), with branches at Kampala and Jinja, and the Merchant's Bank at Kampala.

Trade and Customs.

Since 1917 Kenya and Uganda have been one administrative unit for purposes of Customs.

A uniform Tariff was adopted in 1923 for Kenya and Uganda, operating also in Tanganyika Territory. Under this tariff all export duties were abolished and the import schedules were remodelled to provide for the imposition of "specific" duties and of "*ad valorem*" duties varying from 10% to 62½% of the landed value of goods liable to duty on importation. In addition, free trade between Kenya, Uganda and the Tanganyika Territory in goods, the growth, produce or manufacture of each of the territories was established. The 1923 Tariff with minor alterations, remained in force until April, 1930, advantage of the existence of a tariff common to the three territories being taken to institute in August, 1927, a system of extending unrestricted trading to imported goods passing between the territories. Under this procedure, which is operated by means of transfer forms, single payment of duty only is chargeable, the Customs Revenue involved being credited to the consuming territory by inter-departmental entry.

In 1930 a uniform modernised Tariff scheduled according to commodities as opposed to rates was negotiated and enacted in the three territories simultaneously. Included in the provisions of the Tariff Ordinance is an amended definition of value for purposes of assessment of duty which brings the East Africa Tariff Laws into conformity with the practice followed in many other countries and allows of the acceptance of certificates of value endorsed on invoices in the stereotyped form approved by the Imperial Customs Conference, 1921.

The basis of assessment is now the current domestic value in the country of export plus freight and other charges incurred up to the time of importation of goods into Kenya, Uganda or the Tanganyika Territory as the case may be. As regards certain specially protected commodities (wheat, flour, sugar, timber, etc.), the device of "suspended duties" has been adopted in order to allow of a defined margin of elasticity in each territory in the matter of imposition on specified articles of "suspended duties" as distinct from basic duties, without interference with the main principle of a common Tariff. The 1930 Tariff Ordinances of the three territories produce that the Governor, with the approval of Legislative Council, may impose by Proclamation either in part or in full a duty referred to in the Tariff schedules as a "suspended duty," the effect being that each Government has the right to vary "suspended duties" up to the amount specified in the Tariff. At the same time an undertaking has been given by each Government that removals of any of the

Digitized by Google

"suspended duties" will only take place after prior consultation with the other Governments concerned.

In 1931 the Consumption Tax previously leviable on wines and spirits cleared for consumption in Kenya was incorporated in the common Tariff and certain increases in the rates of duty chargeable on vehicles and parts (including tyres and tubes) were imposed in the three territories.

The import tariff as it now stands admits free of duty goods essential to the agricultural, industrial, educational and scientific development of the territories and has been designed, as far as possible, to protect imports essential to the opening up and development of the country and to foster local production of agricultural and other commodities in which Kenya, Uganda and Tanganyika Territory, taken as an economic unit, are, or can be made, self-supporting.

The net amount of Customs receipts credited to Uganda from all sources was 667,075*l.* in 1937.

The following table gives the main items of trade goods imported during 1937 :—

Articles.	Value. £
Rice	35,893
Tobacco and cigarettes	48,953
Cement, building	27,553
Iron sheets, galvanised and corrugated	47,884
Electrical goods and apparatus	29,147
Machinery, agricultural and industrial and parts	175,293
Cotton piece goods and manufactures	608,745
Other textile and textile manufactures	226,167
Wearing apparel and haberdashery	102,666
Chemicals, drugs, dyes and colours	42,589
Fuel Oil	12,894
Lubricating Oils	26,696
Motor spirit	104,568
Kerosene	29,154
Motor-cars, parts and accessories	162,634
Motor lorries	127,838
Cycles and parts	189,681
Agricultural and Horticultural Tools	33,700

Separate statistics of the countries of origin of imports into Uganda are not available. The principal countries of origin of the imports into Kenya and Uganda combined were :—United Kingdom, 41·19 per cent.; British possessions, 16·51 per cent.; (Total British Empire, 57·70 per cent.); Germany, 5·46 per cent.; Belgo-Luxemburg Economic Union, 2·65 per cent.; France, 0·67 per cent.; Italy, 0·71 per cent.; Netherlands, 0·79 per cent.; Japan, 14·67 per cent.; Persia, 3·56 per cent.; United States of America, 9·02 per cent.; Dutch East Indies, 1·12 per cent.; other foreign countries, 3·65 per cent.

The principal articles of Uganda domestic produce exported during 1937, were :—

Articles.	Value. £
Coffee, raw	420,483
Sugar, refined	123,516
Tea	7,727
Cigarettes and Tobacco (manufactured and unmanufactured)	14,374
Tin ore	76,633
Cotton, raw	4,269,283
Sesame seed	14,017
Seeds, cotton	392,083
Hides and skins	115,037
Ivory, elephant	27,435
Gold bullion	124,713
Rubber, plantation	33,042
Sisal	18,564
Timber	6,247

Statistics of the chief countries of consignment for Uganda domestic produce are as follows :—United Kingdom, 15 per cent.; India, 52 per cent.; Union of South Africa, 2 per cent.; Canada, 1 per cent.; Tanganyika Mandated Territory, 2 per cent.; Belgo-Luxemburg Economic Union, 1 per cent.; France, 1 per cent.; Netherlands, 1 per cent.; Japan, 19 per cent.; United States of America, 1 per cent.; Mozambique, 1 per cent.; other countries, 4 per cent.

Year.	†Imports. £	Exports. £
1933	1,367,049	3,464,810
1934	1,665,941	3,773,766
1935	1,698,085	3,630,539
1936	2,211,592	4,466,453
1937	3,555,754	5,702,736

Finances.

The Revenue is principally derived from poll taxes, customs duties, cotton tax, trading licences, and land rents. The revenue from poll taxes in 1937 was 610,170*l.*, and from customs duties 667,075*l.* There has been no grant-in-aid from the British Government since 1914-15. The Uganda Loan, 1932 (£2,110,000), was floated in January, 1932. The unit of currency is the East African shilling.

	Revenue. £	Expenditure. £
1928	1,519,237	1,368,188
1929	1,682,918	1,607,175
1930	1,412,242	2,040,594
1931	1,399,913	1,451,564
1932	1,402,528	1,332,751
1933	1,350,070	1,275,583
1934	1,527,672	1,361,667
1935	1,566,638	1,462,467
1936	1,712,939	1,624,073
1937	1,959,533	1,740,888

Governors since 1907.

1907.	Sir H. H. Bell, K.C.M.G.
1911.	Sir F. J. Jackson, K.C.M.G., C.B.

3 *Laboratory Assistants*, J. Stewart, E. G. Gibbins, 500*l.* to 600*l.*; J. S. McDonald, 372*l.* to 600*l.* (Scale C).

Lady Superintendent of Nurses, Miss R. A. Bagot, M.B.E., 440*l.* to 500*l.* (Scale D), and 20*l.* uniform allowance.

2 *Senior Nursing Sisters*, Miss I. Baillie, Miss E. A. McGill, 300*l.* to 426*l.* and 20*l.* uniform allowance (Scale D).

32 *Nursing Sisters*, 240*l.* to 300*l.* and 20*l.* uniform allowance (Scale E).

Office Superintendent, J. S. Cashmore, 500*l.* to 600*l.* (Scale D).

Lady Stenographer and Confidential Secretary, M. L. Burns, 300*l.* to 426*l.* (Scale D).

Storekeeper and Pharmacist, J. Hetherington, 425*l.* to 600*l.* (Scale B).

2 *Hospital Superintendents*, E. S. Smout, F. G. Caldwell, 500*l.* to 600*l.* (Scale D).

3 *Assistant Superintendents and Dispensers*, L. C. Bell, A. S. Brown, E. Walker, 300*l.* to 500*l.* (Scale D).

X-ray Operator, J. L. Hewlett-Parker, 300*l.* to 500*l.* (Scale D).

Senior Sanitary Inspector, G. Gillanders, 540*l.* to 660*l.* (Scale D).

Instructor of Hygiene, H. Jordan, 540*l.* to 660*l.*

Assistant Instructor of Hygiene (vacant), 372*l.* to 540*l.*

14 *Sanitary Inspectors*, W. Johnston, R. C. D. Hooper, F. E. Weaver, W. M. Carnie, E. J. Hines, G. H. Postlethwaite, T. Hughes, F. Smith, G. Landmark, N. G. Lennon, I. W. Beaton, F. G. Ward, J. H. Taylor, J. D. Gillett (1 vacancy), 372*l.* to 540*l.* (Scale D) and 10*l.* uniform allowance.

Police.

Commissioner of Police, H. M. King, 1,200*l.*

Deputy Commissioner, Capt. E. G. Fish, 1,000*l.*

Superintendents, Assistant Superintendents and Cadets, F. Roberts, E. G. Smith, L. L. Ralph, G. W. Peskett, A. W. Parsons, B. Driscoll, H. F. Workman, W. D. MacLeman, D. Skinner, I. MacGregor, J. W. Deegan, Capt. P. S. LeGeyt, Capt. B. R. Durlacher, M.C., C. V. Curtis, J. H. Burbrook, W. J. Hubbard, J. D. B. Watson, H. C. Money, C. A. Mathias, J. V. Mullin, P. W. E. Ryland, A. E. Harwich, 360*l.* to 840*l.* (Scale B); A. S. K. Cook, J. W. Deegan, 350*l.* to 780*l.* (Scale B).

Inspectors, H. T. Fairfield, H. Blackwell, H. W. Creasey, L. H. George, S. L. Lloyd, L. Sharp (2 vacancies), 372*l.* to 500*l.* (Scale D).

Assistant Inspectors, S. M. Locke, E. J. Potter, V. E. Blad, S. M. Fortt, G. Woodgate, W. Scott, A. J. Brinton, J. R. Farley, I. D. Macabe, F. T. Reader (1 vacancy), 300*l.* to 372*l.* (Scale D).

Drill Instructor, E. J. G. Brown, 372*l.* to 500*l.* (Scale D).

Finger Print Expert, W. A. Jerome, D.C.M., 408*l.* to 500*l.* (Scale D).

Deputy Inspector of Weights and Measures, H. Brentnall, 372*l.* to 540*l.* (Scale D).

Lady Registry Superintendent, Mrs. L. W. Summerfield, 300*l.* to 426*l.*

Prisons.

Commissioner of Prisons, H. P. Robertson, 840*l.*

Superintendent, W. F. Hodgson, 500*l.* to 720*l.* (Scale B).

Assistant Superintendents, W. A. Brown (1 vacancy), 425*l.* to 600*l.* (Scale B).

Head Gaolers, P. Snelgrove, J. Gemmell, Capt. H. E. Fitzgerald, 372*l.* to 500*l.* (Scale D).

Posts and Telegraphs.
(See under "Kenya.")

Postmaster-General, G. B. Hebden, 1,600*l.*

Regional Director, B. Lewis, 1,000*l.*

Printing and Stationery Department.

Government Printer, Manager of "Official Gazette" and Comptroller of Stationery, G. H. Bell, 600*l.* to 840*l.* (Scale C).

Assistant Printer and Linotype Supervisor, S. Foote, 500*l.* to 600*l.* (Scale D).

Second Assistant Printer, J. H. Bowkett, 372*l.* to 500*l.* (Scale D).

Monotype Operator, K. G. Chard, 372*l.* to 500*l.* (Scale D).

Public Works Department.

Director of Public Works, A. C. Willmot, O.B.E., 1,350*l.*

Deputy Director of Public Works, W. H. Michell, 1,000*l.*

2 *Executive Engineers*, F. U. M. Greer, N. W. King, M.C., 840*l.* to 920*l.* (Scale C).

2 *Senior Assistant Engineers*, J. J. Donaghue (1 vacancy), 720*l.* to 840*l.* (Scale C).

6 *Assistant Engineers*, F. H. R. Came, M.B.E., H Collin, F. J. Murphy, J. B. White, J. F. Griffiths, J. K. Watson, 480*l.* to 720*l.* (Scale C).

Electrical Engineer, W. L. Whyte, 600*l.* to 840*l.*

Factories Inspector, M. J. Robertson, 600*l.* to 720*l.* (Scale C).

Assistant Factories Inspector, J. E. H. Calvert, 408*l.* to 500*l.* (Scale D).

Architect, C. T. Mitchell, 600*l.* to 840*l.* (Scale C).

Draughtsman and Quantity Surveyor, W. H. Watts, 480*l.* to 720*l.* (Scale C).

Chief Accountant, F. A. Dickinson, 720*l.* to 840*l.* (Scale B).

2 *Assistant Accountants*, S. Grey, B. T. Duckworth, 425*l.* to 720*l.* (Scale B).

Chief Storekeeper, E. E. Stow, 600*l.* to 720*l.* (Scale B).

3 *Assistant Storekeepers*, H. T. Leach, J. Carter, A. Slater, 372*l.* to 500*l.* (Scale D).

Senior Road Overseer, R. Blackie, D.C.M., 600*l.* to 720*l.* (Scale C).

2 *Senior Overseers*, A. W. Phillips, M.B.E., W. Whatley, 500*l.* to 600*l.* (Scale D).

Waterworks Superintendent, A. W. Legg, 500*l.* to 600*l.* (Scale D).

Waterworks Overseer, E. M. Bowick, 372*l.* to 500*l.* (Scale D).

(For Scales A, B, C, D and E see footnote page 507.)

7 *Overseers*, J. R. Bell, A. Boyers, I. McDonald, P. C. Mowbray, J. L. Wykes, W. O. Ford, E. H. Caunter, 372*l.* to 500*l.* (Scale D).

Electrical Mechanician, M. M. Conochie, 372*l.* to 500*l.* (Scale D).

3 *Mechanical Foremen, Water Supply*, H. J. Pearce, J. R. Burns, G. E. Barlow, 372*l.* to 500*l.* (Scale D).

2 *Mechanician Foremen*, H. P. Zimmerman, C. W. Wishart, 372*l.* to 500*l.* (Scale D).

Road Foremen, J. W. Pool, 354*l.* to 450*l.*, R. N. Gawler, G. B. Kettle, 354*l.* to 400*l.* (Scale D).

Sewerage Works Manager, J. Taylor, 500*l.* to 600*l.* (Scale D).

Transport Section.

Mechanical Transport Officer, W. Dixon, 720*l.*

Transport Officer, E. A. Evans, 500*l.* to 600*l.* (Scale B).

Clerk and Storekeeper, H. G. Lovell, 372*l.* to 500*l.* (Scale D).

Mechanics, J. T. Stewart, F. J. Hopgood, J. L. Roper, C. H. Burns, 372*l.* to 500*l.* (Scale D).

Kenya and Uganda Railways and Harbours.

(See under "Kenya.")

Coast Agent, Mombasa, L. Shoolman, 600*l.* to 720*l.* (Scale B).

Assistant Coast Agent, F. G. Lapham, 500*l.* to 660*l.*

Township Authorities.

Superintendent of Conservancy and Executive Officer, Kampala Township Authority, J. V. W. Hodson, 600*l.* to 720*l.* (Scale B).

Superintendent of Conservancy and Executive Officer, Jinja Township Authority (vacant), 480*l.* to 600*l.* (Scale D).

Executive Officer, Entebbe Township Authority, and Conservancy Officer, W. L. Davenport, 408*l.* to 540*l.* (Scale D).

Conservancy Officer and Sanitary Inspector, C. W. G. Tiffin, 372*l.* to 540*l.* (Scale D).

3 *Conservancy Officers*, W. S. Swann, D. F. Crombie, F. W. B. Rolfe, 300*l.* to 500*l.* (Scale D).

Superintendent of Inland Revenue, Kampala, A. G. Johnson, M.M., 500*l.* to 600*l.* (Scale D).

Veterinary Department.

Director of Veterinary Services, W. F. Poulton, C.B.E., 1,100*l.*

Senior Veterinary Research Officer, J. Carmichael, 920*l.*

Veterinary Research Officer, 600*l.* to 840*l.* (vacant).

Senior Veterinary Officers, Capt. W. S. Aitken, R. J. Simmons, 600*l.* to 920*l.*

9 *Veterinary Officers*, W. L. S. Mackintosh, W. A. Allan, H. G. Stewart, R. B. H. Murray, C. P. Downes, H. Cronly, R. N. T. N. Fiennes, A. W. Gledhill, 600*l.* to 840*l.* (Scale C); D. Luke, J. E. R. Roe, 500*l.* to 840*l.*

Senior Assistant Live Stock Officer, J. T. Kennedy, 600*l.* to 720*l.* (Scale C).

2 *Assistant Live Stock Officers*, J. J. Victor, H. E. C. Lewys-Lloyd, 425*l.* to 600*l.*

2 *Laboratory Assistants*, E. R. Jones, S. G. Laws, 372*l.* to 600*l.* (Scale D).

Clerk, F. A. Cottage, 300*l.* to 500*l.* (Scale D).

WESTERN PACIFIC.

High Commission.

The office of High Commissioner in, over, and for the Western Pacific Islands, was created by an Order in Council, cited as the Western Pacific Order in Council of 1877.

The jurisdiction of the High Commissioner extends over all islands in the Western Pacific not being within the limits of the territories administered by His Majesty's Governments in the Commonwealth of Australia and in New Zealand or the Colony of Fiji, and not being within the jurisdiction of any other civilised Power. In 1893 a new Order in Council was issued, known as the Pacific Order in Council, 1893, in accordance with which the High Commissioner's jurisdiction is extended to foreigners and (in most cases) to natives residing in British settlements or protectorates within the limits of the Order. Under the provisions of the New Hebrides Order in Council, 1922, the jurisdiction of the High Commissioner extends also to the islands in the Pacific Ocean known as the New Hebrides, and all the islands known as the Banks Islands and Torres Islands. The expenses of the High Commission at Suva, Fiji, are met from the funds of the Gilbert and Ellice Islands Colony and the British Solomon Islands Protectorate, but a contribution is paid from Imperial funds in respect of work in connection with Tonga and the New Hebrides.

The Chief Justice of Fiji, and every other Judge for the time being of the Supreme Court of Fiji, is by virtue of his office a Judicial Commissioner.

Deputy Commissioners are appointed by the High Commissioner on behalf of His Majesty.

The High Commissioner's Court consists of the High Commissioner, the Judicial Commissioners, and the Deputy Commissioners, and in it is vested all His Majesty's civil and criminal jurisdiction exercisable in the Western Pacific Islands.

The Court of a Judicial Commissioner has powers similar to those of the Superior Courts of England, and the Deputy Commissioners have civil jurisdiction in Common Law, Equity and Bankruptcy, with a limited jurisdiction in Probate, and have a criminal jurisdiction in respect of offences not punishable with seven years' penal servitude or upwards.

With some few exceptions all decisions of the High Commissioner's Court may be appealed against to the Supreme Court of Fiji.

In addition to the other means of preserving order the High Commissioner has certain special powers for the deportation of persons whose proceedings endanger the peace of the Islands.

The principal groups under the High Commissioner are:—

The Gilbert and Ellice Islands Colony.
The British Solomon Islands Protectorate.
Tonga.
The New Hebrides.
The Phœnix Group.
Pitcairn Island.

Particulars of these are given below.

(For Scales A, B, C, D and E see footnote page 507).

* Scale personal to present holder.

High Commissioners.

1877 Sir Arthur Gordon, G.C.M.G.
1887 Sir C. B. H. Mitchell, K.C.M.G.
1888 Feb., Sir J. B. Thurston, K.C.M.G.
1897 Sir G. T. M. O'Brien, K.C.M.G.
1902 Sir H. M. Jackson, K.C.M.G.
1904 Sir E. im Thurn, K.C.M.G., K.B.E., C.B.
1911 Sir Henry May, K.C.M.G.
1912 Sir Ernest Bickham Sweet-Escott, K.C.M.G.
1918 Sir C. H. Rodwell, K.C.M.G.
1925 Sir Eyre Hutson, K.C.M.G.
1929 Sir A. G. Murchison Fletcher, K.C.M.G., C.B.E.
1936 Sir Arthur Frederick Richards, K.C.M.G.
1938 Sir Harry Charles Luke, K.C.M.G.

Establishment.

High Commissioner, Sir Harry C. Luke, K.C.M.G., 1,100*l.*, and duty allowance 300*l.* (in addition to 2,500*l.* as Governor of Fiji, a duty allowance of 750*l.* and allowance of 150*l.* as Consul-General for Western Pacific).
Chief Judicial Commissioner, O. C. K. Corrie, M.C., (also Chief Justice of Fiji).
Secretary to the High Commission, H. H. Vaskess, O.B.E., 700*l.* to 800*l.* by 25*l.*, and house allowance, 75*l.*
Assistant Secretary, R. H. Garvey, 450*l.* to 600*l.* by 25*l.*
Acting Assistant Secretary, A. C. F. Armstrong, 600*l.*, and house allowance 75*l.*
Chief Clerk and Accountant, L. E. Ambler, 450*l.* to 600*l.* by 25*l.*
Third Class Clerks, T. A. Greene, C. E. Yonge, 150*l.* to 270*l.* by 15*l.*
Clerks and Typists, Miss D. Hill, Miss E. L. Hopewell, 150*l.* to 270*l.* by 15*l.*
Auditor, L. H. Pope, 150*l.* (in addition to 900*l.* as Auditor, Fiji).
Central Medical Authority, V. W. T. McGusty, O.B.E., 100*l.* (in addition to 1,000*l.* to 1,100*l.* as Director of Medical Services, Fiji).

THE GILBERT AND ELLICE ISLANDS COLONY.

The Colony, which includes Ocean, Christmas, Fanning, and Washington Islands, besides the Gilbert, Ellice and Phoenix Groups, is under the charge of a Resident Commissioner, who is responsible to the High Commissioner for the Western Pacific who resides in Fiji.

The Gilbert Group is comprised of the following sixteen islands:—Makin, Butaritari, Marakei and Abaiang (Northern Gilberts); Tarawa, Maiana, Abemama, Kuria, Aranuka (Central Gilberts), Nonouti, Tabiteuea, Beru, Nikunau, Onotoa, Tamana, Arorae (Southern Gilberts).

The Ellice Islands are the following nine:—Nanumea, Nanumaga, Niutao, Nui, Vaitupu, Nukufetau, Funafuti, Nukulaelae and Nurakita.

The Phoenix Islands were annexed to the Colony in March, 1937. They consist of Birnie, Canton, Enderbury, Gardner, Hull, McKean, Phoenix and Sydney Islands.

The three groups above form a rough triangle, the approximate geographical positions of whose vertices are:—North (Gilbert Is.) 30°N., 173°E.; East (Phoenix Is.) 4°S., 171°W.; South (Ellice Is.) 11°S., 179°E.

The population of the Colony as determined at the 1931 Census was:—Ocean Island, 2,309; Gilbert Islands, 26,528; Ellice Islands, 4,074; Fanning, Washington and Christmas Islands, 505. The total of 33,416 comprised 275 Europeans, 32,467 natives, 235 half-castes and 439 Asiatics. An annual count is made of the population, but the figures obtained are not sufficiently accurate to be of value for comparative purposes.

With few exceptions the hereditary chieftainships have ceased to exist, but each island has its own native government, presided over by a native magistrate.

A revised code of native laws is validated by an Ordinance of the Colony, and law and order is well maintained under the general supervision of European officials.

The natives are of Malayo-Polynesian race. The majority are adherents either of the London Missionary Society or the Roman Catholic Mission of the Sacred Heart. There is no similarity between the languages of the Gilbert and Ellice Groups.

Ocean Island (or Banaba), in lat. 0° 52′ S., long 169° 35′ E., about 1,500 acres in extent, is the Headquarters of the Government and the site of operations of the British Phosphate Commission. Reaching a height of 280 ft. and covered with vegetation, it is the only island of the Colony not of atoll formation. The population of Ocean Island on the 31st December, 1937, was 2,878. This total included 134 Europeans, 793 Chinese, 852 Banabans, and 1,951 Gilbert and Ellice Islanders (the majority of the latter being employed in the phosphate industry).

Fanning and Washington Islands lie about 30° 51′ N. latitude, and 159° 21′ W. longitude. There is no indigenous population but labour is recruited from the Gilbert Islands for the copra industry. An Acting Administrative Officer is in charge of these islands under the Resident Commissioner. On Fanning Island is the mid-ocean Station of the Pacific Cable Board, whose employees and their wives comprise practically the entire European population of 28. There is no regular communication between these islands and the rest of the Colony; periodical visits are made for engaging and repatriating labour by a small auxiliary vessel chartered by Fanning Island Plantations Ltd. The population of Fanning Island at the 31st December, 1937, was 195, that at Washington Island at the same time being 122.

Christmas Island (about 1° 59′ N. latitude, 157° 30′ W. longitude) lies 164 miles South-East by East of Fanning Island. The area is about 60,000 acres, of which 1,200 are under coconuts. Under the terms of a License dated the 27th October, 1914, the Central Pacific Coconut Plantations Limited of London were granted the exclusive right to occupy the island for their own use for the planting of coconuts, the manufacture of copra, the export of coconut oil, pearl shell, and guano during the term of 87 years from the 1st January, 1914. All vessels employed or chartered by the Company trading between the Society Islands and Christmas Island have been exempted from the Quarantine Ordinance, and may visit Christmas Island without a preliminary call at a prescribed port of entry in the Colony. Periodical visits are made by H.M.'s ships. The population on the 31st December, 1937, numbered 47.

PHŒNIX GROUP.

The Phœnix group comprises Phœnix, Birnie, Hull, Canton, Gardner, McKean, Enderbury and Sydney Islands, and is situated to the east of the Gilbert and Ellice groups. The Islands are of coral formation, and several of them are planted with coconuts. All except McKean and Enderbury Islands are leased to Messrs. Burns, Philp (South Sea) Company, Limited, for 87 years, from 1st January, 1914. By an Order in Council dated 18th March, 1937, the boundaries of the Gilbert and Ellice Islands Colony were extended to include the Phœnix Group.

The climate of all the groups is fairly healthy for Europeans, but the natives suffer from lung diseases, especially pulmonary tuberculosis. A considerable amount of medical work is undertaken and a large central hospital is maintained at Tarawa in the Gilbert Group. All the inhabited islands have native hospitals under the charge of native students trained at the Tarawa Hospital.

Communication between the various islands was formerly infrequent, depending on the irregular movements of vessels belonging to or chartered by Messrs. Burns, Philp and Company, Limited, on Chong and Company Limited, and the British Phosphate Commissioners, but the acquisition by the Administration of the auxiliary sailing vessel "Nimanoa" has considerably increased the facilities for regular communication.

The principal sources of revenue are import duties (general *ad valorem* rate 25 per cent., British preferential *ad valorem* rate 12½ per cent.); export duty on copra; land tax (paid in copra) on native communities; capitation tax 10*l.* a head p.a. on non-natives; ship, trading and other licences; royalty on phosphate shipped from Ocean Island; interest on invested funds and consolidated payment by the British Phosphate Commissioners. By virtue of the latter the Commissioners are exempted from certain taxation and duties.

The Revenue and Expenditure of the Colony have been as follows:—

Year ended 30th June.	Revenue.	Expenditure.
	£	£
1933–34	45,359	53,299
1934–35	52,923	53,983
1935–36	58,697	60,744
1936–37	77,630	79,835
1937–38	81,675*	81,675*

(*Estimated.)

The imports and exports have been as follows:—

Year.	Imports.	Exports.
	£	£
1932–33	117,920	398,068
1933–34	94,429	259,843
1934–35	117,060	340,068
1935–36	128,848	366,887
1936–37	119,201	449,940

Customs revenue during 1936–37 was 19,247*l.* from import and export duties.

Resident Commissioners, 1892, C. R. Swayne; 1901, W. Telfer Campbell; 1910, Captain J. Quayle Dickson; 1913, E. C. Eliot, C.B.E. (1931); 1921, H. R. McClure; 1926, A. F. Grimble, C.M.G. (1930), M.A.; 1933, J. C. Barley, B.A.

Civil Establishment.

Resident Commissioner, J. C. Barley, 800*l.* to 1,000*l.* by 50*l.*; 400*l.* duty allowance and quarters.

Secretariat.

Secretary to Government, E. L. Leembruggen, 400*l.* to 500*l.* by 25*l.* and quarters (seconded to District Administration).

Cadets, E. R. Bevington, G. B. Gallagher, D. C. L. Wernham.

Native Clerks and Interpreters, Ocean Island, Bauro and Penitala, 60*l.* to 120*l.* by 5*l.*, and ration allowances.

Clerk-in-Training, Tekiera, 24*l.* to 36*l.* and ration allowance.

District Administration.

Senior Administrative Officer, C. A. Swinbourne, O.B.E., 600*l.* to 700*l.* by 25*l.* and quarters.

Administrative Officers, A. C. F. Armstrong, D. G. Kennedy and P. D. Macdonald, (one post vacant), 500*l.* to 600*l.* by 25*l.* and quarters.

Native Assistant to Administrative Officers (vacant).

Clerk and Storekeeper and Postal Assistant, Tarawa, F. Highland, 75*l.* to 100*l.* by 5*l.* and ration allowance.

Three Clerks and Interpreters, Pasefika, Tiriata and Isokiri, 40*l.* to 60*l.* and ration allowances.

Three Clerks in Training, Kilifi, Ikamawa and Noa, 24*l.* to 36*l.* by 6*l.* and ration allowances,

Treasury, Customs and Postal Departments.

Treasurer, Collector of Customs, and Chief Postmaster, S. G. Clarke, F.C.I.(Eng.), 550*l.* to 650*l.* by 25*l.* and quarters.

Accountant, H. A. B. Bentley, 400*l.* to 500*l.* and quarters; receives also an allowance of 48*l.* as Customs and Boarding Officer.

Clerk and Customs Officer, P. T. English, 300*l.* to 400*l.* by 25*l.* and quarters.

Clerk, W. H. Ramsay, 300*l.* and quarters.

Postmaster, Ocean Island (post vacant), 100*l.* to 150*l.* with rations and quarters.

Clerk and Interpreter, Tekaiwa, 40*l.* to 60*l.* by 5*l.* and ration allowance.

Police and Prisons Department.

Officer in Charge of Constabulary and Superintendent of the Gaol, Ocean Island, J. I. Blaikie, 400*l.* to 500*l.* by 25*l.* and quarters. Receives also 18*l.* as boot and uniform allowance.

Chinese Interpreter, Yam Sik Cheong, 200*l.* and quarters.

Medical Department.

Senior Medical Officer, F. E. Montague, M.R.C.S., L.R.C.P., 650*l.* to 750*l.* by 25*l.*, and non-pensionable allowance of 100*l.* and quarters.

Medical Officer, K. R. Steenson, M.B., Ch.B., 700*l.* to 800*l.* by 25*l.* and quarters.

Senior Native Medical Practitioner and Dispenser Malakai Veisamasama, 150*l.* to 200*l.* by 10*l.*, with quarters and ration allowance.

Seven Second Class Native Medical Practitioners, Tutu, Bakoa, Tatoa, Tekai, Teanoki, Lasi and Iete, 65*l.* to 85*l.* and ration allowance.

Third Class Native Medical Practitioners, Seanoa and Tabonteren, 60*l.* and ration allowance.

Education Department.

Superintendent of Education, F. G. L. Holland, M.B.E., 500*l.* to 600*l.* by 25*l.* and quarters.

Headmaster, Ellice School (post vacant), 450*l.* to 550*l.* by 25*l.* and quarters.

Headmaster, King George V. School, Bairiki, Tarawa, (vacant), 400*l.* to 500*l.* by 25*l.* and quarters.

Head Master, Ocean Island, G. E. Hard, 400*l.* and quarters.

Public Works Department.

Superintendent of Works, A. St. C. Compton, 500*l.* and quarters.

Foreman of Works, D. Robertson, 360*l.* and quarters.

Commissioner (*Ellice Islands*), D. G. Kennedy consolidated travelling allowance), receives y as Administrative Officer.

HE BRITISH SOLOMON ISLANDS PROTECTORATE.

British Solomon Islands Protectorate is d between the parallels of 5° South and 12° 30′ and the meridians of 155° and 170° of East ide.

Protectorate consists of a double row of ainous islands, extending at its extremities Bougainville Straits to Mitre Island, in the Cruz Group, for a distance of 900 miles, and and south from the Ontong Java Group to ll Island for a distance of 430 miles, in an area ximately 249,000 square nautical miles, of about 11,000 square miles are land.
e native population (mainly Melanesian) is 5.

e Solomon Islands were first discovered in the 1568 by Alvaro de Mendana, while on a voyage scovery from Peru. The island first sighted they ed Ysabel because it was on that Saint's day they left Callao. In the year 1595 a second dition under Mendana sailed from Peru, but d to locate the island of Guadalcanal, whereon as intended he should form a settlement, and he ved in the Santa Cruz Group, and landed at ciosa Bay. The new colony proved a failure, the th of Mendana put an end to any prospect of ess, and the remnants of the original party rned to Peru.
n 1767 Captain Carteret re-discovered the Santa z Group and the north-west coast line of the island Malaita.
n the same year de Bougainville in the frigate *Boudeuse*, sailed from Monte Video on a deliberate st of the Terra Australis which he missed, and ived at New Guinea; in sailing back he passed ough the Straits which are the present north- stern boundary of the Protectorate, the island on right being named Bougainville after him, and one on the left named after Choiseul, who was the time Minister of France.
Twenty years later, and 700 miles to the south-east, la Perouse, in command of the French frigates *L'Astrolabe* and *La Bousole*, on a voyage of discovery, was wrecked at P'ou on the island of Vanikoro. His fate was unknown for 40 years.

From this time, many Europeans visited the Group, and British ships-of-war paid periodical visits.

In 1860 natives were recruited to work on plantations in Queensland and Fiji. The recruiting for Queensland ceased in 1903 and most of the natives were repatriated.

Recruiting for Fiji continued until 1910.

Between the years 1860 and 1893 the number of resident white traders gradually increased, until at the time of the Proclamation in 1893 of the British Protectorate over the Southern Solomon Islands (Guadalcanal, Savo, Malaita, San Cristoval, the New Georgia Group and its Dependencies) the number of white residents approached 50.

In 1898 and 1899 the islands of the Santa Cruz Group, including Utupua, Tucopia, Vanikoro, the remote islands of Cherry and Mitre, Sikaiana, and the islands of Rennell and Bellona, were added to the Protectorate, and in 1900 the Northern Islands, namely, Ysabel, Choiseul, the islands of the Bougainville Straits, south and south-east of the main island of Bougainville, and the atoll group of Ontong Java, were transferred under convention from Germany to Great Britain.

The population of the Protectorate in 1937 was:—

Europeans	478
Native (Melanesian)	89,568
Native (Polynesian)	3,847
Chinese	192
Japanese	8
Malays	1
Total ..	94,094

The climate of the Solomon Islands, owing to the prevalence of malaria, is not healthy, but the conditions of living have been greatly improved during recent years and the possibilities of good health during temporary residence have been enormously increased.

Generally speaking, the seasons are well defined by the trade winds. The south-east season lasts from April until November when the lowest minimum temperature is recorded, and the highest mean and maximum temperatures are, as a rule, recorded in the months from November to April which is commonly known as the north-west season.

The rainfall varies considerably from month to month and year to year, though the average rainfall, recorded at Tulagi, is approximately 120 inches a year.

The British Solomon Islands Protectorate is administered by a Resident Commissioner (stationed in Tulagi) acting under the authority and control of the High Commissioner for the Western Pacific (who resides in Suva, Fiji).

There is no Legislative Council. Laws are made by the High Commissioner—in the form of King's Regulations—under powers conferred by the Pacific Order in Council, 1893.

There is an Advisory Council, consisting of the Resident Commissioner and not more than seven members, three of whom may be officials.

The Protectorate is divided up into eight administrative areas, each under a District Officer. There is regular steam communication with Sydney, New South Wales.

The Customs Tariff consists of duties at specific or *ad valorem* rates on certain imports and exports and includes provisions for Empire preferences.

Resident Commissioners of the British Solomon Islands Protectorate since 1896.

1896 C. M. Woodford, C.M.G.
1918 C. R. M. Workman.
1921 Captain R. R. Kane, M.C.
1929 F. N. Ashley.

Advisory Council.

The Resident Commissioner is assisted by an Advisory Council, inaugurated in 1921, by virtue of King's Regulation No. 2 of 1936.

The Council consists of the following Members:—

Official Members.

The Resident Commissioner.
Chief Magistrate and Legal Adviser (vacant).
Secretary to the Government (vacant).
Treasurer and Collector of Customs, F. E. Johnson, I.S.O.
Commissioner of Lands and Superintendent of Works, S. G. C. Knibbs (acting).

Nominated Members.

D. Mackinnon.
J. C. M. Scott.
Bishop of Melanesia.
C. E. Hart.

Civil Establishment.

Resident Commissioner, F. N. Ashley, C.M.G., 1,200*l.* to 1,400*l.* and duty allowance, 100*l.*

Secretariat.

Secretary to the Government (vacant), 500*l.* to 600*l.*
Clerk, Resident Commissioner's office, P. Colley, 340*l.* to 400*l.*
Central Typist, M. J. Bernhardt, 270*l.* to 340*l.*

District Administration.

Chief Magistrate and Legal Adviser, R. Hyne, 600*l.* to 750*l.*
First District Officer (vacant), 600*l.* to 700*l.*
District Officers, C. E. J. Wilson, W. H. Miller, L. W. S. Wright, G. E. D. Sandars, R. J. Keegan, C. N. F. Bengough, 500*l.* to 600*l.*
Assistant District Officer, J. K. Brownlees, 400*l.* to 500*l.*
Cadets, D. C. Horton, T. P. Kneen, A. N. A. Waddell, D. C. C. Trench, W. F. M. Clemens.

Treasury, Customs and Postal Department.

Treasurer and Collector of Customs, F. E. Johnson, I.S.O., 550*l.* to 650*l.*, receives also a personal allowance of 100*l.*
Accountant, W. V. J. Blake, 400*l.* to 500*l.*
First Clerk and Boarding Officer, A. W. Dickes, 400*l.* to 450*l.*
Second Clerk and Boarding Officer, J. B. Hicks, 340*l.* to 400*l.*
Clerk, S. G. Masterman, 340*l.* to 400*l.*
Third Clerk and Boarding Officer, G. H. C. Train, 270*l.* to 340*l.*
Storekeeper, V. J. Shearwin, 340*l.* to 400*l.*
Postmaster, F. Stock, 340*l.* to 400*l.*

Medical Department.

Senior Medical Officer, H. B. Hetherington, M.D., Toronto, C.P. & S., Ontario, 700*l.* to 900*l.* and fees.
Travelling Medical Officer, N. Crichlow, M.B., Ch.B. (Glasgow), 550*l.* to 650*l.*; (200*l.* consolidated travelling and subsistence allowance).
Sister-in-Charge Government Hospital, Tulagi, Miss M. Cleaver, 200*l.* and victualling allowance, and 12*l.* uniform allowance.
Nurse, Tulagi Hospital, Miss L. D. Collins, 160*l.* and victualling allowance and 12*l.* uniform allowance.
Yaws and Hookworm Officer (temporary appointment), C. H. G. White, 450*l.*
Dispenser and Clerk, C. H. G. White, 300*l.* to 350*l.*, F. T. Stackpool (temporary), 300*l.* to 350*l.*
Native Medical Practitioners, G. Bogese, Guso Rato Piko, H. Wheatley, H. Kuper, 100*l.* by 5*l.* to 150*l.*, E. Leauli, 100*l.* by 5*l.* to 144*l.*

Police and Prisons Department.

Officer Commanding Armed Constabulary and Superintendent of Prisons, E. N. Turner, 450*l.* to 600*l.*

Sub-Inspector of Constabulary and Gaoler, J. Beveridge, 340*l.* to 400*l.*

Lands Department.

Commissioner of Lands and Crown Surveyor, S. G. C. Knibbs, 600*l.* to 700*l.* and 25*l.* personal allowance.

Surveyor, A. H. Wilson, 500*l.* to 550*l.*

Clerk, Lands and Works Department, C. E. Spencer, 270*l.* by 20*l.* to 340*l.*

Public Works Department.

Superintendent of Works (vacant), S. G. C. Knibbs (acting), allowance 60*l.*

Foreman of Works, J. S. Mutch, 300*l.* to 375*l.*

Native Labour Department.

Inspector of Labour, S. G. Masterman, 340*l.* to 400*l.*

Agricultural Committee.

Entomologist (vacant), 500*l.* to 600*l.*

Wireless Department.

Engineer Operator in Charge, Wireless Station, Tulagi, A. E. Osborne, 350*l.* to 450*l.*, and personal allowance 40*l.*

Wireless Operator, R. S. Taylor, 300*l.* to 400*l.*

The above all receive free quarters and 50*l.* local allowance. Local allowance, however, is not payable to Native Medical Practitioners.

TONGA.

The Tongan, or Friendly Islands, with an area of about 250 square miles, are situated between the 18th and 22nd degrees of south latitude. They were discovered by Tasman in 1643. Most of the islands are of coral formation, but some are volcanic, notably Tofua, Kao, and Niuafoou (Good Hope Island). The natives belong to the Polynesian race, and are closely allied to the natives of New Zealand and Samoa. The islands are very rich in cocoanuts; and copra forms the principal export. There is monthly communication by steamer with Auckland. During the dry season, i.e., from April to December, steamers call at regular intervals for copra freights.

Census of Population, April, 1937:—

Europeans	443
Half-castes	306
Other Pacific Islanders	296
Others	63
Tongans	31,753
Total	32,861

In 1845 George Tubou I, who was the first to establish an effective government over the whole of Tonga, was proclaimed King. The present Ruler is assisted by a Parliament and a Privy Council. The Privy Council is composed of two European and six Native Ministers of the Crown who are also heads of the various government departments. The civil service is composed mostly of Tongans, the European officials numbering about 24. The general tariff is 33⅓% *ad valorem* and British preferential 12½% *ad valorem*.

Year.	Imports.	Exports.
	£	£
1933	86,007	114,447
1934	48,526	77,842
1935	68,782	90,711
1936	92,296	116,539
1937	137,365	164,621

The imports, apart from oils and drapery, are of Empire origin. The following figures show the percentage of imports from foreign countries:—

Year.	Per Cent.
1933	23·37
1934	14
1935	31
1936	23·74
1937	25·97

Of the rest of the imports during 1937 the United Kingdom supplied 15·51 per cent., New Zealand 22 per cent., Australia 26·77 per cent. and other British possessions 9·75 per cent.

The climate may be considered a healthy one. The thermometer ranges between 53 and 93 degrees Fahrenheit.

There are seven churches in Tonga, viz., the Wesleyan Free Church of Tonga, with about 18,053 adherents; the Free Church of Tonga, and the Church of Tonga, with about 9,029; the Roman Catholic Mission, with about 4,230; the Church of England, 479; the Church of Latter Day Saints, 641; and the Seventh Day Adventist Mission, with about 256 adherents.

The Wesleyan Mission was first founded in Tonga in the year 1826, and a few years later the chiefs and people embraced Christianity and became members of the Church. The control and management of the Mission in Tonga were entrusted about the year 1857 to the Australasian Conference and continued until the year 1885, when King George Tubou I, after trying unsuccessfully to obtain local autonomy for the Church in Tonga, seceded, with a large majority of his chiefs and people and, with the assistance of the Rev. Shirley Baker, established the Wesleyan Free Church of Tonga as a separate and independent body though retaining the same doctrines, discipline, and form of worship as the Wesleyan Church. In January, 1887, an attempt was made by some escaped native convicts on the life of Mr. Shirley Baker, the Premier. The attempt was made the pretext for increased persecution of the "Fakaogos," or members of the Wesleyan Mission Church. About 100, whom no ill-usage could induce to abandon the Mission Church, were ordered to be deported to Pylstart Island, a barren islet south of Tonga, but they were finally allowed to go to Fiji. Shortly after an inquiry was made into the causes of the disturbances by Sir Charles Mitchell. At this inquiry the allegation that the attempt on Mr. Baker's life was due to a "Fakaogo" conspiracy was abandoned, and a letter written by Mr. Baker, purporting to be signed by the king, was addressed to Sir Charles Mitchell, promising an amnesty to political prisoners and freedom of worship. The services in the Mission Church at once recommenced.

Digitized by Google

In 1890 complaints were made that freedom of worship was still being interfered with; that persons were deprived of their lands and unjustly imprisoned on account of their adherence to the Wesleyan Church; and Tongan officials denied that the king had written to Sir Charles Mitchell promising to accord freedom of worship. Sir John Thurston therefore made a further inquiry, and finding that Mr. Baker was the principal cause of the wrongs endured by the Wesleyans, he issued an Order prohibiting Mr. Baker from being within the group for a term of two years from the 17th July, 1890. A few days before the issue of the Order, the king, on the request of the leading chiefs, had dismissed the Premier from office, and a fresh Government was formed with a native Premier (Tukuaho). Under the new Government the fullest freedom of worship was allowed, and the exiles were recalled from Fiji, the king having requested Sir John Thurston to make arrangements for their return.

In the year 1923 much dissatisfaction existed in the Wesleyan Free Church, and an enquiry that was held into the state of the finances disclosed a very lax state of affairs. As a result of this enquiry it was decided to approach the Wesleyan Church with a view to the union of the two bodies as a separate and independent Conference of the Wesleyan Methodist Church. At a joint conference of the two churches held in April, 1924, union was decided upon. A minority, under the leadership of the late Rev. J. A. Watkin, declined to join the united body and carried on under the title of the Free Church of Tonga. Protracted litigation ensued as a result of this division in respect of the ownership of the churches and property of the Wesleyan Free Church of Tonga established by King George I in 1885. It was finally decided on appeal in favour of the united Church, of which the present Queen is the head.

King George Tubou died on 18th February, 1893, and was succeeded by his great-grandson, George Taufaahau, under the title of George Tubou II. On the death of the latter on the 5th April, 1918, Princess Salote, his daughter by his first wife the late Queen Lavinia, succeeded to the throne. The young Queen, who was born on the 13th March, 1900, was married in 1917 to Prince Uiliami Tugi, the present Premier, and chief of highest rank in Tonga.

Early in 1900 Mr. Basil Thomson was sent out to Tonga by Her Majesty's Government, and concluded a Treaty with the king by which the latter placed himself and his territory under Her Majesty's protection. A protectorate was proclaimed on 18th May, 1900.

The present premier, Uiliame Tugi, is the Prince Consort, and was formerly Minister for Lands. The progress of Tonga since 1905 has been satisfactory.

Every Tongan is entitled to an allotment of land for cultivation, so that no unemployment exists. Primary education for Tongans between the ages of 6 and 14 is compulsory. There are two boys' colleges at which provision is made for secondary education. Secondary education of girls is entirely in the hands of the Christian missions. Medical work is well organised; and, unlike most native communities in the Pacific, the native population steadily increases in number.

British and foreign nationals charged with any offence against the laws of Tonga, not including crimes punishable by death or by imprisonment exceeding two years, are subject to the jurisdiction of the Tonga Courts. In other respects they are subject to the jurisdiction of the Court of the High Commissioner. Licences are charged for carrying on stores and trades.

Currency and Banking.

The legal tender currency is British and Australian sterling.

Arrangements were made in 1919 for the issue of Tongan Government Treasury notes. At the end of 1937, 4*s*., 10*s*., 1*l*., and 5*l*. notes were in circulation to the value of 25,073*l*. The issue is secured by an investment reserve. The Treasury Notes Act, 1935, adopts the exchange standard system based on Australian currency.

There are no private banks in the Kingdom. A Government Savings Bank was established in 1926. At the end of 1937 there were 1,634 depositors and 20,242*l*. in deposits.

Statistics.

Year.	Revenue.	Expenditure.
	£	£
1931-32	57,224	63,986
1932-33	64,072	60,347

1934-35	61,654	55,515
1935-36	66,660	49,904
1936-37	73,471	55,938

There is no debt and the amount of accumulated balances or surplus amounted on 30th June, 1937, to 168,008*l*.

The shipping entered and cleared during the year 1937 amounted to 136,715 tons, of which 105,781 tons was British.

Agent and Consul, Tonga, A. L. Armstrong, 800*l*. to 1,000*l*. and quarters; duty allowance 200*l*., and office allowance of 50*l*. as Consul.

Tongan Ministers.

Premier, Uiliame Tugi, C.B.E.
Chief Justice, W. H. Stuart.
Speaker of the Legislative Assembly and Minister of the Crown, J. Finau Ulakalala.
Minister of Police, Jiobe Kaho.
Minister for Finance, W. G. Bagnall.
Minister for Lands, Solomone Ata.
Governor of Vavau, Satoki Faletau.
Governor of Haapai, J. Tuihaateiho.

The foregoing Ministers constitute the Privy Council, meetings of which are presided over by the Queen.

The Cabinet Council is composed of the same Ministers, with the exception of the Minister of the Crown.

THE NEW HEBRIDES.

The New Hebrides, to which are attached the Banks and Torres Islands, lie between the 12th and 20th degrees of south latitude, and the 165th and 170th degrees of east longitude. The area is about 5,700 sq. miles. The non-native population is about 2,000 and the native is estimated at 40,000.

The natives are Melanesians, but in many places there is an admixture of Polynesian blood. The Europeans are mostly British or French.

Missions have been established by the Melanesian Missionary Society, Seventh Day Adventists and Church of Christ, by the Presbyterian churches of Canada and Australia and by the Roman Catholic Church.

The principal exports are copra, cocoa, coffee, cocos; maize, hides and various miscellaneous products are also exported. The climate of most of the islands is rather unhealthy and malarial fever is prevalent. At first, a joint commission, of British and French naval officers, was appointed to protect the lives and property of British and French subjects, and to maintain order. British and French Residents were appointed in 1902. In February, 1906, a conference of British and French officials took place in London, and a draft convention was prepared to provide for the settlement of land claims, and for an arrangement which would put an end to the difficulties arising from the absence of jurisdiction over the natives. A convention confirming the above-mentioned draft was signed in London on October 20th, 1906, and was provisionally proclaimed at Vila, the chief town of the New Hebrides, on December 2nd, 1907. Its provisions include the establishment of a joint court, and of an executive government consisting, for some purposes, of the British and French representatives in the group acting in concert. For other purposes British and French nationals remain subject to the control only of their own authorities.

A Protocol drawn up in London in 1914, to replace the Convention of 1906, was ratified on March 18th, 1922. It was proclaimed in the New Hebrides in August, 1923.

British and French Resident Commissioners, subordinate to their respective High Commissioners, each with a staff of officers, have been appointed. In addition there is a Condominium Staff working in Departments under the joint control of the two Resident Commissioners.

The Customs Tariff in force in the New Hebrides is mainly on an *ad valorem* basis at varying rates with specific duties in a few cases.

Of the import trade of the group about 68 per cent. is claimed by Australia, 18 per cent. by France, and the remainder by Britain, Japan, China and U.S.A., while the bulk of the exports are shipped to France.

British Staff.

Resident Commissioner, G. A. Joy, 800*l.* to 1,000*l.*, quarters and duty allowance 100*l.*

Judicial Commissioner, W. D. Carew, receives 400*l.* plus 49,600 francs as British Judge of the Joint Court and quarters, and an allowance of 50*l.* as Judicial Commissioner.

Assistant to the Resident Commissioner, R. D. Blandy, 650*l.* to 750*l.* and quarters.

District Agent, Efate, and Commandant of Police, E. A. G. Seagoe, M.B.E., 650*l.* to 750*l.* (750*l.* personal to present occupant) and quarters.

District Agents, J. M. Nicol, 500*l.* to 600*l.* with 30*l.* personal allowance; C. G. Adam, 500*l.* to 600*l.* and quarters; A. J. K. Thomas, 500*l.* to 600*l.* and quarters.

Office Assistant, B. Blackwell, 400*l.* to 500*l.*

Clerk and Accountant (vacant), 340*l.* to 400*l.*

Correspondence Clerk (vacant).

PITCAIRN ISLAND.

Pitcairn Island (two square miles) is situated in the Pacific Ocean, nearly equidistant from Australia and America (25° 3′ S. lat., 130° 8′ W. long). It was discovered by Carteret in 1767, but remained uninhabited until 1790, when it was occupied by the mutineers of H.M.S. *Bounty*, with some women from Otaheite. Nothing was known of their existence until the island was visited in 1808. No regular government was established, but assistance of various kinds was given on the subsequent visits of English vessels. In 1856, the population having become too large for the island's resources, the inhabitants (192 in number) were, at their own request, removed, with all their possessions, to Norfolk Island: but 40 of them soon returned. In 1879 these had increased to 90. The population (at 30th June, 1936) numbers 202 persons.

It is a British Colony by settlement, and was brought within the jurisdiction of the High Commissioner for the W. Pacific in 1898 under s. 6 of the Pacific Order in Council, 1893. *Chief Magistrate*, R. E. Christian.

The Government is now administered under the High Commissioner, by a Council consisting of a Chief Magistrate, two Assessors, a Secretary and a Chairman of the Internal Committee. These officers are elected annually by the people.

The islands of Henderson, Ducie, and Oeno were annexed in 1902, and are included in the district of Pitcairn.

THE WINDWARD ISLANDS.

Situation, Area, and Trade.

The Windward Islands consist of the three islands of St. Lucia, St. Vincent and Grenada, lying in the order named from north to south, together with the smaller islands known as the Grenadines, which lie between St. Vincent and Grenada, and are attached partly to the one island and partly to the other. Geographically, Barbados, Trinidad and Tobago belong to the group, and were formerly associated with it politically, Tobago from 1764 to 1783, and all three in 1838. The three first-named islands are grouped for administrative purposes under one Governor, who usually resides at St. George's, Grenada. The total area of the three Colonies is 524 square miles (about twice the size of Middlesex), and their estimated population at the census of 24th April, 1921, 162,254.

History.

Some account is given of the history of each island in its proper place, but particulars of their several federal unions may be conveniently inserted here. As early as 1764 there was one Governor for the "Southern Caribbee Islands" of Grenada, Dominica, St. Vincent, and Tobago. Dominica was separated in 1771, St. Vincent in 1776, and in 1783 Tobago was ceded to the French. In 1833 St. Vincent was included with Barbados, Grenada, and Tobago in one general government, the Governor-in-Chief being resident at Barbados, with Lieutenant-Governors in each of the other islands. In 1838 St. Lucia was included in this general government.

On the 17th March, 1885, Letters Patent were passed constituting the Government of the Windward Islands, Barbados being omitted. Tobago was subsequently united with Trinidad.

The majority of the inhabitants are of the negro race, less than 5 per cent. being white and there are some Indian Coolies. A few Caribs still remain in St. Vincent. English is spoken throughout, but in St. Lucia the prevailing language with the peasantry is a French *patois*. In Grenada the same condition obtains, but to a less extent.

Constitution.

Each island retains its own institutions, and, when the Governor is absent, is presided over by a resident Administrator, who is also Colonial Secretary. There is no common legislature, nor common laws, revenue, or tariff. A Windward Islands Court of Appeal was set up in 1850 (13 & 14 Vict. c. 15), and abolished in 1920 by an Act (9 & 10 Geo. V. c. 47), which set up a Court of Appeal for the West Indies, consisting of the chief justices of the several West India Islands except Jamaica. There is also a common audit system instituted in 1889.

Currency and Banking.

The legal tender currency is British sterling and the gold coins of the United States. Barclays Bank (Dominion, Colonial and Overseas) Ltd. and the Royal Bank of Canada, which have branches in the larger islands, issue five-dollar notes. Public accounts are kept in sterling, but banking and private accounts generally in dollars. There is no limit to the legal tender of silver.

Communications.

The usual length of the voyage from England to Grenada is about 14 days.

The steamers of Harrison Direct Line call at Grenada on the outward voyage, and on the homeward voyage they call at the three islands as cargo offers. There is also direct communication between Grenada and New York by the steamers of the Furness, Withy Line. The passenger and cargo steamers of the Canadian National Line call regularly at Grenada, St. Lucia and St. Vincent, and connect these islands with Canada, St. John and Halifax being the ports of arrival and departure there.

There are no railways in any of the islands. Government-owned telephone systems exist throughout the islands. All three islands of the group are in communication with Europe, the United States, Canada, and the other West Indian islands by wireless, operated by the Pacific Cable Board, and by the Cables of the West India and Panama Telegraph Company Ltd. The rate per word for telegrams to the United Kingdom from Grenada, St. Lucia and St. Vincent is 2*s.* 4*d.* The rate to Europe varies from 3*s.* 2½*d.* to 3*s.* 7½*d.* per word. (Government messages pay half rates.) There are also cheap rates at half and quarter of the ordinary tariff, the latter being subject to a minimum charge.

A wireless installation has been erected at Carricou by the local Government. It communicates with Grenada and through that island to the United Kingdom, Canada, North America, &c., the ordinary tariff being 2d. per word more than from Grenada.

The Rates of Postage are:—

	Letters per 1 oz.	Newspapers.
Internal	1*d.*	Grenada— ½*d.* per 4 oz. St. Lucia— ½*d.* per 2 oz. St. Vincent— ½*d.* per 4 oz.
To U.K., India, and British Dominions and Colonies:—

Governors since 1900.

1900 Sir R. B. Llewelyn, K.C.M.G.
1906 Sir Ralph Williams, K.C.M.G.
1909 Sir James Hayes Sadler, K.C.M.G., C.B.
1914 Sir George B. Haddon-Smith, K.C.M.G.
1923 Sir Frederick S. James, K.C.M.G., K.B.E.
1930 Sir Thomas A. V. Best, K.C.M.G., K.B.E.
1935 Sir Selwyn M. Grier, K.C.M.G.
1937 Sir Henry B. Popham, K.C.M.G., M.B.E.

Civil Establishment.

Governor and Commander-in-Chief of the Windward Islands, Sir Henry B. Popham, K.C.M.G., M.B.E., 2,500*l.*, and travelling allowance up to a maximum of 500*l.*

Aide-de-Camp and Private Secretary Lt.-Comdr. C. D. Milbourne, R.N. (retd.), 300*l.*

Secretary to Government, Windward Islands, J. M. Knight, M.B.E., 400*l.* to 500*l.* by 20*l.*

Auditor for the Windward Islands, J. K. Buchanan, 500*l.* by 20*l.* to 600*l.*, and travelling allowance.

GRENADA.

Situation, Area, &c.

Grenada, the most southerly of the Windward group, is situated between the parallels of 12° 30′ and 11° 58′ N. lat., and 61° 20′ and 61° 35′ W. long.; is about 21 miles in length, 12 miles in its greatest breadth, and contains about 133 square miles (about half the size of Middlesex). It lies 68 miles S.S.W. of St. Vincent, and about 90 miles north of Trinidad, and between it and the former island are certain small islands called the Grenadines, attached partly to the government of St. Vincent, and partly to that of Grenada; the largest of the latter is Carriacou, which has an area of 8,467 acres, and a population (at 24th April, 1921) of 7,104.

General Description.

Grenada is mountainous and very picturesque, its ridges of hills being covered with trees and brushwood. The mountains are chiefly volcanic, and have several lofty peaks, the highest of which is Mount St. Catherine, 2,749 feet, running off in spurs from the centre of the island, giving it an appearance of romantic beauty when viewed from the sea.

The island abounds in streams, and in mineral and other springs. The Grand Etang, a lake on the summit of a mountain ridge 1,740 feet above the level of the sea, and 7 miles from the town of St. George, and Lake Antoine, both old craters, are among the most remarkable natural curiosities; near the former a sanatorium is established. The roads of the colony are in excellent condition, and are kept in a state of thorough repair. The surface of the main roads and some of the more important byeways is oiled. About 146 miles of main roads, and a network of byeways (275 miles), provide good inland communication. The island is divided into six districts or parishes—St. George, St. David, St. Andrew, St. Patrick, St. Mark, and St. John—while the dependencies of Carriacou, Petit Martinique and other adjacent islets form a separate district, administered by a Commissioner. St. George's, the principal town, is a port of registry for shipping and had on 31st December, 1937, 147 vessels registered, of a total tonnage of 2,765 tons: its fine harbour owing to its situation, healthiness, and great natural advantages, including a plentiful supply of water of the purest quality, offers exceptional inducements as a port of call for steamers. The town had a population of 4,629 by census of 24th April, 1921.

The other towns in the colony are Gouyave (or Charlotte Town), Victoria (or Grand Pauve), Sauteurs; Grenville (or La Baye); and Hillsborough, in Carriacou. English is universally spoken, but the peasantry speak among themselves a French *patois*. About two per cent. are of European blood, the remainder being of the Negro race, except the East Indian population, which was 2,692 in number according to the census of 1921.

Climate.

The climate is good and during the months from December to the end of April, when the trade winds prevail, it is delightful. From July to October there is greater humidity and higher temperature with little variation between night and day. The climate may be regarded as hot during this period but it is not unhealthy at any time during the year. There is an astonishing variation of rainfall. In the mountainous centre it reached 187 inches in 1937 and in the lowlands to the south of the Islands it was as low as 61 inches. The highest shade temperature recorded in 1936 was 90·0 and the lowest 70·0.

Industry, Trade and Customs.

The prosperity of the island, like that of its neighbours, depends almost entirely upon the planting industry. The chief produce of Grenada is cocoa, of which a total value of 160,030*l.* was shipped in 1937. The modern sugar factory which was erected in 1936 in the southern part of the island manufactures sufficient sugar to meet local demands. No sugar is exported as yet. Attention has been turned with some success to the cultivation of other economic plants, such, for instance, as limes, coffee, kola nut, cloves, vanilla, pepper, cardamoms, coconuts, etc. Nutmeg cultivation occupies a prominent position. The value of spices exported in 1937 was 167,159*l.* Considerable attention is being given also to the production of the Gros Michel banana. In Carriacou cotton is the staple product, its cultivation having never been wholly abandoned there; the value exported in 1937 was, with cotton seed, 4,982*l.* The cultivation of limes has now been successfully established in Carriacou, the exports of lime products in 1937 amounting to 6,494*l.* Tropical fruits of almost every description and of the finest quality are fairly plentiful, and are shipped to the Barbados and Trinidad markets. The principal food resources are yams, sweet potatoes, tanias, kush-kush, pigeon-peas, plantains, bananas, Indian corn, cassava, bread fruit, etc. Fresh meat is always obtainable, and the animals slaughtered for the purpose are reared in the island. An excellent oyster is obtained in Carriacou, and turtles and fresh fish are plentiful. The commercial value of the forests is now being explored. Rum is manufactured for local consumption, the total number of proof gallons in 1937 being 51,329.

The main imports are food-stuffs, textiles, timber for building purposes, and hardware.

The principal exports, besides those products already mentioned, are turtles and turtle-shell, hides and skins, fruit and poultry.

The tariff of Import duties is partly on an *ad valorem* and partly on a specific basis. The rates in the case of the former are mainly 15% on Empire goods and 22½% on foreign goods. The preference on Empire goods is generally 33⅓%.

Digitized by Google

The percentages of Trade in 1937 were as follows:—

	Imports.	Exports.
United Kingdom ..	48%	46%
United States of America	11	24
Canada	15	10
Other British Possessions	17	11
Other Foreign Countries	9	9
	100%	100%

The total acreage of land, exclusive of Carriacou is 76,548; acreage of Carriacou, 8,467.

There is a Government savings bank in St. George's, established in 1881, and extended to the out districts in 1889, and on 31st December, 1937, the amount at credit of depositors was 49,636*l.*

A co-operative bank was established in 1932, but there is no agricultural bank in the Colony.

History.

Grenada was discovered by Columbus on 15th August, 1498, and was named by him Conception. It was at that time inhabited by Caribs. A settlement was attempted in 1609 by a company of London merchants, but the colonists were so harassed by the Caribs that the attempt was abandoned. In 1650 Du Parquet, Governor of Martinique, purchased Grenada from a French Company, and established a settlement at St. George's. Finding the expense of maintaining an armed force to support his authority not compensated by the expectation of future profits, Du Parquet sold the island in 1657 to the Comte de Cerrillac for 30,000 crowns. The Governor appointed by the new proprietor ruled with so much tyranny that the most respectable settlers left the island; he was at length seized, tried, and executed by the colonists.

In 1674 the island was annexed to France, and the proprietors received compensation for their claims; and in 1762 it was surrendered to the British under Commodore Swanton, and was formally ceded to Great Britain by the Treaty of Paris on the 10th of February, 1763. In 1779 it was retaken by the French under the Count D'Estaing; and in 1783 it was restored to Great Britain by the Treaty of Versailles. In 1795–6 it was the scene of a rebellion against the British rule, instigated by the French Republic. The Lieut.-Governor and 47 other British subjects were massacred by the rebels, and the colony brought to the verge of ruin. In June, 1796, Sir Ralph Abercrombie suppressed the rising, and the ringleaders were executed.

In 1834 the apprenticeship system was established in regard to the African slaves, and this was followed in 1838 by their unconditional emancipation.

Constitution.

There was from 1766 a Legislative Council as well as a House of Assembly, the latter consisting of 21 elected members.

Under an Act of 1856, and limited in its duration to a term of three years, an Executive Council was formed, composed of members of both branches of the Legislature. The Act was allowed to expire, and the Legislative Council resumed its executive functions under the style of Her Majesty's Council.

This constitution was remodelled by an Act of the 7th of October, 1875, and a single Legislative Assembly established in lieu of the Council and Assembly. The Assembly consisted of 17 Members, 8 elected by the people, and 9 nominated by the Crown. The Act also appointed an Executive Committee of 5 members, 3 being nominated and the other 2 elected Members of Assembly. These Members received each a salary of 100*l.* a year, and were charged with the duty of advising the Lieut.-Governor on the conduct of affairs.

This Assembly at its first meeting on the 9th of February, 1876, addressed the Queen, informing Her Majesty that it had passed a Bill providing for its own extinction, and leaving "it entirely to your Majesty's wisdom and discretion to erect such form of Government as your Majesty may deem most desirable for the welfare of the Colony." The Imperial Act (39 and 40 Vict. c. 47) empowered Her Majesty to comply with this address, and Crown Colony Government was established in December, 1877.

On the 17th March, 1885, letters patent were passed constituting anew the office of Governor of the Windward Islands, and on 1st June, 1885, Grenada became the headquarters of the Government, which includes the colonies of St. Lucia and St. Vincent.

Until the 1st of December, 1924, the Legislative Council consisted of six official members besides the Governor, and seven unofficial members nominated by the Crown.

By an Order in Council dated 21st March, 1924, which came into operation on 1st December, 1924, a partly elective Legislative Council was constituted, consisting of the Governor, seven *ex officio* members, three nominated unofficial members and five elected members. The Island was divided into five electoral districts, each returning one elected member.

By an Order in Council dated 27th October, 1936, which came into operation on 18th December, 1936, the Legislative Council was reconstituted; and now consists of the Governor, three *ex-officio* members (the Colonial Secretary, Attorney-General and Treasurer), four nominated members and seven elected members (one for each of seven electoral districts). At the same time, the Governor is given reserve powers for ensuring the passage of legislation which he considers expedient in the interests of public faith or of good government.

The Government is assisted in the internal administration by six semi-elective District Boards.

Education.

There are 61 elementary schools, 11 Government and 50 aided. These schools are of five classes, Senior, Combined, Junior, Infant and Manual Training Centres. Head teachers of senior and combined schools are paid from 80*l.* to 160*l.* per annum, according to their certificates of proficiency, and to the class of school. Bonuses are given them for extra duties. Grants are also given by Government in aid of buildings, furniture and apparatus. The administration is entrusted to a Board of Education nominated by the Governor. In 1937 the average attendance was 9,110 children, the number on the rolls being 14,536. There is a Government secondary school for boys, and three for girls which receive grants-in-aid from the general revenue. The total expenditure incurred by Government on primary education for the year 1937 was 11,898*l.*

General Description.

On its final acquisition by the English, the island had become much depopulated, partly by war, but chiefly by internecine struggles, the fruits of the French Revolution. The recovery from this state of things has been slow, having been retarded by the severe epidemics of cholera and small-pox which have at different times visited the West Indies.

Digitized by Google

Each census, however, has shown an advance in this respect, and the population at 31st December, 1937, is estimated at 67,404. Most of the inhabitants speak a French *patois*, but English is gradually becoming more generally used. A very small percentage is of European descent, the remainder being of the negro race, and of East Indian origin. The reputation of the island for peculiar unhealthiness is undeserved, the death rate for 1936 being 14·9 per 1,000, and for the year 1937 14·4 per 1,000. Certain spots situated in narrow valleys between high mountains are undoubtedly unhealthy, but are becoming less and less so as the forests fall before a yearly extending cultivation.

The danger from venomous reptiles is also much exaggerated. Owing to the introduction and spread of the mongoose, snakes are now but rarely met with. Among white inhabitants, consumption and other of the most fatal diseases of temperate climates are almost unknown. The temperature from December to April seldom exceeds 80° Fahr., even at midday, in spots situated a few hundred feet above the sea, and a fresh trade wind blows continuously. The scenery is of peculiar beauty, even as compared with that of other West India Islands, and in the neighbourhood of the Pitons has the less common element of grandeur. These are two cone-shaped rocks rising sheer out of the sea to a height of nearly 3,000 feet, and near them is the crater of a volcano and a soufrière, the ordinary characteristics of the Caribbean Cordillera.

Castries, the chief town, has an excellent harbour. Dredging operations are carried out annually. There is a substantial concrete wharf, 650 feet in length, with a depth alongside of 27 feet at low water. There is another wharf, 540 feet in length, originally constructed in wood, which is gradually being reconstructed in concrete, and is kept dredged to a depth of 14 feet at low water. The facilities offered by the port as a port of call and coaling station are widely recognised. It is a port of registry, and had, on 31st December, 1937, 18 vessels registered, of a total tonnage of 597 tons.

A Government savings bank was established in 1871, and has now 1,028 depositors, with 23,384*l.* to their credit on 31st December, 1937. Branch savings banks exist at Soufrière and Vieux Fort, Dennery and Gros Islet.

Constitution and Law.

Up to the period of the French Revolution, and after the restoration of order in 1800, the island was governed according to the law and ordinances of the French monarchy.

The Government is conducted by an Administrator (who is subordinate to the Governor of the Windward Islands), aided by an Executive Council.

By an Order in Council dated 27th October, 1936, which came into operation on 18th December, 1936, the Legislative Council was reconstituted, and now consists of the Governor, three *ex-officio* members (the Administrator, Attorney-General, and Treasurer), three nominated members, and five elected members (one for each of three electoral districts and two members for a fourth district).

At the same time, the Governor was given reserve powers for ensuring the passage of legislation which he considers expedient in the interests of public faith or of good government. Other changes made were the fixing of a common age qualification, twenty-one years, for male and female voters, and a widening of the qualifications of electors.

Law is administered by a Chief-Justice-Magistrate from whom as Chief Justice in civil cases there is an appeal to the West Indian Court of Appeal and as Magistrate an appeal to the Commissioner of Appeals. There is one other Magistrate whose decisions are liable to review by the Chief Justice. In criminal cases tried by the Superior Court facts are decided upon by a jury of nine, except in trials for capital offences, when the jury consists of twelve persons as in England.

A code of civil law, the authors of which were Sir G. W. Des Vœux, G.C.M.G., and Mr. James Armstrong, C.M.G., became law in October, 1879. This code was framed upon the principles of the ancient law of the island, with such modifications as are required by existing circumstances. The Statute Law of the Colony was consolidated to 1916 by Mr. F. H. Coller, Chief Justice, who also edited the Commercial Code, 1916.

The revising and editing of the Criminal Law and Procedure of the Colony by Mr. J. E. M. Salmon was completed during 1920 and proclaimed as the Criminal Code, 1920. It came into force on the 1st January, 1921.

Education.

On the 30th June, 1891, the trustees of the Lady Mico charity closed the eleven schools which they had till then maintained, and withdrew their connection with the Colony. Three of these schools became Government schools, and the others assisted schools under the new Education Ordinance. In 1898 all the Government schools were handed over to the Roman Catholic body, and became assisted schools. There were, on the 31st December, 1937, 45 assisted schools. Of these, 3 were Anglican, 3 Methodist and 39 Roman Catholic. The number of children on the rolls was 10,159, with an average attendance of 6,995, and the amount spent by the Colony on primary education was 5,086*l.* The Government grants 450*l.* a year to a Roman Catholic second-grade school, which has 46 boys on the roll; the Sisters of St. Joseph conduct a similar school for Girls. The number of pupils on the roll is 104 and a Government grant of 175*l.* is made to the school annually.

As a result of the Mayhew-Marriott Commission of 1932, a Board of Education was constituted on 21st March, 1936, whose chief functions are of an advisory nature.

Industry, Trade and Customs.

Limes and lime products, sugar, rum, cocoa, coconuts, bananas, bay oil, bay rum, spices, and Sea Island cotton are produced. There are four sugar factories, 16 lime factories (for the production of lime oils and juices), three rum distilleries, and one bay oil distillery. While all industries show expansion, depending on market conditions, the banana industry has experienced the most rapid and satisfactory rise, shipments in 1937 totalling 110,966 stems, valued at 11,814*l.*

A fair amount of land in certain districts is in the possession of the Crown, and, under certain conditions, is available for sale for development purposes; the soil will grow any kind of tropical fruit trees or economic plants. Attention is now being paid to the establishment of Land Settlement Schemes with a view to utilising the latent resources of the Colony.

The Customs Import Tariff is mainly on a specific duty basis, with a preference in favour of Empire produots which in most cases amounts to one third of the general tariff rate.

The percentage of the Colony's Import Trade with the United Kingdom, other parts of the

ST. VINCENT.

Situation and Area.

The Island of St. Vincent is popularly supposed to have been discovered by Columbus on the 22nd of January, 1498. It is situated in 13° 10′ N. latitude, and 60° 57′ W. longitude, at a distance of 21 miles to the south-west of St. Lucia, and 100 miles west of Barbados. It is 18 miles in length, and 11 in breadth, and contains about 96,000 acres of land, about half the area of Middlesex. Most of the Grenadines, a chain of small islands lying between Grenada and St. Vincent, are comprised within the government of the latter island. The principal is Bequia, situated at a distance of 9 miles from Kingstown.

General Description.

Kingstown, the capital of St. Vincent, is situated at the side of an extensive bay, at the south-western extremity of the island. It consists of three principal streets, each about a mile long, running parallel with the beach, and contained at the census of 1931, a population of 4,269 souls. It is a port of registry, and had, on 31st December, 1937, 26 sailing vessels of a net tonnage of 734 tons and 4 motor vessels of 79 tons net.

There are five other small towns in the island, the most important being Georgetown on the north-east, and Barrouallie on the west.

The most striking natural feature of the island is its "Soufrière," or volcano, situated at the northern extremity of the island, and rising to about 4,048 feet above the level of the sea. After a violent eruption in 1812, it remained dormant for a period of ninety years, and then broke into violent eruption again on May 7th, 1902, when the entire northern half of the island was devastated, and nearly 2,000 lives were lost. The eruption synchronised with that of Mont

Digitized by Google

Pélée in Martinique which destroyed the town of St. Pierre. The "Soufrière" remained intermittently active throughout 1902, and there was a further eruption in March, 1903, since when it has remained quiescent.

The whole island is of volcanic origin. A backbone of densely wooded and almost impassable mountains traverses it from the "Soufrière" at its northern end to Mount St. Andrew (2,500 ft.), dominating the Kingstown valley at its southern extremity. This range sends off spurs on each side, cutting up the island into a series of valleys, trending east and west from the central range to the coast. There is a somewhat level tract called the Carib Country at the north-east of the island, between the "Soufrière" and the sea. This district formerly comprised the most fertile sugar estates. The next highest point after the "Soufrière" in the range is Richmond Peak, 3,539 feet high. The streams are numerous but small, except after heavy rains; the principal is the Richmond River.

In September, 1898, the island was visited by a severe hurricane, which caused widespread destruction, and reduced large numbers of the inhabitants to destitution. In September, 1921, the island was again struck by a hurricane which, although not as violent as its predecessor, did considerable damage to property and crops, entailing considerable hardship on the populace and necessitating the expenditure by Government of 3,288*l.* on relief measures.

Climate.

In the dry season, January to May, the climate is charming. In the wet season, and especially from August to November, the climate is damp and hot, but not at all unhealthy. The nights are cool all the year round. The rainfall during 1936 was 88·74 inches. The highest reading of the thermometer during the same year was 89° F., the lowest 68° F., the mean monthly temperature being 82·2° F. in the shade. The prevailing wind is S.E.

Industry, Trade and Customs.

Sugar, syrup, rum, cocoa, coconuts, copra, bananas, and excellent arrowroot are produced. Arrowroot, the most important product, is graded and exported under the control of a Co-operative Arrowroot Association. The fine quality of the coconuts has resulted in a good demand for St. Vincent whole nuts on the Canadian and U.S.A. markets and a considerable export trade in this commodity has been established in recent years. A Banana Association exists for developing the industry, and marketing the fruit on a co-operative basis. The cultivation of ground nuts and spices is also attracting attention. Sea Island cotton, the best in the Empire, is extensively planted, for the ginning of which a Government Ginnery has been erected. There are also three privately owned ginneries. Many of the sugar and arrowroot mills are worked by water power. A large proportion of the cultivable land is owned by a few individuals; portions of Crown lands have been alienated to peasant proprietors, and several estates have been purchased by the Government with the aid of an Imperial grant and allotted to the same class of settlers. The forests have mostly been exploited and except where they are inaccessible contain very few valuable timber trees. There are 65 miles of highway running round the island, for the most part close to the coast, but on the leeward coast communication is mainly by boat, and nearly all the produce is water borne. There are also some 300 miles of byeway connecting with the highway.

The port of Kingstown is visited weekly by steamers of the Canadian National Steamships, fortnightly by Steamers of the Ocean Dominion Steamship Corporation and Furness Withy Lines and occasionally by steamers of the Harrison and American Caribbean.

A telephone system has been established, having 1 central and 3 branch exchanges, with 270 connections and some 446 miles of line.

The import duties are largely *ad valorem*, mostly 18¾ per cent.; but there are many specific duties. Preferential rates, mostly two-thirds of the general rate, are charged on imports from other British countries.

Export duties are levied on cotton, arrowroot, cassava, starch, cocoa, copra and coconuts.

The following table shows the direction of the Trade for the year 1937.

	Imports.		Exports.

History.

At the time of its discovery, St. Vincent, like some of the other small islands, was inhabited by the Caribs, who continued in the undisputed possession of it until 1627, when the King of England made a grant of the island to the Earl of Carlisle. In 1660 it was declared neutral, and in 1672 it was granted to Lord Willoughby.

No steps, however, appear to have been taken to form a settlement on the island, and the English and French came to an agreement to abandon the Islands of Dominica and St. Vincent to the Caribs, on condition of their renouncing all claim to the other islands.

In 1722 George I. made a grant to the Duke of Montague of some of the West India Islands, including St. Vincent.

From statistics of the year 1740 it appears that the white inhabitants then amounted to about 800, and the slaves to 3,000, producing commodities for exportation to the value of 63,625*l.*

In 1748 St. Vincent was declared neutral by the Treaty of Aix-la-Chapelle. In 1756, however, hostilities were renewed, and the island was taken in 1762 by General Monckton; and by the Treaty of Paris in the following year it was ceded to Great Britain, when General Melville was appointed Governor.

By a treaty, which was concluded in February, 1773, an extensive district of St. Vincent was allotted to the Caribs (who for some time had been in a state of open rebellion) on condition of their laying down their arms and acknowledging the King of Great Britain as the rightful sovereign of the island.

In 1779 the island surrendered to the French. The following year has been rendered memorable by the occurrence of the greatest hurricane of which there is any record in West Indian annals. By the Treaty of Versailles in 1783, St. Vincent was restored to Great Britain.

Digitized by Google

From this period to the breaking out of the French Revolution the island appears to have enjoyed comparative prosperity and peace; but in 1795 the Caribs and their allies (the French) again overran the country, burning the cane-fields, plundering the houses, and mercilessly murdering the English colonists. This state of things continued till the arrival of the "Zebra" sloop of war, with succours from Martinique, then the British headquarters.

The contest was carried on, with alternations of good and ill fortune, until the arrival of Sir Ralph Abercrombie with reinforcements in June, 1796. After an obstinate struggle the insurgents surrendered at discretion. The Government, in anticipation of such an event, had resolved that the Caribs should be transported to the Island of Ruatan, in the Bay of Honduras; and accordingly, on the 11th March, 1797, the necessary transports having been provided, the Caribs, to the number of 5,080, were embarked at Bequia, and sailed for their appointed destination.

In 1834 the apprenticeship system was established, and was followed in 1838 by unconditional emancipation of the negro slaves. The year 1846 witnessed the first introduction of Portuguese labourers, a class of immigrants who amounted in a few years to 2,400, and have proved a valuable addition to the general population of the island.

St. Vincent received its first East Indian Coolie labourers in 1861. Most of them returned to India, but some made their home in the Colony.

Constitution.

The Government of St. Vincent originally consisted of a Governor, Council, and Assembly.

The Council consisted of twelve members, one half of whom were named in the Governor's Commission, and the remainder appointed on his recommendation. The Assembly was composed of nineteen members, including two for the Grenadines. In 1856 an Executive Council was created, consisting of ten members, five from the Legislative Council, and five from the Assembly. In 1859 this Council was re-modelled, with the addition of an Administrative Committee, selected by the Governor and composed of three members—one from the Legislative Council, and two from the Assembly. This Act of 1859 had, however, a duration of only five years.

The constitution, however, was found no longer suited to the altered circumstances of the Colony, and in 1867 the Legislative Council and House of Assembly were abrogated, and a single Legislative Assembly was created instead thereof. This Assembly was composed of 12 members, viz.:—three *ex officio*, three nominated by the Crown, and six elected by the people. (The number of electors registered for the year 1874 was only 388.)

But this constitution also was abrogated by an Act of the Local Legislature (confirmed by an Imperial Act, 39 & 40 Vict. c. 47), by which the future modelling of the constitution was left to the Crown. Until 1st December, 1924, the Legislative Council consisted of official and unofficial members nominated and appointed by the Crown.

By an Order in Council dated 21st March, 1924, which came into operation on 1st December, 1924, a partly elective Legislative Council was constituted, consisting of the Governor, four *ex officio* members, one nominated unofficial member and three elected members. By the Saint Vincent (Legislative Council) Amendment Order in Council, 1931, the Legislative Council was constituted of the Governor, of three *ex officio* members, of one nominated official member, of one nominated unofficial member, and of three elected members. The Island was divided into three electoral districts each returning one elected member.

By an Order in Council dated 27th October, 1936, which came into operation on 18th December, 1936, the Legislative Council was reconstituted, and now consists of the Governor, three *ex-officio* members (the Administrator, Attorney-General, and Treasurer), three nominated members, and five elected members (one for each of five electoral districts).

At the same time, the Governor was given reserve powers for ensuring the passage of legislation, which he considers expedient in the interests of public faith or of good government.

The several courts of the Colony were, by an Ordinance of the Local Legislature passed in 1880, consolidated into one court, styled the Supreme Court of Judicature. The Chief Justice of the Colony is the sole Judge of this court.

Education.

There were, on 31st December, 1937, 37 primary schools, with 10,457 children on the rolls. The average attendance during 1937 was 5,972. There is also a government secondary school for boys, and a high school for girls.

An Island Scholarship is awarded triennially tenable for from three to five years at an approved University. Annual value 250*l.* and cost of passage. An Agricultural Scholarship tenable at the Imperial College of Tropical Agriculture is awarded triennially. Annual value 150*l.*

The Government expenditure on primary education in 1937 was 9,424*l.*

Savings Bank.

A savings bank was established in 1866, and had 885 depositors, with 19,897*l.* deposited, on 31st December, 1937. Branches of the bank have been opened at Georgetown, Barrouallie, and Union Island.

ZANZIBAR.

Situation and Area.

The island of Zanzibar is situated in 6° S. latitude and is separated from the mainland by a channel 22½ miles across at its narrowest part. It is 53 miles long by 24 broad (maximum measurements), and has an area of 640 square miles. To the north-east at a distance of some twenty-five miles lies the island of Pemba in 5° S. latitude. It is smaller than Zanzibar, being 42 miles long by 14 broad (maximum measurements), and having an area of 380 square miles.

Climate.

The normal annual rainfall in Zanzibar Town amounts to 58·59 inches and in Pemba a mean derived from two stations was 73·25 inches. The rainy seasons are well defined: the heavy rains occur in April and May previous to the setting in of the south-west monsoon, the light rains in November and December before the recurrence of the north-east monsoon. The mean maximum temperature in Zanzibar is 84·4° and the mean minimum 76·6°. The corresponding figures for Pemba are 86·6° and 76·1° respectively.

People.

The Arabs were the conquerors of the islands. They founded the clove industry and still possess considerable property in plantations. They understand the natives and the natives understand them and accept their control and that of Europeans more readily than that of other races.

The bulk of the native population numbering 186,000 is known by the generic name of Swahili, a term formerly used to denote the Bantu coast tribes from Somaliland to Mozambique, "sawahil" in Arabic meaning "coasts." This general appellation includes the descendants of the early settlers of the island of Zanzibar who intermarried with negro women. They are called Wahadimu and live on the eastern and southern portions of the islands. A quiet shy people, occupied mainly in the cultivation of native crops and fishing, they rarely move from their homes except to pick cloves. The name Swahili also includes the descendants of the early settlers in Pemba who are known as Wapemba. These people engage chiefly in agriculture but raise a smaller variety of native crops than the Wahadimu. Many of them own clove and coconut plantations. They live in less seclusion than the natives on the larger island. Another tribe included in the term are the Watumbatu whose chief stronghold is Tumbatu Island. They are a very exclusive people but by no means shy. They go down to the sea and man most of the craft plying in Zanzibar waters.

There is in addition a considerable influx of various tribes from the mainland, of whom the Wanyamwezi are economically the most important, being now the chief source of supply for the weeding of plantations.

In the 1931 Census the total population of the Protectorate was returned as 235,428. The non-native population numbers 49,000 of whom 33,400 are Arabs. The Khojas, Bohoras, Hindoos, Parsees, and Goans possess most of the trade, either as merchants, shopkeepers, money lenders, small traders, or skilled mechanics.

History and Constitution.

The beginnings of Zanzibar history are lost in antiquity. It appears more than probable that the islands of Zanzibar and Pemba were known

Digitized by Google

to the ancient Egyptians, Phœnicians, Assyrians, and Jews, but though the expedition of Necho (C. 600 B.C.) doubtless passed the Islands it is not till the first century that the Periplus gives a description of one of them under the name of Menuthias. The Hindus appear to have settled at a very early date and traces of Greek colonisation are not lacking. From about the 7th Century B.C. the Islands appear to have had a close connection with the South Arabian States. Bantu settlers probably made their appearance during the first five centuries A.D., and thereafter for the next five hundred years or so came also traders from China and Malaya in addition to those from the Persian Gulf. The Coast was probably converted to Islam early in the 10th Century. The Zenj Empire was founded by Ali bin Hassan, a prince of Shiraz, about 975 A.D. but it soon broke up into separate states and, by the time the Portuguese began the conquest of the East African littoral, was already declining. It was during the sixteenth century that the Arabs of the East Coast sought the assistance of the Imams of Muscat to drive out the Portuguese, and the capture of Mombasa Fort in 1698 may be said to mark the downfall of Portuguese power north of Mozambique. On the ruins of the Portuguese power in the seventeenth century arose that of the Imams of Muscat. The allegiance to Muscat, however, was of a more or less nominal character until Seyyid Said, after having subdued his enemies on the mainland, transferred his capital to Zanzibar in 1832. On his death in 1856 a dispute as to the succession arising between his sons Seyyid Thwain of Muscat and Seyyid Majid of Zanzibar the African possessions were made independent and confirmed under Majid by an arbitration (dated 1861) of Lord Canning, then Governor-General of India.

Seyyid Said laid the foundations of Zanzibar's importance by transferring his capital from Muscat and making the island his permanent residence in the year 1832. Under his direction Zanzibar soon became both politically and commercially the principal native city in East Africa. "If you play on the flute at Zanzibar," says an Arab proverb of the period, "everybody as far as the lakes dances." Said's son Majid was succeeded in 1870 by Barghash, the first of his race to be commonly known as Sultan of Zanzibar.

In the year 1890 the supremacy of British interests in the islands themselves was recognized by France and Germany, and they were declared a British Protectorate in accordance with conventions by which Great Britain waived all claims to Madagascar in favour of France and ceded Heligoland to Germany. In the same year the mainland possessions which extended over the coast of East Africa, from Warsheikh in 3° N. latitude to Tunghi Bay in 10°42° S. latitude were ceded to Italy, Great Britain, and Germany respectively, Great Britain and Italy paying rent for the territories under their protection, while Germany acquired the Sultan's rights by the payment of a sum of 200,000*l*. At a later date Italy also acquired these rights by payment of a sum of 144,000*l*.

In 1891 a regular government was constituted with a British representative as first minister. On the death of the Sultan in 1896 the palace was seized by a member of his family, Seyyid Khaled, and to compel the latter's submission the palace was bombarded by British warships. In 1906, the British Government assumed more direct control over the Protectorate and reorganized the Government. In 1911 Seyyid Ali abdicated the throne and was succeeded by the present ruler, Seyyid Khalifa bin Harub. On 1st July, 1913, the control of the Protectorate was transferred from the Foreign Office to the Colonial Office, legal effect being given to the change of administration in the following year.

The Government was vested in a High Commissioner, who was also Governor of the British East Africa Protectorate, and a British Resident. The High Commissionership was abolished in 1925.

A Protectorate Council, with His Highness as President, was established at the same time. It was of an advisory and consultative nature and ceased to exist in 1926 when Executive and Legislative Councils were constituted.

For the East African Governors' Conference, see under Kenya.

Industries and Trade.

Zanzibar is now the dominant partner in the clove industry, holding as it does about 80 per cent of the shares. The other partners are Madagascar, Penang, and the Dutch East Indies.

Authorities differ as to the date when and country from which the clove tree was first introduced into Zanzibar. Some say that it was brought from Réunion by an Arab at the end of the 18th century. Colonel Rigby, Her Majesty's Consul and British Agent, in his report on the Zanzibar dominions written in the year 1860, states "the first clove trees were introduced about 30 years ago from Mauritius; being found to thrive they were extensively planted and they have now become the most valuable production of these Islands."

To Seyyid Said belongs the credit of establishing and promoting the clove industry. Burton records that he threatened confiscation to those who did not plant three clove trees for every coconut and that the country was almost denuded of the latter to make room for cloves. In 1839–40 the output amounted to about 9,000 frasilas. (The Frasila, equivalent to 35 lbs., is the local measure of weight for cloves). In 1849 it had risen to frasilas 120,000. In 1859 frasilas 139,000, valued at 55,666*l*. were exported, and the average output during the next decade was frasilas 200,000, valued at about 85,000*l*. Owing to the increase in production the price had, however, fallen from $5-$6 to $1-$2.

In 1872, a hurricane of great violence swept over the Island of Zanzibar and destroyed two-thirds of the clove and coconut trees. Pemba, though touched by the hurricane, sustained little damage. The years following this disaster were years of short supply, high prices, and intensive cultivation. The Pemba owners, actuated by motives of gain, hastened to cut down coconut trees on a wholesale scale throughout the island and to plant clove trees in their place. The Zanzibar owners, though temporarily ruined, set to work with commendable fortitude to replace the trees which the hurricane had destroyed, and ten years after the hurricane the normal output of cloves had not only been restored but increased.

Another event of great economic importance to the industry was the abolition of slavery. The

Digitized by Google

industry was built up and for many years sustained on slave labour imported from the interior of Africa. In 1873 Seyyid Burgash entered into a treaty to suppress the sea-borne traffic in slaves and to close all public markets in his dominions for the buying or selling of imported slaves. Various treaties and legislative measures followed until the year 1897, when by a decree of Seyyid Hamoud the legal status of slavery was abolished. It may be noted parenthetically that in the year 1890 Great Britain assumed a protectorate over Zanzibar.

The history of labour subsequent to 1897 is a tale of shortage, disinclination on the part of the labour available to engage in any form of settled work, inability or disinclination on the part of the Arabs to pay money wages, and administrative effort to organize the available supply. The introduction of Indian labour was at one time or another canvassed but never materialized. In 1904 and 1906 and at other subsequent times recourse was had to recruitment of labour on the mainland. Mainlanders have also come voluntarily, settled in appreciable numbers, and are now the chief source of supply for cultivation of plantations.

Since the abolition of slavery no event of major economic importance has occurred. There have been the usual ups and downs, but production has increased. 121,128 cwts. of cloves valued at approximately 411,654*l.* were exported in 1937.

A Clove Growers' Association, established in 1927, was incorporated by decree in 1934. Its major object is the marketing of cloves.

The cocoanut industry ranks next in importance after cloves, the conditions in both Islands being favourable to the growth of the tree and its nut-bearing properties. It is estimated that there are about 55,000 acres under cultivation and 3½ million trees in both Islands. The export of domestic copra amounted to 14,411 tons valued at approximately 204,000*l.*, and in addition cocoanuts and cocoanut oil to the value of 4,200*l.* were exported. Much is produced by the small grower or trader, neither of whom possesses proper drying facilities, with the result that the quality of the product compares unfavourably with that of Ceylon.

As a preliminary to a grading scheme a Decree to prevent the adulteration of produce was applied to copra, an improvement in the general quality being apparent by the end of the year.

There is a general *ad valorem* duty of 15 per cent. on imported goods with the exception of certain articles which have either a specific duty or a higher *ad valorem* duty, such as spirits, motor spirits, kerosene, cigarettes, tobacco, matches, tea, milk, cotton and artificial silk piece goods, shirts, singlets, boots and shoes, etc. There is also a schedule of articles exempt from duty. The Tariff includes no provisions for Empire preference.

The principal articles of import are rice and grain, cotton piece goods, motor spirit and petroleum, sugar, tobacco, manufactured (including cigars and cigarettes), flour, ghee, sesame, cattle, dried fish, bags and sacks and straw bags.

The principal articles of export (including re-exports) are cloves, copra, cotton piece goods, rice and grain, motor spirit and petroleum, ivory, millet, and simsim.

The following are the percentages of imports from and exports to principal countries of origin and destination during the year 1937:—

Countries.	Imports. 1937.	Exports. 1937.
Great Britain and Northern Ireland	22·88	7·92
India	8·24	10·29

Currency and Banking.

The standard coin of the Protectorate is the East African Currency Board shilling (Shs. 20*s.* = 1*l.*) with the following subsidiary coinage:—50 cts. (silver) and 10 cts., 5 cts., 1 ct. (bronze). East African Currency Board notes are legal tender for the amount expressed thereon. The amount in circulation at 31st December, 1937, was notes 266,100*l.* and coin 223,344*l.*

Two British Banks maintain branches in the territory:—The National Bank of India, Limited; The Standard Bank of South Africa, Limited; both at Zanzibar.

There are also two private Indian banking firms:—Messrs Jetha Lila; Mr. Saleh Gangji.

There are no agricultural or co-operative banks, but the Protectorate Government has assisted in the finance of the clove industry by granting loans to members of the Clove Growers' Association on the security of chattel mortgages and of produce deposited for storage.

There is a Government Savings Bank with 6,665 depositors at the end of 1937 and total deposits of 80,578*l.*

Shipping and Communications.

The port of Zanzibar is one of the finest in Africa, and was for long a main centre of commerce between India, Arabia, and the mainland. Of late years, however, the importance of Zanzibar as a port of trans-shipment and distributing centre has largely decreased owing to the development of the mainland, to the opening up of the coast ports to direct steamship service with Europe, and to

Digitized by Google

the transfer to Aden of the seat of trade with the Benadir coast. Recent figures, nevertheless, tend to indicate that the Island will continue, by reason of its geographical position, to retain control of the local traffic.

It possesses an excellent water supply, the best on the East Coast of Africa. A considerable quantity is supplied to shipping annually.

The British India Steam Navigation Company maintain a monthly service between London—Zanzibar—Beira, the Union Castle Mail Steamship Company a monthly service London—Zanzibar—London round Africa in alternate directions, the Bank Line a monthly service Calcutta—Zanzibar—Cape Town, the Clan—Ellerman—Harrison Line between Glasgow—Liverpool—Zanzibar—Beira (cargo only), the Compagnie des Messageries Maritimes a fortnightly service Marseilles—Zanzibar—Madagascar—Mauritius, the German East African Line a monthly service Hamburg—Zanzibar—Durban—Hamburg in alternate directions, the Holland Africa Line a monthly service Rotterdam—Zanzibar—Rotterdam round Africa in alternate directions, Royal Packet Steamship Co. a monthly service between Java and Zanzibar, the Lloyd Triestino a monthly service from Italy to Cape Town *via* Suez and back. The British India Steam Navigation Company also maintain a fortnightly service Bombay—Zanzibar—Durban, also a coastal service Lamu—Zanzibar—Mikindani, the Osaka Shosen Kaisha a monthly service Kobe—Zanzibar—Durban and South America. The American South African Line maintain a monthly service between Zanzibar and New York *via* South Africa, the Robin Line also a monthly service between Zanzibar and New York *via* South Africa.

Government steamers maintain regular weekly connection with Pemba and Dar-es-salaam. Zanzibar has become a port of call in the itinerary of a number of large tourist steamers.

There is cable communication with Europe either *via* Aden or *via* Durban.

There are 165·8 miles of roads throughout the Island of Zanzibar and 73·8 miles in Pemba suitable for motor traffic. The Government maintains wireless stations and telephone systems in Zanzibar and Pemba.

There are 7 post offices in the two Islands.

There is a regular thrice weekly air service (passenger and mail) between Zanzibar, Dar-es-salaam and Tanga in Tanganyika Territory and Mombasa and Nairobi in Kenya Colony, which connects with the Imperial airways service at Mombasa and Dar-es-salaam for destinations on the London to Durban air route. This feeder service is maintained by a private Company operating from Nairobi, Kenya Colony.

Constitution and Government.

The Government is administered by a British Resident, who is appointed by commission under His Majesty's Sign Manual and Signet, and exercises his functions under the Zanzibar Order in Council, 1924.

The law of the Protectorate consists of Orders in Council, the Decrees of the Sultan, and certain Imperial Statutes of general application. His Highness's Decrees and legislation subsidiary thereto, when countersigned by the British Resident under Article 42 of the Zanzibar Order-in-Council, 1924, are binding upon all persons. The Muhammadan Law, declared in civil matters to be the fundamental law of His Highness's Dominions, controls in some measure personal relationship.

There are Executive and Legislative Councils, established by the Sultan's Decree Cap. 28 (R.L.2., 1934).

Justice, in cases in which persons subject to the Zanzibar Order-in-Council, 1924, are concerned, is administered by H.B.M.'s High Court and the Court's subordinate to it, and in other cases by H.H. the Sultan's Court for Zanzibar and the Courts subordinate to that Court. Subordinate Courts are held by Resident Magistrates, Administrative Officers, and Arab Kathis. In addition, District Courts, composed of benches of local headmen, exercise a limited criminal jurisdiction. An Appeal lies from the British Court and from the Zanzibar Court in the exercise of their original civil and criminal jurisdiction to His Majesty's Court of Appeal for Eastern Africa and thence to the Privy Council.

APPENDIX.

This Appendix gives some account of North Borneo, Sarawak, Trans-Jordan and certain miscellaneous British Possessions and Protectorates which are not included in the main portion of the Historical and Statistical Account above.

NORTH BORNEO.

Situation and Area.

The territory under the jurisdiction of the British North Borneo Company (incorporated by Royal Charter under date of 1st Nov., 1881), now known as "The State of North Borneo," comprises the whole of the northern portion of the island of Borneo from the Sipitang River on the west to lat. 4° 10′ N. on the east coast, together with adjacent islands; it is held under grants from the Sultans of Brunei and Sulu, and contains an area of about 29,347 square miles (equal to Scotland), with a coast line of about 900 miles. It extends from 115° 20′ to 119° 20′ E. long., and from 4° 10′ to 7° 25′ N. lat. The southern frontier was delimited in 1912-1913 by an Anglo-Dutch boundary commission, whose report was confirmed by a treaty at London on the 28th September, 1915.

The principal stations of the Company are at Sandakan, Lahad Datu, and Tawau, on the east, Kudat on the north, and Jesselton on the west. At each of these there are excellent harbours, especially at the first-named, which is situated in a magnificent bay some fifteen miles in length, with an average breadth of five miles. It is 1,000 miles from Singapore, 1,200 from Hong Kong, and 1,600 from Port Darwin. The capital and headquarters of administration are at Sandakan. Other stations are at Semporna, Lamag, Beluran, Langkon, Kotabelud, Tuaran, Penampang, Papar, Beaufort, Mempakul, Sipitang, Tenom, Keningau, Tambunan, Ranau, and Pensiangan.

General Description.

The greater part of the country is at present covered with jungle, but the soil is well adapted for the growth of almost all tropical products, more particularly rubber, tobacco, cocoanuts, sugar, coffee, sago, tapioca, and pepper.

The country is mountainous. The highest point is Kinabalu, over 13,000 feet.

The inhabitants, who at the Census taken in 1931 numbered 270,223, are mainly Bruneis, Bajaus, and Sulus on the coast, who subsist by fishing and trade. Further back, the Dusuns, the most numerous native race in North Borneo, cultivate yearly well-irrigated rice fields, and in the uplands they plant tobacco and hill padi (rice), and hunt. The Muruts, another interior tribe, are numerous; formerly they varied more peaceful pursuits by head-hunting, but are now peaceable. The Chinese population is steadily increasing and is now not far short of 48,000; they form the trading, gardening and artisan section of the community. There is a State-aided scheme of Chinese immigration. Europeans number about 400. Sandakan, the chief town, with suburbs, has a population of about 17,600. There are several missions, including the Church of England, with stations at Sandakan, Kudat, and Jesselton, and the Roman Catholic with a church and school at Sandakan and four stations on the West Coast and twenty-one schools in various parts of the country. The Church of England, which is supported by the Society for the Propagation of the Gospel in Foreign Parts and the Church of England Community, has a stone church and two schools at Sandakan and seven schools elsewhere. The Basel Mission has sixteen schools, the principal ones being at Jesselton, Sandakan, Kudat, and Papar. Government maintains sixteen vernacular schools at various places in the territory.

History.

The State and town of Brunei appear to have been prosperous from a very early age. They were visited by Europeans in 1322, 1503, and 1520, but the first settlement in Borneo was made by the Dutch at Landak and Sukadana in 1608, and soon abandoned. Two English settlements were made about 1609, and abandoned in 1623. The Dutch factories were re-established in 1747 and 1776, but finally given up in 1790.

A British settlement was formed under the East India Company in 1762, at the island of Balambangan, which had been ceded by the Sultan of Sulu. This was attacked by pirates in 1775, and the staff was removed to Labuan, a small factory being at the same time established at Brunei. A second attempt in 1803 was made to establish a settlement on the former island, and in Marudu Bay, and on its failure the East India Company gave up its connection with Northern Borneo.

Sir James Brooke, in 1842, established the independent State of Sarawak, which, as well as Brunei, is under the exclusive influence of Great Britain; and Labuan became a British Colony in 1846. Some Americans obtained extensive cessions in North Borneo in 1865 from the Sultan of Brunei, but they were never utilised. In 1872 a Company, called the Labuan Trading Company, established itself in Sandakan, the business of which was later carried on by its manager, Mr. W. C. Cowie. Finally, in 1877 and 1878, the Sultans of Brunei and Sulu ceded to a syndicate formed by Baron Overbeck and Mr. (afterwards Sir Alfred) Dent the greater portion of the territory now known as the State of North Borneo. This syndicate's rights were acquired in 1881 by the British North Borneo Provisional Association, and transferred by that body in 1882 to the British North Borneo Company. Some further cessions have since been added to the Company's territory. The British Government assumed a formal protectorate over the territory by agreement dated the 12th May, 1888. By this agreement the State is to continue to be administered by the Company as an independent State, under the protection of the British Government, who may appoint consular officers, and shall conduct all foreign relations, but does not interfere in internal administration.

Climate.

The climate, though tropical, is equable; the temperature varies from 70° to 90°, but there is

Digitized by Google

usually a light breeze. The annual rainfall is from 80 to 150 inches, according to situation.

Annual Mean Temperature...	81 degrees
Recorded extremes maximum	96 ,,
,, ,, minimum	60 ,,

Constitution.

The territory is administered by a Court of Directors in London, and a Governor and Civil Service appointed by them. There are two Residencies, viz., the East Coast and West Coast Residencies.

The appointment of the Governor is subject to the approval of the Secretary of State.

The law of the country is based upon Indian law and the principal Indian Codes have been adopted in the State. Many enactments of the Straits Settlements also have been incorporated in local Ordinances. Courts of law are correlative to the Indian Courts under the Indian Criminal and Civil Procedure Codes, while there are Imams' Courts for the administration of Moslem matrimonial law, and Native Courts to deal with matters of native custom.

Industry.

The principal products of the country are estate rubber, timber, copra, and cutch. The rapid expansion of the rubber industry is indicated by the increase in exports of the commodity from 24 tons in 1910 to 13,213 tons in 1937. The vast timber resources of the country form one of its principal assets; until 1920 only the fringe of the forests was worked, but in that year a company was formed for more adequate timber exploitation with modern lumbering apparatus. At Sandakan two large steam-driven sawmills have been working for some years; there are also a modern band sawmill and an electrically driven sawmill. Exports of timber in 1937 were valued at 331,589*l.*; the principal markets were Hong Kong, China, Japan and Great Britain. The number of coconut plantations has rapidly increased in the last two decades and exports of copra have risen considerably; in 1937 the value of copra shipped was 89,042*l.* Cutch, a tanning material obtained from the bark of certain mangrove trees, is manufactured at Sandakan; exports in 1937, 37,272*l.* Tobacco grows well; extensive areas were formerly cultivated by European companies with the special variety used for the wrappers of cigars, but this industry has waned. The natives also engage in the cultivation of tobacco, but the principal crop grown by them is rice, the production of which is however still insufficient to meet local demands. The fishing industry gives employment to a large number of natives; exports of dried and salt fish in 1937 were valued at 51,195*l.* Sago is manufactured and exported. Other articles of export are damar, livestock, edible birds' nests collected in certain limestone caves, firewood, rattans, charcoal, and seed pearls. Fruit growing is an important industry and increasing attention is being given to the cultivation of manila hemp, coffee, and pepper, all of which thrive.

The Chartered Company does not itself directly engage in trade.

The revenue is derived from import and export duties, excise, quit rents, licences, royalties, poll tax, and other usual sources of revenue.

Sandakan on the East and Jesselton on the West are the principal ports. Both towns have developed rapidly, and are now supplied with electric light and cold storage. Considerable sums have been spent by Government on reclamation, improvement of water supplies, etc., at both ports.

Large resources of coal exist in the country behind Cowie Harbour in the south east and seams occur elsewhere in the territory. Gold in alluvial form is found in certain of the rivers on the East Coast.

Large deposits of iron ore have been discovered. Indications of the presence of petroleum occur in many parts of the State, but so far it has not been found to exist in commercial quantity; prospecting work is still proceeding.

Customs Tariff.

Customs duties are leviable in North Borneo both on an *ad valorem* and a specific basis. The prevailing *ad valorem* duty rates are 5 per cent. and 10 per cent.; chiefly the latter.

A preferential import tariff (varying from one-third to three-quarters of the general tariff import rates) came into force on 10th October, 1933, applicable to certain specified goods imported from any part of the British Empire. Following Colonial practice, as in the United Kingdom, a proportion of 25 per cent. of Empire material, labour, etc., is required in most cases, and of 50 per cent. in a selected few.

The rates of duty on the most important articles are as follows:—

IMPORT TARIFF.

Currency and Banking.

The Company has a copper coinage of ½ and 1 cent pieces, a nickel coinage of 1 cent, 2½ cent and 5 cent pieces, and it issues notes. There is also a silver coin of 25 cents. The State Bank of North Borneo has its head office at Sandakan. There are agencies of the Hong Kong and Shanghai Banking Corporation, the Chartered Bank of India, Australia and China, and the Bank of Taiwan.

Money orders on North Borneo are issued in England, India, the Straits Settlements, Ceylon, Hong Kong, and elsewhere, and *vice versâ*, and British postal orders came into use in the State during 1908.

Means of Communication.

The Straits Steamship Company run steamers every week between Singapore and local ports. There is additional communication by steamer with Hong Kong, Japan, and the Dutch East Indies, and a local company maintains a service along the coast and to the Philippine Islands. The State Railway on the West Coast, which is a metre gauge line, connects Jesselton with Beaufort, 57 miles distant. At Beaufort the line divides, one section proceeding to the port of Weston (20 miles), the other to Melalap in the interior (40 miles). In all, the length of railway (including branches) completed is 124 miles. At Jesselton there is a steel jetty where vessels up to 1,000 tons can load and discharge cargo. There is a first class metalled road 20 miles long, from Jesselton to Tuaran; this is now being extended a further 16 miles to Tenghilen. Another road proceeds from Sandakan in a north-westerly direction, 15 miles of metalling have been completed and earthworks to mile 19. Road construction is being pushed forward in other localities of the State. At the end of 1937, the total mileage of metalled and earth roads outside municipal limits was 236 miles. There is a system of bridlepaths covering a total distance of 600 miles. Wireless stations exist at Jesselton, Kudat, Sandakan, Tawau, and Lahad Datu. The State has joined the Postal Union. Course of letter post from London, about fourteen days. Postage to certain British possessions for letters 12 cents for the first half-oz., 6 cents for each succeeding half-oz.; others 8 cents for the first oz., 4 cents each succeeding oz.; foreign countries, 12 cents for the first oz., 6 cents each succeeding oz.

On the completion of the Singapore–Labuan–Hong Kong cable in 1894, the mainland of Borneo was joined to Labuan by a cable covering a distance of about 10 miles to Mempakul.

There is a telegraph line from Mempakul where the cable reaches land to Jesselton, whence messages are transmitted by radiotelegraphy to Kudat, Sandakan, Tawau, and Lahad Datu. Branch telegraph lines establish communication with Beaufort and Tenom from Jesselton. The majority of the smaller Government stations are in telephonic communication with one another and with the local centres of administration. Telephone exchanges are in operation at Jesselton, Sandakan, and Kudat.

SARAWAK.

General.

In 1864 Great Britain recognized Sarawak as an independent State. An agreement was entered into with the Rajah of Sarawak, on the north-west coast of Borneo, on the 14th of June, 1888, under which that State has been placed under British protection. Her Majesty's Government undertake not to interfere with the internal administration of the State, but they are to determine any questions that arise as to the succession, to control the foreign relations, and to have the right to establish consular officers in the territory. British subjects are to have most-favoured-nation treatment, and no part of the territory is to be alienated without the consent of H.M.'s Government.

The territory of Sarawak comprises an area of about 50,000 square miles (more than equal to Ireland and Wales together), with a population of about 442,900 composed of various races. It is intersected by many rivers, navigable for a considerable distance inland, and commands about 450 miles of coast line. The government of the district from Tanjong Datu to the entrance of the Samarahan River was obtained from the Sultan of Brunei in the year 1842 by Sir James Brooke, who became well known as Rajah Brooke of Sarawak. In 1861 a second cession was obtained from the Sultan of Brunei of all the rivers and lands from the Samarahan River to Kedurong Point. In 1882 a third cession was obtained of 100 miles of coast line and all the country and rivers that lie between Kedurong Point and the Baram River, including about three miles of coast on the north-east side of the latter; and in 1884 another cession was obtained of the Trusan River, situated on the north of the mouth of the Brunei River. The Limbang River was also obtained in 1890, the transfer being approved and confirmed by H.M.'s Government in 1891. The Lawas River was added in 1905. The present Rajah, H.H. Sir Charles Vyner Brooke, G.C.M.G. (born 26th September 1874, married, 1911, Hon. Sylvia Brett), succeeded his father, H.H. Sir Charles Johnson Brooke, G.C.M.G., in 1917.

Heir presumptive, Bertram Brooke (H.H. the Tuan Muda), born 8th August, 1876.

Products.

Oil is worked by the Sarawak Oilfields, Ltd., at Miri.

EXPORT.

1933	$ 5,565,388

Pepper and rubber grow well throughout the Territory. The cultivation of sago is one of the most important industries. All these articles figure in the list of exports, which also includes gutta-percha, indiarubber, canes, rattans, camphor, gold, timber, beeswax, birds' nests, jelutong, illipe nuts, copra, cutch, betel nuts, damar, and tuba. The value of the principal exports was:—

	1933.	1934.	1935.	1936.	1937.
Gutta & india-rubber	$37,253	$11,133	$5,977	$7,212	$13,014

Illipe nuts	—	684	319,710	8,388	863
Gold	865,640	1,668,441	1,630,466	1,319,620	1,161,006
Timber	113,339	47,672	118,434	70,461	27,535

* Note.—Jelutong gutta is the sap of a fairly common jungle tree. It is said to be shipped mostly to America, and used in the manufacture of paint, chewing gum, and insulating material.

—The bulk of the trade is with Singapore.

Chief Towns.

Kuching, the capital, population about 25,000, on the Sarawak River, about 23 miles inland (N. lat. 1° 33′10″, E. long. 110° 20′ 13″), besides excellent Government offices and Court House, possesses hospitals and a museum with a complete collection of exhibits relating to Borneo. The Bishop of Labuan and Sarawak has his headquarters there, and has a mission school with 480 scholars, and also a girls' school. The Roman Catholics also have a mission there, with a boys' school under four resident priests, and a girls' school under the sisters.

The S.P.G., and Roman Catholic Missions have stations at various other places all over the Country.

Sibu, on the Rejang River, has a large population of Chinese traders, who exchange European goods for jungle produce. The river has a native population estimated at 137,000. The Chinese here trade direct with Singapore, as well as with Kuching. Mukah, a large town on the Mukah River, near its mouth, is devoted to the production of sago, the stems of the sago palm being cut in the upper reaches of the river and floated down to the town, where the pith is extracted and beaten, to be carried in native schooners to Kuching, to be cleaned.

Other towns are Bau, Serian, Sadong, Lundu, Simanggang, Betong, Saratok, Engkilili, Sarikei, Binatang, Matu, Kapit, Oya, Rejang, Miri, Baram, Bintulu, Limbang, Lawas, Trusan.

Communications.

Vessels of the Sarawak Steamship Company Limited and Straits Steamship Company Limited, provide a service every week between Kuching and Singapore. A service between Sibu and Singapore is maintained by the Sarawak Steamship Company Limited, which also provide a coasting service.

There are roads around the capital and thence to Upper Sarawak (about 25 miles) and to Sadong (about 40 miles). Internal communication is almost entirely by means of the numerous rivers, which form natural highways and byways, by which any point in the country can be reached in steam launches or boats.

Posts and Telegraphs.

Sarawak joined the Postal Union in 1897.

Local.—To any place in the country, 5 cents per 2 oz., and 5 cents to Singapore. Inland post cards 2 cents.

Foreign.—The same as from Singapore (Sarawak stamps).

Empire Air Mail Scheme.—6 cents per ½ oz. and 6 cents for each additional ½ oz. or part thereof, and 4 cents for postcards.

Letters come in direct bag from London, but *vid* Singapore.

Wireless installations have been erected at Kuching Town, Kuching Substation, Lundu, Simanggang, Saratok, Sibu, Sarikei, Kapit, Meluan, Mukah, Bintulu, Balingian, Tatau, Miri, Baram, Limbang, Lawas, Kanowit, Matu.

Sources of Revenue.

The principal sources of revenue are the Monopolies, Customs, and Mineral Royalties.

The Customs Tariff covers a wide range of imports and exports. Import duties are levied on an *ad valorem* basis at the Sarawak port of entry. Goods produced or manufactured within the British Empire are admitted at preferential rates. Detailed information can be obtained at the Sarawak Govt. Offices, Millbank House, London, S.W.1.

Harbour, buoy, and light dues:—Five cents per ton, payable on arrival, and chargeable to all vessels of five tons and upwards.

The taxes levied are:—Exemption, $1 per annum, payable by Malays; $1 per annum per door, payable by sea Dayaks; $1 per annum for every able-bodied land Dayak.

The weights are, 1 picul = 133⅓lbs.; 1 koyan = 2 tons 7 cwt. 2 qrs. 18 lbs.

Museum Curator, E. Banks, $4,080 by A$240 to $7,680.

Sarawak Government Agent in England, H. D. Aplin.

Offices: Sarawak Government Offices, Millbank House, Westminster, S.W. 1.

Consulting and Inspecting Engineer in England, A. S. Lowe.

Sarawak Pilgrim Officer at Jeddah, John Allan Smith.

TRANS-JORDAN.

A strip of country fringing the Syrian desert and extending from Syria in the north to the Gulf of Akaba in the south forms the territory known as Trans-Jordan. It is divided from Palestine by the Rivers Yarmuk and Jordan and the Dead Sea.

The frontier between Nejd and Trans-Jordan starts in the north-east from the point of intersection of meridian 39°E. and parallel 32°N., and proceeds in a straight line to the point of

intersection of meridian 37°E. and parallel 31°30′N. and thence along meridian 37°E. to the point of its intersection with parallel 31°25′N. From this point, it proceeds in a straight line to the point of intersection of meridian 38°E. and parallel 30°N. leaving all projecting edges of the Wadi Sirhan in Nejd Territory, and thence proceeds along meridian 38°E. to the point of its intersection with parallel 29°35′N.

The southern boundary of Trans-Jordan is yet to be defined.

The northern portion of Trans-Jordan consists of elevated country, rising to 3,500 to 4,000 feet above sea level, which on the western margin falls abruptly to the narrow fertile plain of the Jordan valley, and on the eastern falls more gradually to grass lands through which runs the Hejaz Railway line and which gradually merges into the desert.

The grass land strip forms the summer pastures of Bedouin tribes who in the winter move further east for pasturage. West of the railway are the wheat and barley lands of the Kerak, Balqa and Ajlun tribes as well as of the Circassian colonies in the Balqa and the numerous Arab villages in the north. Perennial water is found in the deep lateral valleys which is used for the irrigation of cultivable land in the valleys themselves, and subsequently waters relatively large areas of the fertile land of the Jordan depression which are cultivated by semi-nomad tribes. The remainder of this depression is used by these tribes as winter grazing grounds. In the north there are a number of large villages, but the only towns of any size are Amman, Salt, Kerak and Irbid.

No census has been taken but the population is believed to be slightly over 300,000.

His Britannic Majesty is the Mandatory for Trans-Jordan, to which the terms of the Mandate for Palestine, with the exception of the provisions dealing with the establishment of a national home for the Jewish people, are applicable. The declaration of His Majesty's Government with regard to its Mandatory obligations in Trans-Jordan made to the Council of the League of Nations in September, 1922 (Cmd. 1785) was in the following terms:—

"In the application of the Mandate to Trans-Jordan, the action which in Palestine is taken by the Administration of the latter country, will be taken by the Administration of Trans-Jordan under the general supervision of the Mandatory.

His Majesty's Government accept full responsibility as Mandatory for Trans-Jordan and undertake that such provision as may be made for the administration of that country in accordance with Article 25 of the Mandate shall be in no way inconsistent with those provisions of the Mandate which are not by this resolution declared inapplicable."

On the 20th February, 1928, an Agreement between His Britannic Majesty and his Highness the Amir for the purposes of setting up an independent and constitutional Government and placing His Britannic Majesty in a position to fulfil his international obligations in respect of Trans-Jordan, was signed by the representatives of the High Contracting Parties and an Organic Law thereupon came into force provisionally, pending the ratification of the Agreement after its acceptance by the Legislative Council provided for in the Law. The provisions of this Agreement relating to the expenses of the British Resident and his staff, customs duties and consular representation were amended by a supplementary Agreement which was signed at Jerusalem on the 2nd June, 1934.

The Legislative Council, consisting of six official and sixteen elected members, met for the first time on the 2nd April, 1929, and accepted the Agreement during its first session.

The Mandatory is represented in Trans-Jordan by the British Resident, assisted by a few British officers and a small clerical staff. The British Resident acts under the instructions of the High Commissioner for Trans-Jordan, who is also the High Commissioner for Palestine.

A local Arab Administration has been formed under His Highness the Emir Abdullah ibn Hussain, G.C.M.G., G.B.E. (son of ex-King Hussain of the Hejaz and uncle of King Ghazi of Iraq).

Amman is the capital. Amman, Kerak, Irbid and Ma'an are headquarters of District Governors.

The Ottoman Code is in operation with but few changes. The official language is Arabic.

The system of Turkish taxation, which was most uneven in its incidence, has been replaced by a Land Tax based on a fiscal survey. The Land Tax is assessed at the rate of 6% of the annual revenue of the land. Urban property is subject to a House and Land Tax assessed at the rate of 8% of the rental value.

The Customs Tariff is mainly on a specific basis. The following are the principal articles subject to specific duties:—Cigarettes, Tobacco, Benzine and Kerosene, Flour, Rice, Sugar, Coffee, Cotton, woollen and silk materials, Timber, Rubber Tyres and Tubes, and Matches.

Palestine pays Trans-Jordan an annual sum on account of the Customs Duty collected on goods of foreign origin which are re-exported to Trans-Jordan. The Trans-Jordan collects and retains the import duty on goods imported in transit through Palestine. The Syrian Government also refunds the duty collected on articles of foreign origin when re-exported to Trans-Jordan; and Trans-Jordan in addition collects a further small percentage of the value of the goods as assessed at Damascus. Trans-Jordan collects a specific additional extise duty on imported alcohol and tobacco.

Until 1926, public security in Trans-Jordan was maintained by a locally-recruited force known as the Arab Legion and a number of civil police in the larger towns. In 1926 these forces were reorganised. A military force called the Trans-Jordan Frontier Force was raised in Palestine and Trans-Jordan for the defence of the two territories, and police duties in Trans-Jordan were entrusted to a civil police force, to which the old name of the Arab Legion was given.

Statistics.

	Revenue.	*Expenditure.*
	£P.	£P.
1929-30	316,147	338,461
1930-31	367,516	350,530
1931-32	338,046	344,984

Chief Minister and Minister of Justice, Tawfik Abul Huda.
Judicial Adviser, A. L. Gardiner.
Financial Adviser, G. H. Shelswell-White.
Kadi el Kuda, Sh. Ahmed Es Saqqaf.
Director of Antiquities, Hashem Kheir.
Director of Public Works, Abdul Rahman Eff. Ghorayib, M.B.E. (Hon.).
Director of Health, Dr. Halim Abu Rahmeh, M.B.E. (Hon.).
Director of Education, Samir El Rifai.
Director of Agriculture, Ali Bey Tabbara, M.B.E. (Hon.).
Director of Customs, P. Livingstone.
Director of Lands, A. P. Mitchell.
Director of Development, M. G. Ionides.
Treasurer, Abdullah Hamud.
Attorney-General, Nikola Ghanmeh.
O.C. Arab Legion, Lieut.-Col. F. G. Peake, C.B.E.
Second in Command, Arab Legion, Major J. B. Glubb, O.B.E., M.C.

MISCELLANEOUS ISLANDS.

A number of islands and rocks throughout the world are British territory, or under British protection, but are not included in any Colony or separate Protectorate. Many of these have no permanent inhabitants, but are, or have been, leased by the Lords Commissioners of the Treasury for guano collection, or for coconut planting. The rents are paid into the Exchequer. Among such may be mentioned the Ashmore Group (Indian Ocean), Bird Island and Cato Island (in the Norfolk Island Group). Raine Island, and Bell Cay (near British New Guinea), leased to Messrs. Grice, Sumner, and Co., Caroline Island, Flint Island and Vostoc Island, (Pacific Ocean, 9° 56′ S. lat., 150° 6′ W. long., and 11° 26′ S. lat., and 151° 48′ W. long.), leased to S. R. Maxwell and Co., Ltd. of New Zealand, Malden Island (4° 1′ S. lat. 155° 57′ W. long.) and Starbuck Island; and there are many others.
